Auburn University Bulletin — Volume 121 May 2026

A Land-Grant University

Auburn's bulletin provides a listing of academic programs, degree requirements and details about policies.

Auburn University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award Bachelor's, Master's, Education Specialist, and Doctoral degrees. Questions about the accreditation of Auburn University may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (https://nam11.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.sacscoc.org%2F&data=05%7C01%7Cckc0023%40auburn.edu%7Ca1efa3a3aea6429128f708da86d807fb%7Cccb6deedbd294b388979d72780f62d3b%7C1%7C0%7C637970559642333662%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=XaDV4oh7ger25KjWUCgpkVo4Rt67cDWzGoDfaLQ2EQI%3D&reserved=0).

Auburn University is an equal opportunity educational institution/employer.

- College of Agriculture
- College of Architecture, Design and Construction
- Raymond J. Harbert College of Business
- College of Education
- Samuel Ginn College of Engineering
- College of Forestry, Wildlife and Environment
- College of Human Sciences
- College of Liberal Arts
- College of Nursing
- James Harrison College of Pharmacy
- College of Sciences and Mathematics
- College of Veterinary Medicine
- University College

Agricultural Economics and Rural Sociology 208
Agribusiness Minor 213

Agricultural Business & Economics (AGEC) 214
Natural Resources Economics and Environmental Policy Minor 215
Rural and Community Development Minor 216
Crop, Soil and Environmental Sciences 216
Crop and Soil Sciences (CSSN) 222
Crop and Soil Sciences Minor 224
Crop and Soil Sciences — Turfgrass Option (CSTU) 224
Environmental Sciences (ENVI) 226
Stewardship-based Agriculture Minor 227
Animal Sciences 228
Animal Sciences Minor 232
Animal Sciences — Animal Industries Option (ANIN) 233
Animal Sciences — Pre-Veterinary & Animal Biosciences Option (ANPB) 234
Biosystems Engineering 236
Biological and Agricultural Technology Management (BATM) 242
Entomology and Plant Pathology 243
Applied Biotechnology (APBT) 249
Entomolgy Minor 251
Plant Pathology Minor 251
School of Fisheries, Aquaculture and Aquatic Sciences 251
Fisheries, Aquaculture, and Aquatic Science Minor 256
Fisheries, Aquaculture, and Aquatic Sciences — Fisheries and Aquaculture Option (FIFA) 257
Fisheries, Aquaculture, and Aquatic Sciences — Marine Resources Management Option (FIMR) 258
Fisheries, Aquaculture, and Aquatic Sciences — Pre-Professional Option (FIPV) 259
Horticulture 260
Agricultural Science (AGSC) 264
Horticulture Minor 265
Horticulture — Fruit and Vegetable Production Track (HRTB) 266
Horticulture — Landscape Horticulture Track (HRTB) 268
Horticulture — Nursery and Greenhouse Science Track (HRTB) 269
Horticulture — Pre-Landscape Architecture Track (HRTB) 270
Poultry Science 272
Poultry Science Minor 275
Poultry Science — Pre-Veterinary Medicine Option (POPV) 275
Poultry Science — Production Option (POPP) 277
General Agriculture 278
Agricultural Communications (AGCM) 278
Majors 280
Minors 280

Agricultural Leadership Studies Minor 280
College of Architecture, Design and Construction 281
School of Industrial and Graphic Design 301
Graphic Design (GDES) 305
Industrial and Graphic Design Processes Minor 307
Industrial Design (INDD) 307
McWhorter School of Building Science 309
Building Science (BSCI) 314
School of Architecture, Planning and Landscape Architecture 316
Architecture (Foundation Unit) (ARCH) 327
Architecture (Summer Design) (ARCH) 329
Architecture/Interior Architecture (Foundation Unit) (ARIA) 333
Architecture/Interior Architecture (Summer Design) (ARIA) 336
Environmental Design (ENVD) 339
Environmental Design Minor 341
Environmental Design — Pre-Landscape Architecture Track (ENVD) 341
History of Architecture and the Built Environment Minor 343
Landscape Architecture (LAND) 343
Majors 345
Raymond J. Harbert College of Business 345
School of Accountancy 369
Accountancy (ACCT) 372
Accountancy Minor 373
Accountancy — Online Option for Second Degree Candidates (ACCT) 373
Certificate in Accountancy 374
Business Analytics and Information Systems 375
Business Analytics (BUAL) 382
Business Analytics Minor 383
Business-Engineering-Technology Minor 384
Information Assurance Minor 384
Information Systems Management (ISMN) 384
Information Systems Management Minor 385
Finance 385
Finance (FINC) 389
Finance Minor 390
International Business Minor 390
Real Estate Development Minor 390
Management and Entrepreneurship 391
Business Administration (BSAD) 395

Business Administration — Online Completer Program (BSAD) 396
Entrepreneurship and Family Business Minor 397
Human Resource Management Minor 398
Management (MNGT) 398
Organizational Leadership Minor 399
Marketing 399
Marketing (MKTG) 402
Marketing Minor 403
Professional Sales Minor 403
Supply Chain Management 403
Supply Chain Management (SCMN) 407
Supply Chain Management Minor 408
Majors 409
Minors 409
Business Minor 409
Honors Business Minor 410
College of Education 410
Teacher Education Information 468
Curriculum and Teaching 471
Agriscience Education (CAGB) 489
Business and Marketing Education (CBMB) 490
Chemistry Education (CCHB) 492
Community Music Minor 493
Early Childhood Education (CECB) 493
Elementary Education (CEEB) 494
English Language Arts Education (CEGB) 496
French Education (CFRB) 498
General Science Education (CSIB) 499
General Social Science Education/History (CSTB) 501
German Education (CGRB) 502
Mathematics Education (CMAB) 503
Music Education: Instrumental and Vocal (CMCB) 505
Office Systems Management Minor 507
Physics Education (CPHB) 507
Science Teaching Double Major 508
Spanish Education (CSNB) 509
Special Education for Health and Related Service Professionals Minor 510
Educational Foundations, Leadership and Technology 510
Training and Workforce Development Minor 521

School of Kinesiology 521
Exercise Science (KESB) 536
Exercise, Performance & Health Optimization (EPHB) 537
Sport Coaching Minor 538
Special Education, Rehabilitation, and Counseling 539
Counselor Education – Clinical Mental Health Counseling Option — MEd 553
Counseling Minor 553
Counseling Psychology — MA, PhD 554
Counselor Education — PhD 555
Collaborative Teacher Education (RSCB) 556
Early Childhood/Elementary Special Education: P–6 (RSDB) 557
Rehabilitation and Disability Studies (RSRB) 559
EAGLES Program 560
Inclusive Elementary Education Practices — Graduate Certificate 561
Counselor Education – School Counseling Option (Certification) — MEd 561
Majors 562
Minors 562
Samuel Ginn College of Engineering 562
Aerospace Engineering 625
Aerospace Engineering (AERO) 630
Biosystems Engineering 631
Biosystems Engineering — Bioprocess Engineering Option (BPEN) 637
Biosystem Engineering — Forest Engineering Option (FOEN) 639
Biosystems Engineering (BSEN) 640
Biosystems Engineering — Ecological Engineering Option (ECEN) 642
Chemical Engineering 643
Certificate in Pulp, Paper, and Bio-Resources Engineering 649
Chemical Engineering (CHEN) 649
Civil and Environmental Engineering 650
Civil Engineering (CIVL) 665
Computer Science and Software Engineering 666
Bachelor of Computer Science (On-line) (CPSC) 675
Certificate in Artificial Intelligence Engineering 676
Certificate in Cyber Defense 677
Computer Science (CSCI) 677
Computer Science Minor 678
Minor in Information Technology 679
Software Engineering (SENG) 679
Electrical and Computer Engineering 680

Computer Engineering (CMPE) 688
Electrical Engineering (ELEC) 690
Industrial and Systems Engineering 691
Advanced Manufacturing Processes Minor 700
Business Engineering Technology Minor 700
Certificate in Applied Safety and Ergonomics 701
Certificate in Manufacturing Systems 701
Industrial and Systems Engineering (INSY) 702
International Business Engineering Technology Minor 703
Mechanical Engineering 704
Material Engineering Minor 715
Material Science Minor 715
Materials Engineering (MATL) 716
Mechanical Engineering (MECH) 717
Nuclear Power Generation Systems 718
Tribology Minor 718
Majors 719
Minors 719
College of Forestry, Wildlife and Environment 719
Environmental Conservation and Management (ENVC) 741
Forestry (FORB) 743
Geospatial and Environmental Informatics (GSEI) 745
Parks and Recreation Management (PARK) 747
Sustainable Biomaterials and Packaging (BIOP) 749
Wildlife Ecology and Management (WLDE) 750
Wildlife Enterprise Management (WLEM) 752
Wildlife Sciences Pre-Vet (WLPV) 754
Majors 756
Minors 756
Coastal Management Minor 756
Conservation Social Sciences Minor 757
Environmental Law Minor 757
Forest Health Minor 758
Forest Resources Minor 758
Forest Seedling Nursery Management Minor 758
Natural Resources Ecology Minor 759
Nature-Based Recreation Minor 760
Restoration Ecology Minor 760
Tropical Conservation and Sustainable Development Minor 761

Urban Forestry Minor ... 761
Watershed Sciences Minor ... 762
College of Human Sciences ... 762
Consumer and Design Sciences ... 788
Apparel Merchandising, Design and Production Management — Apparel Merchandising Option (APME) ... 796
Apparel Merchandising, Design and Production Mngt. — Apparel Design and Prod. Mngt Option (APDP) ... 798
Certificate in Financial Planning ... 799
Interior Design (INDS) ... 800
Philanthropy and Non-Profit Studies (PNPS) ... 802
Philanthropy and Non-Profit Studies Minor ... 803
Horst Schulze School of Hospitality Management ... 804
Hospitality Management — Culinary Science Option (CULI) ... 809
Hospitality Management — Event Management Option (EVMT) ... 811
Hospitality Management — Hotel and Restaurant Management Option (HRMG) ... 812
Human Development and Family Science ... 814
Global Studies ... 821
Human Development and Family Science (HDSC) ... 823
Human Development and Family Science — Child Life Option (HDCH) ... 824
Human Development and Family Science — Early Child Development Option (HDED) ... 825
Health and Human Development Minor ... 827
Human Development and Family Science Minor ... 828
Certificate in Health Equity Science ... 829
Nutritional Sciences ... 829
Nutrition — Nutrition Science Option (NSPM) ... 835
Nutrition — Nutrition Science (NSPM) Pre-Anesthesiology ... 836
Nutrition — Nutrition Science (NSPM) Pre-Pharmacy ... 837
Nutrition — Nutrition/Dietetics Option (NTDI) ... 838
Nutrition — Wellness Option (NTWE) ... 840
Majors ... 841
Minors ... 841
Honors International Minor in Human Sciences ... 841
Hunger Studies Minor ... 842
International Minor in Human Sciences ... 843
College of Liberal Arts ... 845
Art and Art History ... 955
Animation Minor ... 961
Art (ATLA) ... 961
Art History Minor ... 962
Art — Formal Option in Art History (ARTH) ... 962

BFA Art — Studio/Fine Arts (ARTF) 963
Photography Minor 965
Studio Art Minor 965
School of Aviation 965
Aviation Management (AVMN) 978
Certificate in Aviation Hospitality Management 980
Professional Flight (AVPF) 980
Aviation Management Minor 982
School of Communication and Journalism 982
Communication (COMM) 1005
Communication Minor 1006
Film and Media Studies (FMDA) 1006
Film and Media Studies — Film Option (FILM) 1008
Intercultural Communication Minor 1009
Journalism (JRNL) 1009
Journalism Minor 1011
Journalism — Sports Production Option (JRSP) 1011
Media Studies Minor 1012
Public Relations (PRCM) 1013
Public Relations Minor 1014
Sport Communication Minor 1015
Economics 1015
Economics Minor 1019
Economics: Primary Track (ECNL) 1019
Economics: Quantitative Track (ENCL) 1020
English 1021
English Minor 1029
English Minor (Creative Writing) 1029
English Minor (Technical & Professional Communication) 1029
English: Creative Writing (EGLC) 1029
English: Literature (EGLL) 1031
English: Professional and Public Writing (EGLW) 1032
Linguistics Minor 1033
Medieval and Renaissance/Early Modern Studies Minor 1033
History 1033
History (HIST) 1042
History Minor 1043
Music 1044
Music (BMU): Piano Track (MSLA) 1057

Music (BA) (MULA) 1059
Music (BMU): Commercial Music Track (MSLA) 1060
Music (BMU): Composition (Technology) Track (MSLA) 1062
Music (BMU): Instrumental Track (MSLA) 1063
Music (BMU): Voice Track (MSLA) 1065
Music Business Minor 1066
Music Minor 1066
Philosophy 1067
Philosophy (PHIL) 1071
Philosophy and Religion Minor 1072
Philosophy Minor 1072
Political Science 1072
Certificate in National Security and Intelligence 1085
Health Services Administration (HADM) 1086
Latin American Studies Minor 1087
Law and Justice (LAWJ) 1088
Political Science (POLI) 1089
Political Science Minor 1090
Public Administration (PUBA) 1090
Public Administration Minor 1091
Psychological Sciences 1092
Neuroscience (NSCI) 1098
Psychology (PSYC) 1099
Psychology Minor 1100
Sociology, Anthropology and Social Work 1101
Anthropology (ANTH) 1110
Anthropology Minor 1111
Social Work (SOWO) 1111
Social Work Minor 1112
Sociology (SOCY) 1112
Sociology Minor 1113
Speech, Language, and Hearing Sciences 1113
Speech, Language, and Hearing Sciences (SLHS) 1118
Theatre and Dance 1120
Arts Administration Minor 1126
BA Theatre (THLA) 1127
BFA Theatre — Design/Technology (THEA) 1129
BFA Theatre — Management (THEA) 1130
BFA Theatre — Music Theatre (THEA) 1131

BFA Theatre — Performance (THEA) 1133
Dance Minor 1134
Theatre Minor 1134
World Languages, Literatures, and Cultures 1135
Asian Studies Minor 1150
Certificate in Workplace Intercultural Competence 1150
Classics Minor 1151
French (FLFR) 1151
French Linguistics Minor 1152
French Minor 1153
French — International Trade (FLFT) 1153
German (FLGR) 1154
German Linguistics Minor 1155
German Minor 1156
German — International Trade (FLGT) 1156
Global Cultures Minor 1157
International Studies in Liberal Arts (ISLA) 1157
Italian Studies Minor 1159
Spanish (FLSP) 1159
Spanish Linguistics Minor 1160
Spanish Minor 1160
Spanish — International Trade (FLST) 1161
Majors 1162
Minors 1162
African American and Africana Studies Minor 1162
Women's and Gender Studies Minor 1162
Options 1162
College of Nursing 1163
Nursing — Traditional (NURS) 1173
Nursing, RN to BSN (NURS) 1176
James Harrison College of Pharmacy 1177
Drug and Biopharmaceutical Sciences (DBPS) 1196
College of Sciences and Mathematics 1197
Biological Sciences 1246
Biological Sciences Minor 1258
Genetics (GENE) 1258
Marine Biology (MARB) 1260
Microbial, Cellular & Molecular Biology — Cell & Molecular Biology Option (MCCM) 1262
Microbial, Cellular & Molecular Biology — Microbiology Option (MCMB) 1263

Microbiology (MCMB) — Pre-Med (MMCB), Pre-Den (DMCB), Pre-Opt (OMCB) 1264
Microbiology (MCMB) — Pre-Physical Therapy (TMCB), Pre-Physician Assistant (AMCB) 1265
Organismal Biology (IBIO) — Pre-Med (MIBO), Pre-Den (DIBO), Pre-Opt (OIBO) 1267
Organismal Biology (IBIO) — Pre-Physical Therapy (TIBO), Pre-Physician Assistant (AIBO) 1268
Organismal Biology — Conservation and Biodiversity Option (CONS) 1269
Organismal Biology — Ecology, Evolution, and Behavioral Option (ECEB) 1271
Organismal Biology — Integrative Biology Option (IBIO) 1272
Chemistry & Biochemistry 1273
BA Chemistry (CHMA) 1280
BA Chemistry (CHMA): Forensics Track 1282
BA Chemistry — Pre-Med (MCHA), Pre-Den (DCHA), Pre-Opt (OCHA) 1283
Biochemistry (BCHM) 1284
Chemistry (CHEM) 1286
Chemistry Minor 1287
Laboratory Science (LBSC) 1287
Laboratory Science (LBSC) - Histotechnology Track 1289
Laboratory Science — Pre-Medicine (MLBS) 1290
Laboratory Science — Pre-Physician Assistant (ALBS) 1291
Medical Laboratory Science (MLSC) 1293
Geosciences 1294
Certificate in Geographic Information Systems (GIS) 1302
Geography and Environmental Studies (GEST) 1303
Geography Minor 1304
Geology (GEOL) 1304
Geology Minor 1306
Geology — Earth System Science Option (ESYS) 1306
Mathematics & Statistics 1308
Applied Mathematics Option (AMTH) 1325
Applied Mathematics — Actuarial Science Option (ACTU) 1326
Applied Mathematics — Applied Discrete Mathematics Option (APDM) 1327
Mathematics (MATH) 1329
Mathematics Minor 1330
Statistics Minor 1330
Physics 1330
Physics (PHYS) 1334
Physics Minor 1335
Physics — Pre-Med (MPHY), Pre-Den (DPHY), Pre-Opt (OPHY) 1335
Physics — Pre-Physical Therapy (TPHY), Pre-Physician Assistant (APHY) 1337
Pre-Health Professional Curricula 1338

Biomedical Sciences (BMSC) 1342
Biomedical Sciences (BMSC) - IBMS, ABSM, TBMS 1343
Biomedical Sciences (BMSC) — Pre-Med (MBMS), Pre-Den (DBMS), Pre-Opt (OBMS) 1345
Biomedical Sciences — Pre-Anesthesiologist Assistant (NBMS) 1346
Biomedical Sciences — Pre-Pharmacy (RBMS) 1347
Genetics — Pre-Med (MGEN), Pre-Den (DGEN), Pre-Opt (OGEN) 1348
Genetics — Pre-Vet (VGEN) 1350
Microbiology/Pre-Veterinary Medicine Option (VMCB) 1352
Organismal Biology — Pre-Veterinary Medicine Option (VIBO) 1353
Majors 1355
Minors 1355
College of Veterinary Medicine 1355

Veterinary Medicine — DVM 1372
University College 1374
Certificate in Contemporary Korea 1377
Informational and Cyber Analysis Minor 1377
Interdisciplinary Studies (IDSC) 1377
Leadership Minor 1378
Sustainability Studies Minor 1380
Exploratory Major 1380
Honors College 142
Interdepartmental Undergraduate Programs 1384
Reserve Officers' Training Corps 1385
Air Force Aerospace Studies 1388
General Military Course 1389
Professional Officer Course 1389
Military Science 1390
Naval Science 1391
Faculty 1394
Undergraduate Majors 29
Undergraduate Minors 40
Accelerated Bachelor's/Master's (ABM) Programs 1468
Accountancy — ABM 1471
Aerospace Engineering — ABM 1472
Agricultural Economics and Rural Sociology — ABM 1472

Biological and Agricultural Technology Management — ABM 1474
Biological Sciences - ABM 1474
Biosystems Engineering — ABM 1477
Chemical Engineering — ABM 1479
Civil Engineering — ABM 1480
Computer Science and Software Engineering — ABM 1481
Consumer and Design Sciences — ABM 1482
Crop, Soil, and Environmental — ABM 1485
Data Science and Engineering — ABM 1486
Electrical and Computer Engineering — ABM 1487
Entomology and Plant Pathology — ABM 1488
Fisheries, Aquaculture, and Aquatic Sciences — ABM 1490
Geography — ABM 1491
Geology — ABM 1492
Global Studies — ABM 1493
Horticulture — ABM 1494
Industrial and Organizational Psychology — ABM 1496
Industrial and Systems Engineering — ABM 1498
Industrial Design — ABM 1499
Materials Engineering — ABM 1500
Mechanical Engineering — ABM 1501
Nutrition — ABM 1502
Physics — ABM 1503
Poultry Science — ABM 1504
Public Administration — ABM 1505
Graduate School 1507
Admissions 1507
Registration 1511
Academic Progress 1513
International Opportunities 1516
Graduate Assistantships & Fellowships 1518
Doctoral Degrees 1522
Master's Degree Program 1525
Specialist in Education Degree 1528
Graduate Policies 155
Graduate Programs 1542
Aerospace Engineering — MS, PhD 1545
Aerospace Engineering — MS 1546
Aerospace Engineering — PhD 1547

Agricultural Economics — MS, MAg; Applied Economics — PhD ... 1547
Agricultural Economics — MAg ... 1549
Agricultural Economics — MS ... 1549
Applied Economics (Agriculture) — PhD ... 1550
Animal Sciences — MS, MAg, PhD ... 1550
Animal Sciences — MAg ... 1551
Animal Sciences — MS ... 1551
Animal Sciences — PhD ... 1552
Architecture – Public Interest Design Option — MS ... 1552
Audiology — AuD ... 1552
Biological Sciences — Graduate Certificate, MS, PhD ... 1555
Biological Sciences — MS ... 1555
Biological Sciences — MS (Non-Thesis, Pre-Professional Option) ... 1555
Biological Sciences — PhD ... 1555
Computational Biology — Graduate Certificate ... 1556
Biomedical Sciences — MS, PhD ... 1556
Biomedical Sciences — MS ... 1557
Biomedical Sciences — PhD ... 1557
Bioproducts and Bioprocessing — Graduate Certificate ... 1557
Biosystems Engineering — MS, PhD ... 1558
Biosystems Engineering — MS ... 1558
Biosystems Engineering — PhD ... 1559
Brewing Science and Operations — Graduate Certificate, MS ... 1559
Building Construction — Graduate Certificates, MBC, PhD ... 1560
Building Construction — MBC ... 1560
Building Construction — PhD ... 1562
Construction Management — Graduate Certificate ... 1563
Executive Technical Construction Management — Graduate Certificate ... 1563
Integrated Processes Construction Management — Graduate Certificate ... 1563
Business — MBA, MS, PhD ... 1564
Business Administration — MBA ... 1565
Business - (Concentrations in Finance, Information Systems, Management, and Supply Chain Management) — PhD ... 1566
Business (Information Systems Management) — PhD ... 1566
Business Analytics — Graduate Certificate ... 1567
Business (Management) — PhD ... 1567
Business (Management Concentration) — PhD ... 1568
Chemical Engineering — MS, PhD ... 1568
Chemical Engineering — MS ... 1569
Chemical Engineering — PhD ... 1570

Chemistry and Biochemistry — MS, PhD 1570
Chemistry — MS 1571
Chemistry — PhD 1571
Civil Engineering — MCE, MS, PhD 1571
Civil Engineering — MCE 1572
Civil Engineering — MS 1572
Civil Engineering — PhD 1573
Communication — Graduate Certificate, MA 1573
Communication Studies — Graduate Certificate 1575
Communication — MA 1575
Crop, Soil and Environmental Sciences — Graduate Certificate, MS, MAg, PhD 1576
Crop, Soil and Environmental Sciences — MS 1577
Crop, Soil and Environmental Sciences — MAg 1577
Crop, Soil and Environmental Sciences — PhD 1577
Crop and Soil Science — Graduate Certificate 1577
Community Planning — MCP 1578
Computer Science and Software Engineering — Graduate Certificate, MS, PhD 1579
Artificial Intelligence Engineering — MS 1579
Artificial Intelligence Engineering — Graduate Certificate 1579
Computer Science and Software Engineering — MS 1580
Computer Science and Software Engineering (Distance) — MS 1580
Computer Science and Software Engineering — PhD 1581
Cybersecurity Engineering — Graduate Certificate, MS 1581
Data Engineering — Graduate Certificate 1582
Data Science and Engineering (On Campus or Online) — MS 1582
Consumer and Design Sciences — MS, PhD 1583
Consumer and Design Sciences — MS 1584
Consumer and Design Sciences — PhD 1585
Curriculum and Teaching — Graduate Certificates, MEd, MS, EdS, PhD 1586
Agriscience Education — MEd/MS, EdS 1588
Business and Marketing Education — MEd/MS, EdS 1591
Career and Technical Education — PhD 1594
Early Childhood Education — MEd/MS, EdS, PhD 1595
Education: French or Spanish — MEd/MS, EdS 1597
Elementary Education — MEd/MS, EdS, PhD 1602
English Language Arts Education — MEd/MS, EdS, PhD 1605
English for Speakers of Other Languages — MEd 1608
Mathematics Education — MEd, EdS, PhD 1609
Music Education: Instrumental or Vocal — MS, MEd, EdS, PhD 1612

Reading Education — MEd/MS, PhD 1616
Science Education: General Science, Biology, Chemistry, or Physics — MEd/MS, EdS, PhD 1617
Social Science Education: General Social Science or History — MEd, EdS, PhD 1627
Teaching English for Specific Purposes — MS (Non-Certification) 1632
Community Music — Graduate Certificate 1632
Reading Instruction — Graduate Certificate 1633
Teaching English as a Second Language/Teaching English as a Foreign Language — Graduate Certificate 1633
CyberSecurity Management — Graduate Certificate 1634
Development Practice — MDP 1634
Earth System Science — Interdisciplinary PhD 1635
Economic Development — Graduate Certificate 1637
Economics — MS 1638
Economics (Forestry) — PhD 1639
Applied Economics (Liberal Arts Track) — PhD 1639
Ecosystems Engineering — Graduate Certificate 1641
Educational Foundations, Leadership and Technology — Graduate Certificates, Minor, MEd, MS, EdS, PhD 1641
Administration of Elementary and Secondary Education — MEd, EdS, PhD 1643
Administration of Higher Education — MEd, PhD 1645
Administration of Supervision and Curriculum — MEd, PhD 1647
Adult Education — MEd/MS, EdS, PhD 1648
Adult Education and English Language Teaching — Graduate Certificate 1649
College/University Teaching — Graduate Certificate 1649
Critical Studies in Education — Minor 1650
Extension Educator — Graduate Certificate 1650
Educational Leadership — Graduate Certificate 1650
Educational Psychology — PhD 1651
Educational Research, Measurement, and Evaluation — MS 1651
Instructional Leadership — Graduate Certificate 1652
Instructional Technology for Distance Education — Graduate Certificate 1652
Program Evaluation — Graduate Certificate 1653
Technology Educator — Graduate Certificate 1653
Workforce Education, Training, and Development — Graduate Certificate 1654
Electrical Engineering — MS, PhD 1654
Electrical Engineering — MS 1655
Electrical Engineering — PhD 1655
English — Graduate Certificate, MA, MTPC, PhD 1656
English — MA 1659
English — PhD 1659
Master of Technical and Professional Communication — MTPC 1659

Technical Communication — Graduate Certificate 1659
Entomology — MS, MAg, PhD 1660
Entomology — MAg 1661
Entomology — MS 1661
Entomology — PhD 1662
Finance — MS, PhD 1662
MS Finance 1663
Business (Finance Concentration) — PhD 1663
Fisheries and Allied Aquacultures — MAq, MS, PhD 1664
Fisheries, Aquaculture, and Aquatic Sciences — MAq 1665
Fisheries, Aquaculture, and Aquatic Sciences — MS 1665
Fisheries, Aquaculture, and Aquatic Sciences — PhD 1666
Food Science — MAg, MS, PhD 1666
Food Science — MAg 1667
Food Science — MS 1667
Food Science — PhD 1668
Forestry — Graduate Certificate, MNR, MS, PhD 1668
Applied Economics (Forestry) — PhD 1669
Forest Business & Investment — MS 1669
Forest Finance & Investment — Graduate Certificate 1671
Forestry — MS 1671
Forestry — PhD 1672
Natural Resources — MNR 1672
Restoration Ecology — Graduate Certificate 1672
Geographic Information Science — Graduate Certificate 1672
Geography and Environmental Studies — MS 1673
Geology — MS 1673
Geotechnical Engineering — Graduate Certificate 1674
Health Equity Science — Graduate Certificate 1674
History — MA, PhD, Graduate Certificate 1675
History — MA 1678
History — PhD 1679
Public History — Graduate Certificate 1679
Horticulture — MS, MAg, PhD 1680
Horticulture — MAg 1680
Horticulture — MS 1681
Horticulture — PhD 1681
Public Horticulture — Graduate Certificate 1681
Hospitality Management — MS, PhD 1681

Hospitality Management — MS 1682
Hospitality Management — PhD 1682
Human Development and Family Science — Graduate Certificate, MS, PhD 1683
Child Life — MS 1684
Human Development and Family Science — MS 1684
Human Development & Family Science, Marriage & Family Therapy Option — MS (Thesis & Non-Thesis) 1685
Human Development and Family Science — PhD 1686
Advanced Research Methods for Human Sciences — Graduate Certificate 1686
Health Equity Science — Graduate Certificate 1674
Industrial Design — MID 1687
Industrial and Systems Engineering — Graduate Certificate, MS/MBA, MS, MEM, PhD 1688
Automotive Manufacturing Systems — Graduate Certificate 1689
Engineering Management — MEM 1689
Industrial and Systems Engineering — MS 1691
Industrial and Systems Engineering — PhD 1691
Manufacturing Systems — Graduate Certificate 1691
Modeling and Data Analytics for Operations — Graduate Certificate 1692
Occupational Safety & Ergonomics — Graduate Certificate 1692
Kinesiology — Graduate Certificate, MS, DPT, PhD, Minor 1693
Exercise, Performance & Health Optimization — MS 1695
Exercise Science — MS 1695
Kinesiology — PhD 1696
Movement Skill Analysis — Graduate Certificate 1696
Physical Education/Teacher Education — MS 1696
Physical Therapy — DPT 1698
Sport Management — Minor 1699
Landscape Architecture — MLA 1700
Management Information Systems — Graduate Certificate 1702
Master of Accountancy — MAcc, Graduate Certificate 1702
Accountancy — MAcc 1702
Accountancy — Graduate Certificate 1703
Master of Engineering 1704
Materials Engineering — MS, PhD 1704
Materials Engineering — MS 1704
Materials Engineering — PhD 1705
Mathematics and Statistics — MAM, MS, PhD 1705
Applied Mathematics Non-Thesis — MAM 1706
Data Science — Graduate Certificate 1706
Mathematics Option Thesis — MS 1707

Mathematics — PhD ... 1707
Statistics (Non-Thesis) — MS ... 1707
Mechanical Engineering — MS, PhD ... 1707
Mechanical Engineering — MS ... 1708
Mechanical Engineering — PhD ... 1708
Medicinal Chemistry — Graduate Certificate ... 1709
Medicinal Chemistry Option — MS ... 1709
Medicinal Chemistry Option (Non-Thesis) — MS ... 1710
Medicinal Chemistry Option — PhD ... 1710
Natural Resources — MNR, MS ... 1711
Natural Resources — MNR ... 1712
Natural Resources — MS ... 1712
Professional Forester Option — MNR ... 1712
Neuroscience — Graduate Certificate ... 1714
Nursing — DNP ... 1714
Nursing — PhD ... 1716
Nursing — MSN ... 1719
Nursing Education — Graduate Certificate ... 1720
Primary Care Nurse Practitioner — Graduate Certificate ... 1721
Nurse Practitioner Primary Care — MSN ... 1722
Nurse Educator — MSN ... 1723
Nutrition — MS, PhD ... 1724
Nutrition — MS ... 1727
Nutrition — PhD ... 1728
One Health — Graduate Certificate ... 1729
Pavement Analysis and Design — Graduate Certificate ... 1729
Pavement Materials — Graduate Certificate ... 1730
Pharmaceutical Sciences: Health Outcomes Research and Policy Option — MS ... 1730
Pharmaceutical Sciences: Health Outcomes Research and Policy Option (Non-Thesis) — MS ... 1731
Pharmaceutical Sciences: Health Outcomes Research and Policy Option — PhD ... 1732
Pharmaceutical Sciences — MS, PhD ... 1733
Pharmaceutical Sciences: Pharmaceutics Option — PhD ... 1734
Pharmaceutical Sciences: Pharmaceutics Option — MS ... 1734
Pharmaceutics Option (Non-Thesis) — MS ... 1735
Pharmacology Option — MS ... 1736
Pharmacology Option (Non-Thesis) — MS ... 1736
Pharmacology Option — PhD ... 1737
Physics — MS, PhD ... 1738
Physics — MS ... 1738

Physics — PhD 1739
Plant Pathology — MAg, MS, PhD 1739
Plant Pathology — MAg 1741
Plant Pathology — MS 1741
Plant Pathology — PhD 1741
Political Science Graduate Programs — Graduate Certificate, MPA, PhD 1742
Public Administration and Public Policy — PhD 1747
Public Administration — MPA 1747
Election Administration — Graduate Certificate 1748
Global Public Service — Graduate Certificate 1748
NonProfit Organizations and Community Governance — Graduate Certificate 1749
Economic Development — Graduate Certificate 1637
Polymer and Fiber Engineering — MS, PhD 1750
Polymer Engineering — Graduate Certificate 1750
Poultry Science — MAg, MS, PhD 1751
Poultry Science — MAg 1751
Poultry Science — MS 1752
Poultry Science — PhD 1752
Power Engineering — Graduate Certificate 1752
Psychological Sciences — MS, PhD 1752
Industrial & Organizational Psychology (Non-Thesis) — MS 1754
Psychology: Applied Behavior Analysis (Non-Thesis) — MS 1755
Clinical Psychology — PhD 1755
Cognitive and Behavioral Sciences — PhD 1756
Industrial & Organizational Psychology — PhD 1756
Pulp and Paper Engineering — Graduate Certificate 1757
Real Estate Development — MRED 1757
Restoration Ecology — Graduate Certificate 1758
Rural Sociology — MS 1759
Rural Studies — Graduate Certificate 1760
Spanish — MA, MHS 1760
Spanish — MA, MHS 1762
Social Work — MSW 1762
Sociology — MA, MS 1763
Sociology — MA 1764
Sociology — MS 1765
Rural Sociology — MS 1765
Special Education, Rehabilitation, and Counseling — Graduate Certificates, MA, MEd, MS, EdS, PhD 1766
Clinical Rehabilitation Counseling — MEd 1771

Collaborative Teacher Special Education: K–12 — MEd/MS, EdS 1772
Counseling Psychology — MA, PhD 554
Counselor Education — PhD 555
Counselor Education – Clinical Mental Health Counseling Option — MEd 553
Counselor Education – School Counseling Option (Certification) — MEd 561
Early Childhood/Elementary Special Education: P–6 — MEd/MS 1778
Rehabilitation and Special Education — PhD 1780
Inclusive Elementary Education Practices — Graduate Certificate 561
Intervention for Students with Autism & Developmental Disabilities — Graduate Certificate 1781
Transition Specialist — Graduate Certificate 1781
Vocational Evaluation Forensic — Graduate Certificate 1781
Vocational Evaluation Forensic DE — Graduate Certificate 1782
Speech, Language, and Hearing Sciences 1783
Speech, Language, and Hearing Sciences — MS 1784
Statistics — MS 1785
Statistics and Data Science — Phd 1785
Structural Analysis in Structural Engineering — Graduate Certificate 1786
Structural Design in Structural Engineering — Graduate Certificate 1786
Supply Chain Management — Graduate Certificate, MS, PhD 1787
Business (Supply Chain Management Concentration) — PhD 1787
Supply Chain Management — MS 1788
Supply Chain Management Innovation — Graduate Certificate 1789
Supply Chain Operations — Graduate Certificate 1789
Supply Chain Planning — Graduate Certificate 1790
Business Analytics and Information Systems — Graduate Certificate, MS, PhD 1790
Information Systems Management — MS 1791
Business - Information Systems Management — PhD 1791
Business Analytics — Graduate Certificate 1791
Management Information Systems — Graduate Certificate 1702
Tribology — Graduate Certificate 1792
Doctor of Veterinary Medicine — DVM 1792
Veterinary Social Work — Graduate Certificate 1794
Water Environmental Modeling — Graduate Certificate 1795
Water Resources Engineering — Graduate Certificate 1795
Wildlife Sciences — MS, PhD 1796
Wildlife Sciences — MS 1796
Wildlife Sciences — PhD 1796
Wireless Engineering — Graduate Certificate 1797
Post-Masters Healthcare Simulation — Graduate Certificate 1797

Graduate Minors 1797
Advanced Manufacturing Minor 1798
Agricultural Economics Minor 1798
Community Planning Minor 1798
Ecology Minor 1798
Economic Development Minor 1799
Entomology Minor 1799
Environmental Studies Minor 1799
Golf Course Design Minor 1799
Plant Pathology Minor 1800
Psychology of Learning Minor 1800
Rural Sociology Minor 1800
Sport Management Minor 1800
Statistics Minor 1801
Women's and Gender Studies Minor 1801
Alabama Agricultural Experiment Station 1802
Alabama Cooperative Extension System 1808
Faculty 1394
Emeriti 1881
Courses of Instruction 1915
Accounting - ACCT 1918
Adult Education - ADED 1921
Aerospace Engineering - AERO 1923
Aerospace Studies (AFROTC) - AIRF 1927
African American & Africana Studies - AAAS 1928
Agric Economics - AGEC 1928
Agriculture - AGRI 1932
Animal Sciences - ANSC 1933
Anthropology - ANTH 1936
Applied Biotechnology - APBT 1939
Architecture - ARCH 1939
Art - ARTS 1942
Auburn Global - GLOB 1946
Aviation Management - AVMG 1948
Biological & Agricultural Technology Management - BATM 1950
Biochemistry - BCHE 1952
Biology - BIOL 1952
Biomaterials and Packaging - BIOP 1963
Biosystems Engineering - BSEN 1965

Building Science - BSCI 1968
Business Administration - BUSI 1973
Business Analytics - BUAL 1975
Career and Technical - CTCT 1977
Chemical Engineering - CHEN 1981
Chemistry - CHEM 1984
Civil Engineering - CIVL 1989
Communication - COMM 1998
Communication and Journalism - CMJN 2003
Community and Civic Engagement - CCEN 2004
Community Planning - CPLN 2004
Computer Science & Software Engineering - COMP 2006
Computer Science - CPSC 2012
Consumer and Design Sciences - CADS 2014
Cooperative Education - COOP 2021
Counselor Education, Counseling Psychology - COUN 2021
Crop, Soil, and Environmental Sciences - CSES 2026
Drug and Biopharmaceutical Sciences - DBPS 2031
Drug Discovery and Development - DRDD 2033
EAGLES Program - EAGL 2036
Early Childhood Education - CTEC 2037
Earth System Science - ESSI 2039
Economics - ECON 2040

Undergraduate Majors

- College of Agriculture (p. 29)
- College of Architecture, Design, and Construction (p. 29)
- Raymond J. Harbert College of Business (p. 30)
- College of Education (p. 30)
- Samuel Ginn College of Engineering (p. 30)
- College of Forestry, Wildlife and Environment (p. 31)
- College of Human Sciences (p. 31)
- College of Liberal Arts (p. 31)
- College of Nursing (p. 32)
- College of Pharmacy (p. 32)
- College of Sciences and Mathematics (p. 32)
- College of Veterinary Medicine (p. 33)
- University College (p. 33)

College of Agriculture

- Agricultural Business & Economics (p. 214)
- Agricultural Communications (p. 278)
- Agricultural Science (p. 264)
- Animal Sciences — Animal Industries Option (p. 233)
- Animal Sciences — Pre-Veterinary & Animal Biosciences Option (p. 234)
- Applied Biotechnology (p. 249)
- Biological and Agricultural Technology Management (p. 242)
- Biosystems Engineering (p. 640)
- Biosystems Engineering — Bioprocess Engineering Option (p. 637)
- Biosystems Engineering — Ecological Engineering Option (p. 642)
- Biosystems Engineering — Forest Engineering Option (p. 639)
- Crop and Soil Sciences (p. 222)
- Crop and Soil Sciences — Turfgrass Option (p. 224)
- Environmental Science (p. 226)
- Fisheries, Aquaculture, and Aquatic Sciences — Fisheries and Aquaculture Option (p. 257)
- Fisheries, Aquaculture, and Aquatic Sciences — Marine Resources Management Option (p. 258)
- Fisheries, Aquaculture, and Aquatic Sciences — Pre-Professional Option (p. 259)
- Horticulture — Fruit and Vegetable Production Track (p. 266)
- Horticulture — Landscape Horticulture Track (p. 268)
- Horticulture — Nursery and Greenhouse Science Track (p. 269)
- Horticulture — Pre-Landscape Architecture Track (p. 270)
- Poultry Science — Production Option (p. 277)
- Poultry Science — Pre-Veterinary Medicine Option (p. 275)

College of Architecture, Design, and Construction

- Architecture
  - Architecture (Foundation Unit) (p. 327)
  - Architecture (Summer Design) (p. 329)
- Building Science (p. 314)
- Environmental Design (p. 339)
  - Environmental Design — Pre-Landscape Architecture (p. 341)

- Graphic Design (p. 305)
- Industrial Design (p. 307)
- Interior Architecture
  - Architecture/Interior Architecture (Foundation Unit) (p. 333)
  - Architecture/Interior Architecture (Summer Design) (p. 336)
- Landscape Architecture (p. 343)

Raymond J. Harbert College of Business

- Accountancy — On-Campus Option for First Degree Candidates (p. 372)
- Accountancy — Online Option for Second Degree Candidates (p. 373)
- Business Administration — On-Campus Option (p. 395)
- Business Administration — Online Degree Completer Program (p. 396)
- Business Analytics (p. 382)
- Finance (p. 389)
- Information Systems Management (p. 384)
- Management (p. 398)
- Marketing (p. 402)
- Supply Chain Management (p. 407)

College of Education

- Agriscience Education (p. 489)
- Business and Marketing Education (p. 490)
- Chemistry Education (p. 492)
- Collaborative Teacher Special Education: K–12 (p. 556)
- Early Childhood Education (p. 493)
- Early Childhood/Elementary Special Education: P–6 (p. 557)
- Elementary Education (p. 494)
- English Language Arts Education/English (p. 496)
- Exercise, Performance & Health Optimization (p. 537)
- Exercise Science (p. 536)
- French Education (p. 498)
- General Science Education (p. 499)
- General Social Science Education/History (p. 501)
- German Education (p. 502)
- Mathematics Education (p. 503)
- Music Education: Instrumental and Vocal (p. 505)
- Physics Education (p. 507)
- Rehabilitation and Disability Studies (p. 559)
- Science Teaching (p. 508)
- Spanish Education (p. 509)

Samuel Ginn College of Engineering

- Aerospace Engineering (p. 630)
- Biosystems Engineering (p. 640)
- Biosystems Engineering — Bioprocess Engineering Option (p. 637)
- Biosystems Engineering — Ecological Engineering Option (p. 642)
- Biosystems Engineering — Forest Engineering Option (p. 639)
- Chemical Engineering (p. 649)
- Civil Engineering (p. 665)

- Computer Engineering (p. 688)
- Computer Science (p. 677)
- Computer Science — Online Degree Completer Program (p. 675)
- Electrical Engineering (p. 690)
- Industrial and Systems Engineering (p. 702)
- Materials Engineering (p. 716)
- Mechanical Engineering (p. 717)
- Software Engineering (p. 679)

College of Forestry, Wildlife and Environment

- Environmental Conservation and Management (p. 741)
- Forestry (p. 743)
  - Forest Engineering Option (p. 639)
- Geospatial Information Science (p. 745)
- Parks and Recreation Management (p. 747)
- Sustainable Packaging (p. 749)
- Wildlife Ecology and Management (p. 750)
- Wildlife Enterprise Management (p. 752)
- Wildlife Sciences — Pre-Veterinary Medicine (p. 754)
-

College of Human Sciences

- Apparel Merchandising, Design and Production Management — Apparel Merchandising Option (p. 796)
- Apparel Merchandising, Design and Production Management — Apparel Design and Production Management Option (p. 798)
- Global Studies in Human Sciences (p. 821)
- Hospitality Management — Culinary Science Option (p. 809)
- Hospitality Management — Event Management Option (p. 811)
- Hospitality Management — Hotel and Restaurant Management Option (p. 812)
- Human Development and Family Science (p. 823)
- Human Development and Family Science — Child Life Option (p. 824)
- Human Development and Family Science — Early Child Development (p. 825)
- Interior Design (p. 800)
- Nutrition — Nutrition/Dietetics Option (p. 838)
- Nutrition — Nutrition Science Option (pre-professional) (p. 835)
- Nutrition — Nutrition Wellness Option (p. 840)
- Philanthropy and Non-Profit Studies (p. 802)

College of Liberal Arts

- Anthropology (p. 1110)
- Art (p. 961)
- Art History Option (p. 962)
- Art Studio/Fine Arts (p. 963)
- Aviation Management (p. 978)
- Communication (p. 1005)
- Economics — Primary Track (p. 1019)
- Economics — Quantitative Track (p. 1020)
- English — Creative Writing Option (p. 1029)
- English — Literature Option (p. 1031)

- English — Professional and Public Writing Option (p. 1032)
- Film and Media Studies (p. 1006)
- Film and Media Studies — Film Option (p. 1008)
- French (p. 1151)
- French — International Trade Option (p. 1153)
- German (p. 1154)
- German — International Trade Option (p. 1156)
- Health Services Administration (p. 1086)
- History (p. 1042)
- International Studies (p. 1157)
- Journalism (p. 1009)
- Journalism — Sports Production Option (p. 1011)
- Law and Justice (p. 1088)
- Music (BA) (p. 1059)
- Music: Commercial Music track (p. 1060)
- Music: Composition (Technology) track (p. 1062)
- Music: Instrumental track (p. 1063)
- Music: Piano track (p. 1057)
- Music: Voice track (p. 1065)
- Neuroscience (p. 1098)
- Philosophy (p. 1071)
- Political Science (p. 1089)
- Professional Flight (p. 980)
- Psychology (p. 1099)
- Public Administration (p. 1090)
- Public Relations (p. 1013)
- Social Work (p. 1111)
- Sociology (p. 1112)
- Spanish (p. 1159)
- Spanish — International Trade Option (p. 1161)

Vision and Mission

Vision

To lead and shape the future of higher education.

Our vision describes the aspiration for Auburn University 20 years in the future. It is deliberately intended to be lofty—realistic and ever challenging while also bold and ambitious. It is a challenge to ourselves to achieve greatness. Our vision is an invitation to the Auburn Family and those who do not yet know Auburn University to join us in our quest to inspire, innovate, and transform.

Auburn University has established itself as an excellent comprehensive, public land-grant university. However, excellence is not enough. We aspire to become a world-renowned institution that excels in education, research, and service—and to become a model of higher education. We understand that higher education is on the precipice of change. We intend to lead and shape that change.

Our goals describe Auburn University's highest priorities for the next five years. The accomplishment of these goals will best position our institution to achieve its 20-year vision.

Mission

As a land-grant institution, Auburn University is dedicated to improving the lives of the people of Alabama, the nation, and the world through forward-thinking education, life-enhancing research and scholarship, and selfless service.

Auburn University's mission concisely describes our central purpose. Our mission statement begins with a reference to the university's origins and obligations as a public land-grant university. The 1862 *Morrill Act* created institutions of higher education that focused on agriculture and mechanical arts—a response to changing social and economic conditions. Land-grant universities would provide practical solutions to pressing societal problems and provide higher education to a much broader segment of American citizenry. Land-grant universities would eventually serve as the creators of economic opportunity and development. As such, we must never lose sight of the important educational, research and service responsibilities inherent in our land-grant lineage. Subsequent to its founding as a land-grant university, Auburn has also been designated, through federal legislation, as a sea-grant and space-grant university.

Our first responsibility is to **educate our students and prepare them for life**. We endeavor to expand their minds, broaden their experiences, and hone their capabilities by imparting both theoretical knowledge and practical skills. Our goal is to empower and inspire our students to be their very best and to achieve their hopes and dreams. A key element of our public charter and of the *Auburn Creed* is to ensure our students are instilled with a strong work ethic, sound character traits, and core values of honesty and respect. We encourage students to make valuable contributions and to lead their fellow citizens in creating meaningful change. This responsibility to build moral character and inculcate active social responsibility distinguishes the student experience at all land-grant universities, and certainly at Auburn University.

Our second responsibility is to **drive the development of research and scholarship** that creates and advances knowledge. We support, build upon, and leverage the expertise of our faculty, students, and partners to discover, innovate, and create new science, new technologies, and new applications and methodologies that tangibly improve our world.

Our third responsibility, **engagement and outreach**, leverages the value of the first two elements. Our duty is to enable our students, graduates, faculty and partners to transform the fruits of our research and scholarship into products, methods, and services that meet our communities' most pressing needs. Delivering real-world, practical solutions is what sets land-grant universities apart and is core to Auburn University's foundation.

To be among the best land-grant universities, we must continue to excel in all three responsibilities. This requires leveraging the synergy found in the interchange of education, research, and service to maximize our impact on Alabama and the world.

General Information

AUBURN UNIVERSITY, chartered in 1856, is located in Auburn, Alabama, and traces its beginning to the East Alabama Male College, a private liberal arts institution whose doors opened in 1859. From 1861 to 1866 the college was closed because of the Civil War. The college had begun an affiliation with the Methodist Church before the war. Due to financial straits, the church transferred legal control of the institution to the state in 1872, making it the first land-grant college in the South to be established separate from the state university. It thus became the Agricultural and Mechanical College of Alabama.

Women were admitted in 1892, and in 1899 the name again was changed, to the Alabama Polytechnic Institute. In 1960, the school acquired a more appropriate name, Auburn University, a title more in keeping with its location, size, and complexity. The institution has experienced its greatest growth since World War II, and today enrolls more than 30,000 students. The majority are Alabama residents.

Auburn University Montgomery was established as a separately administered branch campus in 1967. The institution has developed rapidly, especially since moving to a 500-acre campus east of Montgomery in 1971. Current enrollment at AUM exceeds 5,000.

Undergraduate Calendar 2025–2026

2025 Summer Semester — Full Term

Date	Event
May 19	Classes Begin
May 20	Last Day to Add Course

May 21 - Jun 2	Drop Course Penalty Days—Dropping a course during these days will result in a $100 Drop Fee per course dropped.
May 26	Memorial Day — No Classes
Jun 2	10th Class Day—Last day to request a meal plan change. Last day to drop from course with no grade assignment.
Jun 19	Juneteenth Holiday — No Classes
Jun 23	Early Alert/Mid-Term Grade Deadline
Jun 23	Mid-Semester — 24th Class Day
Jun 24-25	NO CLASS - Study/Reading day for Mini-Semester I on these days
June 26-27	NO CLASS - Finals for Mini-Semester I on these days
Jul 4	Independence Day — No Classes
Jul 29	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. "W" assigned. Students who need to submit forms to lift holds on their accounts must submit the forms several business days ahead of the deadline to allow for processing.
Aug 1	Classes End
Aug 4-5	Study/Reading Days
Aug 6-8	Final Exam Period
Aug 9	Commencement

2025 Summer Mini-Semester I

Date	Event
May 19	Classes Begin
May 20	Last Day to Add Course
May 21-23	Drop Course Penalty Days—Dropping a course during these days will result in a $100 Drop Fee per course dropped.
May 23	5th Class Day—Last day to drop from course with no grade assignment. Last day for potential tuition refund for dropped classes.
May 26	Memorial Day — No Classes
Jun 4	Early Alert/Mid-Term Grade Deadline
Jun 4	Mid-Semester — 12th Class Day
Jun 18	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. "W" assigned. Students who need to submit forms to lift holds on their accounts must submit the forms several business days ahead of the deadline to allow for processing.
Jun 19	Juneteenth Holiday — No Classes
Jun 23	Classes End
Jun 24-25	NO CLASS - Study/Reading Days for Mini-Semester 1
Jun 26-27	Final Exam Period

2025 Summer Mini-Semester II

Date	Event
Jun 30	Classes Begin
Jul 1	Last Day to Add Course
Jul 2-7	Drop Course Penalty Days—Dropping a course during these days will result in a $100 Drop Fee per course dropped.
Jul 4	Independence Day — No Classes

Jul 7	5th Class Day—Last day to drop from course with no grade assignment. Last day for potential tuition refund for dropped classes.
Jul 16	Early Alert/Mid-Term Grade Deadline
Jul 16	Mid-Semester — 12th Class Day
Jul 29	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. "W" assigned. Students who need to submit forms to lift holds on their accounts must submit the forms several business days ahead of the deadline to allow for processing.
Aug 1	Classes End
Aug 4-5	No Class - Study/Reading Days for Mini-Semester II
Aug 6-8	Final Exam Period
Aug 9	Commencement

2025 Fall Semester

Date	Event
Aug 18	Classes Begin
Aug 18–Sep 8	Resignation Fee—Dropping all courses during this period will result in a $100 resignation fee.
Aug 22	Last Day to Add Course
Aug 23–Sep 8	Drop Course Penalty Days—Dropping a course during these days will result in a $100 Drop Fee per course dropped.
Aug 29	10th Class Day—Last day to request a meal plan change.
Sep 1	Labor Day — No Classes
Sep 8	15th Class Day—Last day to drop from course with no grade assignment. Last day for potential tuition refund for dropped classes.
Oct 7	Early Alert/Mid-Term Grade Deadline
Oct 7	Mid-Semester — 36th Class Day
Oct 9-10	Fall Break
Oct 17	41st Class Day—Student deadline for request to move finals to Associate Deans
Nov 21	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. "W" assigned. Students who need to submit forms to lift holds on their accounts must submit the forms several business days ahead of the deadline to allow for processing.
Nov 24–28	Thanksgiving Holiday — No Classes

Aug 3-4	No Class - Study/Reading Day for Full and Mini-Semester II
Aug 5-7	Final Exam Period for Full and Mini-Semester II
Aug 9	Last day for students to request graduation applications for Fall 2026.
Aug 9	Commencement

Online Calendar 2025–2026

Auburn University reserves the right to make adjustments to this calendar.

Summer 2025

Date	Event
May 19	Classes Begin
May 20	Last Day to Add Course
May 27	Last day to drop course with no grade assigned. Last day for potential tuition refund for dropped classes.
Jun 23	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. “W” assigned.
July 9	Classes and Final Exams End

Fall 2025 Term A

Date	Event
Aug 18	Classes Begin
Aug 19	Last Day to Add Course
Aug 27	Last day to drop course with no grade assigned. Last day for potential tuition refund for dropped classes.
Sept 23	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. “W” assigned.
Oct 9	Classes and Final Exams End

Fall 2025 Term B

Date	Event
Oct 14	Classes Begin
Oct 15	Last Day to Add Course
Oct 22	Last day to drop course with no grade assigned. Last day for potential tuition refund for dropped classes.
Nov 18	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. “W” assigned.
Dec 4	Classes and Final Exams End
Dec 14	Commencement

Spring 2026 Term A

Date	Event
Jan 7	Classes Begin
Jan 8	Last Day to Add Course
Jan 15	Last day to drop course with no grade assigned. Last day for potential tuition refund for dropped classes.
Feb 11	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. “W” assigned.
Feb 25	Classes and Final Exams End

Spring 2026 Term B

Date	Event
Mar 16	Classes Begin
Mar 17	Last Day to Add Course
Mar 24	Last day to drop course with no grade assigned. Last day for potential tuition refund for dropped classes.
Apr 20	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. “W” assigned.

May 1	Classes and Final Exams End
May 2	Commencement

Summer 2026

Date	Event
May 18	Classes Begin
May 19	Last Day to Add Course
May 26	Last day to drop course with no grade assigned. Last day for potential tuition refund for dropped classes.
Jun 22	Last Day to Withdraw—Last day to withdraw from course with no grade penalty. “W” assigned.
Jul 8	Classes and Final Exams End

Auburn University Libraries

Auburn University Libraries consists of three libraries on campus. The largest library on campus is the Ralph Brown Draughon Library, a 377,000 square-foot structure with seating for 4,850. It is co-located with the Mell Classroom Building on Mell Street. Branch libraries are located in the College of Veterinary Medicine and the College of Architecture, Design and Construction. Auburn University is one of the 125 universities that are members of the Association of Research Libraries. AU Libraries serves as a Federal Depository Library for Alabama.

AU Libraries’ collections exceeds 4.6 million volumes, more than 2.7 million items in microform, and 152,000 maps. The libraries license access to over 200 electronic databases, including online full-text access to over 5,000 scholarly journals and receive more than 57,000 current serials, including publications issued by the U.S. government.

The libraries offer an online catalog to library holdings at www.lib.auburn.edu (http://www.lib.auburn.edu/), expedited electronic document delivery to faculty and students via the AubieExpress service, delivery of books or documents held at other libraries via Interlibrary Loan, and expedited purchasing of titles requested by faculty or students via Purchase Request.

The Draughon Library contains the Learning Commons for group study as well as an entire floor dedicated to quiet, individual study. More than 1400 power outlets to allow students to use personal laptops while in the library. RBD Library also offers carrels for faculty and graduate student use and over 200 university and public computer workstations, including laptop computers that can be checked out to faculty and students.

The Innovation and Research Commons (I&RC) provides access to the latest multimedia hardware and software along with on-site expertise to assist users – to include help with the Adobe Creative Cloud. The I&RC also contains a maker space where students from all schools may experiment with 3D printers, laser cutters, electronics stations, sewing machines, and advanced virtual reality and augmented reality equipment.

Reference service and library use instruction is provided by subject-specialist librarians. Draughon Library also features an expanded assistive technology workstation area on the second floor that hold three workstations with specialized software for helping vision-impaired patrons use library and Internet resources.

The Special Collections and Archives Department collects rare and unique material related to the history, literature and natural history of Alabama; the American Civil War; the history of aviation; and family history in the southeastern United States.

Library borrowing privileges are extended to enrolled students; members of the administrative, research, instructional and extension staffs of the university; student, faculty and staff spouses; and active alumni association members.

Enrollment Statistics

- College of Agriculture (p. 63)
- College of Architecture, Design and Construction (p. 65)
- Harbert College of Business (p. 65)
- College of Education (p. 66)
- Samuel Ginn College of Engineering (p. 70)
- College of Forestry, Wildlife and Environment (p. 73)

- Graduate School (p. 73)
- College of Human Sciences (p. 74)
- Interdepartmental Programs (p. 75)
- College of Liberal Arts (p. 75)
- College of Nursing (p. 78)
- Harrison College of Pharmacy (p. 78)
- Provost (p. 78)
- College of Sciences and Mathematics (p. 79)
- College of Veterinary Medicine (p. 81)
- All University (p. 82)
- Enrollment by Alabama County (p. 82)
- Enrollment by State (p. 83)
- U.S. Territories and Possessions (p. 84)
- Enrollment by Foreign Country (p. 85)

Financial Information

Auburn University's fees have remained somewhat lower than those charged by similar institutions in the Southeast and in other sections of the country. As institutional costs have risen, the Board of Trustees has authorized small increases in fees from time to time. Every effort is made, however, to hold fees and charges at a minimum.

The following fees and charges are in effect at this time. However, since the catalog must be published well in advance of the next school year, it is not always possible to anticipate changes. Thus, the fee schedule may have to be revised. Every effort will be made to publicize changes as far in advance as possible.

- Academic Common Market (p. 87)
- Alabama and Non-Alabama Student Policy (p. 88)
- Basic Charges (p. 91)
- Financial Aid and Scholarships (p. 92)
- Other Fees and Charges (p. 93)

In accordance with Public Law 115-407 Sec. 103:

Students utilizing VA education benefits shall not be charged a penalty, including assessment of late fees, denial of access to classes, libraries, or other institutional facilities, or be required to borrow additional funds because of the individual's inability to meet their financial obligations due to the delayed disbursement of a payment to be provided by the Department of Veterans Affairs.

Academic Common Market

The Academic Common Market is an agreement among participating Southern Regional Education Board states (Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia). According to the agreement, if one of these states does not offer a particular degree program in its state-supported universities, a resident of that state may enroll in that degree program at a university in one of the other states without having to pay out-of-state tuition. Each state specifies which programs offered at out-of-state universities it will allow its residents to attend as common market students.

To be eligible for consideration for the Common Market at Auburn, students must be accepted into a degree program that qualifies for academic common market status, classified as a junior or senior at Auburn, and have a 3.0 GPA for all college-level coursework attempted. Auburn students who enter as common market students and do not complete 12 hours per term, do not maintain a 3.0 cumulative GPA, or who do not remain in the originally approved program, lose the waiver of out-of-state tuition.

Since out-of-state residence is a requirement for being a common market student, students may not use the time spent as common market students to qualify them as residents of Alabama.

See the Academic Common Market (https://www.auburn.edu/academic/provost/academic-common-market/) website for more information. Applications for Fall Semester open April 1 and close May 31. Applications for Spring Semester open August 1 and close September 30.

Alabama and Non-Alabama Student Policy

Students enrolled prior to June 1, 1996, should consult with the Office of the Registrar for changes in residency status.

Policy for Students Enrolled for the First Time June 1, 1996, and Thereafter

For the purpose of assessing tuition and fees, applicants shall be classified as Alabama or non-Alabama students. Non-Alabama students are required to pay non-resident tuition.

An Alabama student is a person which shall be a citizen of the United States, or a permanent resident, and who shall have resided and had habitation, home and permanent abode in the state of Alabama for at least 12 consecutive months immediately preceding current registration. In applying this regulation, “applicant” shall mean a person applying for admission to the institution, if applicant is married or 19 years of age, and financially independent. Otherwise, it shall mean parents, parent or legal guardian of his/her person. If the parents are divorced, residence will be determined by the residency of the parent to whom the court has granted custody.

A person who establishes a guardianship for purpose of avoiding non-Alabama fees will be subject to non-resident tuition.

No person who moves to Alabama for the primary purpose of attending college shall be considered to have demonstrated intent to establish domicile in the state of Alabama and will generally not be considered eligible for classification as a resident student. Clear and convincing evidence to the contrary must be presented to overcome this presumption.

In determining Alabama student status for purposes of assessing fees, the burden of proof is on the applicant.

Additional Persons Eligible for Resident Tuition

1. Military personnel on active duty stationed in Alabama, their spouses and dependent children (as defined by Internal Revenue Codes), as well as military personnel whose State of Residence on their Leave and Earnings Statement (LES) is Alabama, who have continuously filed Alabama income tax returns for the duration of their service, and their spouses and dependent children.
2. Non-resident undergraduate students who are currently being awarded an academic, athletic, or other scholarship by Auburn University that is at least equal to the amount of the current tuition rate for Alabama students**,** provided that the scholarship is fully funded by a donor or other external source and non-resident graduate students appointed on qualifying assistantships of at least 1/4-time will be classified as a non-resident for tuition purposes, and the out-of-state portion of tuition will be waived, leaving the student obligated for the equivalent of resident tuition. Institutionally funded scholarships and externally awarded scholarships are excluded from this provision and do not carry with them a waiver of any portion of non-resident tuition costs.
3. Full-time employees of a state of Alabama agency or institution, their spouses and dependent children.
4. Spouse and dependent children of a non-resident, provided the nonresident has been employed in Alabama full-time for at least 12 consecutive months prior to registration, has filed an Alabama Income Tax Return for the tax year prior to the year in which the student is admitted, and did not claim a credit on the Alabama return for income taxes paid to another state.
5. Non-resident students with junior or senior standing selected for programs included in the Southern Regional Education Board Academic Common Market, provided the student does not change to another program not included, is enrolled in 12 hours per term and earns a 3.00 GPA each term. In such cases of change, reduction in course load or failure to meet the GPA, the student will be classified as a non-resident for tuition purposes and the out-of-state portion of tuition that had been waived previously, will no longer be waived. See section on Academic Common Market for application process.
6. Persons whose spouses by legal marriage are bona fide Alabama residents.
7. Spouses and dependent children of persons who establish domicile within the state of Alabama, provided that the person who establishes domicile is employed full-time in a permanent position in Alabama.

8. Students enrolled in the College of Veterinary Medicine professional DVM program admitted under contract with the Southern Regional Education Board.

Section 702, Veterans Access, Choice and Accountability Act.

The following individuals shall be charged a rate of tuition not to exceed the in-state rate for tuition and fee purposes in accordance with **Public Law 115-251 Sec. 301 & Public Law 117-68 Section 3679**:

- A veteran using educational assistance under either Chapter 30 (Montgomery GI Bill ®- Active Duty Program) or Chapter 33 (Post 9/11 GI Bill ®), of title 38, United States Code, who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence).
- Anyone using transferred Post 9/11 GI Bill ® benefits (38 U.S.C 3319) who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence).
- Anyone described above while he or she remains continuously enrolled) other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three-year period following discharge or release as described above and must be using educational benefits under either Chapter 30 or Chapter 33 of title 38, United States Code.
- Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. 3311 (b))9)) who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence).
- Anyone using transferred Post 9/11 GI Bill ® benefits (38 U.S.C. 3319) who lives in Alabama while attending a school located in Alabama (regardless of his/her formal State of residence) and the transferor is a member of the uniformed service who is service on active duty.
- Anyone using educational assistance under Chapter 31, Vocational Rehabilitation & Employment (VR&E), effective for courses and terms beginning after March 1, 2019. A public institution of Higher Learning must charge the resident rate to Chapter 31 participants, as well as the other categories of individuals described above. When an institution charges these individuals more than the rate for residents, VA is required to disapprove programs of education sponsored by VA.
- The policy shall be read to be amended as necessary to be compliant with the requirements of 38 U.S.C. 3679 © as amended.
- Anyone described as a child or spouse of a service member and one of these descriptions listed is true of the service member (Chapter 35).
  - The service member died in the line of duty after September 10, 2001.
  - The service member is missing in action or was captured in the line of duty by a hostile force.
  - The service member is in the hospital or getting outpatient treatment for a service-connected permanent and total disability and is likely to be discharged for that disability. A service-connected permanent and total disability is a disability resulting from your service that doesn't go away.
- Anyone described as a child or spouse of a Veteran and one of these descriptions listed is true of the Veteran (Chapter 35).
  - The Veteran is permanently and totally disabled due to a service-connected disability.
  - The Veteran died while on active duty or because of a service-connected disability.

Section 1005 of the Isakson and Roe Veterans Health Care and Benefits Improvement Act of 2020 (Public Law 116-315). states that **effective 1 August 2021,** the requirement for covered individuals to enroll in a course at a public institution of higher learning within three years of being discharged to receive in-state tuition is removed.

Initial Determination of Eligibility

To be initially classified as eligible for resident tuition, students must demonstrate that they or their parent, guardian or spouse qualify for one of the eligibility categories prior to the first day of class. A signed statement is required that qualification for the eligibility category claimed has been met prior to registration.

Transfer Students

In the case of new transfer students, classification as a resident by the previous institution does not guarantee that status at Auburn University. Enrollment by a non-resident student at a college or university within the state of Alabama for more than 9 hours in any term during the period when the student is attempting to establish residency will normally exclude that student from consideration. That student will be considered to be in the state for the purpose of education.

Change in Eligibility for Resident Tuition

Students determined to be eligible for resident tuition will maintain that eligibility upon re-enrollment within 12 months of their most recent enrollment, unless there is evidence that the student subsequently has abandoned resident status (e.g., registering to vote in another state). Students failing to re-enroll within 12 months must establish eligibility upon re-enrollment.

Students initially classified as ineligible for resident tuition will retain that classification for tuition purposes until they provide clear and convincing evidence that they have established permanent domicile in Alabama. The burden of proof of change in eligibility rests on those requesting change. Evidence relevant to an initial determination of eligibility is also relevant to establishing a change in eligibility.

Non-resident students who carry an academic load considered normal (10 or more hours per term, undergraduate, or 7 hours or more hours per term, graduate) for students at Auburn University will be presumed to be in the state of Alabama primarily for the purpose of gaining an education and, thus, have not demonstrated the intent to establish a true domicile in Alabama. Clear and convincing proof may overcome this presumption, but again, the burden of proof rests on those requesting change in eligibility. Any change in resident tuition eligibility occurring during an academic term will not become effective until the registration for the succeeding term.

The following types of evidence may contain data to support the establishment of twelve 12-month residency in the state of Alabama. In all cases, the person must be at least 19 years of age or married, and financially independent. Otherwise, the person’s residency will be based on that of the parent or guardian.

1. Ownership of rental or residential property in the state of Alabama and continuous occupation thereof on an extended term of not less than twelve consecutive months.
2. Full-time permanent employment in the state of Alabama.
3. Possession of state of Alabama License(s) required to do business or practice a profession in Alabama.
4. Legal marriage to a bona fide Alabama resident.
5. Registration to vote in the state of Alabama.
6. Filing of Alabama resident income tax returns.
7. Holding a current Alabama driver's license.
8. Registration of vehicle in Alabama, and payment of property taxes, thereon.
9. Evidence of local banking activity within the state of Alabama for 12 consecutive months prior to making application for residency change.

The Office of the Registrar at Auburn University and the Office of the Registrar at AUM shall have the responsibility for determining whether a student shall be classified as an Alabama or non-Alabama student. The decision of the Office of the Registrar shall be subject to review by the Residency Committee (at Auburn) or the Chancellor (at AUM) or the designated representative of each, upon written request of the applicant.

Procedures for Appeal of Residency Decision

The following outlines the process by which students may seek review or appeal the initial decision of residency for tuition purposes.

1. Students must submit their residency review packet documents, referenced on https://residency.auburn.edu/, to the Residency Coordinator in the Office of the Registrar.
2. Should the submitted residency review be denied, students may submit to the Residency Coordinator a written request for appeal by the Residency Committee. This request should outline the circumstances that have changed since the initial residency decision.
3. Along with the written request, students should submit whatever evidence they feel is relevant to their appeal. Examples of the relevant evidence can be found in the Auburn University Residency Guidelines in this *Bulletin*.
4. The letter of request for appeal and the supporting evidence must be received no later than two business days before the committee meeting. The Residency Coordinator will prepare all materials for presentation to the committee regarding each individual appeal.
5. The committee will vote on the merits of each appeal as it relates to the written guidelines adopted by the state of Alabama and the Auburn University Board of Trustees.
6. Students will receive notification of the final decision.
7. All proceedings & associated documentation will be managed by the Office of the Registrar.

Basic Charges

The following is a schedule of the tuition structure effective Fall 2025. If you need more details, please call the Student Business & Account Services Office at (334) 844-4634.

Tuition and Student Services Fee

Basic Charges	Resident	Non-Resident
Credit Hour Tuition - Undergraduate to 12 hours* (1)	$473.00	$1,419.00
Credit Hour Tuition - Graduate/Professional to 9 hours* (1)	$630.00	$1,890.00
Student Services Fee (1)	$983.00	$983.00
Student Services Fee - GRA/GTA/GA	$825.00	$825.00
Student Services Fee - GRA/GTA (Summer)	$350.00	$350.00

* No additional charge for credit hours exceeding 12 (undergraduate)/9 (graduate)

Non-Credit/Specialty Fees

Basic Charges	Resident	Non-Resident
Auburn Abroad Fee (2)	$797.00	$797.00
Auditing Fee - Undergraduate per course (3)	$473.00	$1,419.00
Auditing Fee - Graduate/Professional per course (3)	$630.00	$1,890.00
Clearing for Graduation (4)	$450.00	$450.00
College of Veterinary Medicine Clinical Rotation Fee	$797.00	$797.00
Continuous Enrollment Fee - Graduate	$450.00	$450.00
International Student Fee	$130.00	$130.00
Music Fee (full-hour lessons) (5)	$246.00	$246.00
Music Fee (half-hour lessons) (5)	$163.00	$163.00

Professional Fees, Program Fees, Differential Tuition *

Basic Charges	Resident	Non-Resident
College of Architecture, Design, & Construction (per semester)	$2,160.00	$2,160.00
College of Business FR/SO (per semester)	$338.00	$338.00
College of Business FR/SO Summer (per semester)	$112.00	$112.00
College of Business JR/SR (per semester)	$676.00	$676.00
College of Business JR/SR Summer (per semester)	$197.00	$197.00
College of Business Graduate - per credit hour	$236.00	$236.00
College of Engineering Undergraduate FR (per semester)	$485.00	$485.00
College of Engineering Undergraduate SO/JR/SR (per semester)	$848.00	$848.00
College of Human Sciences - Interior Design (per semester)	$2,355.00	$2,355.00
College of Human Sciences - Hospitality Management (per semester)	$546.00	$546.00

College of Veterinary Medicine (per semester)	$9,542.00	$9,542.00
College of Education - Doctorate of Physical Therapy (per semester)	$1,250.00	$1,250.00
College of Education - Doctorate of Physical Therapy Summer (per semester)	$1,000.00	$1,000.00
Honors College (per semester)	$250.00	$250.00
College of Nursing - per clinical credit hour	$350.00	$350.00
College of Pharmacy (per semester)	$6,000.00	$6,000.00

* Professional fees, program fees, differential tuition are in addition to regular credit hour tuition

Graduate students' tuition and student services fee are waived, provided they are on a one-third time or greater appointment and are being paid according to the approved salary structure as a Graduate Research or Teaching Assistant. Their appointment date must be effective as of the eighth class day of the fall and spring semester or the fifth class day of summer semester. Professional and Program fees are not waived. Graduate students that have their tuition and student services fee waived pay the GRA/GTA/GA student services fee each semester.

1. The university tuition and student services fee are used to meet part of the cost of instruction, physical training and development, laboratory materials and supplies for student use, maintenance, operation and expansion of the physical plant, library and student activities. The Student Activities portion of the fee supports; Intercollegiate Athletics, Student Center Operations, Campus Recreation, and Student Activity Projects within Student Affairs. Student Activity Projects supported are: the Auburn Student Media Group, Black Student Union, International Student Organization, Leadership Programs, Service Programs, Student Governance, Student Organizations, and Student Programming. This fee includes $0.25 held in reserve to cover damage to university property by students. The student services fee is waived for full-time faculty and staff. All students except faculty and staff are eligible to participate in Student Activities.
2. Students participating in the Study Abroad/Exchange Program will pay the Auburn Abroad Fee, and any course work resulting in AU credit or grades will be assessed in accordance with the university fee structure.
3. Not charged to faculty and staff
4. A student who is a candidate for a degree in a term in which no credit hour work is taken at Auburn University is required to be cleared for graduation and pays the Clearing for Graduation fee. The Graduation fee is to be paid in addition to this fee.
5. This additional music fee is to be paid for each Performance Course of individual instruction. Instruction is available in either half-hour or hour lessons.

Estimated Cost of Attendance

For an estimated cost of attendance, please use the following link: https://www.auburn.edu/enrollment/financial-aid/cost/index.php (https://www.auburn.edu/enrollment/financial-aid/cost/)

Financial Aid and Scholarships

The Office of Financial Aid and Scholarships at Auburn University provides financial assistance to students who need aid to attend the university. Students seeking federal assistance are required to complete the Free Application for Federal Student Aid (FAFSA) (https://studentaid.gov/h/apply-for-aid/fafsa/) available each year beginning in October. Students should apply as early as possible to maximize eligibility because many funds are limited. Advisors are available each weekday from 7:45 a.m.–4:45 p.m. in 203 Martin Hall. Additional information including application links, instructions, and application priority dates are available on the Web at www.auburn.edu/finaid (http://www.auburn.edu/finaid/) and auburn.edu/scholarship (https://auburn.edu/scholarship/).

Federal aid includes grants, loans, and part-time employment.

Grants

Federal Pell Grants are available to eligible undergraduate students who demonstrate exceptional need. Federal Supplemental Educational Opportunity Grants are available, in limited number, to Pell eligible undergraduates with the greatest financial need. Alabama State Grants are available, in limited number, to Alabama residents who are Pell eligible undergraduates with the greatest financial need. Federal Teach Grants are available to undergraduate and graduate students enrolled in College of Education programs designated as high-need fields.

Loans

Federal Subsidized and Unsubsidized Loans provide long-term, low interest loans to students. Federal PLUS loans are available for eligible parent borrowers of dependent students, and Graduate PLUS Loans are available to eligible graduate students. Health Professions Loans are available, in limited number, for eligible students in Pharmacy and Veterinary Medicine.

Work

The Federal Work-Study Program provides part-time employment, in limited number, for students who demonstrate financial need.

Scholarships

Scholarships are awarded competitively based on various criteria, including but not limited to academic achievement, financial need, academic program, or geographic location as defined by city, county, or state of residence or high school or two-year institution attended. Students complete the scholarship application annually through the Auburn University Scholarship Opportunity Manager (AUSOM) (https://nam11.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.auburn.edu%2Fscholarship%2Fausom%2Findex.php&data=05%7C02%7Cckc0023%40auburn.edu%7Cc55613cacdee412e9e8f08dd573ccdf9%7Cccb6deedbd294b388979d72780f62d3b%7C0%7C0%7C638762640836840967%7CUnknown%7CTWFpbGZsb3d8eyJFbXB0eU1hcGkiOnRydWUsIlYiOiIwLjAuMDAwMCIsIlAiOiJXaW4zMiIsIkFOIjoiTWFpbCIsIldUIjoyfQ%3D%3D%7C0%7C%7C%7C&sdata=A%2F8ivV9X0%2B%2BQZMHyWyPcswEFvIrHChpjjeCccibfO7w%3D&reserved=0) at **auaccess.auburn.edu** for the following academic year. For additional information, visit www.auburn.edu/scholarship (https://www.auburn.edu/scholarship/).

Graduate Assistantships

Graduate students may be eligible for teaching and research assistantships and traineeships. Information is available from the department of the student's major field.

Other Fees and Charges

Undergraduate Dining Plan Charges

Default Plans**	Resident & Non-resident
First time first year (FTFY) Auburn Student	$1,530.00
Non-FTFY student living on main campus	$1020.00
Non-FTFY student living off campus	$425.00
**These are minimum dining plan levels charged each semester. Larger plans are available for purchase. Details may be found at auburn.edu/dining.	

Course Drop Fee

A $100.00 per class fee is charged for classes students drop between the 6th and 15th class day of the fall and spring semester. The charge is assessed for classes dropped between the 3rd and 10th class days for the full summer term; 3rd and 5th class days for the respective mini terms.

Late Payment Charges

All students, regardless of classification, must clear tuition, fees and other university obligations by the deadlines set by the university, or be liable for late payment charges. Late payment charges will be assessed following each due date at 1.5 percent of the unpaid balance.

Returned Check Charge	$25.00
Note: All checks accepted subject to collection.	

Fees Related to Graduation

Graduation Fee (each degree)	$40.00
Replacement Diploma Fee	$40.00
Thesis/Dissertation Fee	$50.00

Internship Courses

Students registering for an internship course only, and no other courses, will be assessed at the per credit hour rate and pay tuition. No student services fee will be assessed **provided that the student is not enrolled in any other courses and is taking an internship course only.**

Special Service Fees

Cooperative Education Program	$100.00
Cooperative Education/Graduate Distance Education ID Fee (athletic tickets)	$113.00
Cooperative Education Diploma Fee	$15.00

Proctoring Fees

Students taking online classes may have the option (as approved by the instructor) to take exams using a third-party proctoring service provided by non-Auburn vendors (e.g., ProctorU, Examity, an individual or a vendor within SmarterProctoring). Third-party proctors are external to Auburn University and require fees for proctoring services to be paid directly by the student taking the exam.

Resignations and Refunds

Students officially resigning prior to the start of a term will not be held liable for tuition and fees (other than non-refundable fees). Students resigning during the first 15 days of classes for fall/spring terms (10th class day for the full summer term or 5th class day for the respective mini terms) will be charged a $100 Resignation Fee.

The liability for tuition and fees will not be excused for resignations effective after the 15th class day of fall and spring semesters and after the 10th and 5th class days for summer full and mini semesters, respectively, except in cases of resignation caused by personal illness (physicians statement required), death or illness of an immediate family member (death certificate or physician's statement required) or call into military service (copy of activation orders required, excluding temporary training assignments). A pro-rata reduction will be made in cases of personal illness, death or illness of an immediate family member (parent, sibling, spouse, child or legal guardian) and a full reduction for military service activation. Students having made prior payment will be refunded the amount paid less their liability after the resignation. Students suspended for disciplinary reasons are not eligible for refunds or reductions in liability. Resigning students receiving refunds will first have their refunds applied to any outstanding obligations and to any scholarship, grant or loan which they had received for the term.

Students reducing course loads on or prior to the 15th day of classes of fall and spring semesters, the first 10 class days of the full summer term, or the first 5 class days of a mini session may be eligible for a partial refund or reduction in liability of tuition and fees. To be eligible, the adjustment must be completed on or before the 15th day of classes of fall and spring semesters, the first 10 class days of the full summer term, or the first 5 class days of a mini session. In such cases, tuition and fees will be reassessed based on the adjusted schedule.

Students who believe that extenuating circumstances warrant an exception to the refund policy must submit an appeal in writing to the Director, Office of Student Business & Account Services, Martin Hall. Acceptance or rejection of the appeal will be communicated within 10 business days.

Any Federal Title IV financial aid recipients who resign will be liable for any unearned funds received as determined by the Federal Return of Funds Policy (https://auburnpub.cfmnetwork.com/B.aspx?BookId=12294&PageId=460700). These amounts will be charged back to the student's university account and immediately due to the university.

Payment of University Obligations

University registration or other requests for class assignment create a liability for the payment of tuition and fees resulting from assigned classes. Students are expected to meet all financial obligations when they fall due. The university reserves the right to deny admission, dis-enroll, prevent participation in graduation and withhold transcripts, cap, gown and diploma, and pursue collection of debt of any student who fails to meet promptly their financial obligations to the university. It is each student's responsibility to be informed of

all payment due dates, deadlines, and other requirements by referring to official sources of university information such as this bulletin, office and departmental web sites, official calendar of events, announcements printed in the Plainsman, or that disseminated by other means from time to time.

Students owing charges for prior terms will not be allowed to register for future terms until all charges are paid. Students who fail to meet their financial obligations or fail to make satisfactory financial arrangements with the university, may be referred to a collection agency. Students that fail to pay any unpaid balance on their student account will be personally responsible for the debt, and agree to reimburse Auburn University the fees of any third party collection agency, which may be based on a percentage at a maximum of 40% of the debt (including principal and late fees prior to referral to such agency) and all costs and expenses including reasonable attorneys' fees, court costs, and any other charges necessary for the collection of the debt.

The Auburn University Billing and Receivable System will bill students the majority of their charges. Among the charges included within this system are those for tuition and fees, dining plan, housing and parking. Other charges will be included in the system as deemed appropriate. Any questions concerning a charge should be directed to the department responsible for that particular charge.

Statements will be processed at approximately monthly intervals corresponding to the university's semester schedule. A statement for tuition and fees will be billed and due prior to the beginning of each semester. Additional charges will be billed as incurred. All charges appearing on a billing statement must be cleared by the due date for that statement or late payment charges will be assessed. Late payment charges may be waived for tuition resulting from university registration and housing charges when financial aid is processed through the university and evidence of such aid is recorded on the statement.

Statements will be delivered via eBill (the university's electronic billing system). Students are notified through TigerMail when a new billing statement has been processed. Students may grant access to others to view their eBill statements and receive electronic statement notifications.

Checks

Checks given in payment of any university obligation are accepted subject to final collection. If the bank on which the check is drawn does not honor the demand for payment and returns the check unpaid, the student will pay a returned check fee of $25 and any applicable late payment charges. If payment is not cleared promptly, the student's registration may be canceled. The university has the right but not the obligation to redeposit any insufficient check without notice to the student or maker.

Veterans

All students utilizing a Federal VA Education benefit (Chapter 30, Chapter 33, Chapter 35, and Chapter 1606) are responsible for paying fees and charges on the same basis as other students. Students utilizing Chapter 31 (Veterans Readiness and Employment) and students receiving the Alabama GI Dependent Scholarship (ALGI) should make arrangements for their tuition, fees and books to be paid prior to their first payment due date. For questions about any of these benefits, please reach out to the Veterans Resource Center at veterans@auburn.edu.

Foreign Students Under Contract

A special administration management/program fee will be negotiated for foreign students who come to the university under a contractual arrangement that requires special administrative and programming arrangements beyond those of the regular academic program of the university.

Information Technology

The Office of Information Technology (OIT) located at 300 Lem Morrison Drive, offers computing and communication services to the university community and reports to the Chief Information Officer. OIT provides Auburn University with a reliable, secure information technology infrastructure and technical support that enables and encourages the effective use of information technology. Contact OIT via the IT Service Desk at (334) 844-4944, via email at itservicedesk@auburn.edu, online at https://auburn.service-now.com/it (https://auburn.service-now.com/it/) and follow us on X (@AuburnOIT (https://twitter.com/auburnoit/?lang=en)), Instagram (@auburnoit (https://www.instagram.com/auburnoit/?hl=en)), and Facebook (Auburn University OIT (https://www.facebook.com/auburnoit/)).

Connectivity

Auburn University's campus network is the Ethernet backbone linking computers and networks in all buildings to each other and Auburn University to the Internet. Auburn University is also a participant in the Internet2 initiative. A secure wireless network, AU WiFi, is available to Auburn students and employees in most public spaces on campus, in classrooms, and in the campus residence halls.

Computing Access

Each currently enrolled student has a username and password, which provides access to AU Access, an Auburn.edu email, network storage, OIT computing stations, Tiger Print, restricted online class materials, and other computing resources. Students have web access to the student information system via the My Academics tab in AU Access, where they can register for courses, view grades, and access additional student services. eBill provides online payment of University fees as well as account summaries. Students log into AU Access for registration, billing, and academic records. Many online resources are also accessible through mobile devices via the official Auburn University mobile app (https://www.auburn.edu/app (https://www.auburn.edu/app/)).

Computing stations and labs across campus are available for use by students and employees. OIT maintains several computing labs, most of which are available 24 hours a day. OIT computing labs have general-purpose software for database, spreadsheet, word processing, web browsing, email, and course-specific software.

Identity Management

Identity Management issues ID cards for all Auburn University affiliates and employees, assists in resolving username and password issues, and manages faculty access to appropriate resources. To request access for an ID for an affiliate, please use the Access Request Form (https://www.auburn.edu/administration/human_resources/employeeid/). For more information contact IDM at idm@auburn.edu or call (334) 844-4386.

Online Resources

Auburn University is committed to providing convenient and secure web applications to the University community. Student admissions, registration and records, campus directory services, administrative systems, email, and instructional and research tools are available to the Auburn University students and employees.

University colleges, schools, and departments maintain websites specific to their areas. The Auburn website includes online directory services, news, calendars, a campus map, and a search engine. AU Access, the campus portal, SharePoint and restricted webspace are provided for sensitive information. The Office of Information Technology website is located at https://auburn.service-now.com/it/ (https://auburn.service-now.com/it/?id=index). It serves as a central dissemination point for information about and assistance with computing, information technology, multimedia, and telecommunications at Auburn University.

Instructional Technology

Auburn University is dedicated to providing all faculty and students with effective technology to enhance teaching and improve learning. Canvas provides ways for faculty to manage course activities and content, and ways for students to interface with their course material, teachers, and each other. For more information on Canvas and other instructional technology support see: https://biggio.auburn.edu/programs/instructional-technology-programs (https://biggio.auburn.edu/programs/instructional-technology-programs/).

Web-based technologies are available for hybrid and online education programs and to enhance the online learning experience for all students. Several technology-enhanced classrooms are available on-campus, as are several special course-specific computer classrooms and general computer labs.

Telecommunications

OIT provides telephone, data network (wired and wireless), and cable TV services for all academic and administrative campus buildings, and wireless network to dormitories. Additional information on telecommunications services is available to AU students, including cellular service discounts.

Infrastructure Planning

OIT participates in all building committees for new buildings and major renovation projects. Through this process, OIT ensures that telecommunications, audio/visual, and networking needs are addressed and that these systems are properly designed. OIT meets regularly with the Facilities Division to coordinate necessary infrastructure improvements. In support of Auburn University’s mission, OIT is continually planning and upgrading its backbone copper, fiberoptic cabling infrastructure, and core network equipment to meet Auburn University's growing data and telecommunications needs.

Support

Training, documentation, and consulting are provided for Auburn University students and employees via orientations, seminars, workshops, publications, and the IT Service Desk. The IT Service Desk is available on University business days and Sundays

to answer questions and offer assistance on IT-related issues. Contact the IT Service Desk at (334) 844-4944, via email at itservicedesk@auburn.edu, or drop by the third floor of the RBD Library. Hours of operation can be found at https://auburn.service-now.com/it (https://auburn.service-now.com/it/).

The Office of Information Technology does not administer an academic program. Inquiries concerning computer curricula should be directed to the Samuel Ginn College of Engineering or the Raymond J. Harbert College of Business.

Policies

Auburn University's Information Technology policies are on the web at www.auburn.edu/oit/policies (https://auburn.service-now.com/it/?id=sc_cat_item&sys_id=b64d6ea9db155810fbade02b13961978). Email (username@auburn.edu) is an official means of communication at Auburn University. As such, students are responsible for checking their Auburn University issued email account in a timely fashion and on a regular basis.

Student Services

- Auburn University Bookstore (p. 97)
- Campus Dining (p. 97)
- Music, Theatre and Lectures (p. 101)
- Parking and Transit Services (p. 101)
- Student Affairs (p. 102)
- Student Health Services (p. 104)
- Tiger Card/Tiger Club Accounts (p. 106)
- University Housing (p. 106)

Auburn University Bookstore

The Auburn University Bookstore, located in Haley Center, is a full-service college store dedicated to serving the Auburn campus community. The mission of the store is to support student success, promote the Auburn Spirit and provide a welcoming destination for all. The AU Bookstore offers:

- Textbook price comparison feature, competitive prices, online textbook reservations and shopping at https://www.aubookstore.com/.
- Option to rent or purchase new or used books, e-books in-store and online.
- All-Access Program — Digital course content delivered to the student account on Canvas before the 1st day of class then billed to the student e-bill after drop & add.
- Technology service and educational pricing on technology products.
- Apple Authorized Service Provider.
- Auburn gifts, apparel, novelties and alumni merchandise, including diploma frames.
- Graduation cap & gowns.
- Special order services for general books as well as school and office supplies.
- Bookstore gift cards, UPS & FedEx shipping service, postage stamps.
- Special events geared toward students offered throughout the school year.

Visit Study Essentials, a satellite bookstore in the RBD Library open extended hours daily. You'll find supplies for projects, test materials, calculators, headphones, snacks and beverages, and a small Auburn gift selection.

We give back! All revenue from the AU Bookstore is returned to Auburn University, making it a great way for students, faculty, staff and alumni to show their support for Auburn University.

Campus Dining

Tiger Dining

Your dining experience allows you to enjoy good food and connect with fellow students. The Tiger Dining team is dedicated to creating welcoming spaces where you may enjoy a variety of fresh, healthy, and delicious foods with superior service. Our diverse dining

venues are located throughout campus, enabling you to grab a quick bite between classes or relax and enjoy some downtime. We look forward to the opportunity to serve you.

Convenient, Flexible, Fresh Made, Budget-Friendly, Healthy & Sustainable

It's all about you. We've kept what's most important to you in mind by building in the convenience, flexibility, quality, value, and healthy options you deserve. We offer a variety of meal plans to meet your needs.

You're automatically enrolled in your default meal plan each semester, and you have until the 10th class day to change your meal plan via the GET mobile app.

Meal Plans

All students enrolled in at least one class on Auburn's main campus are assigned the default meal plan for their student type each semester. All meal plans contain dining dollars which may be used at any on-campus dining location, including athletics concessions, food trucks, snack and drink vending machines and the Hey Day Market. Many dining plans also have weekly or block meal swipes for convenience and value.

Weekly Meal Swipes

Weekly meals provide a reduced-price* entry into our three dining halls: the Village Tiger Zone, The Edge at Central Dining and the Wellness Kitchen, as well as Foy on The Fly. These plans include either 5 or 10 meals per week. Our buffet-style dining halls always offer a variety of foods allowing you to create a plate according to what you're craving. Early each Sunday morning, your 5 or 10 meals are loaded to your account to use as you wish at our dining halls. Make sure to use them all—unused meals expire after the dining halls close Saturday night. For your convenience, menus for each day and meal period are available online.

*Reduced price as compared to retail entry price.

Block Meal Swipes

With various healthy options and a lower cost per meal*, a block meal grants you entry to our three dining halls: Village Tiger Zone and The Edge at Central Dining and the Wellness Kitchen, as well as Foy on The Fly. Our buffet-style dining halls always offer a variety of foods, allowing you to create a plate according to what you're craving. Plans that include block meals come with either 25, 50, or 75 block meals, each including $425 dining dollars. Block meals may be used as you wish, but unused block meals expire at the end of each semester.

*Lower cost as compared to retail entry price.

Dining Dollars

Dining Dollars work like a debit card. They're accessible via your Tiger ID and are accepted at all campus dining locations, including food trucks, athletics concessions, snack and drink vending machines and the Hey Day Market. Running low? No problem! You may load additional funds to an Optional Dining account anytime during the semester. Unused dining dollars roll from the fall to spring semester and expire at the end of the summer term. Optional Dining funds never expire.

ORANGE PLANS:

All first-time, first-year Auburn students are automatically enrolled in the default orange plan for their first two semesters, regardless of classification or housing status. They may choose from three other orange meal plan options listed below:

Default Orange Plan is Weekly 5 with $450 Dining Dollars: Provides students with 5 meals per week to use at Village Tiger Zone, Wellness Kitchen or The Edge at Central dining halls and $450 Dining Dollars to spend at campus retail locations. Total cost $1,530

Weekly 10 with $500 Dining Dollars: Provides students with 10 meals per week to use at Village Tiger Zone, Wellness Kitchen or The Edge at Central dining halls and $500 Dining Dollars to spend at campus retail locations. Total cost $1,955

All Access with $150 Dining Dollars: Provides students unlimited access to Village Tiger Zone, Wellness Kitchen or The Edge at Central dining halls seven days/week and $150 Dining Dollars to spend at campus retail locations. Total cost $2,570

All Access with $425 Dining Dollars: Provides students unlimited access to Village Tiger Zone, Wellness Kitchen or The Edge at Central dining halls seven days/week and $425 Dining Dollars to spend at campus retail locations. Total cost $2,800

BLUE PLANS:

On Campus Students who are sophomores or higher or have completed two semesters in the orange plan may choose from any of the orange plans above as well as the two blue meal plans listed below:

Default Blue Plan is 50 Meals with $425 Dining Dollars: Provides students 50 meals per semester to use at Village Tiger Zone, Wellness Kitchen or The Edge at Central dining halls and $425 Dining Dollars to spend at any on-campus dining location. Total cost: $1,020

75 Meals with $425 Dining Dollars: Provides students 75 meals per semester to use at Village Tiger Zone, Wellness Kitchen or The Edge at Central dining halls and $425 Dining Dollars to spend at any on-campus dining location. Total cost: $1,315

WHITE PLANS:

Off-Campus Students who are sophomores or higher or have completed two semesters in the orange plan may choose from any of the orange or blue plans listed above as well as the meal plans listed below:

Default White Plan is $425 Dining Dollars: Provides students with lunch/snack/coffee money. $425 Dining Dollars to spend at any on-campus dining location. Total cost: $425

25 Meals with $425 Dining Dollars: Provides students 25 meals per semester to use at Village Tiger Zone, Wellness Kitchen or The Edge at Central dining halls and $425 Dining Dollars to spend at any on-campus dining location. Total cost: $735

$650 Dining Dollars: Provides students with lunch/snack/coffee money. $650 Dining Dollars to spend at any on-campus dining location. Total cost: $650

Dining Locations

Meal Swipe Locations (these locations also accept Dining Dollars):

- The Edge at Central Dining
- Village Tiger Zone
- Wellness Kitchen
- Foy on the Fly

Music, Theatre and Lectures

Classical concerts, touring productions by prominent theatre, music, and dance companies and ensembles, lectures by political figures, news commentators, specialists and prominent scholars, touring and resident exhibitions at the university’s art museum and galleries, and a major motion picture series are among the special events featured each year at the university. Many of these activities are free.

The Auburn University Department of Music features a wide variety of ensembles including Chamber Choir, Gospel Choir, Singers, Men’s Chorus, Women’s Chorus, Marching Band, Concert Band, and Symphonic Band, the Symphony Orchestra, Opera Workshop and other specialized ensembles which offer opportunities for students who want to perform in musical groups. Faculty, guest artists, many ensembles, and students present concerts throughout the academic year for university personnel and the community.

Auburn University Theatre produces a full season of exciting plays and musicals both on the main stage of the University Theatre and in the Telfair Peet Theatre Black Box. Auditions and participation in theatre productions are open to the entire university community. Admission to all AU Theatre productions is free to every Auburn student with a valid AU ID. The department is also home to one of the oldest student organizations on the Auburn campus, The Auburn University Players. Auburn University Theatre provides a great opportunity to participate in and appreciate the performing arts.

Student Media produces broadcasts and publications for Auburn students and provides them with opportunities to participate in the creation and dissemination of the university literary magazine, yearbook, newspaper, radio station, broadcast news, and entertainment programming.

Parking and Transit Services

Our mission at Parking and Transit Services is to enhance transportation to and within Auburn University’s campus by promoting and providing alternate modes of transportation thereby creating a more sustainable campus while maximizing the utilization of available parking spaces.

Parking Services

Vehicle(s) Registration

Students who park a vehicle on campus must register their vehicle(s) as established in the Auburn University Parking and Traffic Regulations. Any vehicle not properly registered on, or after, the first day of class for the fall semester will be in violation of the established regulations and therefore is liable to receiving a citation.

Vehicle, motorcycle, and bicycle registration is valid for one year beginning the first day of the fall semester until the day before the first day of the following semester. While registration begins in July, Parking Services will contact students via their TigerMail with specific times and dates depending upon their classification status (freshman, sophomore, junior, etc.). Registration is completed via AU Access by selecting the “My Campus” tab however, for a step-by-step guide please visit: aub.ie/ParkingReg (https://aub.ie/ParkingReg/).

Parking Enforcement

Campus parking is identified by zones that correspond with specific parking lots/decks/areas designated on campus. For a comprehensive campus zone map, visit: aub.ie/ZoneMap (https://aub.ie/ZoneMap/).

All zones are enforced Monday–Friday from 7 a.m. until 5:30 p.m. throughout the year as long as the University is officially open or unless denoted otherwise. Residential zones (RW, RH, RD, and RX) are enforced 24 hours a day, seven days a week.

Any student found in violation of the established University Parking and Traffic Regulations will receive either a citation, wheel lock, and/or tow. The student will be notified via their TigerMail if they are registered. After 10 days, all charges and fees will be transferred

to their student e-Bill account if they have not been paid. For detailed information about wheel-locks, tows, and how to retrieve your vehicle visit: aub.ie/LockAndTow (https://aub.ie/LockAndTow/).

Transit Services

All transit services are covered in tuition payments therefore we encourage students to utilize the transit daily as a sustainable way to access campus and the City of Auburn. During the fall and spring semesters, Tiger Transit operates twenty-four routes simultaneously from 7 a.m.–8 p.m. and 7 a.m.–5 p.m. during the summer.

- Track all twenty-four routes in real-time by downloading our bus tracking app at: aub.ie/whereisthebus (https://aub.ie/whereisthebus/).
- To view the full bus stop listing on-campus and within the City of Auburn, visit: aub.ie/RouteList (https://aub.ie/RouteList/).

Student Affairs

The mission of Student Affairs is to cultivate a healthy and supportive campus environment that engages students, advances learning, encourages leadership and prepares students for future success. Student Affairs is comprised of the following departments, programs and services that support students both inside and outside the classroom.

Auburn Cares

Auburn Cares works with students to aid them in the successful navigation of challenging personal life issues, critical incidents, hardships, and emergencies that may impede a student's success and retention at Auburn University. Staff serve as a support, liaison, or resource to students and families during times of student distress, need, or emergency. In addition, the Auburn Cares office oversees the medical withdrawal process, operates the Campus Food Pantry to assist students struggling with food insecurity, and supports survivors of sexual assault and power-based violence through the Safe Harbor program.

- Telephone: (334) 844-1305
- Location: Melton Student Center, suite 1206

Greek Life

Greek Life is an advocate and resource for the Greek community and provides our students with opportunities for personal growth and development. More than 9,000 Auburn students call one of our fraternities or sororities home. Students involved in Greek Life have an average GPA of 3.41, consistently producing higher GPA averages above the non-Greek Life students. 83% of students in Greek Life graduate in 4-years, which is a testament to the additional academic support students receive in their fraternities and sororities. Auburn fraternities and sororities offer students various experiences, including service projects, philanthropic efforts, leadership development, and social engagement. Membership in the Greek community connects students to alumni/ae from across the nation and in every professional industry and area. All fraternities and sororities were founded on core values and beliefs centered on improving their members' lives. Greek Life provides student services in leadership development, event management, training and education, recruitment and growth, policy enforcement services, and professional development. Greek Life assists organizations in managing the on and off-campus fraternity houses, the Panhellenic sorority chapter rooms in campus housing facilities, the NPHC Legacy Plaza, and the NPHC chapter room on campus.

Greek Life oversees 55 nationally affiliated fraternities and sororities that comprise three governing councils: the Interfraternity Council (IFC), the National Pan-Hellenic Council (NPHC), and the Panhellenic Council (Panhellenic).

Interfraternity Council (IFC): (https://greeklife.auburn.edu/interfraternity-council/) The IFC comprises 27 fraternities that emphasize personal and fraternal responsibility, leadership, scholastic achievement, civic engagement, and brotherhood.

National Pan-Hellenic Council (NPHC): (https://greeklife.auburn.edu/national-pan-hellenic-council/) The NPHC comprises four sororities and four fraternities that focus on rich tradition, community service, scholarship, culture, community, and social action.

Panhellenic Council (Panhellenic): (https://greeklife.auburn.edu/panhellenic/) The Panhellenic Council comprises 18 sororities that foster a spirit of friendship and harmony through academic excellence, social responsibility, leadership, service and sisterhood.

Student Involvement

Getting involved with a student organization is a great way to meet others with similar interests, and it also serves as an experiential learning opportunity beyond the classroom to build career skills that employers seek. To make the most of the Auburn student experience, students are encouraged to join two organizations: one for fun to build community and one that aligns with their academic major or career interest. Student Involvement is home to more than 500 student organizations, all of which can be found on the digital home for getting involved: AUinvolve (https://auburn.campuslabs.com/engage/). Students trying to figure out how to get involved are encouraged to use a group of students called the Involvement Ambassadors, (https://involve.auburn.edu/organizations/involvement-ambassadors/) who work at the front of the Student Involvement office on the 3rd floor of the Melton Student Center every day. The Involvement Ambassadors are available to serve as a resource for any student seeking assistance, and they provide one-on-one consultations with students to help them find organizations to join.

Student Involvement consists of six portfolios of organizations: Leadership Programs, Service Programs, Student Governance, Student Media, Student Organizations, and Student Programming.

LEAD Auburn (https://involve.auburn.edu/leadership/) is a leadership program aimed at helping Auburn students develop the skills to lead on campus, in the community, and in their future career fields. There are eight-week leadership cohorts as part of the Certified Student Leadership Program, special events like etiquette dinners, experiential learning trips to learn about leadership from professionals around Alabama, and other activities that help students grow their leadership skills.

Service Programs (https://involve.auburn.edu/service/) provide opportunities for students to serve the local community. IMPACT (https://involve.auburn.edu/service/impact/) provides weekly service opportunities around the Auburn/Opelika community, week-long service trips during university breaks, and other service days throughout the year. The Beat Bama Food Drive (https://involve.auburn.edu/service/beat-bama-food-drive/) competes against other SEC schools by collecting donations for the East Alabama Food Bank and for the on-campus food pantry to help alleviate food insecurity. The AU Dream Makers (https://involve.auburn.edu/service/) volunteer and raise money for the East Alabama Medical Center to enhance resources for families who rely on the support of the NICU and other pediatric units for their children.

Student Governance (https://involve.auburn.edu/governance/) is home to the Black Student Union (BSU) (https://involve.auburn.edu/governance/black-student-union/), International Student Organization (ISO) (https://involve.auburn.edu/governance/international-student-organization/), and Student Government Association (SGA) (https://sga.auburn.edu/). Each of these organizations seeks to enhance the Auburn experience by representing students' needs to university administrators, putting on a wide variety of events, and more. BSU General Assembly meetings are open to everyone on Monday nights at 5:00 pm. ISO Social Hours are open to everyone wanting to try food from different cultures on Friday afternoons at 4:00 pm. SGA Senate meetings are open to everyone on Monday nights at 7:30 pm, and students can share their feedback and concerns with SGA anytime using a platform called Auburn Answers (https://cws.auburn.edu/auburnanswers/).

Student Media (https://involve.auburn.edu/media/) includes five student-run organizations that provide opportunities for students to advance their career preparation and display their creative skills. The Auburn Plainsman (https://www.theplainsman.com/) is the student-run, online news source and periodic news magazine. First published in 1894, The Plainsman is the most decorated, non-daily college newspaper in the country. The Plainsman carries a digital-first strategy to publish news to their website daily while printing several issues yearly. Eagle Eye TV (https://www.eagleeyeauburn.com/) is Auburn's award-winning television station that produces live news and sports shows, as well as live streams of various campus events. WEGL 91.1 FM (https://www.weglfm.com/) is an award-winning, non-commercial radio station that provides a wide range of music and information for the Auburn community. WEGL also DJs campus events and provides play-by-play to some Auburn Athletics events. The Glomerata (https://www.glomerata.com/) is Auburn University's yearbook, distributed each April. The *Auburn Circle* is a literary and arts magazine that serves as a forum for artists, writers, photographers and designers to showcase their work a few times yearly.

Student Organizations (https://involve.auburn.edu/organizations/) is home to approximately 500 additional student-run organizations on campus, all of which can be found on AUinvolve (https://auburn.campuslabs.com/engage/organizations/). These student organizations help students build community with others who share similar interests, whether preparing for a specific career field, sharing a passion for something, or sharing cultural backgrounds. Students can also start new organizations when they don't find the type of organization they're looking for.

Student Programming (https://involve.auburn.edu/programming/)is home to the University Program Council (UPC) (https://involve.auburn.edu/programming/university-program-council/). UPC is a student-run programming board that works to bring various events to campus for students to enjoy throughout the year. Some of the most popular events include concerts, stadium movies, carnivals, and more. UPC events provide a variety of opportunities to meet new people and have fun. For the first eight weeks of each

fall semester, UPC coordinates The First 56 (https://involve.auburn.edu/programming/the-first-56/), which consists of 56 days of events to help students make new friends, discover campus resources, and develop healthy habits inside and outside the classroom.

Harold D. Melton Student Center

The Auburn University Melton Student Center is the Auburn Family's home away from home. Some of the services available in the 184,000-square-foot center include the James E. Foy Information Desk, a City of Auburn police substation, Tiger Transit, Amazon lockers, ATMs, food venues, a game room, television and study lounges, and email kiosks. The Melton Student Center also offers a variety of meeting rooms, a ballroom, event spaces, and outdoor spaces that serve students, departments, and the general public.

- Website: studentcenter.auburn.edu (https://studentcenter.auburn.edu/)
- Telephone: (334) 844-1300
- Location: Melton Student Center, Suite 3231
- James E. Foy Information Desk
  - (334) 844-4244 Location: 2nd floor

Parent & Family Programs

Parent & Family Programs is the campus link for all Auburn University parents and families. The office facilitates communication between the University and families, provides opportunities for families to be actively involved in the life of the University, sponsors programs for families to attend and provides services to meet the critical needs of Auburn parents and families.

- Website: parentandfamily.auburn.edu (https://parentandfamily.auburn.edu/)
- Telephone: (334) 844-1493
- Location: Student Center, Suite 3231

Student Conduct

Student Conduct is responsible for addressing non-academic violations of university policy through the Code of Student Conduct. Student Conduct provides a fair, impartial, and educational conduct process for students and student organizations. Student Conduct is also responsible for processing student conduct records verification requests**.**

- Website: conduct.auburn.edu (https://conduct.auburn.edu/)

Student Health Services

Auburn University Medical Clinic

The Auburn University Medical Clinic provides a full range of primary, preventative, and urgent medical care services for Auburn students, faculty, staff, visitors, and members of the surrounding community. Services are provided on an appointment basis, but walk-ins will be evaluated and given appointments or seen immediately based on the urgency of their condition. Care is provided by our team of fully licensed and Board-Certified/Eligible Physicians (MD, DO), Certified Registered Nurse Practitioners (CRNP) and Certified Physician Assistants (PA-C), and supporting staff. Services are provided on a fee-for-service basis with on-site billing.

Available Services

- Primary and Urgent Care
- Allergy Services
- Immunizations and Vaccines
- Laboratory and X-ray
- Massage Therapy
- Mental Health
- Pharmacy

- Sports Medicine
- Women's Health

Contact Information

- Telephone: (334) 844-4416
- Website: auburn.edu/medical (https://cws.auburn.edu/aumc/)
- Location: 400 Lem Morrison Drive

Student Insurance

The Student Government Association sponsors an Accident and Sickness Insurance Plan, which is available to registered undergraduate and graduate students, spouses and dependents. An insurance plan or its equivalent is required for all international students and recommended for all students.

- Telephone: (334) 844-4416
- Website: aub.ie/StudentInsurance (https://studentaffairs.auburn.edu/student-health-insurance/)

Student Counseling and Psychological Services

The mission of Student Counseling and Psychological Services is to provide comprehensive preventative and clinical mental health services to enhance the psychological well-being of individual students, as well as the broader campus culture. Student Counseling and Psychological Services provides brief individual therapy, unlimited group therapy, psychiatric services, and after-hours and weekend emergency coverage to address the emotional, developmental, and mental health-related concerns of students. Educational and academic-related programs, skill-building workshops, and outreach presentations are offered to the campus community. Services are professional and confidential. All services are provided for no charge except for Executive Functions Screening assessment. Students needing long-term therapy, or 24-hour crisis management are provided appropriate community referrals.

- Telephone: (334) 844-5123
- Website: https://scps.auburn.edu/

Recreation and Wellness

Recreation and Wellness offers a variety of programs and services designed to promote an active and healthy lifestyle. Programs include outdoor recreation, intramural and club sports, group fitness, personal training, and Olympic/powerlifting. Students have access to a variety of fitness equipment, a dedicated lifting space, a resort-style leisure/activity pool, two fifty-foot climbing towers, six basketball courts, two multi-activity courts, a one-third mile corkscrew track, and an outdoor rental center and bike shop.

Along with promoting and encouraging physical health, Recreation and Wellness provides prevention and wellness education programs to enhance the well-being of Auburn students and the Auburn University campus community. Programs include individual substance use intervention services through the TESI and SUIT programs, nutrition services and registered dietitians, support for establishing and maintaining healthy relationships, the Be Well Hut, and the “Be the Difference” bystander intervention program.

- Telephone: (334) 844-0023
- Website: https://www.recwellness.auburn.edu/
- Location: Recreation and Wellness Center

James E. Martin Aquatics Center

This facility provides two swimming pools for use by Health and Human Performance classes, intercollegiate athletics, intramural and club sports, students, faculty, staff, and community members. Programs and events are planned and staffed to provide a healthy and safe aquatic environment.

- Telephone: (334) 844-4182
- Website: https://aquatics.auburn.edu/

Special Clinics

The Speech and Hearing Clinic of the Department of Speech, Language, and Hearing Sciences, primarily a teaching facility, provides service for students with speech, hearing or language problems. These services may involve both diagnoses and treatment of problems.

- Telephone: (334) 844-9600
- Website: https://www.cla.auburn.edu/speechandhearingclinic/

Tiger ID/Tiger Club Accounts

The Tiger ID is the official form of identification for every Auburn University Student. It is used to check out books at the university libraries, gain access to buildings or labs, gain entry to university related events, and may be required for other campus functions. A Tiger Club Account provides a convenient means of making purchases on campus and at selected off-campus locations using the student's Tiger ID. This account can be used at bookstores, dining facilities, vending locations, grocery stores, and other student services.

To make purchases at selected off-campus locations using the AU Tiger ID, an AU student first must deposit funds into an established Tiger Club Account. Purchases will be debited from the available funds in the student's account. Cash withdrawals are not permitted, and balance refunds may be made only on a closed account. Refunds will be transferred to the Office of Student Financial Services and applied to any debt owed Auburn University. The Office of Student Financial Services will refund any remaining balance to the student.

Deposits into a Tiger Club Account must be made electronically at www.auburn.edu/tigercard (https://www.auburn.edu/administration/tigercard/). Students may view Itemized statements for recent transactions online.

Additional information regarding the Tiger ID/Tiger Club Accounts may be obtained by contacting the Tiger ID Office.

- Telephone: (334) 844-4507
- Website: https://www.auburn.edu/tigercard/
- Location: Melton Student Center

University Housing

Auburn University Housing

Auburn University Housing (AUH) offers on-campus housing accommodations for undergraduate students in seven residential communities consisting of a total of 24 residence halls. Additionally, Auburn University Housing also offers returning residents the opportunity to live at 160 Ross, 191 College, The Union, and South Donahue. The University does not offer on-campus housing accommodations for graduate students. All residence halls offer a variety of amenities and are within walking distance to classes, dining locations, recreational areas, laundry facilities, mailrooms and the library.

Residence halls in the Hill and Quad communities are suite style: two students share a room that is connected by a bathroom to another room shared by two students. The Village community residence halls are primarily configured in four-bedroom, two-bath units: four students each have their own bedroom and share a bathroom with the roommate on their side of the suite. The Village also features a kitchenette and common space shared by all students in each unit. South Donahue Hall features two bedroom units, two bedroom shared units (two students per bedroom) as well as a few one and four bedroom units. All units in South Donahue share a common area and kitchenette. Housing for students with disabilities is available in all residential areas.

Apartment units at 160 Ross, 191 College and The Union come fully furnished and can range from two bedroom to six-bedroom units. Additionally, these complexes offer a variety of amenities including a state-of-the-art fitness center, direct tiger transit route to campus, study lounges, and an outdoor community area with a pool and hot tub.

University Housing hosts several special interest communities across campus. Honors College members can request to live with other members in Honors College halls in the Quad and Village. Residential Learning Communities based on similar interests or academics are in the Quad and Village. Panhellenic sororities can live on their sorority specific hall located in the Village. For more details on special interest communities, floor plans, rental rates, and amenities, please visit the University Housing website at universityhousing.auburn.edu (https://universityhousing.auburn.edu/).

Each residence hall is staffed by undergraduate students, graduate students, and professional staff members who oversee the daily operations of the residence hall and foster communities that are engaging, supportive and inclusive. Undergraduate Resident

Assistants (RAs) provide social and educational programs for residents that are designed to engage students, advance learning, encourage leadership and prepare students for future success. RAs are directly supervised by our Graduate Area Coordinators (GACs). All hall staff members are trained and supervised by full-time Residence Life professional staff members. AUH staff also ensure resident compliance with any department, university, and community rules and regulations.

Admission to Auburn University does not automatically include a room reservation, and first-year students are not guaranteed housing. Priority for housing requests is based upon the date the housing application is received. A $100 non-refundable application fee is required with the housing application. A $200 non-refundable pre-payment is required for students that select a bed during the room selection process in March. are required with the housing application.

- Telephone: (334) 844-4580
- Website: https://universityhousing.auburn.edu/
- Location: Talon Hall

Off-Campus Housing

Auburn University Housing has partnered with Off Campus Partners to provide housing resources to students looking to live within close proximity to campus in a student apartment. Students can go to offcampushousing.auburn.edu to browse and view apartments, condos, townhouses and homes that are available to rent in the greater Auburn-Opelika community. Users can also use the off-campus housing site to find a roommate, ride share or buy and sell furniture and textbooks.

- Website: https://offcampushousing.auburn.edu/
- Telephone: (334) 844-4580
- Location: Talon Hall

Instruction, Research, and Outreach

Instruction

Auburn University is committed to excellence in teaching at both the undergraduate and the graduate level. This commitment has long been reflected in the diversity of course offerings and in the variety of instructional approaches that are offered. Increasingly, electronic technology is providing instructors with innovative and creative teaching strategies. The high academic aptitude of the university's incoming students also makes accelerated learning possible.

The liberal arts and sciences—introduced in the university's nationally recognized Core Curriculum—are the heart of Auburn's undergraduate programs. They lay the foundation not only for advanced study and career preparation but also for the development of a more responsible citizenry through students' personal and intellectual growth. The Core Curriculum provides students with a common set of experiences, develops their powers of analysis and communication, and encourages their understanding of human culture and the natural world. Auburn has won recognition for its high academic quality.

Auburn offers baccalaureate degrees in more than 130 areas across the spectrum of disciplines and provides the state's only publicly supported programs in many fields, including several in agriculture, architecture, building science, forestry, pharmacy, and veterinary medicine. Particularly strong baccalaureate programs can be found in the Colleges of Business, Education, Engineering, Liberal Arts, and Sciences and Mathematics. For many years, Reserve Officers Training Corps (ROTC) programs at Auburn have also been nationally prominent in providing leadership for the military.

While Auburn has long been widely recognized for the quality and diversity of its undergraduate and first-professional programs, more recently expanding research accomplishments have broadened the scope and raised the prominence of the university's graduate programs. Today, Auburn supports a comprehensive graduate school, providing master's level programs in more than 64 areas and awarding the doctorate in more than 40 fields. In many fields it offers the state's only doctoral program. For many years the university has enjoyed strong graduate programs in agriculture, the biological and physical sciences, education, engineering, forestry, the human sciences, mathematics, pharmacy and veterinary medicine. More recently, excellent graduate programs have also emerged in business, the liberal arts and the social sciences. The university anticipates expanded research activity and graduate instruction, especially in agriculture and the biological sciences, in engineering and the physical sciences, in veterinary and pharmacal sciences, as well as in business and education.

Research

Research is the means through which new knowledge is created and new information is developed. As such, research at Auburn University is an essential link in its three-pronged mission of instruction, research and outreach. Auburn is a Carnegie R1 research

institution, a rating designated by the Carnegie Classification of Institutions of Higher Education and reserved for doctoral universities with the highest levels of research activity. Successes among the varied research activities within each of our 12 academic colleges continue to bolster Auburn's reputation among the nation's top universities.

Auburn's role as a land-grant university emphasizes research in agriculture, natural resources, the life sciences, engineering and the physical sciences. Strong and expanding research programs exist in agriculture; architecture, design and construction; business; education; engineering; forestry, wildlife and environment; human sciences; the liberal arts; nursing; pharmacy; science and mathematics; and veterinary medicine.

Whether in the laboratory, the field, or in the classroom, Auburn University's research endeavors are diverse, comprehensive, and collaborative, focusing on developing solutions to major problems that confront humankind and on expanding the base of knowledge and technologies available to improve our quality of life. Additionally, major efforts to increase the protection and commercialization of intellectual properties are central to Auburn's continual drive for improvements in its research mission.

These efforts mesh to create a research environment that enhances the state's economic, cultural, social and intellectual development and, at the same time, undergirds the university's undergraduate, graduate, professional and outreach programs.

In support of these efforts, the Auburn University Huntsville Research Center interfaces with agencies and industries in order to increase research funding, raise our national profile, as well as bring new ideas and products to government, industries and consumers. A high-tech economic engine for Alabama, Huntsville executes billions of dollars in federal contracts yearly. Increasingly, these contracts require the collaboration of a broad array of disciplines. The Auburn University Huntsville Research Center enables North Alabama business, industry, and government to access the capabilities of one of the Southeast's major research institutions.

Lastly, the Auburn Research and Technology Foundation (ARTF) and the Auburn Research Park were developed to further integrate research and the business community to complement the economic development and research initiatives of the university. In addition to facilitating the commercialization of university technologies and industry-university partnerships, the research park offers employment opportunities for Auburn's students and graduates, as well as a thriving business incubator.

Outreach

As a land-grant institution, Auburn University has a mission of outreach—engaging its expertise beyond campus to improve quality of life across Alabama, nationally, and even internationally. More importantly, outreach provides opportunities to establish mutually beneficial partnerships between Auburn University and the communities that it serves. Through outreach and extension programs, citizens benefit from greater access to Auburn's high quality educational resources. Community interaction benefits the university as well, providing valuable insights and information for teaching and research, and enhancing the institution's relevance to the broader society. Auburn University is recognized by the Carnegie Foundation's "Community Engaged Institution" designation for the quality and scope of its outreach programming.

Outreach and extension work commonly includes three major areas of activity—lifelong learning, expert assistance, and civic engagement. Auburn University's lifelong learning programs offer individuals of all ages opportunities for professional continuing education as well as skills development and personal enrichment. The university provides an array of expert assistance and consultation services to improve operations for business, education, healthcare, government, and a variety of public and private organizations. Finally, civic engagement projects help bond Auburn University and communities in a variety of public service activities. Much of Auburn's engagement focuses on strategic objectives for enhancing individual learning, expanding community economic development and improving public health and wellness.

University faculty members are engaged significantly in the institution's outreach initiatives. Auburn students have a role in the outreach mission too, and there are many innovative ways for students and their faculty mentors to engage in service activities locally, regionally, and even internationally. The Office of the Vice President for University Outreach provides administrative leadership and support for outreach work campus wide. Units comprising University Outreach include the Center for Educational Outreach and Engagement, the Government and Economic Development Institute, Encyclopedia of Alabama, Office of Faculty Engagement, Office of Professional and Continuing Education, Office of Public Service, Osher Lifelong Learning Institute, and the Outreach-Global initiative. University Outreach is also home to the AUBURNSERVES (https://www.auburnserves.com/) initiative, a collaboration of Auburn's faculty, academic units, campus organizations, and community partners in the development of new service learning, experiential education and engagement opportunities for students.

There are more than 75 outreach units and program initiatives within the university's schools and colleges. Some of these include the Caroline Marshall Draughon Center for the Arts and Humanities in Liberal Arts, the Auburn Technical Assistance Center in Business, the Truman Pierce Institute in Education, Engineering Continuing Education, and the Rural Studio and Urban Studio programs in

Architecture. Auburn University also serves as the headquarters for Alabama's Cooperative Extension System, which serves all 67 Alabama counties with educational programs and services provided by faculty specialists and local agents.

From this base of organizational and faculty resources, Auburn hosts a diverse range of outreach activities. Annually, the university produces hundreds of conferences, non-credit courses and training programs, with registrations averaging more than 40,000. Many of these programs are approved to offer continuing education units (CEUs) and other certifications of completion. Auburn conducts hundreds of technical assistance projects annually for industrial and governmental clients across the state, representing millions of dollars in direct impact from improved processes, cost savings, and investments. Auburn supports roughly 100 outreach facilities and research sites throughout Alabama, giving the university a statewide community presence greater than any other educational institution. This makes Auburn's outreach resources highly accessible to citizens.

Lists of professional programs are available at the www.auburn.edu/outreach/opce (https://www.auburn.edu/outreach/opce/) website. A comprehensive directory of Auburn's outreach resources and contacts is available at www.auburn.edu/outreach (https://www.auburn.edu/outreach/).

Policies

The following policies apply to both undergraduate and graduate students:

- Academic Policies, Information, and Requirements (p. 110)
- Non-Academic Policies (p. 154)

The following policies apply only to the graduate students:

- Graduate School Policies (p. 155)

The following policies apply only to the undergraduate students:

- Appeals of Dismissal (p. 167)
- Appeals of Suspension (p. 168)

Academic Policies, Information, and Requirements

The following policies apply to both undergraduate and graduate students unless otherwise noted.

- Academic Advising (p. 110)
- Academic Programs and Curricula (p. 111)
- Academic Standing (p. 116)
- Accommodation Policy for Students with Disabilities (p. 117)
- Bachelor's Degree Requirements (p. 117)
- Class Attendance and Examinations (p. 117)
- Core Curriculum and General Education Outcomes (p. 119)
- Course Numbering (p. 129)
- Dean's List and Graduation Honors (p. 129)
- Early Alert Grades (p. 130)
- Enrollment (p. 130)
- Grade Adjustment (p. 131)
- Grades (p. 132)
- Policies and Procedures for Admissions (p. 134)
- Policies and Procedures for Enrollment Capacity (p. 140)
- Policies on Directed Studies (p. 141)
- Repeat of Courses (p. 141)
- Satisfactory Progress (p. 141)
- Special Academic Opportunities (p. 142)
- Statement on the Importance of Writing at Auburn University (p. 149)
- Student Records (p. 149)
- Substantive Change (p. 152)
- Undergraduate Transfer Credit Policy (p. 152)
- Withdrawal Policy (p. 153)

Academic Advising

Academic advising consists of an ongoing conversation between advisor and student. It centers on the discussion of academic matters, career plans, professional goals, internship possibilities, additional educational opportunities, and other related topics. In this conversation, the advisor serves as a guide and mentor, drawing upon other campus resources for assistance with this responsibility. One important aspect of this conversation is the planning of an academic program and the keeping of accurate records of the student’s progress towards completion of that program.

Students are strongly encouraged to meet with an academic advisor in their chosen college or school prior to registration for the next academic term. In some colleges, schools and departments, such meetings are required. Contact information for the academic

advisors in each college or school may be found through the Academic Advising (https://www.auburn.edu/academic/provost/academic-advising/) page, which also provides additional information and links to resources that may help students derive the most benefit from their academic advising experience at Auburn University.

Academic Programs and Curricula

- Second Baccalaureate and/or Concurrent Degrees (p. 112)
- Double Major (p. 113)
- Accelerated Bachelor's/Master's Degree Plan (p. 113)
- Percentage of Coursework Earned at Auburn University (p. 114)
- Undergraduate Online Learning (p. 114)
- Credit For Military Science and Physical Education (p. 114)
- Change of Major or Curriculum (p. 114)
- Admission into Capped Majors (p. 114)
- Curriculum Model Change (p. 114)
- Academic Program Assessment (p. 115)

An **academic program** is an organized plan of study which, when successfully completed, is recognized by the awarding of a degree. It includes all courses and related activities required by the university and those required by a school, college, department or interdisciplinary program. **At Auburn University, the minimum number of semester hours in an undergraduate academic program is 120, including 41-2 semester hours of the Core Curriculum.** The academic program must include the University Core Curriculum and the major. It may also include a school or college core curriculum, a minor, and supporting course work. For undergraduates, the academic program is the most general term describing the formal course of their baccalaureate education. Students not completing an approved academic program do not qualify for baccalaureate degrees. Students who are completing an academic program may take courses in addition to those required by it, including a minor or free electives beyond those required for graduation by their academic programs.

An undergraduate program option is a formal variation of an academic program by the offering department which meets objectives that may be more specifically focused. These additional objectives are integrated with the basic program. Some academic programs are structured only in the form of several formal program options. A program option is designated on the transcript. Other variants, which may carry the name of "track," "concentration," "emphasis," or similar terms, will not be designated on the transcript, but must meet the same minimal requirements for overlap as formal options. At Auburn University, all formal program options, like all academic programs, must include the Core Curriculum. Moreover, a formal program option must preserve the integrity of the academic program of which it is a variant by requiring at least half of the specific course work required by the program above and beyond the Core Curriculum. (In majors that are largely "menu-driven," with few specific course requirements, the menus of courses must contain sufficient overlap that a student in one option is not excluded from having half or more courses in common with students in any other option in that degree program.) All academic programs and designated variations (whether called options, tracks, concentrations, or any other name) must be approved by the Alabama Commission on Higher Education (ACHE).

A graduate program option is a formally approved variation of an academic program by the offering department which meets objectives that may be more specifically focused. These additional objectives are integrated with the basic program. A formal graduate program option must preserve the integrity of the academic program of which it is a variant. Specifically, the formal program option must: 1) be in a recognized sub-field of the discipline; and 2) share at least half of the total credits of the degree program. Only formally approved graduate program options are designated on the transcript. Other less formal variants, which may carry the name of "track," "concentration," "emphasis," or similar terms, are not designated on the transcript; however, all academic programs and designated variations (whether called "options," "tracks," "concentrations," "emphases" or some similar term) must be approved by the Alabama Commission on Higher Education (ACHE).

A **curriculum model** is the schematic organization of an academic program that is listed in this *Bulletin*. **A curriculum model is outlined for all undergraduate academic programs and program options and must be represented in the *Auburn University Bulletin***.

A **major** is usually the largest part of an academic program which differentiates it from other programs. The term designates that portion of the program which consists of a specified group of courses offered by a particular academic department or interdepartmental program. The major may include lower-division courses and always includes specified upper-division courses or choices among courses offered by the department or interdepartmental program. The major may include course work from other departments. The major does not include other components of the academic program: the Core Curriculum, a school or college curriculum (if any), a

required second major (if any), a required minor (if any), supporting course work (if any), or free electives. **At Auburn University, all majors must represent substantial academic concentration in a well-defined discipline or interdisciplinary field. The minimum number of hours required for an undergraduate major is 30 hours of course work in the discipline or in a closely allied field. Of these hours, a minimum of 20 must be taken in upper-division (numbered 3000 or above) courses in the major. Departments must have the consent of other departments before requiring their courses in a major.**

A **minor** is an organized sequence or cluster of courses, including both lower- and upper-division courses, offered by a department or interdepartmental program. It is more restricted in scope than the major but may also have a somewhat different focus and objective that make it appropriate for students whose principal concentration is in another discipline. Not all departments or interdepartmental programs offer a minor. At Auburn University, the term minor designates those sequences or clusters of courses that have been formally proposed as minors by departments or interdepartmental programs and approved by the University Senate Curriculum Committee. The minimum number of semester hours in a minor is 15. Of these, six hours may be lower-division courses. The remaining semester hours in the minor (a minimum of nine hours) must be courses numbered 3000 or above. At least nine semester hours required for the minor must be completed at Auburn University. Courses a student has taken in fulfillment of the university Core Curriculum, the school/college core curriculum (if any) or the courses designated as “in the major” (e.g., counting toward the GPA “in the major”) may not be used to fulfill a minor. Elective courses (not in the major) and required supporting courses (e.g., required courses in the academic program that are not used to fulfill the university Core Curriculum or the school/college core and which are not counted toward the GPA in the major) may be used toward a minor. Some academic programs may require students to earn a minor. Students whose academic programs do not require a minor are free to earn one, though in such cases they should recognize that fulfilling the requirements for a minor may delay their graduation. No academic program is required to allow for a minor in its curriculum model. Students must follow announced university procedures and deadlines for declaring a minor. In addition, students may not be awarded a minor after the degree for the major has been awarded. **No course taken under the S/U option may be counted toward a minor. Students must earn a minimum overall grade average of C (2.0) on all course work in the minor. Individual colleges, schools and departments may have higher grade-point requirements.**

The phrase ”supporting course work“ designates courses that are required for the completion of a specific academic program but not included in the University Core Curriculum, the major, the school or college core curriculum (if any), the minor (if required), and free electives. At Auburn University, academic programs may require courses that are not specific to the major but support the general education and preparation of students in that program. Because these courses are usually outside the department of the major area of study, departments must have approval of the departments offering the courses they designate as required supporting course work.

An **undergraduate certificate** consists of 12-21 hours of courses in an integrated structure that demonstrates competency in specific skills or knowledge designed to enhance the professional preparation of Auburn students. Completion of the certificate appears on the official Auburn University transcript. At least 50% of the credits should be at the 3000 level or higher. The offering academic unit may choose to count towards the undergraduate certificate credits taken as part of Auburn University’s general education requirements, an academic minor, or major. Academic units may specify a set of required courses or a combination of required courses and electives in the design of certificate programs. No more than 50% of course credits required for a certificate may be obtained through transfer credit. A minimum 50% of the course credits for a certificate must not have been used towards any other certificate at Auburn. Courses applied to the requirements of an undergraduate certificate program may follow either standard or S-U grading (as appropriate), but at least 50% of courses counted toward the certificate must follow standard grading and the student must have completed all courses with a minimum overall Grade Point Average of C (2.0) or better. Individual colleges, schools, departments or academic units may have higher requirements.

Second Baccalaureate and/or Concurrent Degrees

To earn a second baccalaureate degree, a student must complete all the additional requirements for the second degree (including course work in the major fields, college/school core requirements and courses in support of a major). At least 30 semester hours of the second degree must be unique to the second degree and may not be used as major, supporting or core courses for the first degree. In addition, the total number of hours to complete both degrees must total at least 30 additional semester hours. If 30 unique hours or 30 additional hours cannot be identified, the student is not eligible to receive a second baccalaureate degree. Students who are completing a second degree must comply with all the same grade-point requirements and residency requirements as other students. Students may elect to pursue and to receive the two degrees simultaneously if college and departmental requirements can be met simultaneously. A student completing a degree within the Samuel Ginn College of Engineering who wishes to complete a second degree in a major outside of that college must complete the additional social science and humanities requirements of the university core curriculum. All students should consult with their advisor concerning eligibility for a second degree, and if eligible, complete appropriate paperwork to declare the second degree. It is recommended that students declare the second degree prior to the beginning of the senior year. The student must meet with the prospective academic advisor in each college associated with their degrees to ensure proper enrollment in the UNIV 4AA0 graduation course for each college along with a review of degree requirements. Students completing a second or two

degrees concurrently receive a diploma for each degree. The transcript will list each degree and each major. Eligibility for graduation with academic honors for the second baccalaureate degree requires a minimum of 60 semester hours above the requirements for the first baccalaureate degree. Students earning the second baccalaureate degree must earn the minimum overall grade average required for the honors distinction on the 60 additional hours for the second degree and must be achieved on Auburn University courses. Honors calculations for the second baccalaureate degree follow the same procedures as graduation honors for the first degree (see Graduation Honors).

Students who completed a first baccalaureate degree at an institution other than Auburn University and subsequently pursue a second degree at Auburn University are not required to fulfill Auburn University's Core Curriculum. However, they may be required to take some classes listed as fulfilling the Auburn University Core Curriculum if these classes are pre-requisites to major classes.

Double Major

To earn a double major, a student must complete all requirements for one degree program, all the major courses in a second major (courses bolded in the curriculum model), and other requirements for the second major such as grade-point requirements. College/school cores or other supporting coursework associated with the second major are not required unless they serve as course prerequisites for second major courses.

At least 20 hours in the second major must be unique and not courses that have been used as major, supporting, or core courses in the degree program. If at least 20 hours of unique courses do not exist between the second major and the major, supporting, and core courses in the degree program, a double major is not possible.

To declare a double major, the student initiates the process by meeting with an academic advisor in the college of his/her current degree program. The advisor, in conjunction with the advisor in the second major, will determine if a least 20 hours of unique courses as noted above exist and, if so, provide instructions for declaring a double major. The student is responsible for ensuring that the appropriate process is completed, approved by the appropriate college(s), and submitted to the Registrar's Office prior to the senior year.

The student who completes the requirements for a double major is awarded one degree, e.g., BS or BA. The degree is determined by the degree program declared on the submitted form. If the second major is embedded in a degree program that leads to the same degree as the declared degree program, both majors will appear on the diploma and on the transcript. If the second major is embedded in a degree program that leads to a degree that is different from the declared degree program, the declared degree program dictates which degree and which baccalaureate major will appear on the diploma; the declared degree and both majors will appear on the transcript.

If a student changes his/her decision to pursue a double major, it is his/her responsibility to notify the Office of the Registrar and the dean's office of his/her college(s). Additional majors, beyond a double major, are allowed if the student can complete all the requirements outlined above, including 20 unique hours for any additional major not used as major, supporting, or core courses in the degree program or any of the other majors. A double major or additional majors may not be awarded after the degree for the first major has been granted.

Accelerated Bachelor's/Master's Degree Plan

The Accelerated Bachelor's/Master's Degree Program allows Auburn students in some academic programs to count up to nine approved hours in a 30-35 hour master's program or twelve approved hours in a 36 hour or greater master's program toward both a bachelor's and a master's degrees in the same program area. These hours must be at the graduate level.

Admission Criteria

To be considered for admission, students must have at least 45 hours of credit, with at least 24 hours completed at Auburn University, and must have a cumulative GPA of 3.4 or higher on all coursework completed at Auburn. Individual graduate programs may set higher standards or require additional criteria for admission to the accelerated degree program.

Students must earn the bachelor's degree and meet departmental admission criteria to be fully admitted into the graduate program.

Admission Procedures

Students must work with a graduate advisor in the degree-granting department to complete an "Accelerated Bachelor's/Master's Degree Program Application," including:

1. a list of the courses that count toward both the undergraduate and graduate degree and,
2. the projected dates for the completion of the bachelor's and master's degrees.

Students in the Honors College remain eligible to graduate with Honors while participating and should consult with an Honors advisor.

Performance Expectations

Students earning a B or higher in a graduate course can apply the course credit toward the undergraduate and graduate degree (if admitted to the graduate program). A passing grade less than a B cannot count towards the graduate degree but may count toward the undergraduate degree if allowed by the degree program.

Percentage of Coursework Earned at Auburn University

See Undergraduate Transfer Credit Policy (p. 152)

Undergraduate Online Learning

Campus-Based Students

All regularly admitted campus-based students are eligible to enroll in online course sections that are not part of Auburn Online programs. A campus-based student may not exceed the maximum class hour load by adding an online course.

Auburn Online Programs

All Auburn Online students must apply and meet Auburn University's minimum admission requirements. Auburn Online students will be permitted to register for Auburn Online program courses only. Admission requirements for Auburn Online programs are available at https://www.auburn.edu/online/.

Information on all available online courses may be obtained from Auburn Online: Online1@auburn.edu.

Credit For Military Science and Physical Education

A student may be allowed a maximum of 6 credits in military science courses toward graduation. All undergraduate curriculum models must accommodate these 6 credits in military science either through elective hours or substitutions. In addition, students may count additional hours of military science credits toward graduation if their curriculum model provides for additional free elective hours. A student may be allowed four credits of physical education activity courses toward graduation. A student who has served on active duty in the Armed Forces may receive physical education credits as follows: for less than six months of service, no credit; for six months to less than a year, two hours of credit for Physical Education; for one year or more in the service, three hours of credit. Application for credit for military experience should be submitted to the Office of the Registrar.

Auburn University awards academic credit for courses that are part of an enrolled student's military training or service, provided that the military training credits accepted are at the collegiate level and have resulted in learning outcomes comparable to those students would achieve through the Auburn University's own instruction. In determining the academic credit to be awarded, Auburn University uses as a guideline the standards and recommendations of the *Guide to the Evaluation of Educational Experiences in the Armed Services* published by the American Council on Education.

Change of Major or Curriculum

Students must have their dean's approval to change to another major within the same college or school. To change colleges or schools within the university, students must complete a Change of Major Form (https://www.auburn.edu/administration/registrar/documents/Curriculum_Change_Form.pdf).

Admission into Capped Majors

Applicants (from on and off campus) to certain high-demand majors must meet specific requirements for admission to the major.

Students pursuing admission into a high demand major should contact the school or college advising office for details on the criteria for admission and the application process.

List of capped majors (p. 115)

Curriculum Model Change

When the university changes a curriculum model, students in the altered curriculum may be required to complete the subjects and hours placed above the level to which they have progressed. They will not, however, be required to complete additional subjects

placed in the curriculum below the level they have achieved. Courses shifted from one class level to another are exempt from this latter provision. Students' deans will determine the revised subject requirements, and the registrar will determine the revised total hour and grade-point requirements. In no case for students who are continuously enrolled, however, will the changed curriculum compel them to accumulate additional hours and grade points to graduate. In other words, students must complete the university core requirements in place during the term that they first enroll, and in general they must complete the school, college or major requirements in place when they declare a major. Undergraduate students who have not been enrolled at Auburn University for a period of five years or more and who are returning to the same curriculum may be subject to different university, college, school or departmental requirements than those which existed at the time of their initial entry, as well as those which existed at the program level when continuous enrollment ceased.

Academic Program Assessment

Auburn University is committed to fostering the academic achievement and personal development of its students. To carry out that commitment, the university continuously gathers information about the effectiveness of its academic programs, about the progress of its students toward educational and personal goals, and about the achievements and perspectives of its alumni. This information is used to monitor program effectiveness, to recognize educational trends and opportunities, and to develop a sound, factual basis for academic planning.

Each Auburn student is expected to participate in the university's assessment efforts. Academic programs use various means to gather assessment information, including portfolios, performances, achievement tests, comprehensive examinations, surveys, interviews, focus groups, evaluation forms, and other methods. While enrolled, a typical student can expect to take part in one or more of these assessment activities. The total time spent on assessment activities is not likely to exceed 15 hours over the course of four years of enrollment. Participation in these activities may be a completion requirement for some degree programs.

Capped Majors

College	Major	Bulletin Link
Architecture, Design, and Construction	Architecture (Foundation Unit)	Curriculum (p. 327)
Architecture, Design, and Construction	Architecture (Summer Design)	Curriculum (p. 329)

Academic Standing

Good Standing

Students with a cumulative GPA of 2.0 or greater in their Auburn coursework at the end of any term will be placed in (or remain in) Good Standing status.

Academic Warning

Academic Warning status is imposed at the end of any term for which the student's cumulative GPA on Auburn course work is below 2.0.

Academic Suspension

Any student who is on Academic Warning status will be placed on Academic Suspension if both of the following conditions apply: (1) the term GPA is below 2.2 and (2) the cumulative GPA on Auburn course work is below that required for the designated number of hours earned as follows:

Hours Earned	Required Minimum Auburn Cumulative GPA
0-30.999	1.50
31-60.999	1.80
61-90.999	1.90
91 or more	1.97

All students, whether beginning freshmen or transfers, are not subject to suspension until they have received one semester warning (i.e. students cannot go directly from Good Standing status to an academic suspension in a single semester).

Terms of Suspension

A student who incurs a First Academic Suspension may not enroll in the university for a minimum of one semester. Summer term does not count as a semester for terms of suspension. A student may not take coursework at Auburn University or at another institution of higher education during the period of suspension and apply the credit to an Auburn University degree. A student returning from academic suspension will be on Academic Warning status. A student who incurs a Second Academic Suspension may not enroll in the university for a minimum of two semesters. A student who has incurred two academic suspensions will be placed on Last Warning. A student on Last Warning who does not achieve at least a 2.2 in the current academic term or reach the overall GPA target listed above will be dismissed from the university. A student on suspension may not take coursework at Auburn University or any other institution of higher education, either during summer term or during the other semesters of suspension, and apply the credit to an Auburn University degree. Under some extraordinary circumstances, a student who has been dismissed from Auburn University may be readmitted at a future date. In these cases, no coursework taken elsewhere during the period of dismissal can be applied toward an Auburn University degree.

James Harrison College of Pharmacy

A student enrolled in the James Harrison College of Pharmacy who is placed on academic suspension and who wishes to re-enter the college must, in addition to complying with other university readmission requirements, be approved for readmission by the Pharmacy Admissions Committee and, when applicable, by the university's Admissions Committee.

College of Veterinary Medicine

Any student who earns less than a 2.25 GPA for any term will be placed on academic probation. A student who fails to earn a 2.25 GPA for any two terms in the same academic or calendar year may be dropped from the College of Veterinary Medicine for scholastic deficiency. In addition, a student who does not have an overall average of 2.25 for an academic year or who does not have a veterinary overall average of 2.25 for an academic year or who does not have a veterinary college cumulative average of 2.25 at the end of any academic year may be required to withdraw from the College of Veterinary Medicine.

A student who makes a grade of F in any course may be dropped from the College of Veterinary Medicine until such time as the course is offered again. Such students may be required to repeat certain other courses in the curriculum for the term in which a grade of F was earned.

Students who are dropped under the above provisions are eligible for admission to other curricula provided they meet the general scholastic requirements for continuance in the university. Scholastic penalties incurred during enrollment in the College of Veterinary Medicine will become part of the student's record.

Accommodation Policy for Students with Disabilities

Auburn University is committed to providing its students with an accessible campus and equitable learning environment. If you have a disability that requires academic accommodations, access to assistive technology training, or support services, contact the Office of Accessibility for additional information: 1228 Haley Center; 334-844-2096 (Voice/TT) or visit the Office of Accessibility website at accessibility.auburn.edu (https://accessibility.auburn.edu/).

Bachelor's Degree Requirements

To earn the bachelor's degree from Auburn University, students must complete the requirements of the university's Core Curriculum, and they must choose a major curriculum and complete its requirements and those of the college or school with at least a 2.0 average across all Auburn courses attempted, at least a 2.0 average across all courses credited to the degree program, and at least a 2.0 average across all courses credited to the major. These requirements are university requirements. Individual colleges, schools and departments may have higher requirements. Credits required for graduation are at least 120 hours. The student's academic dean clears subject and non-course requirements in the curriculum; the registrar, together with the academic dean's office, clears total hours and GPA requirements. A list of specific courses identified as major courses in each curriculum is available in the appropriate academic dean's office. Limitations on the amount of transfer credit that can be applied to degrees and majors can be found in the Undergraduate Transfer Credit Policy.

Graduation

Clearing for Graduation

Seniors must register for the UNIV 4AA0 — Achieve the Creed graduation course (administrative course—non-graded) in the term in which graduation is to occur. Enrollment in this course provides Auburn University with a list of expected degree candidates so that all administrative work can be processed in plenty of time for graduation. It also allows the graduating student access to the SCORE general education assessment program and the Diploma Application.

Students who are nearing graduation should meet with their academic advisor in their dean's office to arrange for a graduation check about a year before their expected graduation. In general, deferred grades (IN, NR, PE) from a previous term of courses to be used toward degree requirements must be cleared by mid-semester of the student's graduation term.

Students must be enrolled at Auburn University in the term in which degree requirements are completed. The undergraduate student who is registered for no credit hours at Auburn University in the term of graduation will be registered for the UNDG 4900 — Clearing for Undergraduate Graduation course (administrative course—non-graded, no coursework). Enrollment in this course is due to the staff and/or the facilities of the university being used for graduation administrative work, the clearing of deferred grades, and/or when a student is completing graduation coursework requirements at an institution other than Auburn University. Graduate students should refer to the "Registration and Graduation Requirements" section under the Graduate School portion of this Bulletin.

A graduation fee is payable to the Office of Student Business & Account Services at the beginning of the term of graduation. If a student is in default on any payment (tuition, medical clinic, parking, library, etc.) due to the university, the diploma and academic record (transcript) will not be issued until the matter is cleared. Students are responsible for notifying the Office of the Registrar when such matters are resolved in order to receive their diploma.

Degrees are conferred each term. Commencement exercises are held after fall, spring, and summer terms. Diplomas are mailed to the graduates after degrees are awarded, about 6 to 8 weeks after graduation. Transcripts are ordered online.

Class Attendance and Examinations

Policy on Class Attendance

Students are expected to attend all their scheduled classes. College work requires regular class attendance as well as careful preparation. Specific policies regarding class attendance are the prerogative of individual faculty members. Faculty shall inform each class in writing at the beginning of the course regarding the effect of absences on the determination of grades.

The student is expected to carry out all assigned work and to take examinations at the class period designated by the instructor. Failure to carry out these assignments or to take examinations at the designated times may result in an appropriate reduction in grade, except as provided in paragraph 4 below.

Instructors shall determine the policy regarding grading which they feel is best for the course. This policy shall be presented to the class, in writing, at the beginning of the term and will govern the actions of the instructor in the course.

Arrangement to make up missed major examinations (e.g., hour exams, midterm exams) due to properly authorized excused absences shall be initiated by the student as soon as possible but no later than one week from the end of the period of the excused absence. Normally, a make- up exam shall occur within one week from the time that the student initiates arrangements for it. Instructors are encouraged to refrain from giving make-up examinations during the last three days prior to the first day of final examinations. The format of make-up exams and opportunities for students to make up work other than major examinations are at the discretion of the instructor whose make-up policies should be stated in writing at the beginning of the term. Instructors are expected to excuse absences for:

1. Illness of the student or serious illness of a member of the student's immediate family. The instructor may request appropriate verification.
2. The death of a member of the student's immediate family. The instructor may request appropriate verification.
3. Trips for members of the student organizations sponsored by an academic unit, trips for university classes, and trips for participation in intercollegiate athletic events. When feasible, the student must notify the instructor prior to such absences, but in no case more than one week after the absence. Instructors may request formal notification from appropriate university personnel to document the student's participation in such trips.
4. Religious holidays. Students are responsible for notifying the instructor in writing of anticipated absences due to their observance of such holidays.
5. Subpoena for court appearance.
6. Military Orders
7. Any other reason the instructor deems appropriate.

Additional Class Attendance Stipulations

- If the instructor does not appear within 20 minutes after the designated class hour, it may be assumed the class is canceled.
- It is university policy that all classes will meet as scheduled on the last day before and the first day after holiday periods designated by the university.
- Unresolved problems regarding class attendance or procedures should be referred to the University Student Academic Grievance Committee.

Examinations

Examinations During the Semester

In face-to-face and online synchronous classes, announced tests in undergraduate courses will be administered during a regularly scheduled meeting of the course. Exceptions to this practice may arise in specialized courses requiring performance or oral tests, and in multiple-sectioned laboratory classes requiring practical laboratory tests. Faculty having sound reasons for scheduling tests at times other than regularly scheduled meeting times are to obtain approval from the department head prior to the beginning of the term and are to present these changes in the syllabus at the beginning of the term. Rescheduled exams are not to interfere with other scheduled academic activities of the students involved, and an appropriate reduction in regularly scheduled class time is to be given to compensate for the rescheduled exam period.

Online classes using an asynchronous approach are exempt from the requirement to administer exams during regularly scheduled course times provided exams are scheduled in writing on the syllabus and students are offered an exam window of at least 24 hours of during which the exam is available. This exam window should be long enough to align with the expectations of the asynchronous format and to allow students to complete an exam without having to miss their other academic activities. Examination periods should end in time for final grades to be submitted by the university's grading deadline.

Policies on make-up exams can be found in the Class Attendance Policy.

Final Examinations

A final examination is a common means of evaluation in undergraduate courses but other means such as performance tests, term papers, research projects or other forms of evaluation appropriate to the objectives of the course may be used. Faculty should present the forms of evaluation to be used and the means of determining final grades in the syllabus.

Final examinations are to be given as scheduled in the term examination schedule. Final examinations in courses carrying fewer than three hours of credit may be given on the last class day or at the time designated in the examination schedule. Final examinations in

laboratory courses should be administered during the last laboratory period. Exceptions to giving a final examination at the scheduled time require prior approval by the provost. Rescheduled examinations must not interfere with scheduled academic activities of the students involved.

Auburn University students are provided the conditional right to take no more than two (2) final examinations in a single calendar day. Students with three or more final examinations scheduled on one calendar day should contact instructors on or before midsemester to request rescheduling, so that no more than two final examinations fall on any calendar day. Any Auburn student unable to get any instructor(s) to voluntarily move the exam(s) will present this situation to the Associate Dean of the student's major college and, after verification, that Associate Dean will contact the Associate Dean of the faculty member(s) scheduled for the middle exam period(s) of the student's scheduled finals to arrange to reschedule the exam(s). After midsemester, requests to move an exam can be made by complying with the same procedure but are not guaranteed to be approved.

Student Academic Grievance Policy

The Student Academic Grievance Policy (https://auburnpub.cfmnetwork.com/B.aspx?BookId=12373&PageId=461564&Search=Student%20Academic%20Grievance) is designed to resolve academic grievances of students which result from actions of faculty or administrators.

Core Curriculum and General Education Outcomes

The purpose of the Auburn University Core Curriculum is to foster the knowledge, skills, and perspectives that are hallmarks of an Auburn graduate. By completing courses that represent a range of disciplines students begin to acquire an educated appreciation of the natural world, of human life, and of the interactions between them. In particular, students complete the subject area distribution requirements identified below, which meet the requirements established by the Alabama General Studies Committee.

The specific courses each student completes in order to fulfill Auburn University's core curriculum requirements will depend upon the particular major in which the student is enrolled. Students should consult their curriculum models and discuss their options with their academic advisor. All Auburn students are required to complete a six semester credit hour sequence in either History or Literature as part of their requirements. Courses ending in "7" are Honors courses.

English Composition: 6 hours required

The Importance of Writing at Auburn University

A key element of Auburn's instructional mission is the emphasis on written communication, which is supported through the university's general education courses and advanced through a robust Writing Across the Curriculum program. These efforts underscore the mechanics of formal writing, such as grammar and sentence structure, and engage students in an extensive process that translates ideas, insights, or interpretations into refined prose. Through the Writing Across the Curriculum program, every academic major maintains a comprehensive writing plan that supports student development across various occasions and audiences and provides opportunities for reflection, feedback, and assessment. By demonstrating the ability to logically present and explain a concept or idea to an audience, students understand and appreciate the role of writing as an integral part of learning.

Code	Title	Hours
ENGL 1100/	English Composition I	3
or ENGL 1107	Honors Writing Seminar I	
ENGL 1120	English Composition II	3
or ENGL 1127	Honors Writing Seminar II

English Composition Requirements

Students who enroll at Auburn University as freshmen and students who transfer from another institution into Auburn must meet Auburn's six semester hour English composition requirement. Requirements are based on when the student first began collegiate study and whether the student's English composition courses were taken at Auburn University. If a student's particular situation is not covered in the explanations below, or if a student has questions about his or her status, then the student should contact the Director of Composition by calling the Department of English at (334) 844-4620 or via e-mail at english@auburn.edu. Additional information on the importance of writing across the curricula can be found here (p. 149).

Students beginning collegiate study at Auburn as freshmen in Fall 2000 or later must complete English Composition I and II (ENGL 1100 and ENGL 1120) or the Honors equivalents (ENGL 1107 and ENGL 1127) with a grade of C or better in each course. The grades of C or better are required by the Articulation and General Studies Committee agreement. Students who earn a grade of D or F in a composition course at Auburn must repeat that course. Students may repeat the course at another institution, unless they wish to use the grade adjustment policy to exclude the grade of D or F. Students must complete the composition sequence to be eligible to take Core Literature courses.

Transfer students beginning collegiate study at another institution in Summer 1998 or later must meet Auburn's composition requirement. They may do so in one of two ways: (1) take English Composition I and II at another institution, provided these courses are comparable in scope and coverage to ENGL 1100–ENGL 1120 and there is no duplication of hours, and earn a grade of C or better in each, or (2) take ENGL 1100–ENGL 1120 (or ENGL 1107–ENGL 1127) at Auburn and earn a grade of C or better in each.

Transfer students who have earned a grade of C or better in English Composition I, and earned three semester hours or five quarter hours at another institution will be required to take ENGL 1120 (or ENGL 1127) at Auburn. Students may also fulfill the requirement for ENGL 1120 by taking an English Composition II course at another institution, provided the course is similar in scope and coverage to ENGL 1120 and they earn a grade of C or better.

Transfer students who have been exempted on the basis of standardized test scores from English Composition I carrying five quarter hours or three semester hours at another institution, and who have earned a grade of C or better in a subsequent English composition course at the same institution carrying the same amount of credit, will have fulfilled Auburn's composition requirement. Transfer students who have been exempted with credit will have both the exemption credit and course credit accepted at Auburn. Transfer students who have been exempted without credit, and who have earned a grade of C or better in a subsequent English composition course at the same institution, will be given the course credit and, in addition, will be awarded sufficient advanced standing credit to fulfill Auburn's English composition requirement.

Transfer students who have been exempted from English Composition I at another institution but have had no subsequent English composition course there or have not earned a grade of C or better in the subsequent course must still complete Auburn's six semester hour freshman composition requirement. However, if they meet any of Auburn's criteria for exemption from ENGL 1100, they will receive three semester hours of credit for ENGL 1100 at Auburn and will be required to take ENGL 1120 (or ENGL 1123

or ENGL 1127) at Auburn. Additionally, if they meet any of Auburn's criteria for exemption from ENGL 1120, they will receive three semester hours of credit for ENGL 1120.

All transfer students should confer with their major academic advisor concerning the composition requirement as soon as possible after enrolling at Auburn.

Students who enter an undergraduate program at Auburn after receiving a bachelor's degree from an accredited institution are exempt from meeting the composition requirement.

All students may be eligible to exempt ENGL 1100 and/or ENGL 1120 with credit on the basis of their score in one of the following standardized tests: the English portion of the ACT; the reading score of the SAT; the International Baccalaureate English A1 exam; or the CEEB Advanced Placement Exam in English. Note that CLEP test scores are not eligible for exemption. The exemption scores for each test are reviewed each year and are available in the Auburn University Advanced Placement Program, which is distributed by the Office of the Registrar (https://www.auburn.edu/administration/registrar/student.php).

Literature Requirements

Students beginning college work in Fall 2011 or after must take at least one Core literature course. They may take a second course in the same literature to complete a sequence. Completion of the freshman composition requirement is a pre-requisite for all literature courses.

All Auburn students beginning college work before Fall 2011 must fulfill the Core Curriculum literature requirements by taking one of four sequences:

Code	Title	Hours
ENGL 2200/2207	World Literature before 1600	3
ENGL 2210/2217	World Literature after 1600	
ENGL 2230	British Lit before 1789	3
ENGL 2240	British Lit after 1789	
ENGL 2250	American Lit before 1865	3
ENGL 2260	American Lit II after 1865	
ENGL 2270	AfAm Lit Before 1900	3
ENGL 2280	AfAm Lit After 1900	

Literature courses taken at other institutions may fulfill the Core literature requirement with the following provisions:

1. Students may transfer as equivalents of the Core literature requirement only sophomore-level literature survey courses covering a broad historical period.
2. Students transferring a single literature course may receive credit for ENGL 2200 only if it is the first course in a World Literature sequence and includes literature of the ancient world. Any survey of modern literature (beginning at any time after 1600 and extending to the present), whether world literature or a national literature, will transfer as credit for ENGL 2210.
3. Freshman literature courses and literature courses based on genres (poetry, the short story, the novel), themes, or narrowly defined historical periods will not fulfill the Core literature requirements but are eligible for transfer as electives.

Students or advisors with special questions about placement or credit for the Core literature requirements may contact the director of core literature through the Department of English at (334) 844-4620 or via e-mail at english@auburn.edu.

History Requirements

One of the purposes of the university's Core Curriculum is to give students an understanding of their culture and its backgrounds. Course sequences designed especially for this purpose are those in World History and Technology and Civilization. Native students beginning college work before Fall 2011 must earn six hours of credit in one of these sequences. Students beginning college work in Fall 2011 or after must have at least one Core history course and a complete Core sequence in either literature or history.

Credit in history earned at another institution may be allowed on transfer as shown below in meeting this particular requirement:

1. If transfer students have three hours in the first course of a broad, introductory two-course sequence in world history or western civilization or technology and civilization or U.S. history they must complete a history sequence, by taking HIST 1020/HIST 1027 (for World History and Western Civilization), HIST 1220/HIST 1227 (for Tech. and Viv.) or HIST 2020 (for U.S. History).

A transfer student who has taken the last course in a similar two-course sequence would take HIST 1010/HIST 1017 or HIST 1210/HIST 1217 or HIST 2010 to complete a sequence.

2. Students entering an undergraduate program at Auburn, after earning bachelors' degrees from other accredited universities, may be exempted from the history requirements unless their curricula specify otherwise.

Math Requirement

Upon recommendation from the Office of Accessibility (based on a thorough review including medical documentation, student interviews, past history, etc.), the Chair of the Core Curriculum and General Education Committee may approve MATH 1000 as satisfying the core curriculum math requirement. Such approval does not remove or satisfy any specific MATH requirements or prerequisites in the student's major. Any adjustments to major-specific MATH requirements are at the discretion of the unit offering the major.

Oral Communication Requirement

All Auburn University bachelor's degree programs provide components to ensure competence in oral communication skills. Program information documenting oral communication components is maintained in the Office of the Provost/Vice President for Academic Affairs. Appropriate accommodations will be made to enable individuals with disabilities to satisfy this requirement.

Course Numbering

The subject name (subject area) together with the course number constitutes the official designation for the course for purposes of registration and official records. The specific course title appears following the course number. The figures in parentheses denote the number of hours of semester credit for the course. Following the credit hours are listed contact hours, the estimate of the actual hours per week a student should expect to be in class. If none are listed, the course will meet each week the number of hours that equals the number of course credit hours. Next appear the pre-requisites (required courses to be taken prior to) and co-requisites (required courses to be taken simultaneously with), if applicable.

Courses are numbered according to the following system:

- 1XXX — Undergraduate courses primarily for freshmen
- 2XXX — Undergraduate courses primarily for sophomores
- 3XXX — Undergraduate courses primarily for juniors
- 4XXX — Undergraduate courses primarily for seniors
- 5XXX — Courses (1) for professional students in Architecture, Design and Construction, and (2) undergraduate courses taught in conjunction with graduate courses
- 6XXX — Graduate courses that are paired with parallel 5000-level course
- 7XXX — Graduate courses. Not available to undergraduates
- 8XXX — Graduate courses. Not available to undergraduates
- 9XXX — Graduate courses exclusively in the professional practice doctoral degree programs (Pharmacy and Veterinary Medicine). Certain courses at this level may be designated by the department and approved by the Graduate Council for graduate credit.
- XXX1 — Undergraduate laboratory courses
- XXX3 — Undergraduate online courses (Discontinued use in 2021)
- XXX6 — Graduate online courses (Discontinued use in 2021)
- XXX7 — Undergraduate courses carrying Honors College credit

For more information on course numbering, please consult Guidelines for Course Numbering (http://auburn.edu/academic/provost/curriculum-management/_assets/pdf/Course-Numbering-Guidelines.pdf).

Dean's List and Graduation Honors

Dean's List

The name of eligible students who meet certain scholastic requirements at the conclusion of a given semester are placed on a list prepared for the dean of the student's college. This honor is also noted in the student's permanent record.

To meet Auburn University's requirements for inclusion on the dean's list, the student must be enrolled for 12 credit hours exclusive of any S-U option courses, pass all courses attempted for the semester, have no D or XD grades that term, and earn a GPA of at least

3.75 (on the 4.00 system). All grades, including those excluded by the grade adjustment/course repeat policy, are used for determining academic honors. The special requirements, applied in addition to the university regulations, are listed as follows:

- College of Architecture, Design and Construction: 3.75 average; only if an S-U graded course is required in the student's curriculum may it be included in the 12-hour minimum total.
- College of Nursing: 3.75 average, only if S-U graded courses are required in the student's curriculum may they be included in the 12 hour minimum total if and only an S grade is earned in these courses.

Graduation Honors

The grade average for graduation honors must be achieved on Auburn University course work. At least 60 hours in residence at Auburn University are required for graduation honors. all grades, including those excluded by the grade adjustment/course repeat policy, are used for determining academic honors. Grades of S or U and non-credit courses are not used in the calculations. Students earning a second baccalaureate degree must earn the minimum overall grade average required for honor distinction on the additional hours completed for the second degree. Those additional hours must total at least 60 credit hours.

Undergraduate students with a minimum overall grade average of 3.40 are graduated cum laude; a 3.60 magna cum laude; and a 3.80 summa cum laude. This distinction of high academic achievement is placed on the student's diploma and on his or her permanent record.

Students meeting all of the requirements of the Auburn University Honors College graduate as either an Honors Scholar or University Honors Scholar. Students should refer to the Honors College (p. 142) section of this Bulletin for the requirements of the Honors College graduation distinctions.

Early Alert Grades

In order to facilitate the adjustment of students to the rigors of Auburn University coursework, faculty teaching core courses must record in Banner an early alert grade (https://auburnpub.cfmnetwork.com/B.aspx?BookId=12617&PageId=462137) for all students enrolled in those classes one week prior to midterm. This process will permit students to seek tutoring or take other action before the drop deadline.

Enrollment

Registration and Scheduling

Every student who makes use of the instructional staff and facilities of the university must register and pay fees. This rule also applies to students who are clearing incomplete grades, clearing for graduation, or working on graduate theses. The university calendar (p. 52) lists the dates for registration and late registration/schedule adjustment. Students are urged, and depending on the curriculum may be required, to seek guidance from their advisers before attempting to register for classes, and they are urged to register during their assigned registration period. Students should register for courses during the term preceding the term they plan to attend. **When registering, the student is responsible for observing course pre-requisites or co-requisites.** Any waiver of these requirements must be approved by the department head or, in some cases, the dean. Waiver of the junior standing pre-requisite for courses that may be taken for graduate credit must have the Graduate School dean's approval. The dean may reduce a student's class load. **Students may register for classes via the web through the 5th university class day in Spring and Fall semesters, and through the 2nd university class day during full Summer term. Students may register for classes after the close of student web registration only with the approval of the college, school or department offering the course. No student without a course schedule will be allowed to register after the 15th day of classes during Fall or Spring or after the 10th day of classes in the full Summer term without the approval of the provost.**

Permission To Register

All students must have a username and a password prior to participating in registration, late registration or schedule adjustment. All registration holds must be cleared prior to the start of registration to avoid delays in registration.

Undergraduate Transient Students

See Undergraduate Transfer Credit Policy (p. 152)

Classification

Year	Completed Hours
Sophomore	completed 30 hours and is in the 31st to 60th credit hour
Junior	completed 60 hours and is in the 61st to 90th credit hour
Senior	completed 90 hours and is in the 91st hour or higher

The codes for identifying the classification of students are as follows: FR, Freshman; SO, Sophomore; JR, Junior; SR, Senior; 5YR, fifth year; UND, undergraduate non-degree students; UPR, undergraduate provisional; MST, master's; EDS, educational specialist; EDD, doctor of education; PHD, doctor of philosophy; GPR, graduate provisional; GND, graduate non-degree; P1, first-year professional; P2, second-year professional; P3, third-year professional; and P4, fourth-year professional.

A student with a baccalaureate degree who undertakes a program for a second bachelor’s degree will be classified as an undergraduate.

Undergraduate Course Load Policy

An undergraduate must enroll for 12 or more hours during a semester or summer term to be considered full-time for athletic, financial aid, loan and insurance purposes. The maximum load for students in undergraduate curricula is 18 hours during the semester, 7 semester hours during the 5-week session, and 14 hours during the 10-week session or any combination of summer sessions.

The maximum load may be exceeded under the following circumstances:

On approval of the student's dean, students may schedule overloads not to exceed 22 hours during the semester or 17 hours during the summer terms or 9 hours during a 5-week session. To be eligible for an overload, students must have passed all work attempted and earned a GPA of 2.5 or higher during their last semester at Auburn University in which they carried 15 or more hours (10 or more in their last summer). In determining whether to approve an overload exceeding these hour limits, the student’s academic dean will consider the student’s academic history, including grades and the number of courses taken in the past. Deans (or their designees) must seek approval from the provost’s designee for overloads greater than the limit of 22 hours during the semester or 17 hours during the summer terms or 9 hours during a 5-week session.

International Students are required to be enrolled as full-time students during the academic year and are subject to special full-time enrollment regulations. They may NOT drop below the full-time course loads without prior written authorization from the Office of International Programs. Dropping below full course loads without prior Office of International Programs (OIP) approval can subject international students to termination of their immigration status therefore international students and academic advisors must check with OIP PRIOR TO modifying full-time course loads for international students.

Undergraduate Grade Adjustment Policy (GAP)

All regularly admitted undergraduate students, who were enrolled during Fall 2000 or after, may delete GPA computation and credit for a maximum of three (3) grades of D or F (including FA, WF or U) associated with their undergraduate degree program from the computation of their cumulative GPA. Deletion of grade computations and credit is not available to professional students in pharmacy and veterinary medicine. Grades and credit considered as transfer credit, courses earned in a previously awarded baccalaureate degree, or grades that have been assigned as a result of an academic honesty decision are excluded from this policy.

This policy does not offer exemption from academic requirements for Auburn University degrees; adjustment only applies to grade computation in individual courses.

All core and major requirements must be met for graduation. Students should be aware that D or F/FA/WF/U grades in required courses may be deleted from the computation of the cumulative GPA prior to a repeat, but if required for the degree, the course must be repeated at Auburn University before graduation.

Where a specific course is required for the core or a major, that course must be repeated to replace the adjusted grade. Courses covered by this policy and needed to meet core area requirements or elective courses within a major may, subject to the approval of the academic dean, be replaced by any course accepted for that requirement, where applicable. All courses for which a grade is awarded at Auburn University will remain on the transcript. Students may submit a written request for grade adjustment to their academic dean’s office at any time prior to graduation. Once a request for adjustment of a grade has been granted and that has been removed from the calculation of the cumulative GPA, the grade and credit cannot be restored.

Students should follow guidelines for the repeat of courses in which grades of A, B, or C have been awarded (See the following section on Other Policies on Repeat of Courses). However, all grades will be used for determining all academic honors.

All Auburn University transcripts will include two institutional GPAs: a semester GPA, and a cumulative GPA. The transcript will carry an appropriate notation that the cumulative GPA may not include grades for all courses attempted.

Note that a student may not GAP a course in a degree program once that program is complete and the degree awarded.

Note that gapped grades will be seen by graduate schools and professional programs and they may use un#gapped GPAs in the selection process.

Grades

Grade Definitions

Final passing grades are A, superior; B, good; C, acceptable; D, passing; and S, satisfactory. Final failing grades are F, failure; FA, failure for excessive absences; U, unsatisfactory; and WF, officially dropped with permission of the student's dean but failing at time of withdrawal and is calculated into the GPA (For the definition of W, see the following section on Grade Assignment for Class Withdrawal.).

A TD, thesis and dissertation research credit, is assigned to courses 7990 Research and Thesis and 8990 Research and Dissertation.

A grade of IP (In Progress) is used by professional programs, specifically Pharmacy, Veterinary Medicine, and any other degree program designated as a "professional program" by the university, where completion of courses within that program may extend beyond the end of a regular term. Students who are making progress toward completion of their work but have not completed all course requirements may receive the IP grade. The IP grade is not calculated in the GPA until the grade is cleared. An IP grade must become a grade of A, B, C, or D within one year from the end of the term the IP grade was awarded or the IP grade will become an F.

Grades of SA and SN may be assigned in certain specialized classes in which progress to the next level of a program depends on performance in the class. In such cases, a grade of SA in a particular course may be required for advancement. A grade of SN will give the student appropriate earned credit but will not allow the student to advance in that program.

An NR (no grade reported) is assigned systematically when the instructor does not assign a letter grade. Grades of NR should be cleared as soon as the faculty member can submit final grades on the Incomplete Grade Memorandum of Understanding Form to the Office of the Registrar; in any case, grades of NR should be cleared by no later than four weeks from the final grade deadline of the previous semester.

Faculty Policy on Assigning Grades of Incomplete

1. Student (or appropriate representative) must contact the faculty member through Auburn email or in writing prior to the submission of final course grades to request a grade of Incomplete (IN) due to documented reason (illness/death in family/etc.).

2. If a student does not request an IN, the faculty member should grade the student based upon the percentage of course work completed to date and using a zero (0) for any exams/assignments not completed.

3. To be eligible for a grade of IN, the student must have completed (and have passed) more than half of all class assignments for the semester.

4. The faculty member must fill#out the Incomplete Grade Memorandum of Understanding Form through the workflow process, indicating the:

- Reason for the IN
- Percent of course work currently completed at the time of submission and the grade average on that work,
- Detailed information about the additional work needed to complete the course,
- Timeline to complete the work (6 months maximum; preferably sooner), and
- Grade the student should be assigned if the additional work is NOT completed by the deadline set for the completion of the work; the missing work is calculated as a zero (0).

5. Grades of Incomplete automatically become the grade identified by the faculty member, if not cleared within 6 months.

6. If the faculty member assigning a grade of IN leaves Auburn University, the department head should make a reasonable attempt to contact the former faculty member and then assign a grade based upon the work presented by the student and the information provided

thru workflow on the Incomplete Grade—Memorandum of Understanding form. This information will be in extender under the student's number.

7. Once an IN has been changed to another grade it may not be changed, in the future, to a different grade without approval of the provost.

8. Documentation of class work must be maintained by the student. The Incomplete Grade—Memorandum of Understanding workflow can be accessed in extender. For faculty members who submit the IN grade forms to the Office of the Registrar prior to course grades being rolled to academic history, the IN will be reflected on the electronic grade roster; faculty will be unable to change that grade on the electronic grade roster.

9. Faculty members should NOT enter a grade on the banner course roster for those students who are to be assigned the IN grade but leave the grade blank. Once the IN grade form is received by the Office of the Registrar through workflow, the IN will be entered on the student record.

10. When the student has completed the outstanding work, it is the responsibility of the faculty member to initiate the change of grade workflow.

Faculty Policy on Grade Changes

- All grades (except IN, IP, and NR) are final when submitted to the Office of the Registrar by the instructor.
- Once submitted, a final grade may be changed only by the request of the instructor, with the approval of the department head and dean, by means of a workflow submitted to the Office of the Registrar.
- Changes to final grades must be submitted within six months of completion of the course.
- Any grade changes submitted outside of this timeframe **must also** be approved by the provost.
- A grade of F and additional penalties may be assigned for academic dishonesty, as prescribed in the Student Academic Honesty Code (https://www.auburn.edu/academic/provost/academic-honesty/) (1202.1.1).
- Deferred grades (IN, IP, and NR), whether submitted by the instructor (IN) or assigned systematically (IP and NR) are to be cleared by the instructor as soon as possible and no later than the time period specified in the Faculty Policy on Assigning Grades of Incomplete (p. 132) or the Grade Definitions (p.) specific to these deferred grades.

Grade Assignment For Class Withdrawals

A student who withdraws from a course prior to the 15th class day during a semester (or the fifth class day of summer term) will have no grade assignment; however, from the 15th class day during a semester (or the fifth class day of summer term) through the withdrawal deadline published in the academic calendar a W (Withdrawn Passing) grade will be recorded for the course. A course may be dropped with a W after mid-semester only under unusual conditions and only with permission from the student's dean. When approval for dropping the course under such circumstances is granted, a W may be assigned only when the instructor indicates that the student is clearly passing the course. Otherwise, a grade of WF (Withdrawn Failing) is assigned. All failing grades are calculated into GPA as grades of F.

Grade Average and Quality Point Computation

A 4.0 grade scale is used. An A equals 4.0; B, 3.0; C, 2.0; D, 1.0; and F equals 0.0. Only course work attempted at Auburn University is used in determining the grade report average and continuation-in-residence requirements. S and U grades do not enter into grade-point computations.

S-U Grading

Grades of S (Satisfactory) and U (Unsatisfactory) may be assigned only to courses approved to be graded S-U, and courses elected under the S-U option.

A junior or senior with a minimum overall grade average of 2.5 on at least 20 hours of credit earned at Auburn may elect any course to be graded on the S-U option, except for courses required in the Core Curriculum or for required courses as defined by the student's curriculum. A total of 12 credits may be earned at the rate of one course per term. Students will receive credit toward a degree for these courses, provided credit is normally accepted in their curricula for these courses.

An unclassified student may schedule one or more courses on the S-U option with the approval of the dean. Courses completed on the S-U choice by unclassified students may not be applied later to degree requirements should the student become a degree candidate.

A graduate student may enroll in undergraduate courses, except for 6000-level courses taken for graduate credit, under the S-U option on the major professor's recommendation.

Students are not permitted to change from S-U grading to conventional grading or vice versa after the fifteenth-class day of the fall and spring terms or the fifth class day of any summer term.

Grade Reports

Grade information may be obtained via AU Access at the Auburn University homepage, https://www.auburn.edu/.

Policies and Procedures for Admissions

Auburn University is an equal-opportunity educational institution, and as a matter of policy, does not discriminate in its admissions policy on the basis of race, color, sex, religion, disability, sexual orientation, age, or national origin. Preference is given to the admission of Alabama residents at the undergraduate level; in considering applications to professional schools or programs with restrictive admissions policies, the length of residency in the state will be a factor.

Applications for resident and non-resident students are accepted for all curricula; however, the number of students and academic credentials of the applicants accepted for admission are determined by the availability of facilities and faculty.

Application Forms

Applicants are required to submit their application electronically using the document available on the Auburn University website at https://www.auburn.edu/admissions/attention-applicants.php. Application to the Graduate School, the College of Veterinary Medicine, or the James Harrison College of Pharmacy must be made to those schools.

Process for Application

Individuals may apply for undergraduate admission early fall. Because of the large number of applications, credentials should be submitted as early as possible. In all cases, complete credentials along with the medical examination report must be filed at least three weeks before the term's opening. **The university reserves the right to establish earlier deadlines should circumstances warrant. Prospective students who are offered admission to the university must maintain a level of academic achievement comparable to that in the record used for admission evaluation. Otherwise, the university reserves the right to rescind the offer of admission.**

Application Fee

A $50 processing fee (international application processing fee is $60), payable by check, money order or credit card, must accompany all admission applications and is neither refundable nor applicable to other fees. Responses on the application forms and on related materials must be complete and accurate; entrance may be denied or registration canceled as a result of false or misleading statements.

Applicants may receive provisional acceptance after they submit the application form and current academic documents. However, they must complete and return a medical examination report form provided by the university at least three weeks before the term's opening. The university may require additional medical examinations and may refuse admission to individuals whose health records indicate their health or the university community might be adversely affected by their attendance. All applicants must certify they have registered with the Selective Service Board or they are not required by law to register.

Applicants may be asked to supply evidence of good character. The university may deny admission to those whose presence is deemed detrimental to the institution or its students.

Admission of Freshmen

Favorable consideration for admission will be given to accredited secondary school graduates whose college standardized test scores, high school grades, and other factors give promise of the greatest level of success in college courses.

Secondary school students planning to apply for admission to AU should emphasize the following high school courses: English, mathematics, social studies, sciences, and foreign languages.

High School Curriculum Requirements

Course	# of Years
English	4 years
Mathematics	3 years
Algebra I and Algebra II	2 years
Geometry, Trigonometry, Calculus or Analysis	1 year
Science	2 years
Biology	1 year
Physical Science	1 year
Social Studies	3 years

Recommended: one additional science, one additional social studies, and one foreign language.

Applicants can present scores from either the American College Test (ACT) or the Scholastic Aptitude Test (SAT) of the College Entrance Examination Board. Scores must be received from the testing agency directly and will not be accepted on the high school transcript. Scores on both the ACT and SAT tests may be used as a partial basis for admission, for placement in English, chemistry, and mathematics, and for awarding university scholarships and loans. Applicants whose native language is not English are required to demonstrate proficiency in English.

Applicants of mature age who are not high school graduates may be considered for admission if their educational attainments are shown through testing to be equivalent to those of a high school graduate. The tests used include the USAFI General Educational Development Test, the American College Test, and/or other tests required by the Admissions Committee. The Committee will consider applicants from non-accredited high schools on an individual basis.

Early Admission

Early admission is for students who have met all the high school graduation requirements, have graduated early (typically following eleventh grade or mid-senior year), received a high school diploma, and wish to begin their college career early.

Dual Enrollment

Dual enrollment is for those seeking dual (simultaneous) enrollment at Auburn University and their high school. If attending Auburn University as a dual enrolled student, the student must also submit a regular freshman admission application following the completion of their junior year of high school.

For more information on dual enrollment visit, https://www.auburn.edu/academic/provost/pathways/auburn-first/ (https://nam11.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.auburn.edu%2Facademic%2Fprovost%2Fpathways%2Fauburn-first%2F&data=05%7C01%7Ckcc0019%40auburn.edu%7C6d3a72f9ad824e7a8f9108dbf1da4bde%7Cccb6deedbd294b388979d72780f62d3b%7C0%7C0%7C638369692098985784%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C3000%7C%7C%7C&sdata=UVrnZM38Sq9T3JCTuF3YkNDWXoQ7SLHfLldxz6VtdIk%3D&reserved=0) or contact aufirst@auburn.edu.

Admission of Transfer Students

Admission of transfer students to the University is contingent on availability of space.

Auburn University considers transfer applicants in three categories:

1. **Traditional Transfer:** Transfer applicants with 24 or more semester hours of post-high school college credit (in addition to any AP/IB credit) must have completed at least 6 semester hours of courses that meet Auburn University core requirements. These applicants must have earned a cumulative 2.5 GPA in all college coursework and be eligible to re-enter the last institution attended. Remedial, technical, or vocational courses are excluded from the hours and GPA calculation.
2. **Freshman Transfer:** Transfer applicants with at least 12 but fewer than 24 semester hours of post-high school college credit (in addition to any AP/IB credit) must have been eligible for admission based on their high school record upon graduation and must have completed at least 3 semester hours of courses that meet Auburn University core requirements. These applicants must have earned a cumulative 2.5 GPA in all college coursework and be eligible to re-enter the last institution attended. Remedial, technical, or vocational courses are excluded from the hours and GPA calculation.

3. **Gateway Transfer:** Transfer applicants who complete a university-approved gateway program are admitted based on completion of all requirements of the approved gateway and a minimum of a 2.75 cumulative GPA in all coursework applicable to the gateway.

Some programs may have higher standards for admission than the university at large. If so, students transferring into those programs must meet the higher standards. These higher standards apply to transfer applications from both new and continuing students.

Transfer applicants who do not meet the requirements above may be further evaluated using a holistic review considering factors such as levels and trends in academic achievement, performance in coursework related to intended major, and extenuating circumstances that may have affected students' academic performance.

Transfer Credit

See Undergraduate Transfer Credit Policy (p. 152)

Transferring from Auburn University Montgomery (AUM)

Undergraduates enrolled at either of Auburn's campuses may take classes at either campus, if they are in good standing and have approval by the home campus. Those credits can count toward their graduation requirements. This policy does not supersede departmental requirements related to the minimum number of credits to be earned in the major at the home campus. During such terms when students take classes at the other campus, they are classified as transient students. Students must complete an admission application as a transient student; however, the application fee will be waived. To become a degree-seeking student on either campus, however, students must meet minimum transfer requirements.

For further admission information, prospective students may contact: Office of Undergraduate Admissions, The Quad Center, Auburn, AL 36849, admissions@auburn.edu.

Admission of Undergraduate Transient Students (Non-degree candidates enrolling for one term)

A student in good standing at an accredited college may be admitted to the university as a transient student when faculty and facilities are available. Generally, space availability is limited for the fall semester.

To be eligible for consideration, an applicant must submit an application, an acceptable medical report, and a letter of good standing bearing the signature of the dean or registrar of the college in which the applicant is currently enrolled.

Permission to enroll is granted for one term only; a transient student who wishes to re-enroll must submit a new application. Transient status does not constitute admission or matriculation as a degree candidate. The transient is, however, subject to the same fees and regulations as a regular student except for the continuation-in-residence requirements.

For further admission information, prospective students may contact: Office of Undergraduate Admissions, The Quad Center, Auburn, AL 36849, admissions@auburn.edu.

Admission of Unclassified Students

Admission to most undergraduate programs as an Unclassified Student may be granted on the basis of the bachelor's degree from an accredited college. Unclassified students must submit the same admissions credentials and meet the same GPA requirement as transfer applicants.

For further admission information, prospective students may contact: Office of Undergraduate Admissions, The Quad Center, Auburn, AL 36849, admissions@auburn.edu.

Admission of International Students

Auburn University's core mission is education. In this spirit, the University welcomes qualified international students to apply for admission to the university. All international students with an outstanding academic background and an ability to communicate in English are encouraged to apply.

Students who are proficient in English skills may apply for admission directly to the university or apply through Auburn Global. Students with less English proficiency may apply to Auburn Global and will be supported in the enhancement of their language skills in their first year, regardless of selected university major or degree. English proficiency is determined by satisfactory results on the Test of English as a Foreign Language (TOEFL), offered by the Educational Testing Service, Box 899, Princeton, N.J., 08540, U.S.A. For direct entry to the university, the student must also submit satisfactory results on the Scholastic Aptitude Test (SAT) or the American College

Testing exam (ACT). International students should send all of their academic credentials to a professional credentials evaluation agency for evaluation, and when possible the evaluation should include a course by course evaluation with GPA.

All first-year international students, regardless of their English language proficiency level, can participate in the programs and services offered by Auburn Global as part of the International Accelerator Program (IAP). These personalized and supportive services include academic support, mentoring, social events, and participation in Auburn University and community events. The Auburn Global customized suite of services is designed to engage international students in the domestic culture and sets the foundation for a successful collegiate experience. All international students are strongly encouraged to register for Auburn Global's programs and services.

Please note, when applying directly to the university there is a $60 processing fee payable by check, money order or credit card. This fee is non-refundable and cannot be applied to other fees. It is important that all materials submitted to the university or to Auburn Global are complete and accurate. Incomplete applications cannot be processed and those with inaccurate information may be subject to cancellation.

Applicants who present satisfactory academic credentials, test results, and evidence that they have sufficient funds to meet their college expenses will be sent an acceptance letter and the form I-20 (the authorization for a student visa). All students are required to purchase the university student insurance plan or provide evidence of equivalent coverage. This health insurance may be purchased upon arrival in the U.S.

Detailed information can be found at the: Office of International Programs, 228 Foy Hall, Auburn University, Auburn, AL 36849, intledu@auburn.edu.

For further admission information, prospective students may contact: Office of Undergraduate Admissions, The Quad Center. Auburn, AL 36849, USA, admissions@auburn.edu.

For detailed information about the International Accelerator Program, prospective students may contact: Auburn Global Admissions, 332 Foy Hall, Auburn University, Auburn, AL 36849.1-888-575-2469; admissions@auburnglobal.org.

International Accelerator Program (IAP)

The International Accelerator Program (IAP) at Auburn Global is a freshman year of study for international students. It eases the transition from high school in another country to U.S. higher education by combining credit-bearing courses from the first year of your degree with additional support services, teaching tailored to your academic and language level, and cultural experiences, helping to ensure your future success. There are three flexible Accelerator routes to choose from, depending on your qualifications and personal preferences: the Integrated Accelerator, the Academic Accelerator, and the Extended Accelerator. For more information on the program and routes to enter, see http://www.auburnglobal.org/about-the-iap/. Students in the Accelerator Program are enrolled in a minimum of 18 clock hours in Fall and Spring semesters, and 14 clock hours in summer.

IAP students take a core curriculum * and choose one of three academic tracks:

1. Humanities
2. STEM (Science, Technology, Engineering, and Mathematics)
3. Business

	Term 1	Term 2	Term 3
Support	GLOB 0100: American University Life	GLOB 1010: Academic Performance	GLOB 1030: Academic Performance II
English: Academic and Extended Accelerator	English for Academic Purposes (EAP)	English Composition & Oral Proficiency for International Students	Public Speaking
English: Integrated Accelerator		English Composition	Public Speaking
General Education Courses	Auburn in the World: Industry and Society	Principles of Microeconomics	Global Geography
General Education Courses	Auburn in the World Lab	Introduction to Film	World History

General Education Courses	College Algebra: Calculus 1	College Algebra: Calculus 2	Learning Tracks: 1. Humanities: Introduction to Psychology 2. STEM: Fundamentals of Chemistry 2 3. Business: Principles of Macroeconomics
Credits/Hours	EAP 18	AAP 20 IAP 17	AAP 18 IAP 16

*This is a sample curriculum and may be subject to change.

Admission of Auditors

Auditing of courses is restricted, but when faculty and facilities are available, individuals who do not seek admission for course credit may audit a lecture course or the lecture portion of a course upon approval of the dean and the head of the department. A formal application must be filed. Auditors must register and pay appropriate fees. Although listed on class rolls, auditors are not required to take part in classroom discussion, tests, examinations or reports, and they receive no grade or credit. However, students who attend the audited course rarely or never will have non-attendance of the course indicated on their records.

A student enrolled in other courses for credit will be granted permission to audit a course only on the approval of the dean and the head of the department of the course involved.

Students may not change from audit to credit after classes begin, but may change from credit to audit within the first four weeks of classes (seven class days during any summer session). No refund of fees will be made except for changes made during the first three weeks of classes in accordance with university policy.

For further admission information, prospective students may contact: Office of *Undergraduate Admissions,* The Quad Center, Auburn, AL 36849, admissions@auburn.edu.

Enrollment Deposit

All applicants who meet the university admission requirements and are offered provisional admission are required to pay a $250 non-refundable deposit to confirm the offer of admission. Deposits for the summer or fall semesters are due by May 1, and deposits for the spring semester are due by December 1. However, it is suggested students deposit as early as possible. Enrollment deposits for transfer, auditor, unclassified and transient applicants are due by June 1 for summer semester, fall semester is due by August 1, and spring semester are due by December 1. Students will receive housing information and orientation registration materials following submission of the deposit.

Advanced Standing and Credit

Prospective students are advised to check the website of the Office of the Registrar for specific information on placement and credit at https://www.auburn.edu/administration/registrar/.

Entering students with superior preparation or with special competence in a specific area may qualify for advanced placement or credit. Placement or credit may be granted on the basis of Advanced Placement Examinations of the College Board, International Baccalaureate scores, scores on college ability or achievement tests, departmental proficiency examinations, and other evidences of experience and competence.

Students enrolled at Auburn may apply to an academic department for a Departmental Proficiency Test if they have demonstrated a reasonable basis of experience or study in the subject area. If they score a satisfactory grade on the examination, they will be eligible for placement in an advanced course and for credit in the subject. Students who have previously enrolled for the subject at Auburn are not eligible for this test in the same subject.

The amount of advanced placement credit granted in each subject area is determined by the recommendation of the academic teaching department with the approval of the student's academic dean and the provost or designee.

Students transferring to Auburn who have received advanced placement credits from another institution may be awarded these credits insofar as Auburn's requirements for awarding such credits are met. Advanced placement credits may not be substituted for residency requirement.

Admission to Graduate Standing

Admission to graduate standing is granted only by the university's Graduate School. A $60 ($70 international) application fee is required. Applicants must hold a bachelor's degree from an accredited U.S. institution or provide proof of equivalent training from a

recognized academic institution outside the United States. Departments make admissions decisions based on the compatibility of the applicant's goals with departmental resources, the availability of spaces for new students, and a holistic evaluation of the applicant's potential for success in the program. Other considerations might typically include standardized test scores, grades and/or GPAs, letters of recommendation, writing samples, research or applied experience, and interviews.

For further admission information, prospective students may contact: The Graduate School, Hargis Hall, Auburn, AL 36849, gradadm@auburn.edu.

Readmission

Students who have previously attended Auburn and who wish to re-enter must secure permission to register from the Office of the Registrar if they have not been enrolled at AU during the preceding 12 months or if they have been academically ineligible to be enrolled. Undergraduate students who have not been enrolled at Auburn University for a period of five years or more and who are returning to the same curriculum may be subject to different university, college, school, or departmental requirements than those which existed at the time of their initial entry, as well as those which existed at the program level when continuous enrollment ceased. The university, college, school, or department reserves the right to review a former student's completed work, and if deemed appropriate, require any readmitted student to meet graduation requirements as listed in the catalog in effect at the time of re-entry. In addition, each college/school may have more specific requirements for readmitted students. An official transcript from each institution attended must be furnished to the Office of the Registrar. Students who have been away from the university for more than one year must re-establish their right to residency. For further information, students may contact: Office of the Registrar, Langdon Hall, Auburn, AL36849. https://www.auburn.edu/administration/registrar/.

Orientation

To help entering freshmen adjust to the first semester at the university, including scheduling of courses, Auburn provides a summer orientation program, Camp War Eagle. Freshmen entering summer or fall semester attend sessions on campus during the summer prior to entrance. In these sessions, students meet faculty members, administrators, and student leaders, and plan with their advisors a schedule of their first semester of college work. New transfer students (and freshmen who enter in the January term) should plan to attend one of the regularly scheduled Successfully Orienting Students (SOS) sessions held prior to the beginning of each term. At these programs, new students will have the opportunity to meet with an advisor and plan their schedules for the upcoming term. Other new students may meet with advisors during the regular registration period at the beginning of the term in which they plan to enroll. For further information, students may contact the First Year Experience, 189 Foy Hall, Auburn, AL 36849, fyedesk@auburn.edu.

Admissions Appeal

Admission to Auburn University is competitive, and the competitiveness each year depends on the number of applications received, the academic qualifications of the applicants, our evaluation of each applicant's credentials and the number of space available. The admissions process is competitive and academically selective, so all applicants cannot be granted admission. The review process includes comprehensive admissions review and each applicant is given personal consideration. No single criterion guarantees admission to the university and our comprehensive review is based on several factors. The strongest consideration in the decision is given to student's academic preparation.

Disagreement with an admissions decision, alone, is not a valid reason for an appeal. Applicants with new and compelling information that were denied undergraduate admission to Auburn University may submit an appeal.

Appeals are reviewed by the Undergraduate Admissions Appeal Committee, a decision-making committee for undergraduate applicants denied admission to the university. The Committee is appointed by and responsible to the Vice President for Enrollment for a three-year appointment.

The Undergraduate Admissions Appeal Committee meets each semester to establish deadlines for appeals and reviews appeals that include a letter from the applicant explaining the reasons for the appeal, updated high school and/or college dual enrollment transcript(s) and two supporting letters of recommendation speaking to the applicant's readiness for academic life at Auburn University. All decisions rendered by the committee are final.

For more information visit https://aub.ie/admissionsappeal (https://aub.ie/admissionsappeal/).

Applicant Criminal Background or Misconduct Review Process

All applicants for admission to Auburn University are required to disclose on the admission application prior criminal conduct and prior educational misconduct. The University reviews all applications in which a student discloses misconduct at an educational institution

and/or in which a student discloses prior criminal conduct to determine whether the admission of the applicant is in the best interest of the University. Affirmative disclosures do not result in automatic denial of admission.

Incomplete Information

Applicants who fail to give complete and accurate responses to the conduct section of the admission application may be subject to denial of admission, or if already admitted, may be subject to rescission of admission.

On-Going Duty to Disclose

The duty to disclose preadmission misconduct at an educational institution and criminal conduct is an ongoing one. Therefore, students have a continuing duty to report such conduct to the Office of Undergraduate Admissions, University Registrar or the Graduate School, as applicable, until they have accepted their offer of admission to the university. Applicants who fail to disclose and provide a complete and accurate response may be subject to revocation of admission by the Office of Undergraduate Admissions, University Registrar, or the Graduate School.

Procedure

New and returning applications for admission to Auburn University indicating a record of previous misconduct at an educational institution or criminal conduct will be reviewed on a case-by-case basis by the University's Disclosure Review Committee.

Applicants will be required to provide additional information to the University for consideration. This information may include but is not limited to, a personal statement, copies of criminal disposition records, background checks and screenings, and educational and disciplinary records. Applicants may also be asked to provide information releases. All information requested from the applicant must be received by the University at least 45 days in advance of the first day of the semester. Where the requested information is furnished after 45 days in advance of the first day of the semester by or on behalf of an applicant, an applicant may request a term change so that his or her application will be considered for the following semester.

The designated office will provide the supplemental information to the Disclosure Review Committee. Only applicants who meet all other admissions criteria are reviewed by the Committee. The University shall make a determination within 45 days of the receipt of all requested information.

The University has the right to deny admission to any applicant who refuses to provide pertinent information and/or to provide access to pertinent information.

Imposition of Restrictions or Requirements

The University may determine that an applicant may be admitted with certain conditions, assuming they are academically qualified for admission. Such restrictions or requirements may include, but are not limited to, placing an applicant on disciplinary probation, restricting the applicant from certain areas of campus, prohibiting the applicant from living in university housing, prohibiting the applicant from participating in certain activities, requiring the applicant to participate in periodic counseling, or requiring the applicant to meet periodically with University personnel.

Denial of Admission

The University may deny an applicant admission if, upon review of all available information, it is determined that denial of admission or re-admission of the applicant is in the best interest of the University.

Policies and Procedures for Enrollment Capacity

Policy and Procedures for Establishing or Changing the Enrollment Cap of an Undergraduate Major

Based on its land-grant traditions of service and access, according to its mission statement Auburn University will provide students broad access to the institution's educational resources. Therefore, as a basic principle, students should be allowed access to the majors of their choice. However, significant constraints in educational resources, as well as particular competencies students need beyond university minimums, may necessitate the establishment of enrollment restrictions for specific majors.

Major enrollment restrictions may take one of two forms – additional admission standards or enrollment caps. Additional admission standards address the minimum competencies a student must possess to be successful in the major. Enrollment caps address the maximum number of qualified students a program can accommodate without endangering the quality of instruction offered. Setting an enrollment cap differs from establishing additional admission standards in that admission standards focus on required qualifications for entry whereas enrollment caps focus on filling a limited number of seats from among all students qualified for the program.

All proposals for establishing, changing, or discontinuing a major enrollment restriction must be initiated in the unit responsible for the major, reviewed and approved by the college in which the major resides, and forwarded to the Office of the Provost for consideration by the Enrollment Restriction Oversight Committee. The Committee is comprised of the Provost or designee (Chair), Senior VP for Student Affairs or designee, Vice President of Enrollment Management or designee, Chair of the University Senate, Chair of Academic Standards, and Representative from the SGA. The Committee will review proposals to assure that they satisfy the criteria of this policy and will send its recommendations to the Provost and Vice President for Academic Affairs, who will make the final approval decision. Approved restrictions shall be published in the Bulletin.

All proposals for major enrollment restrictions must have adequate academic justification. Procedures for submission of proposals can be found on the Office of the Provost website.

Policies on Credit for Directed Studies

Credit for Directed Studies

The university policy on directed studies was approved effective August 2006. Auburn University offers directed studies courses, also referred to as special problems courses, directed readings or independent studies, in accordance with this established policy.

Directed studies courses allow in-depth study of a particular subject by a student who is well into her or his major and, in extraordinary circumstances, accommodate scheduling issues when no other remedy is available.

Directed studies courses should not normally be used as replacements for required courses or as a solution to routine scheduling problems.

Eligibility—To be eligible to take a directed studies course a student must be at junior level or above, and the course must be taken for credit toward the student’s major or minor; exceptions may be approved as follows:

- Exceptions concerning junior standing or higher, or concerning credit toward the student’s major or minor, must be approved by the instructor and the offering department head/chair (or dean, if the instructor serves as department head/ chair or associate dean), and by the dean of the college in which student is enrolled, if different from the offering college.
- A student must have the approval of her/his dean and the provost to take more than 9 hours of directed readings coursework for credit over the course of her/his degree program.
- The Provost's Guidelines on Directed Studies provides guidance the necessary approval process for the offering of directed studies courses for credit: https://www.auburn.edu/academic/provost/policies-guidelines/#guidelines.

Repeat of Courses

No student may repeat a course for credit in which the student has previously earned a grade of A, B, or C without written permission from the student’s academic dean. Courses specifically designated as repeatable in the Auburn University Bulletin are exempt from this regulation. Students may repeat courses, only once, in which they earn a grade of D or F without written permission from the student’s academic dean. Grades and hours for both attempts will be included in the calculation of the GPA unless the Grade Adjustment Policy has been invoked for the first attempt. If the grade adjustment policy is not invoked in the case of the repeat of a D grade, then the course credit hours may count only once toward graduation unless the course is designated as repeatable.

Satisfactory Progress

Student Athletes

In addition to meeting the general academic requirements of the university, student athletes must meet all academic requirements, including those relating to satisfactory progress toward a degree, set forth in the legislation of the Southeastern Conference (SEC) and of the National Collegiate Athletic Association (NCAA).

Student Financial Aid Recipients

In addition to meeting the general academic requirements of the university, applicants for student financial aid funds must maintain Satisfactory Academic Progress to receive, or to continue to receive, assistance through federal, state, and institutional student aid programs. Descriptions of these Satisfactory Academic Progress requirements for distinct classifications of Auburn students are available from the Office of Student Financial Aid.

Veterans

All students who are eligible and receiving Federal VA Education Benefits (Chapters 30, 31, 33, 35, 1606, 1607), in addition to meeting the general academic requirements set forth by the university, must maintain Satisfactory Academic Progress (SAP) as approved by the State Approving Agency of the State of Alabama, Department of Education. If the students who are utilizing one of the benefits listed above does not meet SAP, his/her enrollment will be terminated with the VA. For theses specific standards, please refer to the Satisfactory Academic Progress section of this bulletin.

Special Academic Opportunities

- Cooperative Education (Co-op) Program (p. 142)
- The Honors College (p. 142)
- International Academic Opportunities (p. 146)
- National Honor Recognition (p. 148)
- Professional and Continuing Education Non-credit Programs and Certificates (p. 148)
- Service Learning & Student Engagement (p. 148)

Cooperative Education (Co-op) Program

The Cooperative Education (Co-op) Program provides opportunities for students to alternate semesters of academic study with full-time, career-related, paid work experience in industry, business, and government agencies.

Coordination of study and work combines theory and practice. As a result, students find increased meaning in and motivation for their studies. This experience helps to develop a sense of responsibility, judgment, and maturity. Students also benefit financially, since they are paid for their work.

In four-year undergraduate curricula, the Cooperative Education Program is sometimes a five-year plan. A student must complete at least two semesters of the freshman year with an above-average scholastic record before being placed with an employer. Cooperative Education is offered in all curricula of the College of Agriculture; Architecture, Design and Construction; Business; Engineering; Liberal Arts; Sciences and Mathematics and in all curricula of the College of Forestry, Wildlife and Environment.

A graduate Co-op Program can be arranged for certain students in masters and doctoral programs where employers can provide professional work experiences directly related to the student's specialized field of study.

For additional information, contact: Cooperative Education (Co-op) Program, Office of Career Development and Corporate Relations, 1133 Brown-Kopel, Auburn, AL, 36849-5123. Telephone: (334) 844-5410. Website: https://eng.auburn.edu/cdcr/co-op/index (https://eng.auburn.edu/cdcr/co-op/index/).

Honors College

The Honors College at Auburn University offers a select cohort of high-ability students a unique academic experience designed to provide many of the advantages of a small college in addition to the myriad opportunities available at a large and diverse research university. Because of their academic potential, Honors College students have access to a more academically challenging set of courses and programs. Due to their rigorous Honors-level courses, access to graduate courses, specialized advising, and regular exposure to diverse social and co-curricular programs, Honors College students have closer connections to faculty and with other students, providing a sense of community and identity within the larger university context.

Eligibility

Students may gain admission to the Honors College as an entering freshman based on ACT/SAT scores (29 or SAT equivalent targeted minimum), high school GPA (3.85 minimum), an application essay, and a record of leadership and service. Students already enrolled at Auburn having a 3.4 cumulative, unadjusted GPA may also be considered for admission.

Curriculum

The Honors curriculum provides Honors College students the opportunity for challenging scholarly courses across the university and within their disciplines, culminating in a sustained, in-depth experience in their major fields of study.

The four Honors College graduation distinctions, *University Honors Scholar, University Honors Research Scholar, Honors Scholar,* and *Honors Research Scholar*, are conferred at the time of graduation and printed on students' diplomas and transcripts.

University Honors Scholar

To earn the designation University Honors Scholar, students are required to complete a minimum of 30 hours of Honors College courses, including a minimum of:

- 3 hours of Honors Participation Courses, AND
- 6 hours of coursework identified as Signature Impact Experiences

Students must also complete their disciplinary requirements and have a minimum 3.4 cumulative unadjusted Auburn GPA at the time of graduation.

University Honors Research Scholar

To earn the designation University Honors Research Scholar, students are required to complete a minimum of 30 hours of Honors College courses, including a minimum of:

- 3 hours of Honors Participation Courses; 1 hour of which **must be** **“**Honors Lyceum: Research at Auburn”
- 3 hours of Honors Research Methods
- 6 hours of Honors Seminars
- 6 hours of designated Honors Research Seminars
- 6 hours of coursework identified as Signature Impact Experiences

Students must also complete their disciplinary requirements and have a minimum 3.4 cumulative unadjusted Auburn GPA at the time of graduation.

OR

Honors Scholar

To earn the designation Honors Scholar, students are required to complete a minimum of 24 hours of Honors College coursework, including a minimum of:

- 3 hours of Honors Participation Courses

Students must also complete their disciplinary requirements and have a minimum 3.2 cumulative unadjusted Auburn GPA at the time of graduation.

-OR-

To earn the designation Honors Scholar, students are required to complete a minimum of 7 hours of Honors coursework, including:

- 6 hours of Honors Research/Honors Thesis/Honors Special Topics or 6 hours of graduate level courses in the major field of study at the 6000 or 7000 level, AND
- 1 hour of an Honors Participation course

Students must also complete their disciplinary requirements and have a minimum 3.2 cumulative unadjusted Auburn GPA at the time of graduation.

Honors Research Scholar

To earn the designation University Honors Research Scholar, students are required to complete a minimum of 24 hours of Honors College courses, including a minimum of:

- 3 hours of Honors Participation Courses; 1 hour of which **must be** **“**Honors Lyceum: Research at Auburn”
- 3 hours of Honors Research Methods
- 6 hours of Honors Seminars
- 6 hours of designated Honors Research Seminars

Students must also complete their disciplinary requirements and have a minimum 3.2 cumulative unadjusted Auburn GPA at the time of graduation.

Honors Course Options

The Honors College curriculum is designed to give students flexibility with their choice of Honors courses in order to fulfill their diverse goals, needs, and interests. The Honors College offers students course work that fall into the following general areas:

Honors Academic Courses

- Honors University Core courses
- Honors Departmental courses
- Honors Study and Travel courses (maximum of 1)
- Honors Seminars (maximum of 2)
- Honors Research Methods courses (maximum of 2)
- Honors Research Seminar (maximum of 2)
- Honors Contract courses

Honors Participation Courses

- Honors Freshmen Exploration (one-time enrollment as a first-year student)
- Honors Lyceum (maximum of 2)
- Honors Book Club (maximum of 2)
- Honors Forum (maximum of 3)

Honors Signature Impact Experiences

- Honors Research
- Honors Thesis
- Honors Special Topics
- Honors Contract courses in the major field of study at the 4000-5000 level
- Graduate-level courses in the major field of study (maximum of 12 hours)

Honors Business Minor

The Honors Business minor is 15 hours consisting of five 3-hour courses: four required courses (12 hours) and one elective course (3 hours). Four of the five courses must be taken at the honors level to successfully complete the minor. The minor is limited to students in the Honors College.

Code	Title	Hours
Required Courses:		
ACCT 2110/2117	Principles of Financial Accounting *	3
FINC 3610/3617	Principles of Business Finance	3
MNGT 3100/3107	Principles of Management	3
MKTG 3310/3317	Principles of Marketing	3
Elective Courses (choose one):		
BUSI 3250/3257	International Business	3
ECON 2030/2037	Principles of Macroeconomics	3

* Students completing this minor in the College of Business summer abroad program will satisfy the Accounting requirement with ACCT 2817: Honors Fundamentals of Accounting.

Honors International Minor in Human Sciences

The Joseph S. Bruno Auburn Abroad in Italy program in which a student can earn the International Minor in one semester while studying abroad in Ariccia, Italy:

Code	Title	Hours
HUSC 3380	CHS at AU in Italy	2
HUSC 4017	Honors CHS at AU in Italy: Integrated Global Studies	6
HUSC 4387	Honors CHS at AU in Italy: Study and Travel	2

HUSC 4947	Honors CHS at AU in Italy: Directed Field Experiences	6
Total Hours		**16**

Study Abroad Program admission required. Please contact the CHS Office of Global Education for more information about program availability and application processes.

Honors Public Health Minor

The Honors Public Health Minor is 15 hours consisting of five 3-hour courses: four required courses (12 hours) and one elective course (3 hours). Four of the five courses must be taken at the honors level to successfully complete the minor. Three of the PAOH courses are honors level, so the chosen elective must be an honors elective or contracted for honors credit (arranged through Honors college) to make four total honors courses. The elective must be approved by the Advisor. The minor is limited to students in the Honors College.

Course list:

Code	Title	Hours
PAOH 2107	Honors Introduction to Public Health	3
PAOH 3017	Honors Introduction to Epidemiology	3
PAOH 4837	Honors Global and Comparative Health Systems	3
PAOH 4910	Observing Needs in Public Health	3
Honors Elective (approved by Advisor)		3
Total Hours		**15**

Policies

A grade of “C” or better in Honors courses is required to earn Honors College credit.

In order to remain in good standing as a member of the Honors College, students must meet the following minimum criteria:

1. Students are required to maintain satisfactory progress in completing the requirements of the Honors curriculum. Satisfactory progress is defined by attaining the following minimums by the end of the specified academic year:
   - First year 7 Honors hours
   - Second year 14 Honors hours
   - Third year 21 Honors hours
2. First-year students must attain a minimum of a 3.0 cumulative unadjusted Auburn GPA and second, third, and fourth-year students must maintain a minimum of 3.2 cumulative unadjusted Auburn GPA. A student whose GPA falls below the minimum is give one semester to correct the deficiency or be suspended from the Honors College.
3. All first-year students in the Honors College must meet with an Honors academic advisor in both fall and spring semesters and submit a Plan of Study prior to registration for spring courses. Any changes to the Plan of Study should be done at a meeting with an Honors College advisor.
4. Second, third, and fourth-year students must meet with an Honors academic advisor at least once a year to ensure retention and understanding of the program and to confirm progress being made toward the completion of the Honors requirements.
5. Students who do not successfully maintain good standing (Honors course progression, GPA, meeting at least once a year with their Honors advisor, and/or submission of the Plan of Study) will be suspended from the Honors College. Students may be reinstated upon attaining the minimum GPA and/or providing the Honors College with an updated Plan of Study for Honors courses. It is the student's responsibility to notify the College when good standing has been attained.
6. Any scholarships awarded by the Honors College are contingent upon maintaining membership in good standing in the Honors College. Suspension from the Honors College will result in a loss of Honors scholarship funding.

Honors College Graduation Distinctions

After completing the requirements of the Honors College curriculum, students graduate with a special designation that is noted on their diploma and transcript.

- To graduate as a *University Honors Scholar* or *University Honors Research Scholar,* students must complete all of the requirements for those designations, the requirements for their disciplines, and have a minimum cumulative unadjusted Auburn GPA of 3.4.

- To graduate as an *Honors Scholar or Honors Research Scholar,* students must complete all of the requirements for those designations, the requirements for their discipline, and have a minimum cumulative unadjusted Auburn GPA of 3.2.

International Academic Opportunities

- International Academic Opportunities (p. 146)
- International Internships, Curricular Practical Training (CPT) and Academic Training (AT) (p. 146)
- English as a Second Language (ESL) Program (p. 146)
- Office of International Programs (p. 146)
- OIP International Student and Scholar Services (p. 146)
- OIP Auburn Abroad Experience (p. 147)

International Academic Opportunities

Access to international opportunities is provided throughout many colleges, schools, departments and other student support units. However there are several units on campus that provide specialized services for English language study, study abroad and international students attending Auburn University.

There are also opportunities to receive early English-language training and a cultural introduction to American university life through our undergraduate and graduate pathway programs. These pathway programs are further described in the Policies and Procedures for Admissions (p. 134) section of this Bulletin.

At the graduate level, several departments have joint programs with international university partners to earn graduate degrees in an accelerated bachelor's/master's format. Detailed information about these programs can be found within the various academic college and department sections of this bulletin.

International Internships, Curricular Practical Training (CPT) and Academic Training (AT)

Academic internship experience both within the US and abroad are highly encouraged for all disciplines and all AU students. Students interested in participating in such experiences should check with their academic units for specific requirements. For international students, practical training is available (depending on U.S. immigration status) such as Curricular Practical Training (for F-1 students only) or Academic Training (for J-1 students only). Students may also undertake academic internships abroad through the Auburn Abroad office. For further details on Auburn Abroad or CPT/AT, students should check with International Student and Scholar Services (ISSS).

English as a Second Language (ESL) Program

The ESL Program operates under Auburn Global and offers English language instruction to international students and visiting scholars. It provides courses in oral and written proficiency to support international students enrolled in undergraduate and graduate degree programs, a course in classroom communication skills for international graduate teaching assistants, and an Intensive English program involving 20 hours of instruction per week in listening, speaking, reading, writing, grammar, and pronunciation. For additional information, contact: 309 Foy Hall, (334) 844-5749; email: weigerg@auburn.edu; or visit www.auburn.edu/esl (https://global.auburn.edu/).

Office of International Programs

The Office of International Programs (OIP) is a division of the AU Office of the Provost. Its mission is to provide leadership and relevant administrative support to academic units, faculty, students, and staff for the effective promotion and efficient adoption of Auburn University's internationalization goals. The International Students and Scholar Service (ISSS) component of the OIP assists foreign national students, visiting scholars, and university employees in achieving their academic objectives. The Auburn Abroad unit of the OIP promotes and facilitates student and faculty participation in an international education experience through programs outside of the United States. For additional information, contact: Office of International Program, 228 Foy Hall, 334-844-5001; intledu@auburn.edu; or https://www.auburn.edu/academic/international/.

OIP International Student and Scholar Services

The ISSS unit of the OIP provides assistance and guidance to foreign national students, visiting scholars, and University employees regarding US immigration requirements and Auburn policies for studying and/or working at Auburn University. Documentation of eligibility for study in the United States, work authorizations, and other government documents required by international students, scholars, and employees are issued and monitored by the ISSS. Currently, the university has more than 2500 international students, visiting scholars, and employees from over 90 nations. Go to the section on International Student Services for additional information.

OIP Auburn Abroad Experience

The Auburn Abroad Office is part of the Office of International Programs (OIP) and seeks to develop, expand, and facilitate opportunities for undergraduate and graduate students to participate in study, internship, research, service learning and exchange opportunities outside of the United States. Each year more than 1200 Auburn University students participate in over 90 programs through the Auburn Abroad Office. More than 90 percent of these students go on faculty led programs and exchange programs with the rest going on other university or provider programs. The Auburn Abroad Office also works with Outreach and the Office of Inclusion and Diversity on their abroad programs. By planning ahead, students can use approved university or transfer course credit earned on an Auburn Abroad Program to complete their core curriculum courses, as well as major and minor degrees.

Auburn Abroad programs vary in length from one week, one month to one or two semesters. They run during Fall, Winter Break, Spring, Spring Break and Summer semesters. The majority of students go abroad for month long programs in the summer. Most colleges and schools within Auburn University have programs abroad tailored to their students' needs. Students can find out about these international opportunities at by attending the Study Abroad Fair each Fall Semester and one of over 100 information sessions each year. Incoming Freshman should talk to their advisors about taking a few of their Core Curriculum courses abroad on the AU Core Curriculum Program in Barcelona, Spain during the summer.

Requirements for acceptance into the Auburn Abroad Experience include the following: (1) a minimum institutional cumulative GPA of 2.25 for undergraduates and 3.0 for graduate students, (2) the student must attain the age of 19 prior to the start date of program or have signed the minor forms, (3) the student's record must show no pending Auburn University judicial actions and the student must be in good academic standing in their college or school. Program abroad directors may also have additional requirements for their specific programs. With the exception of Pre-Freshman Programs open to entering Fall Semester Freshman level students, students must have completed at least one semester at Auburn University before participating in a program abroad. Although some programs require prior knowledge of a foreign language, many do not.

Deadline dates for programs will vary by program. Students need to start planning at least 9 months prior to the start of the semester they want to go abroad, to ensure that they adhere to program deadlines. Students should start their Auburn Abroad exploration by attending either (1) a weekly, thirty minute Study Abroad 101 general orientation session, or (2) by contacting program directors for their specific program abroad orientation session. Study Aboard 101 Sessions are conducted via zoom and in-person on Thursdays and Fridays in the Auburn Abroad conference room, 242 Foy Hall. Check the Auburn Abroad website for times. These sessions include an introduction to the on-line Auburn Abroad application process, hints on searching for faculty led and other types of programs abroad, the credit approval process, transcript information, information on a variety of funding resources, and paperwork needed for scholarship, PACT, VA, and other benefit programs. The cost of each programs and what that cost covers is detailed on each program abroad brochure on the Auburn Abroad Program search site.

After students attend a study abroad orientation session, they are ready to select their program and start their on-line study abroad application. Instructions can be found at: www.auburn.edu/studyabroad (http://www.auburn.edu/studyabroad/). Students will need to complete the on-line application, get courses approved and submit required materials by program deadlines in order to move through the approval process.

The OIP Auburn Abroad staff monitors students' on-line Auburn Abroad applications and they and Auburn Abroad interns are ready to assist students with any questions or concerns. Once students have been approved and have committed to a program, The Auburn Abroad staff will enroll individual students in one of the following Auburn Abroad Full Time Placeholder courses: UNIV 2940/UNIV 2945, UNIV 4940/UNIV 4945, UNIV 5940/UNIV 5945 or UNIV 7940/UNIV 7945. These placeholder courses will be listed on the students' transcripts while they are abroad so that students can be considered full time students during that time. Once students complete their course work on their program abroad, the actual courses will be posted based on the type of credit the program offers per course.

Auburn University takes the health and safety of students abroad very seriously. Students enrolled in Auburn Abroad programs are required to attend Health and Safety pre-departure sessions as well as specific program sessions. Once on site, students attend another program specific session. Students are enrolled in the Auburn University International Emergency Travel Assistance plan prior to departure and will receive an enrollment card and material to read concerning the assistance plan. The Auburn Abroad staff, along with the Office of Campus Safety and Security routinely monitor global situations and will provide assistance to students in distress abroad.

Upon completion of their program abroad, returning students are encouraged to become Global Tiger Advisors, and apply for internship positions in the Auburn Abroad office. They can also share their "Tiger Tale" on the Auburn Abroad website, and submit photos from their experience abroad for the annual student photo contest. Auburn University considers Study and Internship experiences a high impact practice for students and surveys the graduating class for the percentage of students engaging in these activities.

For additional information on programs abroad, procedures for applying for programs abroad, program deadlines, cost, funding and to read returning students' Tiger Tales, please visit the OIP Auburn Abroad Experience Website (https://www.auburn.edu/academic/international/auab/), follow Auburn Abroad on Twitter, Instagram and Facebook and/or send an email to: auab@auburn.edu.

National Honor and Recognition

National Honor Societies

The following members of the Association of College Honor Societies have established chapters at Auburn:

Alpha Delta Mu (Social Work), Alpha Epsilon (Biosystems Engineering), Alpha Epsilon Delta (Pre-Medicine), Alpha Kappa Delta (Sociology), Alpha Lambda Delta (Freshman Scholarship), Alpha Phi Sigma (Criminal Justice), Alpha Pi Mu (Industrial Engineering), Alpha Sigma Mu (Metallurgical & Materials Engineering), Beta Alpha Psi (Accounting), Beta Gamma Sigma (Business), Cardinal Key (Junior Leadership), Chi Epsilon (Civil Engineering), Eta Kappa Nu (Electrical and Computer Engineering), Kappa Delta Pi (Education), Iota Delta Sigma (Counselor Education), Lambda Sigma (Sophomore Leadership), Mortar Board (Student Leadership), Omega Chi Epsilon (Chemical Engineering), Omicron Delta Kappa (Student Leadership), Kappa Omicron Nu (Human Sciences), Phi Alpha Theta (History), Phi Beta Kappa (Arts and Sciences), Phi Eta Sigma (Freshman Scholarship), Phi Kappa Phi (Senior Scholarship), Phi Lambda Sigma (Pharmacy Leadership), Phi Sigma Tau (Philosophy), Pi Delta Phi (French), Pi Lambda Sigma (Pre-Law), Pi Sigma Alpha (Political Science), Pi Tau Sigma (Mechanical Engineering), Psi Chi (Psychology), Rho Chi (Pharmacy), Sigma Delta Pi (Spanish), Sigma Gamma Tau (Aerospace Engineering), Sigma Pi Sigma (Physics), Sigma Tau Delta (English), Tau Beta Pi (Engineering), Tau Sigma Delta (Architecture & Allied Arts), Xi Sigma Pi (Forestry).

National Recognition Societies

The following national societies have chapters established at Auburn:

Alpha Epsilon Lambda (Graduate), Alpha Eta Rho (Aviation), Alpha Kappa Psi (Business), Alpha Phi Omega (Service), Alpha Psi Omega (Theatre), Angel Flight (Air Force ROTC Auxiliary), Arnold Air Society (Air Force ROTC), Beta Beta Beta (Biology), Block and Bridle (Animal Husbandry), Delta Nu Alpha (Transportation), Delta Sigma Pi (Commerce & Business Administration), Eta Sigma Delta (Hotel and Restaurant Management), Gamma Sigma Delta (Agriculture), Golden Key National Honor Society, Kappa Kappa Psi (Band), Kappa Omicron Nu (Human Sciences), Kappa Psi (Pharmacy), Lambda Tau (Medical Technology), National Student Speech, Language, Hearing Association (Communication Disorders), Omicron Delta Epsilon (Economics), Omicron Kappa Pi (Architecture), Order of Omega (Greek Leadership), Phi Delta Kappa (Education), Phi Delta Chi (Pharmacy), Phi Lambda Sigma (Pharmacy), Phi Lambda Upsilon (Chemistry), Phi Mu Alpha (Music), Phi Psi (Textiles), Phi Zeta (Veterinary Medicine), Pi Alpha Xi (Horticulture), Pi Kappa Lambda (Music), Pi Mu Epsilon (Mathematics), Pi Sigma Epsilon (Marketing), Scabbard and Blade (Military), Semper Fidelis (Marine Corps ROTC), Sigma Alpha Iota (Music), Sigma Delta Chi (Journalism), Sigma Gamma Epsilon (Earth Sciences), Sigma Lambda Chi (Building Construction), Sigma Theta Tau (Nursing), Sigma Xi (Scientific Research), Society for Technical Communication (Liberal Arts), Steerage (Navy ROTC), Tau Beta Sigma (Band), Upsilon Pi Epsilon (Computer Science).

Professional and Continuing Education Non-credit Programs and Certificates

In addition to the academic programs offered by Auburn University as an accredited land-grant institution, Auburn provides non-credit professional and continuing education training and certificate programs available to learners in classroom and on-line formats. Auburn University follows national guidelines for non-credit program administration and awarding of continuing education units (CEUs) to participants as appropriate. Where applicable to the subject matter, programs also follow guidelines for certifications established by other cognate associations, professional societies, boards, and certifying agencies as required. A listing of professional, technical, and career programming, courses, and certificates is provided at https://www.auburn.edu/outreach/opce/.

Service Learning & Student Engagement

Auburn University has a long history of service to the community as part of its land-grant mission of outreach. The value of public service is also emphasized in the Auburn Creed. Service engagement is one of Auburn's strategic objectives for enhancing students' academic experience, and it is required for many courses of study. Students may engage in organized outreach activities over their academic career at Auburn, through a variety of curricular, co-curricular, and extracurricular services experiences.

Service engagement enhances academic study and provides opportunities for personal and professional growth, while making a difference in the surrounding community. Engagement also builds appreciation for collaboration and cooperation by working with community partners in a service environment. Students may participate in public service activities through formal service-learning

courses and internships that have been established in the university curriculum. Many majors require service as a component of disciplinary study. Students can also fulfill their personal service interests through student organizations, volunteerism in campus service projects, or direct engagement with community agencies.

Students can access information on service learning and service opportunities through AUBURNSERVES, an on-line network hosted by the university's engagement office, the Office of Public Service. AUBURNSERVES is a collaboration of campus partners including University Outreach, student organizations, learning communities, and academic programs in the schools and colleges, and more than 175 non-profit and community agencies in the east Alabama area and across the state. AUBURNSERVES offers students and their faculty mentors contact information for a wide range of organized service options available through these campus and community partners. The network also provides online resources for managing and documenting service projects.

For more information on student engagement and service learning at Auburn University, and to access the AUBURNSERVES network, visit www.auburnserves.com (https://www.auburnserves.com/), or contact the Office of Public Service at (334) 844-5117.

Statement on the Importance of Writing at Auburn University

The Importance of Writing at Auburn University

A key element of Auburn's instructional mission is the emphasis on written communication, which is supported through the university's general education courses and advanced through a robust Writing Across the Curriculum program. These efforts underscore the mechanics of formal writing, such as grammar and sentence structure, and engage students in an extensive process that translates ideas, insights, or interpretations into refined prose. Through the Writing Across the Curriculum program, every academic major maintains a comprehensive writing plan that supports student development across various occasions and audiences and provides opportunities for reflection, feedback, and assessment. By demonstrating the ability to logically present and explain a concept or idea to an audience, students understand and appreciate the role of writing as an integral part of learning.

Student Records

Confidentiality of Student Records

The university recognizes that the maintenance of student information and educational records is necessary and vital to assist the student's education and development and to provide opportunities for university research and policy formulation. The university recognizes its obligation to exercise discretion in recording and disseminating information about students to ensure that their rights of privacy are maintained.

The university will furnish annual notification to students of their right to inspect and review their educational records; the right to request amendment of educational records considered by them to be inaccurate or misleading or that violate privacy or other rights; and of their right to a hearing should the university decline to amend such records. This annual notice will be published in the *Auburn University Bulletin* and an electronic notification is sent to each active Auburn student.

The following guidelines have been developed to ensure the privacy rights of students. For the purposes of this policy statement a student is defined as an individual who has been admitted and has been in attendance in a component unit of the university. Classification as a student in one component unit of the university (e.g., an undergraduate program) does not imply that the person has been accorded the rights outlined below in other component units (i.e., graduate school, professional schools, branch campus).

Student Access to Records

Auburn University's permanent student education record consists of one or more of the following: the official transcript of grades, competency evaluations, and any narrative evaluations. This is in accordance with guidelines established by the American Association of Collegiate Registrars and Admissions Officers (https://www.aacrao.org/) and the State of Alabama policies on Retention of Records.

Students have the right to be provided a list of the type of educational records maintained by the university which are directly related to the student; the right to inspect and review the contents of these records; the right to obtain copies of these records; the right to a response from the university to reasonable requests for explanation and interpretation of these records; the right to an opportunity for a hearing to challenge the content of these records; and if any material or document in the educational record of a student includes information on more than one student, the right to inspect and review only the part of such material or document as relates to the student.

Students do not have access to financial records of their parents; confidential letters and statements of recommendation which were placed in the educational record prior to Jan. 1, 1975, provided such letters or statements were solicited or designated as confidential and are not used for purposes other than those for which they were specifically intended; confidential recommendations, if the student

signed a waiver of the right of access, respecting admission, application for employment, and the receipt of an honor or honorary recognition.

Students do not have access to instructional, supervisory or administrative personnel records which are not accessible or revealed to any other individual except a substitute; Campus Security records which are maintained apart from educational records, which are used solely for law enforcement purposes, and which are not disclosed to individuals other than law enforcement officials of the same jurisdiction; employment records except when such employment requires that the person be a student; and the Alumni Office records.

Students do not have access to physical or mental health records created by a physician, psychiatrist, psychologist or other recognized professional acting in his or her capacity or to records created in connection with the treatment of the student under these conditions which are not disclosed to anyone other than individuals providing treatment. A physician or appropriate professional of the student's choice may review these records.

Procedures for Access

The Office of the Registrar has a complete list of educational records maintained by the university which students may obtain. Students should contact the appropriate office to inspect and review their records. An office may require that a university official be present when a student inspects and reviews his or her educational records. Any questions concerning a student's access to records should be directed to the registrar.

Amending Educational Records

Students may request that any information contained in their educational records which they consider to be inaccurate, misleading, or in violation of their privacy or other rights be amended or deleted from the records. (A grade or other academic scores may not be amended, except that the accuracy of recording the information may be challenged.)

Students who request that information in their records be amended should first direct their request to the official with primary responsibility for the information on the record. If the matter is not resolved to their satisfaction, students should direct their requests to the official's dean or division head. If the matter is not resolved to their satisfaction, they may request a formal hearing.

Right to a Formal Hearing and Procedures for Decision

Students may request formal hearings to challenge information contained in their educational records. The hearing will be held in a reasonable time (not to exceed 45 days) and in a reasonable place. Students may be assisted or represented by persons of their choice, including an attorney, at the expense of the student, and shall be afforded a full and fair opportunity to present evidence relevant to the issue(s).

Students or their representative should request the hearing in writing and should specifically identify the information they seek to have amended. The request should be directed to the Office of the Provost/Vice President for Academic Affairs.

The Office of the Provost/Vice President for Academic Affairs will conduct the hearing and render a decision within a reasonable period of time after the conclusion of the hearing and the decision shall be based solely upon the evidence presented at the hearing. The student shall be notified in writing of the reason(s) for the decision and given a summary of the evidence.

If the decision is that the information in the student's educational records is inaccurate, misleading or in violation of his rights and privacy, the statement(s) will be corrected or expunged from the student's records.

If the decision is that the information is not inaccurate, misleading, or in violation of the privacy or other rights of the student and that the information or parts thereof are to remain in the student's educational records, the student shall be notified and given the right to enter a statement in the records setting forth any reason for disagreeing with the decision of the Office of the Provost/Vice President for Academic Affairs. This statement shall be maintained in the records as long as the record or contested portion thereof is maintained, and if the contested educational record or contested portion thereof is disclosed by Auburn University to any party, the student's explanation shall also be disclosed to that party.

The U.S. secretary of education has established a review board to receive complaints regarding violation of student's rights. Students wishing to file a complaint directly to the review board should write to the Family Policy and Regulations Office, Department of Education, Washington, D.C. 20202. Detailed procedures for this complaint procedure are listed under section 99.63 of the regulations issued by the secretary and will be furnished upon request by the registrar, Auburn University.

This policy is adopted pursuant to the Family Educational Rights and Privacy Act, (34 CFR Part 99), and is not intended to impose any restrictions or grant any rights not specifically required by this Act.

Release of Directory Information

The university may release directory information without the student's written consent. Directory information consists of student's complete name; local address and associated telephone number; place of birth; parent/spouse name, address and associated telephone number; mailing address and associated telephone number; E-mail address; photographs, video or other electronic image; participation in recognized activities and sports; weight and height of members of athletic teams; dates of attendance; enrollment time status (full or part time); degrees and awards received; and most recent previous educational agency or institution attended.

A student may deny the release of directory information by completing an Address Change/Information restriction request form available in the Office of the Registrar, Langdon Hall.

To deny the release of information regarding participation in recognized activities the student must notify the vice president for Student Affairs and the student's academic dean in writing. To deny the release of athletic information, the student must notify the director of Athletics in writing. A former student, one who is not in attendance, must contact the appropriate offices to deny the release of information.

Release of Educational Records

The university will release a student's educational record(s) upon the student's written request. The student must:

1. Specify the records to be disclosed.
2. Include the purpose or purposes of the disclosure.
3. State the party or parties and the address to whom the information is to be disclosed.

The student shall, upon request, receive a copy of the record that is to be disclosed. It is university policy to furnish single copies of a student's record at no charge.

The university may release student's educational records to the following without prior written consent:

1. University officials who have a legitimate educational interest in the records. University officials are defined as teachers, administrative personnel and other employees except personnel of the security or law enforcement unit of Auburn University, and other agents acting on behalf of the university. If university officials are required in the performance of their duties to review the educational records of a student, this will be considered to be a legitimate educational interest. Auburn University has designated the National Student Clearinghouse as a university official.
2. Officials of another school in which the student intends to enroll upon request of the transfer school.
3. Government representatives of the Comptroller General of the United States, the Secretary of Education, the U.S. Commissioner of Education, the Director of the National Institute of Education, the Assistant Secretary for Education, State educational authorities, and State officials to whom such information is specifically required to be reported or disclosed by State law adopted prior to Nov. 19, 1974.
4. Appropriate authorities in connection with financial aid with the understanding that only the necessary records will be released.
5. Organizations conducting studies for, or on behalf of, the university or its agencies for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction and student life provided that the studies will not permit the personal identification of students and their parents by individuals other than representatives of the organization and provided that the personally identifiable information furnished will be destroyed when no longer needed for the purposes for which the study was conducted.
6. Accrediting organizations to carry out their accrediting functions.
7. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1954. University officials may release educational records to parents on the basis of a written documentation from the parent that the student is a dependent as defined under the Code and there is reasonable notification of the student regarding the request.
8. A court of law to comply with a judicial order or lawfully issued subpoena with the understanding that the student will be notified in advance insofar as possible.
9. Appropriate parties to protect the health and safety of the student or other individuals in emergencies with the understanding that only information essential to the emergency situation will be released, that information will be released only to a party who would be in a position to deal with the emergency, and that the student will be notified insofar as possible of the information released, the purpose for the release, and to whom the information was released.

No personal information on a student will be released without a statement from the university to the party receiving the information that no third party is to have access to such information without the written consent of the student.

Each office with educational records will maintain a record of each request and disclosure of personally identifiable information from the educational records of a student except for information requested in writing by the student, information released to the student or the student's parents, directory information, and information released to university officials and teachers who have a legitimate educational interest in the records. The student may inspect the record of requests, disclosures and the legitimate interests of parties requesting or obtaining information in the appropriate university office.

Substantive Change

This University Policy (https://auburnpub.cfmnetwork.com/B.aspx?BookId=12376&PageId=461565&Search=substantive) establishes the requirements and procedures to ensure timely, accurate and complete notification of the Commission on Colleges of the Southern Association of Colleges and Schools (SACSCOC) whenever the University or any of its units proposes to make a significant modification in the nature or scope of the institution's activities at the time of its most recent evaluation by SACSCOC.

Undergraduate Transfer Credit Policy

Auburn University's evaluation and acceptance of transfer credit for coursework from other postsecondary institutions will be based on official transcripts. To be eligible for evaluation, coursework must appear on an official transcript from the institution that offered the coursework and initially conferred the credit. The acceptance of dual enrollment credit requires an original transcript from the college or university that awarded the credit. The university generally does not accept transfer credit that is technical or remedial in nature.

Transferability of Credit

Transferability of credit refers to whether credit from other post-secondary institutions is acceptable for credit at Auburn University. The University accepts transfer credit from domestic post-secondary institutions accredited by one of the six associations listed below and from international colleges and universities accredited/approved by their country's Ministry of Education or other appropriate governmental agency.

- Middle States Association of Colleges and Schools
- North Central Association of Colleges and Schools
- New England Association of Schools and Colleges
- Northwest Commission on Colleges and Universities
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges, Senior Colleges and Junior Colleges

Students with credit at other institutions for non-traditional experiences such as Advanced Placement, International Baccalaureate, and military training will not automatically receive credit at Auburn University. The student must submit official documentation from the original provider of the non-traditional experience and will receive credit based on current university standards.

Students transferring from accredited public institutions within the state of Alabama will receive transfer credit for freshman and sophomore coursework according to the statewide Articulation and General Studies agreement.

Equivalency of Credit

Equivalency of credit refers to how the hours, course content and objectives of transferable credit align with Auburn courses. Exact alignment is not necessary for equivalence. Course modalities do not factor into equivalency decisions unless modality differences significantly affect the alignment of learning objectives. The university recognizes the best practice guidelines of the American Association of Collegiate Registrars and Admission Offices (AACRAO).

The evaluation of equivalency may result in the awarding of specific course credit or elective credit. Lower-level equivalencies are determined by the Office of the Registrar. Upper-level equivalencies are determined by the college/unit that houses the discipline.

Applicability of Credit

Applicability of credit refers to how transferable credit is applied toward the fulfillment of a student's degree/credential requirements. Applicability is determined by the academic unit that administers the degree/credential. Transferring between degree programs within Auburn University may affect the applicability of the credits towards the new degree program.

Transfer Credit Limitations

The following limitations apply to transfer credits.

Maximum Hours: The maximum number of transfer hours that can be applied to degrees, majors, minors, and certificates is limited as follows:

- Degrees: At least 25% of total degree hours must be Auburn University courses.
- Majors: At least 50% of total major hours must be Auburn University courses.
- Minors: At least nine of total minor hours must be Auburn University courses.
- Certificates: At least 50% of total certificate hours must be Auburn University courses.

Credit from Two-Year Institutions: Courses taken at a two-year institution will be given lower division (1000 and 2000 level) credit only. The maximum number of degree-applicable transfer hours from a two-year institution is one-half of the student's Auburn curriculum, but no more than 64 hours. Transfer credit exceeding this limit will not be applied to a degree.

Grades Earned: Transfer coursework with a "D" grade may be transferable to Auburn, but it is degree-applicable only if a "D" grade in the equivalent Auburn University course is also degree-applicable (e.g., students must earn a "C" grade in English Composition).

Grade Adjustment Policy Courses: Transfer credit will not be accepted as the repeat attempt for an Auburn University course for which a student has used the Grade Adjustment Policy. The student must complete the repeat attempt at Auburn University.

Transient Coursework

Auburn students may request approval to take courses at other domestic institutions on a transient basis. Approval is granted by the student's academic college. Requests to take upper division major courses require approval by the student's academic dean's office. Students on academic suspension or dismissal from Auburn University cannot be approved for transient credit, nor will they receive credit for courses taken at another institution while on suspension or dismissal. Any approval received prior to being placed on suspension or dismissal is void.

Students may also request approval to take courses at international institutions on a transient basis if the institution and program are recognized by the national Ministry of Education as a degree-granting institution/program, or is accredited by one of the six approved U.S. accrediting bodies. Approval is granted by the Office of the Registrar in consultation with the academic unit housing the discipline. Auburn University will not award transfer credit for English-language based, short-term, winter or summer international programs if these programs are non-degree and are not recognized or overseen by the corresponding Ministry of Education.

Withdrawal Policy

A **partial withdrawal** refers to a student dropping one or more courses but remaining enrolled in at least one Auburn University credit-bearing course. A **full withdrawal** (sometimes referred to as a **resignation**) refers to a student dropping all courses and no longer being enrolled in any courses or credit hours at Auburn University.

Before withdrawing from any course(s), students are encouraged to contact their advisors or other relevant offices such as Auburn Cares, Financial Aid, Scholarships, Veterans Resource Center, International Programs, and Athletics due to possible impacts on tuition, graduation timing, financial aid, veteran's benefits, international student standing, eligibility for varsity athletics, etc.

Withdrawing by the Withdrawal Deadline

A student may withdraw from one or more courses anytime on or before the withdrawal deadline published in the Academic Calendar. Withdrawing on or before the census date (also published in the Academic Calendar) results in no course grade and no record of attempting the course on the transcript. Withdrawing after the census date but on or before the withdrawal deadline results in a course grade of W. Grades of W are not used in calculating the Auburn University term or cumulative GPA.

Students withdrawing before the deadline due to a documented serious physical and/or psychological condition or the death or serious illness of an immediate family member should consult with the Auburn Cares office before withdrawing.

Withdrawing After the Withdrawal Deadline

A student may request to withdraw after the withdrawal deadline only under specific conditions or circumstances. Because the conditions necessary for approval of withdrawals after the deadline usually impact all courses, these are normally approved only as full withdrawals. All withdrawals after the deadline require permission through the appropriate approval process. Most commonly, medical or family medical withdrawals begin with the Auburn Cares office and personal or military withdrawals begin with the student's Advising Office.

Medical or family medical withdrawal: A medical withdrawal may be requested when, by recommendation of a licensed health care provider, a student cannot continue enrollment because of a serious physical and/or psychological condition. A family medical withdrawal may be requested when a student cannot continue enrollment due to the death or serious illness of an immediate family member. These withdrawals are reviewed and approved by the Auburn Cares office.

Personal withdrawal: A personal withdrawal may be requested when a student cannot continue enrollment due to documentable, extraordinary personal circumstances. These withdrawals are reviewed and approved by the student's Associate Dean for Academics.

Military withdrawal: A military withdrawal may be requested when a student is called to active military duty prior to the end of the term. These withdrawals are reviewed and approved by the Office of the Registrar.

When a withdrawal after the deadline is approved, grades of W and WF are assigned to courses the student is passing and failing, respectively, as of the withdrawal date. Grades of W are not used in calculating the Auburn University term or cumulative GPA. Grades of WF are used and have the same impact as a grade of F. In situations where it can be clearly demonstrated that a failing grade was directly related to the medical or personal situation leading to a withdrawal, the withdrawal approver may also approve a course grade of W.

Retroactive Dating of Withdrawals

Retroactive dating refers to establishing an effective withdrawal date prior to the actual date of withdrawal. Retroactive dating is most frequently initiated when a student has documentation from a health professional verifying a medical condition that prevented the student from withdrawing on the effective date.

Requests for retroactive dating of withdrawals due to medical or immediate family medical reasons are reviewed and approved by Auburn Cares and should be initiated within one calendar year (for family medical withdrawals) or two calendar years (for medical withdrawals) from the end of the term in question. Retroactive dating of withdrawals due to extraordinary personal circumstances are reviewed and approved by the Associate Dean of the student's college and the Provost Office designee and should be initiated no later than the student's next term enrolled at the university. Requests initiated beyond these deadlines must also be approved by the Provost Office designee.

Non-Academic Policies

The statements set forth in this *Bulletin* are for informational purposes only and should not be construed as the basis of a contract between a student and Auburn University.

While the provisions of the *Bulletin* will ordinarily be applied as stated, Auburn University reserves the right to change any provision listed in this *Bulletin*, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available in the Registrar's Office and/or the dean's office. It is important that each student be aware of his or her individual responsibility to keep apprised of current graduation requirements for the student's respective degree program.

Civil Rights Compliance

Auburn University is an equal opportunity educational institution and operates without regard to race, sex, color, age, religion, national origin, disability or veteran status. The university complies with the regulations of Titles VI and VII of the Civil Rights Act of 1964, the Age Discrimination Act, the Age Discrimination in Employment Act, Title IX of the Education Amendments of 1972, Sections 503/504 of the Rehabilitation Act of 1973, the Vietnam Era Veterans Readjustment Assistance Act, the Americans with Disabilities Act of 1990, the Equal Pay Act and the Pregnancy Discrimination Act. As a matter of policy, Auburn University prohibits sexual orientation discrimination in matters regarding academic acceptance, academic performance, or dismissal, as well as employment decisions regarding hiring, promotion, and termination. Anyone wishing to file a complaint covered by the above should go to the Affirmative Action Office in 317 James E. Foy Hall, or call (334) 844-4794 between 7:45 a.m. and 4:45 p.m., Monday through Friday.

Equal Employment Opportunities

It is the policy of Auburn University to provide equal employment opportunities for all individuals without regard to race, sex, age, religion, color, national origin, disability or veteran status. Sexual orientation discrimination in employment decisions regarding hiring, promotion, and termination is also prohibited. Anyone wishing to file a complaint covered by the above should go to the Affirmative Action/EEO Office in 317 James E. Foy Hall, or call (334) 844-4794 between 7:45 a.m. and 4:45 p.m., Monday through Friday.

Prohibited Harassment

Harassment based on protected class constitutes a violation of university policy and may also constitute a violation of civil rights laws. Such harassment will not be tolerated by Auburn University. It subverts the mission of the university and threatens the careers, educational experience, and well-being of students, faculty, and staff. Prohibited harassment includes harassment based on race, sex, age, religion, color, national origin, disability, sexual orientation, and veteran status.

Sexual harassment is a form of sex discrimination and is prohibited by federal regulation. Sexual harassment in academic settings and in the employment area where students are involved is defined as unwelcome sexual advances, requests for sexual favors, and other verbal, graphic, or physical conduct of a sexual nature when (1) submission to such conduct may be explicitly or implicitly a term or condition of a student's academic success or employment, (2) submission to or rejection of such conduct may be used as the basis for employment or academic decisions affecting the student and the student's total educational and/or work experience, or (3) such conduct has the purpose or effect of substantially interfering with a student's employment or academic performance or creates an intimidating, hostile, or offensive work or educational environment that is severe, pervasive, and objectively offensive. Students who wish to make a complaint of sexual or other prohibited harassment or discriminatory conduct should contact the Office of Affirmative Action/Equal Opportunity in 317 James E. Foy Hall, or call (334) 844-4794 between 7:45 a.m. and 4:45 p.m., Monday through Friday.

Smoking

Smoking of tobacco in AU facilities and vehicles is prohibited except where signs are posted indicating otherwise.

Weapons

Auburn University prohibits possession, use and transportation on university properties of any dangerous or potentially dangerous weapons, including fixed-blade knives, shotguns, rifles, handguns, bows and arrows, crossbows, brass knuckles, air guns, swords and fireworks or explosive devices.

Academic Bankruptcy Policy

Auburn University graduate students who have been suspended or expelled because of poor academic performance may petition the Graduate School for a declaration of academic bankruptcy. Academic bankruptcy allows the student to petition their program, department, and the Graduate School to restart their graduate program after a minimum of a one calendar year separation from Auburn University. For readmission, the student must submit a readmission request form and must be recommended for readmission by the graduate program to which the student is applying. If the graduate program recommends readmission, the student must, in coordination with the Graduate School and program Graduate Program Officer (GPO), identify the semester(s) for which they request academic bankruptcy. If approved, the student forfeits all graduate courses and credits earned at Auburn University for those semesters. Auburn University will retain all forfeited courses on the student's transcript but will not include forfeited courses in the calculation of the Graduate Grade Point Average. Students may not declare academic bankruptcy more than once.

Academic Engagement

Any graduate student enrolled in a degree program culminating in a thesis or dissertation will directly engage in research and/or creative scholarship with the major professor, will have access to the tools needed for the research/scholarly activity, will be immersed in the culture of graduate education, will engage in the professional activities of the discipline, and will complete the research/scholarly activity in a reasonable period of time.

Academic Integrity and Student Conduct

Graduate students at Auburn University are expected to adhere to established standards of academic integrity, personal conduct, and professional conduct. The primary code of conduct is detailed in the Auburn University Code of Student Conduct.

Academic units may also define and publish standards appropriate to their disciplines as well as describing the processes for resolving disputes and appealing decisions. Students found in violation of policies defining academic integrity, personal conduct, and professional conduct may be subject to dismissal from the Graduate School.

Academic Programs and Curricula

An **academic program** is an organized plan of study which, when successfully completed, is recognized by the awarding of a degree. It includes all courses and related activities required by the university and those required by a school, college, department or interdisciplinary program. **At Auburn University, the minimum number of hours in a doctoral program is 60 semester hours earned through instruction beyond the bachelor's degree, including 1) a minimum of 30 semester hours graded (e.g., A, B) graduate course work (6000-level and above); and 2) a minimum of 30 semester hours of additional graduate course work (6000-level and above) that may include ungraded courses 7990 and 8990 and must include at least 10 hours of 8990.** Some departments require more than 60 semester hours and requirements may vary according to a student's background and interest. **The minimum number of hours in a master's degree program is 30 semester hours of courses, 6000-level and above.**

A graduate program option is a formally approved variation of an academic program by the offering department which meets objectives that may be more specifically focused. These additional objectives are integrated with the basic program. A formal graduate program option must preserve the integrity of the academic program of which it is a variant. Specifically, the formal program option must 1) be in a recognized sub-field of the discipline; and 2) share at least half of the total credits of the degree program. Only formally approved graduate program options are designated on the transcript. Other less formal variants, which may carry the name of "track,"

“concentration,” “emphasis,” or similar terms, are not designated on the transcript; however, all academic programs and designated variations (whether called “options,” “tracks,” “concentrations,” “emphases” or some similar term) must be approved by the Alabama Commission on Higher Education (ACHE).

A graduate **minor** is an organized sequence or cluster of courses offered by a department or interdepartmental program. Not all departments or interdepartmental programs offer a minor. At Auburn University, the term graduate minor designates those sequences or clusters of courses that have been formally proposed as minors by departments or interdepartmental programs and approved by the Graduate Council. The minimum number of semester hours in a minor is nine, all of which must be in courses at the 6000-level or above and must be completed at Auburn University.

Accelerated Bachelor’s/Master’s Degree Plan

The Accelerated Bachelor’s/Master’s Degree Program allows Auburn students in some academic programs to count up to nine approved hours in a 30–35 hour master’s program or twelve approved hours in a 36 hour or greater master’s program toward both a bachelor’s and a master’s degrees in the same program area. These hours must be at the graduate level.

Admission Criteria

To be considered for admission, students must have at least 45 hours of credit, with at least 24 hours completed at Auburn University, and must have a cumulative GPA of 3.4 or higher on all coursework completed at Auburn. Individual graduate programs may set higher standards or require additional criteria for admission to the accelerated degree program.

Students must earn the bachelor’s degree and meet departmental admission criteria to be fully admitted into the graduate program.

Admission Procedures

Students must work with a graduate advisor in the degree-granting department to complete an Accelerated Bachelor’s/Master’s Degree Program Application, available on the Graduate School website, including:

1. a list of the courses that count toward both the undergraduate and graduate degree and,
2. the projected dates for the completion of the bachelor’s and master’s degrees

Students in the Honors College remain eligible to graduate with Honors while participating and should consult with an Honors advisor.

Performance Expectations

Students earning a B or higher in a graduate course can apply the course credit toward the undergraduate and graduate degree (if admitted to the graduate program). A passing grade less than a B cannot count towards the graduate degree but may count toward the undergraduate degree if allowed by the degree program.

Accommodation Policy for Students with Disabilities

Auburn University is committed to providing its students with an accessible campus and equitable learning environment. If you have a disability that requires academic accommodations, access to assistive technology training, or support services, contact the Office of Accessibility for additional information: 1228 Haley Center; 334-844-2096 (Voice/TT) or visit the Office of Accessibility website at accessibility.auburn.edu (https://accessibility.auburn.edu/).

Activities Involving Animals

Auburn University’s Animal Resources Program requires compliance with the Animal Welfare Assurance negotiated with the Office of Protection from Research Risks/National Institutes of Health (OPRR/NIH). A major part of that Assurance involves the Institutional Animal Care and Use Committee (IACUC) that ensures compliance with the Assurance, the policies of the U.S. Department of Health and Human Services, the U.S. Department of Agriculture and all other federal, state and local regulations concerning care, treatment and use of animals. All activities, whether teaching, research, production or display of animals, and whether or not the activity is funded, must be approved in advance by the committee. The use of animals for any purpose that is not approved in advance by the IACUC may involve severe penalties for non-compliance with institutional policy and could jeopardize the university’s Animal Welfare Assurance filed with the OPRR and the NIH. Information may be obtained through the Animal Care and Use Program (IACUC).

AUETD Publication and Access Policy

AUETD is an online database of electronic theses and dissertations (ETDs) submitted by Auburn University students in partial fulfillment of the university's graduate degree requirements. Its purpose is to make Auburn University’s ETDs widely available to the public and easy to find online. The ETDs in the AUETD database are indexed by Google and other internet search engines and may

appear in search results for those search engines. Graduate students who want to limit access temporarily to the full text of their ETD must choose one of the limited access options **during the ETD submission process** (see options below). Students who choose to limit access to their ETD should be aware that basic bibliographical information about their ETD (including the abstract) will appear in the AUETD database and that the full text of their ETD will become publicly available immediately upon the expiration of the time limit set for limited access. Students who have questions or concerns about this policy are encouraged to contact a Graduate School advisor at (334) 844-4700 **BEFORE** submitting their ETD to AUETD.

Limited Access Options

1. **Unlimited access:** Publication in AUETD with unlimited access is immediate and irreversible. Once a thesis/dissertation is published in AUETD, access via the world-wide-web may not be denied or reversed.
2. **Limited access:** Upon request, students may limit access to their thesis/dissertation only to users with a valid AU user id and password for a limited time period. Upon request, limited access is granted for a period of time not to exceed: i) six months; ii) one year; iii) two years; or iv) five years. Unless the student petitions to extend the period of limited access, the thesis/dissertation will be published with unlimited access immediately upon the expiration of the time period.
3. **Withheld access:** Upon request, students may withhold access to their thesis/dissertation to all users for a limited time period. This means that all users, including the students and their advisory committees are denied access to the thesis/dissertation in AUETD. Upon request, withheld access is granted for a period of time not to exceed: i) six months; ii) one year; iii) two years; or iv) five years. Unless the student petitions to extend the period of limited access, the thesis/dissertation will be published with unlimited access immediately upon the expiration of the time period.
4. **Copyright:** If students plan to copyright some of all of their thesis/dissertation, these plans should be discussed in advance with the major professor, especially if the thesis/dissertation includes shared data.

Calendar

The university operates on the semester system. The Graduate School calendar at the beginning of this *Bulletin* is also available at the Graduate School and contains the dates of various important deadlines. It should be followed carefully.

Class Attendance

Students are expected to attend all their scheduled classes. College work requires regular class attendance as well as careful preparation. Specific policies regarding class attendance are the prerogative of individual faculty members. Faculty shall inform each class in writing at the beginning of the course regarding the effect of absences on the determination of grades.

The student is expected to carry out all assigned work and to take examinations at the class period designated by the instructor. Failure to carry out these assignments or to take examinations at the designated times may result in an appropriate reduction in grade, except as provided below.

Instructors shall determine the policy regarding grading which they feel is best for the course. This policy shall be presented to the class, in writing, at the beginning of the term and will govern the actions of the instructor in the course.

Arrangement to make up missed major examinations (e.g. hour exams, midterm exams) due to properly authorized excused absences (as defined by the Student Policy eHandbook) shall be initiated by the student within one week from the end of the period of the excused absence. Normally, a make-up exam shall occur within two weeks from the time that the student initiates arrangements for it. Instructors are encouraged to refrain from giving make-up examinations during the last three days prior to the first day of final examinations. The format of make-up exams and opportunities for students to make up work other than major examinations are at the discretion of the instructor whose make-up policies should be stated in writing at the beginning of the term. Instructors are expected to excuse absences for:

1. Illness of the student or serious illness of a member of the student's immediate family. The instructor may request appropriate verification.
2. The death of a member of the student's immediate family. The instructor may request appropriate verification.
3. Trips for members of the student organizations sponsored by an academic unit, trips for university classes, and trips for participation in intercollegiate athletic events. When feasible, the student must notify the instructor prior to such absences, but in no case more than one week after the absence. Instructors may request formal notification from appropriate university personnel to document the student's participation in such trips.
4. Religious holidays. Students are responsible for notifying the instructor in writing of anticipated absences due to their observance of such holidays.
5. Subpoena for court appearance.

6. Presentations at professional meetings or conferences.
7. Any other reason the instructor deems appropriate.

If the instructor does not appear within 20 minutes after the designated class hour, it may be assumed the class is canceled.

It is university policy that all classes will meet as scheduled on the last day before and the first day after holiday periods designated by the university.

Unresolved problems regarding class attendance or procedures should be referred to the University Student Academic Grievance Committee.

Examinations

Examinations are classified as (1) final examinations at the end of each term; (2) special examinations; and (3) other course examinations as determined by the instructor.

Announced tests in graduate courses will be administered at a regularly scheduled meeting of the course. Exceptions to this regulation may arise in specialized courses requiring performance or oral tests, and in multiple-sectioned laboratory classes requiring practical laboratory tests. Faculty having sound reasons for scheduling tests at times other than regularly scheduled meeting times are to obtain approval from the department head prior to the beginning of the term, and are to present a written schedule of these changes to the class during the first few days of the term. Rescheduled tests are not to interfere with other scheduled academic endeavors of the students involved, and an appropriate reduction in regularly scheduled class time is to be given to compensate for the rescheduled test period.

Classified or Proprietary Research

No thesis or dissertation should be based exclusively on a proprietary or classified research project, nor should a thesis or dissertation include proprietary or classified information. Any graduate student and advisor engaged in such research should identify an alternative topic for the thesis or dissertation. Should a thesis or dissertation include such information, the document must be rewritten with offending material excised.

Credit for Directed Studies

The university policy on directed studies was approved effective August 2006. Auburn University offers directed readings courses, also referred to as special problems courses or independent studies, in accordance with established policy.

Directed readings courses allow in-depth study of a particular subject by a student who is well into her or his major and, in extraordinary circumstances, accommodate scheduling issues when no other remedy is available.

Directed readings courses should not normally be used as replacements for required courses or as a solution to routine scheduling problems.

Approval to Teach Course—A standard Approval for Independent Study/Directed Readings Form (https://www.auburn.edu/academic/provost/forms/ind_study.pdf), available through the Office of the Provost website, will specify the necessary approvals and serve as the vehicle for obtaining them.

Exceptions to Graduate School Policies

Exceptions may be made to policies of the Graduate School under special circumstances. A person wishing to request an exception should write a letter to the dean of the Graduate School stating the nature of the request and the reasons for it. If a student is making the request, the letter should be submitted first to the major professor, who will write a letter of recommendation. Both letters go to the department head. If a member of the faculty is making the request, the letter goes to the department head, who will write a letter of recommendation. All letters go to the associated college/school dean for approval. Letters and comments then are forwarded to the dean of the Graduate School. A request for an extension of time to meet degree requirements must be justified. It must be accompanied by a proposed schedule for completion and assurance that the student is current in subjects included in the plan of study.

General Regulations

Regulations listed here represent the minimums of the Graduate School. However, individual departments may impose more stringent requirements and students will be governed by them.

Grades

Grade Definitions

Final passing grades are A, superior; B, good; C, acceptable; D, passing; and S, satisfactory. Final failing grades are F, failure; FA, failure for excessive absences; U, unsatisfactory; NR, no grade reported; and WF, officially dropped with permission of the student's dean but failing at time of withdrawal and is calculated into the GPA. (For the definition of W, see the following section on Grade Assignment for Class Withdrawal.)

A TD, thesis and dissertation research credit, is assigned to courses 7990 Research and Thesis and 8990 Research and Dissertation.

A grade of IP (In Progress) is used by professional programs, specifically Pharmacy and Veterinary Medicine, for those courses that extend beyond the end of the regular term. Students who are making progress toward completion of their work but have not completed all course requirements may receive the IP grade. The IP grade is not calculated in the GPA until the grade is cleared.

Grades of SA and SN may be assigned in certain specialized classes in which progress to the next level of a program depends on performance in the class. In such cases, a grade of SA in a particular course may be required for advancement. A grade of SN will give the student appropriate earned credit, but will not allow the student to advance in that program.

An NR is assigned systematically when the instructor does not assign a letter grade.

Faculty Policy on Assigning Grades of Incomplete (excludes distance education courses)

Effective Fall 2007, student (or appropriate representative) must contact the instructor in writing prior to the submission of final course grades to request a grade of Incomplete (IN) due to documented reason (illness/death in family/etc.).

If a student does not request an IN, the instructor should grade the student based upon the percentage of course work completed to date and using a 0 for any exams/ assignments not completed.

To be eligible for a grade of IN, the student must have completed (and have passed) more than half of all class assignments for the semester or summer term.

The instructor must fill out the Incomplete Grade-Memorandum of Understanding form, indicating:

- reason for the IN,
- percent of course work currently completed at the time of submission and the grade average on that work,
- detailed information about the additional work needed to complete the course,
- timeline to complete the work (6 months maximum; preferably sooner), and
- grade the student should be assigned if the additional work is NOT completed by the deadline set for the completion of the work; the missing work is calculated as a 0.

Grades of Incomplete automatically become the grade identified by the instructor, if not cleared within 6 months.

If the instructor assigning a grade of IN leaves Auburn University, the department head should make a reasonable attempt to contact the former instructor and then assign a grade based upon the work presented by the student and the information provided on the Incomplete Grade-Memorandum of Understanding form.

Once an IN has been changed to another grade it may not be changed, in the future, to a different grade without approval of the provost.

Documentation of class work must be maintained by the student; the Incomplete Grade-Memorandum of Understanding form must be maintained by the student, faculty and the Office of the Registrar. For instructors who submit the IN Grade forms to the Office of the Registrar prior to course grades being rolled to academic history, the IN will be reflected on the electronic grade roster; faculty will be unable to change that grade on the electronic grade roster.

Instructors should NOT enter a grade on the electronic course roster for those students who are to be assigned the IN grade but leave the grade blank. The system will automatically convert blanks to NR. Once the IN Grade form is received by the Office of the Registrar, that office will convert the NR to the IN grade.

It is the responsibility of the instructor to send a copy of the Incomplete Grade-Memorandum of Understanding form to the Office of the Registrar.

When the student has completed the outstanding work, it is the responsibility of the instructor to initiate the change of grade form and send it to the appropriate department/dean's office for additional signatures and transmittal to the Office of the Registrar.

These policies apply to all students in undergraduate and graduate courses.

Faculty Policy on Grade Changes (includes NR; Excludes IN)

Grades should be accurate when posted.

- Any change of letter grades (A, B, C, D, F, S, U, FA, and NR) should be made only in extraordinary situations.
- Any grade changes must be completed within 6 months of completion of the course.
- Any grade changes outside of this timeframe must also be approved by the provost.
- A final grade may be changed only by the written request of the instructor, with approval of the department head and dean, submitted to the registrar.
- A grade of F and additional penalties may be assigned for academic dishonesty. See the Student Academic Honesty Code section in the Tiger Cub for further information.

Grade Assignment For Class Withdrawals

A student who withdraws from a course prior to the 15th class day during a semester (or the fifth class day of summer term) will have no grade assignment; however, from the 15th class day during a semester (or the fifth class day of summer term) through the withdrawal deadline published in the academic calendar a W (Withdrawn Passing) grade will be recorded for the course. A course may be dropped with a W after the withdrawal deadline only under unusual conditions and only with permission from the student's dean. When approval for dropping the course under such circumstances is granted, a W may be assigned only when the instructor indicates that the student is clearly passing the course. Otherwise, a grade of WF (Withdrawn Failing) is assigned. All failing grades are calculated into GPA as grades of F.

Grade Average and Quality Point Computation

A 4.0 grade scale is used. An A equals 4.0; B, 3.0; C, 2.0; D, 1.0; and F equals 0.0. Only course work attempted at Auburn University is used in determining the grade report average and continuation–in–residence requirements. S and U grades do not enter into grade-point computations.

S-U Grading

Grades of S (Satisfactory) and U (Unsatisfactory) may be assigned only to courses approved to be graded S-U, and courses elected under the S-U option.

A graduate student may enroll in undergraduate courses, except for 6000-level courses taken for graduate credit, under the S-U option on the major professor's recommendation.

Students are not permitted to change from S-U grading to conventional grading or vice versa after the fifteenth class day of the fall and spring terms or the fifth class day of any summer term.

Grade Reports

Grade information may be obtained through AU Access on Auburn University's website.

Graduate Certificate Definition

Graduate certificate programs constitute an integrated curriculum, but not necessarily one aligned with a specific academic program. They may exist within programs, bridge programs or offer content widely useable across programs. Graduate certificate programs consist of a minimum of 9 and maximum of 21 hours of graduate-level course work. The course work may be graded or non-graded. A minimum GPA of 3.0 must be maintained on all graded course work in the certificate program.

Graduate certificate programs pertain to graduate students, whether degree seeking or non-degree seeking. A graduate certificate is distinguished from graduate minors in two primary ways. First, graduate minors are intended exclusively for degree seeking graduate students. Graduate certificates may be directed to both degree seeking and non-degree seeking students. Second, there are limits to the number of course credits taken in pursuit of graduate minors that may be applied to a graduate degree (e.g., masters degrees require 21/30 hours to be in the major discipline). The limiting factor in the application of certificate course credits to graduate degrees is departmental policy or advisory committee recommendations. As an example, if a department developed a certificate program intended only for non-degree seeking students, that department could prevent those certificate courses from applying to a degree.

However, in the absence of departmental policy, and with the approval of a student's advisory committee, both degree seeking and non-degree seeking students (if they later change status to degree seeking) may include all certificate-related courses toward degree requirements.

When new graduate certificates are proposed, they undergo the full process of curriculum review. This same process applies regardless of delivery method (i.e., on campus and distance). Special requirements for applicants may be negotiated between the certificate proposing program and the graduate school at the time the program is proposed. Consistent with Graduate School policy related to the Masters and Specialist degrees, all requirements for a graduate certificate must be accomplished within 6 years unless departmental criteria for the certificate necessitate a longer time. Certificate Programs that require an exception to this 6-year time limit must be approved by the Graduate Council. Not only must the content of the proposed certificate be appropriate, but the availability of a viable group of graduate faculty to teach the courses in the certificate must be documented. Proposals for graduate certificate programs must identify a specific person who will serve as coordinator. Certificates that bridge departments must have a home department to which all certificate applicants apply. But each affiliated department must also designate a coordinator. Students who fulfill all requirements for a graduate certificate should submit the certificate completion application through AU Access. The certificate will be noted on the transcript after successful completion of all certificate requirements and the certificate completion application has been approved.

Graduate certificates are to be differentiated from professional development certificates. No comprehensive definition of the latter is offered here, however, in brief, completion of a professional development certificate does not require admission to the Graduate School and is awarded based on participation in non-credit work. The definition of graduate certificate does not limit the ability of departments or other units from defining, implementing, or awarding professional development certificates. Professional development certificates are not subject to the Auburn University curriculum process, nor are their achievement noted on Auburn University transcripts.

Graduate Curriculum Model Change

When a graduate curriculum model is changed, the changes apply only to students who matriculate after the approval of the changes and to currently enrolled students who voluntarily choose to complete the requirements of the new curriculum model. In no case, for students who are continuously enrolled, will the changed curriculum compel them to accumulate additional hours and grade points to graduate. Curriculum model changes are to be implemented at the beginning of the semester in which the largest number of new students typically enroll (fall semester for most programs). Graduate students who have not been enrolled at Auburn University for two or more semesters and who are returning to the same curriculum may be subject to different university, college, school or departmental requirements than those which existed when continuous enrollment ceased.

Graduate Program Option Definition

A graduate program option is a formally approved variation of an academic program by the offering department which meets objectives that may be more specifically focused. These additional objectives are integrated with the basic program. A formal graduate program option must preserve the integrity of the academic program of which it is a variant. Specifically, the formal program option must 1) be in a recognized sub-field of the discipline; and 2) share at least half of the total credits of the degree program. Only formally approved graduate program options are designated on the transcript. Other less formal variants, which may carry the name of “track,” “concentration,” “emphasis,” or similar terms, are not designated on the transcript; however, all academic programs and designated variations (whether called “options,” “tracks,” “concentrations,” “emphases” or some similar term) must be approved by the Alabama Commission on Higher Education (ACHE).

Graduate Study and University Employees

The educational benefit plan provides tuition waiver benefits to eligible and qualified employees, enabling them to enroll in undergraduate and graduate course work while actively employed at Auburn University. An employee may pursue a graduate degree with the approval by the employee’s immediate supervisor indicating whether or not the requested course is relevant to the student’s current position assignment. The application approval process is through Self Service Banner and is needed for each class each semester. Inquiries should be made through the Human Resource Development, Employee Education Benefits office.

Institutions with Special Affiliations

By special arrangement with Florida A&M University, the Graduate School application fee is waived for students applying from this institution.

Oak Ridge Associated Universities

Auburn University has been a sponsoring institution of the Oak Ridge Associated Universities (ORAU) since 1946. ORAU is a private, not-for-profit consortium of over 145 colleges and universities and a management and operating contractor for the U.S. Department

of Energy (DOE) with principal offices located in Oak Ridge, Tennessee. Founded in 1946, ORAU provides and develops capabilities critical to the nation's technology infrastructure, particularly in energy, education, health and the environment. ORAU works with and for its member institutions to help faculty and students gain access to federal research facilities; to keep members informed about opportunities for fellowship, scholarship and research appointments; and to organize research alliances among our members in areas where their collective strengths can be focused on issues of national importance.

ORAU manages the Oak Ridge Institute for Science and Education (ORISE) for DOE. ORISE is responsible for national and international programs in science and engineering education, training and management systems, energy and environment systems and medical sciences. ORISE's competitive programs bring students at all levels, K-12 through postgraduate, and university faculty members into federal and private laboratories. Other ORAU activities include the sponsorship of conferences and workshops, the Visiting Scholars program and the Junior Faculty Enhancement Awards. Contact the Office of Vice President for Research and Economic Development for more information about ORAU programs.

Research Involving Humans

Auburn University established the Institutional Review Board for the Use of Human Subjects in Research (IRB) to evaluate research for compliance with the guidelines and policies of the U.S. Department of Health and Human Services, the Public Health Service, the Food and Drug Administration and other federal, state and local regulations. All research using human subjects—whether it is conducted by faculty, staff or students—must be approved in advance by the IRB, regardless of the source of funding, lack of funding or any other consideration. Research involving human subjects not approved in advance may be disallowed and may incur severe penalties for non-compliance with institutional policy. Information and review forms may be obtained through the Office of Human Research (IRB).

Second Graduate or Post-Baccalaureate Professional Degree

For a second graduate or post-baccalaureate professional degree, the student fulfills all requirements applicable to any other graduate or post-baccalaureate professional degree, including the thesis, if appropriate. The student may, on recommendation of the advisory committee, transfer a limited number of credit hours from the previous graduate or post-baccalaureate professional degree. At least 24 semester hours, or 50% of the total hours required for the degree, whichever is greater, must be unique to each degree and be taken at Auburn University.

Student Academic Grievance Policy

The Student Academic Grievance policy, which appears in full in the Student Policy eHandbook, is designed to resolve academic grievances of students which result from actions of faculty or administrators.

Student Records

Confidentiality of Student Records

The university recognizes that the maintenance of student information and educational records is necessary and vital to assist the student's education and development and to provide opportunities for university research and policy formulation. The university recognizes its obligation to exercise discretion in recording and disseminating information about students to ensure that their rights of privacy are maintained.

The university will furnish annual notification to students of their right to inspect and review their educational records; the right to request amendment of educational records considered by them to be inaccurate or misleading or that violate privacy or other rights; and of their right to a hearing should the university decline to amend such records. This annual notice will be published in the *Auburn University Bulletin* and an electronic notification is sent to each active Auburn student.

The following guidelines have been developed to ensure the privacy rights of students. For the purposes of this policy statement a student is defined as an individual who has been admitted and has been in attendance in a component unit of the university. Classification as a student in one component unit of the university (e.g., an undergraduate program) does not imply that the person has been accorded the rights outlined below in other component units (i.e., graduate school, professional schools, branch campus).

Student Access to Records

Auburn University's permanent student education record consists of one or more of the following: the official transcript of grades, competency evaluations, and any narrative evaluations. This is in accordance with guidelines established by the American Association of Collegiate Registrars and Admissions Officers (https://www.aacrao.org/) and the State of Alabama policies on Retention of Records.

Students have the right to be provided a list of the type of educational records maintained by the university which are directly related to the student; the right to inspect and review the contents of these records; the right to obtain copies of these records; the right to a

response from the university to reasonable requests for explanation and interpretation of these records; the right to an opportunity for a hearing to challenge the content of these records; and if any material or document in the educational record of a student includes information on more than one student, the right to inspect and review only the part of such material or document as relates to the student.

Students do not have access to financial records of their parents; confidential letters and statements of recommendation which were placed in the educational record prior to Jan. 1, 1975, provided such letters or statements were solicited or designated as confidential and are not used for purposes other than those for which they were specifically intended; confidential recommendations, if the student signed a waiver of the right of access, respecting admission, application for employment, and the receipt of an honor or honorary recognition.

Students do not have access to instructional, supervisory or administrative personnel records which are not accessible or revealed to any other individual except a substitute; Campus Security records which are maintained apart from educational records, which are used solely for law enforcement purposes, and which are not disclosed to individuals other than law enforcement officials of the same jurisdiction; employment records except when such employment requires that the person be a student; and the Alumni Office records.

Students do not have access to physical or mental health records created by a physician, psychiatrist, psychologist or other recognized professional acting in his or her capacity or to records created in connection with the treatment of the student under these conditions which are not disclosed to anyone other than individuals providing treatment. A physician or appropriate professional of the student's choice may review these records.

Procedures for Access

The Office of the Registrar has a complete list of educational records maintained by the university which students may obtain. Students should contact the appropriate office to inspect and review their records. An office may require that a university official be present when a student inspects and reviews his or her educational records. Any questions concerning a student's access to records should be directed to the registrar.

Amending Educational Records

Students may request that any information contained in their educational records which they consider to be inaccurate, misleading, or in violation of their privacy or other rights be amended or deleted from the records. (A grade or other academic scores may not be amended, except that the accuracy of recording the information may be challenged.)

Students who request that information in their records be amended should first direct their request to the official with primary responsibility for the information on the record. If the matter is not resolved to their satisfaction, students should direct their requests to the official's dean or division head. If the matter is not resolved to their satisfaction, they may request a formal hearing.

Right to a Formal Hearing and Procedures for Decision

Students may request formal hearings to challenge information contained in their educational records. The hearing will be held in a reasonable time (not to exceed 45 days) and in a reasonable place. Students may be assisted or represented by persons of their choice, including an attorney, at the expense of the student, and shall be afforded a full and fair opportunity to present evidence relevant to the issue(s).

Students or their representative should request the hearing in writing and should specifically identify the information they seek to have amended. The request should be directed to the Office of the Provost/Vice President for Academic Affairs.

The Office of the Provost/Vice President for Academic Affairs will conduct the hearing and render a decision within a reasonable period of time after the conclusion of the hearing and the decision shall be based solely upon the evidence presented at the hearing. The student shall be notified in writing of the reason(s) for the decision and given a summary of the evidence.

If the decision is that the information in the student's educational records is inaccurate, misleading or in violation of his rights and privacy, the statement(s) will be corrected or expunged from the student's records.

If the decision is that the information is not inaccurate, misleading, or in violation of the privacy or other rights of the student and that the information or parts thereof are to remain in the student's educational records, the student shall be notified and given the right to enter a statement in the records setting forth any reason for disagreeing with the decision of the Office of the Provost/Vice President for Academic Affairs. This statement shall be maintained in the records as long as the record or contested portion thereof is maintained, and if the contested educational record or contested portion thereof is disclosed by Auburn University to any party, the student's explanation shall also be disclosed to that party.

The U.S. secretary of education has established a review board to receive complaints regarding violation of student's rights. Students wishing to file a complaint directly to the review board should write to the Family Policy and Regulations Office, Department of Education, Washington, D.C. 20202. Detailed procedures for this complaint procedure are listed under section 99.63 of the regulations issued by the secretary and will be furnished upon request by the registrar, Auburn University.

This policy is adopted pursuant to the Family Educational Rights and Privacy Act, (34 CFR Part 99), and is not intended to impose any restrictions or grant any rights not specifically required by this Act.

Release of Directory Information

The university may release directory information without the student's written consent. Directory information consists of student's complete name; local address and associated telephone number; place of birth; parent/spouse name, address and associated telephone number; mailing address and associated telephone number; E-mail address; photographs, video or other electronic image; participation in recognized activities and sports; weight and height of members of athletic teams; dates of attendance; enrollment time status (full or part time); degrees and awards received; and most recent previous educational agency or institution attended.

A student may deny the release of directory information by completing an Address Change/Information restriction request form available in the Office of the Registrar, Langdon Hall.

To deny the release of information regarding participation in recognized activities the student must notify the vice president for Student Affairs and the student's academic dean in writing. To deny the release of athletic information, the student must notify the director of Athletics in writing. A former student, one who is not in attendance, must contact the appropriate offices to deny the release of information.

Release of Educational Records

The university will release a student's educational record(s) upon the student's written request. The student must:

1. Specify the records to be disclosed.
2. Include the purpose or purposes of the disclosure.
3. State the party or parties and the address to whom the information is to be disclosed.

The student shall, upon request, receive a copy of the record that is to be disclosed. It is university policy to furnish single copies of a student's record at no charge.

The university may release student's educational records to the following without prior written consent:

1. University officials who have a legitimate educational interest in the records. University officials are defined as teachers, administrative personnel and other employees except personnel of the security or law enforcement unit of Auburn University, and other agents acting on behalf of the university. If university officials are required in the performance of their duties to review the educational records of a student, this will be considered to be a legitimate educational interest. Auburn University has designated the National Student Clearinghouse as a university official.
2. Officials of another school in which the student intends to enroll upon request of the transfer school.
3. Government representatives of the Comptroller General of the United States, the Secretary of Education, the U.S. Commissioner of Education, the Director of the National Institute of Education, the Assistant Secretary for Education, State educational authorities, and State officials to whom such information is specifically required to be reported or disclosed by State law adopted prior to Nov. 19, 1974.
4. Appropriate authorities in connection with financial aid with the understanding that only the necessary records will be released.
5. Organizations conducting studies for, or on behalf of, the university or its agencies for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction and student life provided that the studies will not permit the personal identification of students and their parents by individuals other than representatives of the organization and provided that the personally identifiable information furnished will be destroyed when no longer needed for the purposes for which the study was conducted.
6. Accrediting organizations to carry out their accrediting functions.
7. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1954. University officials may release educational records to parents on the basis of a written documentation from the parent that the student is a dependent as defined under the Code and there is reasonable notification of the student regarding the request.
8. A court of law to comply with a judicial order or lawfully issued subpoena with the understanding that the student will be notified in advance insofar as possible.

9. Appropriate parties to protect the health and safety of the student or other individuals in emergencies with the understanding that only information essential to the emergency situation will be released, that information will be released only to a party who would be in a position to deal with the emergency, and that the student will be notified insofar as possible of the information released, the purpose for the release, and to whom the information was released.

No personal information on a student will be released without a statement from the university to the party receiving the information that no third party is to have access to such information without the written consent of the student.

Each office with educational records will maintain a record of each request and disclosure of personally identifiable information from the educational records of a student except for information requested in writing by the student, information released to the student or the student's parents, directory information, and information released to university officials and teachers who have a legitimate educational interest in the records. The student may inspect the record of requests, disclosures and the legitimate interests of parties requesting or obtaining information in the appropriate university office.

Teaching Graduate Courses for Lecturers and Senior Lecturers Policy

Lecturers and senior lecturers who otherwise meet graduate faculty criteria (level 1) for the department may be granted permission to teach graduate-level courses and/or serve on graduate student committees on an exceptions basis under the following conditions:

1. A lecturer/senior lecturer desiring to teach a graduate course or serve on a graduate student committee should make a written request to the department chair.
2. If this request is acceptable to the majority of the department's tenure and tenure track graduate faculty and chair, a memo requesting such authorization will be submitted to the graduate dean for review and approval.
3. Authorization may be requested for teaching only, committee service only, or both.
4. No more than one lecturer/senior lecturer may serve on a graduate student committee.
5. Authorization must be requested for each semester a graduate course is to be taught by a given lecturer/senior lecturer.
6. Authorization must be provided each time that a lecturer/senior lecturer serves on a graduate student committee.
7. The department will provide the faculty member with resources appropriate to the graduate service being provided. What constitutes appropriate support would vary by department, but the following points would generally apply:
   a. Service on a graduate committee should not simply be added on top of current service if the lecturer is already performing at least 5% service and has an appointment that is supposed to be 95% teaching and 5% service. If a lecturer serves on a graduate committee, other forms of service should be reduced, or the lecturer should receive a higher percent of his or her appointment for service.
   b. In most cases, teaching a graduate course requires being completely up-to-date with the most recent research in the field. Appropriate support might include a course release for a lecturer teaching the course for the first time.
   c. A lecturer should not teach a graduate course as an overload class.

Two-Campus Studies

A student seeking a graduate degree at Auburn University, Auburn University at Montgomery, the University of Alabama, the University of Alabama at Birmingham, or the University of Alabama at Huntsville may take up to half the course work at another of these institutions. The courses taken must be approved in advance by the student's Advisory Committee and the respective graduate deans. All credit must be earned at the two institutions in which the student is working, and none may be transferred from another institution. Students engaged in two-campus studies are required to meet the requirements of continuous enrollment at Auburn University.

Withdrawal Policy

A **partial withdrawal** refers to a student dropping one or more courses but remaining enrolled in at least one Auburn University credit-bearing course. A **full withdrawal** (sometimes referred to as a **resignation**) refers to a student dropping all courses and no longer being enrolled in any courses or credit hours at Auburn University.

Before withdrawing from any course(s), students are encouraged to contact their advisors or other relevant offices such as Auburn Cares, Financial Aid, Scholarships, Veterans Resource Center, International Programs, and Athletics due to possible impacts on tuition, graduation timing, financial aid, veteran's benefits, international student standing, eligibility for varsity athletics, etc.

Withdrawing by the Withdrawal Deadline

A student may withdraw from one or more courses anytime on or before the withdrawal deadline published in the Academic Calendar. Withdrawing on or before the census date (also published in the Academic Calendar) results in no course grade and no record of

attempting the course on the transcript. Withdrawing after the census date but on or before the withdrawal deadline results in a course grade of W. Grades of W are not used in calculating the Auburn University term or cumulative GPA.

Students withdrawing before the deadline due to a documented serious physical and/or psychological condition or the death or serious illness of an immediate family member should consult with the Auburn Cares office before withdrawing.

Withdrawing After the Withdrawal Deadline

A student may request to withdraw after the withdrawal deadline only under specific conditions or circumstances. Because the conditions necessary for approval of withdrawals after the deadline usually impact all courses, these are normally approved only as full withdrawals. All withdrawals after the deadline require permission through the appropriate approval process. Most commonly, medical or family medical withdrawals begin with the Auburn Cares office and personal or military withdrawals begin with the student's Advising Office.

Medical or family medical withdrawal: A medical withdrawal may be requested when, by recommendation of a licensed health care provider, a student cannot continue enrollment because of a serious physical and/or psychological condition. A family medical withdrawal may be requested when a student cannot continue enrollment due to the death or serious illness of an immediate family member. These withdrawals are reviewed and approved by the Auburn Cares office.

Personal withdrawal: A personal withdrawal may be requested when a student cannot continue enrollment due to documentable, extraordinary personal circumstances. These withdrawals are reviewed and approved by the student's Associate Dean for Academics.

Military withdrawal: A military withdrawal may be requested when a student is called to active military duty prior to the end of the term. These withdrawals are reviewed and approved by the Office of the Registrar.

When a withdrawal after the deadline is approved, grades of W and WF are assigned to courses the student is passing and failing, respectively, as of the withdrawal date. Grades of W are not used in calculating the Auburn University term or cumulative GPA. Grades of WF are used and have the same impact as a grade of F. In situations where it can be clearly demonstrated that a failing grade was directly related to the medical or personal situation leading to a withdrawal, the withdrawal approver may also approve a course grade of W.

Retroactive Dating of Withdrawals

Retroactive dating refers to establishing an effective withdrawal date prior to the actual date of withdrawal. Retroactive dating is most frequently initiated when a student has documentation from a health professional verifying a medical condition that prevented the student from withdrawing on the effective date.

Requests for retroactive dating of withdrawals due to medical or immediate family medical reasons are reviewed and approved by Auburn Cares and should be initiated within one calendar year (for family medical withdrawals) or two calendar years (for medical withdrawals) from the end of the term in question. Retroactive dating of withdrawals due to extraordinary personal circumstances are reviewed and approved by the Associate Dean of the student's college and the Graduate School designee and should be initiated no later than the student's next term enrolled at the university. Requests initiated beyond these deadlines must also be approved by the Graduate School designee.

Appeals of Dismissal

Undergraduate Policy on Appeals of Suspension and Dismissal

Appeals of Suspension

Undergraduate students who incur academic suspension under the rules detailed in this bulletin may appeal the decision to the Academic Appeals Committee if they believe that extraordinary circumstances merit an exception to the rules. To appeal a suspension, students should contact the Office of the Registrar.

Appeals of Dismissal

In general, undergraduate students who have been dismissed from the University may appeal their dismissal only after one calendar year has elapsed. In rare instances, students on dismissal who have a minimum grade point average of 1.85, are within 18 credit hours of graduation, and who demonstrate the appropriate changes in attitude necessary to be ready to complete their degree requirements may appeal through the Office of the Registrar to their academic dean for readmission. To appeal a dismissal, students should contact the Office of the Registrar.

The Undergraduate Policy on Appeals of Suspension and Dismissal is administered by the Office of the Registrar.

Academic Support

Academic Support contributes to retention and degree completion for Auburn University undergraduate students. The office hosts a variety of academic skill development programs that promote self-directed learning strategies and student success.

- **Academic Coaching:** Academic Coaching is a free program that empowers students to achieve their academic goals through improved study strategies and habits. Students collaborate with a trained coach to identify action steps to meet personalized goals.
- **Study Partners Peer Tutoring:** Study Partners provides free peer tutoring for a variety of undergraduate core courses. The program and the tutors encourage students to grow as confident, self-directed learners in their studies.
- **Study Smart:** Study Smart is a non-credit, 10-week curriculum for students on suspension that focuses on the skills required for academic success at Auburn University. The program guides students through an exploration of their responsibilities, motivation, self-awareness, and tools to maintain success.
- **Supplemental Instruction (SI):** Supplemental Instruction (SI) supports historically difficult classes with free, weekly, active-review sessions facilitated by students who previously excelled in the course. SI sessions are interactive opportunities to improve content knowledge, develop skills, and make peer connections.

To learn more, visit the Academic Support website at https://academicsupport.auburn.edu/, follow us on Twitter @AUAcadSupport (https://twitter.com/AUAcadSupport/?ref_src=twsrc%5Egoogle%7Ctwcamp%5Eserp%7Ctwgr%5Eauthor), Instagram @AUAcadSupport (https://www.instagram.com/auacadsupport/), or Facebook /AUAcadSupport (https://www.facebook.com/AUAcadSupport/), or call 334-844-5972.

Accessibility

Auburn University is committed to providing its students with an accessible campus and equitable learning environment. If you have a disability that requires reasonable academic accommodations, assistive technology, or support services, contact the Office of Accessibility for additional information, 1228 Haley Center; 334-844-2096 (Voice/TT).

Career Discovery and Success

Career Discovery and Success

Auburn University believes in student success. From the Exploration Center to our Career Strategists, as well as our Employer and Alumni engagement team, the services, programs, individual support, and professional networking opportunities provided by Career Discovery and Success, along with our campus partners, are designed to support each student at any phase of their college to career journey. We help transform IDEAS into reality through a network of support that allows students to **I**nvestigate their interests, **D**esign an action plan, **E**xperience career options and mentorship, **A**rticulate their skills, and **S**ucceed academically and professionally. Our holistic approach to serving students, supporting faculty and staff across the campus landscape, and building partnerships with employers and alumni, provides the foundation for comprehensive career development and experiential learning that empowers students to realize and successfully pursue their educational and career goals.

To learn more about Career Discovery and Success programs, services, and resources, or to schedule an appointment with a career counselor or career strategist, visit career.auburn.edu (https://career.auburn.edu/).

Exploratory Advising

Becoming educated and finding a fulfilling vocation is hard, but we believe that with the proper support and guidance any college student can learn about themselves and their options, discover the best path to pursue, and find a way to thrive. The Exploration Center in Career Discovery and Success provides personalized academic advising and career counseling to Auburn students at any stage of exploration. Incoming freshmen can declare as an Exploratory major for up to two semesters and will follow a structured exploring process through the exploratory first year seminar, taken for academic credit. Current Auburn students can get help thinking about a change of major, identifying possible career paths, or developing a personalized academic success plan. All students coming to Exploratory gain the support of our academic advisors and career counselors who specialize in helping students explore, discover, and pursue their best options. The Exploration Center is located at 101 Mary Martin Hall and is open from 7:45 a.m. to 4:45 p.m. Additional information may be obtained by calling (334) 844-7277, emailing explore@auburn.edu, or visiting the website at https://exploratory.auburn.edu/ (https://nam11.safelinks.protection.outlook.com/?url=https%3A%2F%2Fexploratory.auburn.edu%2F&data=05%7C02%7Cblltn%40auburn.edu%7C30aa5e6979db40acfe7308dc5b203cab%7Cccb6deedbd294b388979d72780f62d3b%7C0%7C0%7C638485441212126481%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C0%7C%7C%7C&sdata=B%2Ba5NcTvhW0UdMeKZ0t0v2pS2BN0bj%2FzKNsXndgL92A%3D&reserved=0).

First Year Experience

First Year Experience provides programs to help the new student make the transition into Auburn University life. These programs promote intellectual and social development leading to personal and academic success. For assistance, call 334-844-4501 or visit fye.auburn.edu/ (https://fye.auburn.edu/).

Camp War Eagle

Camp War Eagle is Auburn's summer orientation experience for incoming freshmen and their parents. Sessions are held throughout the summer and engage the student and parent in the academic and social transition to college life, including meeting with the student's academic advisor.

Successfully Orientating Students

Successfully Orienting Students (SOS) is a one-day orientation program held for all transfer students and freshmen who do not attend Camp War Eagle during the summer or who enroll in the spring semester.

First Year Seminars

First Year Seminar (FYS) courses at Auburn University help new students acclimate to multiple aspects of university life. By taking an FYS course, students can learn about academic and personal resources and services, relevant social issues, opportunities for involvement on campus and in the local community, time management, critical thinking skills, study strategies, test preparation, note taking, goal setting, and many other topics and skills vital to college success. Most students in Learning Communities take an FYS course as a part of their fall semester courses, but FYS courses are available to all new students.

Learning Communities

Learning Communities are unique academic opportunities for Auburn freshmen. Each learning community is comprised of a small group of students who are co-enrolled in several core courses surrounding a particular theme or interest. By participating in a learning community, students are involved in an environment that helps them transition to college through faculty interaction, which promotes student retention and academic success. Students are also exposed to a small community of peers with similar academic interests and a supportive network of fellow students, peer educators, and professors.

Testing Services

The Biggio Center offers testing services to Auburn University students, faculty and visitors, including Auburn University academic testing, national proctored exams, and testing for outside universities. Please visit Biggio Testing Center (https://biggio.auburn.edu/programs/testing-services-programs/testing-services-contact-location/) or call (334) 844-3151 to learn more.

University Undergraduate Advising Services

Auburn University strives to provide clear and supportive academic advising to all undergraduates throughout their academic career. In addition, Auburn provides ongoing assessment of the quality of academic advising and provides professional development

opportunities throughout the year to ensure that the university's academic advisors are fully equipped to meet our students' needs. Auburn advisors frequently receive regional and national awards from the National Academic Advising Association (NACADA), the professional academic advising association, for the outstanding quality of their work. Students are strongly encouraged to take advantage of the advising services listed below.

College Advising Centers and Information

Every college and school on the campus of Auburn University provides students with academic advising designed to guide students through their academic curricula. Specific information about college-based advising services may be found on the Academic Advising web page.

Exploration Center

Becoming educated and finding a fulfilling vocation is hard, but we believe that with the proper support and guidance any college student can learn about themselves and their options, discover the best path to pursue, and find a way to thrive. The Exploration Center in Career Discovery and Success provides personalized academic advising and career counseling to Auburn students at any stage of exploration. Incoming freshmen can declare as an Exploratory major for up to two semesters and will follow a structured exploring process through the exploratory first year seminar, taken for academic credit. Current Auburn students can get help thinking about a change of major, identifying possible career paths, or developing a personalized academic success plan. All students coming to Exploratory gain the support of our academic advisors and career counselors who specialize in helping students explore, discover, and pursue their best options. Undergraduate

Auburn University offers a comprehensive array of programs that lead to a bachelor's degree. These programs are administered by the following colleges: the College of Agriculture; the College of Architecture, Design, and Construction; the Raymond J. Harbert College of Business; the College of Education; the Samuel Ginn College of Engineering; the College of Forestry, Wildlife and Environment; the College of Human Sciences; the College of Liberal Arts; the College of Nursing; the College of Sciences and Mathematics; the James Harrison College of Pharmacy; and the University College. The *Bulletin* contains the academic policies and curricular guidelines that govern a student's progress toward his or her degree in any of these programs. Students should plan to meet regularly with an advisor to ensure that they are staying on track to graduation and to resolve any questions that may arise about their selected plan of study.

This section of the *Bulletin* lists the schools and colleges alphabetically and provides information about curricula within them as well as general descriptions of interdepartmental and interdisciplinary curricula and ROTC programs. Information about most college and school undergraduate admission, retention and graduation standards as well as other information about the college or school is also provided here. Each undergraduate academic program offered by a school or college is presented in a curriculum model with required and elective courses listed in a possible semester-by-semester sequence. These models are provided as guides to help students and advisors plan the individual student's course of study. Students should realize, however, that it might not be possible to schedule every course in the year and semester as presented. Careful planning with the help of an academic advisor is usually necessary if students are to complete their programs in a timely manner and meet all course prerequisites.

All undergraduate curricula can accommodate six hours of ROTC; military science courses may be taken in place of electives, and in some curricula, with permission, in place of certain required courses.

College of Agriculture

ARTHUR APPEL, Interim *Dean*
AMY N. WRIGHT, *Associate Dean*

THE COLLEGE OF AGRICULTURE prepares students for a variety of opportunities throughout a global food, agricultural and natural resource system by emphasizing living sciences and providing challenging science-based curricula. Graduates are prepared to become productive global citizens and to address the challenges of providing a safe, affordable food, fiber and renewable bio-energy system while protecting environmental and water resources. Many of the basic science courses taken in the freshman and sophomore years serve as a foundation for additional basic and applied coursework in a specific major during the junior and senior year. The college's student-focused atmosphere fosters strong academic, engaged learning environments and student development around life-skills and international issues.

Curricula are offered in agricultural business and economics, agricultural communications, agricultural science, animal sciences, applied biotechnology, biological and agricultural technology management, crop and soil science, environmental science, fisheries, aquaculture & aquatic sciences, horticulture, and poultry science. The College of Agriculture also furnishes the subject matter training in agriculture for the curricula of biosystems engineering and agriscience education.

Employment opportunities for graduates with expertise gained in these majors are forecast to remain strong. Possible careers include: agricultural economists, agricultural engineers, crop scientists, animal nutritionists, aquaculturalists, biochemists, biological engineers, biometricians, botanists, business managers, cell biologists, climatologists, educators, extension specialists, entomologists, environmental scientists, farm services, fisheries scientists, florists, food systems and safety workers, geneticists, golf course managers, poultry scientists, molecular biologists, plant pathologists, plant physiologists, quality assurance workers, rural sociologists, science writers, soil scientists, toxicologists, turf scientist/specialists, as well as the foundation for entrance to graduate school, law, and health-related professional schools.

Transfer Credits

Transfer credits for agricultural subjects not considered equivalent to those required in the chosen curriculum may be substituted for elective credit; however, duplication of credit will not be allowed. Equivalence of agricultural subjects will be determined by the dean's office; however, students may also obtain transfer credit on the basis of validating examinations. Arrangements for validating examinations must be made with the academic dean of Agriculture in the first term of enrollment in the College of Agriculture at Auburn and the examinations must be completed before the middle of the second term. Transfer credit for courses which are upper-division courses at AU will not be accepted from two-year colleges.

Pre-Veterinary Medicine and Pre-Professional

Curricula within the college enable students to complete requirements for admission to health related professional schools. It is possible to gain admission to colleges of veterinary medicine or other health-related professional schools after a student's third year of undergraduate studies. If students are admitted to a college of veterinary medicine or other professional program after the completion of their third year, they may obtain a Bachelor of Science degree in their selected degree program after successful completion of their first year in a college of veterinary medicine or other professional degree program and completion of all major (bolded) courses. The specific graduation requirements may be obtained from a program advisor or academic advisor for the college. The minimum requirements for admission to most colleges of veterinary medicine and other professional programs are incorporated in the first three years of the options listed under the following curricula: animal sciences, fisheries and allied aquacultures and poultry science. (See also the curriculum in Pre-Veterinary Medicine in the College of Science and Mathematics and College of Forestry, Wildlife and Environment).

Majors

- Agricultural Business & Economics (p. 214)
- Agricultural Communications (p. 278)
- Agricultural Science (p. 264)

- Rural Studies — Graduate Certificate (p. 1760)

Agric Economics Courses

AGEC 1000 GLOBAL ISSUES IN FOOD, AGRICULTURE, DEVELOPMENT, AND ENVIRONMENT (3) LEC. 3. To expose students to global issues in food, agriculture, development, and natural resource/environmental economics and to learn about career opportunities in the field.

AGEC 3010 AGRIBUSINESS MARKETING (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027). Principles and problems of marketing farm and agribusiness products including marketing methods, channels, structures, and institutions. May count either AGEC 3010 or AGEC 3013.

AGEC 3050 FARM APPRAISAL (2) LEC. 2. Theory of land values; terminology, processes and procedures for alternative appraisal purposes; factors affecting value; and evaluation of appraisal methods.

AGEC 3080 FUTURES AND OPTIONS MARKETING (2) LEC. 2. Pr. (ECON 2020 or ECON 2023 or ECON 2027). Functions, institutions, economic performance, and practices and procedures involved in utilizing futures and options markets to manage market price risks.

AGEC 3100 COMPUTER APPLICATIONS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. P/C STAT 2010 or P/C STAT 2017 or P/C STAT 2510 or P/C STAT 2513 or P/C STAT 2610 or P/C BUAL 2600. Analytical methods for agricultural economics: spreadsheet applications, optimization, regression, budgeting, and risk management.

AGEC 3200 QUANTITATIVE METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. (MATH 1680 or MATH 1610) and AGEC 3100. The course covers mathematical and econometric models for the quantitative analysis of problems in food, agricultural, development and resource/environmental economics.

AGEC 3300 AGRICULTURAL POLICIES AND TRADE (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Public policies affecting agriculture. Theory and significance of international trade, distribution of production and trade, issues and policies, and influence of exchange rates.

AGEC 3920 AGRICULTURAL BUSINESS AND ECONOMICS INTERNSHIP (1-3) INT. SU. Departmental approval. Practical experience with agricultural business firms and agencies including finance, farm supply, production, marketing and sales and government. Course may be repeated for a maximum of 6 credit hours.

AGEC 3950 CAREERS IN AGRICULTURAL BUSINESS AND ECONOMICS (1) LEC. 1. SU. To develop skills to find a job and learn about career opportunities in agricultural business and economics.

AGEC 4000 PRINCIPLES OF AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2027 or ECON 2023). Economics and business principles applied to agriculture: business formation, composing and analyzing financial statements, financial analysis and decision-making functions of management, capital budgeting and investment decisions. (Credit will not be given to majors in AGEC, ECON, or business).

AGEC 4040 AGRIBUSINESS FINANCE (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600). ECON 2020 or ECON 2023 or ECON 2027 with minimum grade of C. Economic problems and policies in financing agriculture.

AGEC 4047 HONORS AGRIBUSINESS FINANCE (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600). ECON 2020 or ECON 2023 or ECON 2027 with minimum grade of C. Economic problems and policies in financing agriculture.

AGEC 4070 AGRICULTURAL LAW (3) LEC. 3. Recognition of legal problems associated with property ownership, contracts, torts, financing, estate planning and environmental controls and restrictions.

AGEC 4100 AGRICULTURAL COOPERATIVES (2) LEC. 2. Principles and problems of organizing and operating farmers' cooperative buying and selling associations.

AGEC 4120 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3) LEC. 3. Economic principles related to common property, public goods, property rights, externalities and resource scarcity and allocation applied to current issues.

AGEC 4960 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS (1-2) IND. Departmental approval. Individual or group projects with a faculty member in agricultural economics or agribusiness. May include research, data analysis or a combination of these. Course may be repeated for a maximum of 4 credit hours.

AGEC 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Membership in the Honors College required; Topics in agricultural economics. Course may be repeated for a maximum of 3 credit hours.

AGEC 4970 SPECIAL TOPICS IN AGRICULTURAL ECONOMICS (1-3) LEC. 1-3. Departmental approval. Topics of special interest in agricultural economics. May be repeated with change of topic. Course may be repeated for a maximum of 6 credit hours.

AGEC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

AGEC 4997 HONORS THESIS (1-3) LEC. 3. Pr. Honors College. Directed research and writing of honors thesis. Course may be repeated for a maximum of 3 credit hours.

AGEC 5010 FARM MANAGEMENT (3) LEC. 3. Pr. (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613) and (ECON 2020 or ECON 2023 or ECON 2027) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and AGEC 3100. ECON 2020 or 2023 or 2027 minimum grade of C. Principles of economics applied to agriculture; uses of farm records to improve management of the farm; developing enterprise budgets and use in preparing a profit-maximizing farm plan.

AGEC 5030 AGRICULTURAL PRICES (3) LEC. 3. Pr. (STAT 2010 or STAT 2510 or STAT 2610 or BUAL 2600) and (MATH 1680 or MATH 1610) and ECON 3020. Functions of prices and principles of supply and demand in price determination for agricultural products and markets. Statistical estimation of price and demand relationships. Spring. May count either AGEC 5030 or AGEC 6030.

AGEC 5090 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS I (3) LEC. 3. Pr. ECON 3020. Supply, demand, future requirements and availability of environmental and natural resources plus institutional framework affecting and conditioning such use through property rights, zoning, taxation, etc. May count either AGEC 5090 or AGEC 6090.

AGEC 5100 AGRICULTURAL BUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and AGEC 3100 and ACCT 2210 or ACCT 2217 or ACCT 2810 and P/C AGEC 4040. Principles and problems in acquiring or starting, organizing, and operating successful agribusiness; financial and operational efficiency; human resource and public relations; decision-making tools. May count either AGEC 5100 or AGEC 6100.

AGEC 5210 ADVANCED AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 5100 and ECON 3020 and MATH 1690 and (STAT 2010 or STAT 2510 or STAT 2610). Case studies, managerial economics. May count either AGEC 5210 or AGEC 6210.

AGEC 5250 BIG DATA FOR AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 3200. To expose students to essential tools for acquiring, managing, and visualizing large datasets in agribusiness.

AGEC 6010 FARM MANAGEMENT (3) LEC. 3. Pr. (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613 or MATH 1617) and (ECON 2020 or ECON 2023 or ECON 2027) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600 or BUAL 2603) and (ACCT 2110 or ACCT 2113 or ACCT 2117 or ACCT 2810 or ACCT 2813) and AGEC 3100. ECON 2020/ECON 2027 minimum grade of C. Principles of economics applied to agriculture; uses of farm records to improve management of the farm; developing enterprise budgets and use in preparing a profit-maximizing farm plan.

AGEC 6030 AGRICULTURAL PRICES (3) LEC. 3. Pr. (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613 or MATH 1617) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600 or BUAL 2603) and ECON 3020. Functions of prices and principles of supply and demand in price determination for agricultural products and markets. Statistical estimation of price and demand relationships. Spring.

AGEC 6090 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS I (3) LEC. 3. Pr. ECON 3020. Supply, demand, future requirements and availability of environmental and natural resources plus institutional framework affecting and conditioning such use through property rights, zoning, taxation, etc.

AGEC 6100 AGRICULTURAL BUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ACCT 2210 or ACCT 2217 or ACCT 2810) and P/C AGEC 4040. Principles and problems in acquiring or starting, organizing, and operating successful agribusiness; financial and operational efficiency; human resource and public relations; decision-making tools.

AGEC 6210 ADVANCED AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 6100 and ECON 3020 and MATH 1690 and (STAT 2010 or STAT 2510 or STAT 2513 or STAT 2610). Case studies, managerial economics.

AGEC 6250 BIG DATA FOR AGRIBUSINESS MANAGEMENT (3) LEC. 3. To expose students to essential tools for acquiring, managing, visualizing, and analyzing large datasets in agribusiness.

AGEC 7000 ADVANCED AGRICULTURAL AND ENVIRONMENTAL POLICY (3) LEC. 3. Pr. AGEC 6090 and (AGEC 3300 or AGEC 6030 or AGEC 5030). Food and farm problems and related governmental actions from historical, political and analytical viewpoints. Welfare economics and other procedures used to evaluate costs and benefits of existing and proposed governmental programs and actions affecting agriculture, environment and the consumer.

AGEC 7030 ADVANCED AGRICULTURAL PRICES (3) LEC. 3. Pr. AGEC 6030 and ECON 6020. Theory and measurement of farm supply, retail demand and marketing-margin relationships. Introduction to equilibrium-displacement modeling.

AGEC 7080 PRODUCTION ECONOMICS I (3) LEC. 3. Pr. ECON 6020. Resource allocation and efficiency of production in the firm, between firms, and between agriculture and other industries.

AGEC 7090 RESOURCE ECONOMICS II (3) LEC. 3. Pr. AGEC 6090. Analysis of institutional and economic factors affecting use of natural resources including economic feasibility/conservation, benefit-cost analysis, environmental controls and other interventions.

AGEC 7100 OPERATIONS RESEARCH METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Optimization techniques with emphasis on linear programming and its extensions applied to agriculture. General theoretical background and associated computational procedures are used for presentation of models and modeling techniques.

AGEC 7110 AGRICULTURAL ECONOMIC DEVELOPMENT (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Conceptual and empirical analysis of economic development with emphasis on the lesser developed areas and countries. Analysis of financial and technical aid to other countries case studies of development problems.

AGEC 7200 AQUACULTURAL ECONOMICS I (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Application of economic theories and principles to production, marketing, and consumption of aquacultural enterprises and products. Role of aquaculture in economic development.

AGEC 7590 INTRODUCTION TO AGRICULTURAL ECONOMETRICS (3) LEC. 3. Pr. (MATH 1610 or MATH 1613 or MATH 1617) and STAT 2610. Regression analysis in economic research. Model specification and estimation plus introduction to detection and correction of violations of assumptions of OLS. Hypothesis testing, dummy variables, heteroschedasticity, autocorrelation and measurement errors.

AGEC 7690 MICROECONOMETRICS IN AGRICULTURAL ECONOMICS I (3) LEC. 3. Pr. AGEC 7590. The focus will be on implementation and interpretation, as well as on the microeconomic foundations of the econometric models covered in the course.

AGEC 7700 RESEARCH METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. ECON 7130 and AGEC 7590. Overview of the philosophy of science, detailed discussion of how various research tools are used to perform applied research in agricultural economics.

AGEC 7960 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS (1-3) AAB. Departmental approval required; Individualized direction/instruction by faculty on research, teaching and/or outreach issues. Course may be repeated for a maximum of 6 credit hours.

AGEC 7970 SPECIAL TOPICS IN AGRIC ECON (3) LEC. 3. Departmental approval. New topics in agricultural and applied economics.

AGEC 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

AGEC 8060 THEORY OF AGRICULTURAL MARKETS (3) LEC. 3. Pr. AGEC 7590 and ECON 6020. Theory and methods for estimating complete demand systems (e.g., LES, Translog, ALIDS, and Rotterdam) for food products. Introduction to imperfect competition models.

AGEC 8080 PRODUCTION ECONOMICS II (3) LEC. 3. Pr. AGEC 7080. Firm-level economics problems are extended. Consideration of the influence of risk on firm behavior; empirical analysis of theoretical problems; welfare analysis; technical change; impacts of research investments.

AGEC 8090 FOOD AND AGRICULTURAL POLICY (3) LEC. 3. Pr. ECON 6020 or ECON 7000 or ECON 7110. The course will cover current issues in the economics and policies associated with food, food production and marketing.

AGEC 8690 MICROECONOMETRICS IN AGRICULTURAL ECONOMICS II (3) LEC. 3. Pr. AGEC 8310. The focus will be on implementation and interpretation, as well as on the microeconomic foundations of the econometric models covered in the course. May count either AGEC 8310 or AGEC 8690.

AGEC 8890 TOPICS IN AGRICULTURAL MICROECONOMETRICS (3) LEC. 3. Pr. AGEC 8690. This course is meant to assimilate knowledge acquired throughout core coursework in the Agricultural Economics PhD program.

AGEC 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Agriculture Courses

AGRI 1000 INTRODUCTION TO AGRICULTURE (2) LEC. 1. LAB. 2. Provide information about the College of Agriculture and Alabama Agriculture. An emphasis will be placed on learning about the different departments in the college.

AGRI 1080 AGRICULTURAL COMMUNICATIONS (3) LEC. 3. Departmental approval. Introduction to agricultural communications and professional development as applied to the ag sector; overviews of common communication methods and possible careers.

AGRI 3000 AGRICULTURAL GENETICS (4) LEC. 3. LAB. 2. Pr. BIOL 1020 or BIOL 1023 or BIOL 1027. Introductory understanding of the applications of genetics to agricultural and natural systems. Theoretical and practical knowledge of qualitative, quantitative, molecular, population, and biotechnological aspects of genetics will be developed.

AGRI 3800 LEADING PEOPLE AND TEAMS IN AGRICULTURE (3) LEC. 3. Course focuses on creating and leading high functioning teams in Agriculture.

AGRI 4000 AGRICULTURE STUDY ABROAD (1-10) AAB/FLD. Departmental approval. Study abroad programs with emphasis on agricultural topics. Credit awarded in consultation with departmental chair. Course may be repeated for a maximum of 10 credit hours.

AGRI 4920 INTERNSHIP IN AGRICULTURAL COMMUNICATION AND LEADERSHIP (1-3) INT. Departmental approval. Supervised, closely monitored work experience in agricultural communications or leadership. Course may be repeated for a maximum of 6 credit hours.

AGRI 4940 AGRICULTURAL COMMUNICATIONS CAPSTONE (3) LEC. 3. Pr. AGRI 1080. A capstone experience for the Agricultural Communications major that brings together the agricultural topics and communication techniques that have been developed throughout the course of the student's study.

AGRI 4970 SPECIAL TOPICS IN AGRICULTURAL COMMUNICATION AND LEADERSHIP (1-3) DSL. Departmental approval. Directed study in agricultural communications or leadership. Course may be repeated for a maximum of 6 credit hours.

AGRI 5010 ANALYSIS OF PLANT, SOIL, AND ANIMAL DATA (3) LEC. 3. Pr. (MATH 1130 or MATH 1133) or (STAT 2510 or STAT 2513). Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc. Credit will be given for only one of either AGRI 5010, AGRI 5013, AGRI 6010, or AGRI 6016.

AGRI 5840 LEADING ORGANIZATIONAL AND COMMUNITY CHANGE IN AGRICULTURE (3) LEC. 3. Course designed for students who want to make meaningful change in agricultural organizations and communities. Focuses on leading organizations/communities to adapt and thrive. Credit will only be given for one of the following: AGRI 5840 or AGRI 6840.

AGRI 6010 ANALYSIS OF PLANT, SOIL & ANIMAL DATA (3) LEC. 3. Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc. Credit will be given for only one of either AGRI 5010, AGRI 5013, AGRI 6010, or AGRI 6016.

AGRI 6840 LEADING ORGANIZATIONAL AND COMMUNITY CHANGE IN AGRICULTURE (3) LEC. 3. Course designed for students who want to make meaningful change in agricultural organizations and communities. Focuses on leading organizations/communities to adapt and thrive. Credit will only be given for one of the following: AGRI 5840 or AGRI 6840.

AGRI 7080 ADVANCED ANALYSIS OF PLANT, SOIL, AND ANIMAL DATA (3) LEC. 3. Pr. AGRI 5010 or AGRI 5013 or AGRI 6010 or AGRI 6016 or STAT 7000. Analysis of continuous, count, and binary data from randomized, paired, blocked, and split-plot experimental designs used in agricultural research. Use of statistical software and interpretation of results for applied agricultural research with plants, soils, and animals.

AGRI 7820 RESEARCH PROPOSAL WRITING (3) LEC. 3. Graduate level standing or Departmental approval. Experience in all aspects of writing and reviewing competitive research proposals through a workshop-format culminating in each student writing a proposal on research topics of their choosing. Fall.

Animal Sciences Courses

ANSC 1000 INTRODUCTION TO ANIMAL SCIENCES (4) LEC. 3. LAB. 2. The importance of livestock to agriculture and to the health and nutrition of a modern society. Livestock terminology, selection, reproduction, nutrition, management, marketing, and species characteristics of beef and dairy cattle, swine, sheep and horses.

ANSC 1050 INTRODUCTION TO EQUINE CARE AND USE (3) LEC. 2. LAB. 2. This course serves as an introductory course to the history, care, use, and enjoyment of horses. Students will learn the foundations of numerous topics of working with horses and how to handle horses safely and effectively.

ANSC 1100 ORIENTATION TO ANIMAL SCIENCES (1) LEC. 1. SU. An introduction to the departmental programs and personnel and how to make the most of the college experience. Breadth of career opportunities for animal science graduates.

ANSC 2000 COMPANION ANIMAL MANAGEMENT (3) LEC. 3. Practical aspects of behavior, nutrition, breeding, reproduction, health and management of dogs, cats and other animals generally considered to be human companions.

ANSC 2010 ANIMALS AND SOCIETY (3) LEC. 3. Ethical and scientific issues surrounding human-animal interactions and the role human-animal interactions play in modern society.

ANSC 2050 EQUINE BEHAVIOR AND TRAINING (3) LEC. 1. LAB. 4. Pr. ANSC 1050. This course is designed to teach students concepts of how equine behavior applies to training. Students will be exposed to a variety of training methods used in the equine industry.

ANSC 2100 DAIRY GOAT U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Dairy Goat U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2150 SKILLS AND CONCEPTS OF EQUESTRIAN SPORTS (1) LAB. 4. SU. Departmental approval. Basic management and care of animals used in intercollegiate equestrian and rodeo sports. Must be affiliated with the NCEA Equestrian Team or IHSA Equestrian Team in current term. Course may be repeated for a maximum of 2 credit hours.

ANSC 2200 DAIRY U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Dairy U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2300 BEEF U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Beef U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2400 HORSE U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Horse U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2720 THE MEAT WE EAT (3) LEC. 3. Foundation course on the global meat industry with emphasis on meat products, modern processing techniques, concepts of food safety, sanitation, inspection, grading and meeting consumer demands.

ANSC 2910 PRACTICUM IN LIVESTOCK WELFARE AND MANAGEMENT (2) LAB. 6. Pr. ANSC 1000. Departmental approval. Hands-on laboratory teaching applied management of livestock species, including horses, cattle, swine and small ruminants, using modern equipment and techniques.

ANSC 3000 HERD HEALTH MANAGEMENT (3) LEC. 3. Pr. ANSC 1000. The prevention and control of the major diseases of farm animals and the development of herd health programs.

ANSC 3150 EQUINE MARKETING (3) LEC. 3. Pr. ANSC 1000 and (ECON 2020 or ECON 2023 or ECON 2027). Practical concepts of equine marketing including evaluating the horse, assessing the market, targeting customers, and presenting the horse.

ANSC 3300 INTRODUCTORY LIVESTOCK EVALUATION AND MARKETING (2) LAB. 6. Pr. ANSC 1000. Comprehensive study of live animal and carcass evaluation techniques used in the selection and marketing of beef cattle, swine and sheep. The development of decision-making oral communication skills is emphasized.

ANSC 3310 INTRODUCTION TO MEAT SELECTION AND GRADING (2) LAB. 4. Instruction for the evaluation of meat carcasses, cuts, and products from cattle, swine, sheep, and goats. Understanding and calculating meat yield and quality for each species, evaluation of valuable traits, understanding product specifications, and preparation of written reasons. This course is required for participation in the meat judging program but is open to all students.

ANSC 3400 ANIMAL NUTRITION (4) LEC. 3. LAB. 2. Pr. CHEM 1040 and (BIOL 1030 or BIOL 1037 or POUL 3150). Principles and practice of animal nutrition, nutrient contents of feedstuff, and diet formulation.

ANSC 3410 ANIMAL METABOLISM AND NUTRITION (3) LEC. 3. Pr. (CHEM 2030 or CHEM 2070 or CHEM 2077) and (BIOL 1030 or BIOL 1037 or POUL 3150). Principles of animal nutrition and nutrient metabolism and a study of nutrients and their utilization by animals.

ANSC 3420 APPLIED ANIMAL FEEDING AND NUTRITION (3) LEC. 2. LAB. 1. Pr. ANSC 3410. Feedstuffs, diet formulation, and feeding practices applicable to the well-being and performance of economically important livestock and companion animals.

ANSC 3500 ANIMAL BREEDING (3) LEC. 3. Pr. ANSC 1000 and (STAT 2510 or STAT 2513 or BIOL 3000 or BIOL 3003 or AGRI 3000). Genetic and environmental effects of animal differences. Selection and mating systems used in the improvement of domestic animals with an emphasis on livestock.

ANSC 3600 REPRODUCTIVE PHYSIOLOGY (4) LEC. 3. LAB. 2. Pr. ANSC 1000 and BIOL 2510. Comparative anatomy, physiology and endocrinology of animal reproduction; principles of reproductive biotechnologies used to enhance reproductive efficiency in mammalian systems.

ANSC 3610 ANIMAL GROWTH AND DEVELOPMENT (4) LEC. 3. LAB. 2. Pr. ANSC 1000 and (BIOL 1030 or BIOL 1037). Biology of prenatal and postnatal growth of meat animals, emphasizing muscle, adipose, and bone tissues from a molecular, cellular, endocrine perspective. Application of concepts to improve rate, efficiency, and composition of growth.

ANSC 3650 PHYSIOLOGY OF EQUINE ATHLETE (3) LEC. 3. Pr. ANSC 1000 and BIOL 2510. Selection and development of the horse for athletic performance; exercising, training, and fitness conditioning for performance horses.

ANSC 3700 MUSCLE FOODS (4) LEC. 3. LAB. 2. Pr. ANSC 1000. Introduction to domestic animal growth and development, comparative evaluation of livestock and carcass composition. Biochemical and physiological factors affecting fresh meat and processed meat quality. Fundamentals of ante-and postmortem muscle biology, slaughter, processing, storage and merchandising of meat and meat products.

ANSC 3760 VALUE BASED MARKETING OF LIVESTOCK (3) LEC. 2. LAB. 2. Livestock grading standards and their application to carcasses of meat producing animals, concepts and principles of marketing, advertising, promotion and sales of commercial livestock.

ANSC 3800 CAREERS IN ANIMAL SCIENCE (1) LEC. 1. SU. Career opportunities for animal science graduates. Identifying and investigating careers and presenting oneself professionally for employment or post-baccalaureate education.

ANSC 3840 STUDY/TRAVEL IN ANIMAL SCIENCE (1-10) AAB/FLD. Departmental approval. Concentrated study in animal production and management, equine science and the meats industry within the US or international locations. Course may be repeated for a maximum of 10 credit hours.

ANSC 4000 MODERN LIVESTOCK SYSTEMS (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420) and ANSC 3500 and ANSC 3600. Overview of beef, dairy, swine and small ruminant production systems. Modern concepts, ideas, and methodology associated with the application of technology to reproduction, breeding, health, nutrition, waste nutrient utilization, and management.

ANSC 4010 BEEF PRODUCTION (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420) and ANSC 3500 and ANSC 3600. Overview of the beef cattle industry. Modern concepts, ideas and methodology associated with the application of technology to reproduction, breeding, nutrition, management and the use of facilities in a modern beef cattle enterprise.

ANSC 4050 EQUINE PRODUCTION AND MANAGEMENT (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420 or ANSC 4450) and ANSC 3500 and ANSC 3600. Practical application and integration of nutrition, breeding, reproduction, selection, herd health, and management for efficient horse production.

ANSC 4150 ADVANCED SKILLS AND CONCEPTS OF EQUESTRIAN SPORTS (1) LAB. 4. SU. Pr. ANSC 2150. Principles and skills utilized in intercollegiate equestrian and rodeo team competition and management. Issues affecting management, training, marketing, and promotion of animals used in equestrian and rodeo sports. Must be affiliated with the NCEA Equestrian Team or IHSA Equestrian Team in current term. Course may be repeated for a maximum of 2 credit hours.

ANSC 4300 ADVANCED LIVESTOCK JUDGING (1) LAB. 4. Departmental approval. Advanced course in principles and techniques of livestock selection based on visual criteria, performance records, and other advanced technologies. Course may be repeated for a maximum of 2 credit hours.

ANSC 4310 ADVANCED MEAT JUDGING (1) LAB. 4. Pr. ANSC 3310. Practice in evaluation and grading of beef, pork, and lamb carcasses and cuts. Development of communication skills and exposure to animal agriculture through training and intercollegiate competition. Course may be repeated for a maximum of 2 credit hours.

ANSC 4450 EQUINE NUTRITION (3) LEC. 2. LAB. 2. Pr. ANSC 3410 or ANSC 3400. Principles of digestive physiology, nutrition, and metabolic disorders unique to various classes of horses.

ANSC 4700 MEAT PROCESSING (4) LEC. 3. LAB. 3. Integration of topics in meat and non-meat ingredient chemistry and their applications to muscle food processing. Physical, chemical, and sensory properties of fresh and processed meat products.

ANSC 4800 ISSUES IN ANIMAL AGRICULTURE (2) LAB. 4. Pr. COMM 1000 or COMM 1003. Issues affecting animal agriculture, dealing with concerns of consumers and activists, involvement in public debate, and the political process.

ANSC 4810 PROFESSIONAL DISCOURSE IN AGRICULTURE (1) LAB. 2. Pr. COMM 1000 or COMM 1003. Methods for enhancing effective discourse concerning issues facing the livestock industry.

ANSC 4920 INTERNSHIP IN ANIMAL SCIENCES (2) INT. SU. Departmental approval. Practical experience in an animal agriculture industry. Course may be repeated for a maximum of 4 credit hours.

ANSC 4960 SPECIAL PROBLEMS (1-5) IND. Departmental approval. Students will work under the direction of staff members on specific problems. Course may be repeated for a maximum of 15 credit hours.

ANSC 4967 HONORS SPECIAL PROBLEMS (3-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

ANSC 4970 SPECIAL TOPICS IN ANIMAL SCIENCES (1-4) IND. Instruction and discussion of selected current topics in Animal Sciences. Course may be repeated for a maximum of 4 credit hours.

ANSC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ANSC 4997 HONORS THESIS (3-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

ANSC 5070 ANIMAL WELFARE (3) LEC. 3. Pr. (POUL 1000 or ANSC 1000) and (POUL 3150 or ANSC 3600 or ANSC 3410). This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

ANSC 5700 MICROBIOLOGY OF MEATS AND OTHER FOODS (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037 or BIOL 3200. Microorganisms associated with meat and other foods production, spoilage, and safety with training in both traditional and modern detection techniques. Credit will only be given for one of the following courses: ANSC 5700 or ANSC 6700.

ANSC 6070 ANIMAL WELFARE (3) LEC. 3. This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

ANSC 6700 MICROBIOLOGY OF MEATS AND OTHER FOODS (3) LEC. 3. LAB. 0. Microorganisms associated with meat and other foods production, spoilage, and safety with training in both traditional and modern detection techniques. Credit will only be given for one of the following courses: ANSC 5700 or ANSC 6700.

ANSC 7010 ADVANCED BEEF SYSTEMS (3) LEC. 3. Advanced study of contemporary beef cattle production systems, including principles of planning, resource management and financing plus integrated biology in areas of breeding and selection, reproduction, metabolism, nutritional physiology and growth, health and disease; integration of forage system biology, soil and forage management as related to performance and sustainability.

ANSC 7400 RUMINANT NUTRITION (3) LEC. 3. Digestive physiology, mechanisms of rumen fermentation, postruminal nutritional biochemistry.

ANSC 7410 NONRUMINANT NUTRITION (3) LEC. 3. Departmental approval. Digestion, absorption, and utilization of macro and micro nutrients, nutrient interrelationship in swine and other non-ruminant species.

ANSC 7610 PHYSIOLOGY OF GROWTH (3) LEC. 3. Pr. BCHE 7210. Molecular and cellular basis of tissue differentiation, growth and development with emphasis on muscle, adipose and connective tissues and factors influencing gene expression controlling such events.

ANSC 7700 MUSCLE FOODS AND APPLIED MUSCLE BIOLOGY (4) LEC. 3. LAB. 2. Pr. ANSC 3700 and BCHE 7210. Investigations of muscle microanatomy, biochemistry of muscle proteins and lipids, biochemistry of skeletal muscle contraction, lipid/protein interactions, antemortem and postmortem factors affecting fresh and processed meat quality; discussion of classic and current scientific literature.

ANSC 7950 SEMINAR (1) LEC. 1. An intensive scientific literature study and subsequent seminar presentation of selected topics in some facet of animal sciences (Animal Genetics, Reproductive Biology, Growth and Development, Nutrition, Animal Production, Equine Studies, Meat Science and Food Animal related Biochemistry) by enrolled students. Course may be repeated for a maximum of 3 credit hours.

ANSC 7960 SPECIAL PROBLEMS (1-5) DSL/LEC. Conference problems, assigned reading, literature searches in one or more of the following major fields; (a) biochemistry, (b) nutrition, (c) animal breeding, (d) reproductive physiology, (e) growth physiology, (f) muscle foods, (g) microbiology, and (h) behavior. Course may be repeated for a maximum of 15 credit hours.

ANSC 7970 SPECIAL TOPICS IN ANIMAL SCIENCES (1-5) IND. Emerging topics in Animal Science and related industries. Course may be repeated for a maximum of 5 credit hours.

ANSC 7990 RESEARCH AND THESIS (1-15) MST. Research and thesis may be on technical laboratory problems or on problems directly related to beef and dairy cattle, sheep, swine, or laboratory animals. Course may be repeated with change in topics.

ANSC 8400 PROTEIN AND ENERGY METABOLISM (3) LEC. 3. Pr. BCHE 7210. Nutritional biochemistry of protein and energy metabolism of mammalian, avian and aquatic species. Concepts of protein turnover, nutrient-gene interactions, control of bioenergetics, nutritional assessment, nutritional quality of nutrient sources.

ANSC 8410 VITAMIN AND MINERAL METABOLISM (3) LEC. 3. Departmental approval. Vitamin and mineral nutrition with emphasis on chemical structures and characteristics, metabolic functions, deficiencies and toxicity syndromes, interrelationships and requirements of vitamins and minerals.

ANSC 8950 DOCTORAL SEMINAR (1) LEC. 1. An intensive scientific literature study and subsequent seminar presentation of selected topics in some facet of animal sciences (Animal Genetics, Reproductive Biology, Growth and Development, Nutrition, Animal Production, Equine Studies, Meat Science and Food Animal related Biochemistry) by enrolled students. Course may be repeated for a maximum of 3 credit hours.

ANSC 8990 DOCTORAL RESEARCH AND DISSERTATION (1-15) DSR. Course may be repeated with change in topics.

Applied Biotechnology Courses

APBT 1000 INTRODUCTION TO APPLIED BIOTECHNOLOGY (1) LEC. 1. Introduction to the field of biotechnology including key concepts from biology, chemistry, and physics, and career opportunities.

APBT 2950 PROFESSIONAL DEVELOPMENT (1) LEC. 1. Development of professional skills required for modern careers in entomology, plant pathology and applied biotechnology.

APBT 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH (1-4) IND/RES. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

APBT 3100 METHODS OF SYNTHETIC BIOLOGY (4) LEC. 2. LAB. 5. Pr. (BIOL 1030 or BIOL 1037) and APBT 1000. This course provides an overview of the basic cellular processes harnessed by synthetic biology and biotechnology. It also provides an introduction to recombinant DNA and its applications. It combines lectures with labs to provide hands-on experience with molecular techniques, DNA cloning, heterologous protein expression, and methodologies used to engineer organisms.

APBT 4100 APPLIED BIOTECHNOLOGY (4) LEC. 2. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and (BIOL 3000 or BIOL 3003 or AGRI 3000) and APBT 3100. or instructor's approval. Principle and up-to-date advances of genetic modification of organisms; its practices and influences in a broad range of basic and applied sciences which have revolutionized "mean" of sustainable agriculture.

APBT 4920 INTERNSHIP (3) LEC. 3. SU. Pr. APBT 1000. Practical professional experience under the supervision of internship faculty and/or representatives of state, federal or private agency.

APBT 4980 UNDERGRADUATE RESEARCH (1-4) LAB. 2-8. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

APBT 5660 FIGURE FUNDAMENTALS : SCIENTIFIC ILLUSTRATION (3) LEC/STU. 1. Scientific illustration and data visualization implemented through the Adobe creative cloud package. May count either APBT 5660, ENTM 5660, or ENTM 6660.

APBT 5800 OMICS IN AGRICULTURE (3) LEC. 2. LAB. 2. Pr. BIOL 1030 or BIOL 3000 or AGRI 3000. This course will introduce students to the recent advances in high-throughput technologies such as genomics, transcriptomics, metagenomics, metabolomics, phenomics, modeling, and digital agriculture and how these technologies can be applied to tackling new and old problems in agriculture and human health. Students will be able to gain hands-on experience in analyzing and interpreting datasets obtained using these technologies.

APBT 5820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Pr. STAT 2510. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

Bio Ag Technology Management Courses

BATM 1110 INTRODUCTION TO TECHNOLOGY DESIGN (3) LEC. 2. LAB. 3. Introduction to the design process, 2D and 3D parametric solid modeling, and both manual and automated fabrication processes.

BATM 2110 DIGITAL ANALYTICS IN AGRICULTURE AND TECHNOLOGY (3) LEC. 2. LAB. 1. Pr. BATM 1110 or BIOP 2120. An introduction to creative and analytical methods to solve technological problems. Define the problem, explore strategies, select and implement solutions, and evaluate results.

BATM 3100 COMPUTER AIDED DESIGN TECHNOLOGY (3) LEC. 2. LAB. 1. Introductory course in computer aided design (CAD) and land mapping. Students gain competence in CAD operations used to fabricate parts and to develop field- and watershed-scale maps. Class and project topics include drawing for mechanical part fabrication and scale mapping for construction site development and agricultural field management. Must be in Junior standing Course may be repeated for a maximum of 6 credit hours.

BATM 3110 AG TECHNOLOGY GEOSPATIAL APPLICATIONS (3) LEC. 2. LAB. 3. Pr. BATM 1110 and (PHYS 1500 or PHYS 1600). Geospatial applications for agricultural land resource management. Course introduces equipment and practices used in conventional land surveying and geospatial mapping as they interface with global positioning systems (GPS), geographic information systems (GIS), and computer-aided design (CAD).

BATM 3500 NATURAL RESOURCE SYSTEMS CONSERVATION (3) LLB. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680) and (PHYS 1500 or PHYS 1600). Natural resource conservation technologies including rainfall-runoff relationships, sediment transport capacity, runoff control structures, water supply development, surveying techniques including GPS methods.

BATM 3510 AGRICULTURAL POWER AND MACHINERY FUNDAMENTALS (3) LLB. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680) and (PHYS 1500 or PHYS 1600). Power unit fundamentals with emphasis on diesel and small gasoline engines; mechanics of operation, safety, use, and adjustment of machines used for horticultural and agronomic crop production; and precision agriculturr principles and technology.

BATM 3530 AGRICULTURAL PRODUCTION AND PROCESSING FACILITY TECHNOLOGY (3) LEC. 3. Pr. MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680. Fundamental requirements for the design and operation of agricultural production and processing facilities.

BATM 3560 TURF SYSTEMS IRRIGATION DESIGN (3) LEC. 3. Pr. MATH 1120 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680. Irrigation system design for turf-based systems including residential lawns, commercial properties, athletic fields, and golf courses. Irrigation scheduling and water demand are presented to provide management capabilities.

BATM 4100 PROFESSIONAL PRACTICE IN TECHNOLOGY MANAGEMENT (2) LEC. 1. LAB. 3. Pr. BATM 5110. First in the two-course capstone experience. This course focuses on professional topics that prepare students for technical careers; teamwork, communication, standards and codes, economics, project and time management. Teams initiate the capstone design project.

BATM 4110 TECHNOLOGY CAPSTONE (3) LEC. 1. LAB. 6. Pr. BATM 4100. Development and evaluation of a team-based capstone project using tools from the technology curriculum; emphasizing communication, critical thinking, and technical and economic analyses.

BATM 4960 SPECIAL PROBLEMS IN AGRICULTURAL TECHNOLOGY MANAGEMENT (3-6) IND. Departmental approval. Faculty supervision of individual student investigations of specialized problems in biological and agricultural technology management. May be repeated with change in problem. Course may be repeated for a maximum of 6 credit hours.

BATM 4970 SPECIAL TOPICS IN AGRICULTURAL TECHNOLOGY MANAGEMENT (3) LLB. Departmental approval. Investigation of current issues in biological and agricultural technology management. Course may be repeated for a maximum of 6 credit hours.

BATM 4980 UNDERGRADUATE RESEARCH (3) LLB. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 6 credit hours.

BATM 5110 AGRI-INDUSTRIAL ELECTRICAL APPLICATIONS (3) LEC. 2. LAB. 3. Pr. BATM 2110 and (PHYS 1500 or PHYS 1600). An introduction to the fundamentals of electricity and electrical systems used in agricultural and industrial applications. Electricity basics include safety, AC (single and three phase) and DC power. Selecting and sizing components include wiring conductors, safety devices, motors, other loads.

BATM 5120 AGRI-INDUSTRIAL ELECTRONICS AND CONTROLS (3) LEC. 2. LAB. 3. Pr. BATM 5110. An introduction to the fundamentals of electronic control systems used in agricultural and industrial production and processing applications. Electronic control system components include programmable logic controllers (PLCs), switches, relays, sensors, and ladder logic.

BATM 5130 PRECISION AG TECHNOLOGY (3) LEC. 2. LAB. 3. Pr. BATM 3510. An overview of the principles of precision agriculture with focus on prescriptive agriculture and the ability to effectively execute input management plans using today's technologies. Course material and discussions will include how technologies such as GPS, agricultural GIS, sensors for qualitative and quantitative measurement of soil and plant variables, variable-rate technology are being implement with data informing sub-field level management and subsequent farm business decisions.

BATM 5140 COMMERCIAL POULTRY & LIVESTOCK HOUSING (3) LEC. 2. LAB. 3. Pr. STAT 2510. An introduction to the basic design, operation, and maintenance of modern commercial animal housing systems. Emphasis will be placed on poultry and swine systems with elements of dairy and beef when applicable.

BATM 5150 DRONE TECHNOLOGIES IN AGRICULTURAL AND BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Pr. STAT 2510 and PHYS 1500. Drone or Unmanned Aerial Vehicles (UAV) technologies and the data generated from these systems are being utilized in agricultural, biological and natural resource systems. Topics will include UAV types, sensors and application systems for drones, sensor resolution and calibration, flight and mission planning techniques. Image and date collection techniques, analysis, interpretation and decision making, generation of prescriptive maps, and other emerging drone technologies.

BATM 5550 PRINCIPLES OF FOOD ENGINEERING TECHNOLOGY (4) LEC. 3. LAB. 3. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617) and (PHYS 1000 or PHYS 1003 or PHYS 1007 or PHYS 1500 or PHYS 1600 or PHYS 1607). Engineering concepts and unit operations used in processing food products. Fall.

BATM 6110 AGRI-INDUSTRIAL ELECTRICAL APPLICATIONS (3) LEC. 2. LAB. 3. Departmental approval. An introduction to the fundamentals of electricity and electrical systems used in agricultural and industrial applications. Electricity basics include safety, AC (single and three phase) and DC power. Selecting and sizing components include wiring conductors, safety devices, motors, other loads.

BATM 6120 AGRI-INDUSTRIAL ELECTRONICS AND CONTROLS (3) LEC. 2. LAB. 3. Pr. BATM 6110. An introduction to the fundamentals of electronic control systems used in agricultural and industrial production and processing applications. Electronic control system components include programmable logic controllers (PLCs), switches, relays, sensors, and ladder logic.

BATM 6130 PRECISION AG TECHNOLOGY (3) LEC. 2. LAB. 3. An overview of the principles of precision agriculture with focus on prescriptive agriculture and the ability to effectively execute input management plans using today's technologies. Course material and discussions will include how technologies such as GPS, agricultural GIS, sensors for qualitative and quantitative measurement of soil and plant variables, variable-rate technology are being implement with data informing sub-field level management and subsequent farm business decisions.

BATM 6140 COMMERCIAL POULTRY AND LIVESTOCK HOUSING (3) LEC. 2. LAB. 1. An introduction to the basic design, operation, and maintenance of modern commercial animal housing systems. Emphasis will be placed on poultry and swine systems with elements of dairy and beef when applicable.

BATM 6150 DRONE TECHNOLOGIES IN AGRICULTURAL AND BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Drone or Unmanned Aerial Vehicles (UAV) technologies and the data generated from these systems are being utilized in agricultural, biological and natural resource systems. Topics will include UAV types, sensors and application systems for drones, sensor resolution and calibration, flight and mission planning techniques. Image and date collection techniques, analysis, interpretation and decision making, generation of prescriptive maps, and other emerging drone technologies.

BATM 6550 PRINCIPLES OF FOOD ENGINEERING TECHNOLOGY (4) LEC. 3. LAB. 3. Pr. (MATH 1130 or MATH 1133) and (PHYS 1000 or PHYS 1003 or PHYS 1007). Engineering concepts and unit operations used in processing food products. Fall.

Crop, Soil, Environ Sciences Courses

CSES 1010 SOILS AND LIFE (4) LEC. 3. LAB. 2. Science Core. Practical applications of important soil properties and their function in everyday life. Connections between soils and human life will be made. topics include food security, sustainable agricultural production, soil and water quality, and waste disposal.

CSES 1020 CROPS AND LIFE (4) LEC. 3. LAB. 2. Science Core. Essential role of crop plants to human life. Topics will include historical development of crop science, impact of crop science on human development, and major issues and problems facing modern crop science and technology.

CSES 2000 BASIC CROP SCIENCE (4) LEC. 3. LAB. 2. Agronomic principles of classification, growth, structure, and soil-plant relationship of field crops, with emphasis on influence of man and environment, and importance of crop production.

CSES 2040 BASIC SOIL SCIENCE (4) LEC. 3. LAB. 2. Pr. (CHEM 1010 and CHEM 1011) or (CHEM 1030 and CHEM 1031) or (CHEM 1110 and CHEM 1111) or (CHEM 1117 and CHEM 1118) or (CHEM 1033 and CHEM 1031). Formation, classification, properties, management, fertility and conservation of soils in relation to the growth of plants. Fall, Spring.

CSES 2910 TURFGRASSES: USES AND CARE FOR SPORTS AND LEISURE (2) LEC. 2. Introduction to the commonly used turfgrasses of the southeastern United States including of these turfgrasses for gold courses, athletic fields and home lawns will be included. This course may not be substituted for CSES 3150.

CSES 3120 PRINCIPLES OF WEED SCIENCE (4) LEC. 3. Pr. CSES 2040 or AGRN 2040 and (BIOL 1020 or BIOL 1027). Weed identification and biology, methods of weed management and classification of herbicides and how they are used in weed control. Laboratory subjects are weed identification and sprayer calibration. Fall.

CSES 3150 TURFGRASS MANAGEMENT (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or AGRN 2040) and (BIOL 1020 or BIOL 1027). The management of recreational and home area turfgrass will be studied including establishment and maintenance of turf and the effect of light, traffic, soil fertility and water on its growth. Fall, Spring.

CSES 3200 APPLIED TURF MANAGEMENT (3) LEC. 1. LAB. 4. Pr. P/C CSES 3150 or AGRN 3150. Familiarize students with the operation and maintenance of the equipment used for turfgrass maintenance. Effects on turfgrass performance will also be covered.

CSES 3300 PLANT GENETICS AND CROP IMPROVEMENT (3) LEC. 3. Pr. (P/C CSES 2000) or (BIOL 1020). Principles related to mendelian, population, and molecular genetics of plants including inheritance of qualitative and quantitative traits, and plant transformation. Improvement of crop plants including heritability, role of environment, pedigree selection, recurrent selection, the backcross method, and marker-assisted selection. Fall

CSES 3400 SUSTAINABLE MANAGEMENT OF TROPICAL SOILS (3) LEC. 3. LAB. 0, AAB/LEC. 0. This course explores the unique characteristics of tropical soils, focusing on their genesis, and physical, chemical, and biological properties. Students will learn to apply sustainable management practices that enhance soil health and productivity in tropical environments. The course integrates scientific principles with practical approaches to address challenges in soil conservation and agricultural sustainability in tropical regions.

CSES 3920 INTERNSHIP (3) INT. 3. Practical experience under the the supervision of an approved employer and the department. Internship may be in the areas of production, business, turf or science. Course may be repeated for a maximum of 6 credit hours.

CSES 3960 SPECIAL PROBLEMS (2) LAB. 2. Departmental approval. Individual and group problems investigations in crop, soil or weed science. Course may be repeated for a maximum of 4 credit hours.

CSES 3970 SPECIAL TOPICS (3) AAB/ST1. 3. New topics in agronomy and soils. Course may be repeated for a maximum of 6 credit hours.

CSES 4100 CROPS JUDGING (2) LEC. 1. LAB. 2. Departmental approval. Crops Judging is a course designed to prepare students for the national Crops Judging contest held at the Students of Agronomy, Soils and Environmental Sciences annual meeting. Students will learn practical knowledge to diagnose in-field agronomic problems such as crop nutrient deficiencies, disease damage, insect damage, weed pressure, herbicide injury, and soil management issues. Students must participate in the Crops Judging Contest at the SASES meeting in the semester the class is taken. Course may be repeated for a maximum of 6 credit hours.

CSES 4200 SOIL JUDGING (2) LEC. 1. LAB. 4. Description, evaluation and interpretation of soil-profile characteristics. Fall. Course may be repeated for a maximum of 8 credit hours.

CSES 4210 ADVANCED SOIL JUDGING (2) LEC. 1. LAB. 2. Pr. CSES 4200 or AGRN 4200. Advanced description, evaluation, and interpretations of soil-profile characteristics. Spring. Course may be repeated for a maximum of 8 credit hours.

CSES 4300 TURFGRASS COMPETITIONS (2) LEC. 1. LAB. 2. Departmental approval. The class is a comprehensive overview of practical turfgrass management in preparation for student competitions organized by the Sports Field Managers Association 9SFMA Student Challenge)and the Golf Course Superintendents Association of America (Turf Bowl). Students will compete in one or both of these contests during the semester following successful completion of the course. Course may be repeated for a maximum of 6 credit hours.

CSES 4950 SENIOR SEMINAR (2) LEC. 2. This course will cover professional presentations, both oral and written, in the area of Agronomy and Soils.

CSES 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Course may be repeated for a maximum of 3 credit hours.

CSES 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

CSES 5000 ENVIRONMENTAL QUALITY (3) LEC. 3. Role of global land use in biogeochemical cycling of major elements and compounds of environmental concern; interactions of pollutants with soils and aquatic and atmospheric environments; methods to minimize or correct pollution; risk assessment.

CSES 5010 ANALYSIS OF PLANT, SOIL, AND ANIMAL DATA (3) LEC. 3. Pr. MATH 1130 or STAT 2510. Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc.

CSES 5020 NUTRIENT MANAGEMENT (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Lectures and problems illustrate principles of nutrient management as related to soil or growth media, plant, fertilizer practices, management systems and environment. Required for all students majoring in Agronomy and Soils. Spring.

CSES 5030 ADVANCED CROP SCIENCE (3) LEC. 3. Pr. (CSES 1000 or CSES 1003 or CSES 2000) or (AGRN 1000 or AGRN 1003 or AGRN 1007) or (AGRN 2040 or AGRN 2043) and (CSES 2040 or CSES 2043) and (BIOL 1030 or BIOL 1037). Application and integration of principles from undergraduate agricultural, biological and physical sciences courses in management of crop production systems. May count either CSES 5030.

CSES 5060 SOIL MICROBIOLOGY LECTURE (3) LEC. 3. Pr. BIOL 3200. Ecology, physiology, and biochemistry of soil microorganisms with emphasis on soil microbial processes that are important to environmental quality and soil productivity. Spring.

CSES 5061 SOIL MICROBIOLOGY LAB (1) LAB. 2. Pr. (P/C CSES 5060 or P/C CSES 5063) or (P/C AGRN 5060 or P/C AGRN 5063). Laboratory exercises illustrating ecology, physiology, and biochemistry of soil microorganisms. Credit will not be given for both CSES 5061 and CSES 6061. Spring.

CSES 5080 SOIL RESOURCES AND CONSERVATION (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Soils as a natural resource for land-use planning; their use and management for sustainable crop production, urban and industrial development and ecosystem protection. CSES 5080 Summer. CSES 5083 Fall.

CSES 5100 PLANT GENETICS AND CROP IMPROVEMENT (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Principles related to mendelian, population, and molecular genetics of plants including inheritance of qualitative and quantitative traits, and plant transformation. Improvement of crop plants including heritability, role of environment, pedigree selection, recurrent selection, the backcross method, and marker-assisted selection. Fall

CSES 5110 PLANT BREEDING I (3) LEC. 3. Pr. CSES 3300 or BIOL 3000 or BIOL 3003 or AGRI 3000. Fundamental principles and theories utilized in the science of plant breeding and cultivar development and the role breeding plays in crop improvement.

CSES 5120 PLANT BREEDING II (3) LEC. 3. Pr. CSES 5110. Review and contrast how major crop species breeding strategies are determined. Emphasis on integration of traditional methodologies with modern genetic and genomic technologies.

CSES 5150 SOIL MORPHOLOGY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Physical, chemical and mineralogical properties of soils are studied in relation to their distribution and classification for environmental, engineering and agricultural use and interpretations. Spring.

CSES 5160 ADVANCED TURFGRASS MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) or (AGRN 3150 or AGRN 3153). Factors affecting the turfgrass plant as a component of a dynamic community. Influence of soil chemical and physical conditions, management practices and climate are discussed. Theoretical and practical aspects of turfgrass management practices are discussed along with design and construction of golf courses and other athletic purpose turf areas.

CSES 5200 APPLIED WEED SCIENCE TECHNOLOGY (3) LEC. 2. LAB. 2. Pr. CSES 3120 or AGRN 3120. Advanced weed identification, pesticide application technology, identification of herbicide injury symptomology, and develop of interaction techniques and problem solving skills for dealing with potential herbicide efficacy problems. Course may be repeated for a maximum of 6 credit hours.

CSES 5230 DRONES FOR CROP PRODUCTION (3) LEC. 2. LAB. 2. Pr. (CSES 2000) and (CSES 2040). Use of drone technology for crop production including applications of pesticides and fertilizers, planting cover crops, and capturing remote imagery to monitor plant health and make crop management decisions. Department approval.

CSES 5240 CROP PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3100 or HORT 3000. Integrates principles of plant physiology, biochemistry, ecology, and genetics as they relate to plant growth and development and crop yield. The effect of management practices and abiotic stress on plant growth and development will be discussed. Credit will only be given for one of the following: CSES 5240 or CSES 6240.

CSES 5250 AQUATIC SEDIMENTS (4) LEC. 3. LAB. 1. An overview of sediments in aquatic environments with a focus on the biogeochemistry, storage capacity, and use in paleoenvironmental reconstruction.

CSES 5300 SOIL CHEMISTRY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). An introduction to the basic soil chemical properties of mineral composition, weathering, absorption, cation exchange, acidity, alkalinity, salinity and soil reactions with fertilizers, pesticides and heavy metals. Spring.

CSES 5400 BIOENERGY AND THE ENVIRONMENT (3) LEC. 3. The role of bioenergy in reducing environmental problems related to use of fossil fuels and certain agricultural practices, and in addressing declining rural economies.

CSES 5500 FORAGE PRODUCTION AND UTILIZATION (3) LEC. 3. Grass and legume forage crops. The crops are considered from the standpoint of (a) pasture crops, (b) hay and silage crops, (c) soil-improving crops. Spring. May count either CSES 5500 or CSES 5503.

CSES 5590 ENVIRONMENTAL SOIL PHYSICS AND VADOSE ZONE HYDROLOGY (4) LEC. 3. LAB. 2. Pr. CSES 2040. Explore the dynamic interplay of soil physical properties and vadose zone hydrology in this comprehensive environmental soil physics course. Delve into the intricate mechanisms governing the movement of water, chemicals, heat, and gases through soils within diverse ecosystems, including agricultural, urban, and natural landscapes. Uncover the complexities of the soil-plant-atmosphere continuum and gain hands-on experience with field instrumentation for precise measurement and assessment of soil physical properties.

CSES 5800 CLIMATE, WATER, AND LIFE (3) LEC. 3. LAB. 0. The course will introduce essential hydroclimate processes and phenomena, and their impacts on water resources, food and agriculture, and ecosystems. Major topics include climate variability and change, radiation, temperature, humidity, precipitation, land surface energy and water fluxes, their linkages with plants and humans, and climate hazards and resiliency.

CSES 5960 SPECIAL PROBLEMS (1-3) IND. Work under the direction of a staff member on special problems in crop, soil or weed science. Course may be repeated for a maximum of 6 credit hours.

CSES 6000 ENVIRONMENTAL QUALITY (3) LEC. 3. Role of global land use in bio-geochemical cycling of major elements and compounds of environmental concern; interactions of pollutants with soils and aquatic and atmospheric environments; methods to minimize or correct pollution; risk assessment.

CSES 6010 ANALY PLANT, SOIL & ANI DATA (3) LEC. 3. Pr. (MATH 1130 or MATH 1133) or (STAT 2510 or STAT 2513). Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc.

CSES 6020 NUTRIENT MANAGEMENT (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Lectures and problems illustrate principles of nutrient management as related to soil or growth media, plant, fertilizer practices, management systems and environment. Required for all students majoring in Agronomy and Soils. Spring.

CSES 6030 ADVANCED CROP SCIENCE (3) LEC. 3. Application and integration of principles from undergraduate agricultural, biological and physical sciences courses in management of crop production systems. May count either CSES 5030/CSES 6030 or CSES 5033/CSES 6036.

CSES 6060 SOIL MICROBIOLOGY LECTURE (3) LEC. 3. Ecology, physiology, and biochemistry of soil microorganisms with emphasis on soil microbial processes that are important to environmental quality and soil productivity. Spring.

CSES 6061 SOIL MICROBIOLOGY LAB (1) LAB. 2. Pr. (P/C CSES 6060 or P/C CSES 6066) or (P/C AGRN 6060 or P/C AGRN 6066). Laboratory exercises illustrating ecology, physiology, and biochemistry of soil microorganisms. Credit will not be given for both CSES 5061 and CSES 6061. Spring.

CSES 6080 SOIL RESOURCES AND CONSERVATION (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Soils as a natural resource for land-use planning; their use and management for sustainable crop production, urban and industrial development and ecosystem protection. CSES 6080 Summer. CSES 6086 Fall.

CSES 6110 PLANT BREEDING I (3) LEC. 3. Fundamental principles and theories utilized in the science of plant breeding and cultivar development and the role breeding plays in crop improvement.

CSES 6120 PLANT BREEDING II (3) LEC. 3. Pr. CSES 6110. Review and contrast how major crop species breeding strategies are determined. Emphasis on integration of traditional methodologies with modern genetic and genomic technologies.

CSES 6150 SOIL MORPHOLOGY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Physical, chemical and mineralogical properties of soils are studied in relation to their distribution and classification for environmental, engineering and agricultural use and interpretations. Spring.

CSES 6160 ADVANCED TURFGRASS MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) and (BIOL 3100 or BIOL 6130) or (AGRN 3150 or AGRN 3153). Factors affecting the turfgrass plant as a component of a dynamic community. Influence of soil chemical and physical conditions, management practices and climate are discussed. Theoretical and practical aspects of turfgrass management practices are discussed along with design and construction of golf courses and other athletic purpose turf areas.

CSES 6200 APPLIED WEED SCIENCE TECH (3) LEC. 2. LAB. 2. Advanced weed identification, pesticide application technology, identification of herbicide injury symptomology, and develop of interaction techniques and problem solving skills for dealing with potential herbicide efficacy problems. Course may be repeated for a maximum of 6 credit hours.

CSES 6230 DRONES FOR CROP PRODUCTION (3) LEC. 2. LAB. 2. Use of drone technology for crop production including applications of pesticides and fertilizers, planting cover crops, and capturing remote imagery to monitor plant health and make crop management decisions. Department approval for undergraduate version.

CSES 6240 CROP PHYSIOLOGY (3) LEC. 3. Integrates principles of plant physiology, biochemistry, ecology, and genetics as they relate to plant growth and development and crop yield. The effect of management practices and abiotic stress on plant growth and development will be discussed. Credit will only be given for one of the following: CSES 5240 or CSES 6240.

CSES 6250 AQUATIC SEDIMENTS (4) LEC. 3. LAB. 1. An overview of sediments in aquatic environments with a focus on the biogeochemistry, storage capacity, and use in paleoenviromental reconstruction.

CSES 6300 SOIL CHEMISTRY (4) LEC. 2. LAB. 4. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). An introduction to the basic soil chemical properties of mineral composition, weathering, absorption, cation exchange, acidity, alkalinity, salinity and soil reactions with fertilizers, pesticides and heavy metals. Spring.

CSES 6400 BIOENERGY AND THE ENVIRONMENT (3) LEC. 3. The role of bioenergy in reducing environmental problems related to use of fossil fuels and certain agricultural practices, and in addressing declining rural economies.

CSES 6500 FORAGE PRODUCTION AND UTILIZATION (3) LEC. 3. Pr., In major or departmental approval. Grass and legume forage crops. The crops are considered from the standpoint of (a) pasture crops, (b) hay and silage crops, (c) soil-improving crops and (d) energy crops. May count either CSES 6500 or CSES 6506.

CSES 6590 ENVIRONMENTAL SOIL PHYSICS AND VADOSE ZONE HYDROLOGY (4) LEC. 3. LAB. 2. Pr. CSES 2040. Explore the dynamic interplay of soil physical properties and vadose zone hydrology in this comprehensive environmental soil physics course. Delve into the intricate mechanisms governing the movement of water, chemicals, heat, and gases through soils within diverse ecosystems, including agricultural, urban, and natural landscapes. Uncover the complexities of the soil-plant-atmosphere continuum and gain hands-on experience with field instrumentation for precise measurement and assessment of soil physical properties.

CSES 6800 CLIMATE, WATER, AND LIFE (3) LEC. 3. The course will introduce essential hydroclimate processes and phenomena, and their impacts on water resources, food and agriculture, and ecosystems. Major topics include climate variability and change, radiation, temperature, humidity, precipitation, land surface energy and water fluxes, their linkages with plants and humans, and climate hazards and resiliency.

CSES 6900 DIRECTED STUDIES (1-3) DSL/LEC. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 6930 ADVANCED DIRECTED STUDIES (1-3) DSL/LEC. SU. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 6960 SPECIAL PROBLEMS (1-3) DSL/IND. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 7080 EXPERIMENTAL METHODS (3) LEC. 3. Pr. STAT 7000. Experimentation in the agricultural sciences including experimental techniques, interpretation of research data, use of library references, and preparation of publications. Problems, assigned readings and lectures. Summer.

CSES 7100 AGINFORMATICS: COMPUTATIONAL THINKING FOR AGRICULTURE (3) LEC. 2. LAB. 2. Computer programming for applied sciences. Focus on the Python programming language and utilization of the Unix command line. Python programming from basics of control structures to object-oriented programming. Course will cover script development using integrated development environments and accessing data via APIs. Course will cover the command line interface and introduction to Bash scripting.

CSES 7120 PLANT GENOMICS (3) LLB. Hands-on bioinformatics of complex plant genomes, including assembly and annotation. Writing- and bioinformatics-intensive course that culminates in a plant genome manuscript. Fall.

CSES 7140 CHEMISTRY AND USE OF HERBICIDES IN CROP PRODUCTION (4) LEC. 3. LAB. 2. Pr. CHEM 1040. Principles and use of herbicides in agronomic crops. Methods of herbicide application, including time, incorporation and formulation, the fate of herbicides in soil and the ecological impact on succeeding plant species. Fall.

CSES 7160 GENETIC DATA ANALYSIS (3) LEC. 3. Pr. (CSES 5100 or CSES 5103) or (CSES 6100 or CSES 6106) and STAT 4020 or (AGRN 5100 or AGRN 5103) or (AGRN 6100 or AGRN 6106). Introduces procedures to study the genetic characteristics of individuals and populations. Computer models will be used to simulate genomes and traits. Application of quantitative methods to experimental populations used to plan breeding programs. Fall.

CSES 7170 ADVANCED PLANT BREEDING (3) LEC. 3. Pr. CSES 7160 or (AGRN 7160 or AGRN 7166). Estimation and interpretation of genetic variance components, heritability, selection response, yield stability indices and their effect on choice of breeding method. Recurrent selection theory and breeding for resistance to plant stresses.

CSES 7180 SUSTAINABLE AGROECOLOGY (3) LEC. 3. Pr. (BIOL 6130 or CSES 7250) or (AGRN 7250 or AGRN 7256) and (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). The study of interactions between crops and abiotic and biotic environments. Emphasis is placed on quantitatively examining theory and principles for production, stability and sustainability of agricultural ecosystems. Graduate standing in CSES or departmental approval

CSES 7200 WEED BIOLOGY AND ECOLOGY (4) LEC. 3. LAB. 2. Students will learn a broader understanding of and appreciation for the biology and bionomics of agricultural weeds and invasive species, relevant analytical tools, and the application of ecological concepts for sustainable weed management in agricultural and natural systems.

CSES 7270 QUANTITATIVE GENETICS IN PLANT BREEDING (3) LEC. 3. Quantitative and population plant genetics and their interrelationship with plant breeding. Genetic and environmental variation and how they relate to selection procedures and choice of type of variety. Predictive plant breeding. QTL discovery, molecular breeding, and genomic selection in an applied breeding program.

CSES 7540 PRINCIPLES OF PLANT NUTRITION (3) LEC. 3. Pr. CSES 6020 or CSES 6026 or (AGRN 6020 or AGRN 6026). Processes of nutrient flux to plant roots growing in soil. Chemistry and properties of soil in relation to the nutrition and growth of plants. Summer.

CSES 7600 AGROCLIMATOLOGY (3) LEC. 3. The relationships between climatological processes and agriculture, including precipitation, evapotranspiration, meteorological hazards, irrigation and drainage, crop development, climate data acquisition and analysis, crop-weather models, and impacts of global climate change. May count either CSES 7600 pr CSES 7606.

CSES 7670 SPECIAL TOPICS (1-4) DSL/LEC. Advanced topics related to Crop, Soil and Environmental Sciences. Course may be repeated for a maximum of 8 credit hours.

CSES 7800 DEEP LEARNING FOR ENVIRONMENTAL SCIENCES (3) LEC. 2. LAB. 2. The course will cover concepts and applications of deep learning for environmental sciences. The goal is to understand the concepts and applications of deep learning methods in environmental sciences, formulate relevant environmental, climate, and earth system science problems, and how to use these methods for understanding and developing creative solutions to these problems.

CSES 7950 SEMINAR (1) DSL/SEM. 1. SU. Required of all graduate students in Agronomy and Soils. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

CSES 7970 SPECIAL TOPICS (1-4) LEC. 1-4, LAB. 1-4. Advanced topics related to Crop, Soil and Environmental Sciences. Course may be repeated for a maximum of 8 credit hours.

CSES 7990 RESEARCH AND THESIS (1-10) DSL/MST. Research and thesis on problems in the soil and crop sciences. Course may be repeated with change in topics.

CSES 8570 PHYSICAL SOIL CHEMISTRY (3) LEC. 3. Pr. (CSES 6300 or CSES 6306) and CHEM 6070 or (AGRN 6300 or AGRN 6306). Interpretation of soil properties and chemical reactions in terms of ion exchange, solubility diagrams, solutions equilibria, electrochemistry and electrokinetics of charged particles. Fall.

CSES 8580 FATE AND TRANSPORT OF CHEMICALS IN SOILS (3) LEC. 3. Pr. MATH 1720 and (PHYS 1600 or PHYS 1607) and CSES 7590. Transport phenomena in soils. Physical principles and analysis of the storage and movement of water, solutes, heat, and gases in soils. Spring.

CSES 8990 RESEARCH AND DISSERTATION (1-10) DSR. Research and dissertation on problems in the soil and crop sciences. Course may be repeated with change in topics.

Entomology Courses

ENTM 2000 PESTS, PATHOGENS, PARASITES, AND PEOPLE (3) LEC. 3. Past and present problems of pests and disease involving humans and the food chain.

ENTM 2040 INSECTS: AN INTRODUCTION TO ENTOMOLOGY (3) LEC. 3. Life processes, importance, and occurrence of insects.

ENTM 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH (1-4) IND/RES. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ENTM 3040 GENERAL ENTOMOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Introduction to the biology and diversity of insects. An insect collection is required.

ENTM 4020 ECONOMIC ENTOMOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Consideration of the biological aspects, life histories and control of insects.

ENTM 4920 ENTOMOLOGY INTERNSHIP (5) INT. 5. SU. Practical professional experience under the supervision of internship faculty and/or representatives of state, federal or private agency.

ENTM 4960 SPECIAL PROBLEMS IN ENTOMOLOGY (1-3) IND. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in entomology to be conducted under faculty supervision. Course may be repeated for a maximum of 3 credit hours.

ENTM 4980 UNDERGRADUATE RESEARCH (1-4) LAB. 2-8. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ENTM 5120 MEDICAL-VETERINARY ENTOMOLOGY (4) LEC. 3. LAB. 1. Pr. (BIOL 1030 or BIOL 1037) and (ENTM 3040 or ENTM 4020). Survey of insects, ticks, and mites of medical or veterinary importance, emphasizing role as vectors of disease agents and the biology of pathogen-transmission cycles. Labs focus on methods of vector sampling and surveillance, identification, and case studies of special topics. May count either ENTM 5120 or ENTM 6120.

ENTM 5220 INSECT ECOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3060. Ecological interactions of insects and their environment, with emphasis on is herbivory, predation, parasitism and mutualism, as well as population and community dynamics.

ENTM 5300 INSECT DIVERSITY (4) LEC. 3. LAB. 1. Pr. ENTM 3040 or ENTM 4020. Survey of the biodiversity of insects, stressing taxon diagnostics.

ENTM 5330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

ENTM 5360 LANDSCAPE ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1020 or BIOL 1027) or (BIOL 1030 or BIOL 1037). Identification and management of arthropod pests in the landscape. Recognition of pests and damage to trees, turf and ornamental plants.

ENTM 5370 URBAN ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040 or ENTM 4020. Identification, biology and control of insect and other household arthropod pests.

ENTM 5500 BEE BIOLOGY AND MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Biology and management of bees, with an emphasis on honey bees and beekeeping. May count either ENTM 5500 or ENTM 6500.

ENTM 5660 FIGURE FUNDAMENTALS : SCIENTIFIC ILLUSTRATION (3) LEC/STU. 1. Scientific illustration and data visualization implemented through the Adobe creative cloud package. May count either ENTM 5660, APBT 5660, or ENTM 6660.

ENTM 5700 VECTOR ENTOMOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

ENTM 5820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Pr. STAT 2510. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

ENTM 5920 INTERNSHIP (3) IND. 3. SU. Departmental approval. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

ENTM 6120 MEDICAL-VETERINARY ENTOMOLOGY (4) LEC. 3. LAB. 3. Survey of insects, ticks, and mites of veterinary importance, emphasizing role as vectors of disease agents and the biology of pathogen-transmission cycles. Labs focus on methods of vector sampling and surveillance, identification, and case studies of special topics. May count either ENTM 5120 or ENTM 6120.

ENTM 6220 INSECT ECOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3060. Departmental approval. Ecological interactions of insects and their environment, with emphasis on herbivory, predation, parasitism and mutualism, as well as population and community dynamics.

ENTM 6300 INSECT DIVERSITY (4) LEC. 3. LAB. 1. Pr. ENTM 3040 or ENTM 4020. Survey of the biodiversity of insects, stressing taxon diagnostics.

ENTM 6330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

ENTM 6360 LANDSCAPE ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1020 or BIOL 1027) or (BIOL 1030 or BIOL 1037). Identification and management of arthropod pests in the landscape. Recognition of pests and damage to trees, turf and ornamental plants.

ENTM 6370 URBAN ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040 or ENTM 4020. Identification, biology and control of insect and other household arthropod pests.

ENTM 6440 INSECT MORPHOLOGY (5) LEC. 3. LAB. 6. Pr. ENTM 3040 or ENTM 4020. Departmental approval. Comparative external anatomy and generalized internal structures of insects. Characteristics used in taxonomy will be emphasized. Credit will not be given for both ENTM 5440 and ENTM 6440.

ENTM 6500 BEE BIOLOGY AND MANAGEMENT (3) LEC. 2. LAB. 2. Biology and management of bees, with an emphasis on honey bees and beekeeping. May count either ENTM 5500 or ENTM 6500.

ENTM 6660 FIGURE FUNDAMENTALS : SCIENTIFIC ILLUSTRATION (3) LEC. 2, LST. 1. Scientific illustration and data visualization implemented through the Adobe creative cloud package. May take either ENTM 5660, APBT 5660, or ENTM 6660.

ENTM 6700 VECTOR ENTOMOLOGY (3) LEC. 3. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

ENTM 6820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

ENTM 6920 INTERNSHIP (3) IND. 3. SU. Departmental approval. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

ENTM 7100 GENERAL TOXICOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040 and CHEM 2030. Departmental approval. History, mechanism of action, metabolism, and structure activity relationship of natural and synthetic insecticides. Contemporary laboratory techniques in toxicology will be featured.

ENTM 7200 INSECT PHYSIOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040. Departmental approval. Introduction to insect physiology stressing structure and function of each organ system. Methods used in physiological research will be emphasized.

ENTM 7230 PRACTICAL EVOLUTION (3) LEC. 3. Pr. BIOL 5800 or BIOL 6800. Students will learn evolutionary biology by making it happen, that is, by building and running simulation models. They will also learn of opportunities to apply evolutionary theory to practical problems in agriculture, public health and conservation.

ENTM 7900 DIRECTED STUDIES IN ENTOMOLOGY I (1-5) LEC. SU. Discussion groups on specific topics, assigned readings, on laboratory problems or field research. Course may be repeated for a maximum of 5 credit hours.

ENTM 7950 SEMINAR (1) SEM. 1. SU. Presentation and discussion of scientific literature of thesis research findings. Required of all M.S. candidates.

ENTM 7960 SPECIAL PROBLEMS IN ENTOMOLOGY (1-4) LAB. 2-8. Departmental approval. Specialized project or research on a specific topic in entomology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

ENTM 7990 RESEARCH AND THESIS (1-10) MST. Topics may focus on technical laboratory problems or field research related to arthropod biology. Admission to the M.S. Program. Course may be repeated with change in topics.

ENTM 8900 DIRECTED STUDIES IN ENTOMOLOGY II (5) LEC. 5. Discussion groups on specific topics, assigned reading on laboratory problems or field research.

ENTM 8910 TEACHING PRACTICUM (1) LAB. 2. SU. Departmental approval. Practical and theoretical issues of laboratory learning, and pedagogical facilitation. Required of all PhD students. Course may be repeated for a maximum of 3 credit hours.

ENTM 8930 JOURNAL REVIEW FOR ENTOMOLOGY AND PLANT PATHOLOGY (1) LEC. 1. Pr. ENTM 3040 and ENTM 4020 or (PLPA 3000 or PLPA 3003). Discussion of recent scientific publications on basic aspects of research in entomology and plant pathology. Course may be repeated for a maximum of 3 credit hours.

ENTM 8950 SEMINAR (1) LEC. 1. SU. Presentation and discussion of scientific literature or dissertation research findings. Required of all Ph.D. students.

ENTM 8960 ADVANCED SPECIAL PROBLEMS IN ENTOMOLOGY (1-4) LAB. 2-8. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in entomology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

ENTM 8990 RESEARCH AND DISSERTATION (1-10) DSR. Admission to the Ph.D. Program. Course may be repeated with change in topics.

Environmental Science Courses

ENVI 1010 INTRODUCTION TO ENVIRONMENTAL SCIENCE (1) LEC. 1. Introduction to the environmental science field and the ENVI major. Course may be repeated for a maximum of 3 credit hours.

ENVI 1020 FUNDAMENTALS OF ENVIRONMENTAL SCIENCE (3) LEC. 3. Preference given to students for whom the course is required. Survey of fundamental concepts, issues, and concerns related to environmental science.

ENVI 1030 ENVIRONMENT AND LIFE (4) LEC. 3. LAB. 3. This course is a lecture/lab course integrating principals of basic science with the impacts of humans on the environment. Topics will include population dynamics, land use change, energy, pollution, water availability, climate, human-environment interactions, biodiversity environmental policy, and sustainability. The laboratory component of the class will challenge students to observe phenomena in the world around them, construct and test hypotheses, and draw conclusions on the management and solutions to environmental problems in the world today.

ENVI 3000 INTRODUCTION TO STREAM RESTORATION (4) LEC. 2. LAB. 4. Introduction to concepts necessary for stream restoration design, construction, and maintenance and how they relate to the physical, chemical and biological processes of streams. Students will participate in research associated with stream restoration by assessing steam stability and classifying streams.

ENVI 4000 ENVIRONMENTAL REGULATION AND MANAGEMENT APPLICATIONS (3) LEC. 3. Pr. ENVI 1010 and ENVI 1020. This course provides an introduction to and overview of how municipal, state and federal regulations and programs are used in environmental management. The spectrum and development of environmental requirements, responsibilities, and direct applications as to the release of pollutants to air, soil and water are explored.

ENVI 4950 ENVIRONMENTAL SCIENCE SENIOR SEMINAR (2) LEC. 2. Pr. (ENGL 1120 or ENGL 1127) and ENVI 1010 and ENVI 1020. Departmental approval. This course will cover oral and written professional presentations, assessment of students in the ENVI major via standardized testing, and student assessment via exit surveys.

ENVI 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ENVI 5100 CLIMATE CHANGE IMPACTS (3) LEC. 3. An overview of climate change for the non-climate scientist, how climate change affects global environments (forests, oceans, lakes, coasts, agriculture) in recent time periods and how historic records are used to study past climate change impacts.

ENVI 5200 ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING IN ENVIRONMENTAL SCIENCE (4) LEC. 3. LAB. 2, LLB. 0. Pr. (STAT 2510 or STAT 2513) and (MATH 1610 or MATH 1613 or MATH 1617). This course introduces environmental science students to the basics of artificial intelligence (AI) and machine learning (ML) and their applications in environmental science. Students will learn how to use AI/ML tools to analyze large and complex environmental data sets, make predictions, and identify patterns that are not visible to the naked eye. Students will become familiar with the potential and limitations of AI/ML in environmental science and what ethical considerations should be made.

ENVI 6100 CLIMATE CHANGE IMPACTS (3) LEC. 3. An overview of climate change for the non-climate scientist, how climate change affects global environments (forests, oceans, lakes, coasts, agriculture) in recent time periods and how historic records are used to study past climate change impacts.

ENVI 6200 ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING IN ENVIRONMENTAL SCIENCE (4) LEC. 3. LAB. 2. This course introduces environmental science students to the basics of artificial intelligence (AI) and machine learning (ML) and their applications in environmental science. Students will learn how to use AI/ML tools to analyze large and complex environmental data sets, make predictions, and identify patterns that are not visible to the naked eye. Students will become familiar with the potential and limitations of AI/ML in environmental science and what ethical considerations should be made.

Fisheries Allied Aqua Courses

FISH 1100 FISHERIES ORIENTATION (1) LEC. 1. SU. An introduction to the departmental programs and personnel and how to make the most of a future in fisheries.

FISH 1110 DIMENSIONS OF FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (1) LEC. 1. Consideration of various aspects of fisheries, aquaculture, and aquatic sciences work, career options as related to individual interests, and career planning. Overview of the different research and extension areas of the School.

FISH 2000 GENERAL BIOLOGY OF FISHES AND AQUATIC ORGANISMS (1) LEC. 1. To introduce students to the anatomy and physiology of fishes, crustaceans, and mollusks to better prepare them to take advanced courses in the School of Fisheries, Aquaculture & Aquatic Sciences.

FISH 2020 GLOBAL AND REGIONAL PERSPECTIVES IN FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (2) LEC. 2. Overview of historical, biological, ecological, and social aspects of fisheries, aquaculture, and aquatic sciences, including the importance of water, biodiversity, fisheries management, and aquaculture, as well as how to determine reliability of sources, impacts of aquaculture, aquatic organism life cycles, and threatened and endangered species.

FISH 3950 CAREERS IN FISHERIES (1) LEC. 1. SU. Pr. FISH 2100. Consideration of various aspects of fisheries work, career options as related to individual interests, and career planning or departmental approval. Fall.

FISH 4100 INTRODUCTION TO FISHERIES SCIENCES (3) LEC. 2. LAB. 3. Departmental approval. Hands-on field activities and site visits related to aquatic ecology, fisheries biology, and aquaculture.

FISH 4900 DIRECTED STUDIES IN FISHERIES (1-4) IND. SU. Individualized in depth study on a particular subject under the guidance of a professor. May include directed reading and research. Course may be repeated for a maximum of 4 credit hours.

FISH 4920 INTERNSHIP (1-5) INT. SU. Departmental approval. Discipline-related learning while employed with cooperating private industry or public agency. Course may be repeated for a maximum of 5 credit hours.

FISH 4960 SPECIAL PROBLEMS (1-4) LEC. Departmental approval. Individual and group problems investigations in fisheries and allied aquacultures. Course may be repeated for a maximum of 4 credit hours.

FISH 4967 HONORS SPECIAL PROBLEMS (1-4) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 4 credit hours.

FISH 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

FISH 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

FISH 5210 PRINCIPLES OF AQUACULTURE (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Principles underlying aquatic productivity and levels of management as demonstrated by present practices of aquaculture around the world.

FISH 5215 MARINE AQUACULTURE (2) LEC. 1. LAB. 2. Departmental approval. Introduction to culture of marine species with emphasis in nutrition and feeding, reproductive biology, production techniques, processing, marketing and economics. Taught at the Dauphin Island Sea Lab.

FISH 5220 WATER SCIENCE (3) LEC. 3. Pr. CHEM 1040. Properties of water, the water cycle, basic water chemistry and water quality with emphasis on water in managed ecosystems.

FISH 5230 CONSERVATION ECOLOGY OF FRESHWATER INVERTEBRATES (4) LEC. 3. LAB. 1. Foundational knowledge, ecological theory, and illustrative case-studies on conservation issues and solutions for freshwater invertebrates.

FISH 5240 HATCHERY MANAGEMENT (4) LEC. 2. LAB. 8. Pr. FISH 5210 or FISH 6210. Study of warm-water hatchery techniques and application of those techniques in the field.

FISH 5245 SHELLFISH AQUACULTURE IN THE GULF OF MEXICO (2) FLD. 40. One year of college-level Biology or departmental consent. Overview of the various types of shellfish aquaculture practiced in the Gulf of Mexico, and an understanding of the implications for both for public stock enhancement and private production. Taught at Dauphin Island Sea Lab. May count either FISH 5245 or FISH 6245.

FISH 5250 AQUACULTURE PRODUCTION (4) LEC. 3. LAB. 4. Pr. FISH 5210. Factors affecting growth and yield of aquacultural species, with implications toward farming commonly cultured species. Production techniques for commercially important finfish are discussed.

FISH 5320 LIMNOLOGY (3) LEC. 3. Pr. CHEM 1040 and (BIOL 1030 or BIOL 1037). Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of freshwater communities.

FISH 5321 LIMNOLOGY LABORATORY (1) LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and CHEM 1040 and (P/C FISH 5320 or P/C FISH 6320). Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of aquatic communities. May count either FISH 5321 or FISH 6321.

FISH 5380 GENERAL ICHTHYOLOGY (4) LEC. 3. LAB. 6. Pr. BIOL 1030 or BIOL 1037. Survey of the biodiversity of world and local fishes, with an overview of ecology, behavior, biology and conservation of fishes.

FISH 5410 INTRODUCTION TO FISH HEALTH (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Introduction to parasitic, bacterial and viral pathogens of wild and cultured finfish and shellfish.

FISH 5440 FISH ANATOMY AND PHYSIOLOGY (4) LEC. 3. LAB. 4. Gross and microscopic fish anatomy.

FISH 5510 FISHERIES BIOLOGY AND MANAGEMENT (4) LEC. 3. LAB. 4. Pr. BIOL 1030 or BIOL 1037. This course provides a general overview and introduction to fisheries management with emphasis on freshwater examples. The laboratory will provide hands-on field experience. Credit will not be given for both FISH 5510 and FISH 6510.

FISH 5520 SMALL IMPOUNDMENT MANAGEMENT (3) LEC. 5. LAB. 10. Pr. BIOL 1030 or BIOL 1037. Major aspects of primarily recreational fishing pond management, including construction, stocking, water quality management, harvest strategy, diagnosis of problems and communication of analyses.

FISH 5630 FACILITIES FOR AQUACULTURE (3) LEC. 2. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and CHEM 1040. Principles and practice of site selection, design and construction of aquacultural facilities, with emphasis on impoundments and ponds.

FISH 5670 FISHERIES AND AQUACULTURES EXTENSION METHODS (2) LEC. 2. Pr. BIOL 1030 or BIOL 1037 and CHEM 1040. Concepts and practices pertaining to aquacultural extension organization, administration, program development and implementation.

FISH 5710 AQUATIC MICROBIOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Departmental approval. Overview of the diversity, genetics, physiology, and ecology of aquatic microorganisms, with an emphasis on bacteria, archaea and viruses.

FISH 5725 MARINE ICHTHYOLOGY (6) LEC. 6. Pr. BIOL 3060. Departmental approval. General background in the biology of marine fishes and their taxonomy. Offered only at the Gulf Coast Research Laboratory, Ocean Springs, MS. Summer. Admission to the Gulf Coast Research Laboratory.

FISH 5970 TOPICS IN FISHERIES AND ALLIED AQUACULTURES (1-4) LEC. Instruction and discussion in a selected current topic in Fisheries, Aquaculture or Aquatic Sciences. Course may be repeated for a maximum of 4 credit hours.

FISH 6210 PRINCIPLES OF AQUACULTURE (3) LEC. 3. Graduate level standing in FISH or departmental approval. Principles underlying aquatic productivity and levels of management as demonstrated by present practices of aquaculture around the world.

FISH 6215 MARINE AQUACULTURE (2) LEC. 1. LAB. 2. Departmental approval. Introduction to culture of marine species with emphasis in nutrition and feeding, reproductive biology, production techniques, processing, marketing and economics. Taught at the Dauphin Island Sea Lab.

FISH 6220 WATER SCIENCE (3) LEC. 3. Properties of water, the water cycle, basic water chemistry and water quality with emphasis on water in managed ecosystems.

FISH 6230 CONSERVATION ECOLOGY OF FRESHWATER INVERTEBRATES (4) LEC. 3. LAB. 1. Foundational knowledge, ecological theory, and illustrative case-studies on conservation issues and solutions for freshwater invertebrates.

FISH 6240 HATCHERY MANAGEMENT (4) LEC. 4. Study of warm-water hatchery techniques and application of those techniques in the field.

FISH 6245 SHELLFISH AQUACULTURE IN THE GULF OF MEXICO (2) FLD. 40. This course will provide students with an overview of the various types of shellfish aquaculture practiced in the Gulf of Mexico, and an understanding of the implications for both for public stock enhancement and private production. Taught at Dauphin Island Sea Lab. May count either FISH 5245 or FISH 6245.

FISH 6250 AQUACULTURE PRODUCTION (4) LEC. 4. Factors affecting growth and yield of aquacultural species, with implications toward farming commonly cultured species. Production techniques for commercially important finfish are discussed.

FISH 6320 LIMNOLOGY (3) LEC. 3. Graduate level standing in FISH or departmental approval. Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of freshwater communities.

FISH 6321 LIMNOLOGY LABORATORY (1) LAB. 4. Pr. (P/C FISH 5320 or P/C FISH 6320). Graduate level standing in FISH or departmental approval. Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of aquatic communities. May count either FISH 5321 or FISH 6321.

FISH 6380 GENERAL ICHTHYOLOGY (4) LEC. 3. LAB. 6. Graduate level standing in FISH or departmental approval. Survey of the biodiversity of world and local fishes, with an overview of ecology, behavior, biology and conservation of fishes.

FISH 6410 INTRODUCTION TO FISH HEALTH (3) LEC. 3. Introduction to parasitic, bacterial and viral pathogens of wild and cultured finfish and shellfish.

FISH 6425 MARINE FISH DISEASES (4) LEC. 4. Introduction to diseases of marine finfish and shellfish and practical techniques used to isolate and identify diseases.

FISH 6440 FISH ANATOMY AND PHYSIOLOGY (4) LEC. 4. Gross and microscopic fish anatomy.

FISH 6510 FISHERIES BIOLOGY AND MANAGEMENT (4) LEC. 4. This course provides a general overview and introduction to fisheries management with emphasis on freshwater examples. The laboratory will provide hands-on field experience. Credit will not be given for both FISH 5510 and FISH 6510.

FISH 6520 SMALL IMPOUNDMENT MANAGEMENT (3) LEC. 3. Major aspects of primarily recreational fishing pond management, including construction, stocking, water quality management, harvest strategy, diagnosis of problems and communication of analyses.

FISH 6630 FACILITIES FOR AQUACULTURE (3) LEC. 2. LAB. 4. Principles and practice of site selection, design and construction of aquacultural facilities, with emphasis on impoundments and ponds. Odd years.

FISH 6650 FISH AND SEAFOOD PROCESSING TECHNOLOGY (3) LEC. 3. Graduate level standing in FISH or departmental approval. Emphasis on important species, market forms, preservation techniques, and rules and regulations of the seafood industry.

FISH 6670 FISHERIES AND AQUACULTURE EXTENSION METHODS (2) LEC. 2. Concepts and practices pertaining to aquacultural extension organization, administration, program development and implementation.

FISH 6710 AQUATIC MICROBIOLOGY (3) LEC. 3. Overview of the diversity, genetics, physiology, and ecology of aquatic microorganisms, with an emphasis on bacteria, archaea and viruses.

FISH 6725 MARINE ICHTHYOLOGY (6) LEC. 6. General background in the biology of marine fishes and their taxonomy.

FISH 6970 TOPICS IN FISHERIES AND ALLIED AQUACULTURES (1-4) LEC. Instruction and discussion in a selected current topic in Fisheries, Aquaculture or Aquatic Sciences.

FISH 7100 ADVANCED PARASITE TAXONOMY (6) LEC. 2. LAB. 16. Departmental approval. This is a lab-based course for practicing parasitologists. The course instructs students on how to describe a metazoan parasite species.

FISH 7200 MARINE PARASITOLOGY (6) LEC. 2. LAB. 16. Departmental approval. This is an intensive lab-based course for marine parasitologists. Students will collect and identify marine/estuarine parasites of aquatic animals.

FISH 7230 WATER AND SEDIMENT QUALITY MANAGEMENT IN AQUACULTURE (4) LEC. 3. LAB. 3. Pr. FISH 6220. Departmental approval. Advanced treatment of water and sediment quality management in aquaculture. Analytical methods for soil and water quality.

FISH 7240 RESOURCE USE AND ENVIRONMENTAL ISSUES IN AQUACULTURE (2) LEC. 2. Resource use, environmental effects, and sustainability of aquaculture with emphasis on approaches to improving efficiency and reducing negative environmental effects.

FISH 7270 CRUSTACEAN AND MOLLUSCAN AQUACULTURE (4) LEC. 3. LAB. 3. Departmental approval. General biology and culture techniques of the major shrimp, crawfish and shellfish species cultured throughout the world.

FISH 7300 PATHOLOGY OF AQUATIC ORGANISMS (6) LEC. 2. LAB. 16. Departmental approval. Students gain appreciation for histopathological techniques and recognize basic pathological changes to tissues in aquatic organisms.

FISH 7330 RESERVOIR LIMNOLOGY (3) LEC. 2. LAB. 5. Departmental approval. Consideration of the ecological characteristics of reservoirs as they relate to modern concepts of ecosystem management. Even years.

FISH 7340 FISH ECOLOGY (3) LEC. 2. LAB. 3. Graduate level standing in FISH or departmental approval. Study of interactions among fish and their environment. Laboratory will emphasize critical literature reading and experimental approaches.

FISH 7350 META-ANALYSIS (3) LEC. 3. Meta-analysis is a quantitative approach for synthesizing results from diverse research studies (ecology, psychology, medicine, and education) that address a similar hypothesis. Effect sizes calculated from individual studies are combined to elucidate general patterns across studies.

FISH 7360 MANAGEMENT OF AQUATIC FLORA IN FISHERIES AND AQUACULTURE (4) LEC. 3. LAB. 6. Graduate level standing in FISH or departmental approval. Role of aquatic vegetation in fish production, its utilization and control.

FISH 7380 ECOLOGY AND MANAGEMENT OF RIVERINE SYSTEMS (4) LEC. 3. LAB. 3. River systems within a landscape ecology and ecosystem management context. Laboratory sessions stress techniques for assessment and management. Even years.

FISH 7410 MOLECULAR DIAGNOSIS: PRINCIPLES AND APPLICATIONS (3) LEC. 3. Introduction to molecular biology techniques currently used in disease diagnosis.

FISH 7420 FISH DISEASES (3) LEC. 3. Pr. BIOL 3200. Viral, bacterial, fungal and parasitic diseases of fishes, including etiologic agents, geographical ranges, species susceptibility, clinical signs, clinical pathology, epidemiology and management.

FISH 7450 FISH PATHOLOGY (3) LEC. 2. LAB. 3. Departmental approval. Morphological and physiological changes in fish with infectious or non-infectious diseases. Even years.

FISH 7460 CLINICAL FISH DISEASE DIAGNOSIS (1-3) DSL/LEC. Pr. FISH 6410 or FISH 7420. Practical experience in necropsy of diseased fish. Identification of causative agents and prescription of appropriate disease control.

FISH 7530 FISH POPULATION DYNAMICS (3) LEC. 2. LAB. 4. Departmental approval. Derivation of fish population estimates, growth, recruitment and mortality; use of modeling techniques to assess exploited fish populations. Even years.

FISH 7540 QUANTITATIVE TECHNIQUES IN FISHERY ASSESSMENT (3) LEC. 2. LAB. 4. Departmental approval. Quantitative techniques to assess and manage fish populations in freshwater. The laboratory will analyze actual fisheries data using SAS on personal computers. Odd years.

FISH 7640 FISH NUTRITION (3) LEC. 3. Fundamental and applied aspects of fish nutrition, including nutrient requirements, physiology of food assimilation, feed preparation, and practical feeding.

FISH 7650 TRADITIONAL APPROACHES TO FISH GENETIC ENHANCEMENT (2) LEC. 2. Graduate level standing in FISH or departmental approval. This course is intended to teach the philosophy of fish, shellfish and crustacean genetics, selective breeding, genetic management and inheritance.

FISH 7660 MOLECULAR GENETICS AND BIOTECHNOLOGY (4) LEC. 3. LAB. 3. Graduate level standing in FISH or departmental approval. Principles and application of DNA fingerprinting technologies, gene mapping, genetic information and analysis using internet tools, transgenic technologies.

FISH 7715 ADVANCED MARINE ECOLOGY (2) LEC. 2. Departmental approval. Mechanisms that control distribution of plants and animals at scales ranging from individual organism to ecosystem

FISH 7725 MARINE BIOGEOCHEMICAL PROCESSES (2) LEC. 2. Departmental approval. Marine biogeochemical cycling of carbon, nitrogen, sulfur, phosphorus and metals, with emphasis on estuarine systems.

FISH 7750 BIOTECHNOLOGICAL APPROACHES TO FISH GENETICS (2) LEC. 2. Pr. FISH 7650. Departmental approval. This course is intended to teach the philosophy of fish, shellfish and crustacean genetics, genetic management genetic engineering, genomic manipulation and genetic biotechnology.

FISH 7785 PHYSICAL OCEANOGRAPHY (4) LEC. 4. Departmental approval. Describes observed physical setting of the marine environment, and qualitatively explains how and why observed physical phenomena occur.

FISH 7800 PRINCIPLES OF ECOTOXICOLOGY (3) LEC. 3. Ecotoxicology-an interdisciplinary science studies the impacts of pollutants upon the structure and function of ecological systems. The broad scope of ecotoxicology requires a multidisciplinary approach of a variety of specialties, such as ecology, environmental chemistry, and applied biology.

FISH 7900 DIRECTED STUDIES IN FISHERIES I (1-4) IND. SU. Individualized in-depth study on a particular subject under the guidance of a professor. May include directed readings and research. Course may be repeated for a maximum of 4 credit hours.

FISH 7920 INTERNSHIP IN FISHERIES AND AQUACULTURE (1-10) INT. SU. Departmental approval. Field experience in aquaculture, fisheries or aquatic resource management on farm or with research, extension or aquatic management agency. Course may be repeated for a maximum of 10 credit hours.

FISH 7930 GRADUATE SEMINAR SERIES (1) LEC. 1. SU. Acquaint students with current research and related activities.

FISH 7950 GRADUATE RESEARCH SEMINAR (1) SEM. 1. SU. Departmental approval. Oral presentation and discussion of research in the field of specialization.

FISH 7960 SPECIAL PROBLEMS IN FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (1-4) IND. Individual or group project and research in consultation with faculty member on problem in fisheries, aquaculture, and/or aquatic sciences. Course may be repeated for a maximum of 9 credit hours.

FISH 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

FISH 8900 DIRECTED STUDIES IN FISHERIES II (1-4) IND. SU. Individualized in-depth study on a particular subject under the guidance of a professor. May include directed readings and research. Course may be repeated for a maximum of 4 credit hours.

FISH 8930 GRADUATE SEMINAR SERIES (1) LEC. 1. SU. Acquaint students with current research and related activities.

FISH 8950 GRADUATE RESEARCH SEMINAR (1) SEM. 1. SU. Departmental approval. Acquaint students with current research and related activities.

FISH 8960 SPECIAL PROBLEMS IN FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (1-4) IND. Individualized work and research in consultation with faculty member on problem in fisheries, aquaculture, and/or aquatic sciences. Course may be repeated for a maximum of 9 credit hours.

FISH 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Food Science Courses

FDSC 1000 INTRODUCTORY FOOD SCIENCE (3) LEC. 3. Overview of food science discipline including food selection, food composition, food safety and sanitation, food processing, packaging, commodity types, and food laws.

FDSC 4290 PROFESSIONAL DEVELOPMENT IN FOOD SCIENCE (1) LEC. 1. Preparing for careers; enhancing computer and communication skills; planning for professional advancement.

FDSC 4920 FOOD SCIENCE INTERNSHIP (3) INT. 3. Departmental approval. Practical on-the-job training in the food industry. Course may be repeated for a maximum of 9 credit hours.

FDSC 4960 SPECIAL PROBLEMS IN FOOD SCIENCE (1-3) IND. 2.50 GPA or departmental approval. Individual or group projects with a faculty member in food science. May include literary research, data analysis or a combination of these. Course may be repeated for a maximum of 6 credit hours.

FDSC 4970 SPECIAL TOPICS (1-4) LEC. Departmental approval. Instruction and discussion of current topics associated with food science. Course may be repeated for 8 hours. Course may be repeated for a maximum of 8 credit hours.

FDSC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

FDSC 5660 FOOD MICROBIOLOGY (4) LEC. 3. LAB. 1. Pr. BIOL 3200. Introduction to basic and applied microbiology in food; including how bacteria, viruses, parasites, yeasts and molds affect and are in turn affected by foods both positively and negatively. May count either FDSC 5660, BIOL 5660, FDSC 6660 or BIOL 6660.

FDSC 6660 FOOD MICROBIOLOGY (4) LEC. 3. LAB. 1. Pr. BIOL 3200. Introduction to basic and applied microbiology in food; including how bacteria, viruses, parasites, yeasts and molds affect and are in turn affected by foods both positively and negatively. May count either FDSC 5660, BIOL 5660, FDSC 6660 or BIOL 6660.

FDSC 7430 FLAVOR CHEMISTRY (3) LEC. 3. Chemistry of flavor compounds; Analytical approaches and sensory evaluation to characterize flavor.

FDSC 7600 MOLECULAR PATHOGENESIS OF FOODBORNE PATHOGENS (3) LEC. 3. Pr. BIOL 6260 or VBMS 7460. This course covers a detailed description of major foodborne pathogens that affect human health and their pathogenesis. Lectures will detail how the pathogen's adherence and invasion, host dissemination, and host cell damage lead to pathogenesis.

FDSC 7730 SENSORY EVALUATION (3) LEC. 2. LAB. 2. History and methods of sensory testing of food products, factors affecting results.

FDSC 7950 GRADUATE SEMINAR (1) SEM. 1. Literature in poultry science, food science or related field. Emphasis given to preparation, organization, and presentation of research materials and to reporting current literature in the field. May count either POUL 7950 or FDSC 7950. Course may be repeated for a maximum of 3 credit hours.

FDSC 7960 SPECIAL PROBLEMS (1-4) IND/ST1. Departmental approval. Critical analysis of classic and current research. Course may be repeated for a maximum of 8 credit hours.

FDSC 7970 SPECIAL TOPICS IN FOOD SCIENCE (1-4) LEC. Instruction and discussion of current advanced topics associated with food science. Course may be repeated for a maximum of 8 credit hours.

FDSC 7980 NONTHESIS RESEARCH (1-4) RES. Departmental approval. enrolled as FDSG MAg student. Research conducted as part of the Master of Agriculture degree.

FDSC 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Research in an area of specialization. Course may be repeated with change in topic.

FDSC 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Research in an area of specialization. Course may be repeated with change in topic.

Horticulture Courses

HORT 1010 INTRODUCTION TO HORTICULTURE (1) LEC. 1. Introduces scientific and practical aspects of pomology, olericulture, floriculture and landscape horticulture. Also presents the broad scope of career opportunities in the field of horticultural science. Fall.

HORT 2010 FRUIT AND NUT PRODUCTION (4) LEC. 2. LAB. 4. Introductory course in cultural practices and economics associated with commercial fruit and nut production. Fall.

HORT 2020 HORTICULTURE CROP PRODUCTION (3) LEC. 2. LAB. 3. Techniques of plant propagation and cultural methods for successful fruit, vegetable, and ornamental plant production. Fall.

HORT 2030 VEGETABLE PRODUCTION (3) LEC. 3. Principles, practices, establishment, production, maintenance, harvesting, storage and marketing of commercial vegetable crops. Fall and Spring.

HORT 2040 ORGANIC GARDENING (3) LEC. 3. Principles, production practices, maintenance, harvesting and marketing of organically and traditionally home-grown vegetables.

HORT 2060 HYDROPONICS: PRINCIPLES AND TECHNIQUES OF SOILLESS PLANT PRODUCTION (3) LEC. 3. This course is a survey of the science of hydroponic plant production and is focused on commercial and home vegetable crop production. Specific topics include plant growth and nutrition in hydroponic growing systems, challenges and opportunities, and system design. Fall.

HORT 2210 LANDSCAPE GARDENING (4) LEC. 2. LAB. 4. Principles of landscape gardening applied to residential and small-scale commercial grounds. Involves plant identification and use, basic landscape design, and landscape installation and management concepts.

HORT 2240 PLANT PROPAGATION (3) LEC. 2. LAB. 2. Pr. P/C BIOL 1030 or BIOL 1037. Basic principles and practices involved in the propagation of horticulture plants. Departmental approval. Spring.

HORT 2250 ART OF FLORAL DESIGN (3) LEC. 2. LAB. 2. Basic art principles and design elements and their use with flowers and foliage; history and utilization of flowers within society.

HORT 3000 GROWTH AND DEVELOPMENT OF HORTICULTURAL PLANTS (3) LEC. 3. Pr. (BIOL 1030 or BIOL 1037) and CHEM 1030. Growth and development of plants with concepts applied to the practice of Horticultural Science. Summer and Fall.

HORT 3110 A HISTORY OF GARDENS IN CULTURAL CONTEXT (3) LEC. 3. Heritage and traditions influencing the development of public and private garden styles, context, and function including cultural expressions, plant use, and impact of noted designers and horticulturists throughout history. Only taught in Study Abroad programs.

HORT 3200 WOODY LANDSCAPE PLANT IDENTIFICATION I (4) LEC. 2. LAB. 4. This course introduces students to the language of botany and the Southeastern palate of landscape plants with distinguished fall characteristics. Specific topics include taxonomy, morphology, plants with global popularity, cultivation practices, structural plantings, and use in the landscape. Fall.

HORT 3210 WOODY LANDSCAPE PLANT IDENTIFICATION II (4) LEC. 2. LAB. 4. This course introduces students to the language of botany and the Southeastern palate of landscape plants with distinguished spring characteristics. Specific topics include taxonomy, morphology, plants with global popularity, cultivation practices, structural plantings, and use in the landscape. Spring.

HORT 3220 ARBORICULTURE (4) LEC. 2. LAB. 4. Pr. BIOL 1030 or BIOL 1037. Identification, culture and use of ornamental trees in landscape plantings. Fall.

HORT 3280 LANDSCAPE CONSTRUCTION (4) LEC. 2. LAB. 4. Principles and practices used in the interpretation and implementation of landscape construction and planting plans. Fall.

HORT 3840 STUDY/TRAVEL IN HORTICULTURE (1-10) AAB/FLD. Study of horticultural or fruit and vegetable science, landscape design, nursery and greenhouse management in U.S. or international location. Course may be repeated for a maximum of 10 credit hours.

HORT 3910 PROFESSIONAL LANDSCAPE (3) LEC. 3. Departmental approval. Field-based course designed for learning to prepare and compete in the NALP National Collegiate Landscape Competition. Spring.

HORT 3920 HORTICULTURE INTERNSHIP (1-4) INT. 1-4. Practical on-the-job training for selected commercial horticultural companies. Course may be repeated for a maximum of 8 credit hours.

HORT 3950 CAREERS IN HORTICULTURE (2) LEC. 2. Current developments and career opportunities in horticulture. Fall and Spring.

HORT 4000 PESTICIDE MANAGEMENT IN HORTICULTURE (3) LEC. 3. Pr. (ENTM 4020 or ENTM 3040) and PLPA 3000. Proper management of pesticides in horticulture; decision making skills in relation to control strategies; environmental issues relevant to horticulture; safety considerations; scouting and application techniques. Fall.

HORT 4100 HERBACEOUS ORNAMENTALS (4) LEC. 2. LAB. 4. Pr. (BIOL 1020 or BIOL 1027) and (BIOL 1030 or BIOL 1037). Identification, culture, and use of herbaceous annuals and perennials, bulbs, herbs, and ornamental grasses. Consideration of flower bed and border preparation, care and maintenance. Spring and Summer.

HORT 4250 INTERMEDIATE FRUIT & VEG PROD (3) LEC. 3. Pr. (HORT 2040 or HORT 2043) or HORT 2030. Intermediate horticulture course in which students apply knowledge gained in the classroom to hands-on fruit and vegetable gardening practices.

HORT 4270 INTERMEDIATE LANDSCAPE DESIGN (4) LEC. 2. LAB. 4. Pr. HORT 3210 or HORT 3220 or HORT 4100. A study of the design principles and elements and technical skills used to create a functional and aesthetically pleasing residential landscape design. Fall.

HORT 4300 COMPUTER AIDED PLANTING DESIGN (3) LEC. 3. Pr. HORT 4270. Graphic concepts relating to spatial visualization and communication and project cost estimation using computer aided drafting and project management software developed for landscape professionals. Spring.

HORT 4930 DIRECTED STUDIES (1-3) AAB/IND. Departmental approval. Directed Studies related to research, teaching or outreach educational programs in Horticulture. Course may be repeated for a maximum of 6 credit hours.

HORT 4970 SPECIAL TOPICS (1-3) IND. Principles, methods and techniques for understanding various horticultural disciplines. Course may be repeated for a maximum of 6 credit hours.

HORT 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

HORT 5100 HORTICULTURAL PLANT BREEDING (3) LEC. 3. Pr. (BIOL 3000 or CSES 3300 or AGRI 3000). This class will introduce students to traditional and modern technologies for breeding horticultural crops such as fruits, vegetables, and ornamental crops. Students will learn about the importance of plant breeding for horticultural crop improvement, mechanisms of traditional and modern breeding technologies, and biotechnologies with an emphasis on specific applications for horticultural crops. Credit will only be given for one of the following: HORT 5100 or HORT 6100.

HORT 5110 TREE FRUIT CULTURE (3) LEC. 3. Pr. HORT 3000. Manipulation of growth and development of tree fruit crops by cultural methods. Credit will only be given for one of the following courses: HORT 5110 or HORT 6110. Summer.

HORT 5120 SMALL FRUIT AND PECAN CULTURE (4) LEC. 2. LAB. 4. Pr. HORT 3000. Principles and practices involved in the production and marketing of small fruits and pecans. Credit will only be given for one of the following courses: HORT 5120 or HORT 6120. Spring.

HORT 5130 SUSTAINABLE VEGETABLE CROP PRODUCTION (3) LEC. 2. LAB. 3. Pr. (BIOL 1030 or BIOL 1037) and HORT 3000. Best management practices and quality of vegetable crops. Credit will only be given for one of the following: HORT 5130 or HORT 6130. Spring.

HORT 5140 POST-HARVEST BIOLOGY AND TECHNOLOGY (3) LEC. 2. LAB. 3. Pr. (PLPA 3000 or PLPA 3003) and HORT 3000. Physiological changes occurring in fruits, vegetables and other horticultural products after harvest. Spring.

HORT 5150 RETAIL GARDEN CENTER MANAGEMENT (3) LEC. 2. LAB. 3. Pr. HORT 3210 or HORT 3220 or Departmental approval. The following topics will be covered: financing, location, design, stocking, selling, personnel management, advertising and maintaining plants. May count either HORT 5150 or HORT 6150. Summer.

HORT 5200 CONTROLLED ENVIRONMENT AGRICULTURE (4) LEC. 3. LAB. 2. Pr. HORT 2060. This course will provide a thorough overview of the aerial factors that influence crop production in controlled environments. Credit will only be given for one of the following courses: HORT 5200 or HORT 6200.

HORT 5210 LANDSCAPE BIDDING, INSTALLATION AND MAINTENANCE (4) LEC. 3. LAB. 3. Pr. CSES 2040 and PLPA 3000. Principles and practices of the bidding, installation and maintenance of commercial and residential landscapes. Spring.

HORT 5220 GREENHOUSE MANAGEMENT SCIENCE (4) LEC. 3. LAB. 2. Pr. HORT 3000 and HORT 2240 and CSES 2040. Management, culture and economics of commercial greenhouse production. Fall.

HORT 5230 NURSERY MANAGEMENT (4) LEC. 2. LAB. 4. Pr. HORT 2240 and HORT 3000. Factors affecting plant production. Environmental issues related to facilities design and pesticide and nutrient management. Departmental approval. Spring.

HORT 5240 PUBLIC GARDEN MANAGEMENT (3) LEC. 1. LAB. 4. Understanding personnel structure and responsibilities; plant care and management; and the educational, entertainment, and conservation missions of public gardens. Spring.

HORT 5330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/5333/6330/6336.

HORT 5910 HORTICULTURE PRACTICUM (4) LEC. 1. LAB. 6. Practical application of a broad range of horticultural subject-matter knowledge and skills. May count either HORT 5910 or HORT 6910. Spring. Course may be repeated for a maximum of 8 credit hours.

HORT 6100 HORTICULTURAL PLANT BREEDING (3) LEC. 3. This class will introduce students to traditional and modern technologies for breeding horticultural crops such as fruits, vegetables, and ornamental crops. Students will learn about the importance of plant breeding for horticultural crop improvement, mechanisms of traditional and modern breeding technologies, and biotechnologies with an emphasis on specific applications for horticultural crops. Credit will only be given for one of the following: HORT 5100 or HORT 6100.

HORT 6110 TREE FRUIT CULTURE (3) LEC. 3. Manipulation of growth and development of tree fruit crops by cultural methods. Credit will only be given for one of the following courses: HORT 5110 or HORT 6110. Summer.

HORT 6120 SMALL FRUIT AND PECAN CULTURE (4) LEC. 2. LAB. 4. Principles and practices involved in the production and marketing of small fruits and pecans. Credit will only be given for one of the following courses: HORT 5120 or HORT 6120. Spring.

HORT 6130 SUSTAINABLE VEGETABLE CROP PRODUCTION (3) LEC. 2. LAB. 2. Advanced course in best management practices and quality of vegetable crops. Credit will only be given for one of the following courses: HORT 5130 or HORT 6130. Spring.

HORT 6140 POST-HARVEST BIOLOGY AND TECHNOLOGY (3) LEC. 2. LAB. 2. Physiological changes occurring in fruits, vegetables and other horticultural products after harvest. Spring.

HORT 6150 RETAIL GARDEN CENTER MANAGEMENT (3) LEC. 2. LAB. 3. Topics included: financing, location, design, stocking, selling, personnel management, advertising, and maintaining plants. Graduate students will evaluate garden centers and provide feedback for improvement. Summer.

HORT 6200 CONTROLLED ENVIRONMENT AGRICULTURE (4) LEC. 3. LAB. 2. This course will provide a thorough overview of the aerial factors that influence crop production in controlled environments. Credit will only be given for one of the following courses: HORT 5200 or HORT 6200.

HORT 6210 LANDSCAPE BIDDING, INSTALLATION AND MAINTENANCE (4) LEC. 3. LAB. 3. Principles and practices of the bidding, installation and maintenance of commercial and residential landscapes. Spring.

HORT 6220 GREENHOUSE MANAGEMENT SCIENCE (4) LEC. 3. LAB. 2. Management, culture and economics of commercial greenhouse production. Fall.

HORT 6230 NURSERY MANAGEMENT (4) LEC. 2. LAB. 4. Factors affecting plant production. Environmental issues related to facilities design and pesticide and nutrient management. Departmental approval. Spring.

HORT 6240 PUBLIC GARDEN MANAGEMENT (3) LEC. 1. LAB. 4. Understanding personnel structure and responsibilities; plant care and management; and the educational, entertainment, and conservation missions of public gardens. Spring.

HORT 6330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/5333/6330/6336.

HORT 6910 HORTICULTURE PRACTICUM (4) LEC. 1. LAB. 6. Practical application of a broad range of horticultural subject-matter knowledge and skills. May count either HORT 5910 or HORT 6910. Spring. Course may be repeated for a maximum of 8 credit hours.

HORT 7010 EXPERIMENTAL METHODS IN HORTICULTURE (3) LEC. 2. LAB. 2. Principles and methodologies of horticultural research, experimental design, preparation of project and grant proposals, and development of publication skills. Summer

HORT 7040 ADVANCED GROWTH AND DEVELOPMENT OF HORTICULTURAL PLANTS (3) LEC. 3. Plant growth and development from seed germination, through maturity and senescence. Spring.

HORT 7050 NUTRITIONAL REQUIREMENTS OF HORTICULTURAL PLANTS (3) LEC. 3. LAB. 2. Pr. HORT 3000. Nutritional requirements of horticulture crops and factors affecting these requirements. Departmental approval. Summer, odd years.

HORT 7070 PLANT BIOTECHNOLOGY (3) LEC. 3. Plant biotechnology, including plant tissue culture technologies, genetic transformation and applications for horticultural crop improvement.

HORT 7840 GRADUATE STUDY/TRAVEL IN HORTICULTURE (1-4) LEC. Departmental approval. Programmed activities to enhance national/international awareness and enable students to understand horticultural practices in diverse areas. Course may be repeated for a maximum of 8 credit hours.

HORT 7920 GRADUATE INTERNSHIP (1-4) INT. Departmental approval. Supervised professional experience in horticulture

HORT 7950 SEMINAR (1) SEM. SU. Graduate students are required to attend all seminars. Course may be repeated with change in topics.

HORT 7960 SPECIAL PROBLEMS (1-3) IND. 3. Conferences, problems and assigned readings in horticulture. Course may be repeated for a maximum of 6 credit hours.

HORT 7970 SPECIAL TOPICS IN HORTICULTURE (1-3) LEC. Principles, methods and techniques involved in gaining an understanding of different horticultural disciplines. Course may be repeated for a maximum of 3 credit hours.

HORT 7980 NON-THESIS RESEARCH (1-4) RES. 1-4. Research conducted as part of the Master of Agriculture degree. Course may be repeated for a maximum of 4 credit hours.

HORT 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

HORT 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Plant Pathology Courses

PLPA 2000 PESTS, PATHOGENS, PARASITES, AND PEOPLE (3) LEC. 3. Past and present problems of pests and disease involving humans and the food chain.

PLPA 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH (1-4) IND/RES. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

PLPA 3000 GENERAL PLANT PATHOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Survey of plant diseases common in Alabama, including symptom recognition, pathogen biology and management of plant diseases. Course credit will not be given for both PLPA 3000 and PLPA 3003/3004.

PLPA 4960 SPECIAL PROBLEMS IN PLANT PATHOLOGY (1-3) IND. Departmental approval. Supervised work on a project in plant pathology. Areas of study are: A. Mycology; B. Nematology; C. Virology; D. Bacteriology; E. Extension and Clinic Experience; F. Physiological and Molecular Approaches. Course may be repeated for a maximum of 3 credit hours.

PLPA 4980 UNDERGRADUATE RESEARCH (1-4) LAB. 2-8. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

PLPA 5050 PLANT DISEASE DIAGNOSIS (3) LEC. 1. LAB. 3. Pr. PLPA 3000 or PLPA 3003. Approaches, techniques, and practical experience in diagnosis of plant diseases. Credit will not be given for both PLPA 5050 and PLPA 6050. Summer.

PLPA 5200 MYCOLOGY (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Biology of fungi with emphasis on taxonomy, morphology, physiology, genetics, reproduction, and how fungi interact with their ecosystems with an emphasis on plant pathogens. Credit will only be given to one of the following: PLPA 5200 or 6200.

PLPA 5250 MEDICAL AND VETERINARY MYCOLOGY (2) LEC. 2. A systematic survey of fungi and the diseases they cause on humans and animals.

PLPA 5300 PLANT-BACTERIAL INTERACTIONS (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Comprehensive review of plant-bacterial interactions, including colonization, pathogenesis, symbiotic and associative nitrogen fixation, and transformation. Credit will only be given to one of the following: PLPA 5300 or PLPA 6300.

PLPA 5330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

PLPA 5400 PLANT VIROLOGY (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Plant viruses are one of the major pathogens causing problems in plants. This course will cover the fundamentals of plant viruses such as infectious cycle, genome, structure, and evolution. The course will also introduce applied biotechnology based on virus-plant interaction. Credit will only be given to one of the following: PLPA 5400 or PLPA 6400.

PLPA 5500 PLANT NEMATOLOGY (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Presentation of nematodes in relation to plant diseases, identification of plant nematodes; nature of pathogenicity; principles and practices of management; recent advances in phytonematology. Credit will only be given to one of the following: PLPA 5500 or PLPA 6500.

PLPA 5600 MOLECULAR PLANT-MICROBE INTERACTIONS (3) LEC. 3. Pr. BIOL 3000. Comprehensive coverage of present advances in plant defense-related metabolic pathways: how to recognize pathogen infections, and activate/potentiate disease resistances. Introduces biochemical, molecular and cellular mechanisms by which plants defend/assimilate themselves towards diverse a/biotic stress stimuli. Credit will only be given for one of the following courses: PLPA 5600 or PLPA 6600.

PLPA 5700 VECTOR ENTOMOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

PLPA 5800 OMICS IN AGRICULTURE (3) LEC. 2. LAB. 2. Pr. BIOL 1030 or BIOL 3000 or AGRI 3000. This course will introduce students to the recent advances in high-throughput technologies such as genomics, transcriptomics, metagenomics, metabolomics, phenomics, modeling, and digital agriculture and how these technologies can be applied to tackling new and old problems in agriculture and human health. Students will be able to gain hands-on experience in analyzing and interpreting datasets obtained using these technologies.

PLPA 5820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Pr. STAT 2510. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

PLPA 5920 INTERNSHIP (3) IND. 3. SU. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

PLPA 6050 PLANT DISEASE DIAGNOSIS (3) LEC. 1. LAB. 3. Graduate level standing in PLPA, ENTM, AGRO, HORT, AGEC or Department approval. Experience with plant disease diagnosis procedures and the diagnosis of many common plant diseases. Summer.

PLPA 6200 MYCOLOGY (2) LEC. 1. LAB. 2. Biology of fungi with emphasis on taxonomy, morphology, physiology, genetics, reproduction, and how fungi interact with their ecosystems with an emphasis on plant pathogens. Graduate level standing or Departmental approval. Credit will only be given to one of the following: PLPA 5200 or PLPA 6200.

PLPA 6250 MEDICAL AND VETERINARY MYCOLOGY (2) LEC. 2. Pr. BIOL 3200. or prior approval of the instructor. A systematic survey of fungi and the diseases they cause on humans and animals.

PLPA 6300 PLANT-BACTERIAL INTERACTIONS (2) LEC. 1. LAB. 2. Comprehensive review of plant-bacterial interactions, including colonization, pathogenesis, symbiotic and associative nitrogen fixation, and transformation. Credit will only be given to one of the following: PLPA 5300 or PLPA 6300.

PLPA 6330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

PLPA 6400 PLANT VIROLOGY (2) LEC. 1. LAB. 2. Plant viruses are one of the major pathogens causing problems in plants. This course will cover the fundamentals of plant viruses such as infectious cycle, genome, structure, and evolution. The course will also introduce applied biotechnology based on virus-plant interaction. Credit will only be given to one of the following: PLPA 5400 or PLPA 6400.

PLPA 6500 PLANT NEMATOLOGY (2) LEC. 1. LAB. 2. Presentation of nematodes in relation to plant diseases, identification of plant nematodes; nature of pathogenicity; principles and practices of management; recent advances in phytonematology. Credit will only be given to one of the following: PLPA 5500 or PLPA 6500.

PLPA 6600 MOLECULAR PLANT-MICROBE INTERACTIONS (3) LEC. 3. Comprehensive coverage of present advances in plant defense-related metabolic pathways: how to recognize pathogen infections, and activate/potentiate disease resistances, biochemical, molecular and cellular mechanism by which plants defend/assimilate themselves towards diverse a/biotic stress stimuli. Credit will only be given for one of the following courses: PLPA 5600 or PLPA 6600.

PLPA 6700 VECTOR ENTOMOLOGY (3) LEC. 3. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

PLPA 6800 OMICS IN AGRICULTURE (3) LEC. 2. LAB. 2. This course will introduce students to the recent advances in high-throughput technologies such as genomics, transcriptomics, metagenomics, metabolomics, phenomics, modeling, and digital agriculture and how these technologies can be applied to tackling new and old problems in agriculture and human health. Students will be able to gain hands-on experience in analyzing and interpreting datasets obtained using these technologies.

PLPA 6820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

PLPA 6920 INTERNSHIP (3) IND. 3. SU. Departmental approval. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

PLPA 7080 FIELD SURVEY OF PLANT PATHOLOGY (3) LEC. 1. LAB. 6. Practical aspects of plant diseases under field conditions, on-site visits via field trips; discussion of experimental design for field research. Summer.

PLPA 7860 PLANT DISEASE EPIDEMIOLOGY (2) LEC. 2. Pr. PLPA 3000. Aspects of plant disease epidemiology including disease assessment and temporal progress, pathogen spread, and yield loss determination.

PLPA 7861 PLANT DISEASE EPIDEMIOLOGY LABORATORY (2) LAB. 4. Coreq. PLPA 7860. Quantitative aspects of plant disease epidemiology including spatial and temporal modeling, and disease system simulation.

PLPA 7880 PLANT MICROBIAL ECOLOGY (3) LEC. 3. LAB. 0. Concepts in ecology of plant-associated microbes and their interactions with plants using molecular approaches.

PLPA 7881 PLANT MICROBIAL ECOLOGY LABORATORY (2) LAB. 4. This course will involve hands-on experience with genomic, metagenomic, transcriptomic datasets. Graduate standing in the College of Agriculture/COSAM.

PLPA 7900 DIRECTED STUDIES IN PLANT PATHOLOGY (1-5) LEC. SU. Discussion groups on specific topics, assigned reading on laboratory problems or field research.

PLPA 7910 TEACHING PRACTICUM (1) LAB. 2. SU. Graduate level standing in PLPA or ENTM or Departmental approval. The teaching practicum will address the practical and heretical issues of laboratory learning and facilitating the skills of pedagogy. Course may be repeated for a maximum of 3 credit hours.

PLPA 7930 JOURNAL REVIEW FOR ENTOMOLOGY AND PLANT PATHOLOGY (1) LEC. 1. Graduate level standing in PLPA, ENTM, AGRO, HORT, AGEC or Department approval. Discussion of recent scientific publications on basic aspects of research in entomology and plant pathology. Course may be repeated for a maximum of 2 credit hours.

PLPA 7950 SEMINAR IN PLANT PATHOLOGY (1) SEM. 1. SU. Departmental approval. Seminar presentations on current departmental research and current issues in plant pathology and related disciplines. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

PLPA 7960 SPECIAL PROBLEMS IN PLANT PATHOLOGY (1-4) LAB. 2-8. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in plant pathology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

PLPA 7970 SPECIAL TOPICS IN PLANT PATHOLOGY (1-5) ST1. Advanced topics related to plant pathology. Course may be repeated for a maximum of 5 credit hours.

PLPA 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Research and thesis on problems in plant pathology. Course may be repeated with change in topics.

PLPA 8880 MOLECULAR PLANT PATHOLOGY (3) LEC. 2. LAB. 2. Open discussion and article review on current topics and cutting-edge discoveries in the field of molecular plant pathology, covering the cellular mechanisms of plant interactions with, and immune responses against pathogens.

PLPA 8900 DIRECTED STUDIES IN PLANT PATHOLOGY (1-5) LEC. SU. Discussion groups on specific topics, assigned reading on laboratory problems or field research. Course may be repeated for a maximum of 5 credit hours.

PLPA 8910 TEACHING PRACTICUM (1) LAB. 2. SU. Departmental approval. Practical and theoretical issues of laboratory learning, and pedagogical facilitation. Required of all PhD students. Course may be repeated for a maximum of 3 credit hours.

PLPA 8930 JOURNAL REVIEW FOR ENTOMOLOGY AND PLANT PATHOLOGY (1) LEC. 1. Graduate level standing in PLPA, ENTM, AGRO, HORT, AGEC or Department approval. Discussion of recent scientific publications on basic aspects of research in entomology and plant pathology. Course may be repeated for a maximum of 3 credit hours.

PLPA 8950 SEMINAR (1) SEM. 1. SU. Departmental approval. Presentations and discussion of scientific literature or dissertation research findings. Required for al Ph.D. candidates. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

PLPA 8960 ADVANCED SPECIAL PROBLEMS IN PLANT PATHOLOGY (1-4) LAB. 2-8. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in plant pathology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

PLPA 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Research and dissertation on problems in plant pathology. Course may be repeated with change in topics.

Poultry Science Courses

POUL 1000 INTRODUCTORY POULTRY SCIENCE (3) LEC. 3. Introduction to the poultry species and their commercial production, physiology, nutrition, and management.

POUL 2000 POULTRY AND EGG EVALUATION AND SELECTION (1) LAB. 1. A hands-on approach to poultry and egg evaluation based on the U.S. poultry and Egg guidelines and how to properly care for and handle the birds. Spring and Fall. Course may be repeated for a maximum of 4 credit hours.

POUL 2100 PROFESSIONAL DEVELOPMENT FOR ANIMAL AGRICULTURE, PRODUCTION, PROCESSING & FEED INDUSTRIES (1) LEC. 1. Development of professional skills and career preparation for students in animal agriculture.

POUL 3030 COMMERCIAL POULTRY PRODUCTION (4) LEC. 3. LAB. 3. The organization and management principles of the commercial poultry meat and egg production industries. Fall.

POUL 3060 POULTRY REPRODUCTION (3) LEC. 2. LAB. 2. Pr. POUL 3030. This course explores the reproductive physiology and endocrinology of poultry species, emphasizing genetics and management strategies impacting production, fertility, and hatchability in the industry. Students will also learn hatchery management and embryonic development of the chick.

POUL 3150 POULTRY PHYSIOLOGY (4) LEC. 3. LAB. 3. The physiological principles and anatomical characteristics of poultry species which directly interact with commercial management systems. Spring.

POUL 4920 POULTRY SCIENCE INTERNSHIP (3) INT. 3. Departmental approval. Practical on-the-job training in the poultry industry. Course may be repeated for a maximum of 9 credit hours.

POUL 4960 SPECIAL PROBLEMS IN POULTRY SCIENCE (1-3) IND. 2.5 GPA or departmental approval. Individual or group projects with a faculty member in poultry science. May include literary research, data analysis or a combination of these. Course may be repeated for a maximum of 6 credit hours.

POUL 4970 SPECIAL TOPICS IN POULTRY SCIENCE (1-4) LEC. Departmental approval. Instruction and discussion of selected current topics in poultry science. Course may be repeated for 8 hours. Course may be repeated for a maximum of 8 credit hours.

POUL 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

POUL 5020 PRINCIPLES OF ANIMAL FEED MANUFACTURING (3) LEC. 2. LAB. 2. Principles of animal food manufacturing for cattle, swine, poultry, horses, aquaculture, and pet foods with emphasis on current animal food manufacturing practices, current animal food ingredient manufacturing, and current animal food regulatory landscapes. May count either POUL 6020 or POUL 5020.

POUL 5030 ADVANCED COMMERCIAL POULTRY PRODUCTION (3) LEC. 3. Pr. POUL 3030 and POUL 3150 and POUL 5050 and POUL 5110. The course covers the major principles of the integrated poultry industry, including the interactions and interrelationships between business segments in the poultry industry.

POUL 5050 POULTRY FEEDING (3) LEC. 3. Pr. ANSC 3410. The application of the principles of nutrition to poultry; the functions of individual nutrients, their deficiency symptoms and their supply in terms of feedstuffs and practical poultry diets. May count either POUL 5050 and POUL 6050.

POUL 5070 ANIMAL WELFARE (3) LEC. 3. Pr. (POUL 1000 or ANSC 1000) and (POUL 3150 or ANSC 3600). This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, wildlife, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

POUL 5080 POULTRY HEALTH (3) LEC. 3. Pr. BIOL 3200 and POUL 3150. Study of the prevention, diagnosis, control and treatment of economically important diseases of poultry. May count either POUL 5080 or POUL 6080.

POUL 5110 POULTRY PROCESSING (3) LEC. 2. LAB. 3. Pr. POUL 3030 and (CHEM 1110 or CHEM 1030). The course focuses on poultry processing and related aspects. Students will learn the effects of live production, feed withdrawal and haul on poultry processing and quality as well as pre- and post-harvest food safety, USDA regulations, Halal and Kosher standards. May count either POUL 5110 or POUL 6110.

POUL 5140 POULTRY FURTHER PROCESSING AND PRODUCTS (3) LEC. 2. LAB. 3. Pr. CHEM 1110 or CHEM 1030. The course will provide an in-depth understanding of poultry product development, principles and practices, biochemistry, modern technologies used to assess product quality, sensory analysis, food safety as well as USDA regulations associated with poultry products. May count either POUL 5140 or POUL 6140.

POUL 5160 PRINCIPLES OF FOOD SAFETY (3) LEC. 3. Pr. BIOL 3200. Study of the identification and control of physical, chemical, and microbiological hazards in the food industry. Introduction to Hazard Analysis and Critical Control Points (HACCP). May count either POUL 5160 or POUL 6160.

POUL 6020 PRINCIPLES OF ANIMAL FEED MANUFACTURING (3) LEC. 2. LAB. 2. Principles of animal food manufacturing for cattle, swine, poultry, horses, aquaculture, and pet foods with emphasis on current animal food manufacturing practices, current animal food ingredient manufacturing, and current animal food regulatory landscapes. May count either POUL 5020 or POUL 6020.

POUL 6030 ADVANCED COMMERCIAL POULTRY PRODUCTION (3) LEC. 3. The course covers the major principles of the integrated poultry industry, including the interactions and interrelationships between business segments in the poultry industry. Graduate student standing.

POUL 6050 ADVANCED POULTRY FEEDING (3) LEC. 3. An advanced study and review of the literature on the application of the principles of nutrition to poultry; the functions of individual nutrients, their deficiency symptoms and their supply in terms of feedstuffs and practical poultry diets. May count either POUL 5050 or POUL 6050.

POUL 6070 ANIMAL WELFARE (3) LEC. 3. This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, wildlife, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

POUL 6080 ADVANCED POULTRY HEALTH (3) LEC. 3. Departmental approval. An advanced study of the prevention, diagnosis, control and treatment of economically important diseases of poultry. May count either POUL 5080 or POUL 6080.

POUL 6110 POULTRY PROCESSING (3) LEC. 2. LAB. 3. Students will acquire strong knowledge on each step of poultry processing from hanging to chilling and transportation. The course will cover topics on food safety (pre- and post-harvest), spoilage, antimicrobial interventions, USDA regulations as well as Halal and Kosher standards. May count either POUL 5110 or POUL 6110.

POUL 6140 POULTRY FURTHER PROCESSING AND PRODUCTS (3) LEC. 2. LAB. 3. The course will provide an in-depth understanding of poultry product development, principles and practices, biochemistry, modern technologies used to assess product quality, sensory analysis, food safety as well as USDA regulations associated with poultry products. May count either POUL 5140 or POUL 6140.

POUL 6160 ADVANCED PRINCIPLES OF FOOD SAFETY (3) LEC. 3. Advanced study of the identification and control of physical, chemical, and microbiological hazards in the food industry. Introduction to Hazard Analysis and Critical Control Points (HACCP). May count either POUL 5160 or POUL 6160.

POUL 7100 SUPERVISED INVESTIGATION (1-4) IND. Departmental approval. Advanced independent investigation in major field of poultry or avian science. Requirements include review of literature, successful and timely completion of research project, and presentation of results in written and/or oral report. Course may be repeated for a maximum of 8 credit hours.

POUL 7950 GRADUATE SEMINAR (1) SEM. 1. Literature in poultry science, food science or related field. Emphasis given to preparation, organization, and presentation of research materials and to reporting current literature in the field. May count either FDSC 7950 or POUL 7950. Course may be repeated for a maximum of 3 credit hours.

POUL 7960 SPECIAL PROBLEMS IN POULTRY SCIENCE (1-3) IND. Critical analysis of classic and current research in poultry science, including literary research and/or data analysis. Course may be repeated for a maximum of 6 credit hours.

POUL 7970 SPECIAL TOPICS IN POULTRY SCIENCE (1-4) LEC. Instruction and discussion of current advanced topics associated with poultry science. Course may be repeated for a maximum of 8 credit hours.

POUL 7980 NON-THESIS RESEARCH (1-4) RES. Departmental approval. enrolled as POUL MAg student. Research conducted as part of the Master of Agricultural degree.

POUL 7990 RESEARCH AND THESIS (1-10) MST. Technical laboratory problems related to poultry. Course may be repeated with change in topics.

POUL 8100 GI SYSTEMS AND NUTRIENT UTILIZATION (3) LEC. 3. Pr. POUL 5050. Structure of feedstuffs and strategy in nutrient recovery from the gastrointestinal systems of fowl, swine, and ruminants.

POUL 8960 SPECIAL PROBLEMS (1-4) IND. A) Nutrition, B) Physiology, C) Health, D) Microbiology, E) Processing, F) Product Safety and Quality, G) Teaching, H) Immunonutrition. Course may be repeated with change in topic. Departmental approval.

POUL 8990 RESEARCH AND DISSERTATION (1-10) DSR. Technical laboratory problems related to poultry. Course may be repeated with change in topics.

Rural Sociology Courses

RSOC 2090 FOOD SYSTEMS: POLICY, PRODUCTION, AND PRACTICE (3) LEC. 3. Post farm gate transformation of raw commodities into edible food. Supply chain, policy, and consumption issues as they relate to processing, safety, nutrition, and waste in the U.S.

RSOC 3560 ENVIRONMENT, SOCIETY, AND JUSTICE (3) LEC. 3. The course focuses on micro and macro structures influencing environmental problems, and possible pathways for their resolution. The course introduces Environmental Sociology through an action-oriented approach to environmental problems.

RSOC 3620 COMMUNITY ORGANIZATION (3) LEC. 3. Analysis of social organization at the community level. Conceptual framework developed to examine both internal and external forces affecting urban as well as rural communities in the U.S., and to identify strategies to strengthen local capacity to adapt to changing social and economic environments.

RSOC 4910 DIRECTED FIELD EXPERIENCE (3) LEC. 3. Departmental approval. Structured intensive involvement within an agency or organization serving people in communities or rural areas. Supervision is shared between agency personnel and department faculty who plan, consult, discuss, and evaluate student activities and reports.

RSOC 4930 DIRECTED STUDIES (1-3) IND. Departmental approval. Individualized study of topics in rural sociology and community development, natural resources and environmental issues conducted in consultation with a faculty member. Course may be repeated for a maximum of 3 credit hours.

RSOC 4960 SPECIAL PROBLEMS IN RURAL SOCIOLOGY AND COMMUNITY DEVELOPMENT (1-3) LEC. Departmental approval. Investigation of problems in rural sociology and community development, natural resources and environmental issues conducted in consultation with a faculty member. Course may be repeated for a maximum of 3 credit hours.

RSOC 5190 SOCIOLOGY OF SUSTAINABLE AGRIFOOD SYSTEMS (3) LEC. 3. Key trends in alternative production-consumption systems (e.g., rise of small/very-small production and processing, development and feasibility short and values-based supply chains; and food security, justice, equity, sovereignty, and democracy). May count either RSOC 5190 or RSOC 6190.

RSOC 5410 EXTENSION PROGRAMS AND METHODS (3) LEC. 3. An introduction to the Cooperative Extension System and other forms of educational outreach. Application of techniques used in extension and outreach planning and programming.

RSOC 5510 SOCIAL WELFARE, FAMILY AND POVERTY (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007 or ECON 2020 or ECON 2023 or ECON 2027. Description for Bulletin: Measuring and explaining poverty inequality and their effects on families and society, analysis of anti-poverty programs.

RSOC 5610 RURAL SOCIOLOGY (3) LEC. 3. Theories and conceptual approaches to rurality in international and domestic contexts. Rural-urban differences in demographic composition, occupational structure, attitudes, and values of rural people and regional cultures. Rural services and institutions as determinants of the quality of life.

RSOC 5640 SOCIOLOGY OF COMMUNITY DEVELOPMENT (3) LEC. 3. Principles of applied social change at the community level in both industrialized and non-industrialized settings; impacts of economic and technological changes on urban and rural communities; citizen participation in community affairs.

RSOC 5650 SOCIOLOGY OF NATURAL RESOURCES AND THE ENVIRONMENT (3) LEC. 3. The social origins of contemporary environmental problems, emergence of environmentalism as a social movement within industrialized nations, and other topical issues.

RSOC 6190 SOCIOLOGY OF SUSTAINABLE AGRIFOOD SYSTEMS (3) LEC. 3. This is an advanced course that will focus on key trends in alternative production-consumption systems (e.g., rise of small/very-small production and processing, development and feasibility short and values-based supply chains; and food security, justice, equity, sovereignty, and democracy).

RSOC 6410 EXTENSION PROGRAMS AND METHODS (3) LEC. 3. An introduction to the Cooperative Extension System and other forms of educational outreach. Application of techniques used in extension and outreach planning and programming.

RSOC 6510 SOCIAL WELFARE, FAMILY AND POVERTY (3) LEC. 3. Description for Bulletin: Measuring and explaining poverty and inequality and their effects on families and society; analysis of anti-poverty programs.

RSOC 6610 RURAL SOCIOLOGY (3) LEC. 3. Theories and conceptual approaches to rurality in international and domestic contexts. Rural-urban differences in demographic composition, occupational structure, attitudes and values of rural people and regional cultures. Rural services and institutions as determinants of the quality of life.

RSOC 6650 SOCIOLOGY OF NATURAL RESOURCES AND THE ENVIRONMENT (3) LEC. 3. The social origins of contemporary environmental problems, emergence of environmentalism as a social movement within industrialized nations, and other topical issues.

RSOC 7620 SOCIOLOGY OF COMMUNITY (3) LEC. 3. Emphasis on theories, conceptual approaches and methods for studying communities and assessing developmental needs with attention to organizational structure, power structure, decision-making and linkage networks to societal units.

RSOC 7630 POLITICAL ECONOMY OF DEVELOPMENT (3) LEC. 3. Theories of societal development applied to contemporary issues associated with change in non-industrialized nations. Exploration of institutional, class, and state interests that guide development processes, as well as alternative participatory development strategies.

RSOC 7700 METHODS OF SOCIAL RESEARCH (3) LEC. 3. Problem identification, hypothesis development and empirical analysis. Quantitative and qualitative procedures for obtaining social data using surveys, direct observation and secondary sources.

RSOC 7960 SPECIAL PROBLEMS IN RURAL SOCIOLOGY AND COMMUNITY DEVELOPMENT (1-3) LEC. Pr., departmental approval. Investigation of a problem in a particular area of interest involving an in-depth review of the literature, a research project, or an outreach education activity. Course may be repeated for a maximum of 6 credit hours.

RSOC 7970 SPECIAL TOPICS IN RURAL SOCIOLOGY AND COMMUNITY DEVELOPMENT (3) LEC. 3. Departmental approval. New topic in the area of rural sociology and community development.

RSOC 7990 RESEARCH AND THESIS (1-10) MST. In conjunction with the preparation of a thesis. Course may be repeated with change in topics.

Department of Agricultural Economics and Rural Sociology

The curriculum provides broad technical training and a strong liberal arts and business background to prepare students for careers in a wide array of agribusiness and related fields.

Students are encouraged to use professional electives to complete a minor from the College of Agriculture, the College of Business, the College of Sciences and Mathematics or the College of Forestry, Wildlife and Environment or in Economics in the College of Liberal Arts. Otherwise, students may follow a general program by selecting from courses at the 3000-level or higher in the College of Agriculture, the College of Business, College of Mathematics and Sciences or the College of Forestry, Wildlife and Environment, as well as offerings at the 3000 level or higher in economics, sociology, anthropology, geography, political science, or statistics. Basic Soil Science (CSES 2040) may also be counted as a professional elective, as may up to 8 hours of a foreign language, regardless of the level. Students are encouraged to see their advisors to plan their professional electives around an interest area that best meets their career aspirations.

Majors

- Agricultural Business & Economics (p. 214)

Minors

- Agribusiness (p. 213)
- Natural Resources Economics and Environmental Policy (p. 215)
- Rural and Community Development (p. 216)

Agric Economics Courses

AGEC 1000 GLOBAL ISSUES IN FOOD, AGRICULTURE, DEVELOPMENT, AND ENVIRONMENT (3) LEC. 3. To expose students to global issues in food, agriculture, development, and natural resource/environmental economics and to learn about career opportunities in the field.

AGEC 3010 AGRIBUSINESS MARKETING (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027). Principles and problems of marketing farm and agribusiness products including marketing methods, channels, structures, and institutions. May count either AGEC 3010 or AGEC 3013.

AGEC 3050 FARM APPRAISAL (2) LEC. 2. Theory of land values; terminology, processes and procedures for alternative appraisal purposes; factors affecting value; and evaluation of appraisal methods.

AGEC 3080 FUTURES AND OPTIONS MARKETING (2) LEC. 2. Pr. (ECON 2020 or ECON 2023 or ECON 2027). Functions, institutions, economic performance, and practices and procedures involved in utilizing futures and options markets to manage market price risks.

AGEC 3100 COMPUTER APPLICATIONS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. P/C STAT 2010 or P/C STAT 2017 or P/C STAT 2510 or P/C STAT 2513 or P/C STAT 2610 or P/C BUAL 2600. Analytical methods for agricultural economics: spreadsheet applications, optimization, regression, budgeting, and risk management.

AGEC 3200 QUANTITATIVE METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. (MATH 1680 or MATH 1610) and AGEC 3100. The course covers mathematical and econometric models for the quantitative analysis of problems in food, agricultural, development and resource/environmental economics.

AGEC 3300 AGRICULTURAL POLICIES AND TRADE (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Public policies affecting agriculture. Theory and significance of international trade, distribution of production and trade, issues and policies, and influence of exchange rates.

AGEC 3920 AGRICULTURAL BUSINESS AND ECONOMICS INTERNSHIP (1-3) INT. SU. Departmental approval. Practical experience with agricultural business firms and agencies including finance, farm supply, production, marketing and sales and government. Course may be repeated for a maximum of 6 credit hours.

AGEC 3950 CAREERS IN AGRICULTURAL BUSINESS AND ECONOMICS (1) LEC. 1. SU. To develop skills to find a job and learn about career opportunities in agricultural business and economics.

AGEC 4000 PRINCIPLES OF AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2027 or ECON 2023). Economics and business principles applied to agriculture: business formation, composing and analyzing financial statements, financial analysis and decision-making functions of management, capital budgeting and investment decisions. (Credit will not be given to majors in AGEC, ECON, or business).

AGEC 4040 AGRIBUSINESS FINANCE (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600). ECON 2020 or ECON 2023 or ECON 2027 with minimum grade of C. Economic problems and policies in financing agriculture.

AGEC 4047 HONORS AGRIBUSINESS FINANCE (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600). ECON 2020 or ECON 2023 or ECON 2027 with minimum grade of C. Economic problems and policies in financing agriculture.

AGEC 4070 AGRICULTURAL LAW (3) LEC. 3. Recognition of legal problems associated with property ownership, contracts, torts, financing, estate planning and environmental controls and restrictions.

AGEC 4100 AGRICULTURAL COOPERATIVES (2) LEC. 2. Principles and problems of organizing and operating farmers' cooperative buying and selling associations.

AGEC 4120 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3) LEC. 3. Economic principles related to common property, public goods, property rights, externalities and resource scarcity and allocation applied to current issues.

AGEC 4960 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS (1-2) IND. Departmental approval. Individual or group projects with a faculty member in agricultural economics or agribusiness. May include research, data analysis or a combination of these. Course may be repeated for a maximum of 4 credit hours.

AGEC 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Membership in the Honors College required; Topics in agricultural economics. Course may be repeated for a maximum of 3 credit hours.

AGEC 4970 SPECIAL TOPICS IN AGRICULTURAL ECONOMICS (1-3) LEC. 1-3. Departmental approval. Topics of special interest in agricultural economics. May be repeated with change of topic. Course may be repeated for a maximum of 6 credit hours.

AGEC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

AGEC 4997 HONORS THESIS (1-3) LEC. 3. Pr. Honors College. Directed research and writing of honors thesis. Course may be repeated for a maximum of 3 credit hours.

AGEC 5010 FARM MANAGEMENT (3) LEC. 3. Pr. (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613) and (ECON 2020 or ECON 2023 or ECON 2027) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and AGEC 3100. ECON 2020 or 2023 or 2027 minimum grade of C. Principles of economics applied to agriculture; uses of farm records to improve management of the farm; developing enterprise budgets and use in preparing a profit-maximizing farm plan.

AGEC 5030 AGRICULTURAL PRICES (3) LEC. 3. Pr. (STAT 2010 or STAT 2510 or STAT 2610 or BUAL 2600) and (MATH 1680 or MATH 1610) and ECON 3020. Functions of prices and principles of supply and demand in price determination for agricultural products and markets. Statistical estimation of price and demand relationships. Spring. May count either AGEC 5030 or AGEC 6030.

AGEC 5090 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS I (3) LEC. 3. Pr. ECON 3020. Supply, demand, future requirements and availability of environmental and natural resources plus institutional framework affecting and conditioning such use through property rights, zoning, taxation, etc. May count either AGEC 5090 or AGEC 6090.

AGEC 5100 AGRICULTURAL BUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and AGEC 3100 and ACCT 2210 or ACCT 2217 or ACCT 2810 and P/C AGEC 4040. Principles and problems in acquiring or starting, organizing, and operating successful agribusiness; financial and operational efficiency; human resource and public relations; decision-making tools. May count either AGEC 5100 or AGEC 6100.

AGEC 5210 ADVANCED AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 5100 and ECON 3020 and MATH 1690 and (STAT 2010 or STAT 2510 or STAT 2610). Case studies, managerial economics. May count either AGEC 5210 or AGEC 6210.

AGEC 5250 BIG DATA FOR AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 3200. To expose students to essential tools for acquiring, managing, and visualizing large datasets in agribusiness.

AGEC 6010 FARM MANAGEMENT (3) LEC. 3. Pr. (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613 or MATH 1617) and (ECON 2020 or ECON 2023 or ECON 2027) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600 or BUAL 2603) and (ACCT 2110 or ACCT 2113 or ACCT 2117 or ACCT 2810 or ACCT 2813) and AGEC 3100. ECON 2020/ECON 2027 minimum grade of C. Principles of economics applied to agriculture; uses of farm records to improve management of the farm; developing enterprise budgets and use in preparing a profit-maximizing farm plan.

AGEC 6030 AGRICULTURAL PRICES (3) LEC. 3. Pr. (MATH 1680 or MATH 1683 or MATH 1610 or MATH 1613 or MATH 1617) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or BUAL 2600 or BUAL 2603) and ECON 3020. Functions of prices and principles of supply and demand in price determination for agricultural products and markets. Statistical estimation of price and demand relationships. Spring.

AGEC 6090 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS I (3) LEC. 3. Pr. ECON 3020. Supply, demand, future requirements and availability of environmental and natural resources plus institutional framework affecting and conditioning such use through property rights, zoning, taxation, etc.

AGEC 6100 AGRICULTURAL BUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ACCT 2210 or ACCT 2217 or ACCT 2810) and P/C AGEC 4040. Principles and problems in acquiring or starting, organizing, and operating successful agribusiness; financial and operational efficiency; human resource and public relations; decision-making tools.

AGEC 6210 ADVANCED AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 6100 and ECON 3020 and MATH 1690 and (STAT 2010 or STAT 2510 or STAT 2513 or STAT 2610). Case studies, managerial economics.

AGEC 6250 BIG DATA FOR AGRIBUSINESS MANAGEMENT (3) LEC. 3. To expose students to essential tools for acquiring, managing, visualizing, and analyzing large datasets in agribusiness.

AGEC 7000 ADVANCED AGRICULTURAL AND ENVIRONMENTAL POLICY (3) LEC. 3. Pr. AGEC 6090 and (AGEC 3300 or AGEC 6030 or AGEC 5030). Food and farm problems and related governmental actions from historical, political and analytical viewpoints. Welfare economics and other procedures used to evaluate costs and benefits of existing and proposed governmental programs and actions affecting agriculture, environment and the consumer.

AGEC 7030 ADVANCED AGRICULTURAL PRICES (3) LEC. 3. Pr. AGEC 6030 and ECON 6020. Theory and measurement of farm supply, retail demand and marketing-margin relationships. Introduction to equilibrium-displacement modeling.

AGEC 7080 PRODUCTION ECONOMICS I (3) LEC. 3. Pr. ECON 6020. Resource allocation and efficiency of production in the firm, between firms, and between agriculture and other industries.

AGEC 7090 RESOURCE ECONOMICS II (3) LEC. 3. Pr. AGEC 6090. Analysis of institutional and economic factors affecting use of natural resources including economic feasibility/conservation, benefit-cost analysis, environmental controls and other interventions.

AGEC 7100 OPERATIONS RESEARCH METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Optimization techniques with emphasis on linear programming and its extensions applied to agriculture. General theoretical background and associated computational procedures are used for presentation of models and modeling techniques.

AGEC 7110 AGRICULTURAL ECONOMIC DEVELOPMENT (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Conceptual and empirical analysis of economic development with emphasis on the lesser developed areas and countries. Analysis of financial and technical aid to other countries case studies of development problems.

AGEC 7200 AQUACULTURAL ECONOMICS I (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Application of economic theories and principles to production, marketing, and consumption of aquacultural enterprises and products. Role of aquaculture in economic development.

AGEC 7590 INTRODUCTION TO AGRICULTURAL ECONOMETRICS (3) LEC. 3. Pr. (MATH 1610 or MATH 1613 or MATH 1617) and STAT 2610. Regression analysis in economic research. Model specification and estimation plus introduction to detection and correction of violations of assumptions of OLS. Hypothesis testing, dummy variables, heteroschedasticity, autocorrelation and measurement errors.

AGEC 7690 MICROECONOMETRICS IN AGRICULTURAL ECONOMICS I (3) LEC. 3. Pr. AGEC 7590. The focus will be on implementation and interpretation, as well as on the microeconomic foundations of the econometric models covered in the course.

AGEC 7700 RESEARCH METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. ECON 7130 and AGEC 7590. Overview of the philosophy of science, detailed discussion of how various research tools are used to perform applied research in agricultural economics.

AGEC 7960 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS (1-3) AAB. Departmental approval required; Individualized direction/instruction by faculty on research, teaching and/or outreach issues. Course may be repeated for a maximum of 6 credit hours.

AGEC 7970 SPECIAL TOPICS IN AGRIC ECON (3) LEC. 3. Departmental approval. New topics in agricultural and applied economics.

AGEC 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

AGEC 8060 THEORY OF AGRICULTURAL MARKETS (3) LEC. 3. Pr. AGEC 7590 and ECON 6020. Theory and methods for estimating complete demand systems (e.g., LES, Translog, ALIDS, and Rotterdam) for food products. Introduction to imperfect competition models.

AGEC 8080 PRODUCTION ECONOMICS II (3) LEC. 3. Pr. AGEC 7080. Firm-level economics problems are extended. Consideration of the influence of risk on firm behavior; empirical analysis of theoretical problems; welfare analysis; technical change; impacts of research investments.

AGEC 8090 FOOD AND AGRICULTURAL POLICY (3) LEC. 3. Pr. ECON 6020 or ECON 7000 or ECON 7110. The course will cover current issues in the economics and policies associated with food, food production and marketing.

AGEC 8690 MICROECONOMETRICS IN AGRICULTURAL ECONOMICS II (3) LEC. 3. Pr. AGEC 8310. The focus will be on implementation and interpretation, as well as on the microeconomic foundations of the econometric models covered in the course. May count either AGEC 8310 or AGEC 8690.

AGEC 8890 TOPICS IN AGRICULTURAL MICROECONOMETRICS (3) LEC. 3. Pr. AGEC 8690. This course is meant to assimilate knowledge acquired throughout core coursework in the Agricultural Economics PhD program.

AGEC 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Rural Sociology Courses

RSOC 2090 FOOD SYSTEMS: POLICY, PRODUCTION, AND PRACTICE (3) LEC. 3. Post farm gate transformation of raw commodities into edible food. Supply chain, policy, and consumption issues as they relate to processing, safety, nutrition, and waste in the U.S.

RSOC 3560 ENVIRONMENT, SOCIETY, AND JUSTICE (3) LEC. 3. The course focuses on micro and macro structures influencing environmental problems, and possible pathways for their resolution. The course introduces Environmental Sociology through an action-oriented approach to environmental problems.

RSOC 3620 COMMUNITY ORGANIZATION (3) LEC. 3. Analysis of social organization at the community level. Conceptual framework developed to examine both internal and external forces affecting urban as well as rural communities in the U.S., and to identify strategies to strengthen local capacity to adapt to changing social and economic environments.

RSOC 4910 DIRECTED FIELD EXPERIENCE (3) LEC. 3. Departmental approval. Structured intensive involvement within an agency or organization serving people in communities or rural areas. Supervision is shared between agency personnel and department faculty who plan, consult, discuss, and evaluate student activities and reports.

RSOC 4930 DIRECTED STUDIES (1-3) IND. Departmental approval. Individualized study of topics in rural sociology and community development, natural resources and environmental issues conducted in consultation with a faculty member. Course may be repeated for a maximum of 3 credit hours.

RSOC 4960 SPECIAL PROBLEMS IN RURAL SOCIOLOGY AND COMMUNITY DEVELOPMENT (1-3) LEC. Departmental approval. Investigation of problems in rural sociology and community development, natural resources and environmental issues conducted in consultation with a faculty member. Course may be repeated for a maximum of 3 credit hours.

RSOC 5190 SOCIOLOGY OF SUSTAINABLE AGRIFOOD SYSTEMS (3) LEC. 3. Key trends in alternative production-consumption systems (e.g., rise of small/very-small production and processing, development and feasibility short and values-based supply chains; and food security, justice, equity, sovereignty, and democracy). May count either RSOC 5190 or RSOC 6190.

RSOC 5410 EXTENSION PROGRAMS AND METHODS (3) LEC. 3. An introduction to the Cooperative Extension System and other forms of educational outreach. Application of techniques used in extension and outreach planning and programming.

RSOC 5510 SOCIAL WELFARE, FAMILY AND POVERTY (3) LEC. 3. Pr. SOCY 1000 or SOCY 1007 or ECON 2020 or ECON 2023 or ECON 2027. Description for Bulletin: Measuring and explaining poverty inequality and their effects on families and society, analysis of anti-poverty programs.

RSOC 5610 RURAL SOCIOLOGY (3) LEC. 3. Theories and conceptual approaches to rurality in international and domestic contexts. Rural-urban differences in demographic composition, occupational structure, attitudes, and values of rural people and regional cultures. Rural services and institutions as determinants of the quality of life.

RSOC 5640 SOCIOLOGY OF COMMUNITY DEVELOPMENT (3) LEC. 3. Principles of applied social change at the community level in both industrialized and non-industrialized settings; impacts of economic and technological changes on urban and rural communities; citizen participation in community affairs.

RSOC 5650 SOCIOLOGY OF NATURAL RESOURCES AND THE ENVIRONMENT (3) LEC. 3. The social origins of contemporary environmental problems, emergence of environmentalism as a social movement within industrialized nations, and other topical issues.

RSOC 6190 SOCIOLOGY OF SUSTAINABLE AGRIFOOD SYSTEMS (3) LEC. 3. This is an advanced course that will focus on key trends in alternative production-consumption systems (e.g., rise of small/very-small production and processing, development and feasibility short and values-based supply chains; and food security, justice, equity, sovereignty, and democracy).

RSOC 6410 EXTENSION PROGRAMS AND METHODS (3) LEC. 3. An introduction to the Cooperative Extension System and other forms of educational outreach. Application of techniques used in extension and outreach planning and programming.

RSOC 6510 SOCIAL WELFARE, FAMILY AND POVERTY (3) LEC. 3. Description for Bulletin: Measuring and explaining poverty and inequality and their effects on families and society; analysis of anti-poverty programs.

RSOC 6610 RURAL SOCIOLOGY (3) LEC. 3. Theories and conceptual approaches to rurality in international and domestic contexts. Rural-urban differences in demographic composition, occupational structure, attitudes and values of rural people and regional cultures. Rural services and institutions as determinants of the quality of life.

RSOC 6650 SOCIOLOGY OF NATURAL RESOURCES AND THE ENVIRONMENT (3) LEC. 3. The social origins of contemporary environmental problems, emergence of environmentalism as a social movement within industrialized nations, and other topical issues.

RSOC 7620 SOCIOLOGY OF COMMUNITY (3) LEC. 3. Emphasis on theories, conceptual approaches and methods for studying communities and assessing developmental needs with attention to organizational structure, power structure, decision-making and linkage networks to societal units.

RSOC 7630 POLITICAL ECONOMY OF DEVELOPMENT (3) LEC. 3. Theories of societal development applied to contemporary issues associated with change in non-industrialized nations. Exploration of institutional, class, and state interests that guide development processes, as well as alternative participatory development strategies.

RSOC 7700 METHODS OF SOCIAL RESEARCH (3) LEC. 3. Problem identification, hypothesis development and empirical analysis. Quantitative and qualitative procedures for obtaining social data using surveys, direct observation and secondary sources.

RSOC 7960 SPECIAL PROBLEMS IN RURAL SOCIOLOGY AND COMMUNITY DEVELOPMENT (1-3) LEC. Pr., departmental approval. Investigation of a problem in a particular area of interest involving an in-depth review of the literature, a research project, or an outreach education activity. Course may be repeated for a maximum of 6 credit hours.

RSOC 7970 SPECIAL TOPICS IN RURAL SOCIOLOGY AND COMMUNITY DEVELOPMENT (3) LEC. 3. Departmental approval. New topic in the area of rural sociology and community development.

RSOC 7990 RESEARCH AND THESIS (1-10) MST. In conjunction with the preparation of a thesis. Course may be repeated with change in topics.

Agribusiness Minor

15 semester hours in minor (minimum 9 hours at 3000-level or above)

Code	Title	Hours
AGEC 3010	Agribusiness Marketing	3
Select one of the following:		3
AGEC 4000	Principles of Agribusiness Management	
AGEC 5010	Farm Management	
AGEC 5100	Agricultural Business Management

AGEC 4970	Special Topics in Agricultural Economics	1-3
AGEC 5030	Agricultural Prices	3

Agricultural Business & Economics (AGEC)

The Agricultural Business and Economics major focuses on the business and economic aspects of farming, food and fiber production, and resource management. The major provides students with skills in economics, business management, finance, marketing, international trade, data analysis, and policy analysis related to agriculture and prepares students to make sound business and economic decisions. The Agricultural Business and Economics major prepares students to enter different careers available in the business and agricultural industries, such as agribusiness marketing, agribusiness management, agricultural law, agricultural lending and finance, agricultural commodity trading and merchandising, farm management, government, and education. This major is ideal for those interested in the intersection of agriculture, business, and economics, as it prepares graduates to work in both the private and public sectors. Graduates will become business leaders, economists, and policy makers who shape the future of food and agriculture.

Total Hours: 120

Total Hours Required: 120

"Courses in the major" are in **bold** print and designated (M) (36 credit hours; used to calculate "GPA in the major")

1 PHIL 1020 Introduction to Ethics or PHIL 1027 Introduction to Ethics or PHIL 1120 Introduction to Environmental Ethics may be substituted.

2 Select one Agriculture Elective from Group I and one from Group II below:
(Group I- Animal Sciences) ANSC 1000, or POUL 1000, or FDSC 1000
(Group II- Plant Sciences) CSES 2000, HORT 2010, HORT 2020, or HORT 2030

3 Select from any course at the 3000-level or higher in the College of Agriculture, the College of Business, College of Sciences and Mathematics or the College of Forestry, Wildlife and Environment, as well as offerings at the 3000 level or better in Sociology, Anthropology, Geography, Political Science, or Statistics (except AGEC 4000 Principles of Agribusiness Management). Basic Soil Science (CSES 2040) may also be counted as a professional elective, as may up to 8 hours of a foreign language, regardless of the level. Any course that is used to complete a minor may also be counted as a professional elective. Students are encouraged to see their advisors to plan their professional electives around an interest area that best meets their career aspirations. If the student does not have a minor, the student is required to take 5 credits from AGEC 3080, AGEC 3050, AGEC 4100, AGEC 5250, AGEC 3920, AGEC 4960, or RSOC 5410/RSOC 6410. No more than six hours of professional electives can come from X9XX courses. A maximum of three credits from AGEC 3920 is allowed.

4 If the selected Agricultural Elective is 3 hours, the Free Elective requirement will be increased by 1 hour. A total of 120 hours is required for this major.

5 AGEC Students are required to make C or higher in ECON 2020.

Natural Resources Economics and Environmental Policy Minor

15 semester hours in minor (minimum 12 hours at 3000-level or above)

Code	Title	Hours
Group A		
Select three of the following:		9
AGEC 5090	Environmental and Natural Resource Economics I	
RSOC 5650	Sociology of Natural Resources and the Environment	
RSOC 3620	Community Organization	
GEOG 5830	Geographic Information Systems	
Group B		
Select two of the following:		6
AGEC 3300	Agricultural Policies and Trade	
RSOC 3560	Environment, Society, and Justice	
AGEC 4120	Environmental and Natural Resource Economics	
NATR 5310	Environmental Ethics	

FORY 5540/6540	Environmental Law	
Total Hours		**15**

Rural and Community Development Minor

15 semester hours in minor (minimum 9 hours at 3000-level or above)

Code	Title	Hours
RSOC 3620	Community Organization	3
Elective Courses - See advisor for approved course listing.		9
RSOC 5610	Rural Sociology	3
Total Hours		**15**

Code	Title	Hours
Choose 9 hours of elective courses.		
RSOC 2090	Food Systems: Policy, Production, and Practice	3
RSOC 3560	Environment, Society, and Justice	3
SOCY 3700	Methods of Social Research	3
RSOC 4910	Directed Field Experience	3
RSOC 4930	Directed Studies	1-3
RSOC 5510	Social Welfare, Family and Poverty	3
RSOC 5650	Sociology of Natural Resources and the Environment	3

Department of Crop, Soil and Environmental Sciences

The Department of Crop, Soil and Environmental Sciences offers four degree options (production, science, turfgrass, and soil, water, and land use) and administers the interdisciplinary environmental sciences major. Degrees are tailored to prepare students in a wide range of careers in the turfgrass industry, agri-life industry (e.g., producers of fertilizers, herbicides and other agricultural products), farm-advisory agencies (e.g., soil-testing laboratories and other private consultants), environmental consulting and regulatory agencies, public farm-advisory agencies e.g., Agricultural Extension System or the Natural Resources Conservation Service), research agencies or corporations, U.S. Department of Agriculture, colleges and universities, agricultural experiment stations, farming, and environmental agencies.

Majors

-
- Crop and Soil Sciences (p. 222)
- Crop and Soil Sciences — Turfgrass Option (p. 224)
- Environmental Science (p. 226)

Minors

- Crop and Soil Sciences (p. 224)
- Stewardship-based Agriculture (p. 227)

Courses

CSES 1010 SOILS AND LIFE (4) LEC. 3. LAB. 2. Science Core. Practical applications of important soil properties and their function in everyday life. Connections between soils and human life will be made. topics include food security, sustainable agricultural production, soil and water quality, and waste disposal.

CSES 1020 CROPS AND LIFE (4) LEC. 3. LAB. 2. Science Core. Essential role of crop plants to human life. Topics will include historical development of crop science, impact of crop science on human development, and major issues and problems facing modern crop science and technology.

CSES 2000 BASIC CROP SCIENCE (4) LEC. 3. LAB. 2. Agronomic principles of classification, growth, structure, and soil-plant relationship of field crops, with emphasis on influence of man and environment, and importance of crop production.

CSES 2040 BASIC SOIL SCIENCE (4) LEC. 3. LAB. 2. Pr. (CHEM 1010 and CHEM 1011) or (CHEM 1030 and CHEM 1031) or (CHEM 1110 and CHEM 1111) or (CHEM 1117 and CHEM 1118) or (CHEM 1033 and CHEM 1031). Formation, classification, properties, management, fertility and conservation of soils in relation to the growth of plants. Fall, Spring.

CSES 2910 TURFGRASSES: USES AND CARE FOR SPORTS AND LEISURE (2) LEC. 2. Introduction to the commonly used turfgrasses of the southeastern United States including of these turfgrasses for gold courses, athletic fields and home lawns will be included. This course may not be substituted for CSES 3150.

CSES 3120 PRINCIPLES OF WEED SCIENCE (4) LEC. 3. Pr. CSES 2040 or AGRN 2040 and (BIOL 1020 or BIOL 1027). Weed identification and biology, methods of weed management and classification of herbicides and how they are used in weed control. Laboratory subjects are weed identification and sprayer calibration. Fall.

CSES 3150 TURFGRASS MANAGEMENT (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or AGRN 2040) and (BIOL 1020 or BIOL 1027). The management of recreational and home area turfgrass will be studied including establishment and maintenance of turf and the effect of light, traffic, soil fertility and water on its growth. Fall, Spring.

CSES 3200 APPLIED TURF MANAGEMENT (3) LEC. 1. LAB. 4. Pr. P/C CSES 3150 or AGRN 3150. Familiarize students with the operation and maintenance of the equipment used for turfgrass maintenance. Effects on turfgrass performance will also be covered.

CSES 3300 PLANT GENETICS AND CROP IMPROVEMENT (3) LEC. 3. Pr. (P/C CSES 2000) or (BIOL 1020). Principles related to mendelian, population, and molecular genetics of plants including inheritance of qualitative and quantitative traits, and plant transformation. Improvement of crop plants including heritability, role of environment, pedigree selection, recurrent selection, the backcross method, and marker-assisted selection. Fall

CSES 3400 SUSTAINABLE MANAGEMENT OF TROPICAL SOILS (3) LEC. 3. LAB. 0, AAB/LEC. 0. This course explores the unique characteristics of tropical soils, focusing on their genesis, and physical, chemical, and biological properties. Students will learn to apply sustainable management practices that enhance soil health and productivity in tropical environments. The course integrates scientific principles with practical approaches to address challenges in soil conservation and agricultural sustainability in tropical regions.

CSES 3920 INTERNSHIP (3) INT. 3. Practical experience under the the supervision of an approved employer and the department. Internship may be in the areas of production, business, turf or science. Course may be repeated for a maximum of 6 credit hours.

CSES 3960 SPECIAL PROBLEMS (2) LAB. 2. Departmental approval. Individual and group problems investigations in crop, soil or weed science. Course may be repeated for a maximum of 4 credit hours.

CSES 3970 SPECIAL TOPICS (3) AAB/ST1. 3. New topics in agronomy and soils. Course may be repeated for a maximum of 6 credit hours.

CSES 4100 CROPS JUDGING (2) LEC. 1. LAB. 2. Departmental approval. Crops Judging is a course designed to prepare students for the national Crops Judging contest held at the Students of Agronomy, Soils and Environmental Sciences annual meeting. Students will learn practical knowledge to diagnose in-field agronomic problems such as crop nutrient deficiencies, disease damage, insect damage, weed pressure, herbicide injury, and soil management issues. Students must participate in the Crops Judging Contest at the SASES meeting in the semester the class is taken. Course may be repeated for a maximum of 6 credit hours.

CSES 4200 SOIL JUDGING (2) LEC. 1. LAB. 4. Description, evaluation and interpretation of soil-profile characteristics. Fall. Course may be repeated for a maximum of 8 credit hours.

CSES 4210 ADVANCED SOIL JUDGING (2) LEC. 1. LAB. 2. Pr. CSES 4200 or AGRN 4200. Advanced description, evaluation, and interpretations of soil-profile characteristics. Spring. Course may be repeated for a maximum of 8 credit hours.

CSES 4300 TURFGRASS COMPETITIONS (2) LEC. 1. LAB. 2. Departmental approval. The class is a comprehensive overview of practical turfgrass management in preparation for student competitions organized by the Sports Field Managers Association 9SFMA Student Challenge)and the Golf Course Superintendents Association of America (Turf Bowl). Students will compete in one or both of these contests during the semester following successful completion of the course. Course may be repeated for a maximum of 6 credit hours.

CSES 4950 SENIOR SEMINAR (2) LEC. 2. This course will cover professional presentations, both oral and written, in the area of Agronomy and Soils.

CSES 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Course may be repeated for a maximum of 3 credit hours.

CSES 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

CSES 5000 ENVIRONMENTAL QUALITY (3) LEC. 3. Role of global land use in biogeochemical cycling of major elements and compounds of environmental concern; interactions of pollutants with soils and aquatic and atmospheric environments; methods to minimize or correct pollution; risk assessment.

CSES 5010 ANALYSIS OF PLANT, SOIL, AND ANIMAL DATA (3) LEC. 3. Pr. MATH 1130 or STAT 2510. Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc.

CSES 5020 NUTRIENT MANAGEMENT (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Lectures and problems illustrate principles of nutrient management as related to soil or growth media, plant, fertilizer practices, management systems and environment. Required for all students majoring in Agronomy and Soils. Spring.

CSES 5030 ADVANCED CROP SCIENCE (3) LEC. 3. Pr. (CSES 1000 or CSES 1003 or CSES 2000) or (AGRN 1000 or AGRN 1003 or AGRN 1007) or (AGRN 2040 or AGRN 2043) and (CSES 2040 or CSES 2043) and (BIOL 1030 or BIOL 1037). Application and integration of principles from undergraduate agricultural, biological and physical sciences courses in management of crop production systems. May count either CSES 5030.

CSES 5060 SOIL MICROBIOLOGY LECTURE (3) LEC. 3. Pr. BIOL 3200. Ecology, physiology, and biochemistry of soil microorganisms with emphasis on soil microbial processes that are important to environmental quality and soil productivity. Spring.

CSES 5061 SOIL MICROBIOLOGY LAB (1) LAB. 2. Pr. (P/C CSES 5060 or P/C CSES 5063) or (P/C AGRN 5060 or P/C AGRN 5063). Laboratory exercises illustrating ecology, physiology, and biochemistry of soil microorganisms. Credit will not be given for both CSES 5061 and CSES 6061. Spring.

CSES 5080 SOIL RESOURCES AND CONSERVATION (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Soils as a natural resource for land-use planning; their use and management for sustainable crop production, urban and industrial development and ecosystem protection. CSES 5080 Summer. CSES 5083 Fall.

CSES 5100 PLANT GENETICS AND CROP IMPROVEMENT (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Principles related to mendelian, population, and molecular genetics of plants including inheritance of qualitative and quantitative traits, and plant transformation. Improvement of crop plants including heritability, role of environment, pedigree selection, recurrent selection, the backcross method, and marker-assisted selection. Fall

CSES 5110 PLANT BREEDING I (3) LEC. 3. Pr. CSES 3300 or BIOL 3000 or BIOL 3003 or AGRI 3000. Fundamental principles and theories utilized in the science of plant breeding and cultivar development and the role breeding plays in crop improvement.

CSES 5120 PLANT BREEDING II (3) LEC. 3. Pr. CSES 5110. Review and contrast how major crop species breeding strategies are determined. Emphasis on integration of traditional methodologies with modern genetic and genomic technologies.

CSES 5150 SOIL MORPHOLOGY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Physical, chemical and mineralogical properties of soils are studied in relation to their distribution and classification for environmental, engineering and agricultural use and interpretations. Spring.

CSES 5160 ADVANCED TURFGRASS MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) or (AGRN 3150 or AGRN 3153). Factors affecting the turfgrass plant as a component of a dynamic community. Influence of soil chemical and physical conditions, management practices and climate are discussed. Theoretical and practical aspects of turfgrass management practices are discussed along with design and construction of golf courses and other athletic purpose turf areas.

CSES 5200 APPLIED WEED SCIENCE TECHNOLOGY (3) LEC. 2. LAB. 2. Pr. CSES 3120 or AGRN 3120. Advanced weed identification, pesticide application technology, identification of herbicide injury symptomology, and develop of interaction techniques and problem solving skills for dealing with potential herbicide efficacy problems. Course may be repeated for a maximum of 6 credit hours.

CSES 5230 DRONES FOR CROP PRODUCTION (3) LEC. 2. LAB. 2. Pr. (CSES 2000) and (CSES 2040). Use of drone technology for crop production including applications of pesticides and fertilizers, planting cover crops, and capturing remote imagery to monitor plant health and make crop management decisions. Department approval.

CSES 5240 CROP PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3100 or HORT 3000. Integrates principles of plant physiology, biochemistry, ecology, and genetics as they relate to plant growth and development and crop yield. The effect of management practices and abiotic stress on plant growth and development will be discussed. Credit will only be given for one of the following: CSES 5240 or CSES 6240.

CSES 5250 AQUATIC SEDIMENTS (4) LEC. 3. LAB. 1. An overview of sediments in aquatic environments with a focus on the biogeochemistry, storage capacity, and use in paleoenvironmental reconstruction.

CSES 5300 SOIL CHEMISTRY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). An introduction to the basic soil chemical properties of mineral composition, weathering, absorption, cation exchange, acidity, alkalinity, salinity and soil reactions with fertilizers, pesticides and heavy metals. Spring.

CSES 5400 BIOENERGY AND THE ENVIRONMENT (3) LEC. 3. The role of bioenergy in reducing environmental problems related to use of fossil fuels and certain agricultural practices, and in addressing declining rural economies.

CSES 5500 FORAGE PRODUCTION AND UTILIZATION (3) LEC. 3. Grass and legume forage crops. The crops are considered from the standpoint of (a) pasture crops, (b) hay and silage crops, (c) soil-improving crops. Spring. May count either CSES 5500 or CSES 5503.

CSES 5590 ENVIRONMENTAL SOIL PHYSICS AND VADOSE ZONE HYDROLOGY (4) LEC. 3. LAB. 2. Pr. CSES 2040. Explore the dynamic interplay of soil physical properties and vadose zone hydrology in this comprehensive environmental soil physics course. Delve into the intricate mechanisms governing the movement of water, chemicals, heat, and gases through soils within diverse ecosystems, including agricultural, urban, and natural landscapes. Uncover the complexities of the soil-plant-atmosphere continuum and gain hands-on experience with field instrumentation for precise measurement and assessment of soil physical properties.

CSES 5800 CLIMATE, WATER, AND LIFE (3) LEC. 3. LAB. 0. The course will introduce essential hydroclimate processes and phenomena, and their impacts on water resources, food and agriculture, and ecosystems. Major topics include climate variability and change, radiation, temperature, humidity, precipitation, land surface energy and water fluxes, their linkages with plants and humans, and climate hazards and resiliency.

CSES 5960 SPECIAL PROBLEMS (1-3) IND. Work under the direction of a staff member on special problems in crop, soil or weed science. Course may be repeated for a maximum of 6 credit hours.

CSES 6000 ENVIRONMENTAL QUALITY (3) LEC. 3. Role of global land use in bio-geochemical cycling of major elements and compounds of environmental concern; interactions of pollutants with soils and aquatic and atmospheric environments; methods to minimize or correct pollution; risk assessment.

CSES 6010 ANALY PLANT, SOIL & ANI DATA (3) LEC. 3. Pr. (MATH 1130 or MATH 1133) or (STAT 2510 or STAT 2513). Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc.

CSES 6020 NUTRIENT MANAGEMENT (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Lectures and problems illustrate principles of nutrient management as related to soil or growth media, plant, fertilizer practices, management systems and environment. Required for all students majoring in Agronomy and Soils. Spring.

CSES 6030 ADVANCED CROP SCIENCE (3) LEC. 3. Application and integration of principles from undergraduate agricultural, biological and physical sciences courses in management of crop production systems. May count either CSES 5030/CSES 6030 or CSES 5033/CSES 6036.

CSES 6060 SOIL MICROBIOLOGY LECTURE (3) LEC. 3. Ecology, physiology, and biochemistry of soil microorganisms with emphasis on soil microbial processes that are important to environmental quality and soil productivity. Spring.

CSES 6061 SOIL MICROBIOLOGY LAB (1) LAB. 2. Pr. (P/C CSES 6060 or P/C CSES 6066) or (P/C AGRN 6060 or P/C AGRN 6066). Laboratory exercises illustrating ecology, physiology, and biochemistry of soil microorganisms. Credit will not be given for both CSES 5061 and CSES 6061. Spring.

CSES 6080 SOIL RESOURCES AND CONSERVATION (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Soils as a natural resource for land-use planning; their use and management for sustainable crop production, urban and industrial development and ecosystem protection. CSES 6080 Summer. CSES 6086 Fall.

CSES 6110 PLANT BREEDING I (3) LEC. 3. Fundamental principles and theories utilized in the science of plant breeding and cultivar development and the role breeding plays in crop improvement.

CSES 6120 PLANT BREEDING II (3) LEC. 3. Pr. CSES 6110. Review and contrast how major crop species breeding strategies are determined. Emphasis on integration of traditional methodologies with modern genetic and genomic technologies.

CSES 6150 SOIL MORPHOLOGY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Physical, chemical and mineralogical properties of soils are studied in relation to their distribution and classification for environmental, engineering and agricultural use and interpretations. Spring.

CSES 6160 ADVANCED TURFGRASS MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) and (BIOL 3100 or BIOL 6130) or (AGRN 3150 or AGRN 3153). Factors affecting the turfgrass plant as a component of a dynamic community. Influence of soil chemical and physical conditions, management practices and climate are discussed. Theoretical and practical aspects of turfgrass management practices are discussed along with design and construction of golf courses and other athletic purpose turf areas.

CSES 6200 APPLIED WEED SCIENCE TECH (3) LEC. 2. LAB. 2. Advanced weed identification, pesticide application technology, identification of herbicide injury symptomology, and develop of interaction techniques and problem solving skills for dealing with potential herbicide efficacy problems. Course may be repeated for a maximum of 6 credit hours.

CSES 6230 DRONES FOR CROP PRODUCTION (3) LEC. 2. LAB. 2. Use of drone technology for crop production including applications of pesticides and fertilizers, planting cover crops, and capturing remote imagery to monitor plant health and make crop management decisions. Department approval for undergraduate version.

CSES 6240 CROP PHYSIOLOGY (3) LEC. 3. Integrates principles of plant physiology, biochemistry, ecology, and genetics as they relate to plant growth and development and crop yield. The effect of management practices and abiotic stress on plant growth and development will be discussed. Credit will only be given for one of the following: CSES 5240 or CSES 6240.

CSES 6250 AQUATIC SEDIMENTS (4) LEC. 3. LAB. 1. An overview of sediments in aquatic environments with a focus on the biogeochemistry, storage capacity, and use in paleoenviromental reconstruction.

CSES 6300 SOIL CHEMISTRY (4) LEC. 2. LAB. 4. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). An introduction to the basic soil chemical properties of mineral composition, weathering, absorption, cation exchange, acidity, alkalinity, salinity and soil reactions with fertilizers, pesticides and heavy metals. Spring.

CSES 6400 BIOENERGY AND THE ENVIRONMENT (3) LEC. 3. The role of bioenergy in reducing environmental problems related to use of fossil fuels and certain agricultural practices, and in addressing declining rural economies.

CSES 6500 FORAGE PRODUCTION AND UTILIZATION (3) LEC. 3. Pr., In major or departmental approval. Grass and legume forage crops. The crops are considered from the standpoint of (a) pasture crops, (b) hay and silage crops, (c) soil-improving crops and (d) energy crops. May count either CSES 6500 or CSES 6506.

CSES 6590 ENVIRONMENTAL SOIL PHYSICS AND VADOSE ZONE HYDROLOGY (4) LEC. 3. LAB. 2. Pr. CSES 2040. Explore the dynamic interplay of soil physical properties and vadose zone hydrology in this comprehensive environmental soil physics course. Delve into the intricate mechanisms governing the movement of water, chemicals, heat, and gases through soils within diverse ecosystems, including agricultural, urban, and natural landscapes. Uncover the complexities of the soil-plant-atmosphere continuum and gain hands-on experience with field instrumentation for precise measurement and assessment of soil physical properties.

CSES 6800 CLIMATE, WATER, AND LIFE (3) LEC. 3. The course will introduce essential hydroclimate processes and phenomena, and their impacts on water resources, food and agriculture, and ecosystems. Major topics include climate variability and change, radiation, temperature, humidity, precipitation, land surface energy and water fluxes, their linkages with plants and humans, and climate hazards and resiliency.

CSES 6900 DIRECTED STUDIES (1-3) DSL/LEC. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 6930 ADVANCED DIRECTED STUDIES (1-3) DSL/LEC. SU. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 6960 SPECIAL PROBLEMS (1-3) DSL/IND. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 7080 EXPERIMENTAL METHODS (3) LEC. 3. Pr. STAT 7000. Experimentation in the agricultural sciences including experimental techniques, interpretation of research data, use of library references, and preparation of publications. Problems, assigned readings and lectures. Summer.

CSES 7100 AGINFORMATICS: COMPUTATIONAL THINKING FOR AGRICULTURE (3) LEC. 2. LAB. 2. Computer programming for applied sciences. Focus on the Python programming language and utilization of the Unix command line. Python programming from basics of control structures to object-oriented programming. Course will cover script development using integrated development environments and accessing data via APIs. Course will cover the command line interface and introduction to Bash scripting.

CSES 7120 PLANT GENOMICS (3) LLB. Hands-on bioinformatics of complex plant genomes, including assembly and annotation. Writing- and bioinformatics-intensive course that culminates in a plant genome manuscript. Fall.

CSES 7140 CHEMISTRY AND USE OF HERBICIDES IN CROP PRODUCTION (4) LEC. 3. LAB. 2. Pr. CHEM 1040. Principles and use of herbicides in agronomic crops. Methods of herbicide application, including time, incorporation and formulation, the fate of herbicides in soil and the ecological impact on succeeding plant species. Fall.

CSES 7160 GENETIC DATA ANALYSIS (3) LEC. 3. Pr. (CSES 5100 or CSES 5103) or (CSES 6100 or CSES 6106) and STAT 4020 or (AGRN 5100 or AGRN 5103) or (AGRN 6100 or AGRN 6106). Introduces procedures to study the genetic characteristics of individuals and populations. Computer models will be used to simulate genomes and traits. Application of quantitative methods to experimental populations used to plan breeding programs. Fall.

CSES 7170 ADVANCED PLANT BREEDING (3) LEC. 3. Pr. CSES 7160 or (AGRN 7160 or AGRN 7166). Estimation and interpretation of genetic variance components, heritability, selection response, yield stability indices and their effect on choice of breeding method. Recurrent selection theory and breeding for resistance to plant stresses.

CSES 7180 SUSTAINABLE AGROECOLOGY (3) LEC. 3. Pr. (BIOL 6130 or CSES 7250) or (AGRN 7250 or AGRN 7256) and (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). The study of interactions between crops and abiotic and biotic environments. Emphasis is placed on quantitatively examining theory and principles for production, stability and sustainability of agricultural ecosystems. Graduate standing in CSES or departmental approval

CSES 7200 WEED BIOLOGY AND ECOLOGY (4) LEC. 3. LAB. 2. Students will learn a broader understanding of and appreciation for the biology and bionomics of agricultural weeds and invasive species, relevant analytical tools, and the application of ecological concepts for sustainable weed management in agricultural and natural systems.

CSES 7270 QUANTITATIVE GENETICS IN PLANT BREEDING (3) LEC. 3. Quantitative and population plant genetics and their interrelationship with plant breeding. Genetic and environmental variation and how they relate to selection procedures and choice of type of variety. Predictive plant breeding. QTL discovery, molecular breeding, and genomic selection in an applied breeding program.

CSES 7540 PRINCIPLES OF PLANT NUTRITION (3) LEC. 3. Pr. CSES 6020 or CSES 6026 or (AGRN 6020 or AGRN 6026). Processes of nutrient flux to plant roots growing in soil. Chemistry and properties of soil in relation to the nutrition and growth of plants. Summer.

CSES 7600 AGROCLIMATOLOGY (3) LEC. 3. The relationships between climatological processes and agriculture, including precipitation, evapotranspiration, meteorological hazards, irrigation and drainage, crop development, climate data acquisition and analysis, crop-weather models, and impacts of global climate change. May count either CSES 7600 pr CSES 7606.

CSES 7670 SPECIAL TOPICS (1-4) DSL/LEC. Advanced topics related to Crop, Soil and Environmental Sciences. Course may be repeated for a maximum of 8 credit hours.

CSES 7800 DEEP LEARNING FOR ENVIRONMENTAL SCIENCES (3) LEC. 2. LAB. 2. The course will cover concepts and applications of deep learning for environmental sciences. The goal is to understand the concepts and applications of deep learning methods in environmental sciences, formulate relevant environmental, climate, and earth system science problems, and how to use these methods for understanding and developing creative solutions to these problems.

CSES 7950 SEMINAR (1) DSL/SEM. 1. SU. Required of all graduate students in Agronomy and Soils. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

CSES 7970 SPECIAL TOPICS (1-4) LEC. 1-4, LAB. 1-4. Advanced topics related to Crop, Soil and Environmental Sciences. Course may be repeated for a maximum of 8 credit hours.

CSES 7990 RESEARCH AND THESIS (1-10) DSL/MST. Research and thesis on problems in the soil and crop sciences. Course may be repeated with change in topics.

CSES 8570 PHYSICAL SOIL CHEMISTRY (3) LEC. 3. Pr. (CSES 6300 or CSES 6306) and CHEM 6070 or (AGRN 6300 or AGRN 6306). Interpretation of soil properties and chemical reactions in terms of ion exchange, solubility diagrams, solutions equilibria, electrochemistry and electrokinetics of charged particles. Fall.

CSES 8580 FATE AND TRANSPORT OF CHEMICALS IN SOILS (3) LEC. 3. Pr. MATH 1720 and (PHYS 1600 or PHYS 1607) and CSES 7590. Transport phenomena in soils. Physical principles and analysis of the storage and movement of water, solutes, heat, and gases in soils. Spring.

CSES 8990 RESEARCH AND DISSERTATION (1-10) DSR. Research and dissertation on problems in the soil and crop sciences. Course may be repeated with change in topics.

Crop and Soil Sciences (CSSN)

Freshman

Fall	Hours	Spring	Hours
CSES 2000 Basic Crop Science[1]	**4**	Core Social Science[2,3]	3
ENGL 1100 English Composition I	3	Core History	3
BIOL 1020 Principles of Biology	3	CHEM 1111 General Chemistry I Laboratory ***or*** 1031 Fundamental Chemistry I Laboratory	1
BIOL 1021 Principles of Biology Laboratory	1	CHEM 1110 General Chemistry I ***or*** 1030 Fundamentals Chemistry I	3

	15-16		**16**

Total Hours: 120-121

1 Courses in **bold** are major courses and require a 2.0 minimum GPA for graduation.

2 Please see advisor. Student choice on whether to do Literature or History sequence. University requires 12 hours of both Social Science and Humanities core.

3 Suggested Core Social Science
AGEC 1000 Global Issues in Food, Agriculture, Development, and Environment
SUST 2000 Introduction to Sustainability
COUN 2000 Living and Communicating in a Diverse Society
ECON 2020 Principles of Microeconomics

4 Directed Electives: (25-27 hr)
Please see advisor for specific course electives in the area of interests:

1. Plant Breeding and Genetics
2. Precision Agriculture
3. Crop Management, Consulting or Extension
4. Plant or Soil Science Research
5. Soil Conservation
6. Soil Remediation

5 Suggested Core Humanities
PHIL 1010 Introduction to Logic
PHIL 1020 Introduction to Ethics
PHIL 1110 Ethical and Conceptual Foundations of Science
PHIL 1120 Introduction to Environmental Ethics

6 Precision Agriculture: Choose one course (3-4 hr)
GEOG 5830 Geographic Information Systems
BSEN 5220 Geospatial Technologies in Biosystems
GEOG 5700 Quantitative Methods and Spatial Analysis

7 Soil and/or Water: (3-4hr)
CSES 5080 Soil Resources and Conservation
CSES 5250 Aquatic Sediments
CSES 5800 Climate, Water, and Life
FISH 5220 Water Science
FISH 5320 Limnology

8 Plant Protection: Choose one course (3-4 hrs)

	CSES 3120 Principles of Weed Science PLPA 3000 General Plant Pathology ENTM 4020 Economic Entomology ENTM 5330 Integrated Pest Management ENTM 3040 General Entomology ENTM 5360 Landscape Entomology
9	Learning experiences such as Internship, Undergraduate Research, Judging, etc. See advisor for current list of opportunities.

Crop and Soil Sciences Minor

17 semester hours in minor (minimum 9 hours at 3000-level or above)

Code	Title	Hours
CSES 2000	Basic Crop Science	4
CSES 2040	Basic Soil Science	4
Elective Courses - Choose 3 CSES courses at 3000 level or higher		9-12
Total Hours		**17-20**

Crop and Soil Sciences — Turfgrass Option (CSTU)

Freshman

Fall	Hours	Spring	Hours
CSES 2000 Basic Crop Science[1]	**4**	Core Social Science[2,3]	6
BIOL 1020 Principles of Biology & BIOL 1021 Principles of Biology Laboratory	4	Core History	3
MATH 1130 Pre-Calculus Trigonometry ***or*** 1120 Pre-Calculus Algebra	3	ENGL 1120 English Composition II	3
ENGL 1100 English Composition I	3	CHEM 1110 General Chemistry I ***or*** 1030 Fundamentals Chemistry I	3
		CHEM 1111 General Chemistry I Laboratory ***or*** 1031 Fundamental Chemistry I Laboratory	1
	14		**16**

Sophomore

Fall	Hours	Spring	Hours	Summer	Hours
CSES 2040 Basic Soil Science	**4**	**CSES 3150 Turfgrass Management**	**4**	CSES 3920 Internship	3
STAT 2510 Statistics for Biological and Health Sciences	3	CHEM 1120 General Chemistry for Scientists and Engineers II ***or*** 1040 Fundamental Chemistry II	3		
BIOL 1030 Organismal Biology	3	CHEM 1121 General Chemistry II Laboratory ***or*** 1041 Fundamental Chemistry II Laboratory	1		
BIOL 1031 Organismal Biology Laboratory	1	BIOL 3100 Plant Biology ***or*** HORT 3000 Growth and Development of Horticultural Plants	4		
COMM 1000 Public Speaking	3	Core Literature	3		
	14		**15**		**3**

Junior

Fall	Hours	Spring	Hours	Summer	Hours
CSES 5160 Advanced Turfgrass Management	**3**	**CSES 5060 Soil Microbiology**	**3**	CSES 3920 Internship	3
BIOL 3200 General Microbiology	3	**CSES 5061 Soil Microbiology Lab**	**1**		
BIOL 3201 General Microbiology Laboratory	1	**CSES 5020 Soil Fertility and Nutrient Management**	**3**		
Core Literature II or Humanities [4]	3	Plant Protection [6]	4		
Directed Elective[5]	4	Core History II or Social Science[3]	3		
	14		**14**		**3**

Senior

Fall	Hours	Spring	Hours
CSES 5000 Environmental Quality	**3**	**CSES 4950 Senior Seminar**	**2**
Precision Ag[7]	4	UNIV 4AA0 Achieve the Creed	0
Directed Elective[5]	4	Soil and Water[8]	3-4
Core Fine Arts	3	Plant Protection[6]	8
	14		**13-14**

Total Hours: 120-121

1 Courses in boldface type are major courses and require a 2.0 minimum GPA for graduation.

2 Suggested Core Social Studies:
AGEC 1000 Global Issues in Food, Agriculture, Development, and Environment
COUN 2000 Living and Communicating in a Diverse Society
SUST 2000 Introduction to Sustainability
ECON 2020 Principles of Microeconomics

3 Please see advisor. Student choice on Literature or History sequence. University requires 12 hours of Social Science and Humanities core.

4 Suggested Core Humanities:
PHIL 1010 Introduction to Logic
PHIL 1020 Introduction to Ethics
PHIL 1110 Ethical and Conceptual Foundations of Science
PHIL 1120 Introduction to Environmental Ethics

5 Directed Electives (8hrs)
(Substitutions to this list must be approved by the program coordinator and be at or above 3000-level.):
CHEM 2070 Organic Chemistry I
CHEM 2071 Organic Chemistry I Laboratory
CHEM 2030 Survey of Organic Chemistry
BATM 3560 Turf Systems Irrigation Design
HORT 3210 Woody Landscape Plant Identification II
HORT 3220 Arboriculture
HORT 5210 Landscape Bidding, Installation and Maintenance
HORT 3280 Landscape Construction
CSES 5030 Advanced Crop Science
CSES 3300 Plant Genetics and Crop Improvement
CSES 5500 Forage Production and Utilization
CSES 5150 Soil Morphology
CSES 5080 Soil Resources and Conservation
CTCT 2100 Power Equipment Technology

6	CTCT 4140 Agricultural Structure and Metal Fabrication Technology Plant Protection: (12hrs) CSES 3120 Principles of Weed Science PLPA 3000 General Plant Pathology ENTM 3040 General Entomology ENTM 5360 Landscape Entomology ENTM 5330 Integrated Pest Management PLPA 5050 Plant Disease Diagnosis
7	Precision Agriculture (3-4 hr) GEOG 5700 Quantitative Methods and Spatial Analysis GEOG 5830 Geographic Information Systems BSEN 5220 Geospatial Technologies in Biosystems
8	Soil and/or Water: (3-4hr) CSES 5080 Soil Resources and Conservation CSES 5250 Aquatic Sediments CSES 5800 Climate, Water, and Life FISH 5220 Water Science FISH 5320 Limnology

Environmental Sciences (ENVI)

The Environmental Science program, like the rather broad field of environmental science, is by its very nature highly interdisciplinary. Although the College of Agriculture administers the program through the Department of Crop, Soil, and Environmental Sciences, the Samuel Ginn College of Engineering and the College of Sciences and Mathematics are partners in developing the curriculum, guiding student development and providing instruction.

Environmental quality issues are often complex and significant expertise in physics, chemistry, biology, soil science and geology is needed to understand specific problems. Moreover, formulating solutions often requires mathematical expertise as well as specific knowledge of the air, water, and soil environments. Thus, the program is structured to educate environmental scientists broadly, but with considerable depth.

The program is specifically tailored to produce graduates who can enter and have a reasonable expectation of success in a field that is continually changing. The principal educational goals are to provide each student with a broad-based general education, a solid background in mathematics, physical science, and biological science, breadth of exposure to the environmental science field, and depth of knowledge in a specific area of environmental science of choice.

The curriculum is organized around a core set of courses that are required of all students. Students desiring to specialize may select from courses, called professional track electives, that emphasize environmental applications of biological science, physical science, soil science, or engineering science.

Freshman

Fall	Hours	Spring	Hours
ENVI 1010 Introduction to Environmental Science[1]	**1**	ENGL 1120 English Composition II	3
CHEM 1030 Fundamentals Chemistry I & CHEM 1031 Fundamental Chemistry I Laboratory	4	**ENVI 1020 Fundamentals of Environmental Science**	**3**
ENGL 1100 English Composition I	3	BIOL 1020 Principles of Biology & BIOL 1021 Principles of Biology Laboratory	4
Core History 1	3	CHEM 1040 Fundamental Chemistry II & CHEM 1041 Fundamental Chemistry II Laboratory	4
MATH 1610 Calculus I	4	Core History 2	3
	15		**17**

Sophomore

Fall	Hours	Spring	Hours
BIOL 1030 Organismal Biology & BIOL 1031 Organismal Biology Laboratory	4	CHEM 2030 Survey of Organic Chemistry	3
PHYS 1500 General Physics I	4	STAT 2510 Statistics for Biological and Health Sciences	3
GEOL 1100 Dynamic Earth	4	PHYS 1510 General Physics II	4
COMM 1000 Public Speaking	3	**GEOL 2100 Environmental Geology**	**4**
	15		**14**

Junior

Fall	Hours	Spring	Hours
BIOL 3200 General Microbiology	**3**	CHEM 3050 Analytical Chemistry & CHEM 3051 Analytical Chemistry Laboratory	4
BIOL 3201 General Microbiology Laboratory	**1**	**Professional Track**[2]	**4**
FORY 5470 GIS Applications in Natural Resources	2	CIVL 5210 Chemical Principles of Environmental Engineering ***or*** 4210 Water and Wastewater Treatment and Design	3
CSES 2040 Basic Soil Science	**4**	**BIOL 3060 Ecology**	**4**
Professional Track[2]	**6**		
	16		**15**

Senior

Fall	Hours	Spring	Hours
ENVI 4950 Environmental Science Senior Seminar	**2**	**Professional Track**[2]	**7**
Professional Track[2]	**4**	Core Social Science[3]	3
ECON 2020 Principles of Microeconomics	3	Core Literature	3
Core Fine Arts	3	UNIV 4AA0 Achieve the Creed	0
CSES 5000 Environmental Quality	3	PHIL 1020 Introduction to Ethics	3
	15		**16**

Total Hours: 123

1 Courses in boldface type are major courses and require a 2.0 minimum GPA for graduation.
2 Professional Track - see adviser for approved course listing.
3 Student will choose from the following: ANTH 1000, GEOG 1010/GEOG 1017, PSYC 2010, SOCY 1000/SOCY 1007, or UNIV 2720.

Stewardship-based Agriculture Minor

Code	Title	Hours
Required Courses for All Students		
CSES 3920	Internship (Required for all students)	3
CSES 2000	Basic Crop Science (Will not count in the Minor for students in CSES - major course)	4

Code	Title	Hours
Lower Division Courses		
CSES majors - take 6 hours from this group		

All other students - take 3 hours from this group		
CSES 2040	Basic Soil Science (Will not count for CSES and ENVI students - major course)	4
POUL 1000	Introductory Poultry Science (Will not count for students in POUL - major course)	3
HORT 2010	Fruit and Nut Production (Will not count for HORT students in Fruit and Veg production - major course)	4
HORT 2030	Vegetable Production (Will not count for HORT students in Fruit and Veg production - major course)	3
ANSC 1000	Introduction to Animal Sciences (Will not count for ANSC students - major course)	4
ANSC 2010	Animals and Society	3
PLPA 2000	Pests, Pathogens, Parasites, and People	3

Code	Title	Hours
Upper Division Courses - 6 hours selected from this group.		
AGEC 4000	Principles of Agribusiness Management (Will not count for CSES students in the Production option - major course. Students in the College of Business or in AGEC may not take this course for credit towards the minor. ECON 2020 is a pre-requisite.)	3
CSES 5020	Soil Fertility and Nutrient Management (Will not count for students in CSES - major course. AGRN 2040 is a pre-requisite.)	3
CSES 5030	Advanced Crop Science (Will not count for CSES students in the Production option - major course. CSES 1000, CSES 2040, BIOL 1030/1031 are pre-requisites.)	3
CSES 5080	Soil Resources and Conservation (Will not count for CSES students in the Production or Science* option - major course)	4
CSES 5500	Forage Production and Utilization (Will not count for CSES students in the Production or Science* option - major course)	3
HORT 4250	Intermediate Fruit & Veg Prod (HORT 2040 or HORT 2030 are pre-requisites)	3
RSOC 2090	Food Systems: Policy, Production, and Practice	3
PLPA 5050	Plant Disease Diagnosis (PLPA 3000 is a pre-requisite)	3
*The Science option in CSES requires either CSES 5080 or CSES 5500 but not both as a major course. Thus, a student in CSES in this minor could count one of the courses towards the minor.		

Many of these courses are also available as distance courses. Those courses would also be considered in this minor - their course numbers are not included for brevity and document clarity.

Department of Animal Sciences

The department offers two curriculum options. The Pre-Veterinary & Animal Biosciences option (ANPB) provides students with a foundation in the biological and physical sciences for careers in emerging areas of animal biotechnology while satisfying requirements for application to Auburn's College of Veterinary Medicine, other professional schools, or graduate school. The Animal Industries option (ANIN) offers greater breadth in animal production management and agribusiness while retaining more electives hours for additional curriculum flexibility. Students may use electives to develop expertise in fields such as animal breeding, nutrition, reproduction, growth, equine science, and meat science.

Majors

- Animal Sciences — Pre-Veterinary and Biosciences Option (p. 234)
- Animal Sciences — Industries Option (p. 233)

Minor

- Animal Sciences (p. 232)

Courses

ANSC 1000 INTRODUCTION TO ANIMAL SCIENCES (4) LEC. 3. LAB. 2. The importance of livestock to agriculture and to the health and nutrition of a modern society. Livestock terminology, selection, reproduction, nutrition, management, marketing, and species characteristics of beef and dairy cattle, swine, sheep and horses.

ANSC 1050 INTRODUCTION TO EQUINE CARE AND USE (3) LEC. 2. LAB. 2. This course serves as an introductory course to the history, care, use, and enjoyment of horses. Students will learn the foundations of numerous topics of working with horses and how to handle horses safely and effectively.

ANSC 1100 ORIENTATION TO ANIMAL SCIENCES (1) LEC. 1. SU. An introduction to the departmental programs and personnel and how to make the most of the college experience. Breadth of career opportunities for animal science graduates.

ANSC 2000 COMPANION ANIMAL MANAGEMENT (3) LEC. 3. Practical aspects of behavior, nutrition, breeding, reproduction, health and management of dogs, cats and other animals generally considered to be human companions.

ANSC 2010 ANIMALS AND SOCIETY (3) LEC. 3. Ethical and scientific issues surrounding human-animal interactions and the role human-animal interactions play in modern society.

ANSC 2050 EQUINE BEHAVIOR AND TRAINING (3) LEC. 1. LAB. 4. Pr. ANSC 1050. This course is designed to teach students concepts of how equine behavior applies to training. Students will be exposed to a variety of training methods used in the equine industry.

ANSC 2100 DAIRY GOAT U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Dairy Goat U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2150 SKILLS AND CONCEPTS OF EQUESTRIAN SPORTS (1) LAB. 4. SU. Departmental approval. Basic management and care of animals used in intercollegiate equestrian and rodeo sports. Must be affiliated with the NCEA Equestrian Team or IHSA Equestrian Team in current term. Course may be repeated for a maximum of 2 credit hours.

ANSC 2200 DAIRY U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Dairy U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2300 BEEF U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Beef U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2400 HORSE U PROGRAM PLANNING (1) LEC. 1. Pr. ANSC 1000. Students will be involved in planning and hosting the Horse U event for youth (ages 6-18) and adults. Course may be repeated for a maximum of 3 credit hours.

ANSC 2720 THE MEAT WE EAT (3) LEC. 3. Foundation course on the global meat industry with emphasis on meat products, modern processing techniques, concepts of food safety, sanitation, inspection, grading and meeting consumer demands.

ANSC 2910 PRACTICUM IN LIVESTOCK WELFARE AND MANAGEMENT (2) LAB. 6. Pr. ANSC 1000. Departmental approval. Hands-on laboratory teaching applied management of livestock species, including horses, cattle, swine and small ruminants, using modern equipment and techniques.

ANSC 3000 HERD HEALTH MANAGEMENT (3) LEC. 3. Pr. ANSC 1000. The prevention and control of the major diseases of farm animals and the development of herd health programs.

ANSC 3150 EQUINE MARKETING (3) LEC. 3. Pr. ANSC 1000 and (ECON 2020 or ECON 2023 or ECON 2027). Practical concepts of equine marketing including evaluating the horse, assessing the market, targeting customers, and presenting the horse.

ANSC 3300 INTRODUCTORY LIVESTOCK EVALUATION AND MARKETING (2) LAB. 6. Pr. ANSC 1000. Comprehensive study of live animal and carcass evaluation techniques used in the selection and marketing of beef cattle, swine and sheep. The development of decision-making oral communication skills is emphasized.

ANSC 3310 INTRODUCTION TO MEAT SELECTION AND GRADING (2) LAB. 4. Instruction for the evaluation of meat carcasses, cuts, and products from cattle, swine, sheep, and goats. Understanding and calculating meat yield and quality for each species, evaluation of valuable traits, understanding product specifications, and preparation of written reasons. This course is required for participation in the meat judging program but is open to all students.

ANSC 3400 ANIMAL NUTRITION (4) LEC. 3. LAB. 2. Pr. CHEM 1040 and (BIOL 1030 or BIOL 1037 or POUL 3150). Principles and practice of animal nutrition, nutrient contents of feedstuff, and diet formulation.

ANSC 3410 ANIMAL METABOLISM AND NUTRITION (3) LEC. 3. Pr. (CHEM 2030 or CHEM 2070 or CHEM 2077) and (BIOL 1030 or BIOL 1037 or POUL 3150). Principles of animal nutrition and nutrient metabolism and a study of nutrients and their utilization by animals.

ANSC 3420 APPLIED ANIMAL FEEDING AND NUTRITION (3) LEC. 2. LAB. 1. Pr. ANSC 3410. Feedstuffs, diet formulation, and feeding practices applicable to the well-being and performance of economically important livestock and companion animals.

ANSC 3500 ANIMAL BREEDING (3) LEC. 3. Pr. ANSC 1000 and (STAT 2510 or STAT 2513 or BIOL 3000 or BIOL 3003 or AGRI 3000). Genetic and environmental effects of animal differences. Selection and mating systems used in the improvement of domestic animals with an emphasis on livestock.

ANSC 3600 REPRODUCTIVE PHYSIOLOGY (4) LEC. 3. LAB. 2. Pr. ANSC 1000 and BIOL 2510. Comparative anatomy, physiology and endocrinology of animal reproduction; principles of reproductive biotechnologies used to enhance reproductive efficiency in mammalian systems.

ANSC 3610 ANIMAL GROWTH AND DEVELOPMENT (4) LEC. 3. LAB. 2. Pr. ANSC 1000 and (BIOL 1030 or BIOL 1037). Biology of prenatal and postnatal growth of meat animals, emphasizing muscle, adipose, and bone tissues from a molecular, cellular, endocrine perspective. Application of concepts to improve rate, efficiency, and composition of growth.

ANSC 3650 PHYSIOLOGY OF EQUINE ATHLETE (3) LEC. 3. Pr. ANSC 1000 and BIOL 2510. Selection and development of the horse for athletic performance; exercising, training, and fitness conditioning for performance horses.

ANSC 3700 MUSCLE FOODS (4) LEC. 3. LAB. 2. Pr. ANSC 1000. Introduction to domestic animal growth and development, comparative evaluation of livestock and carcass composition. Biochemical and physiological factors affecting fresh meat and processed meat quality. Fundamentals of ante-and postmortem muscle biology, slaughter, processing, storage and merchandising of meat and meat products.

ANSC 3760 VALUE BASED MARKETING OF LIVESTOCK (3) LEC. 2. LAB. 2. Livestock grading standards and their application to carcasses of meat producing animals, concepts and principles of marketing, advertising, promotion and sales of commercial livestock.

ANSC 3800 CAREERS IN ANIMAL SCIENCE (1) LEC. 1. SU. Career opportunities for animal science graduates. Identifying and investigating careers and presenting oneself professionally for employment or post-baccalaureate education.

ANSC 3840 STUDY/TRAVEL IN ANIMAL SCIENCE (1-10) AAB/FLD. Departmental approval. Concentrated study in animal production and management, equine science and the meats industry within the US or international locations. Course may be repeated for a maximum of 10 credit hours.

ANSC 4000 MODERN LIVESTOCK SYSTEMS (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420) and ANSC 3500 and ANSC 3600. Overview of beef, dairy, swine and small ruminant production systems. Modern concepts, ideas, and methodology associated with the application of technology to reproduction, breeding, health, nutrition, waste nutrient utilization, and management.

ANSC 4010 BEEF PRODUCTION (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420) and ANSC 3500 and ANSC 3600. Overview of the beef cattle industry. Modern concepts, ideas and methodology associated with the application of technology to reproduction, breeding, nutrition, management and the use of facilities in a modern beef cattle enterprise.

ANSC 4050 EQUINE PRODUCTION AND MANAGEMENT (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420 or ANSC 4450) and ANSC 3500 and ANSC 3600. Practical application and integration of nutrition, breeding, reproduction, selection, herd health, and management for efficient horse production.

ANSC 4150 ADVANCED SKILLS AND CONCEPTS OF EQUESTRIAN SPORTS (1) LAB. 4. SU. Pr. ANSC 2150. Principles and skills utilized in intercollegiate equestrian and rodeo team competition and management. Issues affecting management, training, marketing, and promotion of animals used in equestrian and rodeo sports. Must be affiliated with the NCEA Equestrian Team or IHSA Equestrian Team in current term. Course may be repeated for a maximum of 2 credit hours.

ANSC 4300 ADVANCED LIVESTOCK JUDGING (1) LAB. 4. Departmental approval. Advanced course in principles and techniques of livestock selection based on visual criteria, performance records, and other advanced technologies. Course may be repeated for a maximum of 2 credit hours.

ANSC 4310 ADVANCED MEAT JUDGING (1) LAB. 4. Pr. ANSC 3310. Practice in evaluation and grading of beef, pork, and lamb carcasses and cuts. Development of communication skills and exposure to animal agriculture through training and intercollegiate competition. Course may be repeated for a maximum of 2 credit hours.

ANSC 4450 EQUINE NUTRITION (3) LEC. 2. LAB. 2. Pr. ANSC 3410 or ANSC 3400. Principles of digestive physiology, nutrition, and metabolic disorders unique to various classes of horses.

ANSC 4700 MEAT PROCESSING (4) LEC. 3. LAB. 3. Integration of topics in meat and non-meat ingredient chemistry and their applications to muscle food processing. Physical, chemical, and sensory properties of fresh and processed meat products.

ANSC 4800 ISSUES IN ANIMAL AGRICULTURE (2) LAB. 4. Pr. COMM 1000 or COMM 1003. Issues affecting animal agriculture, dealing with concerns of consumers and activists, involvement in public debate, and the political process.

ANSC 4810 PROFESSIONAL DISCOURSE IN AGRICULTURE (1) LAB. 2. Pr. COMM 1000 or COMM 1003. Methods for enhancing effective discourse concerning issues facing the livestock industry.

ANSC 4920 INTERNSHIP IN ANIMAL SCIENCES (2) INT. SU. Departmental approval. Practical experience in an animal agriculture industry. Course may be repeated for a maximum of 4 credit hours.

ANSC 4960 SPECIAL PROBLEMS (1-5) IND. Departmental approval. Students will work under the direction of staff members on specific problems. Course may be repeated for a maximum of 15 credit hours.

ANSC 4967 HONORS SPECIAL PROBLEMS (3-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

ANSC 4970 SPECIAL TOPICS IN ANIMAL SCIENCES (1-4) IND. Instruction and discussion of selected current topics in Animal Sciences. Course may be repeated for a maximum of 4 credit hours.

ANSC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ANSC 4997 HONORS THESIS (3-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

ANSC 5070 ANIMAL WELFARE (3) LEC. 3. Pr. (POUL 1000 or ANSC 1000) and (POUL 3150 or ANSC 3600 or ANSC 3410). This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

ANSC 5700 MICROBIOLOGY OF MEATS AND OTHER FOODS (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037 or BIOL 3200. Microorganisms associated with meat and other foods production, spoilage, and safety with training in both traditional and modern detection techniques. Credit will only be given for one of the following courses: ANSC 5700 or ANSC 6700.

ANSC 6070 ANIMAL WELFARE (3) LEC. 3. This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

ANSC 6700 MICROBIOLOGY OF MEATS AND OTHER FOODS (3) LEC. 3. LAB. 0. Microorganisms associated with meat and other foods production, spoilage, and safety with training in both traditional and modern detection techniques. Credit will only be given for one of the following courses: ANSC 5700 or ANSC 6700.

ANSC 7010 ADVANCED BEEF SYSTEMS (3) LEC. 3. Advanced study of contemporary beef cattle production systems, including principles of planning, resource management and financing plus integrated biology in areas of breeding and selection, reproduction, metabolism, nutritional physiology and growth, health and disease; integration of forage system biology, soil and forage management as related to performance and sustainability.

ANSC 7400 RUMINANT NUTRITION (3) LEC. 3. Digestive physiology, mechanisms of rumen fermentation, postruminal nutritional biochemistry.

ANSC 7410 NONRUMINANT NUTRITION (3) LEC. 3. Departmental approval. Digestion, absorption, and utilization of macro and micro nutrients, nutrient interrelationship in swine and other non-ruminant species.

ANSC 7610 PHYSIOLOGY OF GROWTH (3) LEC. 3. Pr. BCHE 7210. Molecular and cellular basis of tissue differentiation, growth and development with emphasis on muscle, adipose and connective tissues and factors influencing gene expression controlling such events.

ANSC 7700 MUSCLE FOODS AND APPLIED MUSCLE BIOLOGY (4) LEC. 3. LAB. 2. Pr. ANSC 3700 and BCHE 7210. Investigations of muscle microanatomy, biochemistry of muscle proteins and lipids, biochemistry of skeletal muscle contraction, lipid/protein interactions, antemortem and postmortem factors affecting fresh and processed meat quality; discussion of classic and current scientific literature.

ANSC 7950 SEMINAR (1) LEC. 1. An intensive scientific literature study and subsequent seminar presentation of selected topics in some facet of animal sciences (Animal Genetics, Reproductive Biology, Growth and Development, Nutrition, Animal Production, Equine Studies, Meat Science and Food Animal related Biochemistry) by enrolled students. Course may be repeated for a maximum of 3 credit hours.

ANSC 7960 SPECIAL PROBLEMS (1-5) DSL/LEC. Conference problems, assigned reading, literature searches in one or more of the following major fields; (a) biochemistry, (b) nutrition, (c) animal breeding, (d) reproductive physiology, (e) growth physiology, (f) muscle foods, (g) microbiology, and (h) behavior. Course may be repeated for a maximum of 15 credit hours.

ANSC 7970 SPECIAL TOPICS IN ANIMAL SCIENCES (1-5) IND. Emerging topics in Animal Science and related industries. Course may be repeated for a maximum of 5 credit hours.

ANSC 7990 RESEARCH AND THESIS (1-15) MST. Research and thesis may be on technical laboratory problems or on problems directly related to beef and dairy cattle, sheep, swine, or laboratory animals. Course may be repeated with change in topics.

ANSC 8400 PROTEIN AND ENERGY METABOLISM (3) LEC. 3. Pr. BCHE 7210. Nutritional biochemistry of protein and energy metabolism of mammalian, avian and aquatic species. Concepts of protein turnover, nutrient-gene interactions, control of bioenergetics, nutritional assessment, nutritional quality of nutrient sources.

ANSC 8410 VITAMIN AND MINERAL METABOLISM (3) LEC. 3. Departmental approval. Vitamin and mineral nutrition with emphasis on chemical structures and characteristics, metabolic functions, deficiencies and toxicity syndromes, interrelationships and requirements of vitamins and minerals.

ANSC 8950 DOCTORAL SEMINAR (1) LEC. 1. An intensive scientific literature study and subsequent seminar presentation of selected topics in some facet of animal sciences (Animal Genetics, Reproductive Biology, Growth and Development, Nutrition, Animal Production, Equine Studies, Meat Science and Food Animal related Biochemistry) by enrolled students. Course may be repeated for a maximum of 3 credit hours.

ANSC 8990 DOCTORAL RESEARCH AND DISSERTATION (1-15) DSR. Course may be repeated with change in topics.

Animal Sciences Minor

The Animal Sciences minor requires a total of 16 hours of approved course work (minimum of 9 hours at 3000-level or above) from the following:

Code	Title	Hours
Required Course:		
ANSC 1000	Introduction to Animal Sciences	4
Select one from the following:		
ANSC 1050	Introduction to Equine Care and Use	3
ANSC 2000	Companion Animal Management	3
ANSC 2010	Animals and Society	3
ANSC 2050	Equine Behavior and Training	3
ANSC 2720	The Meat We Eat	3
ANSC 2910	Practicum in Livestock Welfare and Management	2
Select minimum of 9 hours from the following:		
ANSC 3000	Herd Health Management	3
ANSC 3150	Equine Marketing	3
ANSC 3300	Introductory Livestock Evaluation and Marketing	2
ANSC 3310	Introduction to Meat Selection and Grading	2
ANSC 3400	Animal Nutrition	4
ANSC 3500	Animal Breeding	3
ANSC 3600	Reproductive Physiology	4
ANSC 3610	Animal Growth and Development	4
ANSC 3650	Physiology of Equine Athlete	3
ANSC 3700	Muscle Foods	4

ANSC 3760	Value Based Marketing of Livestock	3
ANSC 3840	Study/Travel in Animal Science May only count one time towards minor	2
ANSC 4000	Modern Livestock Systems	4
ANSC 4010	Beef Production	4
ANSC 4050	Equine Production and Management	4
ANSC 4300	Advanced Livestock Judging	1
ANSC 4310	Advanced Meat Judging	1
ANSC 4450	Equine Nutrition	3
ANSC 4700	Meat Processing	4
ANSC 4800	Issues in Animal Agriculture	2
ANSC 4810	Professional Discourse in Agriculture	1
ANSC 4980	Undergraduate Research May only count one time towards minor	2
ANSC 5070	Animal Welfare	3
ANSC 5700	Microbiology of Meats and Other Foods	3

Total required: 16 hours

Department of Biosystems Engineering

Biosystems engineers ensure that we have the necessities of life: healthy food to eat, clean water to drink, renewable fuel and energy sources, and a healthy environment in which to live. The mission of the Department of Biosystems Engineering at Auburn University is to develop and disseminate engineering knowledge to solve problems in biological systems, natural resources, and the environment. It meets the resident instruction portion of that mission through the offering of a degree program which leads to a Bachelor of Biosystems Engineering, and another degree that leads to Bachelor of Science in Biological and Agricultural Technology Management. The four pathways to the BSEN degree program (biosystems engineering pathway, bioprocess engineering option, ecological engineering option, and forest engineering option), and the biological and agricultural technology management degree program are described below:

Biosystems Engineering

The Department of Biosystems Engineering offers the only accredited degree in biosystems engineering in Alabama. It is committed to preparing students for productive professional careers in the biosystems industries and related natural resource and environmental systems sectors.

The biosystems engineering program curriculum pathway is coordinated by the Samuel Ginn College of Engineering. Students should apply for admission to the Samuel Ginn College of Engineering and complete the pre-biosystems engineering program.

Bioprocess Engineering Option

The focus of the bioprocess engineering option is to produce engineers that seamlessly combine engineering and natural sciences to designing and developing systems, processes and equipment that convert biological and agricultural materials to value-added products such as food, nutraceuticals, polymers and pharmaceuticals. Bioprocess engineers provide a bridge between the research lab and the economic, large-scale implementation of technologies used to convert these biological materials to value-added products. The bioprocess engineering option is coordinated by the Samuel Ginn College of Engineering. Students should apply for admission to the Samuel Ginn College of Engineering and complete the bioprocess engineering option portion of the pre-biosystems engineering program.

Ecological Engineering Option

The Department of Biosystems Engineering offers an option in ecological engineering as part of the Bachelor of Biosystems Engineering degree. This option prepares students to solve environmental problems by applying engineering knowledge to natural ecological and biological systems. Ecological engineering combines basic and applied science from engineering, ecology, economics, and natural sciences to design, construct, and manage sustainable ecosystems that have value to both humans and the natural environment. The ecological engineering option is coordinated by the Samuel Ginn College of Engineering. Students should apply for admission to the Samuel Ginn College of Engineering and complete the ecological engineering option portion of the pre-biosystems engineering program.

Forest Engineering Option

The Department of Biosystems Engineering (in conjunction with the Samuel Ginn College of Engineering and College of Forestry, Wildlife and Environment) offers an option in forest engineering as part of the Bachelor of Biosystems Engineering degree.

This forest engineering option involves preparing graduates to be able to apply of engineering principles and techniques for sustainable management and maintenance of trees, soil, water and other natural resources with the forest ecosystem. Forest engineering is therefore a hybrid of engineering, forest and management that is focused on efficient, cost-effective and environmentally friendly utilization of these resources. Therefore, this option prepares students for productive professional careers in the forest products industry and related natural resource and environmental systems sector.

The forest engineering option is coordinated by the Samuel Ginn College of Engineering and the College of Forestry, Wildlife and Environment, and is administered by the Department of Biosystems Engineering. Students can become registered foresters upon completion of a minor in forest resources. Beginning students should apply to the Samuel Ginn College of Engineering and complete the forest engineering option portion of the pre-biosystems engineering program. Students pursuing the forest engineering option must meet College of Forestry, Wildlife and Environment requirements for admission to the Forestry Summer Field Practicum.

Biological and Agricultural Technology Management

Students enrolled in the biological and agricultural technology management (BATM) major take a variety of courses in technology, science and management that will enable them to be practical problem solvers and be able to manage and develop solutions to the technological challenges of the increasingly complex agricultural and biological systems of the 21st century. The curriculum is also

designed such that students can simultaneously obtain a minor in an area that is of interest to the student such as minor in agronomy and soils, stewardship-based agriculture, agribusiness, poultry science, information systems management, business analytics, technical and professional communication, or sustainability. The BATM curriculum is coordinated by the College of Agriculture.

Majors

- Biosystems Engineering (p. 640)
- Biosystems Engineering — Bioprocess Engineering Option (p. 637)
- Biosystems Engineering — Ecological Engineering Option (p. 642)
- Biosystems Engineering — Forest Engineering Option (p. 639)
- Biological and Agricultural Technology Management (p. 242)

Bio Ag Technology Management Courses

BATM 1110 INTRODUCTION TO TECHNOLOGY DESIGN (3) LEC. 2. LAB. 3. Introduction to the design process, 2D and 3D parametric solid modeling, and both manual and automated fabrication processes.

BATM 2110 DIGITAL ANALYTICS IN AGRICULTURE AND TECHNOLOGY (3) LEC. 2. LAB. 1. Pr. BATM 1110 or BIOP 2120. An introduction to creative and analytical methods to solve technological problems. Define the problem, explore strategies, select and implement solutions, and evaluate results.

BATM 3100 COMPUTER AIDED DESIGN TECHNOLOGY (3) LEC. 2. LAB. 1. Introductory course in computer aided design (CAD) and land mapping. Students gain competence in CAD operations used to fabricate parts and to develop field- and watershed-scale maps. Class and project topics include drawing for mechanical part fabrication and scale mapping for construction site development and agricultural field management. Must be in Junior standing Course may be repeated for a maximum of 6 credit hours.

BATM 3110 AG TECHNOLOGY GEOSPATIAL APPLICATIONS (3) LEC. 2. LAB. 3. Pr. BATM 1110 and (PHYS 1500 or PHYS 1600). Geospatial applications for agricultural land resource management. Course introduces equipment and practices used in conventional land surveying and geospatial mapping as they interface with global positioning systems (GPS), geographic information systems (GIS), and computer-aided design (CAD).

BATM 3500 NATURAL RESOURCE SYSTEMS CONSERVATION (3) LLB. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680) and (PHYS 1500 or PHYS 1600). Natural resource conservation technologies including rainfall-runoff relationships, sediment transport capacity, runoff control structures, water supply development, surveying techniques including GPS methods.

BATM 3510 AGRICULTURAL POWER AND MACHINERY FUNDAMENTALS (3) LLB. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680) and (PHYS 1500 or PHYS 1600). Power unit fundamentals with emphasis on diesel and small gasoline engines; mechanics of operation, safety, use, and adjustment of machines used for horticultural and agronomic crop production; and precision agriculturr principles and technology.

BATM 3530 AGRICULTURAL PRODUCTION AND PROCESSING FACILITY TECHNOLOGY (3) LEC. 3. Pr. MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680. Fundamental requirements for the design and operation of agricultural production and processing facilities.

BATM 3560 TURF SYSTEMS IRRIGATION DESIGN (3) LEC. 3. Pr. MATH 1120 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1610 or MATH 1680. Irrigation system design for turf-based systems including residential lawns, commercial properties, athletic fields, and golf courses. Irrigation scheduling and water demand are presented to provide management capabilities.

BATM 4100 PROFESSIONAL PRACTICE IN TECHNOLOGY MANAGEMENT (2) LEC. 1. LAB. 3. Pr. BATM 5110. First in the two-course capstone experience. This course focuses on professional topics that prepare students for technical careers; teamwork, communication, standards and codes, economics, project and time management. Teams initiate the capstone design project.

BATM 4110 TECHNOLOGY CAPSTONE (3) LEC. 1. LAB. 6. Pr. BATM 4100. Development and evaluation of a team-based capstone project using tools from the technology curriculum; emphasizing communication, critical thinking, and technical and economic analyses.

BATM 4960 SPECIAL PROBLEMS IN AGRICULTURAL TECHNOLOGY MANAGEMENT (3-6) IND. Departmental approval. Faculty supervision of individual student investigations of specialized problems in biological and agricultural technology management. May be repeated with change in problem. Course may be repeated for a maximum of 6 credit hours.

BATM 4970 SPECIAL TOPICS IN AGRICULTURAL TECHNOLOGY MANAGEMENT (3) LLB. Departmental approval. Investigation of current issues in biological and agricultural technology management. Course may be repeated for a maximum of 6 credit hours.

BATM 4980 UNDERGRADUATE RESEARCH (3) LLB. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 6 credit hours.

BATM 5110 AGRI-INDUSTRIAL ELECTRICAL APPLICATIONS (3) LEC. 2. LAB. 3. Pr. BATM 2110 and (PHYS 1500 or PHYS 1600). An introduction to the fundamentals of electricity and electrical systems used in agricultural and industrial applications. Electricity basics include safety, AC (single and three phase) and DC power. Selecting and sizing components include wiring conductors, safety devices, motors, other loads.

BATM 5120 AGRI-INDUSTRIAL ELECTRONICS AND CONTROLS (3) LEC. 2. LAB. 3. Pr. BATM 5110. An introduction to the fundamentals of electronic control systems used in agricultural and industrial production and processing applications. Electronic control system components include programmable logic controllers (PLCs), switches, relays, sensors, and ladder logic.

BATM 5130 PRECISION AG TECHNOLOGY (3) LEC. 2. LAB. 3. Pr. BATM 3510. An overview of the principles of precision agriculture with focus on prescriptive agriculture and the ability to effectively execute input management plans using today's technologies. Course material and discussions will include how technologies such as GPS, agricultural GIS, sensors for qualitative and quantitative measurement of soil and plant variables, variable-rate technology are being implement with data informing sub-field level management and subsequent farm business decisions.

BATM 5140 COMMERCIAL POULTRY & LIVESTOCK HOUSING (3) LEC. 2. LAB. 3. Pr. STAT 2510. An introduction to the basic design, operation, and maintenance of modern commercial animal housing systems. Emphasis will be placed on poultry and swine systems with elements of dairy and beef when applicable.

BATM 5150 DRONE TECHNOLOGIES IN AGRICULTURAL AND BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Pr. STAT 2510 and PHYS 1500. Drone or Unmanned Aerial Vehicles (UAV) technologies and the data generated from these systems are being utilized in agricultural, biological and natural resource systems. Topics will include UAV types, sensors and application systems for drones, sensor resolution and calibration, flight and mission planning techniques. Image and date collection techniques, analysis, interpretation and decision making, generation of prescriptive maps, and other emerging drone technologies.

BATM 5550 PRINCIPLES OF FOOD ENGINEERING TECHNOLOGY (4) LEC. 3. LAB. 3. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617) and (PHYS 1000 or PHYS 1003 or PHYS 1007 or PHYS 1500 or PHYS 1600 or PHYS 1607). Engineering concepts and unit operations used in processing food products. Fall.

BATM 6110 AGRI-INDUSTRIAL ELECTRICAL APPLICATIONS (3) LEC. 2. LAB. 3. Departmental approval. An introduction to the fundamentals of electricity and electrical systems used in agricultural and industrial applications. Electricity basics include safety, AC (single and three phase) and DC power. Selecting and sizing components include wiring conductors, safety devices, motors, other loads.

BATM 6120 AGRI-INDUSTRIAL ELECTRONICS AND CONTROLS (3) LEC. 2. LAB. 3. Pr. BATM 6110. An introduction to the fundamentals of electronic control systems used in agricultural and industrial production and processing applications. Electronic control system components include programmable logic controllers (PLCs), switches, relays, sensors, and ladder logic.

BATM 6130 PRECISION AG TECHNOLOGY (3) LEC. 2. LAB. 3. An overview of the principles of precision agriculture with focus on prescriptive agriculture and the ability to effectively execute input management plans using today's technologies. Course material and discussions will include how technologies such as GPS, agricultural GIS, sensors for qualitative and quantitative measurement of soil and plant variables, variable-rate technology are being implement with data informing sub-field level management and subsequent farm business decisions.

BATM 6140 COMMERCIAL POULTRY AND LIVESTOCK HOUSING (3) LEC. 2. LAB. 1. An introduction to the basic design, operation, and maintenance of modern commercial animal housing systems. Emphasis will be placed on poultry and swine systems with elements of dairy and beef when applicable.

BATM 6150 DRONE TECHNOLOGIES IN AGRICULTURAL AND BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Drone or Unmanned Aerial Vehicles (UAV) technologies and the data generated from these systems are being utilized in agricultural, biological and natural resource systems. Topics will include UAV types, sensors and application systems for drones, sensor resolution and calibration, flight and mission planning techniques. Image and date collection techniques, analysis, interpretation and decision making, generation of prescriptive maps, and other emerging drone technologies.

BATM 6550 PRINCIPLES OF FOOD ENGINEERING TECHNOLOGY (4) LEC. 3. LAB. 3. Pr. (MATH 1130 or MATH 1133) and (PHYS 1000 or PHYS 1003 or PHYS 1007). Engineering concepts and unit operations used in processing food products. Fall.

Biosystems Engineering Courses

BSEN 2210 ENGINEERING METHODS FOR BIOLOGICAL SYSTEMS (2) LEC. 1. LAB. 3. Pr. (ENGR 1110 or ENGR 1113) and (PHYS 1600 or PHYS 1607) or Departmental approval. Introduction to experimental design methodology, basic engineering design and problem solving methodology for Biological Engineering. Visualization skills, computer-aided 3-D solid modeling of parts, 3-D assembly of solid part geometries, computation of mass properties, 2-D engineering drawings, engineering design process, safety, tools and fabrication processes and design, and hands-on shop fabrication of semester project.

BSEN 2240 BIOLOGICAL AND BIOENVIRONMENTAL HEAT AND MASS TRANSFER (3) LEC. 3. Pr. (MATH 2630 or MATH 2637) and (PHYS 1600 or PHYS 1607) and P/C ENGR 2010. Basic principles of heat and mass transfer with special applications to biological and environmental systems. Introduction to steady state and transient heat conduction. Convection, radiation, diffusion, simultaneous heat and mass transfer, and generation and depletion of heat and mass in biological systems.

BSEN 3210 MECHANICAL POWER FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. ENGR 2010 and MATH 2650 and P/C ENGR 2350. Basic engineering analysis, synthesis, and design concepts applied to power sources, mobile equipment, and machinery applications for agricultural, forestry, and natural resource systems.

BSEN 3230 NATURAL RESOURCE CONSERVATION ENGINEERING (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Departmental approval. Engineering analysis applied to natural resource systems. Design principles and practices in rainfall-runoff relationships, soil erosion and its prediction and control, hydraulic structures, and open channel hydraulics.

BSEN 3240 PROCESS ENGINEERING IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. BSEN 2240. Departmental approval. Theory and application of process operations in biological, food and agricultural systems. Heat transfer, fluid flow, thermal processing, evaporation, psychrometrics, refrigeration, drying freezing.

BSEN 3260 ENGINEERING FOR PRECISION AGRICULTURE AND FORESTRY (3) LEC. 2. LAB. 3. Pr. BSEN 3610 and MATH 2650. Departmental approval. Engineering aspects of spatial technologies applied to agricultural and forest production. Data collection in the field using GPS and use of field data in site specific applications. Fall.

BSEN 3310 HYDRAULIC TRANSPORT IN BIOLOGICAL SYSTEMS (4) LEC. 3. LAB. 3. Pr. (ENGR 2050 or ENGR 2053) and MATH 2650 or Departmental approval. Fluid properties, Non-Newtonian fluids and biological systems, Fluid statics, Energy equation, mass and momentum balance, pipe flow for Newtonian and Non-Newtonian fluids, dimensional analysis, compressible flows.

BSEN 3610 INSTRUMENTATION AND CONTROLS FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Pr. MATH 2650 and BSEN 2210. Departmental approval. Understanding of fundamentals of electrical circuits, sensing and sensors, simple digital electronics, analog measurement circuits, introductory digital signal processing, computer data acquisition.

BSEN 4200 POLYMERS FROM RENEWABLE RESOURCES (2) LEC. 2. Fundamental aspects of natural, biodegradable polymers, including fibers, adhesives, films and coatings, their synthesis, their structure/properties relationships, and the microbiology of their degradation.

BSEN 4210 IRRIGATION SYSTEM DESIGN (3) LEC. 2. LAB. 3. Pr. BSEN 3230. Departmental approval. Theory and design of irrigation systems for the application of water and wastewater including surveying techniques for system design. Systems include solid-set, traveler, center-pivot, and trickle. Fall.

BSEN 4250 HYDRAULIC CONTROL SYSTEMS DESIGN (3) LEC. 2. LAB. 3. Pr. BSEN 3310 or Departmental approval. Principles of energy transfer by means of fluid power. Design of hydraulic control systems using prime movers, valves, actuators, and accessories. Spring.

BSEN 4300 PROFESSIONAL PRACTICE IN BIOSYSTEMS ENGINEERING (2) LEC. 1. LAB. 3. Pr. ENGR 2070 and (BSEN 4240 or BSEN 3230). This course focuses on issues related to the professional practice of biological engineering including preparing students for transition to careers as professional engineers.

BSEN 4310 ENGINEERING DESIGN FOR BIOSYSTEMS (3) LEC. 1. LAB. 6. Pr. BSEN 4300. Departmental approval. Capstone design course in biosystems engineering emphasizing teamwork, communication, safety engineering, and economic analysis to complete an engineering design project. Spring.

BSEN 4960 SPECIAL PROBLEMS IN BIOSYSTEMS ENGINEERING (1-4) AAB/IND. Departmental approval. Faculty supervision of individual student investigations of specialized problems in biosystems engineering. May be repeated with change in problem. Course may be repeated with change in topics.

BSEN 4970 SPECIAL TOPICS IN BIOSYSTEMS ENGINEERING (1-4) DSL. Departmental approval. Individual or small group study of a specialized area in biosystems engineering. Course may be repeated for a maximum of 12 credit hours.

BSEN 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

BSEN 5220 GEOSPATIAL TECHNOLOGIES IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or Departmental approval. Geospatial technologies including GPS, GIS, and remote sensing systems applied to biosystems. Collecting, managing, and analyzing spatial data for agricultural and forest systems. Spring.

BSEN 5230 WASTE MANAGEMENT AND UTILIZATION FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. (CHEM 1040 or CHEM 1120) and BIOL 3200 and (BSEN 3230 or BSEN 4240). Introduction to animal waste management problems of confined production systems, and characterization of animal waste types. Design of biological treatment and processing systems. Departmental approval. May count either BSEN 5230 or BSEN 6230.

BSEN 5240 BULK BIOLOGICAL SOLIDS BEHAVIOR, HANDLING AND PROCESSING (3) LEC. 3. Pr. BSEN 3310 or CIVL 3310. Understanding of the properties of bulk solids and how these properties influence the behavior, handling and processability of biological solids.

BSEN 5250 DETERMINISTIC MODELING FOR BIOSYSTEMS (3) LEC. 3. LAB. 2. Pr. MATH 2650. Modeling of biosystems, methods to deal with complexity, and validation tools.

BSEN 5260 RENEWABLE ENERGY IN BIOSYSTEMS PROCESS OPERATIONS (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Application and use of renewable energy in biological, food, forest and agricultural systems including bioenergy, solar energy, wind power and geothermal. Departmental approval. May count either BSEN 5260 or BSEN 6260.

BSEN 5270 METABOLIC ENGINEERING FOR BIOPROCESS (3) LEC. 3. Pr. BIOL 3200 and (CHEM 1040 or CHEM 1120). Or with the consent of the instructor. Introduction of basic principles of bioprocess engineering and metabolic engineering, to prepare engineers and scientists for biotechnology and bioeconomy industries.

BSEN 5280 LIFE-CYCLE ASSESSMENT FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 1. Pr. BSEN 2240 and BSEN 3310. Introduces the concept of life cycle assessment (LCA) in in the context of biological engineering. Examples will include LCA applications to engineered biological systems and other engineering processes and products.

BSEN 5510 ECOLOGICAL ENGINEERING (3) LEC. 3. Pr. BSEN 3230. Ecological engineering non-point source transport of nutrients, sediment, pesticides, pathogens, and chemicals from agricultural, forestry, and urban activities. Departmental approval. May count either BSEN 5510 or BSEN 6510.

BSEN 5520 WATERSHED MODELING (3) LEC. 3. Pr. BSEN 3230. Modeling of non-point source pollution at watershed scale using Soil and Water Assessment Tool model including underlying processes that control movement of pollutants. Departmental approval. May count either BSEN 5520 or BSEN 6520.

BSEN 5540 BIOMASS AND BIOFUELS ENGINEERING (3) LEC. 2. LAB. 3. Pr. (CHEM 1040 or CHEM 1120) and MATH 2650 and BSEN 3310. This course introduces the various processes and engineering principles in converting biomass into biofuels and chemicals. The focus will be on thermochemical and biochemical conversion platforms. May count either BSEN 5540 or BSEN 6540.

BSEN 5560 SITE DESIGN FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. BSEN 3230 or (CIVL 3110 and CIVL 3010). Development of student skills in computer-aided site design and restoration by using rural and urban best management practices to reduce environmental impacts. Departmental approval. May count either BSEN 5560 or BSEN 6560.

BSEN 5570 COASTAL ECOLOGICAL ENGINEERING (3) LEC. 1. LAB. 4. Pr. BSEN 3310. Fundamentals of coastal processes and engineering and also provide an introduction to modeling the flow of water in coastal systems

BSEN 6220 GEOSPATIAL TECHNOLOGIES IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Geospatial technologies including GPS, GIS, and remote sensing systems applied to biosystems. Collecting, managing, and analyzing spatial data for agricultural and forest systems. Spring.

BSEN 6230 WASTE MANAGEMENT AND UTILIZATION FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Coreq. BSEN 3230. Introduction to the animal waste management problems of confined production systems and characterization of animal waste types. Design of biological treatment and processing systems.

BSEN 6240 BULK BIOLOGICAL SOLIDS BEHAVIOR, HANDLING AND PROCESSING (3) LEC. 3. Understanding of the properties of bulk solids and how these properties influence the behavior, handling and processing ability of biological bulk solids.

BSEN 6250 DETERMINISTIC MODELING FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Modeling of biosystems, methods to deal with complexity, and validation tools.

BSEN 6260 RENEWABLE ENERGY IN BIOSYSTEMS PROCESS OPERATIONS (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Departmental approval. Application and use of renewable energy in biological, food forest and agricultural systems including biomass and bioenergy, solar energy, wind power and geothermal.

BSEN 6270 METABOLIC ENGINEERING FOR BIOPROCESS (3) LEC. 3. Department/instructor approval. An introduction of basic principles of bioprocess engineering and metabolic engineering, to prepare engineers and scientists for biotechnology and bioeconomy industries. May count either BSEN 5270 or BSE 6270.

BSEN 6280 LIFE-CYCLE ASSESSMENT FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. This course introduces the concept of life cycle assessment (LCA) in in the context of biological engineering. Examples will include LCA applications to engineered biological systems and other engineering processes and products.

BSEN 6510 ECOLOGICAL ENGINEERING (3) LEC. 3. Departmental approval. The course introduces students to ecological engineering non-point source transport of nutrients, sediment, pesticides, pathogens, and chemicals from agricultural, forestry, and urban activities.

BSEN 6520 WATERSHED MODELING (3) LEC. 3. Departmental approval. The course covers modeling of non-point source pollution at the watershed scale using Soil and Water Assessment Tool model including underlying processes that control movement of pollutants.

BSEN 6540 BIOMASS AND BIOFUELS ENGINEERING (3) LEC. 2. LAB. 3. This course introduces the various processes and engineering principles in converting biomass into biofuels and chemicals. The focus will be on thermochemical and biochemical conversion platforms. May count either BSEN 5540 or BSEN 6540.

BSEN 6560 SITE DESIGN FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. The course is designed to develop student skills in computer-aided site design and restoration by using rural and urban best management practices to reduce environmental impacts.

BSEN 6570 COASTAL ECOLOGICAL ENGINEERING (3) LEC. 1. LAB. 4. Fundamentals of coastal processes and engineering. Introduction to modeling the flow of water in coastal systems.

BSEN 7110 FUNDAMENTALS OF INSTRUMENTATION FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Students will gain an understanding of the fundamentals of sensing and sensors, simple digital electronics and measurement circuits, introductory digital signal processing, and computer data acquisition. They will be required to build and test instrumentation to collect data on biological systems that might include fluid flow, pressure, force, or other transducers.

BSEN 7140 ALGAE SYSTEMS ENGINEERING (3) LEC. 2. LAB. 1. This course is a study of engineered systems for cultivating algae for various uses in society. To develop an understanding of engineering principles applied to growing, cultivating, and producing algal biomass for a number of applications, study into the biology, physiology, and ecology of algae and similar species will be a major part of the course. Departmental Approval.

BSEN 7510 INTRODUCTION TO LAND AND WATER ENGINEERING (3) LEC. 3. This course aims at equipping students with the engineering tools and knowledge needed for advanced courses in land and water engineering.

BSEN 7520 INTRODUCTION TO FLUVIAL GEOMORPHOLOGY (3) LEC. 3. Pr. BSEN 3230. This course provides an overview of stream geomorphology as it relates to natural stream physical processes.

BSEN 7900 SPECIAL PROBLEMS IN BIOSYSTEMS ENGINEERING (1-4) IND. Departmental approval. Faculty supervision of individual student investigations of advanced specialized problems in biosystems engineering at the graduate level. Pr., Course may be repeated with change in topics.

BSEN 7950 SEMINAR (1) SEM. SU. Reviews and discussions of research techniques, current scientific literature, and recent developments in biosystems engineering. Course may be repeated for a maximum of 12 credit hours.

BSEN 7970 SPECIAL TOPICS IN BIOSYSTEMS ENGINEERING (1-4) AAB. Departmental approval. Individual or small group study of an advanced specialized area in biosystems engineering at the graduate level. Course may be repeated with change in topics.

BSEN 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topic.

BSEN 8990 RESEARCH AND DISSERTATION (1-12) DSR.

Biological and Agricultural Technology Management (BATM)

Department of Entomology and Plant Pathology

The Department of Entomology and Plant Pathology enjoys a rich tradition in teaching, research and outreach activities as part of a land grant institution in Alabama. From the hiring of its first entomologist in 1896 and its first plant pathologist in 1903, the entomology and plant pathology program at AU has grown to its present faculty of entomologists and plant pathologists with teaching, research and extension responsibilities.

As a part of the College of Agriculture, the entomology and plant pathology department offers a broad range of both basic and applied courses at the undergraduate and graduate levels, providing a sound background for students considering careers in entomology, plant pathology, and related pest management areas. The curriculum is complemented by a diversity of courses in agricultural and biological sciences offered through departments in the university. The department offers undergraduate minors in entomology and plant pathology. It also offers thesis and non-thesis master's degrees and doctoral programs in these disciplinary areas.

Majors

- Applied Biotechnology (p. 249)

Minors

- Entomology (p. 251)
- Plant Pathology (p. 251)

Applied Biotechnology Courses

APBT 1000 INTRODUCTION TO APPLIED BIOTECHNOLOGY (1) LEC. 1. Introduction to the field of biotechnology including key concepts from biology, chemistry, and physics, and career opportunities.

APBT 2950 PROFESSIONAL DEVELOPMENT (1) LEC. 1. Development of professional skills required for modern careers in entomology, plant pathology and applied biotechnology.

APBT 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH (1-4) IND/RES. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

APBT 3100 METHODS OF SYNTHETIC BIOLOGY (4) LEC. 2. LAB. 5. Pr. (BIOL 1030 or BIOL 1037) and APBT 1000. This course provides an overview of the basic cellular processes harnessed by synthetic biology and biotechnology. It also provides an introduction to recombinant DNA and its applications. It combines lectures with labs to provide hands-on experience with molecular techniques, DNA cloning, heterologous protein expression, and methodologies used to engineer organisms.

APBT 4100 APPLIED BIOTECHNOLOGY (4) LEC. 2. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and (BIOL 3000 or BIOL 3003 or AGRI 3000) and APBT 3100. or instructor's approval. Principle and up-to-date advances of genetic modification of organisms; its practices and influences in a broad range of basic and applied sciences which have revolutionized "mean" of sustainable agriculture.

APBT 4920 INTERNSHIP (3) LEC. 3. SU. Pr. APBT 1000. Practical professional experience under the supervision of internship faculty and/or representatives of state, federal or private agency.

APBT 4980 UNDERGRADUATE RESEARCH (1-4) LAB. 2-8. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

APBT 5660 FIGURE FUNDAMENTALS : SCIENTIFIC ILLUSTRATION (3) LEC/STU. 1. Scientific illustration and data visualization implemented through the Adobe creative cloud package. May count either APBT 5660, ENTM 5660, or ENTM 6660.

APBT 5800 OMICS IN AGRICULTURE (3) LEC. 2. LAB. 2. Pr. BIOL 1030 or BIOL 3000 or AGRI 3000. This course will introduce students to the recent advances in high-throughput technologies such as genomics, transcriptomics, metagenomics, metabolomics, phenomics, modeling, and digital agriculture and how these technologies can be applied to tackling new and old problems in agriculture and human health. Students will be able to gain hands-on experience in analyzing and interpreting datasets obtained using these technologies.

APBT 5820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Pr. STAT 2510. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

Entomology Courses

ENTM 2000 PESTS, PATHOGENS, PARASITES, AND PEOPLE (3) LEC. 3. Past and present problems of pests and disease involving humans and the food chain.

ENTM 2040 INSECTS: AN INTRODUCTION TO ENTOMOLOGY (3) LEC. 3. Life processes, importance, and occurrence of insects.

ENTM 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH (1-4) IND/RES. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ENTM 3040 GENERAL ENTOMOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Introduction to the biology and diversity of insects. An insect collection is required.

ENTM 4020 ECONOMIC ENTOMOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Consideration of the biological aspects, life histories and control of insects.

ENTM 4920 ENTOMOLOGY INTERNSHIP (5) INT. 5. SU. Practical professional experience under the supervision of internship faculty and/or representatives of state, federal or private agency.

ENTM 4960 SPECIAL PROBLEMS IN ENTOMOLOGY (1-3) IND. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in entomology to be conducted under faculty supervision. Course may be repeated for a maximum of 3 credit hours.

ENTM 4980 UNDERGRADUATE RESEARCH (1-4) LAB. 2-8. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ENTM 5120 MEDICAL-VETERINARY ENTOMOLOGY (4) LEC. 3. LAB. 1. Pr. (BIOL 1030 or BIOL 1037) and (ENTM 3040 or ENTM 4020). Survey of insects, ticks, and mites of medical or veterinary importance, emphasizing role as vectors of disease agents and the biology of pathogen-transmission cycles. Labs focus on methods of vector sampling and surveillance, identification, and case studies of special topics. May count either ENTM 5120 or ENTM 6120.

ENTM 5220 INSECT ECOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3060. Ecological interactions of insects and their environment, with emphasis on is herbivory, predation, parasitism and mutualism, as well as population and community dynamics.

ENTM 5300 INSECT DIVERSITY (4) LEC. 3. LAB. 1. Pr. ENTM 3040 or ENTM 4020. Survey of the biodiversity of insects, stressing taxon diagnostics.

ENTM 5330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

ENTM 5360 LANDSCAPE ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1020 or BIOL 1027) or (BIOL 1030 or BIOL 1037). Identification and management of arthropod pests in the landscape. Recognition of pests and damage to trees, turf and ornamental plants.

ENTM 5370 URBAN ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040 or ENTM 4020. Identification, biology and control of insect and other household arthropod pests.

ENTM 5500 BEE BIOLOGY AND MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Biology and management of bees, with an emphasis on honey bees and beekeeping. May count either ENTM 5500 or ENTM 6500.

ENTM 5660 FIGURE FUNDAMENTALS : SCIENTIFIC ILLUSTRATION (3) LEC/STU. 1. Scientific illustration and data visualization implemented through the Adobe creative cloud package. May count either ENTM 5660, APBT 5660, or ENTM 6660.

ENTM 5700 VECTOR ENTOMOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

ENTM 5820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Pr. STAT 2510. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

ENTM 5920 INTERNSHIP (3) IND. 3. SU. Departmental approval. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

ENTM 6120 MEDICAL-VETERINARY ENTOMOLOGY (4) LEC. 3. LAB. 3. Survey of insects, ticks, and mites of veterinary importance, emphasizing role as vectors of disease agents and the biology of pathogen-transmission cycles. Labs focus on methods of vector sampling and surveillance, identification, and case studies of special topics. May count either ENTM 5120 or ENTM 6120.

ENTM 6220 INSECT ECOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3060. Departmental approval. Ecological interactions of insects and their environment, with emphasis on herbivory, predation, parasitism and mutualism, as well as population and community dynamics.

ENTM 6300 INSECT DIVERSITY (4) LEC. 3. LAB. 1. Pr. ENTM 3040 or ENTM 4020. Survey of the biodiversity of insects, stressing taxon diagnostics.

ENTM 6330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

ENTM 6360 LANDSCAPE ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1020 or BIOL 1027) or (BIOL 1030 or BIOL 1037). Identification and management of arthropod pests in the landscape. Recognition of pests and damage to trees, turf and ornamental plants.

ENTM 6370 URBAN ENTOMOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040 or ENTM 4020. Identification, biology and control of insect and other household arthropod pests.

ENTM 6440 INSECT MORPHOLOGY (5) LEC. 3. LAB. 6. Pr. ENTM 3040 or ENTM 4020. Departmental approval. Comparative external anatomy and generalized internal structures of insects. Characteristics used in taxonomy will be emphasized. Credit will not be given for both ENTM 5440 and ENTM 6440.

ENTM 6500 BEE BIOLOGY AND MANAGEMENT (3) LEC. 2. LAB. 2. Biology and management of bees, with an emphasis on honey bees and beekeeping. May count either ENTM 5500 or ENTM 6500.

ENTM 6660 FIGURE FUNDAMENTALS : SCIENTIFIC ILLUSTRATION (3) LEC. 2, LST. 1. Scientific illustration and data visualization implemented through the Adobe creative cloud package. May take either ENTM 5660, APBT 5660, or ENTM 6660.

ENTM 6700 VECTOR ENTOMOLOGY (3) LEC. 3. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

ENTM 6820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

ENTM 6920 INTERNSHIP (3) IND. 3. SU. Departmental approval. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

ENTM 7100 GENERAL TOXICOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040 and CHEM 2030. Departmental approval. History, mechanism of action, metabolism, and structure activity relationship of natural and synthetic insecticides. Contemporary laboratory techniques in toxicology will be featured.

ENTM 7200 INSECT PHYSIOLOGY (4) LEC. 3. LAB. 3. Pr. ENTM 3040. Departmental approval. Introduction to insect physiology stressing structure and function of each organ system. Methods used in physiological research will be emphasized.

ENTM 7230 PRACTICAL EVOLUTION (3) LEC. 3. Pr. BIOL 5800 or BIOL 6800. Students will learn evolutionary biology by making it happen, that is, by building and running simulation models. They will also learn of opportunities to apply evolutionary theory to practical problems in agriculture, public health and conservation.

ENTM 7900 DIRECTED STUDIES IN ENTOMOLOGY I (1-5) LEC. SU. Discussion groups on specific topics, assigned readings, on laboratory problems or field research. Course may be repeated for a maximum of 5 credit hours.

ENTM 7950 SEMINAR (1) SEM. 1. SU. Presentation and discussion of scientific literature of thesis research findings. Required of all M.S. candidates.

ENTM 7960 SPECIAL PROBLEMS IN ENTOMOLOGY (1-4) LAB. 2-8. Departmental approval. Specialized project or research on a specific topic in entomology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

ENTM 7990 RESEARCH AND THESIS (1-10) MST. Topics may focus on technical laboratory problems or field research related to arthropod biology. Admission to the M.S. Program. Course may be repeated with change in topics.

ENTM 8900 DIRECTED STUDIES IN ENTOMOLOGY II (5) LEC. 5. Discussion groups on specific topics, assigned reading on laboratory problems or field research.

ENTM 8910 TEACHING PRACTICUM (1) LAB. 2. SU. Departmental approval. Practical and theoretical issues of laboratory learning, and pedagogical facilitation. Required of all PhD students. Course may be repeated for a maximum of 3 credit hours.

ENTM 8930 JOURNAL REVIEW FOR ENTOMOLOGY AND PLANT PATHOLOGY (1) LEC. 1. Pr. ENTM 3040 and ENTM 4020 or (PLPA 3000 or PLPA 3003). Discussion of recent scientific publications on basic aspects of research in entomology and plant pathology. Course may be repeated for a maximum of 3 credit hours.

ENTM 8950 SEMINAR (1) LEC. 1. SU. Presentation and discussion of scientific literature or dissertation research findings. Required of all Ph.D. students.

ENTM 8960 ADVANCED SPECIAL PROBLEMS IN ENTOMOLOGY (1-4) LAB. 2-8. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in entomology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

ENTM 8990 RESEARCH AND DISSERTATION (1-10) DSR. Admission to the Ph.D. Program. Course may be repeated with change in topics.

Plant Pathology Courses

PLPA 2000 PESTS, PATHOGENS, PARASITES, AND PEOPLE (3) LEC. 3. Past and present problems of pests and disease involving humans and the food chain.

PLPA 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH (1-4) IND/RES. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

PLPA 3000 GENERAL PLANT PATHOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Survey of plant diseases common in Alabama, including symptom recognition, pathogen biology and management of plant diseases. Course credit will not be given for both PLPA 3000 and PLPA 3003/3004.

PLPA 4960 SPECIAL PROBLEMS IN PLANT PATHOLOGY (1-3) IND. Departmental approval. Supervised work on a project in plant pathology. Areas of study are: A. Mycology; B. Nematology; C. Virology; D. Bacteriology; E. Extension and Clinic Experience; F. Physiological and Molecular Approaches. Course may be repeated for a maximum of 3 credit hours.

PLPA 4980 UNDERGRADUATE RESEARCH (1-4) LAB. 2-8. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

PLPA 5050 PLANT DISEASE DIAGNOSIS (3) LEC. 1. LAB. 3. Pr. PLPA 3000 or PLPA 3003. Approaches, techniques, and practical experience in diagnosis of plant diseases. Credit will not be given for both PLPA 5050 and PLPA 6050. Summer.

PLPA 5200 MYCOLOGY (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Biology of fungi with emphasis on taxonomy, morphology, physiology, genetics, reproduction, and how fungi interact with their ecosystems with an emphasis on plant pathogens. Credit will only be given to one of the following: PLPA 5200 or 6200.

PLPA 5250 MEDICAL AND VETERINARY MYCOLOGY (2) LEC. 2. A systematic survey of fungi and the diseases they cause on humans and animals.

PLPA 5300 PLANT-BACTERIAL INTERACTIONS (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Comprehensive review of plant-bacterial interactions, including colonization, pathogenesis, symbiotic and associative nitrogen fixation, and transformation. Credit will only be given to one of the following: PLPA 5300 or PLPA 6300.

PLPA 5330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

PLPA 5400 PLANT VIROLOGY (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Plant viruses are one of the major pathogens causing problems in plants. This course will cover the fundamentals of plant viruses such as infectious cycle, genome, structure, and evolution. The course will also introduce applied biotechnology based on virus-plant interaction. Credit will only be given to one of the following: PLPA 5400 or PLPA 6400.

PLPA 5500 PLANT NEMATOLOGY (2) LEC. 1. LAB. 2. Pr. BIOL 1030 or BIOL 1037. Presentation of nematodes in relation to plant diseases, identification of plant nematodes; nature of pathogenicity; principles and practices of management; recent advances in phytonematology. Credit will only be given to one of the following: PLPA 5500 or PLPA 6500.

PLPA 5600 MOLECULAR PLANT-MICROBE INTERACTIONS (3) LEC. 3. Pr. BIOL 3000. Comprehensive coverage of present advances in plant defense-related metabolic pathways: how to recognize pathogen infections, and activate/potentiate disease resistances. Introduces biochemical, molecular and cellular mechanisms by which plants defend/assimilate themselves towards diverse a/biotic stress stimuli. Credit will only be given for one of the following courses: PLPA 5600 or PLPA 6600.

PLPA 5700 VECTOR ENTOMOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

PLPA 5800 OMICS IN AGRICULTURE (3) LEC. 2. LAB. 2. Pr. BIOL 1030 or BIOL 3000 or AGRI 3000. This course will introduce students to the recent advances in high-throughput technologies such as genomics, transcriptomics, metagenomics, metabolomics, phenomics, modeling, and digital agriculture and how these technologies can be applied to tackling new and old problems in agriculture and human health. Students will be able to gain hands-on experience in analyzing and interpreting datasets obtained using these technologies.

PLPA 5820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Pr. STAT 2510. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

PLPA 5920 INTERNSHIP (3) IND. 3. SU. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

PLPA 6050 PLANT DISEASE DIAGNOSIS (3) LEC. 1. LAB. 3. Graduate level standing in PLPA, ENTM, AGRO, HORT, AGEC or Department approval. Experience with plant disease diagnosis procedures and the diagnosis of many common plant diseases. Summer.

PLPA 6200 MYCOLOGY (2) LEC. 1. LAB. 2. Biology of fungi with emphasis on taxonomy, morphology, physiology, genetics, reproduction, and how fungi interact with their ecosystems with an emphasis on plant pathogens. Graduate level standing or Departmental approval. Credit will only be given to one of the following: PLPA 5200 or PLPA 6200.

PLPA 6250 MEDICAL AND VETERINARY MYCOLOGY (2) LEC. 2. Pr. BIOL 3200. or prior approval of the instructor. A systematic survey of fungi and the diseases they cause on humans and animals.

PLPA 6300 PLANT-BACTERIAL INTERACTIONS (2) LEC. 1. LAB. 2. Comprehensive review of plant-bacterial interactions, including colonization, pathogenesis, symbiotic and associative nitrogen fixation, and transformation. Credit will only be given to one of the following: PLPA 5300 or PLPA 6300.

PLPA 6330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/6330.

PLPA 6400 PLANT VIROLOGY (2) LEC. 1. LAB. 2. Plant viruses are one of the major pathogens causing problems in plants. This course will cover the fundamentals of plant viruses such as infectious cycle, genome, structure, and evolution. The course will also introduce applied biotechnology based on virus-plant interaction. Credit will only be given to one of the following: PLPA 5400 or PLPA 6400.

PLPA 6500 PLANT NEMATOLOGY (2) LEC. 1. LAB. 2. Presentation of nematodes in relation to plant diseases, identification of plant nematodes; nature of pathogenicity; principles and practices of management; recent advances in phytonematology. Credit will only be given to one of the following: PLPA 5500 or PLPA 6500.

PLPA 6600 MOLECULAR PLANT-MICROBE INTERACTIONS (3) LEC. 3. Comprehensive coverage of present advances in plant defense-related metabolic pathways: how to recognize pathogen infections, and activate/potentiate disease resistances, biochemical, molecular and cellular mechanism by which plants defend/assimilate themselves towards diverse a/biotic stress stimuli. Credit will only be given for one of the following courses: PLPA 5600 or PLPA 6600.

PLPA 6700 VECTOR ENTOMOLOGY (3) LEC. 3. This course is designed to give students an understanding of insect vectors of pathogens. The use of case studies during this course is designed to show real world examples of pathogens which utilize insects as an important part of their lifecycle. May only count one of PLPA/ENTM 5700/6700.

PLPA 6800 OMICS IN AGRICULTURE (3) LEC. 2. LAB. 2. This course will introduce students to the recent advances in high-throughput technologies such as genomics, transcriptomics, metagenomics, metabolomics, phenomics, modeling, and digital agriculture and how these technologies can be applied to tackling new and old problems in agriculture and human health. Students will be able to gain hands-on experience in analyzing and interpreting datasets obtained using these technologies.

PLPA 6820 PRINCIPLES AND TOOLS FOR REPRODUCIBLE SCIENCE IN AGRICULTURE (2) LEC. 2. Reproducibility is fundamental to science. This course will cover basic concepts in scientific reproducibility, accessibility, and organization as it relates to handling large datasets and publishing data workflows.

PLPA 6920 INTERNSHIP (3) IND. 3. SU. Departmental approval. Practical professional experience under the supervision of internship faculty and a representative of a state, federal, or private agency.

PLPA 7080 FIELD SURVEY OF PLANT PATHOLOGY (3) LEC. 1. LAB. 6. Practical aspects of plant diseases under field conditions, on-site visits via field trips; discussion of experimental design for field research. Summer.

PLPA 7860 PLANT DISEASE EPIDEMIOLOGY (2) LEC. 2. Pr. PLPA 3000. Aspects of plant disease epidemiology including disease assessment and temporal progress, pathogen spread, and yield loss determination.

PLPA 7861 PLANT DISEASE EPIDEMIOLOGY LABORATORY (2) LAB. 4. Coreq. PLPA 7860. Quantitative aspects of plant disease epidemiology including spatial and temporal modeling, and disease system simulation.

PLPA 7880 PLANT MICROBIAL ECOLOGY (3) LEC. 3. LAB. 0. Concepts in ecology of plant-associated microbes and their interactions with plants using molecular approaches.

PLPA 7881 PLANT MICROBIAL ECOLOGY LABORATORY (2) LAB. 4. This course will involve hands-on experience with genomic, metagenomic, transcriptomic datasets. Graduate standing in the College of Agriculture/COSAM.

PLPA 7900 DIRECTED STUDIES IN PLANT PATHOLOGY (1-5) LEC. SU. Discussion groups on specific topics, assigned reading on laboratory problems or field research.

PLPA 7910 TEACHING PRACTICUM (1) LAB. 2. SU. Graduate level standing in PLPA or ENTM or Departmental approval. The teaching practicum will address the practical and heretical issues of laboratory learning and facilitating the skills of pedagogy. Course may be repeated for a maximum of 3 credit hours.

PLPA 7930 JOURNAL REVIEW FOR ENTOMOLOGY AND PLANT PATHOLOGY (1) LEC. 1. Graduate level standing in PLPA, ENTM, AGRO, HORT, AGEC or Department approval. Discussion of recent scientific publications on basic aspects of research in entomology and plant pathology. Course may be repeated for a maximum of 2 credit hours.

PLPA 7950 SEMINAR IN PLANT PATHOLOGY (1) SEM. 1. SU. Departmental approval. Seminar presentations on current departmental research and current issues in plant pathology and related disciplines. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

PLPA 7960 SPECIAL PROBLEMS IN PLANT PATHOLOGY (1-4) LAB. 2-8. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in plant pathology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

PLPA 7970 SPECIAL TOPICS IN PLANT PATHOLOGY (1-5) ST1. Advanced topics related to plant pathology. Course may be repeated for a maximum of 5 credit hours.

PLPA 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Research and thesis on problems in plant pathology. Course may be repeated with change in topics.

PLPA 8880 MOLECULAR PLANT PATHOLOGY (3) LEC. 2. LAB. 2. Open discussion and article review on current topics and cutting-edge discoveries in the field of molecular plant pathology, covering the cellular mechanisms of plant interactions with, and immune responses against pathogens.

PLPA 8900 DIRECTED STUDIES IN PLANT PATHOLOGY (1-5) LEC. SU. Discussion groups on specific topics, assigned reading on laboratory problems or field research. Course may be repeated for a maximum of 5 credit hours.

PLPA 8910 TEACHING PRACTICUM (1) LAB. 2. SU. Departmental approval. Practical and theoretical issues of laboratory learning, and pedagogical facilitation. Required of all PhD students. Course may be repeated for a maximum of 3 credit hours.

PLPA 8930 JOURNAL REVIEW FOR ENTOMOLOGY AND PLANT PATHOLOGY (1) LEC. 1. Graduate level standing in PLPA, ENTM, AGRO, HORT, AGEC or Department approval. Discussion of recent scientific publications on basic aspects of research in entomology and plant pathology. Course may be repeated for a maximum of 3 credit hours.

PLPA 8950 SEMINAR (1) SEM. 1. SU. Departmental approval. Presentations and discussion of scientific literature or dissertation research findings. Required for al Ph.D. candidates. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

PLPA 8960 ADVANCED SPECIAL PROBLEMS IN PLANT PATHOLOGY (1-4) LAB. 2-8. Departmental approval. Credit to be arranged. Specialized project or research on a specific topic in plant pathology to be conducted under faculty supervision. Course may be repeated for a maximum of 4 credit hours.

PLPA 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Research and dissertation on problems in plant pathology. Course may be repeated with change in topics.

Applied Biotechnology (APBT)

The applied biotechnology major requires 120 semester hours of course work, including 41 semester hours of the university core curriculum. All courses and related activities required for the major cover general biological and chemical sciences, theory and methodology of biotechnology, bioinformatics, microbiology, molecular biology, genetics/genomics, general plant pathology and physiology, general entomology and insect/plant physiology, pesticide toxicology, genetics, medical entomology, and cell biology. The minimum number of hours required for an undergraduate major is 30 hours of course work in the discipline or a closely allied field. Of these hours, a minimum of 16 must be taken in upper-division (numbered 3000 or above) courses in the major area. The curriculum is the combination of laboratory skills, applied coursework and the biotechnology internship experience which complete an approved academic program for earning a B.S. degree in Applied Biotechnology.

School of Fisheries, Aquaculture and Aquatic Sciences

Fisheries science combines a general foundation in chemistry, mathematics and biological sciences with applied courses in the principles needed to manage fresh and saltwater aquatic resources. The degree is intended to equip students with a broad understanding of fundamental scientific principles needed to develop solutions for the increasing pressures on our aquatic resources and the need to provide safe, reliable food through aquaculture production. Through a sequence of courses, students specialize in emphasis areas of aquatic ecology, fisheries management, marine resources or aquaculture. The FISH pre-vet/pre-professional area of emphasis provides students with a broad base of scientific knowledge necessary for success in the College of Veterinary Medicine, other professional schools, or graduate school. Careers for graduates include work in environmental management, fisheries resource management, extension, and commercial aquaculture production, processing, and marketing.

Majors

- Fisheries, Aquaculture and Aquatic Sciences — Fisheries and Aquaculture Option (p. 257)
- Fisheries, Aquaculture and Aquatic Sciences — Marine Resources Management Option (p. 258)
- Fisheries, Aquaculture, and Aquatic Sciences — Pre-Professional Option (p. 259)

Minors

- Fisheries, Aquaculture, and Aquatic Science (p. 256)

Courses

FISH 1100 FISHERIES ORIENTATION (1) LEC. 1. SU. An introduction to the departmental programs and personnel and how to make the most of a future in fisheries.

FISH 1110 DIMENSIONS OF FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (1) LEC. 1. Consideration of various aspects of fisheries, aquaculture, and aquatic sciences work, career options as related to individual interests, and career planning. Overview of the different research and extension areas of the School.

FISH 2000 GENERAL BIOLOGY OF FISHES AND AQUATIC ORGANISMS (1) LEC. 1. To introduce students to the anatomy and physiology of fishes, crustaceans, and mollusks to better prepare them to take advanced courses in the School of Fisheries, Aquaculture & Aquatic Sciences.

FISH 2020 GLOBAL AND REGIONAL PERSPECTIVES IN FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (2) LEC. 2. Overview of historical, biological, ecological, and social aspects of fisheries, aquaculture, and aquatic sciences, including the importance of water, biodiversity, fisheries management, and aquaculture, as well as how to determine reliability of sources, impacts of aquaculture, aquatic organism life cycles, and threatened and endangered species.

FISH 3950 CAREERS IN FISHERIES (1) LEC. 1. SU. Pr. FISH 2100. Consideration of various aspects of fisheries work, career options as related to individual interests, and career planning or departmental approval. Fall.

FISH 4100 INTRODUCTION TO FISHERIES SCIENCES (3) LEC. 2. LAB. 3. Departmental approval. Hands-on field activities and site visits related to aquatic ecology, fisheries biology, and aquaculture.

FISH 4900 DIRECTED STUDIES IN FISHERIES (1-4) IND. SU. Individualized in depth study on a particular subject under the guidance of a professor. May include directed reading and research. Course may be repeated for a maximum of 4 credit hours.

FISH 4920 INTERNSHIP (1-5) INT. SU. Departmental approval. Discipline-related learning while employed with cooperating private industry or public agency. Course may be repeated for a maximum of 5 credit hours.

FISH 4960 SPECIAL PROBLEMS (1-4) LEC. Departmental approval. Individual and group problems investigations in fisheries and allied aquacultures. Course may be repeated for a maximum of 4 credit hours.

FISH 4967 HONORS SPECIAL PROBLEMS (1-4) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 4 credit hours.

FISH 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

FISH 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

FISH 5210 PRINCIPLES OF AQUACULTURE (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Principles underlying aquatic productivity and levels of management as demonstrated by present practices of aquaculture around the world.

FISH 5215 MARINE AQUACULTURE (2) LEC. 1. LAB. 2. Departmental approval. Introduction to culture of marine species with emphasis in nutrition and feeding, reproductive biology, production techniques, processing, marketing and economics. Taught at the Dauphin Island Sea Lab.

FISH 5220 WATER SCIENCE (3) LEC. 3. Pr. CHEM 1040. Properties of water, the water cycle, basic water chemistry and water quality with emphasis on water in managed ecosystems.

FISH 5230 CONSERVATION ECOLOGY OF FRESHWATER INVERTEBRATES (4) LEC. 3. LAB. 1. Foundational knowledge, ecological theory, and illustrative case-studies on conservation issues and solutions for freshwater invertebrates.

FISH 5240 HATCHERY MANAGEMENT (4) LEC. 2. LAB. 8. Pr. FISH 5210 or FISH 6210. Study of warm-water hatchery techniques and application of those techniques in the field.

FISH 5245 SHELLFISH AQUACULTURE IN THE GULF OF MEXICO (2) FLD. 40. One year of college-level Biology or departmental consent. Overview of the various types of shellfish aquaculture practiced in the Gulf of Mexico, and an understanding of the implications for both for public stock enhancement and private production. Taught at Dauphin Island Sea Lab. May count either FISH 5245 or FISH 6245.

FISH 5250 AQUACULTURE PRODUCTION (4) LEC. 3. LAB. 4. Pr. FISH 5210. Factors affecting growth and yield of aquacultural species, with implications toward farming commonly cultured species. Production techniques for commercially important finfish are discussed.

FISH 5320 LIMNOLOGY (3) LEC. 3. Pr. CHEM 1040 and (BIOL 1030 or BIOL 1037). Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of freshwater communities.

FISH 5321 LIMNOLOGY LABORATORY (1) LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and CHEM 1040 and (P/C FISH 5320 or P/C FISH 6320). Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of aquatic communities. May count either FISH 5321 or FISH 6321.

FISH 5380 GENERAL ICHTHYOLOGY (4) LEC. 3. LAB. 6. Pr. BIOL 1030 or BIOL 1037. Survey of the biodiversity of world and local fishes, with an overview of ecology, behavior, biology and conservation of fishes.

FISH 5410 INTRODUCTION TO FISH HEALTH (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Introduction to parasitic, bacterial and viral pathogens of wild and cultured finfish and shellfish.

FISH 5440 FISH ANATOMY AND PHYSIOLOGY (4) LEC. 3. LAB. 4. Gross and microscopic fish anatomy.

FISH 5510 FISHERIES BIOLOGY AND MANAGEMENT (4) LEC. 3. LAB. 4. Pr. BIOL 1030 or BIOL 1037. This course provides a general overview and introduction to fisheries management with emphasis on freshwater examples. The laboratory will provide hands-on field experience. Credit will not be given for both FISH 5510 and FISH 6510.

FISH 5520 SMALL IMPOUNDMENT MANAGEMENT (3) LEC. 5. LAB. 10. Pr. BIOL 1030 or BIOL 1037. Major aspects of primarily recreational fishing pond management, including construction, stocking, water quality management, harvest strategy, diagnosis of problems and communication of analyses.

FISH 5630 FACILITIES FOR AQUACULTURE (3) LEC. 2. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and CHEM 1040. Principles and practice of site selection, design and construction of aquacultural facilities, with emphasis on impoundments and ponds.

FISH 5670 FISHERIES AND AQUACULTURES EXTENSION METHODS (2) LEC. 2. Pr. BIOL 1030 or BIOL 1037 and CHEM 1040. Concepts and practices pertaining to aquacultural extension organization, administration, program development and implementation.

FISH 5710 AQUATIC MICROBIOLOGY (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Departmental approval. Overview of the diversity, genetics, physiology, and ecology of aquatic microorganisms, with an emphasis on bacteria, archaea and viruses.

FISH 5725 MARINE ICHTHYOLOGY (6) LEC. 6. Pr. BIOL 3060. Departmental approval. General background in the biology of marine fishes and their taxonomy. Offered only at the Gulf Coast Research Laboratory, Ocean Springs, MS. Summer. Admission to the Gulf Coast Research Laboratory.

FISH 5970 TOPICS IN FISHERIES AND ALLIED AQUACULTURES (1-4) LEC. Instruction and discussion in a selected current topic in Fisheries, Aquaculture or Aquatic Sciences. Course may be repeated for a maximum of 4 credit hours.

FISH 6210 PRINCIPLES OF AQUACULTURE (3) LEC. 3. Graduate level standing in FISH or departmental approval. Principles underlying aquatic productivity and levels of management as demonstrated by present practices of aquaculture around the world.

FISH 6215 MARINE AQUACULTURE (2) LEC. 1. LAB. 2. Departmental approval. Introduction to culture of marine species with emphasis in nutrition and feeding, reproductive biology, production techniques, processing, marketing and economics. Taught at the Dauphin Island Sea Lab.

FISH 6220 WATER SCIENCE (3) LEC. 3. Properties of water, the water cycle, basic water chemistry and water quality with emphasis on water in managed ecosystems.

FISH 6230 CONSERVATION ECOLOGY OF FRESHWATER INVERTEBRATES (4) LEC. 3. LAB. 1. Foundational knowledge, ecological theory, and illustrative case-studies on conservation issues and solutions for freshwater invertebrates.

FISH 6240 HATCHERY MANAGEMENT (4) LEC. 4. Study of warm-water hatchery techniques and application of those techniques in the field.

FISH 6245 SHELLFISH AQUACULTURE IN THE GULF OF MEXICO (2) FLD. 40. This course will provide students with an overview of the various types of shellfish aquaculture practiced in the Gulf of Mexico, and an understanding of the implications for both for public stock enhancement and private production. Taught at Dauphin Island Sea Lab. May count either FISH 5245 or FISH 6245.

FISH 6250 AQUACULTURE PRODUCTION (4) LEC. 4. Factors affecting growth and yield of aquacultural species, with implications toward farming commonly cultured species. Production techniques for commercially important finfish are discussed.

FISH 6320 LIMNOLOGY (3) LEC. 3. Graduate level standing in FISH or departmental approval. Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of freshwater communities.

FISH 6321 LIMNOLOGY LABORATORY (1) LAB. 4. Pr. (P/C FISH 5320 or P/C FISH 6320). Graduate level standing in FISH or departmental approval. Limnology is the study of the chemical, physical, geological, biological, and ecological processes that influence the structure and function of aquatic communities. May count either FISH 5321 or FISH 6321.

FISH 6380 GENERAL ICHTHYOLOGY (4) LEC. 3. LAB. 6. Graduate level standing in FISH or departmental approval. Survey of the biodiversity of world and local fishes, with an overview of ecology, behavior, biology and conservation of fishes.

FISH 6410 INTRODUCTION TO FISH HEALTH (3) LEC. 3. Introduction to parasitic, bacterial and viral pathogens of wild and cultured finfish and shellfish.

FISH 6425 MARINE FISH DISEASES (4) LEC. 4. Introduction to diseases of marine finfish and shellfish and practical techniques used to isolate and identify diseases.

FISH 6440 FISH ANATOMY AND PHYSIOLOGY (4) LEC. 4. Gross and microscopic fish anatomy.

FISH 6510 FISHERIES BIOLOGY AND MANAGEMENT (4) LEC. 4. This course provides a general overview and introduction to fisheries management with emphasis on freshwater examples. The laboratory will provide hands-on field experience. Credit will not be given for both FISH 5510 and FISH 6510.

FISH 6520 SMALL IMPOUNDMENT MANAGEMENT (3) LEC. 3. Major aspects of primarily recreational fishing pond management, including construction, stocking, water quality management, harvest strategy, diagnosis of problems and communication of analyses.

FISH 6630 FACILITIES FOR AQUACULTURE (3) LEC. 2. LAB. 4. Principles and practice of site selection, design and construction of aquacultural facilities, with emphasis on impoundments and ponds. Odd years.

FISH 6650 FISH AND SEAFOOD PROCESSING TECHNOLOGY (3) LEC. 3. Graduate level standing in FISH or departmental approval. Emphasis on important species, market forms, preservation techniques, and rules and regulations of the seafood industry.

FISH 6670 FISHERIES AND AQUACULTURE EXTENSION METHODS (2) LEC. 2. Concepts and practices pertaining to aquacultural extension organization, administration, program development and implementation.

FISH 6710 AQUATIC MICROBIOLOGY (3) LEC. 3. Overview of the diversity, genetics, physiology, and ecology of aquatic microorganisms, with an emphasis on bacteria, archaea and viruses.

FISH 6725 MARINE ICHTHYOLOGY (6) LEC. 6. General background in the biology of marine fishes and their taxonomy.

FISH 6970 TOPICS IN FISHERIES AND ALLIED AQUACULTURES (1-4) LEC. Instruction and discussion in a selected current topic in Fisheries, Aquaculture or Aquatic Sciences.

FISH 7100 ADVANCED PARASITE TAXONOMY (6) LEC. 2. LAB. 16. Departmental approval. This is a lab-based course for practicing parasitologists. The course instructs students on how to describe a metazoan parasite species.

FISH 7200 MARINE PARASITOLOGY (6) LEC. 2. LAB. 16. Departmental approval. This is an intensive lab-based course for marine parasitologists. Students will collect and identify marine/estuarine parasites of aquatic animals.

FISH 7230 WATER AND SEDIMENT QUALITY MANAGEMENT IN AQUACULTURE (4) LEC. 3. LAB. 3. Pr. FISH 6220. Departmental approval. Advanced treatment of water and sediment quality management in aquaculture. Analytical methods for soil and water quality.

FISH 7240 RESOURCE USE AND ENVIRONMENTAL ISSUES IN AQUACULTURE (2) LEC. 2. Resource use, environmental effects, and sustainability of aquaculture with emphasis on approaches to improving efficiency and reducing negative environmental effects.

FISH 7270 CRUSTACEAN AND MOLLUSCAN AQUACULTURE (4) LEC. 3. LAB. 3. Departmental approval. General biology and culture techniques of the major shrimp, crawfish and shellfish species cultured throughout the world.

FISH 7300 PATHOLOGY OF AQUATIC ORGANISMS (6) LEC. 2. LAB. 16. Departmental approval. Students gain appreciation for histopathological techniques and recognize basic pathological changes to tissues in aquatic organisms.

FISH 7330 RESERVOIR LIMNOLOGY (3) LEC. 2. LAB. 5. Departmental approval. Consideration of the ecological characteristics of reservoirs as they relate to modern concepts of ecosystem management. Even years.

FISH 7340 FISH ECOLOGY (3) LEC. 2. LAB. 3. Graduate level standing in FISH or departmental approval. Study of interactions among fish and their environment. Laboratory will emphasize critical literature reading and experimental approaches.

FISH 7350 META-ANALYSIS (3) LEC. 3. Meta-analysis is a quantitative approach for synthesizing results from diverse research studies (ecology, psychology, medicine, and education) that address a similar hypothesis. Effect sizes calculated from individual studies are combined to elucidate general patterns across studies.

FISH 7360 MANAGEMENT OF AQUATIC FLORA IN FISHERIES AND AQUACULTURE (4) LEC. 3. LAB. 6. Graduate level standing in FISH or departmental approval. Role of aquatic vegetation in fish production, its utilization and control.

FISH 7380 ECOLOGY AND MANAGEMENT OF RIVERINE SYSTEMS (4) LEC. 3. LAB. 3. River systems within a landscape ecology and ecosystem management context. Laboratory sessions stress techniques for assessment and management. Even years.

FISH 7410 MOLECULAR DIAGNOSIS: PRINCIPLES AND APPLICATIONS (3) LEC. 3. Introduction to molecular biology techniques currently used in disease diagnosis.

FISH 7420 FISH DISEASES (3) LEC. 3. Pr. BIOL 3200. Viral, bacterial, fungal and parasitic diseases of fishes, including etiologic agents, geographical ranges, species susceptibility, clinical signs, clinical pathology, epidemiology and management.

FISH 7450 FISH PATHOLOGY (3) LEC. 2. LAB. 3. Departmental approval. Morphological and physiological changes in fish with infectious or non-infectious diseases. Even years.

FISH 7460 CLINICAL FISH DISEASE DIAGNOSIS (1-3) DSL/LEC. Pr. FISH 6410 or FISH 7420. Practical experience in necropsy of diseased fish. Identification of causative agents and prescription of appropriate disease control.

FISH 7530 FISH POPULATION DYNAMICS (3) LEC. 2. LAB. 4. Departmental approval. Derivation of fish population estimates, growth, recruitment and mortality; use of modeling techniques to assess exploited fish populations. Even years.

FISH 7540 QUANTITATIVE TECHNIQUES IN FISHERY ASSESSMENT (3) LEC. 2. LAB. 4. Departmental approval. Quantitative techniques to assess and manage fish populations in freshwater. The laboratory will analyze actual fisheries data using SAS on personal computers. Odd years.

FISH 7640 FISH NUTRITION (3) LEC. 3. Fundamental and applied aspects of fish nutrition, including nutrient requirements, physiology of food assimilation, feed preparation, and practical feeding.

FISH 7650 TRADITIONAL APPROACHES TO FISH GENETIC ENHANCEMENT (2) LEC. 2. Graduate level standing in FISH or departmental approval. This course is intended to teach the philosophy of fish, shellfish and crustacean genetics, selective breeding, genetic management and inheritance.

FISH 7660 MOLECULAR GENETICS AND BIOTECHNOLOGY (4) LEC. 3. LAB. 3. Graduate level standing in FISH or departmental approval. Principles and application of DNA fingerprinting technologies, gene mapping, genetic information and analysis using internet tools, transgenic technologies.

FISH 7715 ADVANCED MARINE ECOLOGY (2) LEC. 2. Departmental approval. Mechanisms that control distribution of plants and animals at scales ranging from individual organism to ecosystem

FISH 7725 MARINE BIOGEOCHEMICAL PROCESSES (2) LEC. 2. Departmental approval. Marine biogeochemical cycling of carbon, nitrogen, sulfur, phosphorus and metals, with emphasis on estuarine systems.

FISH 7750 BIOTECHNOLOGICAL APPROACHES TO FISH GENETICS (2) LEC. 2. Pr. FISH 7650. Departmental approval. This course is intended to teach the philosophy of fish, shellfish and crustacean genetics, genetic management genetic engineering, genomic manipulation and genetic biotechnology.

FISH 7785 PHYSICAL OCEANOGRAPHY (4) LEC. 4. Departmental approval. Describes observed physical setting of the marine environment, and qualitatively explains how and why observed physical phenomena occur.

FISH 7800 PRINCIPLES OF ECOTOXICOLOGY (3) LEC. 3. Ecotoxicology-an interdisciplinary science studies the impacts of pollutants upon the structure and function of ecological systems. The broad scope of ecotoxicology requires a multidisciplinary approach of a variety of specialties, such as ecology, environmental chemistry, and applied biology.

FISH 7900 DIRECTED STUDIES IN FISHERIES I (1-4) IND. SU. Individualized in-depth study on a particular subject under the guidance of a professor. May include directed readings and research. Course may be repeated for a maximum of 4 credit hours.

FISH 7920 INTERNSHIP IN FISHERIES AND AQUACULTURE (1-10) INT. SU. Departmental approval. Field experience in aquaculture, fisheries or aquatic resource management on farm or with research, extension or aquatic management agency. Course may be repeated for a maximum of 10 credit hours.

FISH 7930 GRADUATE SEMINAR SERIES (1) LEC. 1. SU. Acquaint students with current research and related activities.

FISH 7950 GRADUATE RESEARCH SEMINAR (1) SEM. 1. SU. Departmental approval. Oral presentation and discussion of research in the field of specialization.

FISH 7960 SPECIAL PROBLEMS IN FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (1-4) IND. Individual or group project and research in consultation with faculty member on problem in fisheries, aquaculture, and/or aquatic sciences. Course may be repeated for a maximum of 9 credit hours.

FISH 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

FISH 8900 DIRECTED STUDIES IN FISHERIES II (1-4) IND. SU. Individualized in-depth study on a particular subject under the guidance of a professor. May include directed readings and research. Course may be repeated for a maximum of 4 credit hours.

FISH 8930 GRADUATE SEMINAR SERIES (1) LEC. 1. SU. Acquaint students with current research and related activities.

FISH 8950 GRADUATE RESEARCH SEMINAR (1) SEM. 1. SU. Departmental approval. Acquaint students with current research and related activities.

FISH 8960 SPECIAL PROBLEMS IN FISHERIES, AQUACULTURE, AND AQUATIC SCIENCES (1-4) IND. Individualized work and research in consultation with faculty member on problem in fisheries, aquaculture, and/or aquatic sciences. Course may be repeated for a maximum of 9 credit hours.

FISH 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Fisheries, Aquaculture, and Aquatic Science Minor

Junior (03) classification is required.
15 semester hours in minor (minimum 12 hours at 4000-level or above)

Code	Title	Hours
Select from the following courses:		15
FISH 2000	General Biology of Fishes and Aquatic Organisms	
FISH 2020	Global and Regional Perspectives in Fisheries, Aquaculture, and Aquatic Sciences	
FISH 5210	Principles of Aquaculture	
FISH 5220	Water Science	
FISH 5240	Hatchery Management	
FISH 5250	Aquaculture Production	
FISH 5320	Limnology	
FISH 5440	Fish Anatomy and Physiology	
FISH 5630	Facilities for Aquaculture	
FISH 5380	General Ichthyology	
FISH 5410	Introduction to Fish Health	
FISH 5510	Fisheries Biology and Management	
FISH 5520	Small Impoundment Management	

FISH 5670	Fisheries and Aquacultures Extension Methods	
FISH 5970	Topics in Fisheries and Allied Aquacultures	
Total Hours		**15**

Fisheries, Aquaculture, and Aquatic Sciences — Fisheries and Aquaculture Option (FIFA)

The School of Fisheries, Aquaculture, and Aquatic Sciences (SFAAS) undergraduate program prepares students for productive careers in the private and public sectors in aquaculture, aquatic resource management and ecology, and fisheries biology and management. SFAAS offers three options within our B.S. program: i) Option in Fisheries and Aquaculture, ii) Option in Marine Resources Management, and iii) Pre-professional Option in Fisheries, Aquaculture, and Aquatic Sciences. Our undergraduate programs require a minimum of 120-122 credit hours depending on the option pursued. There are many required core classes (like other programs across campus) but more specialized courses are required for each of the three undergraduate B.S. options. We think such an approach creates opportunities for our undergraduate students to best utilize their undergraduate experience to take courses and pursue experiences that best support their undergraduate training.

* Required Courses in Fisheries Major (courses in bold used to calculate GPA in major)
1 Student must take both courses in a sequence.
2 Student will chose from the following: ANTH 1000, GEOG 1010/GEOG 1017, PSYC 2010, SOCY 1000/SOCY 1007, or UNIV 2720.
3 Directed Science Electives: ANSC 3400, BIOL 3010, BIOL 3100, BIOL 3200 or Advisor approval.

Fisheries, Aquaculture, and Aquatic Sciences — Marine Resources Management Option (FIMR)

The School of Fisheries, Aquaculture, and Aquatic Sciences (SFAAS) undergraduate program prepares students for productive careers in the private and public sectors in aquaculture, aquatic resource management and ecology, and fisheries biology and management. SFAAS offers three options within our B.S. program: i) Option in Fisheries and Aquaculture, ii) Option in Marine Resources Management, and iii) Pre-professional Option in Fisheries, Aquaculture, and Aquatic Sciences. Our undergraduate programs require a minimum of 120-122 credit hours depending on the option pursued. There are many required core classes (like other programs across campus) but more specialized courses are required for each of the three undergraduate B.S. options. We think such an approach creates opportunities for our undergraduate students to best utilize their undergraduate experience to take courses and pursue experiences that best support their undergraduate training.

Department of Horticulture

Courses prepare horticulture graduates for the following careers: nursery manager, landscape designer, landscape installer, landscape maintenance, interior landscaping, plant propagator, city or state horticulturist, extension horticulturist, horticulture writer, horticulture

teacher, florist shop manager, greenhouse manager, vegetable producer, orchard manager, chemical company representative, seed company representative, or retail garden center manager.

Four undergraduate tracks are available to students in horticulture: landscape horticulture, nursery and greenhouse science, pre-landscape architecture, and fruit and vegetable production. Horticulture offers masters' and doctoral degrees, which lead to professional positions.

Majors

- Agricultural Science (p. 264)
- Horticulture — Fruit and Vegetable Production Track (p. 266)
- Horticulture — Landscape Horticulture Track (p. 268)
- Horticulture — Nursery and Greenhouse Science Track (p. 269)
- Horticulture — Pre-Landscape Architecture Track (p. 270)

Minors

Horticulture (p. 265)

Courses

HORT 1010 INTRODUCTION TO HORTICULTURE (1) LEC. 1. Introduces scientific and practical aspects of pomology, olericulture, floriculture and landscape horticulture. Also presents the broad scope of career opportunities in the field of horticultural science. Fall.

HORT 2010 FRUIT AND NUT PRODUCTION (4) LEC. 2. LAB. 4. Introductory course in cultural practices and economics associated with commercial fruit and nut production. Fall.

HORT 2020 HORTICULTURE CROP PRODUCTION (3) LEC. 2. LAB. 3. Techniques of plant propagation and cultural methods for successful fruit, vegetable, and ornamental plant production. Fall.

HORT 2030 VEGETABLE PRODUCTION (3) LEC. 3. Principles, practices, establishment, production, maintenance, harvesting, storage and marketing of commercial vegetable crops. Fall and Spring.

HORT 2040 ORGANIC GARDENING (3) LEC. 3. Principles, production practices, maintenance, harvesting and marketing of organically and traditionally home-grown vegetables.

HORT 2060 HYDROPONICS: PRINCIPLES AND TECHNIQUES OF SOILLESS PLANT PRODUCTION (3) LEC. 3. This course is a survey of the science of hydroponic plant production and is focused on commercial and home vegetable crop production. Specific topics include plant growth and nutrition in hydroponic growing systems, challenges and opportunities, and system design. Fall.

HORT 2210 LANDSCAPE GARDENING (4) LEC. 2. LAB. 4. Principles of landscape gardening applied to residential and small-scale commercial grounds. Involves plant identification and use, basic landscape design, and landscape installation and management concepts.

HORT 2240 PLANT PROPAGATION (3) LEC. 2. LAB. 2. Pr. P/C BIOL 1030 or BIOL 1037. Basic principles and practices involved in the propagation of horticulture plants. Departmental approval. Spring.

HORT 2250 ART OF FLORAL DESIGN (3) LEC. 2. LAB. 2. Basic art principles and design elements and their use with flowers and foliage; history and utilization of flowers within society.

HORT 3000 GROWTH AND DEVELOPMENT OF HORTICULTURAL PLANTS (3) LEC. 3. Pr. (BIOL 1030 or BIOL 1037) and CHEM 1030. Growth and development of plants with concepts applied to the practice of Horticultural Science. Summer and Fall.

HORT 3110 A HISTORY OF GARDENS IN CULTURAL CONTEXT (3) LEC. 3. Heritage and traditions influencing the development of public and private garden styles, context, and function including cultural expressions, plant use, and impact of noted designers and horticulturists throughout history. Only taught in Study Abroad programs.

HORT 3200 WOODY LANDSCAPE PLANT IDENTIFICATION I (4) LEC. 2. LAB. 4. This course introduces students to the language of botany and the Southeastern palate of landscape plants with distinguished fall characteristics. Specific topics include taxonomy, morphology, plants with global popularity, cultivation practices, structural plantings, and use in the landscape. Fall.

HORT 3210 WOODY LANDSCAPE PLANT IDENTIFICATION II (4) LEC. 2. LAB. 4. This course introduces students to the language of botany and the Southeastern palate of landscape plants with distinguished spring characteristics. Specific topics include taxonomy, morphology, plants with global popularity, cultivation practices, structural plantings, and use in the landscape. Spring.

HORT 3220 ARBORICULTURE (4) LEC. 2. LAB. 4. Pr. BIOL 1030 or BIOL 1037. Identification, culture and use of ornamental trees in landscape plantings. Fall.

HORT 3280 LANDSCAPE CONSTRUCTION (4) LEC. 2. LAB. 4. Principles and practices used in the interpretation and implementation of landscape construction and planting plans. Fall.

HORT 3840 STUDY/TRAVEL IN HORTICULTURE (1-10) AAB/FLD. Study of horticultural or fruit and vegetable science, landscape design, nursery and greenhouse management in U.S. or international location. Course may be repeated for a maximum of 10 credit hours.

HORT 3910 PROFESSIONAL LANDSCAPE (3) LEC. 3. Departmental approval. Field-based course designed for learning to prepare and compete in the NALP National Collegiate Landscape Competition. Spring.

HORT 3920 HORTICULTURE INTERNSHIP (1-4) INT. 1-4. Practical on-the-job training for selected commercial horticultural companies. Course may be repeated for a maximum of 8 credit hours.

HORT 3950 CAREERS IN HORTICULTURE (2) LEC. 2. Current developments and career opportunities in horticulture. Fall and Spring.

HORT 4000 PESTICIDE MANAGEMENT IN HORTICULTURE (3) LEC. 3. Pr. (ENTM 4020 or ENTM 3040) and PLPA 3000. Proper management of pesticides in horticulture; decision making skills in relation to control strategies; environmental issues relevant to horticulture; safety considerations; scouting and application techniques. Fall.

HORT 4100 HERBACEOUS ORNAMENTALS (4) LEC. 2. LAB. 4. Pr. (BIOL 1020 or BIOL 1027) and (BIOL 1030 or BIOL 1037). Identification, culture, and use of herbaceous annuals and perennials, bulbs, herbs, and ornamental grasses. Consideration of flower bed and border preparation, care and maintenance. Spring and Summer.

HORT 4250 INTERMEDIATE FRUIT & VEG PROD (3) LEC. 3. Pr. (HORT 2040 or HORT 2043) or HORT 2030. Intermediate horticulture course in which students apply knowledge gained in the classroom to hands-on fruit and vegetable gardening practices.

HORT 4270 INTERMEDIATE LANDSCAPE DESIGN (4) LEC. 2. LAB. 4. Pr. HORT 3210 or HORT 3220 or HORT 4100. A study of the design principles and elements and technical skills used to create a functional and aesthetically pleasing residential landscape design. Fall.

HORT 4300 COMPUTER AIDED PLANTING DESIGN (3) LEC. 3. Pr. HORT 4270. Graphic concepts relating to spatial visualization and communication and project cost estimation using computer aided drafting and project management software developed for landscape professionals. Spring.

HORT 4930 DIRECTED STUDIES (1-3) AAB/IND. Departmental approval. Directed Studies related to research, teaching or outreach educational programs in Horticulture. Course may be repeated for a maximum of 6 credit hours.

HORT 4970 SPECIAL TOPICS (1-3) IND. Principles, methods and techniques for understanding various horticultural disciplines. Course may be repeated for a maximum of 6 credit hours.

HORT 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

HORT 5100 HORTICULTURAL PLANT BREEDING (3) LEC. 3. Pr. (BIOL 3000 or CSES 3300 or AGRI 3000). This class will introduce students to traditional and modern technologies for breeding horticultural crops such as fruits, vegetables, and ornamental crops. Students will learn about the importance of plant breeding for horticultural crop improvement, mechanisms of traditional and modern breeding technologies, and biotechnologies with an emphasis on specific applications for horticultural crops. Credit will only be given for one of the following: HORT 5100 or HORT 6100.

HORT 5110 TREE FRUIT CULTURE (3) LEC. 3. Pr. HORT 3000. Manipulation of growth and development of tree fruit crops by cultural methods. Credit will only be given for one of the following courses: HORT 5110 or HORT 6110. Summer.

HORT 5120 SMALL FRUIT AND PECAN CULTURE (4) LEC. 2. LAB. 4. Pr. HORT 3000. Principles and practices involved in the production and marketing of small fruits and pecans. Credit will only be given for one of the following courses: HORT 5120 or HORT 6120. Spring.

HORT 5130 SUSTAINABLE VEGETABLE CROP PRODUCTION (3) LEC. 2. LAB. 3. Pr. (BIOL 1030 or BIOL 1037) and HORT 3000. Best management practices and quality of vegetable crops. Credit will only be given for one of the following: HORT 5130 or HORT 6130. Spring.

HORT 5140 POST-HARVEST BIOLOGY AND TECHNOLOGY (3) LEC. 2. LAB. 3. Pr. (PLPA 3000 or PLPA 3003) and HORT 3000. Physiological changes occurring in fruits, vegetables and other horticultural products after harvest. Spring.

HORT 5150 RETAIL GARDEN CENTER MANAGEMENT (3) LEC. 2. LAB. 3. Pr. HORT 3210 or HORT 3220 or Departmental approval. The following topics will be covered: financing, location, design, stocking, selling, personnel management, advertising and maintaining plants. May count either HORT 5150 or HORT 6150. Summer.

HORT 5200 CONTROLLED ENVIRONMENT AGRICULTURE (4) LEC. 3. LAB. 2. Pr. HORT 2060. This course will provide a thorough overview of the aerial factors that influence crop production in controlled environments. Credit will only be given for one of the following courses: HORT 5200 or HORT 6200.

HORT 5210 LANDSCAPE BIDDING, INSTALLATION AND MAINTENANCE (4) LEC. 3. LAB. 3. Pr. CSES 2040 and PLPA 3000. Principles and practices of the bidding, installation and maintenance of commercial and residential landscapes. Spring.

HORT 5220 GREENHOUSE MANAGEMENT SCIENCE (4) LEC. 3. LAB. 2. Pr. HORT 3000 and HORT 2240 and CSES 2040. Management, culture and economics of commercial greenhouse production. Fall.

HORT 5230 NURSERY MANAGEMENT (4) LEC. 2. LAB. 4. Pr. HORT 2240 and HORT 3000. Factors affecting plant production. Environmental issues related to facilities design and pesticide and nutrient management. Departmental approval. Spring.

HORT 5240 PUBLIC GARDEN MANAGEMENT (3) LEC. 1. LAB. 4. Understanding personnel structure and responsibilities; plant care and management; and the educational, entertainment, and conservation missions of public gardens. Spring.

HORT 5330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/5333/6330/6336.

HORT 5910 HORTICULTURE PRACTICUM (4) LEC. 1. LAB. 6. Practical application of a broad range of horticultural subject-matter knowledge and skills. May count either HORT 5910 or HORT 6910. Spring. Course may be repeated for a maximum of 8 credit hours.

HORT 6100 HORTICULTURAL PLANT BREEDING (3) LEC. 3. This class will introduce students to traditional and modern technologies for breeding horticultural crops such as fruits, vegetables, and ornamental crops. Students will learn about the importance of plant breeding for horticultural crop improvement, mechanisms of traditional and modern breeding technologies, and biotechnologies with an emphasis on specific applications for horticultural crops. Credit will only be given for one of the following: HORT 5100 or HORT 6100.

HORT 6110 TREE FRUIT CULTURE (3) LEC. 3. Manipulation of growth and development of tree fruit crops by cultural methods. Credit will only be given for one of the following courses: HORT 5110 or HORT 6110. Summer.

HORT 6120 SMALL FRUIT AND PECAN CULTURE (4) LEC. 2. LAB. 4. Principles and practices involved in the production and marketing of small fruits and pecans. Credit will only be given for one of the following courses: HORT 5120 or HORT 6120. Spring.

HORT 6130 SUSTAINABLE VEGETABLE CROP PRODUCTION (3) LEC. 2. LAB. 2. Advanced course in best management practices and quality of vegetable crops. Credit will only be given for one of the following courses: HORT 5130 or HORT 6130. Spring.

HORT 6140 POST-HARVEST BIOLOGY AND TECHNOLOGY (3) LEC. 2. LAB. 2. Physiological changes occurring in fruits, vegetables and other horticultural products after harvest. Spring.

HORT 6150 RETAIL GARDEN CENTER MANAGEMENT (3) LEC. 2. LAB. 3. Topics included: financing, location, design, stocking, selling, personnel management, advertising, and maintaining plants. Graduate students will evaluate garden centers and provide feedback for improvement. Summer.

HORT 6200 CONTROLLED ENVIRONMENT AGRICULTURE (4) LEC. 3. LAB. 2. This course will provide a thorough overview of the aerial factors that influence crop production in controlled environments. Credit will only be given for one of the following courses: HORT 5200 or HORT 6200.

HORT 6210 LANDSCAPE BIDDING, INSTALLATION AND MAINTENANCE (4) LEC. 3. LAB. 3. Principles and practices of the bidding, installation and maintenance of commercial and residential landscapes. Spring.

HORT 6220 GREENHOUSE MANAGEMENT SCIENCE (4) LEC. 3. LAB. 2. Management, culture and economics of commercial greenhouse production. Fall.

HORT 6230 NURSERY MANAGEMENT (4) LEC. 2. LAB. 4. Factors affecting plant production. Environmental issues related to facilities design and pesticide and nutrient management. Departmental approval. Spring.

HORT 6240 PUBLIC GARDEN MANAGEMENT (3) LEC. 1. LAB. 4. Understanding personnel structure and responsibilities; plant care and management; and the educational, entertainment, and conservation missions of public gardens. Spring.

HORT 6330 INTEGRATED PEST MANAGEMENT (3) LEC. 3. Aspects of pest management as a broad-based approach that integrates practices for economic control of pests. May count either ENTM/HORT/PLPA 5330/5333/6330/6336.

HORT 6910 HORTICULTURE PRACTICUM (4) LEC. 1. LAB. 6. Practical application of a broad range of horticultural subject-matter knowledge and skills. May count either HORT 5910 or HORT 6910. Spring. Course may be repeated for a maximum of 8 credit hours.

HORT 7010 EXPERIMENTAL METHODS IN HORTICULTURE (3) LEC. 2. LAB. 2. Principles and methodologies of horticultural research, experimental design, preparation of project and grant proposals, and development of publication skills. Summer

HORT 7040 ADVANCED GROWTH AND DEVELOPMENT OF HORTICULTURAL PLANTS (3) LEC. 3. Plant growth and development from seed germination, through maturity and senescence. Spring.

HORT 7050 NUTRITIONAL REQUIREMENTS OF HORTICULTURAL PLANTS (3) LEC. 3. LAB. 2. Pr. HORT 3000. Nutritional requirements of horticulture crops and factors affecting these requirements. Departmental approval. Summer, odd years.

HORT 7070 PLANT BIOTECHNOLOGY (3) LEC. 3. Plant biotechnology, including plant tissue culture technologies, genetic transformation and applications for horticultural crop improvement.

HORT 7840 GRADUATE STUDY/TRAVEL IN HORTICULTURE (1-4) LEC. Departmental approval. Programmed activities to enhance national/international awareness and enable students to understand horticultural practices in diverse areas. Course may be repeated for a maximum of 8 credit hours.

HORT 7920 GRADUATE INTERNSHIP (1-4) INT. Departmental approval. Supervised professional experience in horticulture

HORT 7950 SEMINAR (1) SEM. SU. Graduate students are required to attend all seminars. Course may be repeated with change in topics.

HORT 7960 SPECIAL PROBLEMS (1-3) IND. 3. Conferences, problems and assigned readings in horticulture. Course may be repeated for a maximum of 6 credit hours.

HORT 7970 SPECIAL TOPICS IN HORTICULTURE (1-3) LEC. Principles, methods and techniques involved in gaining an understanding of different horticultural disciplines. Course may be repeated for a maximum of 3 credit hours.

HORT 7980 NON-THESIS RESEARCH (1-4) RES. 1-4. Research conducted as part of the Master of Agriculture degree. Course may be repeated for a maximum of 4 credit hours.

HORT 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

HORT 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Horticulture — Pre-Landscape Architecture Track (HRTB)

Students who have successfully completed the first three years of the Pre-Landscape Architecture Emphasis and who have a minimum 2.8 cumulative GPA are eligible to apply to the Landscape Architecture Summer Design Studio. Students who have successfully completed the Summer Design Studio and who are approved by the Landscape Architecture Faculty Admissions Committee are eligible to make application to the Graduate School for the Master of Landscape Architecture Program upon the completion of the fourth year. Please see the Office of Academic Affairs in the College of Agriculture for further information.

Department of Poultry Science

Students within the Department of Poultry Science learn about the food system from poultry production on the farm through processing and food safety to the manufacturing of poultry products for the consumer. The department houses the B.S. degree in poultry science, where two curriculum options are available. The traditional poultry production option prepares students to enter and advance within the poultry industry. The poultry science/pre-veterinary medicine option prepares students for professional schools (e.g., veterinary medicine, pharmacy, dental, or medical school). Enrollment in an internship, usually during the summer, is required for the B.S. degree in poultry science.

Majors

- Poultry Science — Production Option (p. 277)
- Poultry Science — Pre-Veterinary Medicine Option (p. 275)

Minors

- Poultry Science (p. 275)

Food Science Courses

FDSC 1000 INTRODUCTORY FOOD SCIENCE (3) LEC. 3. Overview of food science discipline including food selection, food composition, food safety and sanitation, food processing, packaging, commodity types, and food laws.

FDSC 4290 PROFESSIONAL DEVELOPMENT IN FOOD SCIENCE (1) LEC. 1. Preparing for careers; enhancing computer and communication skills; planning for professional advancement.

FDSC 4920 FOOD SCIENCE INTERNSHIP (3) INT. 3. Departmental approval. Practical on-the-job training in the food industry. Course may be repeated for a maximum of 9 credit hours.

FDSC 4960 SPECIAL PROBLEMS IN FOOD SCIENCE (1-3) IND. 2.50 GPA or departmental approval. Individual or group projects with a faculty member in food science. May include literary research, data analysis or a combination of these. Course may be repeated for a maximum of 6 credit hours.

FDSC 4970 SPECIAL TOPICS (1-4) LEC. Departmental approval. Instruction and discussion of current topics associated with food science. Course may be repeated for 8 hours. Course may be repeated for a maximum of 8 credit hours.

FDSC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

FDSC 5660 FOOD MICROBIOLOGY (4) LEC. 3. LAB. 1. Pr. BIOL 3200. Introduction to basic and applied microbiology in food; including how bacteria, viruses, parasites, yeasts and molds affect and are in turn affected by foods both positively and negatively. May count either FDSC 5660, BIOL 5660, FDSC 6660 or BIOL 6660.

FDSC 6660 FOOD MICROBIOLOGY (4) LEC. 3. LAB. 1. Pr. BIOL 3200. Introduction to basic and applied microbiology in food; including how bacteria, viruses, parasites, yeasts and molds affect and are in turn affected by foods both positively and negatively. May count either FDSC 5660, BIOL 5660, FDSC 6660 or BIOL 6660.

FDSC 7430 FLAVOR CHEMISTRY (3) LEC. 3. Chemistry of flavor compounds; Analytical approaches and sensory evaluation to characterize flavor.

FDSC 7600 MOLECULAR PATHOGENESIS OF FOODBORNE PATHOGENS (3) LEC. 3. Pr. BIOL 6260 or VBMS 7460. This course covers a detailed description of major foodborne pathogens that affect human health and their pathogenesis. Lectures will detail how the pathogen's adherence and invasion, host dissemination, and host cell damage lead to pathogenesis.

FDSC 7730 SENSORY EVALUATION (3) LEC. 2. LAB. 2. History and methods of sensory testing of food products, factors affecting results.

FDSC 7950 GRADUATE SEMINAR (1) SEM. 1. Literature in poultry science, food science or related field. Emphasis given to preparation, organization, and presentation of research materials and to reporting current literature in the field. May count either POUL 7950 or FDSC 7950. Course may be repeated for a maximum of 3 credit hours.

FDSC 7960 SPECIAL PROBLEMS (1-4) IND/ST1. Departmental approval. Critical analysis of classic and current research. Course may be repeated for a maximum of 8 credit hours.

FDSC 7970 SPECIAL TOPICS IN FOOD SCIENCE (1-4) LEC. Instruction and discussion of current advanced topics associated with food science. Course may be repeated for a maximum of 8 credit hours.

FDSC 7980 NONTHESIS RESEARCH (1-4) RES. Departmental approval. enrolled as FDSG MAg student. Research conducted as part of the Master of Agriculture degree.

FDSC 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Research in an area of specialization. Course may be repeated with change in topic.

FDSC 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Research in an area of specialization. Course may be repeated with change in topic.

Poultry Science Courses

POUL 1000 INTRODUCTORY POULTRY SCIENCE (3) LEC. 3. Introduction to the poultry species and their commercial production, physiology, nutrition, and management.

POUL 2000 POULTRY AND EGG EVALUATION AND SELECTION (1) LAB. 1. A hands-on approach to poultry and egg evaluation based on the U.S. poultry and Egg guidelines and how to properly care for and handle the birds. Spring and Fall. Course may be repeated for a maximum of 4 credit hours.

POUL 2100 PROFESSIONAL DEVELOPMENT FOR ANIMAL AGRICULTURE, PRODUCTION, PROCESSING & FEED INDUSTRIES (1) LEC. 1. Development of professional skills and career preparation for students in animal agriculture.

POUL 3030 COMMERCIAL POULTRY PRODUCTION (4) LEC. 3. LAB. 3. The organization and management principles of the commercial poultry meat and egg production industries. Fall.

POUL 3060 POULTRY REPRODUCTION (3) LEC. 2. LAB. 2. Pr. POUL 3030. This course explores the reproductive physiology and endocrinology of poultry species, emphasizing genetics and management strategies impacting production, fertility, and hatchability in the industry. Students will also learn hatchery management and embryonic development of the chick.

POUL 3150 POULTRY PHYSIOLOGY (4) LEC. 3. LAB. 3. The physiological principles and anatomical characteristics of poultry species which directly interact with commercial management systems. Spring.

POUL 4920 POULTRY SCIENCE INTERNSHIP (3) INT. 3. Departmental approval. Practical on-the-job training in the poultry industry. Course may be repeated for a maximum of 9 credit hours.

POUL 4960 SPECIAL PROBLEMS IN POULTRY SCIENCE (1-3) IND. 2.5 GPA or departmental approval. Individual or group projects with a faculty member in poultry science. May include literary research, data analysis or a combination of these. Course may be repeated for a maximum of 6 credit hours.

POUL 4970 SPECIAL TOPICS IN POULTRY SCIENCE (1-4) LEC. Departmental approval. Instruction and discussion of selected current topics in poultry science. Course may be repeated for 8 hours. Course may be repeated for a maximum of 8 credit hours.

POUL 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

POUL 5020 PRINCIPLES OF ANIMAL FEED MANUFACTURING (3) LEC. 2. LAB. 2. Principles of animal food manufacturing for cattle, swine, poultry, horses, aquaculture, and pet foods with emphasis on current animal food manufacturing practices, current animal food ingredient manufacturing, and current animal food regulatory landscapes. May count either POUL 6020 or POUL 5020.

POUL 5030 ADVANCED COMMERCIAL POULTRY PRODUCTION (3) LEC. 3. Pr. POUL 3030 and POUL 3150 and POUL 5050 and POUL 5110. The course covers the major principles of the integrated poultry industry, including the interactions and interrelationships between business segments in the poultry industry.

POUL 5050 POULTRY FEEDING (3) LEC. 3. Pr. ANSC 3410. The application of the principles of nutrition to poultry; the functions of individual nutrients, their deficiency symptoms and their supply in terms of feedstuffs and practical poultry diets. May count either POUL 5050 and POUL 6050.

POUL 5070 ANIMAL WELFARE (3) LEC. 3. Pr. (POUL 1000 or ANSC 1000) and (POUL 3150 or ANSC 3600). This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, wildlife, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

POUL 5080 POULTRY HEALTH (3) LEC. 3. Pr. BIOL 3200 and POUL 3150. Study of the prevention, diagnosis, control and treatment of economically important diseases of poultry. May count either POUL 5080 or POUL 6080.

POUL 5110 POULTRY PROCESSING (3) LEC. 2. LAB. 3. Pr. POUL 3030 and (CHEM 1110 or CHEM 1030). The course focuses on poultry processing and related aspects. Students will learn the effects of live production, feed withdrawal and haul on poultry processing and quality as well as pre- and post-harvest food safety, USDA regulations, Halal and Kosher standards. May count either POUL 5110 or POUL 6110.

POUL 5140 POULTRY FURTHER PROCESSING AND PRODUCTS (3) LEC. 2. LAB. 3. Pr. CHEM 1110 or CHEM 1030. The course will provide an in-depth understanding of poultry product development, principles and practices, biochemistry, modern technologies used to assess product quality, sensory analysis, food safety as well as USDA regulations associated with poultry products. May count either POUL 5140 or POUL 6140.

POUL 5160 PRINCIPLES OF FOOD SAFETY (3) LEC. 3. Pr. BIOL 3200. Study of the identification and control of physical, chemical, and microbiological hazards in the food industry. Introduction to Hazard Analysis and Critical Control Points (HACCP). May count either POUL 5160 or POUL 6160.

POUL 6020 PRINCIPLES OF ANIMAL FEED MANUFACTURING (3) LEC. 2. LAB. 2. Principles of animal food manufacturing for cattle, swine, poultry, horses, aquaculture, and pet foods with emphasis on current animal food manufacturing practices, current animal food ingredient manufacturing, and current animal food regulatory landscapes. May count either POUL 5020 or POUL 6020.

POUL 6030 ADVANCED COMMERCIAL POULTRY PRODUCTION (3) LEC. 3. The course covers the major principles of the integrated poultry industry, including the interactions and interrelationships between business segments in the poultry industry. Graduate student standing.

POUL 6050 ADVANCED POULTRY FEEDING (3) LEC. 3. An advanced study and review of the literature on the application of the principles of nutrition to poultry; the functions of individual nutrients, their deficiency symptoms and their supply in terms of feedstuffs and practical poultry diets. May count either POUL 5050 or POUL 6050.

POUL 6070 ANIMAL WELFARE (3) LEC. 3. This course covers the key principles and application of animal welfare, and concepts will be applied to livestock, companion animals, wildlife, animals in research, and animals in entertainment. May count either POUL/ANSC 5070 or POUL/ANSC 6070.

POUL 6080 ADVANCED POULTRY HEALTH (3) LEC. 3. Departmental approval. An advanced study of the prevention, diagnosis, control and treatment of economically important diseases of poultry. May count either POUL 5080 or POUL 6080.

POUL 6110 POULTRY PROCESSING (3) LEC. 2. LAB. 3. Students will acquire strong knowledge on each step of poultry processing from hanging to chilling and transportation. The course will cover topics on food safety (pre- and post-harvest), spoilage, antimicrobial interventions, USDA regulations as well as Halal and Kosher standards. May count either POUL 5110 or POUL 6110.

POUL 6140 POULTRY FURTHER PROCESSING AND PRODUCTS (3) LEC. 2. LAB. 3. The course will provide an in-depth understanding of poultry product development, principles and practices, biochemistry, modern technologies used to assess product quality, sensory analysis, food safety as well as USDA regulations associated with poultry products. May count either POUL 5140 or POUL 6140.

POUL 6160 ADVANCED PRINCIPLES OF FOOD SAFETY (3) LEC. 3. Advanced study of the identification and control of physical, chemical, and microbiological hazards in the food industry. Introduction to Hazard Analysis and Critical Control Points (HACCP). May count either POUL 5160 or POUL 6160.

POUL 7100 SUPERVISED INVESTIGATION (1-4) IND. Departmental approval. Advanced independent investigation in major field of poultry or avian science. Requirements include review of literature, successful and timely completion of research project, and presentation of results in written and/or oral report. Course may be repeated for a maximum of 8 credit hours.

POUL 7950 GRADUATE SEMINAR (1) SEM. 1. Literature in poultry science, food science or related field. Emphasis given to preparation, organization, and presentation of research materials and to reporting current literature in the field. May count either FDSC 7950 or POUL 7950. Course may be repeated for a maximum of 3 credit hours.

POUL 7960 SPECIAL PROBLEMS IN POULTRY SCIENCE (1-3) IND. Critical analysis of classic and current research in poultry science, including literary research and/or data analysis. Course may be repeated for a maximum of 6 credit hours.

POUL 7970 SPECIAL TOPICS IN POULTRY SCIENCE (1-4) LEC. Instruction and discussion of current advanced topics associated with poultry science. Course may be repeated for a maximum of 8 credit hours.

POUL 7980 NON-THESIS RESEARCH (1-4) RES. Departmental approval. enrolled as POUL MAg student. Research conducted as part of the Master of Agricultural degree.

POUL 7990 RESEARCH AND THESIS (1-10) MST. Technical laboratory problems related to poultry. Course may be repeated with change in topics.

POUL 8100 GI SYSTEMS AND NUTRIENT UTILIZATION (3) LEC. 3. Pr. POUL 5050. Structure of feedstuffs and strategy in nutrient recovery from the gastrointestinal systems of fowl, swine, and ruminants.

POUL 8960 SPECIAL PROBLEMS (1-4) IND. A) Nutrition, B) Physiology, C) Health, D) Microbiology, E) Processing, F) Product Safety and Quality, G) Teaching, H) Immunonutrition. Course may be repeated with change in topic. Departmental approval.

POUL 8990 RESEARCH AND DISSERTATION (1-10) DSR. Technical laboratory problems related to poultry. Course may be repeated with change in topics.

Poultry Science Minor

17 semester hours in minor (minimum 13 hours at 3000-level or above)

Code	Title	Hours
POUL 1000	Introductory Poultry Science	3
POUL 3030	Commercial Poultry Production	4
POUL 2100	Professional Development for Animal Agriculture, Production, Processing & Feed Industries	1
3 Elective Courses - See advisor for approved course listing.		9
Total Hours		**17**

Poultry Science — Pre-Veterinary Medicine Option (POPV)

This option is designed to develop the technical, analytical, and communication skills, as well as provide the broad scientific foundation, needed for success in post-graduate degree programs, such as the Doctor of Veterinary Medicine, Master of Science, Doctor of Philosophy or other post-graduate professional degrees. Completion of this option will also prepare graduates for technical and research positions in the poultry and allied industries. Courses listed for the first six semesters satisfy requirements for admission to the College of Veterinary Medicine. Completion of the remaining requirements entitles the student to a B.S. degree in poultry science.

Poultry Science/Pre-Veterinary Medicine Option

Poultry Science — Production Option (POPP)

This option is designed to develop technical, analytical, communication, business, and management skills needed for advancement to leadership positions in poultry production and allied agricultural industries. Graduates will be able to apply their knowledge of science, economics, business, and ethics to identify, analyze and responsibly address challenges associated with modern poultry production. Relevant courses in poultry processing, products, and business are also included in this curriculum option.

General Agriculture

- Agricultural Communication (p. 278)

Agricultural Communications (AGCM)

The Agricultural Communications program is designed to produce graduates who possess exceptional communication skills meshed with a strong science-based background in agriculture and natural resources. This degree enables graduates to communicate vital information related to science, agriculture, natural resources, food and the environment to diverse audiences. Agricultural Communications graduates are prepared to work in the public and private sectors—from corporations to government agencies to nonprofits—pursuing a variety of careers including: writers, photographers, graphic designers, Web developers and managers,

videographers, electronic/digital media producers, marketing specialists, public relations practitioners, publishers, researchers, distance education specialists, overseas development workers, extension educators and managers and editors of magazines and other printed or online news venues. Graduates work throughout corporate America, institutions of higher learning, government agencies, medical technology operations, lobbyist and advocacy groups, non-profits and research organizations in the public and private sector. This combination of technical subject matter knowledge and communication skills is not found in other curricula. The program also prepares students for graduate and professional schools, including law school.

Total Hours: 120

1 For the "Animal, Poultry, or Fisheries Sciences; Entomology" group, select any course within the following: ANSC, POUL, FDSC, FISH, APBT, or ENTM
For the "Forestry, Crop & Soil, Horticulture, Plant Pathology, or Parks and Recreation" group, select any course within the following: FOEN, FORY, FOWS, CSES, HORT, PLPA, NATR, PARK, or WILD

2 See academic advisor for guidance on directed electives.

3 For the "Food, Environment, and Society" group, select from: RSOC 2090 Food Systems: Policy, Production, and Practice; ROSOC 3560 Environment, Society, & Justice; FOWS 2030 Intro to Environ Education; PARK 2010 Introduction to Nature-Based Recreation and Management; NATR 2050 People and the Environment; WILD 1400 Biodiversity in a Changing World; WILD 3280 Wildlife Ecology, Conservation, and Management; or HIST 3590 Issues in Food and Agriculture.

4 For the "Agricultural Policy/Leadership/Law" group, select from: AGEC 3300 Agricultural Policies and Trade; AGEC 4070 Agricultural Law; AGRI 3800 Leading People and Teams in Agriculture; AGRI 5840 Leading Organizational and Community Change in Agriculture;

5 Students are encouraged to pursue a minor in the College of Agriculture if feasible, but for this group may choose any course from among the following: AGRI, AGEC, ANSC, APBT, BATM, BSEN, CSES, ENTM, ENVI, FISH, FDSC, HORT, PLPA, POUL, or RSOC.

Majors

Minors

Agricultural Leadership Studies Minor

15 semester hours in minor (minimum 9 hours at 3000-level or above)

Code	Title	Hours
Required Courses		**6**
AGRI 3800	Leading People and Teams in Agriculture	
AGRI 5840	Leading Organizational and Community Change in Agriculture	
Choose two courses (6 hours) from the list below:		**6**
AGEC 1000	Global Issues in Food, Agriculture, Development, and Environment	
AGEC 4000	Principles of Agribusiness Management	
RSOC 2090	Food Systems: Policy, Production, and Practice	
RSOC 3560	Environment, Society, and Justice	
RSOC 3620	Community Organization	
RSOC 5410	Extension Programs and Methods	
POLI 2100	State Government and Policy	
Elective Course (3 credit hours) - See advisor for guidance.		**3**

College of Architecture, Design and Construction

DAWN FINLEY, *Dean*
DAVID HINSON, *Associate Dean for Graduate Studies and Research*
C. BEN FARROW*, Associate Dean for Academic Affairs and International Programs*

THE COLLEGE OF ARCHITECTURE, DESIGN AND CONSTRUCTION (CADC) is committed to preparing professionals in the design and construction industries through professional undergraduate programs in the academic areas of architecture, building science, environmental design, graphic design, industrial design, interior architecture, and landscape architecture and through graduate professional programs in building science, industrial design, architecture/public interest design option, landscape architecture, and real estate development. Collaboration, community engagement, innovation, global connection and critical practice are core values intertwined in all of the programs at the College of Architecture, Design and Construction. Whether working with nationally respected corporations in the School of Industrial and Graphic Design, associating with major construction companies in the McWhorter School of Building Science, or building facilities to accommodate the needs of some of the state's underserved citizens in the School of Architecture, Planning and Landscape Architecture's Rural Studio, CADC students learn in unique and flexible settings from innovative faculty and through progressive pedagogical models.

The College of Architecture, Design and Construction maintains the right to limit enrollment in all programs and may retain student work for exhibition or for records and accreditation purposes. CADC students in the professional programs are required to pay the CADC Professional Fee during each semester of the professional curriculum.

Minors

- Environmental Design (p. 341)
- History of Architecture and the Built Environment (p. 343)
- Industrial and Graphic Design Processes (p. 307)
- Real Estate Development (p. 390)

Graduate Programs

- Building Construction — Graduate Certificates, MBC, PhD (p. 1560)
- Industrial Design — MID (p. 1687)
- Landscape Architecture — MLA (p. 1700)
- Real Estate Development — MRED (p. 1757)
- Architecture – Public Interest Design Option — MS (p. 1552)

Architecture Courses

ARCH 1000 CAREERS IN DESIGN AND CONSTRUCTION (1) LEC. 1, LST. 1. Introduction to the environmental design and construction professions and the curricula in the chosen field.

ARCH 1010 INTRODUCTION TO ARCHITECTURE DESIGN (6) LEC/STU. 12. Coreq. ARCH 1060. Principles of visual organization, research and design process skills, and the graphic communication of form and ideas.

ARCH 1020 INTRODUCTION TO ARCHITECTURE DESIGN II (6) LEC. 6, LST. 12. Pr. ARCH 1010 and ARCH 1000 and ARCH 1060. Coreq. ARCH 1420. Principles of visual organization, research and design process skills, and the graphic communication of form and ideas.

ARCH 1060 VISUAL COMMUNICATION (2) LEC/STU. 2. Coreq. ARCH 1010. Introduction to graphic communication. Focus on developing graphic skills for the purpose of explaining form and communicating ideas via exercises in drafting, sketching, and diagramming.

ARCH 1420 INTRODUCTION TO DIGITAL MEDIA (3) LEC. 3, LST. 0. Pr. ARCH 1060. Coreq. ARCH 1020. Introduction to the principles of 2-D and 3-D digital media and how these principles are utilized in architectural design.

ARCH 2010 STUDIO I (6) LEC. 2, LST. 10. Pr. ARCH 1020 and ARCH 1420. Basic issues of architectural design centered around the thoughtful creation of exterior and interior space. Studies of light, material, texture, proportion, scale, and site are integrated into each project.

ARCH 2020 STUDIO II (6) LEC. 2, LST. 10. Pr. ARCH 2010. Fundamental design process skills including observation, analysis, and synthesis.

ARCH 2110 HISTORY OF WORLD ARCHITECTURE I (3) LEC. 3. Pr. ARCH 1020. Examination of the social determinants that shape the public beliefs and practices that produce buildings.

ARCH 2210 ENVIRONMENTAL CONTROLS I (3) LEC. 3. Pr. ARCH 1020. This course provides the basic knowledge and skills requisite an architect in the design of environmentally responsive buildings.

ARCH 2220 ENVIRONMENTAL CONTROLS II (3) LEC. 3. Pr. ARCH 1020. This course provides the basic knowledge and skills requisite an architect in the design of environmentally responsive buildings.

ARCH 2600 THE ART OF ARCHITECTURE, PLACE, AND CULTURE (3) LEC. 3. The interrelationship of art, architecture, place, and culture with emphasis on the art of architecture from a global multicultural perspective. Illustrated lecture, readings, and essays.

ARCH 3010 STUDIO III (6) LEC. 2, LST. 10. Pr. ARCH 2020 and ARCH 3110. Builds on ARCH 2010 and 2020. The process of making architecture through critical inquiry and investigation. The physical, social, ethical contexts that inform the design of every building.

ARCH 3020 STUDIO IV (6) LEC. 2, AAB/LST. 10. Pr. ARCH 3010 or ARIA 3020. Builds on ARCH 3010 and adds an emphasis on the integration of construction tectonics in the development of architectural form.

ARCH 3110 HISTORY OF WORLD ARCHITECTURE II (3) LEC. 3. Pr. ARCH 2110 or ARCH 2117. Introduction to key European buildings and towns from the Bronze Age to the Enlightenment. Examines how societal beliefs and practices influence the making of architecture.

ARCH 3120 HISTORY OF MODERN ARCHITECTURE (3) LEC. 3. Pr. ARCH 3110. The history of architecture, 1850-present, with an emphasis on the rise of the modern movement in Europe and the U.S.

ARCH 3320 MATERIALS AND METHODS OF CONSTRUCTION I (3) LEC. 3. Pr. ARCH 1020. The properties and potential design function of materials used in contemporary construction, with an emphasis on foundation systems, wood, and masonry.

ARCH 3410 DESSEIN ELECTIVES (3) LEC. 3. Explorations in the art of representation. Complete descriptions of specific courses and their prerequisites are available from the School of Architecture, Planning and Landscape Architecture Course may be repeated for a maximum of 9 credit hours.

ARCH 3500 SEMINAR IN METHODS AND PROCESSES (3) LEC. 3. The tools and techniques available to the design professional including specific design specializations, and design methodologies. Descriptions of specific seminars are available from the School of Architecture. Course may be repeated for a maximum of 9 credit hours.

ARCH 3600 SEMINAR IN CONTEMPORARY ISSUES (3) LEC. 3. Pr. ARCH 2020. Investigation of significant topics that present opportunities and constraints to architectural thought and practice. Course may be repeated for a maximum of 9 credit hours.

ARCH 3700 SEMINAR IN HISTORY AND THEORY (3) LEC. 3. Pr. ARCH 2010. Investigation of theories, schools or periods to examine the potential and limitations of architecture. Descriptions of specific seminars available from School of Architecture. Course may be repeated for a maximum of 9 credit hours.

ARCH 3800 SEMINAR IN ASPECTS OF DESIGN (3) LEC. 3. Pr. ARCH 2020. Study of aspects of architectural design, such as form, space, style, meaning, perception, culture. Descriptions of specific seminars available from the School of Architecture. Course may be repeated for a maximum of 9 credit hours.

ARCH 4010 STUDIO V (6) LEC. 2, LST. 10. Pr. (ARCH 3010 or ARIA 3020) and BSCI 3440. The comprehensive design of buildings, building complexes, and spaces in an urban context. Lectures emphasize urban issues, research methods. Programming and analysis will parallel studio projects of increasing complexity.

ARCH 4020 STUDIO VI (6) LEC. 2, AAB/LST. 10. Pr. ARCH 4010 or ARIA 4020. The design of buildings, building complexes, and spaces with emphasis on the integration of building systems and tectonic development.

ARCH 4110 HISTORY OF URBAN ARCHITECTURE (3) LEC. 3. Pr. ARCH 2110 or ARCH 2117 and ARCH 3110. The course surveys the history of the physical and formal manifestations of the urban environment from its inception to our days.

ARCH 4320 MATERIALS AND METHODS OF CONSTRUCTION II (3) LEC. 3. Pr. ARCH 3320. Properties and potential design applications of materials used in contemporary construction, with an emphasis on steel and concrete, roofing, glass and glazing, cladding, and interior finishes.

ARCH 4500 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. ARCH 3020 or ARIA 3020. Architects' legal responsibilities, frameworks of professional practice, office organization, business planning, marketing, project delivery, internship and professional ethics and leadership.

ARCH 4900 DIRECTED STUDIES (1-6) AAB. Development of an area of special interest through independent study. Evaluation of the work may be by faculty jury. School approval. Course may be repeated for a maximum of 6 credit hours.

ARCH 4910 RURAL STUDIO COMPLETION (0) DSL/LEC. Completion of construction project for ARCH 4120 Elective Studio. This studio is based in the School's remote facilities in Newbern, AL.

ARCH 4920 PROFESSIONAL INTERNSHIP (1-3) INT. Departmental approval. Application of principles and theories in a professional setting. Course may be repeated for a maximum of 9 credit hours.

ARCH 4960 SPECIAL PROBLEMS (1-6) LEC. Special problems Course may be repeated for a maximum of 6 credit hours.

ARCH 5010 STUDIO VII (6) LEC. 2, AAB/LST. 10. Pr. ARCH 4020 or ARIA 4020. Advanced problem-solving in the synthesis of previous design experiences. Development of a comprehensive design project.

ARCH 5020 THESIS STUDIO (6) LEC. 6, AAB/LST. 13. Pr. ARCH 5010 and ARCH 5990. Exploration and development of an architectural project under the direction of a faculty member.

ARCH 5100 TEACHING METHODS (1) LEC. 1.

ARCH 5240 BEING THERE (1) LEC. 1. Course may be repeated for a maximum of 2 credit hours.

ARCH 5340 METHODS IN COMMUNITY BASED LEARNING (3) LEC. 3.

ARCH 5990 THESIS RESEARCH (3) LEC. 3. Pr. ARCH 4020. Coreq. ARCH 5010. The tools, techniques, and strategies required to select, develop, refine, write, and present a thesis argument.

ARCH 5991 THESIS RESEARCH (1) LEC. 1. Pr. ARCH 5990. Expansion on the individual thesis argument and research begun in ARCH 5990 in parallel with the development of their thesis design project in ARCH 5020.

ARCH 7010 FALL STUDIO (6) STU. 12. This is one of three design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a schematic, client-driven architectural proposal.

ARCH 7020 SPRING STUDIO (6) STU. 12. This is one of three design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a client-driven architectural proposal.

ARCH 7030 SUMMER STUDIO (6) STU. 12. This is one of three design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a client-driven architectural proposal.

ARCH 7110 SEMINAR IN COLLABORATIVE DESIGN METHODS AND PROCESS (3) SEM. 3. Introduction to the core theories of collaboration within interdisciplinary design and construction project teams teams and community-based client groups. Students develop an understanding of the fundamentals of collaborative process design, principles negotiation, communication across disciplines, and conflict resolution.

ARCH 7120 SEMINAR IN DESIGN TECTONICS (3) SEM. 3. Taught as a series of workshops, this course provides the disciplinary framework necessary to apply technical research methods when evaluating options and reconciling the implications of design development decisions across systems and scales.

ARCH 7130 SEMINAR IN PROJECT COMMUNICATIONS (3) SEM. 3. This course provides the disciplinary framework necessary to develop all project documentation required for project construction, delivery, record keeping, as well as future research and analysis.

ARCH 7210 EXECUTIVE ISSUES: DISCIPLINARY FRAMEWORK (3) SEM. 3. Taught as a series “overlay” lectures and workshops. Provides the disciplinary framework to apply case study research methods when evaluating options and reconciling the implications of schematic design decisions across systems/scales.

ARCH 7220 EXECUTIVE ISSUES: RESEARCH METHODS (3) SEM. 3. Taught as a series "overlay" lectures and workshops. Provides the disciplinary framework necessary to apply case study research methods when evaluating options and reconciling the implications of design development decisions across systems/scales.

Building Science Courses

BSCI 1100 INTRODUCTION TO CONSTRUCTION (3) LEC. 3. Introduction to construction industry and education, current issues, and career opportunities.

BSCI 2200 CONSTRUCTION DOCUMENTS (3) LEC. 2. LAB. 3. Pr. BSCI 2300. Reading and interpreting working drawings, specifications, shop drawings, and digital 3D models for use in estimating and administrating various types of construction projects.

BSCI 2300 CONSTRUCTION METHODS AND MATERIALS (3) LEC. 3. Materials, methods and construction equipment used in the construction of buildings.

BSCI 2400 STRUCTURE OF BUILDINGS I (3) LEC. 3. Pr. (PHYS 1500 or PHYS 1600) and (MATH 1610 or MATH 1150 or (MATH 1120 and MATH 1130)). Principles of mechanics and materials behavior related to building structures. Includes force systems, frame analysis, gravity load tracing, wind and seismic resistance for concrete and steel buildings.

BSCI 3200 CONSTRUCTION COMMUNICATION (3) LEC. 3. Overview of communication skills and tools required to succeed as a construction manager. Oral communication, written communication, ethics, visual literacy, and video capture in the context of construction risk management.

BSCI 3300 FIELD SURVEYING (2) LEC. 1. LAB. 6. Surveying techniques, construction layout, use of equipment, and dimensional controls for buildings. Surveying camp, a concentrated, 10 working day course held during breaks.

BSCI 3400 STRUCTURES FOR ARCHITECTS II (3) LEC. 3. Pr. BSCI 2400. Primary and secondary member design, connection design, temporary bracing/shoring, and steel shop drawing review.

BSCI 3440 STRUCTURE OF BUILDINGS II (3) LEC. 3. Pr. BSCI 2400. Principles of static equilibrium and materials behavior related to building structures. Includes force systems, frame analysis, section properties, stress, basic design of structural elements in buildings.

BSCI 3450 STRUCTURES FOR ARCHITECTS III (3) LEC. 3. Pr. BSCI 3400. Introduction to the design of reinforced concrete and related formwork including beams, columns, slabs, footings, retaining walls, and pre-stressed members.

BSCI 3500 CONSTRUCTION AND INFORMATION TECHNOLOGY I (3) LEC. 2. LAB. 2. To explore, discover and create applications of information communication technology (ICT) for Construction Processes.

BSCI 3600 ESTIMATING AND COSTING (4) LEC. 3. LAB. 3. BSCI Major. Introduction to construction estimating for CSI Divisions 1-33. Students perform quanity take-of (QTO), pricing, and preparation for a commercial construction project using computer-based techniques.

BSCI 3660 PRECONSTRUCTION AND PROJECT MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BSCI 3600. Project(s) simulation as a context to discuss, negotiated procurement, pre-construction services in the alternative delivery environment and construction phase management procedures.

BSCI 3700 CONSTRUCTION SAFETY (3) LEC. 3. Construction safety, including OSHA guidelines, accident investigation, and the creating of construction safety plans and worker training program.

BSCI 3800 CONTRACTING BUSINESS (4) LEC. 4. Pr. BSCI 3600. Construction-specific look at the business functions associated with the industry; includes organizational structures, construction finance, risk analysis, construction contracts, project delivery, and associated documents with these functions.

BSCI 4200 RESIDENTIAL CONSTRUCTION (3) LEC. 3. Provides an overview of residential construction and development practices and professional issues including: local ordinances and codes, land use law, financing practices, architect-builder relationship, spec homes vs. custom homes, etc.

BSCI 4300 PRINCIPLES OF CONSTRUCTION & DESIGN (3) LEC. 3. Provides a basic overview of the design and construction process with a focus on project planning and management practices which relate to interactions between thearchitect, constructor, and project developer. Includes: aspects of the roles and responsibilities of the designer and contractor, design process, pre-construction and construction phase contractor activities.

BSCI 4350 CONSTRUCTION PROJECT ANALYSIS (3) LEC. 3. Pr. BSCI 3660. Analysis of methods, materials and equipment used to construct projects. Methods used to assure the quality of construction projects.

BSCI 4360 SERVICE LEARNING IN CONSTRUCTION (2-3) LEC. 2. LAB. 2. Pr. BSCI 3700 and BSCI 3660. Application of Construction Management-relevant knowledge to real-life situations through active participation in a directed community service experience. Course may be repeated for a maximum of 3 credit hours.

BSCI 4410 PROBLEMS IN CONSTRUCTION MEANS AND METHODS (3) LEC. 2. LAB. 2. Pr. BSCI 3660. Solving challenging problems encountered in construction processes, including form work, scaffolding, framing, steel erection, rigging, lifting, safety,and site management.

BSCI 4420 MANAGEMENT FOR CONSTRUCTION SUPERINTENDENTS (3) LEC. 1. LAB. 4. Pr. BSCI 3660. Senior Standing in Building Science. Development of expanded management strategies for construction superintendents including field conditions analysis, direction of tradesmen, communication skills, and project hoisting and equipment.

BSCI 4500 INFORMATION AND COMMUNICATION TECHNOLOGY FOR CONSTRUCTION II (3) LEC. 2. LAB. 2. To recognize, experiment and practice the applications of advanced information and communication technology (ICT) for Construction Processes.

BSCI 4610 SCHEDULING AND FIELD OPERATIONS (4) LEC. 4. Pr. BSCI 3660. The third of a sequence of three project controls classes; an in-depth study of construction project sequencing and scheduling, jobsite cost control measures, construction cash flow analysis, and a variety of leadership and management issues associated with field operations.

BSCI 4700 MECHANICAL SYSTEMS IN BUILDINGS (3) LEC. 2. LAB. 2. Pr. BSCI 3500 and BSCI 3600. Overview of the plumbing and mechanical systems of buildings. Basic design, sustainability concepts, systems, installation and testing are covered.

BSCI 4710 MECHANICAL CONSTRUCTION ESTIMATING AND MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BSCI 4700. Advance study of mechanical construction industry. Study and application of design principles, estimating and management techniques used in the industry.

BSCI 4750 ELECTRICAL SYSTEMS IN BUILDINGS (3) LEC. 3. Pr. BSCI 3500. Electrical systems commonly used in buildings; basic theory and design concepts, with emphasis on lighting and electrical distribution equipment and its installation.

BSCI 4850 CONSTRUCTION LAW AND RISK MANAGEMENT (3) LEC. 3. Pr. BSCI 3660. Construction law, business law and risk management; the legal system and terminology, contracts, insurance, warranties, liens, environmental concerns, workplace issues, damages, and dispute resolution.

BSCI 4860 ADVANCED CONSTRUCTION INFORMATION TECHNOLOGY (3) LEC. 2. LAB. 2. Pr. BSCI 3660. Exploration and creation of advanced applications of Information and Communication Technology (ICT) for planning, decision making, projects monitoring, and controls.

BSCI 4870 CONSTRUCTION HISTORY (3) LEC. 3. Survey of historic construction projects to analyze how and why buildings and structures were constructed in the way they were.

BSCI 4880 CONSTRUCTION EQUIPMENT MANAGEMENT (3) LEC. 3. Pr. BSCI 3660. Construction equipment management and ownership. Equipment acquisition and disposition options, production costs and productivity, cost analysis and control, management staffing and responsibilities.

BSCI 4890 LEAN CONSTRUCTION PRINCIPLES AND PRACTICES (3) LEC. 3. Pr. BSCI 3660. This course provides an understanding of lean construction principles involving lean design, assembly, supply, production and work processes.

BSCI 4960 SPECIAL PROBLEMS (1-6) IND. Special problems in construction topics. Course may be repeated for a maximum of 6 credit hours.

BSCI 4990 BUILDING SCIENCE THESIS (4) LAB. 12. Individual project demonstrating mastery of curriculum content through the application of skills/knowledge to a theoretical construction company and project. Requires a written thesis and oral defense of work.

BSCI 5430 SITE & EARTHWORK CONSTRUCTION (3) LEC. 3. Pr. BSCI 3660. This course provides a general overview of means and methods associated with sitework-related construction through evaluation of Earthwork Operations, Equipment Selection and Productivity, Optimizing crew and productivity, Cost Estimating, Risks related Sitework-Related Projects, Concrete Construction, Erosion and Sediment Control, and an overview of Bridge and Highway Construction.

BSCI 5450 BUILDING GREAT STRUCTURES (3) LEC. 3. Departmental approval. Conceptual Analysis of a variety of structural systems using observation and modeling of the world's greatest structures. Emphasis on construction innovations necessary to build these structures. May count either BSCI 5450 or BSCI 6450.

BSCI 5460 PLANNING AND DECISION MAKING IN CONSTRUCTION (3) LEC. 3. Pr. BSCI 3660. Departmental approval. Applications of quantitative methods in various phases of project life cycle to assist project stakeholders in making effective planning and informed decision making. May count either BSCI 5460 or BSCI 6460.

BSCI 5470 SMALL UNMANNED AIRCRAFT SYSTEMS IN CONSTRUCTION (3) LEC. 3. Departmental consent. Overview of FAA requirements including hands on training with small unmanned aerial systems and associated software focused on applications in construction.

BSCI 5810 SERVICE LEARNING IN CONSTRUCTION MANAGEMENT - STUDY ABROAD OR STUDY AWAY (3) LEC. 1. LAB. 4. Pr. BSCI 3700. Departmental approval. Application of Construction Management-relevant knowledge to real-life situations through active participation in a directed community service experience at an international or domestic location. Repeatable with instructor permission.

BSCI 5830 GLOBAL CONSTRUCTION MANAGEMENT (3) LEC. 3. This course will discuss global construction issues and related project management practices. Departmental approval. May count either BSCI 5830 or BSCI 6830.

BSCI 5840 MULTI-CULTURAL ISSUES IN CONSTRUCTION (3) LEC. 3.

BSCI 5920 INTERNSHIP IN CONSTRUCTION MANAGEMENT (0) INT. SU. Professional work experience in a construction management position. Students participating in BSCI 5920/6920 are expected to work in a full-time, 40 hour/week, construction management job. Course may be repeated for a maximum of 10 credit hours.

BSCI 5960 SPECIAL PROBLEMS (1-6) AAB. Departmental approval. Special problems in construction topics. Offered only at the discretion of the department head. Course may be repeated for a maximum of 6 credit hours.

BSCI 5970 SPECIAL TOPICS IN CONSTRUCTION (1-3) AAB. 1-3. Departmental approval. Special topics in construction focuses on topics in Building Science that are in addition to the regular curriculum. Offered only at the discretion of the department head. Course may be repeated for a maximum of 6 credit hours.

BSCI 6430 SITE & EARTHWORK CONSTRUCTION (3) LEC. 3. Pr. BSCI 7020. This course provides an overview of sitework-related construction through evaluation of Earthwork Operations, Equipment Selection and Productivity, Optimizing crew and productivity, Cost Estimating, Risks related Sitework-Related Projects, Concrete Construction, Erosion and Sediment Control, and an overview of Bridge and Highway Construction.

BSCI 6450 BUILDING GREAT STRUCTURES (3) LEC. 3. Conceptual Analysis of a variety of structural systems using observation and modeling of the world's greatest structures. Emphasis on construction innovations necessary to build these structures. May count either BSCI 5450 or BSCI 6450.

BSCI 6460 PLANNING AND DECISION MAKING IN CONSTRUCTION (3) LEC. 3. Departmental approval. Applications of quantitative methods in various phases of project life cycle to assist project stakeholders in making effective planning and informed decision making. May count either BSCI 5460 or BSCI 6460.

BSCI 6470 SMALL UNMANNED AIRCRAFT SYSTEMS IN CONSTRUCTION (3) LEC. 3. Overview of FAA requirements including hands on training with small unmanned aerial systems and associated software focused on applications in construction.

BSCI 6810 SERVICE LEARNING IN CONSTRUCTION MANAGEMENT - STUDY ABROAD OR STUDY AWAY (3) LEC. 1. LAB. 4. Pr. BSCI 7020. Departmental approval. Application of Construction Management-relevant knowledge to real-life situations through active participation in a directed community service experience at an international or domestic location. Repeatable with instructor approval. Must complete Construction Safety elective course prior to taking this course. Course may be repeated for a maximum of 6 credit hours.

BSCI 6830 GLOBAL CONSTRUCTION MANAGEMENT (3) LEC. 3. This course will discuss global construction issues and related project management practices. Departmental approval. May count either BSCI 5830 or BSCI 6830.

BSCI 6840 MULTI-CULTURAL ISSUES IN CONSTRUCTION LABOR (3) LEC. 3.

BSCI 6920 INTERNSHIP IN CONSTRUCTION MANAGEMENT (0) INT. SU. Professional work experience in a construction management position. Students participating in BSCI 5920/6920 are expected to work in a full-time, 40 hour/week, construction management job. Course may be repeated for a maximum of 10 credit hours.

BSCI 6960 SPECIAL PROBLEMS IN CONSTRUCTION (1-5) AAB. Departmental approval. Individually proposed problems or projects related to the construction industry. Students must prepare a written proposal with defined deliverables. Course may be repeated for a maximum of 5 credit hours.

BSCI 6970 SPECIAL TOPICS IN CONSTRUCTION (1-3) AAB. Departmental approval. Special topics in construction focuses on topics in Building Science that are in addition to the regular curriculum. Course may be repeated for a maximum of 3 credit hours.

BSCI 7010 CONSTRUCTION LABOR AND PRODUCTIVITY (3) LEC. 3. Departmental approval. Construction labor issues, productivity measurement, and productivity improvement in the construction industry. Includes reading, research, and an out of class project.

BSCI 7020 INTEGRATED BUILDING PROCESSES I (3) LEC. 3. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner's perspective, the financial parameters, and the speculative demand driving project viability.

BSCI 7030 CONSTRUCTION INFORMATION MANAGEMENT (3) LEC. 3. Applications of advanced information technology in construction.

BSCI 7040 INTEGRATED BUILDING PROCESSES II (3) LEC. 3. Departmental approval. Construction project delivery, from pre-construction service through ownership. Topics include project management, pre-construction services, pre-planning, procurement, site utilization, subcontracts, commissioning, closeout, building operation, and long-term ownership.

BSCI 7050 EXECUTIVE ISSUES IN CONSTRUCTION (3) LEC. 3. Construction industry executives will present 6 to 10 topics that represent a cross-section of significant management issues.

BSCI 7060 RESEARCH METHODS IN BUILDING SCIENCE (3) LEC. 3. A study of the academic research process, with an emphasis on defining research problems in construction and the development of a research proposal.

BSCI 7100 GRADUATE ELECTIVE IN PROJECT MANAGEMENT: PROJECT MANAGEMENT AND SCHEDULING (3) LEC. 3. This course develops advanced student knowledge and skills in construction business facets such as delivery, contracts and financial management; and develops tactile skills in producing advanced construction schedules in current software applications. Credit will not be given for both BSCI 7100 and BSCI 7106. Course may be repeated with change in topics.

BSCI 7110 CONSTRUCTION CONTRACTING BUSINESS (3) LEC. 3. Business functions associated with construction industry; organizational structure, construction finance; risk analysis, construction contracts, project delivery, and associated documents. Admission to Certificate in Construction Management.

BSCI 7120 CONSTRUCTION LAW AND RISK MANAGEMENT (3) LEC. 3. Construction law, business law and risk management; the legal system and terminology, contracts, insurance, warranties, liens, environmental concerns, workplace issues, damages and dispute resolution. Admission to Certificate in Construction Management.

BSCI 7130 BUILDING CONSTRUCTION SUSTAINABILITY (3) DSL. Students must be admitted to the Executive Technical Certificate in Construction Management. The role of sustainable practices & processes in the construction industry. Role of built environment in consuming resources. Minimizing construction waste. Standards for sustainable construction.

BSCI 7140 STRUCTURAL SYSTEMS OF BUILDINGS (3) LEC. 3. Students must be admitted to the Executive Technical Certificate in Construction Management. Role of structural systems of buildings. Forces in buildings. Temporary structures in construction. Common failure models of structures.

BSCI 7150 HEAVY CIVIL CONSTRUCTION (3) LEC. 3. Students must be admitted to the Executive Integrated Processes Certificate in Construction Management. Principles of heavy civil construction including budget, planning, excavation, haul, equipment, temporary structures and types of projects involved.

BSCI 7200 ELECTIVES IN CONSTRUCTION LABOR (3) LEC. 3. Departmental approval. Special course offerings related to construction labor topics. Course may be repeated with change in topic.

BSCI 7300 ELECTIVES IN INFORMATION TECHNOLOGY AND INNOVATION (3) LEC. 3. Departmental approval. Special course offerings related to information technology, innovation, and robotics in construction. Course may be repeated with change in topic.

BSCI 7900 DIRECTED READING IN CONST (1-3) IND. Departmental approval. Individually proposed exploration of a construction industry related topic not covered in existing course offerings. Students must prepare a written proposal of the topic. Course may be repeated for a maximum of 3 credit hours.

BSCI 7950 GRADUATE SEMINAR (1) SEM. 1. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner's perspective, the financial parameters, and the speculative demand driving project viability. Course may be repeated for a maximum of 3 credit hours.

BSCI 7980 CAPSTONE PROJECT (3) LAB. 6. Departmental approval. Independent exploration of an approved topic with final written report of findings and an oral defense of the work. Specific capstone project requirements are established by the supervising committee and vary based on the chosen topic.

BSCI 8060 ADVANCED RESEARCH METHODS IN BUILDING SCIENCE-I (3) LEC. 3. Current areas and topics of research in building construction, study of academic research process, defining a research problem, develop effective search and analytical evaluation skills of published literature, analyze research products and write a comprehensive review of literature, and understand ethical principles and methods to successfully carry out research projects. The course is designed to provide a comprehensive introduction to the doctoral research process and methods used in building construction research.

BSCI 8070 ADVANCED RESEARCH METHODS IN BUILDING SCIENCE-II (3) LEC. 3. A study of the practical skills necessary to produce and disseminate doctoral level research in Building Construction. The course is designed to provide comprehensive knowledge about research design and selecting an appropriate methodology, qualitative, quantitative and mixed data collection and analysis methods appropriate for Building Construction research, research validation techniques, and technical writing strategies appropriate for a PhD dissertation.

BSCI 8950 DISSERTATION SEMINAR (1) LEC. 1. Professional and social integration into doctoral program; enhancement of professional knowledge through structured inquiry, professional dialogue, and reflective thinking; and preparation of students to develop pedagogical skills. Departmental Permission Required. Course may be repeated for a maximum of 6 credit hours.

BSCI 8990 RESEARCH AND DISSERTATION (1-10) LEC. 1-10. Individual doctoral dissertation research. May be repeated for credit. Course may be repeated with change in topics.

Environmental Design Courses

ENVD 2000 ENVIRONMENTAL DESIGN CONCEPTS AND PRACTICES I (3) LEC. 3. Core knowledge of design and construction disciplines and business practices related to human-designed environments. Includes national and global perspectives and focus on interdisciplinary studies.

ENVD 2007 HONORS ENVIRONMENTAL DESIGN CONCEPTS AND PRACTICES I (3) LEC. 3. Core knowledge of design and construction disciplines and business practices related to human-designed environments. Includes national and global perspectives and focus on interdisciplinary studies.

ENVD 2010 INTRODUCTION TO DESIGN AND DESIGN METHODS (3) LEC. 3. Introduces students to the importance of design and basic design methods.

ENVD 2040 DESIGN, INVENTION AND SOCIETY (3) LEC. 3. Role of design and invention in society from the ancient to the contemporary world.

ENVD 2047 HONORS DESIGN, INVENTION, AND SOCIETY (3) LEC. 3. Role of design and invention in society from the ancient to the contemporary world.

ENVD 2100 ENVIRONMENTAL DESIGN WORKSHOP I (6) LAB. 6. Pr. ENVD 2000. Departmental approval. Focus on general technical skill set for environmental design foundations. Digital media introduction, structure and fabrication techniques, design communication development.

ENVD 2200 READINGS IN LANDSCAPE ARCHITECTURE (3) SEM. 3. Investigates the idea of landscape through a range of texts, images, and built works that have helped form, and continue to shape, our understanding of the landscape. First year of B.ENVD.

ENVD 3000 ENVIRONMENTAL DESIGN CONCEPTS AND PRACTICES II (3) LEC. 3. Pr. ENVD 2100. Departmental approval. Advanced knowledge of design, construction and planning disciplines and practice. National/global environmental design issues, focus on interdisciplinary concepts, hybrid practices, & sustainability.

ENVD 3100 CIVIC ENGAGEMENT AND RESEARCH METHODS (3) LEC. 3. Pr. ENVD 3000. Departmental approval. Civic engagement and research methods for environmental design. This is a research prep course to develop research methods, projects, and community partnerships for summer ENVD 4100 workshop capstone.

ENVD 3200 SYSTEMS IN BUILT ENVIRONMENT I (3) SEM. 2.5. Pr. ENVD 2100. Focus on research of different systems in built environments, and different research methods that can be used in design in order to understand and represent them.

ENVD 3300 SYSTEMS IN BUILT ENVIRONMENT II (3) SEM. 2.5. Pr. ENVD 2100. Focuses on application of research from design and construction disciplines in built environment through testing and prototyping, thus exploring potential for application in a larger context.

ENVD 4000 ELEMENTS OF URBAN DESIGN (3) LEC. 3. Pr. ENVD 2100 or ARCH 2010 or LAND 2110. ENVD 4000 provides environmental design students with an introduction to urban design theories, methods and processes through combination of lectures and on-site instruction.

ENVD 4010 ELEMENTS OF DESIGN THINKING AND COMMUNICATION (3) LEC. 3. This is a 3-credit hour class that builds design communication skills through a series of projects that utilize both hand-rendering and digital media.

ENVD 4017 HONORS ELEMENTS OF DESIGN THINKING AND COMMUNICATION (3) LEC. 3. This is a 3-credit hour class that builds design communication skills through a series of projects that utilize both hand-rendering and digital media.

ENVD 4100 ENVIRONMENTAL DESIGN WORKSHOP II - CAPSTONE (6) LEC. 6. Pr. ENVD 3100. Environmental design knowledge & technical skill set using principles of collaboration, leadership & effectiveness training, hands-on experience, civic engagement & design communication skills.

ENVD 4500 PROFESSIONAL PRACTICE (3) SEM. 3. Pr. ENVD 3000. Enable students to learn elements of professional communication; create persuasive portfolio of their work; and to seek, and prepare for, internship and job opportunities.

ENVD 4900 DIRECTED STUDIES (3) IND. 3. Pr. ENVD 2100. Highly focused study (design research, design research application) in an area of interest to student that is approved by, and supervised by, a faculty member with such expertise. Must be in Junior or Senior status. Course may be repeated for a maximum of 6 credit hours.

ENVD 4920 INTERNSHIP IN ENVIRONMENTAL DESIGN (1) INT. 1. SU. Faculty Approval. Internship in the areas of environmental design, as approved by faculty supervisor.

ENVD 4970 SPECIAL TOPICS IN ENVIRONMENTAL DESIGN (3) LEC. 3. Topics include: digital production, portfolio making and design thinking. Course may be repeated for a maximum of 9 credit hours.

ENVD 4977 HONORS SPECIAL TOPICS IN ENVIRONMENTAL DESIGN (3) LEC. 3. Topics include: digital production, portfolio making and design thinking. Course may be repeated for a maximum of 9 credit hours.

ENVD 5030 STUDIES IN DESIGN THINKING AND ENTREPRENEURSHIP (3) SEM. 3. Study and application of design and innovation thinking in entrepreneurship, with a special emphasis on social entrepreneurship. May count either ENVD 5030 or ENVD 6030.

ENVD 5037 HONORS STUDIES IN DESIGN THINKING AND ENTREPRENEURSHIP (3) LEC. 3. Study and application of design and innovation thinking in entrepreneurship, with a special emphasis on social entrepreneurship. May count either ENVD 5030 or ENVD 6030.

Graphic Design Courses

GDES 1110 FOUNDATION DRAWING (4) STU. 8. Coreq. GDES 1210. PGDE majors only; school approval. Representational drawing with various media. Emphasis on accurate observation, pictorial organization, depiction of space as well as on concept development and creativity.

GDES 1210 FOUNDATION DESIGN I (4) LEC. 1, STU. 6. Coreq. GDES 1110. PGDE majors only; school approval. Elements and principles of basic two-dimensional design. Emphasis on composition, color theory, and craftsmanship.

GDES 1220 FOUNDATION DESIGN II (4) LEC. 1, STU. 6. Pr. GDES 1210. Elements and principles of design with emphasis on basic three dimensional design. Emphasis on spatial organization, color, and media exploration, planning and craft.

GDES 2210 GRAPHIC PROCESSES (4) LEC. 1, STU. 6. Pr. GDES 1110 and GDES 1220 and (ARTS 2100 and ARTS 2150). Coreq. GDES 2220. Design and production processes, preparation of design for printing, paper, copyright, electronic techniques, and related subjects. School approval.

GDES 2220 TYPOGRAPHICS I (4) LEC. 1, STU. 6. Pr. GDES 1110 and GDES 1220 and (ARTS 2100 and ARTS 2150). Coreq. GDES 2210. Historical development and practical applications of typography for design, layout, and other contemporary formats. School approval.

GDES 2230 INTRODUCTION TO GRAPHIC DESIGN (4) STU. 8. Pr. GDES 2210 and GDES 2220. Design, layout, and image-making procedures for creative problem-solving in graphic design, with emphasis on presentation, creativity, and visualization. School approval. Portfolio review required.

GDES 3110 ELEMENTS & PRINCIPLES OF DESIGN I: FORM AND COMPOSITION (3) LEC. 3. Pr. INDD 1120. This course will expose students to a variety of design methods, and their applicability to non-design disciplines, highlighting the parallel between critical thinking and design thinking.

GDES 3120 ELEMENTS & PRINCIPLES OF DESIGN II: TYPOGRAPHY AND IMAGE (3) LEC. 3. Pr. INDD 1120. This course will teach the basic concepts and vocabulary of typography with an emphasis on the expressive potential of typography when combined with imagery in layout form.

GDES 3130 GRAPHIC DESIGN LITERACY: MESSAGE, CONTEXT, MEANING (3) LEC. 3. Pr. INDD 1120. This course is a seminar that prepares students to participate actively and confidently in conversations about visual communications. Students investigate the historical bases of graphic design as well as examine contemporary issues informing the practice of graphic design. Seminar members read and discuss case studies and design criticism, and apply analytical approaches to examples of contemporary design through oral presentations and written arguments.

GDES 3140 DESIGN THINKING: INTRODUCTION TO DIGITAL SCREEN MEDIA (3) LEC. 3. Application of design thinking (focus on experience of the user) in the context of screen-based (computers, web applications, phones) design. Projects may include the redesign of an existing website, design concept for a new mobile application, and a new video game concept.

GDES 3147 HONORS DESIGN THINKING: INTRODUCTION TO DIGITAL SCREEN MEDIA (3) LEC. 3. Application of design thinking (focus on experience of the user) in the context of screen-based (computers, web applications, phones) design. Projects may include the redesign of an existing website, design concept for a new mobile application, and a new video game concept.

GDES 3210 PHOTO DESIGN (4) STU. 8. Pr. GDES 2210 and GDES 2220. Traditional black and white film photography that covers covers technical aspects of the 35mm camera and film and basic darkroom procedures for black and white film and and basic darkroom procedures for black and white film and an awareness of the aesthetics and semantics associated with photographic imagery.

GDES 3220 PHOTO COMMUNICATIONS (4) STU. 8. Photography as applied communication such as advertising, editorial photography, and annual report photography. Emphasis on advanced technological and studio techniques.

GDES 3240 INTERACTIVE MEDIA (4) STU. 8. Pr. GDES 2230. Exploration of the technical and conceptual aspects of Web site design and motion graphics through a series of problem-solving processes. Emphasis on the research and development of effective graphic interfaces and information architecture.

GDES 3250 TYPOGRAPHICS II (4) STU. 8. Pr. GDES 2230. Experimental application of typography for design and layout, exploring contemporary techniques. Historical understanding expected. Emphasis on presentation and visualization of concepts.

GDES 3260 KINETIC TYPOGRAPHY (4) LEC. 4. Pr. GDES 2230. Focuses on how motion affects meaning and how new meaning can be developed through time, space, and sound.

GDES 3710 GRAPHIC DESIGN HISTORY (4) LEC. 4. Pr. GDES 2210 and GDES 2220. History of graphic design, with emphasis on social and cultural contexts, symbolic application, formal characteristics, and significant movements.

GDES 3910 GRAPHIC DESIGN INTERNSHIP PRACTICUM (2) LEC. 2. Pr. GDES 2210 and GDES 2220. Acceptance into the GDES program. Focuses on the professional practices of Graphic Design through portfolio creation and presentation, resume and cover letter writing and the tactics of searching for an internship.

GDES 3920 GRAPHIC DESIGN INTERNSHIP (4) INT. 4. Pr. GDES 2230. a fifteen-week period working full time as a staff member with an approved internship sponsor under the direction of a supervising art director.

GDES 4240 GRAPHIC DESIGN I (4) STU. 8. Pr. GDES 3240. Application of communicative procedures and skills necessary to convey messages by means of graphic presentation: problem solving in corporate identity, advertising design, self promotion, etc. Development of student's individual style.

GDES 4250 GRAPHIC DESIGN II (4) STU. 8. Pr. GDES 4240. Development of individual style in communication via graphic graphic presentation, with emphasis on problem-solving in publication design, self-promotion, large-format design, and layout.

GDES 4270 ADVANCED INTERACTIVE MEDIA (4) STU. 8. Pr. GDES 3240. Focuses on the principles and methodologies used throughout the interactive design industry for creating screen-based dynamic media. Students develop a conceptural framework for real world applications, exploring industrial, social and cultural issues.

GDES 4640 IMAGE I (4) STU. 8. Pr. GDES 2230. Application of illustration techniques and concepts to various graphic formats. Development of personal skills and individual style.

GDES 4650 IMAGE II (4) STU. 8. Pr. GDES 2230. Exploration of two dimensional and three dimensional imaging techniques and concepts. Development of personal skills and an individual style.

GDES 4900 DIRECTED STUDIES FOR GRAPHIC DESIGN (2-3) AAB. Pr. GDES 2210 and GDES 2220. Directed Studies in Graphic Design focuses on individualized study in Graphic Design. Student must have a 3.0 average in GDES course curriculum and departmental approval. Topics may include Graphic Design, Imaging, Web Design. Course may be repeated for a maximum of 9 credit hours.

GDES 4970 SPECIAL TOPICS FOR GRAPHIC DESIGN (4) LEC. 1. Pr. GDES 2230 and GDES 3710. Special Topics in Graphic Design focuses on topics in graphic design that are additional to the regular curriculum. Specific course topics are developed by the instructor. Student must have a 3.0 average in GDES GDES course curriculum. Course may be repeated for a maximum of 12 credit hours.

GDES 4990 SENIOR PROJECT FOR GRAPHIC DES (5) STU. 10. Pr. GDES 4250. Coreq. GDES 4991. A directed terminal studio project with choice of subject and medium. Project will be exhibited and a faculty committee will award a letter grade. Must be taken in student’s final semester.

GDES 4991 RESEARCH, WRITING AND PRESENTATION (1) LEC. 1. Pr. GDES 4250. Coreq. GDES 4990. Addresses research, writing and presentation requirement associated with the student's terminal studio project. Must be taken in student's final semester.

Industrial Design Courses

INDD 1120 INDUSTRIAL DESIGN IN MODERN SOCIETY (3) LEC. 3. Survey of design and its impact upon modern society. Review of methods, products, marketing, patents, education, and career opportunities.

INDD 1127 HONORS INDUSTRIAL DESIGN IN MODERN SOCIETY (3) LEC. 3. Survey of design and its impact upon modern society. Review of methods, products, marketing, patents, education, and career opportunities.

INDD 1310 SYNTHESIS OF DRAWING (10) LEC. 3, LST. 12. Developing mechanical and production design drawings, with in-depth study of perspective systems. Product design communication with emphasis on drawing, development, and presentation.

INDD 1320 PROTOTYPE FABRICATION (3) LEC. 2. LAB. 2. Coreq. INDD 1310. Fabrication of three-dimensional models utilizing various materials and machineries. Includes model making, creative modeling, study models, presentation models, mock-ups and prototypes.

INDD 1400 CAREERS IN INDUSTRIAL DESIGN (2) LEC. 2. Survey of careers in the field of industrial design demonstrated through case studies, product examples and biographies.

INDD 2110 TWO DIMENSIONAL INDUSTRIAL DESIGN PRINCIPLES (6) LEC. 2, LST. 10. Transference of abstract principles of design to fabrication of simple tools. Emphasis on expression of functional objects.

INDD 2120 COMPUTER AND DESIGN COMMUNICATIONS (3) LEC. 2. LAB. 2. Alternative modes of communicating design ideas via computer. Executing design ideas for two-dimensional design fundamentals and mechanical design drawings.

INDD 2130 PRESENTATION RENDERING (3) LEC. 2. LAB. 2. Concept development using drawing and rendering skills with different media for ideas communication and presentation.

INDD 2210 THREE DIMENSIONAL INDUSTRIAL DESIGN PRINCIPLES (6) LEC. 2, AAB/LST. 10. Pr. INDD 2110. Analysis of design fundamentals through three dimensional form. Analyzing function, utility, convenience, safety, maintenance and sustainable design.

INDD 2220 ANTHROPOMETRY (3) LEC. 3. Pr. INDD 2110. Body measurements, movements and human capacity in relation to design with introduction to ergonomy and human physiology as it relates to design. School approval.

INDD 2230 HISTORY OF INDUSTRIAL DESIGN (3) LEC. 3. Pr. INDD 2110. Survey humankind's production of artifacts, from prehistory to present. Emphasis on ideas that mass produced artifacts mirror history and everyday culture.

INDD 3110 EXHIBIT AND PACKAGING (6) LEC. 1, LST. 8. Pr. INDD 2210. Display systems using models, concepts development, rendering, packaging, identity programs and professional presentations.

INDD 3120 INDUSTRIAL DESIGN METHODS (3) LEC. 3. Pr. INDD 2210. Introduction to design management. Design methods and organizational procedures in analysis and solutions of design problems. Surveying philosophies and theories of design.

INDD 3130 BASIC PHOTOGRAPHY FOR INDUSTRIAL DESIGN (3) LEC. 2. LAB. 2. Pr. INDD 2210. Photography in design and art environments. Techniques of developing, printing and enlarging. Lighting techniques for portfolio photography, including lighting, studio photography, composition.

INDD 3150 DESIGN THINKING: INTRODUCTION TO PRODUCT SOLUTIONS (3) LEC. 2. LAB. 1. Application of design thinking (focus on experience of the user) in the context of product design. Students will deconstruct a design of an existing product and create a design concept for a new product. Introduces innovation in physical products and services through collaborative and creative approaches to critical and strategic thinking with focus on the user. Course may be repeated for a maximum of 6 credit hours.

INDD 3157 HONORS DESIGN THINKING: INTRODUCTION TO PRODUCT SOLUTIONS (3) LST. Application of design thinking (focus on experience of the user) in the context of product design. Students will deconstruct a design of an existing product and create a design concept for a new product. Introduces innovation in physical products and services through collaborative and creative approaches to critical and strategic thinking with focus on the user. Course may be repeated for a maximum of 6 credit hours.

INDD 3210 PRODUCT DESIGN (6) LEC. 2, AAB/LST. 10. Pr. INDD 3110. Product design utilizing design methodology from proposal to working pre-prototype, including planning, research, development, model-making, manufacturing and documentation.

INDD 3220 MATERIALS AND TECHNOLOGY (3) LEC. 3. Pr. INDD 3120. Characteristics and utility of materials such as plastic, metal, and ceramics in manufacture and the study of machine/tool processes used by industry.

INDD 3230 ADVANCED COMPUTER AIDED DESIGN (3) LEC. 2. LAB. 2. Pr. INDD 2120. Introduction to CAD software emphasizing three-dimensional modeling. Students will learn drawing functions. Concepts of three-dimensional relationship of objects discussed.

INDD 4110 ADVANCED PRODUCT DESIGN (6) LEC. 2, AAB/LST. 10. Pr. INDD 3120 and INDD 3210. Design or redesign of products and systems of advanced complexity.

INDD 4210 INDUSTRIAL DESIGN THESIS (6) LEC. 2, AAB/LST. 10. Pr. INDD 4110. Product design projects involving all design phases; including planning, research, development, finalization, specification, and documentation.

INDD 4220 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. INDD 3110 and INDD 3210. Business aspects of industrial design, including property, design contract, letters of agreement, business planning and design marketing.

INDD 4907 HONORS READING (1-3) LEC. Course may be repeated for a maximum of 3 credit hours.

INDD 4997 HONORS THESIS (1-3) LEC. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

INDD 5120 PROFESSIONAL PORTFOLIO (3) LEC. 3. Pr. INDD 3110 and INDD 3210. Design and development of a portfolio and promotional material presenting the student's work to entry-level professional standards.

INDD 5960 SPECIAL PROBLEMS (1-5) AAB. Development of individual projects. Research, design and reports on approved topics. Course may be repeated for a maximum of 15 credit hours.

INDD 6010 HISTORY OF INDUSTRIAL DESIGN II (3) LEC. 3. A survey of humankind's production of artifacts, from prehistory to contemporary times, with an emphasis on the idea that mass produced artifacts mirror the meanings of historical events and everyday culture.

INDD 6030 CASE STUDIES IN DESIGN (3) LEC. 3. Design projects undertaken by industry studied by examination of artifacts and records, and by class discussions. Focus on the socio-cultural relevancy of the artifacts.

INDD 6120 PORTFOLIO (3) LEC. 3. Preparation of professional portfolio for graduation and employment.

INDD 6960 SPECIAL PROBLEMS (1-5) AAB. Development of individual projects. Research, design and reports on approved topics. Course may be repeated for a maximum of 15 credit hours.

INDD 7010 DESIGN ORIENTATION (3) LEC. 3. Introduction to the Industrial Design graduate program: degree options, study directions, research methods, and areas. Students are required to develop a research/project proposal.

INDD 7020 COMPUTER/INDUSTRIAL DESIGN (3) LEC. 3. Synthesizing studies in research, analysis, and application based on interdisciplinary concept. Emphasis on the relation of products and systems to those who use them.

INDD 7610 PRINCIPLES OF INDUSTRIAL DESIGN (3) LEC. 3. Detailed study of the communication principles of form qualities with emphasis of these aesthetic principles to the technical and human factors of artifacts.

INDD 7620 DESIGN MANAGEMENT (3) LEC. 3. Detailed study of the industrial design project management and development with emphasis on the interrelational management concepts of research, product planning, production and marketing.

INDD 7630 HUMAN FACTORS IN DESIGN (3) LEC. 3. Theoretical and empirical examination of human factors (Anthropometrics, Biotechnology, Engineering Psychology, Behavioral Cybermetics, Ergonomics) as applied to man-machine environmental systems.

INDD 7640 AESTHETICS IN DESIGN (3) LEC. 3. Aesthetics in the context of the designed environment encompassing: non-verbal communication; object language semiotics; gestalt and perception systems; information aesthetics, and consumer product safety.

INDD 7650 DESIGN THEORIES (3) LEC. 3. Examination of design theories and philosophies related to technical artifacts in man-machine systems. Comparative studies of unifying theories in art, science, design, technology and the humanities.

INDD 7660 INDUSTRIAL DESIGN METHODOLOGY (3) LEC. 3. Industrial design methodologies and specific methods employed in research, analysis, synthesis, and evaluation in comprehensive design problems.

INDD 7670 SYSTEMS DESIGN (3) LEC. 3. Systems approach and interdisciplinary team work to design problems inquires into details of sub-systems, components and parts, with emphasis on the relation of the performance of technical systems to optional human factor effects.

INDD 7910 INDUSTRY PRACTICUM (5) AAB/STU. 5. This course will demand the application of acquired skill to the resolution of product design based issues within an industry collaboration studio over the period of one semester.

INDD 7980 NON-THESIS DESIGN (3) STU. 3. Synthesizing studies in research, analysis and application based on interdisciplinary concept. Emphasis on the relation of products and systems to those who use them.

INDD 7990 DESIGN THESIS (1-5) AAB/RES. Credit to be arranged. Course may be repeated with a change in topic.

Interior Architecture Courses

ARIA 2150 ELEMENTS OF INTERIOR ARCH I (3) LEC. 3. The theory of design principles, aesthetics and concepts. Graphic drawings and models of interior spaces explored. Projects outside of class.

ARIA 2160 ELEMENTS OF INTERIOR ARCHITECTURE II (3) LEC. 3. The theory of design principles, aesthetics and concepts. Graphic drawings and models of interior spaces explored. Projects outside of class.

ARIA 3020 STUDIO 4A INTERIOR ARCHITECTURE (6) LEC. 2, LST. 10. Pr. ARCH 2020. Parallels Architecture Studio 4, but with an emphasis on interior architecture with exploration of detail and accommodation.

ARIA 4020 STUDIO 6A INTERIOR ARCHITECTURE (6) LEC. 2, LST. 10. Pr. ARCH 3020 and ARCH 3320 and (ARCH 2110 or ARCH 2117) and BSCI 3440. Parallels Architecture Studio 6, with emphasis on the development of interior architecture and spaces within an urban context. Consideration will be given to adaptive reuse.

ARIA 4030 INTERIOR ARCHITECTURE THESIS (6) LEC. 3, LST. 10. Pr. ARIA 4020. Coreq. ARIA 4080. Interior design project of the student's choice, under the direction of a faculty member.

ARIA 4080 INTERIOR ARCHITECTURE THESIS RESEARCH (2) LEC. 2. Pr. ARIA 4020. Research and writing of thesis documents, to include programming, site, and case studies.

ARIA 4450 INTERIOR ARCHITECTURE PROFESSIONAL PRACTICE (2) LEC. 2. Pr. ARIA 4020. Prepares student to enter professional office with an understanding of the skills, concepts and technical knowledge expected.

ARIA 4680 HISTORY AND THEORY OF INTERIOR ARCHITECTURE (3) LEC. 3. Pr. ARIA 4020. The theory and history of interior spaces, their social, material, and aesthetic development and their artifacts.

Landscape Architecture Courses

LAND 1110 STUDIO I (4) LEC. 3. LAB. 1. Foundation course introduces studio culture, principles and processes of visual design, and the tools and techniques of landscape architectural design.

LAND 1160 GRAPHIC STUDIES I (2) LEC. 1. LAB. 1. Coreq. LAND 1110. Focuses on basic tools and techniques for interpreting and representing landscapes: photography, field sketching, technical drawing, and mixed-media montage.

LAND 1210 STUDIO II (4) LEC. 3. LAB. 1. Pr. LAND 1110. Foundation course builds fundamental design process skills by exploring terrain and ecology through design exercises on small sites.

LAND 1260 GRAPHIC STUDIES II (2) LEC. 1. LAB. 1. Pr. LAND 1160. Introduces integrated analog-digital workflows. Focus on digital methods and tools: photomontage, diagramming, and presentation assembly; digital modeling, analysis, and rendering.

LAND 2110 PLANTS AND CONSTRUCTION WORKSHOP I (5) LEC. 4. LAB. 1. Pr. LAND 1210. Uses a field- and project- based approach to engage the medium of landscape architecture (plants, land, soils, and materials).

LAND 2120 FIELDWORK I (1) FLD. 1. Pr. LAND 1210. Coreq. LAND 2110. Advances program focus on landscape experience. Introduces techniques and tools for site reconnaissance: direct measurement, observation, evaluation, and synthesis.

LAND 2140 HISTORY, THEORY, AND PRACTICE I (3) LEC. 3. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 2210 PLANTS AND CONSTRUCTION WORKSHOP II (5) LEC. 4. LAB. 1. Pr. LAND 2110. Focuses on landscape expression, experience, and cycles, including plant ephemerality, material assemblies, maintenance, performance, and choreography of landscape experience.

LAND 2220 FIELDWORK II (1) FLD. 1. Coreq. LAND 2210. Considers phenological and environmental cycles, expression of plants, materials, and atmospheres to strengthen relationships between design intention and physical expression.

LAND 2240 HISTORY, THEORY, AND PRACTICE II (3) LEC. 3. Pr. LAND 2140. Survey of the history of and theory for landscape architectural practice as it relates to contemporary American culture.

LAND 3110 STUDIO III (5) LEC. 4. LAB. 1. Pr. LAND 2210. Advanced studio introduces design research processes to investigate eco-cultural relationships between regional and urban scales with emphasis on landscape networks.

LAND 3120 FIELDWORK III (1) FLD. 1. Pr. LAND 2220. Coreq. LAND 3110. Expand techniques and tools for site reconnaissance: multiple site visits to develop skills, deepen inventories, and contextualize design projects.

LAND 3160 DYNAMIC SYSTEMS I (3) LEC. 3. Pr. LAND 2240. Establishes ecological theories as a framework for analysis of urban conditions and as a tool for decision-making and design.

LAND 3210 STUDIO IV (5) LEC. 4. LAB. 1. Pr. LAND 3110. Junior studio focused on processes to support design at multiple scales for resilient landscapes that integrate aesthetics, program, and performance.

LAND 3220 FIELDWORK IV (1) FLD. 1. Pr. LAND 3120. Coreq. LAND 3210. Expand techniques and tools for mapping large scale landscape systems. Develop documentation skills using aerial photogrammetry and advanced site visualization.

LAND 4110 STUDIO V (5) LEC. 4, LST. 1. Pr. LAND 3210. Comprehensive studio synthesizes skills toward landscape activism and engagement in cultural contexts of urban, ex-urban, or rural sites and systems.

LAND 4120 FIELDWORK V (1) FLD. 1. Pr. LAND 3220. Coreq. LAND 4110. Apply comprehensive site reconnaissance skills to gather landscape intelligence. Engage community representatives to contextualize studio work.

LAND 4210 STUDIO VI (5) LEC. 4, LST. 1. Pr. LAND 4110. Comprehensive studio helps students develop sophisticated design research. Students create new work and critically evaluate its theoretical context.

LAND 4220 FIELDWORK VI (1) FLD. 1. Coreq. LAND 4210. Use broad skills, techniques, and thinking about site reconnaissance to frame design projects. Gather and synthesize comprehensive landscape intelligence.

LAND 4240 PROFESSIONAL PRACTICE (3) SEM. 3. Surveys development and ethics of the landscape architecture profession, businesses, and practices, to help students plot their futures.

LAND 4410 SEMINAR ON LANDSCAPE MATTER (3) SEM. Departmental approval. Seminar which explores material considerations in landscape, such as material selection and performance, material assemblies, landform and grading, or designing with plants and ecological communities, as they relate to the discipline of landscape architecture and are not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4420 SEMINAR ON LANDSCAPE ADVOCACY (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of landscape advocacy, such as public interest design, community outreach, and public engagement, as they relate to the discipline of landscape architecture and are not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4430 SEMINAR ON LANDSCAPE THOUGHT (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of landscape history, landscape theory, critique, or associated discourse as it relates to the discipline of Landscape Architecture and is not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4440 SEMINAR ON LANDSCAPE REPRESENTATION (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of Landscape Representation, Graphic Communication, and/or Drawing as it relates to the discipline of Landscape Architecture and is not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4450 SEMINAR ON LANDSCAPE RESEARCH (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of Landscape Research as it relates to the discipline of Landscape Architecture and is not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4900 DIRECTED STUDIES (1-3) IND. Departmental approval. Opportunity for students to work with a specific faculty on a special topic in an area of interest. Course may be repeated for a maximum of 9 credit hours.

LAND 4920 PROFESSIONAL INTERNSHIP (1-3) INT. SU. Departmental approval. Opportunity for students to develop expertise in professional practice under the guidance of professionals. This includes but is not limited to site design, construction documentation, client/community presentations, and project management. Course may be repeated for a maximum of 3 credit hours.

LAND 4970 SPECIAL TOPICS IN LANDSCAPE ARCHITECTURE (3) LEC/SEM. Departmental approval. Study of a topic of special interest in landscape architecture beyond current program course offerings. Course may be repeated for a maximum of 9 credit hours.

LAND 5030 LANDSCAPE DESIGN METHODS (3) LEC. 9. Introduces students to skills, techniques, and ways of thinking fundamental to landscape architectural design, preparing students for future studio courses by emphasizing making, precision, experimentation, iteration, and judgment.

LAND 5040 LANDSCAPE ISSUES & PRACTICES (3) LEC. 9. Introduces students to both a selection of key issues relevant to contemporary landscape architecture and practices employed by landscape architects engaging in those issues.

LAND 5130 STUDIO I: FOUNDATION STUDIO (5) STU. 5. Teaches foundational skills (drawing, modeling, and multiple representational skills) that are necessary to progress into future design studios.

LAND 5131 FIELDWORK I (1) FLD. 1. Field studies and travel related to studio. May count either LAND 5131 or LAND 6131.

LAND 5140 HISTORY, THEORY, AND PRACTICE I: LANDSCAPE ARCHITECTURE AND CONTEMPORARY URBANISM (3) SEM. 3. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 5147 HONORS HISTORY, THEORY, AND PRACTICE I: LANDSCAPE ARCHITECTURE AND CONTEMPORARY URBANISM (3) SEM. 3. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 5150 CONSTRUCTION I: LANDFORM & HYDROLOGY (3) LEC. 3. Departmental approval. Fundamental skills needed to analyze, understand, and manipulate landform with respect to form, grading, drainage, and stormwater management.

LAND 5160 GRAPHIC STUDIES I (2-3) LEC. Focus on basic tools and techniques for interpreting and representing landscapes: photography, field sketching, technical drawing, and mixed-media montage. Introduction to vector and raster-based software and integrated analog-digital workflows. Course may be repeated for a maximum of 3 credit hours.

LAND 5230 STUDIO II (5) STU. 5. Iterative design processes that project and test design scenarios, refining propositions based on multiple performance criteria in relation to site specificity and community context. Departmental approval. May count either LAND 5230 or 6230.

LAND 5231 FIELDWORK II (1) FLD. 1. Field studies and travel related to studio. Departmental approval. May count either LAND 5231 or LAND 6231.

LAND 5240 HISTORY, THEORY, AND PRACTICE II: LANDSCAPE ARCHITECTURE AND CONTEMPORARY CULTURE (3) LEC. 3. Survey of the history of and theory for landscape architectural practice as it relates to contemporary American culture.

LAND 5250 CONSTRUCTION II: MATERIALS & DETAILING (3) LEC. 3. Departmental approval. Fundamentals of design detailing of site assemblies, with emphasis on material research and construction methods.

LAND 5260 GRAPHIC STUDIES III (3) SEM. 3. Pr. LAND 5150. Departmental approval. Fundamental concepts of Geographic Information Systems are used to create visual frameworks for gathering, interpreting, and sharing spatial data in landscape architecture practice.

LAND 5270 PLANT SPATIALITY (2) LEC. 2. Studies of innovative design with plants, exploring issues plant association, strata, and spatiality. Departmental approval. May count either LAND 5270 or 6270.

LAND 5290 GRAPHIC STUDIES II (3) LEC. 3. Focus on advanced digital methods and tools: mapping with GIS software; modeling, analysis, and rendering with Rhino and associated plugins; and photomontage, diagramming, and presentation assembly with Adobe software.

LAND 5330 STUDIO III (5) LEC. 5. Pr. (LAND 5230 or LAND 6230) or (P/C LAND 5331 or P/C LAND 6331). Departmental approval. Investigates eco-cultural relationships between regional, metropolitan and urban scales with emphasis on physical and social flows.

LAND 5331 FIELDWORK III (1) FLD. 1. SU. Pr. (LAND 6230 or LAND 5230) or (P/C LAND 5330 or P/C LAND 6330). Departmental approval. Field studies and travel related to studio.

LAND 5340 HISTORY, THEORY, AND PRACTICE III: PRE-MODERN LANDSCAPES (3) LEC. 3. Pr. LAND 5240. Departmental approval. Global history of landscape-making, particularly in relationship to urbanization and culture, from prehistory to the inception of modern landscape architecture.

LAND 5350 CONSTRUCTION III: HYDROLOGIES (2) LEC. 1. LAB. 2. Pr. LAND 5230. Departmental approval. This course emphasizes stormwater research, planning and design. Students learn technical skills and design techniques needed to construct projects with environmental integrity and aesthetic appeal.

LAND 5360 DYNAMIC SYSTEMS I: URBAN ECOLOGIES (3) LEC. 3. Pr. LAND 5230. Departmental approval. This course provides an overview of natural ecological systems and how they can be preserved or restored to enhance human and ecological health through sustainable design.

LAND 5367 HONORS DYNAMIC SYSTEMS I: URBAN ECOLOGIES (3) LEC. 3. Pr. LAND 5230. Departmental approval. This course provides an overview of natural ecological systems and how they can be preserved or restored to enhance human and ecological health through sustainable design.

LAND 5370 PLANT EPHEMERALITY (2) LEC. 2. Pr. LAND 5230. Departmental approval. Studies of innovative design with plants, exploring issues of plant phenology and dynamic lifecycle conditions.

LAND 5380 PLANTS I (2-3) LEC. Departmental approval. Introduces strategies for innovative design with plants, exploring issues of plant association, starts, form, and function. Course may be repeated for a maximum of 3 credit hours.

LAND 5410 SEMINAR ON REAL ESTATE DEVELOPMENT (3) SEM. 3. Opportunity for students to further develop expertise through supervised, independent course study related to real estate development or pursue an area of interest that may not be covered in the current curriculum.

LAND 5940 FIELDWORK ABROAD (3-6) AAB. Landscape architectural fieldwork conducted in locations outside the United States. Course may be repeated for a maximum of 9 credit hours.

LAND 6030 LANDSCAPE DESIGN METHODS (3) LEC. 3. Introduces students to skills, techniques, and ways of thinking fundamental to landscape architectural design, preparing students for future studio courses by emphasizing making, precision, experimentation, iteration, and judgment.

LAND 6040 LANDSCAPE ISSUES & PRACTICES (3) LEC. 3. Introduces students to both a selection of key issues relevant to contemporary landscape architecture and practices employed by landscape architects engaging in those issues.

LAND 6130 STUDIO I: FOUNDATION STUDIO (5) AAB/STU. 5. Teaches foundational skills (drawing, modeling, and multiple representational skills) that are necessary to progress into future design studios.

LAND 6131 FIELDWORK I (1) AAB/FLD. 1. Departmental approval. Field studies and travel related to studio.

LAND 6140 HISTORY, THEORY, AND PRACTICE I: LANDSCAPE ARCHITECTURE AND CONTEMPORARY URBANISM (3) AAB/SEM. 3. Pr. LAND 5230 or LAND 6230. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 6150 CONSTRUCTION I: LANDFORM & HYDROLOGY (3) LEC. 3. Departmental approval. Fundamental skills needed to analyze, understand, and manipulate landform with respect to form, grading, drainage, and stormwater management.

LAND 6160 GRAPHIC STUDIES I (2-3) AAB/LEC. Focus on basic tools and techniques for interpreting and representing landscapes: photography, field sketching, technical drawing, and mixed-media montage. Introduction to vector and raster-based software and integrated analog-digital workflows. Course may be repeated for a maximum of 3 credit hours.

LAND 6170 GRAPHIC STUDIES II (3) LEC. 3. Departmental approval. Graphic and communication theories and skills in a variety of media. Photoshop, Illustrator, Indesign and AutoCAD.

LAND 6230 STUDIO II (5) STU. 5. Iterative design processes that project and test design scenarios, refining propositions based on multiple performance criteria in relation to site specificity and community context. Departmental approval. May either LAND 5230 or 6230.

LAND 6231 FIELDWORK II (1) FLD. 1. Departmental approval. Field studies and travel related to studio.

LAND 6240 HISTORY, THEORY, AND PRACTICE II: LANDSCAPE ARCHITECTURE AND CONTEMPORARY CULTURE (3) LEC. 3. Survey of the history of and theory for landscape architectural practice as it relates to contemporary American culture.

LAND 6250 CONSTRUCTION II: MATERIALS & DETAILING (3) LEC. 3. Departmental approval. Fundamentals of design detailing of site assemblies, with emphasis on material research and construction methods.

LAND 6270 PLANT SPATIALITY (2) LEC. 2. Studies of innovative design with plants, exploring issues plant association, strata, and spatiality. Departmental approval. May count either LAND 5270 or 6270.

LAND 6290 GRAPHIC STUDIES II (3) LEC. 3. Focus on advanced digital methods and tools: mapping with GIS software; modeling, analysis, and rendering with Rhino and associated plugins; and photomontage, diagramming, and presentation assembly with Adobe software.

LAND 6330 STUDIO III (5) LEC. 5. Pr. LAND 5230 or LAND 6230. Departmental approval. Coreq. LAND 5331 and LAND 6331. Investigates eco-cultural relationships between regional, metropolitan and urban scales with emphasis on physical and social flows.

LAND 6331 FIELD STUDIES III (1) FLD. 1. Pr. LAND 5230 or LAND 6230. Departmental approval. Coreq. LAND 5330 and LAND 6330. Field studies and travel related to studio.

LAND 6340 HISTORY, THEORY, AND PRACTICE III: PRE-MODERN LANDSCAPES (3) LEC. 3. Pr. LAND 6240. Global history of landscape-making, particularly in relationship to urbanization and culture, from prehistory to the inception of modern landscape architecture. Departmental approval

LAND 6350 CONSTRUCTION III: HYDROLOGIES (2) LEC. 1. LAB. 2. Pr. LAND 5230 or LAND 6230. Departmental approval. This course emphasizes stormwater research, planning and design. Students learn technical skills and design techniques needed to construct projects with environmental integrity and aesthetic appeal.

LAND 6360 DYNAMIC SYSTEMS I: URBAN ECOLOGIES (3) LEC. 3. Pr. LAND 5230 or LAND 6230. Departmental approval. This course provides an overview of natural ecological systems and how they can be preserved or restored to enhance human and ecological health through sustainable design.

LAND 6370 PLANT EPHEMERALITY (2) LEC. 2. Pr. LAND 5230 or LAND 6230. Departmental approval. Studies of innovative design with plants, exploring issues of plant phenology and dynamic lifecycle conditions.

LAND 6380 PLANTS I (2-3) LEC. Departmental approval. Introduces strategies for innovative design with plants, exploring issues of plant association, strata, form, and function. Course may be repeated for a maximum of 3 credit hours.

LAND 6410 SEMINAR ON REAL ESTATE DEVELOPMENT (3) SEM. 3. Opportunity for students to further develop expertise through supervised, independent course study related to real estate development or pursue an area of interest that may not be covered in the current curriculum.

LAND 6940 FIELDWORK ABROAD (3-6) AAB. Landscape architectural fieldwork conducted in locations outside the United States. Course may be repeated for a maximum of 9 credit hours.

LAND 7130 STUDIO IV (5) AAB/STU. 5. Departmental approval. Investigates design strategies and techniques for generating new resilient cultural and environmental practices within complex dynamic conditions.

LAND 7131 FIELDWORK IV (1) AAB/FLD. 1. Pr. P/C LAND 5230. Departmental approval. Coreq. LAND 7130. Field studies and travel related to studio.

LAND 7140 URBAN STUDIES II: GLOBAL URBANISM (3) LEC. 3. Departmental approval. Examines the major global drivers of urban change, contemporary theories of international urban design, geography and cultural theory.

LAND 7170 PLANTS II (2-3) AAB/LEC. Departmental approval. Introduces strategies for innovative design with plants, exploring issues of plant ephemerality, functionality, and phenology. Course may be repeated for a maximum of 3 credit hours.

LAND 7190 RESEARCH BY DESIGN: FRAMEWORKS, METHODS, AND STRATEGIES (3) SEM. 3. Design is not just about solving problems, but figuring out which questions to ask in the first place. This course guides students through the iterative process of situating, identifying, framing, and testing a student-chosen trend, topic, or question.

LAND 7230 STUDIO V: COMPREHENSIVE STUDIO (5) STU. 5. Pr. LAND 5230. The first part of a two-semester research studio which involves creating a new body of work within a theoretical context and then critically appraising this work and its theoretical framework.

LAND 7231 FIELDWORK V (1) FLD. 1. Coreq. LAND 7230. Course is directly linked to the Landscape Design Studio and offers students opportunity to travel to relevant locations to advance, contextualize, and frame the design studio. Emphasizes first-hand experiences of the landscape where careful observation and analysis occur; and introduces students to skills, techniques, and ways of thinking about site reconnaissance and gathering landscape intelligence.

LAND 7240 THEORIES AND PRACTICES (3) SEM. 3. Departmental approval. This is a reading, writing, and discussion seminar that examines the idea that the development of a democratic, civic, diverse social ecology can create more resilient and sustainable communities.

LAND 7250 CONTEMPORARY ISSUES IN LANDSCAPE ARCHITECTURE (2) LEC. 2. Pr. LAND 5230. Departmental approval. Investigation of landscape architectural issues and topics that can be undertaken by means of design, and the development of methodologies and techniques appropriate to such investigation.

LAND 7270 CONSTRUCTION III: REGENERATIVE TECHNOLOGIES (2-3) LEC. Introduces issues of land contamination and explores remediative and regenerative technologies as design strategies towards new productive futures. Course may be repeated for a maximum of 3 credit hours.

LAND 7280 DYNAMIC SYSTEMS II: REGIONAL ECOLOGIES (3) LEC. 3. This lecture/field laboratory course examines conditions of regional ecologies at multiple scales and explores possible public and private responses to these issues.

LAND 7290 GRAPHIC STUDIES III (3) SEM. 3. Fundamental concepts of Geographic Information Systems are used to create visual frameworks for gathering, interpreting, and sharing spatial data in landscape architecture practice.

LAND 7330 STUDIO VI: COMPREHENSIVE STUDIO (5) STU. 12. Pr. LAND 5230 or LAND 6230. A culmination of a design research project that ends in a public review and exhibition.

LAND 7331 FIELDWORK VI (1) FLD. 15. Coreq. LAND 7330. Directly linked to the Landscape Design Studio and offers students opportunity to travel to relevant locations to advance, contextualize, and frame the design studio. Gets students out of the classroom and emphasizes first-hand experiences of the landscape where careful observation and analysis occur. Introduces students to skills, techniques, and ways of thinking about site reconnaissance and gathering landscape intelligence.

LAND 7340 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. LAND 5230 or LAND 6230. Departmental approval. This course surveys the development and ethics of the profession of landscape architecture and presents an overview of the business and practice of the profession.

LAND 7410 SEMINAR ON HISTORY AND THEORY (3) LEC. 3. Departmental approval. Opportunity for students to further develop expertise expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum.

LAND 7420 SEMINAR ON COMMUNITY OUTREACH (3) SEM. 3. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum.

LAND 7430 SEMINAR ON HYDROLOGY (2-3) SEM. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum. Course may be repeated for a maximum of 3 credit hours.

LAND 7440 SEMINAR ON LANDSCAPE COMMUNICATION (3) SEM. 3. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum.

LAND 7450 SEMINAR ON LANDSCAPE RESEARCH (2-3) SEM. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum. Course may be repeated for a maximum of 3 credit hours.

LAND 7470 LANDSCAPE ARCHITECTURE INTERNSHIP (3) PRA. 3. By approval of Chair of Landscape Architecture. A practical, professional, full-time, curriculum-related work experience in the industry of landscape architecture. Under joint supervision of employer and university. Course may be repeated for a maximum of 9 credit hours.

LAND 7900 DIRECTED STUDIES (1-3) AAB. An individual student can pursue an area of research beyond the required curriculum. Departmental approval; MLA II standing. Course may be repeated for a maximum of 9 credit hours.

LAND 7960 SPECIAL PROBLEMS IN LANDSCAPE ARCHITECTURE (2) LEC. 2. Departmental approval. Investigation of landscape architectural issues and topics that can be undertaken by means of design, and the development of methodologies and techniques appropriate to such investigation.

LAND 7970 SPECIAL TOPICS (1-6) AAB. Groups of student work with a specific faculty on a special topic in an area of interest. Course may be repeated for a maximum of 9 credit hours. ADDITIONAL PREREQUISITES: Departmental approval; MLA I standing.

LAND 7992 RESEARCH SUMMARY (1) LEC. 1.

Real Estate Development Courses

RDEV 7120 FIELD STUDIES (1-3) LEC. 1-3. This course provides students with the opportunity to visit real estate development firms and ongoing projects. Course may be repeated for a maximum of 6 credit hours.

RDEV 7130 PRINCIPLES OF REAL ESTATE DEVELOPMENT (3) LEC. 3. An introduction to theory and practice as applied to fundamental topics in real property law, real estate markets, valuation, investment analysis and property financing as they effect various topics in real estate development.

RDEV 7140 REAL PROPERTY ANALYSIS (3) LEC. 3. This is a case study course, providing an overview of key concepts in real estate development and real property analysis.

RDEV 7230 REAL ESTATE MARKET ANALYSIS (3) LEC. 3. This class will provide concentrated study in real estate markets. Critical components of the course will include the study of the link between the Property and Asset Markets.

RDEV 7240 BUILDING DESIGN AND CONSTRUCTION PRINCIPLES (3) LEC. 3. This course will illustrate some of the building design and construction principles that real estate development professions engage in their practice every day.

RDEV 7340 SITE PLANNING AND INFRASTRUCTURE DEVELOPMENT (3) LEC. 3. This course examines the role that site selection and infrastructure development play in the sustainable conceptualization, feasibiltiy, and implementation of a real estate development project.

RDEV 7350 REAL ESTATE INVESTMENT ANALYSIS (3) LEC. 3. This class will provide concentration study in real estate investment.

RDEV 7430 REAL ESTATE PROJECT MANAGEMENT (3) LEC. 3. This course examines the real estate development process from conceptualization to actualization.

RDEV 7440 REAL ESTATE CONTRACT NEGOTIATIONS (1) LEC. 1. This course will teach the basic skills necessary to become an effective negotiator. The course will include planning and preparing necessary elements for contract negotiation. Additionally, the communications skills necessary to forward the negotiation agenda will be addressed.

RDEV 7530 REAL ESTATE CAPITAL MARKETS (3) LEC. 3. This class will provide an in-depth look at the fundamental principles and practices as applied to the financing of residential and commercial real estate.

RDEV 7540 REAL ESTATE DEVELOPMENT LAW (3) LEC. 3. This course examines the legal issues related to acquisition, planning, design, entitlement, construction, development financing, property management, accounting, taxation, reversion, and estate planning.

RDEV 7630 REAL ESTATE DEVELOPMENT CAPSTONE PROJECT (5) DSL. 5. This Capstone Project seeks to develop an appreciation of real estate development process and the critical roles played by the design, planning, and construction industries

School of Industrial and Graphic Design

The School of Industrial and Graphic Design (SIGD) offers the only NASAD-accredited programs in the state of Alabama. The B.F.A. in graphic design focuses on visual communication with an emphasis in typography, branding, UI/UX, publication, motion, illustration, packaging, app, and wayfinding design. The bachelor of industrial design program is known for product innovation, point of purchase design, marketing design, commercial environments and branding. The Master of Industrial Design prepares students to shape a sustainable future by designing products and systems that consider human interaction, manufacturability, profitability, and environmental impact.

In addition, SIGD offers a Bachelor of Science in Industrial Design Studies for students who would like to pursue a Master of Industrial Design but do not have a design background. Another option for students is the minor in industrial and graphic design processes which equips students from diverse disciplines to work more effectively to advance design innovation within an organization.

Majors

- Graphic Design (p. 305)
- Industrial Design (p. 307)

Minors

- Industrial and Graphic Design Processes (p. 307)

Graphic Design Courses

GDES 1110 FOUNDATION DRAWING (4) STU. 8. Coreq. GDES 1210. PGDE majors only; school approval. Representational drawing with various media. Emphasis on accurate observation, pictorial organization, depiction of space as well as on concept development and creativity.

GDES 1210 FOUNDATION DESIGN I (4) LEC. 1, STU. 6. Coreq. GDES 1110. PGDE majors only; school approval. Elements and principles of basic two-dimensional design. Emphasis on composition, color theory, and craftsmanship.

GDES 1220 FOUNDATION DESIGN II (4) LEC. 1, STU. 6. Pr. GDES 1210. Elements and principles of design with emphasis on basic three dimensional design. Emphasis on spatial organization, color, and media exploration, planning and craft.

GDES 2210 GRAPHIC PROCESSES (4) LEC. 1, STU. 6. Pr. GDES 1110 and GDES 1220 and (ARTS 2100 and ARTS 2150). Coreq. GDES 2220. Design and production processes, preparation of design for printing, paper, copyright, electronic techniques, and related subjects. School approval.

GDES 2220 TYPOGRAPHICS I (4) LEC. 1, STU. 6. Pr. GDES 1110 and GDES 1220 and (ARTS 2100 and ARTS 2150). Coreq. GDES 2210. Historical development and practical applications of typography for design, layout, and other contemporary formats. School approval.

GDES 2230 INTRODUCTION TO GRAPHIC DESIGN (4) STU. 8. Pr. GDES 2210 and GDES 2220. Design, layout, and image-making procedures for creative problem-solving in graphic design, with emphasis on presentation, creativity, and visualization. School approval. Portfolio review required.

GDES 3110 ELEMENTS & PRINCIPLES OF DESIGN I: FORM AND COMPOSITION (3) LEC. 3. Pr. INDD 1120. This course will expose students to a variety of design methods, and their applicability to non-design disciplines, highlighting the parallel between critical thinking and design thinking.

GDES 3120 ELEMENTS & PRINCIPLES OF DESIGN II: TYPOGRAPHY AND IMAGE (3) LEC. 3. Pr. INDD 1120. This course will teach the basic concepts and vocabulary of typography with an emphasis on the expressive potential of typography when combined with imagery in layout form.

GDES 3130 GRAPHIC DESIGN LITERACY: MESSAGE, CONTEXT, MEANING (3) LEC. 3. Pr. INDD 1120. This course is a seminar that prepares students to participate actively and confidently in conversations about visual communications. Students investigate the historical bases of graphic design as well as examine contemporary issues informing the practice of graphic design. Seminar members read and discuss case studies and design criticism, and apply analytical approaches to examples of contemporary design through oral presentations and written arguments.

GDES 3140 DESIGN THINKING: INTRODUCTION TO DIGITAL SCREEN MEDIA (3) LEC. 3. Application of design thinking (focus on experience of the user) in the context of screen-based (computers, web applications, phones) design. Projects may include the redesign of an existing website, design concept for a new mobile application, and a new video game concept.

GDES 3147 HONORS DESIGN THINKING: INTRODUCTION TO DIGITAL SCREEN MEDIA (3) LEC. 3. Application of design thinking (focus on experience of the user) in the context of screen-based (computers, web applications, phones) design. Projects may include the redesign of an existing website, design concept for a new mobile application, and a new video game concept.

GDES 3210 PHOTO DESIGN (4) STU. 8. Pr. GDES 2210 and GDES 2220. Traditional black and white film photography that covers covers technical aspects of the 35mm camera and film and basic darkroom procedures for black and white film and and basic darkroom procedures for black and white film and an awareness of the aesthetics and semantics associated with photographic imagery.

GDES 3220 PHOTO COMMUNICATIONS (4) STU. 8. Photography as applied communication such as advertising, editorial photography, and annual report photography. Emphasis on advanced technological and studio techniques.

GDES 3240 INTERACTIVE MEDIA (4) STU. 8. Pr. GDES 2230. Exploration of the technical and conceptual aspects of Web site design and motion graphics through a series of problem-solving processes. Emphasis on the research and development of effective graphic interfaces and information architecture.

GDES 3250 TYPOGRAPHICS II (4) STU. 8. Pr. GDES 2230. Experimental application of typography for design and layout, exploring contemporary techniques. Historical understanding expected. Emphasis on presentation and visualization of concepts.

GDES 3260 KINETIC TYPOGRAPHY (4) LEC. 4. Pr. GDES 2230. Focuses on how motion affects meaning and how new meaning can be developed through time, space, and sound.

GDES 3710 GRAPHIC DESIGN HISTORY (4) LEC. 4. Pr. GDES 2210 and GDES 2220. History of graphic design, with emphasis on social and cultural contexts, symbolic application, formal characteristics, and significant movements.

GDES 3910 GRAPHIC DESIGN INTERNSHIP PRACTICUM (2) LEC. 2. Pr. GDES 2210 and GDES 2220. Acceptance into the GDES program. Focuses on the professional practices of Graphic Design through portfolio creation and presentation, resume and cover letter writing and the tactics of searching for an internship.

GDES 3920 GRAPHIC DESIGN INTERNSHIP (4) INT. 4. Pr. GDES 2230. a fifteen-week period working full time as a staff member with an approved internship sponsor under the direction of a supervising art director.

GDES 4240 GRAPHIC DESIGN I (4) STU. 8. Pr. GDES 3240. Application of communicative procedures and skills necessary to convey messages by means of graphic presentation: problem solving in corporate identity, advertising design, self promotion, etc. Development of student's individual style.

GDES 4250 GRAPHIC DESIGN II (4) STU. 8. Pr. GDES 4240. Development of individual style in communication via graphic graphic presentation, with emphasis on problem-solving in publication design, self-promotion, large-format design, and layout.

GDES 4270 ADVANCED INTERACTIVE MEDIA (4) STU. 8. Pr. GDES 3240. Focuses on the principles and methodologies used throughout the interactive design industry for creating screen-based dynamic media. Students develop a conceptural framework for real world applications, exploring industrial, social and cultural issues.

GDES 4640 IMAGE I (4) STU. 8. Pr. GDES 2230. Application of illustration techniques and concepts to various graphic formats. Development of personal skills and individual style.

GDES 4650 IMAGE II (4) STU. 8. Pr. GDES 2230. Exploration of two dimensional and three dimensional imaging techniques and concepts. Development of personal skills and an individual style.

GDES 4900 DIRECTED STUDIES FOR GRAPHIC DESIGN (2-3) AAB. Pr. GDES 2210 and GDES 2220. Directed Studies in Graphic Design focuses on individualized study in Graphic Design. Student must have a 3.0 average in GDES course curriculum and departmental approval. Topics may include Graphic Design, Imaging, Web Design. Course may be repeated for a maximum of 9 credit hours.

GDES 4970 SPECIAL TOPICS FOR GRAPHIC DESIGN (4) LEC. 1. Pr. GDES 2230 and GDES 3710. Special Topics in Graphic Design focuses on topics in graphic design that are additional to the regular curriculum. Specific course topics are developed by the instructor. Student must have a 3.0 average in GDES GDES course curriculum. Course may be repeated for a maximum of 12 credit hours.

GDES 4990 SENIOR PROJECT FOR GRAPHIC DES (5) STU. 10. Pr. GDES 4250. Coreq. GDES 4991. A directed terminal studio project with choice of subject and medium. Project will be exhibited and a faculty committee will award a letter grade. Must be taken in student's final semester.

GDES 4991 RESEARCH, WRITING AND PRESENTATION (1) LEC. 1. Pr. GDES 4250. Coreq. GDES 4990. Addresses research, writing and presentation requirement associated with the student's terminal studio project. Must be taken in student's final semester.

Industrial Design Courses

INDD 1120 INDUSTRIAL DESIGN IN MODERN SOCIETY (3) LEC. 3. Survey of design and its impact upon modern society. Review of methods, products, marketing, patents, education, and career opportunities.

INDD 1127 HONORS INDUSTRIAL DESIGN IN MODERN SOCIETY (3) LEC. 3. Survey of design and its impact upon modern society. Review of methods, products, marketing, patents, education, and career opportunities.

INDD 1310 SYNTHESIS OF DRAWING (10) LEC. 3, LST. 12. Developing mechanical and production design drawings, with in-depth study of perspective systems. Product design communication with emphasis on drawing, development, and presentation.

INDD 1320 PROTOTYPE FABRICATION (3) LEC. 2. LAB. 2. Coreq. INDD 1310. Fabrication of three-dimensional models utilizing various materials and machineries. Includes model making, creative modeling, study models, presentation models, mock-ups and prototypes.

INDD 1400 CAREERS IN INDUSTRIAL DESIGN (2) LEC. 2. Survey of careers in the field of industrial design demonstrated through case studies, product examples and biographies.

INDD 2110 TWO DIMENSIONAL INDUSTRIAL DESIGN PRINCIPLES (6) LEC. 2, LST. 10. Transference of abstract principles of design to fabrication of simple tools. Emphasis on expression of functional objects.

INDD 2120 COMPUTER AND DESIGN COMMUNICATIONS (3) LEC. 2. LAB. 2. Alternative modes of communicating design ideas via computer. Executing design ideas for two-dimensional design fundamentals and mechanical design drawings.

INDD 2130 PRESENTATION RENDERING (3) LEC. 2. LAB. 2. Concept development using drawing and rendering skills with different media for ideas communication and presentation.

INDD 2210 THREE DIMENSIONAL INDUSTRIAL DESIGN PRINCIPLES (6) LEC. 2, AAB/LST. 10. Pr. INDD 2110. Analysis of design fundamentals through three dimensional form. Analyzing function, utility, convenience, safety, maintenance and sustainable design.

INDD 2220 ANTHROPOMETRY (3) LEC. 3. Pr. INDD 2110. Body measurements, movements and human capacity in relation to design with introduction to ergonomy and human physiology as it relates to design. School approval.

INDD 2230 HISTORY OF INDUSTRIAL DESIGN (3) LEC. 3. Pr. INDD 2110. Survey humankind's production of artifacts, from prehistory to present. Emphasis on ideas that mass produced artifacts mirror history and everyday culture.

INDD 3110 EXHIBIT AND PACKAGING (6) LEC. 1, LST. 8. Pr. INDD 2210. Display systems using models, concepts development, rendering, packaging, identity programs and professional presentations.

INDD 3120 INDUSTRIAL DESIGN METHODS (3) LEC. 3. Pr. INDD 2210. Introduction to design management. Design methods and organizational procedures in analysis and solutions of design problems. Surveying philosophies and theories of design.

INDD 3130 BASIC PHOTOGRAPHY FOR INDUSTRIAL DESIGN (3) LEC. 2. LAB. 2. Pr. INDD 2210. Photography in design and art environments. Techniques of developing, printing and enlarging. Lighting techniques for portfolio photography, including lighting, studio photography, composition.

INDD 3150 DESIGN THINKING: INTRODUCTION TO PRODUCT SOLUTIONS (3) LEC. 2. LAB. 1. Application of design thinking (focus on experience of the user) in the context of product design. Students will deconstruct a design of an existing product and create a design concept for a new product. Introduces innovation in physical products and services through collaborative and creative approaches to critical and strategic thinking with focus on the user. Course may be repeated for a maximum of 6 credit hours.

INDD 3157 HONORS DESIGN THINKING: INTRODUCTION TO PRODUCT SOLUTIONS (3) LST. Application of design thinking (focus on experience of the user) in the context of product design. Students will deconstruct a design of an existing product and create a design concept for a new product. Introduces innovation in physical products and services through collaborative and creative approaches to critical and strategic thinking with focus on the user. Course may be repeated for a maximum of 6 credit hours.

INDD 3210 PRODUCT DESIGN (6) LEC. 2, AAB/LST. 10. Pr. INDD 3110. Product design utilizing design methodology from proposal to working pre-prototype, including planning, research, development, model-making, manufacturing and documentation.

INDD 3220 MATERIALS AND TECHNOLOGY (3) LEC. 3. Pr. INDD 3120. Characteristics and utility of materials such as plastic, metal, and ceramics in manufacture and the study of machine/tool processes used by industry.

INDD 3230 ADVANCED COMPUTER AIDED DESIGN (3) LEC. 2. LAB. 2. Pr. INDD 2120. Introduction to CAD software emphasizing three-dimensional modeling. Students will learn drawing functions. Concepts of three-dimensional relationship of objects discussed.

INDD 4110 ADVANCED PRODUCT DESIGN (6) LEC. 2, AAB/LST. 10. Pr. INDD 3120 and INDD 3210. Design or redesign of products and systems of advanced complexity.

INDD 4210 INDUSTRIAL DESIGN THESIS (6) LEC. 2, AAB/LST. 10. Pr. INDD 4110. Product design projects involving all design phases; including planning, research, development, finalization, specification, and documentation.

INDD 4220 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. INDD 3110 and INDD 3210. Business aspects of industrial design, including property, design contract, letters of agreement, business planning and design marketing.

INDD 4907 HONORS READING (1-3) LEC. Course may be repeated for a maximum of 3 credit hours.

INDD 4997 HONORS THESIS (1-3) LEC. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

INDD 5120 PROFESSIONAL PORTFOLIO (3) LEC. 3. Pr. INDD 3110 and INDD 3210. Design and development of a portfolio and promotional material presenting the student's work to entry-level professional standards.

INDD 5960 SPECIAL PROBLEMS (1-5) AAB. Development of individual projects. Research, design and reports on approved topics. Course may be repeated for a maximum of 15 credit hours.

INDD 6010 HISTORY OF INDUSTRIAL DESIGN II (3) LEC. 3. A survey of humankind's production of artifacts, from prehistory to contemporary times, with an emphasis on the idea that mass produced artifacts mirror the meanings of historical events and everyday culture.

INDD 6030 CASE STUDIES IN DESIGN (3) LEC. 3. Design projects undertaken by industry studied by examination of artifacts and records, and by class discussions. Focus on the socio-cultural relevancy of the artifacts.

INDD 6120 PORTFOLIO (3) LEC. 3. Preparation of professional portfolio for graduation and employment.

INDD 6960 SPECIAL PROBLEMS (1-5) AAB. Development of individual projects. Research, design and reports on approved topics. Course may be repeated for a maximum of 15 credit hours.

INDD 7010 DESIGN ORIENTATION (3) LEC. 3. Introduction to the Industrial Design graduate program: degree options, study directions, research methods, and areas. Students are required to develop a research/project proposal.

INDD 7020 COMPUTER/INDUSTRIAL DESIGN (3) LEC. 3. Synthesizing studies in research, analysis, and application based on interdisciplinary concept. Emphasis on the relation of products and systems to those who use them.

INDD 7610 PRINCIPLES OF INDUSTRIAL DESIGN (3) LEC. 3. Detailed study of the communication principles of form qualities with emphasis of these aesthetic principles to the technical and human factors of artifacts.

INDD 7620 DESIGN MANAGEMENT (3) LEC. 3. Detailed study of the industrial design project management and development with emphasis on the interrelational management concepts of research, product planning, production and marketing.

INDD 7630 HUMAN FACTORS IN DESIGN (3) LEC. 3. Theoretical and empirical examination of human factors (Anthropometrics, Biotechnology, Engineering Psychology, Behavioral Cybermetics, Ergonomics) as applied to man-machine environmental systems.

INDD 7640 AESTHETICS IN DESIGN (3) LEC. 3. Aesthetics in the context of the designed environment encompassing: non-verbal communication; object language semiotics; gestalt and perception systems; information aesthetics, and consumer product safety.

INDD 7650 DESIGN THEORIES (3) LEC. 3. Examination of design theories and philosophies related to technical artifacts in man-machine systems. Comparative studies of unifying theories in art, science, design, technology and the humanities.

INDD 7660 INDUSTRIAL DESIGN METHODOLOGY (3) LEC. 3. Industrial design methodologies and specific methods employed in research, analysis, synthesis, and evaluation in comprehensive design problems.

INDD 7670 SYSTEMS DESIGN (3) LEC. 3. Systems approach and interdisciplinary team work to design problems inquires into details of sub-systems, components and parts, with emphasis on the relation of the performance of technical systems to optional human factor effects.

INDD 7910 INDUSTRY PRACTICUM (5) AAB/STU. 5. This course will demand the application of acquired skill to the resolution of product design based issues within an industry collaboration studio over the period of one semester.

INDD 7980 NON-THESIS DESIGN (3) STU. 3. Synthesizing studies in research, analysis and application based on interdisciplinary concept. Emphasis on the relation of products and systems to those who use them.

INDD 7990 DESIGN THESIS (1-5) AAB/RES. Credit to be arranged. Course may be repeated with a change in topic.

Graphic Design (GDES)

The Graphic Design program in the School of Industrial and Graphic Design prepares students to practice visual communication in a competitive global environment. Graphic Design students follow a curriculum that provides variety and depth in all aspects of the field, supported by Fine Arts electives. Varied career opportunities range from the development of strategies to implement large-scale communications campaigns, to the design of effective communication products such as magazines, logo and identity development, interactive media, web design, packaging, exhibitions, illustration, and environmental graphics. Graphic design students have excellent opportunities for internship experiences as a result of well-established relationships with regional, national and international companies and firms.

The Graphic Design program maintains the right to limit freshmen and transfer enrollment. **Admission into the BFA in Graphic Design is selective, is limited, and is based on a multiple step process.** Admission criteria can be found below the curriculum model.

Freshman

Fall	Hours	Spring	Hours
ENGL 1100 English Composition I	3	ENGL 1120 English Composition II	3
GDES 1110 Foundation Drawing	**4**	Core Science I	4
GDES 1210 Foundation Design I	**4**	**GDES 1220 Foundation Design II**[2]	**4**
ARTS 2100 Foundations of Art History I	3	ARTS 2150 Foundations of Art History II	3
	14		**14**

Sophomore

Fall	Hours	Spring	Hours

See advisor for approved course listing.

1 GDES 4640 or GDES 3220 can be substituted for GDES 3210.
2 Professional Fee Charged

Acceptance and Progression into the Professional Graphic Design Program

1. **Application for Pre-Graphic Design:** Once accepted to Auburn University, students will be designated as Pre-Graphic Design (PGDE) for the first year of the curriculum.
2. **PGDE to GDES second year level Courses:** After completing the first year level Pre-Graphic Design curriculum, an admission process based on GPA ranking admits qualified students into the Graphic Design second year level program for the GDES 2210 and GDES 2220 courses. Pre-Graphic Design students must complete at least 24 semester hours of credit including: GDES 1110 Foundation Drawing; GDES 1210 Foundation Design I; GDES 1220 Foundation Design II; ARTS 2100 Foundations of Art History I; ARTS 2150 Foundations of Art History II; and at least 6 hours of coursework counting toward the University Core Curriculum. The formula GPA for entrance to the second level of the pre-Graphic Design program will be calculated on the above listed courses only. (The two highest Core grades will be utilized in the event that more than two core classes have been completed.) Students will be ranked by formula GPA, and the top students will be selected. These students will be notified and then registered in the next level courses - GDES 2210 Graphic Processes and GDES 2220 Typographics I, by the CADC Office of Student Services. Students who are not accepted can reapply in following semesters. In the event of a tie, the numeric grade earned in GDES 1220, Foundation Design II, will be used to break the tie. Students who earn a D or F in a formula course may repeat the class per Auburn University policy, and the subsequent grade will be averaged with the D or F to determine the formula grade. Students may not repeat a course in which the student earned a C or better for purposes of the formula GPA.
3. **B.F.A. in Graphic Design Entrance Review:** All probationary second-year level GDES students who have achieved a minimum 2.50 GPA in GDES 2210 and GDES 2220 are eligible to apply through a portfolio review process for GDES 2230. The Graphic Design Review Committee will conduct an entrance review at the end of each fall, spring, and summer semester. To advance to GDES 2230, it is required that students submit a portfolio of work from GDES 2210 and GDES 2220, and a one-page typewritten statement of intent. The portfolio will consist of 6 projects from the two courses (no more than four projects from one course). The statement of intent should include reasons for choosing the Graphic Design major and address career goals. The Graphic Design Review Committee will evaluate the student's portfolio and written statement in terms of the individual student's skills, artistic perception, conceptualization, and professionalism. Upon successful admission by portfolio review, the student will be required to purchase a laptop computer that meets minimum requirements.

Due to prerequisites within the Graphic Design curriculum, all required Graphic Design classes in the Graphic Design major must be completed with a grade of C or better. In the event a C is received in a required course, then the student will be asked to meet with the Graphic Design student advisor. If a grade of D or F is received in any required coursework, a review may be required by the Graphic Design program chair, and the student will be required to repeat the course before continuing in the program.

Students receiving a second C, D, or F in required courses will be reviewed for continuance by a committee of graphic design faculty to determine the student's ability to meet the requirements of the GDES professional degree program.

Transfer Students for Graphic Design

A student must have a minimum cumulative unadjusted GPA of 2.8 (on a 4.0 scale) on all collegiate work attempted and apply for admission with the university admissions office. If accepted for admission they are eligible to declare Pre-Graphic Design and begin the first-year curriculum.

Industrial and Graphic Design Processes Minor

Professionals in today's economy are frequently required to implement design innovation as a part of creating and sustaining a competitive advantage. The Industrial and Graphic Design Processes Minor equips students from diverse disciplines to work more effectively to advance design innovation within an organization. Through this program, students learn how to participate in the creative problem-solving process, explore multiple modes of visual communication, examine the roles that design plays in shaping modern culture, and better recognize opportunities to employ design as an innovation catalyst within industry.

Any student not enrolled as an INDD or GDES major may earn a minor in Industrial and Graphic Design Processes by completing designated classes within the School of Industrial and Graphic Design (SIGD). Students must have a cumulative GPA of 2.0 or higher in these courses to earn the minor. Students must first consult with an academic advisor from the College of Architecture, Design and Construction (CADC) to declare their intention of pursuing the minor of Industrial and Graphic Design Processes prior to enrolling in any INDD or GDES courses.

Code	Title	Hours
Fall or Spring Prerequisite: The following course is required to begin a minor in Industrial and Graphic Design Processes: (3 credit hours)		
INDD 1120	Industrial Design in Modern Society	3
Summer Coursework: Following the completion of INDD1120, students may select a minimum of 12 credit hours from the courses listed below:		12
INDD 2230	History of Industrial Design	
INDD 3120	Industrial Design Methods	
INDD 3130	Basic Photography for Industrial Design	
INDD 3220	Materials and Technology	
INDD 4220	Professional Practice	
GDES 3110	Elements & Principles of Design I: Form and Composition	
GDES 3120	Elements & Principles of Design II: Typography and Image	
GDES 3130	Graphic Design Literacy: Message, Context, Meaning	
Total Hours		**15**

For those students who are not accepted to the Professional Program in Graphic Design but who complete all application requirements for the Professional GDES Program, up to six hours total from Foundation Design 1 (GDES 1210) and Foundation Design 2 (GDES 1220) may be counted toward the Minor in Industrial and Graphic Design Processes. Note that hours toward the minor cannot be double counted toward other Auburn degrees.

Industrial Design (INDD)

Students of Industrial Design (INDD) learn the basic principles of design, engineering, human factors, marketing and sociology. They acquire such technical skills as computer-aided design and drafting, prototype fabrication, photography, sketching and graphics techniques. Students are introduced to design methods, color theory, product planning, visual communication, materials, manufacturing methods, consumer psychology and environmental studies. The four and a half year (nine semester) curriculum, accredited by the National Association of Schools of Art and Design, leads to the professional Bachelor of Industrial Design degree. Graduates will qualify for industrial design and user experience positions within corporate and consultant offices and in various industries. Motivated students will be considered for admission to the Graduate Program in industrial design. Students are encouraged to pursue internships during their time in the curriculum.

The required INDD First Year Studio summer coursework is offered to students in good standing who meet the following criteria: completion of 24 credit hours of university work or approval of the School Head. Students are not required to have completed the INDD freshman model curriculum before enrolling in the summer semester INDD First Year Studio. The First Year Studio summer coursework is only offered in the summer semester.

Admission into the INDD Professional Program (starting fall semester after summer studio) is selective and limited. Admission criteria can be found below the curriculum model.

Freshman

Fall	Hours	Spring	Hours	Summer	Hours
ENGL 1100 English Composition I	3	ENGL 1120 English Composition II	3	**INDD 1310 Synthesis of Drawing 2**	**10**

1 INDD 1120 is offered in both fall and spring semesters of each year.
2 Professional Fee Charged

Acceptance and Progression in the Professional Industrial Design Program

The department maintains the right to select the most highly qualified students from the INDD First Year Studio summer coursework for admission to and for continuation in the INDD professional program. The top forty-five students with an average above 70-percent, based on grade point averages accumulated in INDD 1310 during the INDD First Year Studio summer semester, are allowed to proceed into the Fall semester industrial design professional program. There is no prerequisite experience in drawing, design, or model fabrication to qualify for the First Year Summer Design Studio. Students not admitted into the professional INDD program may retake the summer studio coursework in subsequent years and are re-ranked against new applicants and available resources in that year level. The department reserves the right to retain original work accomplished as part of course instruction.

After a student is accepted into the Professional Industrial Design program, the student must make at least a grade of C or higher in studio courses to matriculate through the professional program. Grades below C in studio courses 1310 through 4210 must be repeated. Design courses must be taken in sequence unless otherwise approved by the School Head.

McWhorter School of Building Science

With a storied tradition of blending practical and professional construction education principles, the McWhorter School of Building Science has earned the distinction of being one of the largest and most respected construction management programs in the United States. The Bachelor of Science in Building Construction focuses on preparing students for management positions within the construction industry including specialized training in estimating, scheduling, project management, safety, surveying, sustainable construction, and structures. In addition to the undergraduate program, the McWhorter School of Building Science also offers a Master of Building Construction (MBC) as well as a PhD in building construction.

Majors

- Building Science (p. 314)
- Real Estate Development (p. 390)

Courses

BSCI 1100 INTRODUCTION TO CONSTRUCTION (3) LEC. 3. Introduction to construction industry and education, current issues, and career opportunities.

BSCI 2200 CONSTRUCTION DOCUMENTS (3) LEC. 2. LAB. 3. Pr. BSCI 2300. Reading and interpreting working drawings, specifications, shop drawings, and digital 3D models for use in estimating and administrating various types of construction projects.

BSCI 2300 CONSTRUCTION METHODS AND MATERIALS (3) LEC. 3. Materials, methods and construction equipment used in the construction of buildings.

BSCI 2400 STRUCTURE OF BUILDINGS I (3) LEC. 3. Pr. (PHYS 1500 or PHYS 1600) and (MATH 1610 or MATH 1150 or (MATH 1120 and MATH 1130)). Principles of mechanics and materials behavior related to building structures. Includes force systems, frame analysis, gravity load tracing, wind and seismic resistance for concrete and steel buildings.

BSCI 3200 CONSTRUCTION COMMUNICATION (3) LEC. 3. Overview of communication skills and tools required to succeed as a construction manager. Oral communication, written communication, ethics, visual literacy, and video capture in the context of construction risk management.

BSCI 3300 FIELD SURVEYING (2) LEC. 1. LAB. 6. Surveying techniques, construction layout, use of equipment, and dimensional controls for buildings. Surveying camp, a concentrated, 10 working day course held during breaks.

BSCI 3400 STRUCTURES FOR ARCHITECTS II (3) LEC. 3. Pr. BSCI 2400. Primary and secondary member design, connection design, temporary bracing/shoring, and steel shop drawing review.

BSCI 3440 STRUCTURE OF BUILDINGS II (3) LEC. 3. Pr. BSCI 2400. Principles of static equilibrium and materials behavior related to building structures. Includes force systems, frame analysis, section properties, stress, basic design of structural elements in buildings.

BSCI 3450 STRUCTURES FOR ARCHITECTS III (3) LEC. 3. Pr. BSCI 3400. Introduction to the design of reinforced concrete and related formwork including beams, columns, slabs, footings, retaining walls, and pre-stressed members.

BSCI 3500 CONSTRUCTION AND INFORMATION TECHNOLOGY I (3) LEC. 2. LAB. 2. To explore, discover and create applications of information communication technology (ICT) for Construction Processes.

BSCI 3600 ESTIMATING AND COSTING (4) LEC. 3. LAB. 3. BSCI Major. Introduction to construction estimating for CSI Divisions 1-33. Students perform quanity take-of (QTO), pricing, and preparation for a commercial construction project using computer-based techniques.

BSCI 3660 PRECONSTRUCTION AND PROJECT MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BSCI 3600. Project(s) simulation as a context to discuss, negotiated procurement, pre-construction services in the alternative delivery environment and construction phase management procedures.

BSCI 3700 CONSTRUCTION SAFETY (3) LEC. 3. Construction safety, including OSHA guidelines, accident investigation, and the creating of construction safety plans and worker training program.

BSCI 3800 CONTRACTING BUSINESS (4) LEC. 4. Pr. BSCI 3600. Construction-specific look at the business functions associated with the industry; includes organizational structures, construction finance, risk analysis, construction contracts, project delivery, and associated documents with these functions.

BSCI 4200 RESIDENTIAL CONSTRUCTION (3) LEC. 3. Provides an overview of residential construction and development practices and professional issues including: local ordinances and codes, land use law, financing practices, architect-builder relationship, spec homes vs. custom homes, etc.

BSCI 4300 PRINCIPLES OF CONSTRUCTION & DESIGN (3) LEC. 3. Provides a basic overview of the design and construction process with a focus on project planning and management practices which relate to interactions between thearchitect, constructor, and project developer. Includes: aspects of the roles and responsibilities of the designer and contractor, design process, pre-construction and construction phase contractor activities.

BSCI 4350 CONSTRUCTION PROJECT ANALYSIS (3) LEC. 3. Pr. BSCI 3660. Analysis of methods, materials and equipment used to construct projects. Methods used to assure the quality of construction projects.

BSCI 4360 SERVICE LEARNING IN CONSTRUCTION (2-3) LEC. 2. LAB. 2. Pr. BSCI 3700 and BSCI 3660. Application of Construction Management-relevant knowledge to real-life situations through active participation in a directed community service experience. Course may be repeated for a maximum of 3 credit hours.

BSCI 4410 PROBLEMS IN CONSTRUCTION MEANS AND METHODS (3) LEC. 2. LAB. 2. Pr. BSCI 3660. Solving challenging problems encountered in construction processes, including form work, scaffolding, framing, steel erection, rigging, lifting, safety,and site management.

BSCI 4420 MANAGEMENT FOR CONSTRUCTION SUPERINTENDENTS (3) LEC. 1. LAB. 4. Pr. BSCI 3660. Senior Standing in Building Science. Development of expanded management strategies for construction superintendents including field conditions analysis, direction of tradesmen, communication skills, and project hoisting and equipment.

BSCI 4500 INFORMATION AND COMMUNICATION TECHNOLOGY FOR CONSTRUCTION II (3) LEC. 2. LAB. 2. To recognize, experiment and practice the applications of advanced information and communication technology (ICT) for Construction Processes.

BSCI 4610 SCHEDULING AND FIELD OPERATIONS (4) LEC. 4. Pr. BSCI 3660. The third of a sequence of three project controls classes; an in-depth study of construction project sequencing and scheduling, jobsite cost control measures, construction cash flow analysis, and a variety of leadership and management issues associated with field operations.

BSCI 4700 MECHANICAL SYSTEMS IN BUILDINGS (3) LEC. 2. LAB. 2. Pr. BSCI 3500 and BSCI 3600. Overview of the plumbing and mechanical systems of buildings. Basic design, sustainability concepts, systems, installation and testing are covered.

BSCI 4710 MECHANICAL CONSTRUCTION ESTIMATING AND MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BSCI 4700. Advance study of mechanical construction industry. Study and application of design principles, estimating and management techniques used in the industry.

BSCI 4750 ELECTRICAL SYSTEMS IN BUILDINGS (3) LEC. 3. Pr. BSCI 3500. Electrical systems commonly used in buildings; basic theory and design concepts, with emphasis on lighting and electrical distribution equipment and its installation.

BSCI 4850 CONSTRUCTION LAW AND RISK MANAGEMENT (3) LEC. 3. Pr. BSCI 3660. Construction law, business law and risk management; the legal system and terminology, contracts, insurance, warranties, liens, environmental concerns, workplace issues, damages, and dispute resolution.

BSCI 4860 ADVANCED CONSTRUCTION INFORMATION TECHNOLOGY (3) LEC. 2. LAB. 2. Pr. BSCI 3660. Exploration and creation of advanced applications of Information and Communication Technology (ICT) for planning, decision making, projects monitoring, and controls.

BSCI 4870 CONSTRUCTION HISTORY (3) LEC. 3. Survey of historic construction projects to analyze how and why buildings and structures were constructed in the way they were.

BSCI 4880 CONSTRUCTION EQUIPMENT MANAGEMENT (3) LEC. 3. Pr. BSCI 3660. Construction equipment management and ownership. Equipment acquisition and disposition options, production costs and productivity, cost analysis and control, management staffing and responsibilities.

BSCI 4890 LEAN CONSTRUCTION PRINCIPLES AND PRACTICES (3) LEC. 3. Pr. BSCI 3660. This course provides an understanding of lean construction principles involving lean design, assembly, supply, production and work processes.

BSCI 4960 SPECIAL PROBLEMS (1-6) IND. Special problems in construction topics. Course may be repeated for a maximum of 6 credit hours.

BSCI 4990 BUILDING SCIENCE THESIS (4) LAB. 12. Individual project demonstrating mastery of curriculum content through the application of skills/knowledge to a theoretical construction company and project. Requires a written thesis and oral defense of work.

BSCI 5430 SITE & EARTHWORK CONSTRUCTION (3) LEC. 3. Pr. BSCI 3660. This course provides a general overview of means and methods associated with sitework-related construction through evaluation of Earthwork Operations, Equipment Selection and Productivity, Optimizing crew and productivity, Cost Estimating, Risks related Sitework-Related Projects, Concrete Construction, Erosion and Sediment Control, and an overview of Bridge and Highway Construction.

BSCI 5450 BUILDING GREAT STRUCTURES (3) LEC. 3. Departmental approval. Conceptual Analysis of a variety of structural systems using observation and modeling of the world's greatest structures. Emphasis on construction innovations necessary to build these structures. May count either BSCI 5450 or BSCI 6450.

BSCI 5460 PLANNING AND DECISION MAKING IN CONSTRUCTION (3) LEC. 3. Pr. BSCI 3660. Departmental approval. Applications of quantitative methods in various phases of project life cycle to assist project stakeholders in making effective planning and informed decision making. May count either BSCI 5460 or BSCI 6460.

BSCI 5470 SMALL UNMANNED AIRCRAFT SYSTEMS IN CONSTRUCTION (3) LEC. 3. Departmental consent. Overview of FAA requirements including hands on training with small unmanned aerial systems and associated software focused on applications in construction.

BSCI 5810 SERVICE LEARNING IN CONSTRUCTION MANAGEMENT - STUDY ABROAD OR STUDY AWAY (3) LEC. 1. LAB. 4. Pr. BSCI 3700. Departmental approval. Application of Construction Management-relevant knowledge to real-life situations through active participation in a directed community service experience at an international or domestic location. Repeatable with instructor permission.

BSCI 5830 GLOBAL CONSTRUCTION MANAGEMENT (3) LEC. 3. This course will discuss global construction issues and related project management practices. Departmental approval. May count either BSCI 5830 or BSCI 6830.

BSCI 5840 MULTI-CULTURAL ISSUES IN CONSTRUCTION (3) LEC. 3.

BSCI 5920 INTERNSHIP IN CONSTRUCTION MANAGEMENT (0) INT. SU. Professional work experience in a construction management position. Students participating in BSCI 5920/6920 are expected to work in a full-time, 40 hour/week, construction management job. Course may be repeated for a maximum of 10 credit hours.

BSCI 5960 SPECIAL PROBLEMS (1-6) AAB. Departmental approval. Special problems in construction topics. Offered only at the discretion of the department head. Course may be repeated for a maximum of 6 credit hours.

BSCI 5970 SPECIAL TOPICS IN CONSTRUCTION (1-3) AAB. 1-3. Departmental approval. Special topics in construction focuses on topics in Building Science that are in addition to the regular curriculum. Offered only at the discretion of the department head. Course may be repeated for a maximum of 6 credit hours.

BSCI 6430 SITE & EARTHWORK CONSTRUCTION (3) LEC. 3. Pr. BSCI 7020. This course provides an overview of sitework-related construction through evaluation of Earthwork Operations, Equipment Selection and Productivity, Optimizing crew and productivity, Cost Estimating, Risks related Sitework-Related Projects, Concrete Construction, Erosion and Sediment Control, and an overview of Bridge and Highway Construction.

BSCI 6450 BUILDING GREAT STRUCTURES (3) LEC. 3. Conceptual Analysis of a variety of structural systems using observation and modeling of the world's greatest structures. Emphasis on construction innovations necessary to build these structures. May count either BSCI 5450 or BSCI 6450.

BSCI 6460 PLANNING AND DECISION MAKING IN CONSTRUCTION (3) LEC. 3. Departmental approval. Applications of quantitative methods in various phases of project life cycle to assist project stakeholders in making effective planning and informed decision making. May count either BSCI 5460 or BSCI 6460.

BSCI 6470 SMALL UNMANNED AIRCRAFT SYSTEMS IN CONSTRUCTION (3) LEC. 3. Overview of FAA requirements including hands on training with small unmanned aerial systems and associated software focused on applications in construction.

BSCI 6810 SERVICE LEARNING IN CONSTRUCTION MANAGEMENT - STUDY ABROAD OR STUDY AWAY (3) LEC. 1. LAB. 4. Pr. BSCI 7020. Departmental approval. Application of Construction Management-relevant knowledge to real-life situations through active participation in a directed community service experience at an international or domestic location. Repeatable with instructor approval. Must complete Construction Safety elective course prior to taking this course. Course may be repeated for a maximum of 6 credit hours.

BSCI 6830 GLOBAL CONSTRUCTION MANAGEMENT (3) LEC. 3. This course will discuss global construction issues and related project management practices. Departmental approval. May count either BSCI 5830 or BSCI 6830.

BSCI 6840 MULTI-CULTURAL ISSUES IN CONSTRUCTION LABOR (3) LEC. 3.

BSCI 6920 INTERNSHIP IN CONSTRUCTION MANAGEMENT (0) INT. SU. Professional work experience in a construction management position. Students participating in BSCI 5920/6920 are expected to work in a full-time, 40 hour/week, construction management job. Course may be repeated for a maximum of 10 credit hours.

BSCI 6960 SPECIAL PROBLEMS IN CONSTRUCTION (1-5) AAB. Departmental approval. Individually proposed problems or projects related to the construction industry. Students must prepare a written proposal with defined deliverables. Course may be repeated for a maximum of 5 credit hours.

BSCI 6970 SPECIAL TOPICS IN CONSTRUCTION (1-3) AAB. Departmental approval. Special topics in construction focuses on topics in Building Science that are in addition to the regular curriculum. Course may be repeated for a maximum of 3 credit hours.

BSCI 7010 CONSTRUCTION LABOR AND PRODUCTIVITY (3) LEC. 3. Departmental approval. Construction labor issues, productivity measurement, and productivity improvement in the construction industry. Includes reading, research, and an out of class project.

BSCI 7020 INTEGRATED BUILDING PROCESSES I (3) LEC. 3. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner's perspective, the financial parameters, and the speculative demand driving project viability.

BSCI 7030 CONSTRUCTION INFORMATION MANAGEMENT (3) LEC. 3. Applications of advanced information technology in construction.

BSCI 7040 INTEGRATED BUILDING PROCESSES II (3) LEC. 3. Departmental approval. Construction project delivery, from pre-construction service through ownership. Topics include project management, pre-construction services, pre-planning, procurement, site utilization, subcontracts, commissioning, closeout, building operation, and long-term ownership.

BSCI 7050 EXECUTIVE ISSUES IN CONSTRUCTION (3) LEC. 3. Construction industry executives will present 6 to 10 topics that represent a cross-section of significant management issues.

BSCI 7060 RESEARCH METHODS IN BUILDING SCIENCE (3) LEC. 3. A study of the academic research process, with an emphasis on defining research problems in construction and the development of a research proposal.

BSCI 7100 GRADUATE ELECTIVE IN PROJECT MANAGEMENT: PROJECT MANAGEMENT AND SCHEDULING (3) LEC. 3. This course develops advanced student knowledge and skills in construction business facets such as delivery, contracts and financial management; and develops tactile skills in producing advanced construction schedules in current software applications. Credit will not be given for both BSCI 7100 and BSCI 7106. Course may be repeated with change in topics.

BSCI 7110 CONSTRUCTION CONTRACTING BUSINESS (3) LEC. 3. Business functions associated with construction industry; organizational structure, construction finance; risk analysis, construction contracts, project delivery, and associated documents. Admission to Certificate in Construction Management.

BSCI 7120 CONSTRUCTION LAW AND RISK MANAGEMENT (3) LEC. 3. Construction law, business law and risk management; the legal system and terminology, contracts, insurance, warranties, liens, environmental concerns, workplace issues, damages and dispute resolution. Admission to Certificate in Construction Management.

BSCI 7130 BUILDING CONSTRUCTION SUSTAINABILITY (3) DSL. Students must be admitted to the Executive Technical Certificate in Construction Management. The role of sustainable practices & processes in the construction industry. Role of built environment in consuming resources. Minimizing construction waste. Standards for sustainable construction.

BSCI 7140 STRUCTURAL SYSTEMS OF BUILDINGS (3) LEC. 3. Students must be admitted to the Executive Technical Certificate in Construction Management. Role of structural systems of buildings. Forces in buildings. Temporary structures in construction. Common failure models of structures.

BSCI 7150 HEAVY CIVIL CONSTRUCTION (3) LEC. 3. Students must be admitted to the Executive Integrated Processes Certificate in Construction Management. Principles of heavy civil construction including budget, planning, excavation, haul, equipment, temporary structures and types of projects involved.

BSCI 7200 ELECTIVES IN CONSTRUCTION LABOR (3) LEC. 3. Departmental approval. Special course offerings related to construction labor topics. Course may be repeated with change in topic.

BSCI 7300 ELECTIVES IN INFORMATION TECHNOLOGY AND INNOVATION (3) LEC. 3. Departmental approval. Special course offerings related to information technology, innovation, and robotics in construction. Course may be repeated with change in topic.

BSCI 7900 DIRECTED READING IN CONST (1-3) IND. Departmental approval. Individually proposed exploration of a construction industry related topic not covered in existing course offerings. Students must prepare a written proposal of the topic. Course may be repeated for a maximum of 3 credit hours.

BSCI 7950 GRADUATE SEMINAR (1) SEM. 1. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner's perspective, the financial parameters, and the speculative demand driving project viability. Course may be repeated for a maximum of 3 credit hours.

BSCI 7980 CAPSTONE PROJECT (3) LAB. 6. Departmental approval. Independent exploration of an approved topic with final written report of findings and an oral defense of the work. Specific capstone project requirements are established by the supervising committee and vary based on the chosen topic.

BSCI 8060 ADVANCED RESEARCH METHODS IN BUILDING SCIENCE-I (3) LEC. 3. Current areas and topics of research in building construction, study of academic research process, defining a research problem, develop effective search and analytical evaluation skills of published literature, analyze research products and write a comprehensive review of literature, and understand ethical principles and methods to successfully carry out research projects. The course is designed to provide a comprehensive introduction to the doctoral research process and methods used in building construction research.

BSCI 8070 ADVANCED RESEARCH METHODS IN BUILDING SCIENCE-II (3) LEC. 3. A study of the practical skills necessary to produce and disseminate doctoral level research in Building Construction. The course is designed to provide comprehensive knowledge about research design and selecting an appropriate methodology, qualitative, quantitative and mixed data collection and analysis methods appropriate for Building Construction research, research validation techniques, and technical writing strategies appropriate for a PhD dissertation.

BSCI 8950 DISSERTATION SEMINAR (1) LEC. 1. Professional and social integration into doctoral program; enhancement of professional knowledge through structured inquiry, professional dialogue, and reflective thinking; and preparation of students to develop pedagogical skills. Departmental Permission Required. Course may be repeated for a maximum of 6 credit hours.

BSCI 8990 RESEARCH AND DISSERTATION (1-10) LEC. 1-10. Individual doctoral dissertation research. May be repeated for credit. Course may be repeated with change in topics.

Building Science (BSCI)

Auburn's Bachelor of Science in Building Construction (BSCI) Program is a four-year ACCE accredited program focused on construction management including specialized training in estimating, scheduling, project management, safety, surveying, sustainable construction, and structures. The Building Construction Program is unique due to its leading-edge information technology applications emphasis. This combination provides graduates a comprehensive foundation for success. International study opportunities allow students to have exposure to global practices in construction science. Admission criteria can be found below the curriculum model.

Freshman

Fall	Hours	Spring	Hours
BSCI 1100 Introduction to Construction	**3**	**BSCI 2300 Construction Methods and Materials**	**3**
ENGL 1100 English Composition I	3	ENGL 1120 English Composition II	3
Fine Arts Core	3	History 2	3
History 1	3	PHYS 1500 General Physics I	4

Service Learning Elective[5]	3	UNIV 4AA0 Achieve the Creed	0
	16		**13**

Total Hours: 120

1 **Construction Elective:**
Students can choose from: BSCI 4360 BSCI 4410, BSCI 4420, BSCI 4710, BSCI 4860, BSCI 4870, BSCI 4880, BSCI 4890, BSCI 4960, BSCI 5430, BSCI 5450, BSCI 5460, BSCI 5470, BSCI 5810 BSCI 5830, BSCI 5840, BSCI 5960, BSCI 5970

2 MNGT 3100 Principles of Management may be substituted for MNGT 3810 Management Foundations.

3 BSCI 3300 Field Surveying is required for all students accepted to the Professional Program (Fall, Spring, and Summer). For students accepted for the Fall and Spring semesters, the course will be taken during the break between Spring and Summer semesters. For students accepted for the Summer semester, the course will be taken during the Summer Semesters. **All students** MUST take the course during the designated time.

4 Professional Fee Charged

5 **Service Learning Elective:**
Students can choose from: BSCI 4360 or BSCI 5810

Incoming Freshmen may apply for admission to Auburn University as a Pre-Building Science student. If accepted by the university admission office, they are eligible to enroll as Pre-Building Science students. Transfer students (external) may apply for admission to the Pre-Building Science program during the fall, spring or summer semesters; however, fall and spring semesters are encouraged. All university admissions decisions are made by the university admissions office. Transfer students (internal/on-campus) may enter the Pre-Building Science program during fall, spring, or summer semester and will be accepted on a space-available basis as determined by the school head.

To be considered for admission into the professional Building Science program (BSCI), the student must complete all Pre-Building Science coursework shown in the first two years of the BSCI curriculum model and must have successfully completed a minimum of 60 credit hours. Students must also complete an application for the professional program through the CADC Office of Student Services. Admission is based on rank order of performance based on a formula GPA calculation described in the Building Science Academic Standards and based upon a minimum 2.60 formula GPA. The school reserves the right to limit enrollment in the professional program (BSCI) based on calculated GPA and on available resources. It is possible to have less than the available number of positions filled if applicants do not meet the minimum required 2.60 formula GPA to be eligible for admission consideration.

For the fall and summer semesters, thirty students are chosen in rank order based upon the formula GPA calculation. Please see a CADC advisor for a full copy of the BSCI Academic Standards. For the spring semester, sixty students are chosen in rank order based upon the formula GPA calculation. No preference will be given to either first-time or repeat applicants.

After being admitted into the professional program, any student receiving a grade below a C in any 3000- or 4000-level BSCI course, or any student whose cumulative GPA falls below 2.50, will be reviewed by the School Academic Standards Committee for approval to continue in the program. Any student who is reviewed may be required to repeat a course or to withdraw from the program.

School of Architecture, Planning, and Landscape Architecture

The Bachelor of Architecture degree is awarded upon the completion of the five-year curriculum. Qualified students may elect to pursue a second Bachelor of Interior Architecture degree concurrently.

Most state registration boards in the U.S. require a National Architectural Accrediting Board (NAAB) accredited degree as a pre-requisite for licensure. The NAAB accredits three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a six, three or two-year term of accreditation, depending on its degree of conformance with established educational standards. Auburn's next accreditation visit for the architecture program is in 2024.

Auburn University School of Architecture, Planning, and Landscape Architecture offers a NAAB-accredited, 5 year Bachelor of Architecture (159 credits) program, a four-year Bachelor of Science in Environmental Design program (This is not a professionally accredited degree.), and a four-year Bachelor of Landscape Architecture started in 2021. The landscape architecture program will pursue accreditation and anticipates being eligible to receive it in 2025.

Auburn University is a member of the Association of Collegiate Schools of Architecture.

The Bachelor of Interior Architecture concurrent degree program offers a holistic approach to design that focuses on the relationship between interior and exterior space. Interior architecture students develop enhanced critical thinking abilities in relation to the construction of space, progressive materiality, sustainability, and representation. Auburn has integrated interior architecture and architecture in this unique program resulting in the granting of two degrees upon completion of the fifth year of study. It is not possible to get the undergraduate degree in interior architecture without the concurrent architecture professional degree. Architecture students must apply separately to the interior architecture program through a competitive application process in the spring of their 2nd year of professional architecture school. The graduate who receives a Bachelor of Interior Architecture degree and a Bachelor of Architecture degree is a person trained in interior architecture and architecture who is qualified to sit for an architectural license exam after completing the required experience hours and then sit for the NCIDQ Exam for interiors, based on a transcript review.

The Bachelor of Landscape Architecture degree program prepares students to plan, design, manage, and nurture built and natural environments. Graduates are prepared to enhance the environmental health in their communities by designing and planning parks, campuses, streetscapes, trails, plazas, and many other projects that support community wellbeing.

Special Opportunities for Qualified Architecture and Interior Architecture Students

During the third year of design studio students may participate in at least one of a variety of field studies opportunities aimed at enriching students' learning experience and preparing students for professional life. These opportunities include both an international studies program with a variety of options for study abroad as well as the possibility of participation in the Rural Studio—a program based in rural west Alabama where students engage local communities via hands-on service-learning projects to help meet needs of shelter and improved quality-of-life—or Urban Studies—a program based in Birmingham, Alabama, where students engage in problems unique to the urban surroundings. In addition to the optional third year opportunities, students have the opportunity during their fifth year of study to participate in the Rural Studio or the Urban Studio, a design center in downtown Birmingham where upper-level students and faculty engage in community-centered, service-learning activities. Participation in each of these programs is limited, and students are selected to participate based on a submitted application submitted in the spring of their 4th year.

Professional internships with practicing architects are recommended throughout the summers of the professional program.

Majors

- Architecture
  - Architecture (Foundation Unit) (p. 327)
  - Architecture (Summer Design) (p. 329)
- Architecture/Interior Architecture

- Architecture/Interior Architecture (Foundation Unit) (p. 333)
- Architecture/Interior Architecture (Summer Design) (p. 336)

- Environmental Design (p. 339)
- Environmental Design — Pre-Landscape Architecture (p. 341)
- Landscape Architecture (p. 343)

Minors

- Environmental Design (p. 341)
- History of Architecture and the Built Environment (p. 343)

Architecture Courses

ARCH 1000 CAREERS IN DESIGN AND CONSTRUCTION (1) LEC. 1, LST. 1. Introduction to the environmental design and construction professions and the curricula in the chosen field.

ARCH 1010 INTRODUCTION TO ARCHITECTURE DESIGN (6) LEC/STU. 12. Coreq. ARCH 1060. Principles of visual organization, research and design process skills, and the graphic communication of form and ideas.

ARCH 1020 INTRODUCTION TO ARCHITECTURE DESIGN II (6) LEC. 6, LST. 12. Pr. ARCH 1010 and ARCH 1000 and ARCH 1060. Coreq. ARCH 1420. Principles of visual organization, research and design process skills, and the graphic communication of form and ideas.

ARCH 1060 VISUAL COMMUNICATION (2) LEC/STU. 2. Coreq. ARCH 1010. Introduction to graphic communication. Focus on developing graphic skills for the purpose of explaining form and communicating ideas via exercises in drafting, sketching, and diagramming.

ARCH 1420 INTRODUCTION TO DIGITAL MEDIA (3) LEC. 3, LST. 0. Pr. ARCH 1060. Coreq. ARCH 1020. Introduction to the principles of 2-D and 3-D digital media and how these principles are utilized in architectural design.

ARCH 2010 STUDIO I (6) LEC. 2, LST. 10. Pr. ARCH 1020 and ARCH 1420. Basic issues of architectural design centered around the thoughtful creation of exterior and interior space. Studies of light, material, texture, proportion, scale, and site are integrated into each project.

ARCH 2020 STUDIO II (6) LEC. 2, LST. 10. Pr. ARCH 2010. Fundamental design process skills including observation, analysis, and synthesis.

ARCH 2110 HISTORY OF WORLD ARCHITECTURE I (3) LEC. 3. Pr. ARCH 1020. Examination of the social determinants that shape the public beliefs and practices that produce buildings.

ARCH 2210 ENVIRONMENTAL CONTROLS I (3) LEC. 3. Pr. ARCH 1020. This course provides the basic knowledge and skills requisite an architect in the design of environmentally responsive buildings.

ARCH 2220 ENVIRONMENTAL CONTROLS II (3) LEC. 3. Pr. ARCH 1020. This course provides the basic knowledge and skills requisite an architect in the design of environmentally responsive buildings.

ARCH 2600 THE ART OF ARCHITECTURE, PLACE, AND CULTURE (3) LEC. 3. The interrelationship of art, architecture, place, and culture with emphasis on the art of architecture from a global multicultural perspective. Illustrated lecture, readings, and essays.

ARCH 3010 STUDIO III (6) LEC. 2, LST. 10. Pr. ARCH 2020 and ARCH 3110. Builds on ARCH 2010 and 2020. The process of making architecture through critical inquiry and investigation. The physical, social, ethical contexts that inform the design of every building.

ARCH 3020 STUDIO IV (6) LEC. 2, AAB/LST. 10. Pr. ARCH 3010 or ARIA 3020. Builds on ARCH 3010 and adds an emphasis on the integration of construction tectonics in the development of architectural form.

ARCH 3110 HISTORY OF WORLD ARCHITECTURE II (3) LEC. 3. Pr. ARCH 2110 or ARCH 2117. Introduction to key European buildings and towns from the Bronze Age to the Enlightenment. Examines how societal beliefs and practices influence the making of architecture.

ARCH 3120 HISTORY OF MODERN ARCHITECTURE (3) LEC. 3. Pr. ARCH 3110. The history of architecture, 1850-present, with an emphasis on the rise of the modern movement in Europe and the U.S.

ARCH 3320 MATERIALS AND METHODS OF CONSTRUCTION I (3) LEC. 3. Pr. ARCH 1020. The properties and potential design function of materials used in contemporary construction, with an emphasis on foundation systems, wood, and masonry.

ARCH 3410 DESSEIN ELECTIVES (3) LEC. 3. Explorations in the art of representation. Complete descriptions of specific courses and their prerequisites are available from the School of Architecture, Planning and Landscape Architecture Course may be repeated for a maximum of 9 credit hours.

ARCH 3500 SEMINAR IN METHODS AND PROCESSES (3) LEC. 3. The tools and techniques available to the design professional including specific design specializations, and design methodologies. Descriptions of specific seminars are available from the School of Architecture. Course may be repeated for a maximum of 9 credit hours.

ARCH 3600 SEMINAR IN CONTEMPORARY ISSUES (3) LEC. 3. Pr. ARCH 2020. Investigation of significant topics that present opportunities and constraints to architectural thought and practice. Course may be repeated for a maximum of 9 credit hours.

ARCH 3700 SEMINAR IN HISTORY AND THEORY (3) LEC. 3. Pr. ARCH 2010. Investigation of theories, schools or periods to examine the potential and limitations of architecture. Descriptions of specific seminars available from School of Architecture. Course may be repeated for a maximum of 9 credit hours.

ARCH 3800 SEMINAR IN ASPECTS OF DESIGN (3) LEC. 3. Pr. ARCH 2020. Study of aspects of architectural design, such as form, space, style, meaning, perception, culture. Descriptions of specific seminars available from the School of Architecture. Course may be repeated for a maximum of 9 credit hours.

ARCH 4010 STUDIO V (6) LEC. 2, LST. 10. Pr. (ARCH 3010 or ARIA 3020) and BSCI 3440. The comprehensive design of buildings, building complexes, and spaces in an urban context. Lectures emphasize urban issues, research methods. Programming and analysis will parallel studio projects of increasing complexity.

ARCH 4020 STUDIO VI (6) LEC. 2, AAB/LST. 10. Pr. ARCH 4010 or ARIA 4020. The design of buildings, building complexes, and spaces with emphasis on the integration of building systems and tectonic development.

ARCH 4110 HISTORY OF URBAN ARCHITECTURE (3) LEC. 3. Pr. ARCH 2110 or ARCH 2117 and ARCH 3110. The course surveys the history of the physical and formal manifestations of the urban environment from its inception to our days.

ARCH 4320 MATERIALS AND METHODS OF CONSTRUCTION II (3) LEC. 3. Pr. ARCH 3320. Properties and potential design applications of materials used in contemporary construction, with an emphasis on steel and concrete, roofing, glass and glazing, cladding, and interior finishes.

ARCH 4500 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. ARCH 3020 or ARIA 3020. Architects' legal responsibilities, frameworks of professional practice, office organization, business planning, marketing, project delivery, internship and professional ethics and leadership.

ARCH 4900 DIRECTED STUDIES (1-6) AAB. Development of an area of special interest through independent study. Evaluation of the work may be by faculty jury. School approval. Course may be repeated for a maximum of 6 credit hours.

ARCH 4910 RURAL STUDIO COMPLETION (0) DSL/LEC. Completion of construction project for ARCH 4120 Elective Studio. This studio is based in the School's remote facilities in Newbern, AL.

ARCH 4920 PROFESSIONAL INTERNSHIP (1-3) INT. Departmental approval. Application of principles and theories in a professional setting. Course may be repeated for a maximum of 9 credit hours.

ARCH 4960 SPECIAL PROBLEMS (1-6) LEC. Special problems Course may be repeated for a maximum of 6 credit hours.

ARCH 5010 STUDIO VII (6) LEC. 2, AAB/LST. 10. Pr. ARCH 4020 or ARIA 4020. Advanced problem-solving in the synthesis of previous design experiences. Development of a comprehensive design project.

ARCH 5020 THESIS STUDIO (6) LEC. 6, AAB/LST. 13. Pr. ARCH 5010 and ARCH 5990. Exploration and development of an architectural project under the direction of a faculty member.

ARCH 5100 TEACHING METHODS (1) LEC. 1.

ARCH 5240 BEING THERE (1) LEC. 1. Course may be repeated for a maximum of 2 credit hours.

ARCH 5340 METHODS IN COMMUNITY BASED LEARNING (3) LEC. 3.

ARCH 5990 THESIS RESEARCH (3) LEC. 3. Pr. ARCH 4020. Coreq. ARCH 5010. The tools, techniques, and strategies required to select, develop, refine, write, and present a thesis argument.

ARCH 5991 THESIS RESEARCH (1) LEC. 1. Pr. ARCH 5990. Expansion on the individual thesis argument and research begun in ARCH 5990 in parallel with the development of their thesis design project in ARCH 5020.

ARCH 7010 FALL STUDIO (6) STU. 12. This is one of three design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a schematic, client-driven architectural proposal.

ARCH 7020 SPRING STUDIO (6) STU. 12. This is one of three design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a client-driven architectural proposal.

ARCH 7030 SUMMER STUDIO (6) STU. 12. This is one of three design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a client-driven architectural proposal.

ARCH 7110 SEMINAR IN COLLABORATIVE DESIGN METHODS AND PROCESS (3) SEM. 3. Introduction to the core theories of collaboration within interdisciplinary design and construction project teams teams and community-based client groups. Students develop an understanding of the fundamentals of collaborative process design, principles negotiation, communication across disciplines, and conflict resolution.

ARCH 7120 SEMINAR IN DESIGN TECTONICS (3) SEM. 3. Taught as a series of workshops, this course provides the disciplinary framework necessary to apply technical research methods when evaluating options and reconciling the implications of design development decisions across systems and scales.

ARCH 7130 SEMINAR IN PROJECT COMMUNICATIONS (3) SEM. 3. This course provides the disciplinary framework necessary to develop all project documentation required for project construction, delivery, record keeping, as well as future research and analysis.

ARCH 7210 EXECUTIVE ISSUES: DISCIPLINARY FRAMEWORK (3) SEM. 3. Taught as a series “overlay” lectures and workshops. Provides the disciplinary framework to apply case study research methods when evaluating options and reconciling the implications of schematic design decisions across systems/scales.

ARCH 7220 EXECUTIVE ISSUES: RESEARCH METHODS (3) SEM. 3. Taught as a series "overlay" lectures and workshops. Provides the disciplinary framework necessary to apply case study research methods when evaluating options and reconciling the implications of design development decisions across systems/scales.

Interior Architecture Courses

ARIA 2150 ELEMENTS OF INTERIOR ARCH I (3) LEC. 3. The theory of design principles, aesthetics and concepts. Graphic drawings and models of interior spaces explored. Projects outside of class.

ARIA 2160 ELEMENTS OF INTERIOR ARCHITECTURE II (3) LEC. 3. The theory of design principles, aesthetics and concepts. Graphic drawings and models of interior spaces explored. Projects outside of class.

ARIA 3020 STUDIO 4A INTERIOR ARCHITECTURE (6) LEC. 2, LST. 10. Pr. ARCH 2020. Parallels Architecture Studio 4, but with an emphasis on interior architecture with exploration of detail and accommodation.

ARIA 4020 STUDIO 6A INTERIOR ARCHITECTURE (6) LEC. 2, LST. 10. Pr. ARCH 3020 and ARCH 3320 and (ARCH 2110 or ARCH 2117) and BSCI 3440. Parallels Architecture Studio 6, with emphasis on the development of interior architecture and spaces within an urban context. Consideration will be given to adaptive reuse.

ARIA 4030 INTERIOR ARCHITECTURE THESIS (6) LEC. 3, LST. 10. Pr. ARIA 4020. Coreq. ARIA 4080. Interior design project of the student's choice, under the direction of a faculty member.

ARIA 4080 INTERIOR ARCHITECTURE THESIS RESEARCH (2) LEC. 2. Pr. ARIA 4020. Research and writing of thesis documents, to include programming, site, and case studies.

ARIA 4450 INTERIOR ARCHITECTURE PROFESSIONAL PRACTICE (2) LEC. 2. Pr. ARIA 4020. Prepares student to enter professional office with an understanding of the skills, concepts and technical knowledge expected.

ARIA 4680 HISTORY AND THEORY OF INTERIOR ARCHITECTURE (3) LEC. 3. Pr. ARIA 4020. The theory and history of interior spaces, their social, material, and aesthetic development and their artifacts.

Environmental Design Courses

ENVD 2000 ENVIRONMENTAL DESIGN CONCEPTS AND PRACTICES I (3) LEC. 3. Core knowledge of design and construction disciplines and business practices related to human-designed environments. Includes national and global perspectives and focus on interdisciplinary studies.

ENVD 2007 HONORS ENVIRONMENTAL DESIGN CONCEPTS AND PRACTICES I (3) LEC. 3. Core knowledge of design and construction disciplines and business practices related to human-designed environments. Includes national and global perspectives and focus on interdisciplinary studies.

ENVD 2010 INTRODUCTION TO DESIGN AND DESIGN METHODS (3) LEC. 3. Introduces students to the importance of design and basic design methods.

ENVD 2040 DESIGN, INVENTION AND SOCIETY (3) LEC. 3. Role of design and invention in society from the ancient to the contemporary world.

ENVD 2047 HONORS DESIGN, INVENTION, AND SOCIETY (3) LEC. 3. Role of design and invention in society from the ancient to the contemporary world.

ENVD 2100 ENVIRONMENTAL DESIGN WORKSHOP I (6) LAB. 6. Pr. ENVD 2000. Departmental approval. Focus on general technical skill set for environmental design foundations. Digital media introduction, structure and fabrication techniques, design communication development.

ENVD 2200 READINGS IN LANDSCAPE ARCHITECTURE (3) SEM. 3. Investigates the idea of landscape through a range of texts, images, and built works that have helped form, and continue to shape, our understanding of the landscape. First year of B.ENVD.

ENVD 3000 ENVIRONMENTAL DESIGN CONCEPTS AND PRACTICES II (3) LEC. 3. Pr. ENVD 2100. Departmental approval. Advanced knowledge of design, construction and planning disciplines and practice. National/global environmental design issues, focus on interdisciplinary concepts, hybrid practices, & sustainability.

ENVD 3100 CIVIC ENGAGEMENT AND RESEARCH METHODS (3) LEC. 3. Pr. ENVD 3000. Departmental approval. Civic engagement and research methods for environmental design. This is a research prep course to develop research methods, projects, and community partnerships for summer ENVD 4100 workshop capstone.

ENVD 3200 SYSTEMS IN BUILT ENVIRONMENT I (3) SEM. 2.5. Pr. ENVD 2100. Focus on research of different systems in built environments, and different research methods that can be used in design in order to understand and represent them.

ENVD 3300 SYSTEMS IN BUILT ENVIRONMENT II (3) SEM. 2.5. Pr. ENVD 2100. Focuses on application of research from design and construction disciplines in built environment through testing and prototyping, thus exploring potential for application in a larger context.

ENVD 4000 ELEMENTS OF URBAN DESIGN (3) LEC. 3. Pr. ENVD 2100 or ARCH 2010 or LAND 2110. ENVD 4000 provides environmental design students with an introduction to urban design theories, methods and processes through combination of lectures and on-site instruction.

ENVD 4010 ELEMENTS OF DESIGN THINKING AND COMMUNICATION (3) LEC. 3. This is a 3-credit hour class that builds design communication skills through a series of projects that utilize both hand-rendering and digital media.

ENVD 4017 HONORS ELEMENTS OF DESIGN THINKING AND COMMUNICATION (3) LEC. 3. This is a 3-credit hour class that builds design communication skills through a series of projects that utilize both hand-rendering and digital media.

ENVD 4100 ENVIRONMENTAL DESIGN WORKSHOP II - CAPSTONE (6) LEC. 6. Pr. ENVD 3100. Environmental design knowledge & technical skill set using principles of collaboration, leadership & effectiveness training, hands-on experience, civic engagement & design communication skills.

ENVD 4500 PROFESSIONAL PRACTICE (3) SEM. 3. Pr. ENVD 3000. Enable students to learn elements of professional communication; create persuasive portfolio of their work; and to seek, and prepare for, internship and job opportunities.

ENVD 4900 DIRECTED STUDIES (3) IND. 3. Pr. ENVD 2100. Highly focused study (design research, design research application) in an area of interest to student that is approved by, and supervised by, a faculty member with such expertise. Must be in Junior or Senior status. Course may be repeated for a maximum of 6 credit hours.

ENVD 4920 INTERNSHIP IN ENVIRONMENTAL DESIGN (1) INT. 1. SU. Faculty Approval. Internship in the areas of environmental design, as approved by faculty supervisor.

ENVD 4970 SPECIAL TOPICS IN ENVIRONMENTAL DESIGN (3) LEC. 3. Topics include: digital production, portfolio making and design thinking. Course may be repeated for a maximum of 9 credit hours.

ENVD 4977 HONORS SPECIAL TOPICS IN ENVIRONMENTAL DESIGN (3) LEC. 3. Topics include: digital production, portfolio making and design thinking. Course may be repeated for a maximum of 9 credit hours.

ENVD 5030 STUDIES IN DESIGN THINKING AND ENTREPRENEURSHIP (3) SEM. 3. Study and application of design and innovation thinking in entrepreneurship, with a special emphasis on social entrepreneurship. May count either ENVD 5030 or ENVD 6030.

ENVD 5037 HONORS STUDIES IN DESIGN THINKING AND ENTREPRENEURSHIP (3) LEC. 3. Study and application of design and innovation thinking in entrepreneurship, with a special emphasis on social entrepreneurship. May count either ENVD 5030 or ENVD 6030.

Landscape Architecture Courses

LAND 1110 STUDIO I (4) LEC. 3. LAB. 1. Foundation course introduces studio culture, principles and processes of visual design, and the tools and techniques of landscape architectural design.

LAND 1160 GRAPHIC STUDIES I (2) LEC. 1. LAB. 1. Coreq. LAND 1110. Focuses on basic tools and techniques for interpreting and representing landscapes: photography, field sketching, technical drawing, and mixed-media montage.

LAND 1210 STUDIO II (4) LEC. 3. LAB. 1. Pr. LAND 1110. Foundation course builds fundamental design process skills by exploring terrain and ecology through design exercises on small sites.

LAND 1260 GRAPHIC STUDIES II (2) LEC. 1. LAB. 1. Pr. LAND 1160. Introduces integrated analog-digital workflows. Focus on digital methods and tools: photomontage, diagramming, and presentation assembly; digital modeling, analysis, and rendering.

LAND 2110 PLANTS AND CONSTRUCTION WORKSHOP I (5) LEC. 4. LAB. 1. Pr. LAND 1210. Uses a field- and project- based approach to engage the medium of landscape architecture (plants, land, soils, and materials).

LAND 2120 FIELDWORK I (1) FLD. 1. Pr. LAND 1210. Coreq. LAND 2110. Advances program focus on landscape experience. Introduces techniques and tools for site reconnaissance: direct measurement, observation, evaluation, and synthesis.

LAND 2140 HISTORY, THEORY, AND PRACTICE I (3) LEC. 3. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 2210 PLANTS AND CONSTRUCTION WORKSHOP II (5) LEC. 4. LAB. 1. Pr. LAND 2110. Focuses on landscape expression, experience, and cycles, including plant ephemerality, material assemblies, maintenance, performance, and choreography of landscape experience.

LAND 2220 FIELDWORK II (1) FLD. 1. Coreq. LAND 2210. Considers phenological and environmental cycles, expression of plants, materials, and atmospheres to strengthen relationships between design intention and physical expression.

LAND 2240 HISTORY, THEORY, AND PRACTICE II (3) LEC. 3. Pr. LAND 2140. Survey of the history of and theory for landscape architectural practice as it relates to contemporary American culture.

LAND 3110 STUDIO III (5) LEC. 4. LAB. 1. Pr. LAND 2210. Advanced studio introduces design research processes to investigate eco-cultural relationships between regional and urban scales with emphasis on landscape networks.

LAND 3120 FIELDWORK III (1) FLD. 1. Pr. LAND 2220. Coreq. LAND 3110. Expand techniques and tools for site reconnaissance: multiple site visits to develop skills, deepen inventories, and contextualize design projects.

LAND 3160 DYNAMIC SYSTEMS I (3) LEC. 3. Pr. LAND 2240. Establishes ecological theories as a framework for analysis of urban conditions and as a tool for decision-making and design.

LAND 3210 STUDIO IV (5) LEC. 4. LAB. 1. Pr. LAND 3110. Junior studio focused on processes to support design at multiple scales for resilient landscapes that integrate aesthetics, program, and performance.

LAND 3220 FIELDWORK IV (1) FLD. 1. Pr. LAND 3120. Coreq. LAND 3210. Expand techniques and tools for mapping large scale landscape systems. Develop documentation skills using aerial photogrammetry and advanced site visualization.

LAND 4110 STUDIO V (5) LEC. 4, LST. 1. Pr. LAND 3210. Comprehensive studio synthesizes skills toward landscape activism and engagement in cultural contexts of urban, ex-urban, or rural sites and systems.

LAND 4120 FIELDWORK V (1) FLD. 1. Pr. LAND 3220. Coreq. LAND 4110. Apply comprehensive site reconnaissance skills to gather landscape intelligence. Engage community representatives to contextualize studio work.

LAND 4210 STUDIO VI (5) LEC. 4, LST. 1. Pr. LAND 4110. Comprehensive studio helps students develop sophisticated design research. Students create new work and critically evaluate its theoretical context.

LAND 4220 FIELDWORK VI (1) FLD. 1. Coreq. LAND 4210. Use broad skills, techniques, and thinking about site reconnaissance to frame design projects. Gather and synthesize comprehensive landscape intelligence.

LAND 4240 PROFESSIONAL PRACTICE (3) SEM. 3. Surveys development and ethics of the landscape architecture profession, businesses, and practices, to help students plot their futures.

LAND 4410 SEMINAR ON LANDSCAPE MATTER (3) SEM. Departmental approval. Seminar which explores material considerations in landscape, such as material selection and performance, material assemblies, landform and grading, or designing with plants and ecological communities, as they relate to the discipline of landscape architecture and are not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4420 SEMINAR ON LANDSCAPE ADVOCACY (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of landscape advocacy, such as public interest design, community outreach, and public engagement, as they relate to the discipline of landscape architecture and are not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4430 SEMINAR ON LANDSCAPE THOUGHT (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of landscape history, landscape theory, critique, or associated discourse as it relates to the discipline of Landscape Architecture and is not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4440 SEMINAR ON LANDSCAPE REPRESENTATION (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of Landscape Representation, Graphic Communication, and/or Drawing as it relates to the discipline of Landscape Architecture and is not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4450 SEMINAR ON LANDSCAPE RESEARCH (3) SEM. Departmental approval. Seminar which explores a focused, advanced component of Landscape Research as it relates to the discipline of Landscape Architecture and is not covered in the current curriculum. Course may be repeated for a maximum of 9 credit hours.

LAND 4900 DIRECTED STUDIES (1-3) IND. Departmental approval. Opportunity for students to work with a specific faculty on a special topic in an area of interest. Course may be repeated for a maximum of 9 credit hours.

LAND 4920 PROFESSIONAL INTERNSHIP (1-3) INT. SU. Departmental approval. Opportunity for students to develop expertise in professional practice under the guidance of professionals. This includes but is not limited to site design, construction documentation, client/community presentations, and project management. Course may be repeated for a maximum of 3 credit hours.

LAND 4970 SPECIAL TOPICS IN LANDSCAPE ARCHITECTURE (3) LEC/SEM. Departmental approval. Study of a topic of special interest in landscape architecture beyond current program course offerings. Course may be repeated for a maximum of 9 credit hours.

LAND 5030 LANDSCAPE DESIGN METHODS (3) LEC. 9. Introduces students to skills, techniques, and ways of thinking fundamental to landscape architectural design, preparing students for future studio courses by emphasizing making, precision, experimentation, iteration, and judgment.

LAND 5040 LANDSCAPE ISSUES & PRACTICES (3) LEC. 9. Introduces students to both a selection of key issues relevant to contemporary landscape architecture and practices employed by landscape architects engaging in those issues.

LAND 5130 STUDIO I: FOUNDATION STUDIO (5) STU. 5. Teaches foundational skills (drawing, modeling, and multiple representational skills) that are necessary to progress into future design studios.

LAND 5131 FIELDWORK I (1) FLD. 1. Field studies and travel related to studio. May count either LAND 5131 or LAND 6131.

LAND 5140 HISTORY, THEORY, AND PRACTICE I: LANDSCAPE ARCHITECTURE AND CONTEMPORARY URBANISM (3) SEM. 3. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 5147 HONORS HISTORY, THEORY, AND PRACTICE I: LANDSCAPE ARCHITECTURE AND CONTEMPORARY URBANISM (3) SEM. 3. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 5150 CONSTRUCTION I: LANDFORM & HYDROLOGY (3) LEC. 3. Departmental approval. Fundamental skills needed to analyze, understand, and manipulate landform with respect to form, grading, drainage, and stormwater management.

LAND 5160 GRAPHIC STUDIES I (2-3) LEC. Focus on basic tools and techniques for interpreting and representing landscapes: photography, field sketching, technical drawing, and mixed-media montage. Introduction to vector and raster-based software and integrated analog-digital workflows. Course may be repeated for a maximum of 3 credit hours.

LAND 5230 STUDIO II (5) STU. 5. Iterative design processes that project and test design scenarios, refining propositions based on multiple performance criteria in relation to site specificity and community context. Departmental approval. May count either LAND 5230 or 6230.

LAND 5231 FIELDWORK II (1) FLD. 1. Field studies and travel related to studio. Departmental approval. May count either LAND 5231 or LAND 6231.

LAND 5240 HISTORY, THEORY, AND PRACTICE II: LANDSCAPE ARCHITECTURE AND CONTEMPORARY CULTURE (3) LEC. 3. Survey of the history of and theory for landscape architectural practice as it relates to contemporary American culture.

LAND 5250 CONSTRUCTION II: MATERIALS & DETAILING (3) LEC. 3. Departmental approval. Fundamentals of design detailing of site assemblies, with emphasis on material research and construction methods.

LAND 5260 GRAPHIC STUDIES III (3) SEM. 3. Pr. LAND 5150. Departmental approval. Fundamental concepts of Geographic Information Systems are used to create visual frameworks for gathering, interpreting, and sharing spatial data in landscape architecture practice.

LAND 5270 PLANT SPATIALITY (2) LEC. 2. Studies of innovative design with plants, exploring issues plant association, strata, and spatiality. Departmental approval. May count either LAND 5270 or 6270.

LAND 5290 GRAPHIC STUDIES II (3) LEC. 3. Focus on advanced digital methods and tools: mapping with GIS software; modeling, analysis, and rendering with Rhino and associated plugins; and photomontage, diagramming, and presentation assembly with Adobe software.

LAND 5330 STUDIO III (5) LEC. 5. Pr. (LAND 5230 or LAND 6230) or (P/C LAND 5331 or P/C LAND 6331). Departmental approval. Investigates eco-cultural relationships between regional, metropolitan and urban scales with emphasis on physical and social flows.

LAND 5331 FIELDWORK III (1) FLD. 1. SU. Pr. (LAND 6230 or LAND 5230) or (P/C LAND 5330 or P/C LAND 6330). Departmental approval. Field studies and travel related to studio.

LAND 5340 HISTORY, THEORY, AND PRACTICE III: PRE-MODERN LANDSCAPES (3) LEC. 3. Pr. LAND 5240. Departmental approval. Global history of landscape-making, particularly in relationship to urbanization and culture, from prehistory to the inception of modern landscape architecture.

LAND 5350 CONSTRUCTION III: HYDROLOGIES (2) LEC. 1. LAB. 2. Pr. LAND 5230. Departmental approval. This course emphasizes stormwater research, planning and design. Students learn technical skills and design techniques needed to construct projects with environmental integrity and aesthetic appeal.

LAND 5360 DYNAMIC SYSTEMS I: URBAN ECOLOGIES (3) LEC. 3. Pr. LAND 5230. Departmental approval. This course provides an overview of natural ecological systems and how they can be preserved or restored to enhance human and ecological health through sustainable design.

LAND 5367 HONORS DYNAMIC SYSTEMS I: URBAN ECOLOGIES (3) LEC. 3. Pr. LAND 5230. Departmental approval. This course provides an overview of natural ecological systems and how they can be preserved or restored to enhance human and ecological health through sustainable design.

LAND 5370 PLANT EPHEMERALITY (2) LEC. 2. Pr. LAND 5230. Departmental approval. Studies of innovative design with plants, exploring issues of plant phenology and dynamic lifecycle conditions.

LAND 5380 PLANTS I (2-3) LEC. Departmental approval. Introduces strategies for innovative design with plants, exploring issues of plant association, starts, form, and function. Course may be repeated for a maximum of 3 credit hours.

LAND 5410 SEMINAR ON REAL ESTATE DEVELOPMENT (3) SEM. 3. Opportunity for students to further develop expertise through supervised, independent course study related to real estate development or pursue an area of interest that may not be covered in the current curriculum.

LAND 5940 FIELDWORK ABROAD (3-6) AAB. Landscape architectural fieldwork conducted in locations outside the United States. Course may be repeated for a maximum of 9 credit hours.

LAND 6030 LANDSCAPE DESIGN METHODS (3) LEC. 3. Introduces students to skills, techniques, and ways of thinking fundamental to landscape architectural design, preparing students for future studio courses by emphasizing making, precision, experimentation, iteration, and judgment.

LAND 6040 LANDSCAPE ISSUES & PRACTICES (3) LEC. 3. Introduces students to both a selection of key issues relevant to contemporary landscape architecture and practices employed by landscape architects engaging in those issues.

LAND 6130 STUDIO I: FOUNDATION STUDIO (5) AAB/STU. 5. Teaches foundational skills (drawing, modeling, and multiple representational skills) that are necessary to progress into future design studios.

LAND 6131 FIELDWORK I (1) AAB/FLD. 1. Departmental approval. Field studies and travel related to studio.

LAND 6140 HISTORY, THEORY, AND PRACTICE I: LANDSCAPE ARCHITECTURE AND CONTEMPORARY URBANISM (3) AAB/SEM. 3. Pr. LAND 5230 or LAND 6230. The historical development of American urban landscapes, theoretical concepts for understanding them, and survey of related landscape architectural practice.

LAND 6150 CONSTRUCTION I: LANDFORM & HYDROLOGY (3) LEC. 3. Departmental approval. Fundamental skills needed to analyze, understand, and manipulate landform with respect to form, grading, drainage, and stormwater management.

LAND 6160 GRAPHIC STUDIES I (2-3) AAB/LEC. Focus on basic tools and techniques for interpreting and representing landscapes: photography, field sketching, technical drawing, and mixed-media montage. Introduction to vector and raster-based software and integrated analog-digital workflows. Course may be repeated for a maximum of 3 credit hours.

LAND 6170 GRAPHIC STUDIES II (3) LEC. 3. Departmental approval. Graphic and communication theories and skills in a variety of media. Photoshop, Illustrator, Indesign and AutoCAD.

LAND 6230 STUDIO II (5) STU. 5. Iterative design processes that project and test design scenarios, refining propositions based on multiple performance criteria in relation to site specificity and community context. Departmental approval. May either LAND 5230 or 6230.

LAND 6231 FIELDWORK II (1) FLD. 1. Departmental approval. Field studies and travel related to studio.

LAND 6240 HISTORY, THEORY, AND PRACTICE II: LANDSCAPE ARCHITECTURE AND CONTEMPORARY CULTURE (3) LEC. 3. Survey of the history of and theory for landscape architectural practice as it relates to contemporary American culture.

LAND 6250 CONSTRUCTION II: MATERIALS & DETAILING (3) LEC. 3. Departmental approval. Fundamentals of design detailing of site assemblies, with emphasis on material research and construction methods.

LAND 6270 PLANT SPATIALITY (2) LEC. 2. Studies of innovative design with plants, exploring issues plant association, strata, and spatiality. Departmental approval. May count either LAND 5270 or 6270.

LAND 6290 GRAPHIC STUDIES II (3) LEC. 3. Focus on advanced digital methods and tools: mapping with GIS software; modeling, analysis, and rendering with Rhino and associated plugins; and photomontage, diagramming, and presentation assembly with Adobe software.

LAND 6330 STUDIO III (5) LEC. 5. Pr. LAND 5230 or LAND 6230. Departmental approval. Coreq. LAND 5331 and LAND 6331. Investigates eco-cultural relationships between regional, metropolitan and urban scales with emphasis on physical and social flows.

LAND 6331 FIELD STUDIES III (1) FLD. 1. Pr. LAND 5230 or LAND 6230. Departmental approval. Coreq. LAND 5330 and LAND 6330. Field studies and travel related to studio.

LAND 6340 HISTORY, THEORY, AND PRACTICE III: PRE-MODERN LANDSCAPES (3) LEC. 3. Pr. LAND 6240. Global history of landscape-making, particularly in relationship to urbanization and culture, from prehistory to the inception of modern landscape architecture. Departmental approval

LAND 6350 CONSTRUCTION III: HYDROLOGIES (2) LEC. 1. LAB. 2. Pr. LAND 5230 or LAND 6230. Departmental approval. This course emphasizes stormwater research, planning and design. Students learn technical skills and design techniques needed to construct projects with environmental integrity and aesthetic appeal.

LAND 6360 DYNAMIC SYSTEMS I: URBAN ECOLOGIES (3) LEC. 3. Pr. LAND 5230 or LAND 6230. Departmental approval. This course provides an overview of natural ecological systems and how they can be preserved or restored to enhance human and ecological health through sustainable design.

LAND 6370 PLANT EPHEMERALITY (2) LEC. 2. Pr. LAND 5230 or LAND 6230. Departmental approval. Studies of innovative design with plants, exploring issues of plant phenology and dynamic lifecycle conditions.

LAND 6380 PLANTS I (2-3) LEC. Departmental approval. Introduces strategies for innovative design with plants, exploring issues of plant association, strata, form, and function. Course may be repeated for a maximum of 3 credit hours.

LAND 6410 SEMINAR ON REAL ESTATE DEVELOPMENT (3) SEM. 3. Opportunity for students to further develop expertise through supervised, independent course study related to real estate development or pursue an area of interest that may not be covered in the current curriculum.

LAND 6940 FIELDWORK ABROAD (3-6) AAB. Landscape architectural fieldwork conducted in locations outside the United States. Course may be repeated for a maximum of 9 credit hours.

LAND 7130 STUDIO IV (5) AAB/STU. 5. Departmental approval. Investigates design strategies and techniques for generating new resilient cultural and environmental practices within complex dynamic conditions.

LAND 7131 FIELDWORK IV (1) AAB/FLD. 1. Pr. P/C LAND 5230. Departmental approval. Coreq. LAND 7130. Field studies and travel related to studio.

LAND 7140 URBAN STUDIES II: GLOBAL URBANISM (3) LEC. 3. Departmental approval. Examines the major global drivers of urban change, contemporary theories of international urban design, geography and cultural theory.

LAND 7170 PLANTS II (2-3) AAB/LEC. Departmental approval. Introduces strategies for innovative design with plants, exploring issues of plant ephemerality, functionality, and phenology. Course may be repeated for a maximum of 3 credit hours.

LAND 7190 RESEARCH BY DESIGN: FRAMEWORKS, METHODS, AND STRATEGIES (3) SEM. 3. Design is not just about solving problems, but figuring out which questions to ask in the first place. This course guides students through the iterative process of situating, identifying, framing, and testing a student-chosen trend, topic, or question.

LAND 7230 STUDIO V: COMPREHENSIVE STUDIO (5) STU. 5. Pr. LAND 5230. The first part of a two-semester research studio which involves creating a new body of work within a theoretical context and then critically appraising this work and its theoretical framework.

LAND 7231 FIELDWORK V (1) FLD. 1. Coreq. LAND 7230. Course is directly linked to the Landscape Design Studio and offers students opportunity to travel to relevant locations to advance, contextualize, and frame the design studio. Emphasizes first-hand experiences of the landscape where careful observation and analysis occur; and introduces students to skills, techniques, and ways of thinking about site reconnaissance and gathering landscape intelligence.

LAND 7240 THEORIES AND PRACTICES (3) SEM. 3. Departmental approval. This is a reading, writing, and discussion seminar that examines the idea that the development of a democratic, civic, diverse social ecology can create more resilient and sustainable communities.

LAND 7250 CONTEMPORARY ISSUES IN LANDSCAPE ARCHITECTURE (2) LEC. 2. Pr. LAND 5230. Departmental approval. Investigation of landscape architectural issues and topics that can be undertaken by means of design, and the development of methodologies and techniques appropriate to such investigation.

LAND 7270 CONSTRUCTION III: REGENERATIVE TECHNOLOGIES (2-3) LEC. Introduces issues of land contamination and explores remediative and regenerative technologies as design strategies towards new productive futures. Course may be repeated for a maximum of 3 credit hours.

LAND 7280 DYNAMIC SYSTEMS II: REGIONAL ECOLOGIES (3) LEC. 3. This lecture/field laboratory course examines conditions of regional ecologies at multiple scales and explores possible public and private responses to these issues.

LAND 7290 GRAPHIC STUDIES III (3) SEM. 3. Fundamental concepts of Geographic Information Systems are used to create visual frameworks for gathering, interpreting, and sharing spatial data in landscape architecture practice.

LAND 7330 STUDIO VI: COMPREHENSIVE STUDIO (5) STU. 12. Pr. LAND 5230 or LAND 6230. A culmination of a design research project that ends in a public review and exhibition.

LAND 7331 FIELDWORK VI (1) FLD. 15. Coreq. LAND 7330. Directly linked to the Landscape Design Studio and offers students opportunity to travel to relevant locations to advance, contextualize, and frame the design studio. Gets students out of the classroom and emphasizes first-hand experiences of the landscape where careful observation and analysis occur. Introduces students to skills, techniques, and ways of thinking about site reconnaissance and gathering landscape intelligence.

LAND 7340 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. LAND 5230 or LAND 6230. Departmental approval. This course surveys the development and ethics of the profession of landscape architecture and presents an overview of the business and practice of the profession.

LAND 7410 SEMINAR ON HISTORY AND THEORY (3) LEC. 3. Departmental approval. Opportunity for students to further develop expertise expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum.

LAND 7420 SEMINAR ON COMMUNITY OUTREACH (3) SEM. 3. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum.

LAND 7430 SEMINAR ON HYDROLOGY (2-3) SEM. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum. Course may be repeated for a maximum of 3 credit hours.

LAND 7440 SEMINAR ON LANDSCAPE COMMUNICATION (3) SEM. 3. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum.

LAND 7450 SEMINAR ON LANDSCAPE RESEARCH (2-3) SEM. Pr. LAND 5230. Departmental approval. Opportunity for students to further develop expertise through supervised, independent course study or pursue an area of interest that may not be covered in the current curriculum. Course may be repeated for a maximum of 3 credit hours.

LAND 7470 LANDSCAPE ARCHITECTURE INTERNSHIP (3) PRA. 3. By approval of Chair of Landscape Architecture. A practical, professional, full-time, curriculum-related work experience in the industry of landscape architecture. Under joint supervision of employer and university. Course may be repeated for a maximum of 9 credit hours.

LAND 7900 DIRECTED STUDIES (1-3) AAB. An individual student can pursue an area of research beyond the required curriculum. Departmental approval; MLA II standing. Course may be repeated for a maximum of 9 credit hours.

LAND 7960 SPECIAL PROBLEMS IN LANDSCAPE ARCHITECTURE (2) LEC. 2. Departmental approval. Investigation of landscape architectural issues and topics that can be undertaken by means of design, and the development of methodologies and techniques appropriate to such investigation.

LAND 7970 SPECIAL TOPICS (1-6) AAB. Groups of student work with a specific faculty on a special topic in an area of interest. Course may be repeated for a maximum of 9 credit hours. ADDITIONAL PREREQUISITES: Departmental approval; MLA I standing.

LAND 7992 RESEARCH SUMMARY (1) LEC. 1.

Architecture (Foundation Unit) (ARCH)

The curriculum in Architecture was established at Auburn University in 1907, making Auburn one of the first universities in the nation, and the first in the South, to offer Architecture as a major. Since then, the Architecture Program has enjoyed a strong reputation for the abilities of our graduates and the quality of our faculty. It is consistently ranked among the best in the country.

Admission to the Architecture Program is limited. Admission criteria can be found below the curriculum model.

Freshman

Fall	Hours	Spring	Hours
ENGL 1100 English Composition I	3	ENGL 1120 English Composition II	3
MATH 1150 Pre-Calculus Algebra and Trigonometry ***or*** 1610 Calculus I	4	PHYS 1500 General Physics I	4

2 Professional Fee Charged

Process of enrolling as a Pre-Architecture Student

Incoming freshmen interested in pursuing the NAAB-accredited Bachelor of Architecture degree should apply for admission as Pre-Architecture (PARC) majors. If accepted by the university admissions office, students are eligible to enroll as Pre-Architecture students.

In order to matriculate from the Pre-Architecture Program (PARC) to the Professional Architecture Program (ARCH), students compete for seats through a placement pathway. There are two placement pathways an incoming freshmen student can participate in to compete for their spot in our Professional Architecture Program: the Summer Design Program or the Foundation Unit Program. Summer Design shifts the design studios to the summer between the freshman and sophomore years. The Foundation Unit begins the design studios in the first semester of freshmen year.

Enrollment in Foundation Unit or Summer Design curriculums is based on available resources as well as the student's preferred pathway as submitted per the timeline outlined below.

Approximately one week after the final round of regular decisions for freshman admissions are released by the university admissions office, all incoming freshmen accepted as Pre-Architecture majors will be mailed and emailed a letter detailing the two placement pathways: Summer Design and Foundation Unit. Included in this letter will be a link for students to submit their first and second preferences for placement pathways. Within the following 1-2 weeks, students will receive a response indicating their pathway placement. First preferences cannot be guaranteed, and placement is made on a first-come, first-served basis. Space is limited in Foundation Unit. Summer Design typically has space available for all eligible students. Students do not need to submit their enrollment deposit to provide preferences for either placement pathway.

Matriculation from Pre-Architecture to Professional Architecture Program

Enrollment in the second-year studios (as the start of the Professional Architecture Program/ARCH) is limited and eligibility for acceptance is based upon performance in courses in the first year of the curriculum as outlined below.

A student is eligible for Summer Design by completing ARCH 1000, MATH 1150 (or an equivalent course), and PHYS 1500 with passing grades and a total of 27 credit hours with a minimum 2.8 GPA prior to their Summer Design semester. Acceptance into the Professional Architecture Program (at the beginning of the second year of study) requires a grade of "SA" in ARCH 1010 and ARCH 1060 with a grade of C or better in ARCH 1020 and ARCH 1420. The Grade Adjustment Policy may not be used to progress to the Second Year Studio.

A student enrolled in the Foundation Unit must successfully pass ARCH 1000, ARCH 1010, and ARCH 1060 with a grade of “SA”. In addition, a Foundation Unit student must pass ARCH 1420 and ARCH 1020 with a C or higher while also completing MATH 1150 (or an equivalent course and PHYS 1500 with passing grades. Students that fail to successfully complete ARCH 1010 and ARCH 1060 in the fall semester, or students not accepted into the Second Year Studio sequence at the end of the spring semester, will not be readmitted to the Foundation Unit. These students may elect to participate in Summer Design as long as they meet the required eligibility requirements.

Transfer Students

Transfer students seeking admission into the Architecture Program must meet the transfer requirements set by Auburn University and should apply as a Pre-Architecture major. Summer Design is the pathway for transfer students to matriculate from the Pre-Architecture curriculum to the Professional Architecture curriculum. To be eligible for Summer Design, transfer students must meet the minimum criteria of eligibility for admission as previously defined. As Summer Design occurs over the summer term, students are advised to transfer to Auburn and be eligible to enroll in courses for the summer semester. To ensure eligibility and consideration for admission into Summer Design, it is recommended that students begin working with the College of Architecture, Design and Construction Student Services team in the August prior to (i.e. nine months before) attending the Summer Design Program.

Professional Program

In the event a grade of D or F is received in any required course in the major, a review is required for continuance in the program. Based on the outcome of this review, a student may be required to repeat the course or, in the case of design studios, the entire studio sequence for that respective year-level. Students receiving a second D when repeating a required course will be reviewed for continuance in the program. Similarly, a student receiving mostly grades of C or poorer may be reviewed for continuance in the program.

To proceed to the beginning sequence of design studio at third, fourth-, or fifth-year levels, the student must have completed all required prerequisite courses for that respective year-level, as indicated in the model curriculum.

Interior Architecture

Interior Architecture works across boundaries to integrate the design of objects, furniture, interiors, buildings and landscapes. The focus is understanding the built environment as a complex social landscape, particularly for the imaginative reuse of existing structures.

Students apply for admission to the Bachelor of Interior Architecture Program (ARIA) during their second year of the Professional Architecture Program. The school reserves the right to limit enrollment in Interior Design based on available resources.

Participation in the Interior Architecture (ARIA) Program is highly selective. Selection is based primarily on the ARIA faculty-comprised Admission Board’s assessment of submitted application. The application consists of a students’ statement of intent and three projects that demonstrate a high quality of design ability. Additionally, accepted students must:

- Have completed their appropriate studio coursework.
- Maintain a minimum 3.0 GPA for conditional acceptance into the ARIA concurrent degree program.
- Students must maintain a minimum 3.0 GPA in their ARIA studio coursework to proceed into the ARIA Summer Thesis Semester between Fourth and Fifth Year.

ARIA students will initially participate in two ARIA-designated Third- and Fourth-Year Studios. At the end of five years with one summer of study, the ARIA student receives both the Bachelor of Interior Architecture and Bachelor of Architecture. Students are pursuing both degrees concurrently. It is not possible to earn the Bachelor of Interior Architecture alone at Auburn University

If a 3.0 studio GPA is not maintained, a review by the ARIA Admissions Board will be required to determine a student’s eligibility to continue in the program.

Architecture (Summer Design) (ARCH)

The curriculum in Architecture was established at Auburn University in 1907, making Auburn one of the first universities in the nation, and the first in the South, to offer Architecture as a major. Since then, the Architecture Program has enjoyed a strong reputation for the abilities of our graduates and the quality of our faculty. It is consistently ranked among the best in the country.

Admission to the Architecture Program is limited. Admission criteria can be found below the curriculum model.

Process of enrolling as a Pre-Architecture Student

Incoming freshmen interested in pursuing the NAAB-accredited Bachelor of Architecture degree should apply for admission as Pre-Architecture (PARC) majors. If accepted by the university admissions office, students are eligible to enroll as Pre-Architecture students.

In order to matriculate from the Pre-Architecture Program (PARC) to the Professional Architecture Program (ARCH), students compete for seats through a placement pathway. There are two placement pathways an incoming freshmen student can participate in to compete for their spot in our Professional Architecture Program: the Summer Design Program or the Foundation Unit Program. Summer Design shifts the design studios to the summer between the freshman and sophomore years. The Foundation Unit begins the design studios in the first semester of freshmen year.

Enrollment in Foundation Unit or Summer Design curriculums is based on available resources as well as the student's preferred pathway as submitted per the timeline outlined below.

Approximately one week after the final round of regular decisions for freshman admissions are released by the university admissions office, all incoming freshmen accepted as Pre-Architecture majors will be mailed and emailed a letter detailing the two placement pathways: Summer Design and Foundation Unit. Included in this letter will be a link for students to submit their first and second preferences for placement pathways. Within the following 1-2 weeks, students will receive a response indicating their pathway placement. First preferences cannot be guaranteed, and placement is made on a first-come, first-served basis. Space is limited in Foundation Unit. Summer Design typically has space available for all eligible students. Students do not need to submit their enrollment deposit to provide preferences for either placement pathway.

Matriculation from Pre-Architecture to Professional Architecture Program

Enrollment in the second-year studios (as the start of the Professional Architecture Program/ARCH) is limited and eligibility for acceptance is based upon performance in courses in the first year of the curriculum as outlined below.

A student is eligible for Summer Design by completing ARCH 1000, MATH 1150 (or an equivalent course), and PHYS 1500 with passing grades and a total of 27 credit hours with a minimum 2.8 GPA prior to their Summer Design semester. Acceptance into the Professional Architecture Program (at the beginning of the second year of study) requires a grade of “SA” in ARCH 1010 and ARCH 1060 with a grade of C or better in ARCH 1020 and ARCH 1420. The Grade Adjustment Policy may not be used to progress to the Second Year Studio.

A student enrolled in the Foundation Unit must successfully pass ARCH 1000, ARCH 1010, and ARCH 1060 with a grade of “SA”. In addition, a Foundation Unit student must pass ARCH 1420 and ARCH 1020 with a C or higher while also completing MATH 1150 (or an equivalent course and PHYS 1500 with passing grades. Students that fail to successfully complete ARCH 1010 and ARCH 1060 in the fall semester, or students not accepted into the Second Year Studio sequence at the end of the spring semester, will not be readmitted to the Foundation Unit. These students may elect to participate in Summer Design as long as they meet the required eligibility requirements.

Transfer Students

Transfer students seeking admission into the Architecture Program must meet the transfer requirements set by Auburn University and should apply as a Pre-Architecture major. Summer Design is the pathway for transfer students to matriculate from the Pre-Architecture curriculum to the Professional Architecture curriculum. To be eligible for Summer Design, transfer students must meet the minimum criteria of eligibility for admission as previously defined. As Summer Design occurs over the summer term, students are advised to transfer to Auburn and be eligible to enroll in courses for the summer semester. To ensure eligibility and consideration for admission into Summer Design, it is recommended that students begin working with the College of Architecture, Design and Construction Student Services team in the August prior to (i.e. nine months before) attending the Summer Design Program.

Professional Program

In the event a grade of D or F is received in any required course in the major, a review is required for continuance in the program. Based on the outcome of this review, a student may be required to repeat the course or, in the case of design studios, the entire studio sequence for that respective year-level. Students receiving a second D when repeating a required course will be reviewed for continuance in the program. Similarly, a student receiving mostly grades of C or poorer may be reviewed for continuance in the program.

To proceed to the beginning sequence of design studio at third, fourth-, or fifth-year levels, the student must have completed all required prerequisite courses for that respective year-level, as indicated in the model curriculum.

Interior Architecture

Interior Architecture works across boundaries to integrate the design of objects, furniture, interiors, buildings and landscapes. The focus is understanding the built environment as a complex social landscape, particularly for the imaginative reuse of existing structures.

Students apply for admission to the Bachelor of Interior Architecture Program (ARIA) during their second year of the Professional Architecture Program. The school reserves the right to limit enrollment in Interior Design based on available resources.

Participation in the Interior Architecture (ARIA) Program is highly selective. Selection is based primarily on the ARIA faculty-comprised Admission Board’s assessment of submitted application. The application consists of a students’ statement of intent and three projects that demonstrate a high quality of design ability. Additionally, accepted students must:

- Have completed their appropriate studio coursework.
- Maintain a minimum 3.0 GPA for conditional acceptance into the ARIA concurrent degree program.

- Students must maintain a minimum 3.0 GPA in their ARIA studio coursework to proceed into the ARIA Summer Thesis Semester between Fourth and Fifth Year.

ARIA students will initially participate in two ARIA-designated Third- and Fourth-Year Studios. At the end of five years with one summer of study, the ARIA student receives both the Bachelor of Interior Architecture and Bachelor of Architecture. Students are pursuing both degrees concurrently. It is not possible to earn the Bachelor of Interior Architecture alone at Auburn University

If a 3.0 studio GPA is not maintained, a review by the ARIA Admissions Board will be required to determine a student's eligibility to continue in the program.

Architecture/Interior Architecture (Summer Design) (ARIA)

The curriculum in Architecture was established at Auburn University in 1907, making Auburn one of the first universities in the nation, and the first in the South, to offer Architecture as a major. Since then, the Architecture Program has enjoyed a strong reputation for the abilities of our graduates and the quality of our faculty. It is consistently ranked among the best in the country.

Admission to the Architecture Program is limited. Admission criteria can be found below the curriculum model.

Freshman

Fall	Hours	Spring	Hours	Summer	Hours
ENGL 1100 English Composition I	3	ENGL 1120 English Composition II	3	**ARCH 1020 Introduction to Architecture Design II**	**6**

3 Architecture students may not take ARCH 2600 as a fine art.

Process of enrolling as a Pre-Architecture Student

Incoming freshmen interested in pursuing the NAAB-accredited Bachelor of Architecture degree should apply for admission as Pre-Architecture (PARC) majors. If accepted by the university admissions office, students are eligible to enroll as Pre-Architecture students.

In order to matriculate from the Pre-Architecture Program (PARC) to the Professional Architecture Program (ARCH), students compete for seats through a placement pathway. There are two placement pathways an incoming freshmen student can participate in to compete for their spot in our Professional Architecture Program: the Summer Design Program or the Foundation Unit Program. Summer Design shifts the design studios to the summer between the freshman and sophomore years. The Foundation Unit begins the design studios in the first semester of freshmen year.

Enrollment in Foundation Unit or Summer Design curriculums is based on available resources as well as the student's preferred pathway as submitted per the timeline outlined below.

Approximately one week after the final round of regular decisions for freshman admissions are released by the university admissions office, all incoming freshmen accepted as Pre-Architecture majors will be mailed and emailed a letter detailing the two placement pathways: Summer Design and Foundation Unit. Included in this letter will be a link for students to submit their first and second preferences for placement pathways. Within the following 1-2 weeks, students will receive a response indicating their pathway placement. First preferences cannot be guaranteed, and placement is made on a first-come, first-served basis. Space is limited in Foundation Unit. Summer Design typically has space available for all eligible students. Students do not need to submit their enrollment deposit to provide preferences for either placement pathway.

Matriculation from Pre-Architecture to Professional Architecture Program

Enrollment in the second-year studios (as the start of the Professional Architecture Program/ARCH) is limited and eligibility for acceptance is based upon performance in courses in the first year of the curriculum as outlined below.

A student is eligible for Summer Design by completing ARCH 1000, MATH 1150 (or an equivalent course), and PHYS 1500 with passing grades and a total of 27 credit hours with a minimum 2.8 GPA prior to their Summer Design semester. Acceptance into the Professional Architecture Program (at the beginning of the second year of study) requires a grade of "SA" in ARCH 1010 and ARCH 1060 with a grade of C or better in ARCH 1020 and ARCH 1420. The Grade Adjustment Policy may not be used to progress to the Second Year Studio.

A student enrolled in the Foundation Unit must successfully pass ARCH 1000, ARCH 1010, and ARCH 1060 with a grade of "SA". In addition, a Foundation Unit student must pass ARCH 1420 and ARCH 1020 with a C or higher while also completing MATH 1150 (or an equivalent course and PHYS 1500 with passing grades. Students that fail to successfully complete ARCH 1010 and ARCH 1060 in the fall semester, or students not accepted into the Second Year Studio sequence at the end of the spring semester, will not be readmitted to the Foundation Unit. These students may elect to participate in Summer Design as long as they meet the required eligibility requirements.

Transfer Students

Transfer students seeking admission into the Architecture Program must meet the transfer requirements set by Auburn University and should apply as a Pre-Architecture major. Summer Design is the pathway for transfer students to matriculate from the Pre-Architecture curriculum to the Professional Architecture curriculum. To be eligible for Summer Design, transfer students must meet the minimum criteria of eligibility for admission as previously defined. As Summer Design occurs over the summer term, students are advised to transfer to Auburn and be eligible to enroll in courses for the summer semester. To ensure eligibility and consideration for admission

into Summer Design, it is recommended that students begin working with the College of Architecture, Design and Construction Student Services team in the August prior to (i.e. nine months before) attending the Summer Design Program.

Professional Program

In the event a grade of D or F is received in any required course in the major, a review is required for continuance in the program. Based on the outcome of this review, a student may be required to repeat the course or, in the case of design studios, the entire studio sequence for that respective year-level. Students receiving a second D when repeating a required course will be reviewed for continuance in the program. Similarly, a student receiving mostly grades of C or poorer may be reviewed for continuance in the program.

To proceed to the beginning sequence of design studio at third, fourth-, or fifth-year levels, the student must have completed all required prerequisite courses for that respective year-level, as indicated in the model curriculum.

Interior Architecture

Interior Architecture works across boundaries to integrate the design of objects, furniture, interiors, buildings and landscapes. The focus is understanding the built environment as a complex social landscape, particularly for the imaginative reuse of existing structures.

Students apply for admission to the Bachelor of Interior Architecture Program (ARIA) during their second year of the Professional Architecture Program. The school reserves the right to limit enrollment in Interior Design based on available resources.

Participation in the Interior Architecture (ARIA) Program is highly selective. Selection is based primarily on the ARIA faculty-comprised Admission Board's assessment of submitted application. The application consists of a students' statement of intent and three projects that demonstrate a high quality of design ability. Additionally, accepted students must:

- Have completed their appropriate studio coursework.
- Maintain a minimum 3.0 GPA for conditional acceptance into the ARIA concurrent degree program.
- Students must maintain a minimum 3.0 GPA in their ARIA studio coursework to proceed into the ARIA Summer Thesis Semester between Fourth and Fifth Year.

ARIA students will initially participate in two ARIA-designated Third- and Fourth-Year Studios. At the end of five years with one summer of study, the ARIA student receives both the Bachelor of Interior Architecture and Bachelor of Architecture. Students are pursuing both degrees concurrently. It is not possible to earn the Bachelor of Interior Architecture alone at Auburn University

If a 3.0 studio GPA is not maintained, a review by the ARIA Admissions Board will be required to determine a student's eligibility to continue in the program.

Environmental Design (ENVD)

Bachelor of Science in Environmental Design

The bachelor of science in environmental design is a flexible multi-disciplinary degree. It emphasizes the blend of sustainable practices from local and global context with comprehensive design and systems thinking. The degree content includes environmental design courses, directed electives (electives within CADC) and free electives. Students are encouraged to utilize the free electives to earn minor, and therefore customize their educational experience. Two summers of coursework are required for the environmental design workshop course series. While this degree is a good option for students who are interested in pursuing graduate studies in design, planning and construction related programs, it also enables students to seek employment opportunities in a variety of different fields upon graduation.

Students who pursue the environmental design degree will learn core knowledge of design and construction disciplines and business practices related to human-designed environments, including awareness of national and global perspectives. Exposure to national/global environmental design issues, focus on interdisciplinary concepts, hybrid practices, and sustainability are key aspects of the curriculum. A two part workshop course series allows students to focus on developing a general technical skill set for environmental design foundations. Digital media introduction, structure and fabrication techniques, design communication development are included. A capstone workshop requires students to initiate and complete a community engagement environmental design project using principles of collaboration, leadership and effectiveness training, hands-on experience, civic engagement and design communication skills. Minimum GPA for transfer students is 2.5.

Environmental Design Minor

15 semester hours required for minor

The ENVD minor allows students from design and non-design disciplines to enrich and broaden their education through the understanding and application of design and design thinking methods. In an increasingly complex and interconnected world, design and design thinking methods are becoming appropriated by businesses and different organizations as tools that help them with problem-solving in a creative and effective manner. Education in design and design thinking provides a framework for a quick and effective problem-solving embedded in understanding of human activities.

Students who acquire an ENVD minor will be able to demonstrate nimbleness and adaptability in the real world, the ability to approach issues from many different angles, and offer constructive and effective methods for human-centric problem-solving. These skills will enable them to offer a well-rounded, competitive portfolio, regardless of their major. The ENVD minor will enable them to be more competitive candidates for positions in both the public and the private sectors and in design professions as well as in other disciplines such as engineering, business, the sciences, education, and others.

Students will be able to:

- understand the social, cultural and economic forces that shape design proposals;
- engage in and understand a basic design process;
- develop the ability to engage in and create opportunities for inter-disciplinary collaborations;
- understand applicability and benefits of design thinking as a creative problem solving approach in non-design disciplines.

Students can enroll in classes and therefore start fulfilling requirements towards completion of ENVD minor. The Environmental Design Minor requires completion of 15 semester hours — this can be accomplished through two different options:

Option 1 (Recommended for students from non-design majors)

Code	Title	Hours
ENVD 2100	Environmental Design Workshop I	6
ENVD 4010	Elements of Design Thinking and Communication	3
ENVD 4970	Special Topics in Environmental Design	3
ENVD 5030	Studies in Design Thinking and Entrepreneurship	3
Total Hours		**15**

Option 2 (Recommended for students from design majors)

Code	Title	Hours

History of Architecture and the Built Environment Minor

Program Requirements and Description

The Minor in the History of Architecture and the Built Environment is composed of a series of established courses taught in the School of Architecture, Planning and Landscape Architecture (APLA); the Department of History; and the Department of Art & Art History. The Minor is mainly housed in APLA, with the Department of History and the Department of Art & Art History as primary partners. As a unique program to both the state and larger region, the Minor will offer students the opportunity to study the history of the built environment within a National Architectural Accrediting Board (NAAB) accredited School of Architecture.

The Minor requires a minimum of 15 credit hours above the core requirement. There are two paths for the Minor and both paths require at least 12 hours at the 3000-level or above. Students will be instructed to make an appointment with the department advisor to discuss or complete the Minor.

Code	Title	Hours
Path A is for students outside of APLA:		
ARCH 2110	History of World Architecture I	3
ARCH 3110	History of World Architecture II	3
ARCH 4110	History of Urban Architecture	3
ARTS or HIST 3000+ elective [1, 2]		3
ARCH 3000+ approved elective (e.g. ARCH 3700 Seminar in History & Theory or ARCH 4900)		3
Total Hours		**15**

Code	Title	Hours
Path B is for students within APLA's Bachelor of Architecture (B.Arch) program. Students within the B.Arch are already required to take ARCH 2110, ARCH 3110, ARCH 3120, ARCH 3700, and ARCH 4110. Therefore, the B.Arch students will need to complete the following courses to satisfy the requirements for the Minor:		
ARTS 2100	Foundations of Art History I	3
or ARTS 2150	Foundations of Art History II	
ARTS 3000+ elective [1]		3
HIST 3000+ elective [2]		3
CADC 3000, approved elective within Architecture, Landscape Architecture, or Building Science		3
ARCH 4900 Directed studies or similar integrative capstone project		3
Total Hours		**15**

1 Select from following ARTS courses: 3630, 3640, 3660, 3700-3740, or other approved course.

2 Select from following HIST courses: 3020 -3040, 3320-3370, 3520, 3540-3560,3610-3630, or other approved course.

All required hours for the Minor must be completed at Auburn.

Majors

Raymond J. Harbert College of Business

JENNIFER M. MUELLER-PHILLIPS, *Dean*
KEVIN YOST, *Associate Dean for Academic Affairs*
MICHAEL J. WESSON, *Associate Dean for Graduate & Executive Programs*
DUANE BRANDON, *Acting Associate Dean for Research & Faculty Affairs*

THE RAYMOND J. HARBERT COLLEGE OF BUSINESS prepares students to become effective and socially responsible managers of business, industrial organizations, and government agencies and responsible citizens and leaders of society. To achieve this goal, the Harbert College offers undergraduate programs leading to the bachelor of science in business administration. In addition, it offers graduate work for the degrees of master of business administration (MBA), master of science in finance, master of science in management information systems (MSIS), master of accountancy (MAc), and the doctor of philosophy (PhD) in business. The Harbert College of Business and the School of Accountancy are accredited at the undergraduate and graduate levels by the Association to Advance Collegiate Schools of Business (AACSB International). Detailed information on graduate programs may be found in the Graduate School section in this *Bulletin*.

Curriculum

The undergraduate curriculum includes a two-year Pre-Business curriculum required of all students and a two-year Major curriculum selected by the student. These two curricula provide a balanced course of study for all students, with approximately one-half of the hours in business courses and one-half in courses offered outside the college. The courses required have been selected so that all students will have access to the "common body of knowledge" as designated by the College's accrediting agency, AACSB International.

The Pre-Business curriculum, followed by all business students in their freshman and sophomore years, provides a sound foundation of work in the arts and sciences, including courses in mathematics, humanities, social sciences and natural sciences. This lower division curriculum also includes some of the introductory business courses. Students must satisfactorily complete specific portions of the pre-business curriculum prior to moving on to the major curriculum. See the Office of Academic Advising for details.

The Major curriculum allows each student to concentrate or major in an area of interest during the junior and senior years. Currently offered majors are listed at the bottom of this page.

Through these curricula, the Harbert College seeks to develop in its students the analytical, decision-making and communication skills required of managers who lead modern organizations.

Admission to the College

Students entering the pre-business curriculum directly from high school or another university, in addition to meeting Auburn University's admission requirements, should have competence in the mathematics taught in second year algebra.

Incoming freshmen and external transfer students are admitted directly to the Harbert College of Business. Current non-business students who are interested in transferring into the Harbert College should refer to the "Transfer Guide" on the College's advising web page.

Graduation Requirements

To graduate, business students must meet the hours and subject matter requirements of their curricula, must have an overall GPA of at least 2.0 on all courses attempted at Auburn University, must have an overall GPA of at least 2.0 in all courses required for the major, and must meet all other university requirements. At least 50 percent of the business credit hours required for the business degree must be taken at Auburn University.

Student Services

The Harbert College's **Office of Academic Advising** is responsible for orienting all new students to the college and for advising business students on their academic matriculation. Incoming freshmen in their first semester and students on academic warning are

required to meet with their academic advisor prior to registration to have their academic plan approved. All other students are strongly encouraged to meet with their academic advisor each semester as well.

The College's **Office of Professional and Career Development** is available to all business students for professional development and career guidance. Some of the services provided include career coaching, resume writing assistance, mentoring, mock interviews, and employer engagement.

Online Program

For details on the Online Business Administration Degree Completer Program, please visit https://harbert.auburn.edu/degrees-programs/undergraduate/online-programs/bsba-online-degree-completer/index.html (https://harbert.auburn.edu/degrees-programs/undergraduate/online-programs/bsba-online-degree-completer/)

Minors

For departmental minors, business courses must be at the 3000-level or above, with the exception of Aviation Management minor, and from an approved list.

- Accountancy (p. 373)
- Business (p. 409)
- Honors Business (p. 410)
- Business Analytics (p. 383)
- Business-Engineering-Technology (p. 384)
- Entrepreneurship and Family Business (p. 397)
- Finance (p. 390)
- Human Resource Management (p. 398)
- Information Assurance (p. 384)
- International Business (p. 390)
- Information Systems Management (p. 385)
- Marketing (p. 403)
- Organizational Leadership (p. 399)
- Professional Sales (p. 403)
- Real Estate Development (p. 390)
- Supply Chain Management (p. 408)

Undergraduate Certificates

- Certificate in Accountancy (p. 374)

Graduate Programs

- Accountancy — Graduate Certificate, MAcc (p. 1702)
- Business Administration — MBA, MS, PhD (p. 1564)
- Finance — MS, PhD (p. 1662)
- Management — PhD (p. 1567)
- Supply Chain Management — Graduate Certificate, MS, PhD (p. 1787)
- Business Analytics and Information Systems — Graduate Certificate, MS, PhD (p. 1790)
  - Business Analytics — Graduate Certificate (p. 1567)
  - Information Systems Management — MS (On-Campus/Online) (p. 1791)
  - Information Systems Management — PhD (p. 1791)
  - Management Information Systems — Graduate Certificate (p. 1702)

Accounting Courses

ACCT 2110 PRINCIPLES OF FINANCIAL ACCOUNTING (3) LEC. 3. Basic accounting principles with focus on preparation and use of financial statements. Credit will not be given for both ACCT 2110 and ACCT 2810. Sophomore standing.

ACCT 2117 HONORS PRINCIPLES OF FINANCIAL ACCOUNTING (3) LEC. 3. Pr. Honors College. Basic accounting principles with focus on preparation and use of financial statements. Sophomore standing.

ACCT 2210 PRINCIPLES OF MANAGERIAL ACCOUNTING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. Emphasis on cost accounting, budgeting, and decision making using managerial accounting information. Sophomore standing.

ACCT 2700 BUSINESS LAW (3) LEC. 3. Introduction to contracts, sales, torts, ethics and the judicial system. Focus is on the business environment.

ACCT 2707 HONORS BUSINESS LAW (3) LEC. 3. Pr. Honors College. Introduction to contracts, sales, torts, ethics and the judicial system. Focus is on the business environment.

ACCT 2810 FUNDAMENTALS OF ACCOUNTING (3) LEC. 3. Principles of financial and managerial accounting. Not open to undergraduates majoring in Business. Credit will not be given for both ACCT 2110 and ACCT 2810.

ACCT 2817 HONORS FUNDAMENTALS OF ACCOUNTING (3) LEC. 3. Pr. Honors College. Principles of financial and managerial accounting. Not open to undergraduates majoring in Business. Credit will not be given for both ACCT 2110 and ACCT 2810.

ACCT 3210 ACCOUNTING FOR DECISION MAKING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making. Junior standing applies to ACCT 3210. ACCT 3210 is limited to students in the BSBA Online completer program.

ACCT 3310 BUSINESS PROCESSES AND INTERNAL CONTROLS (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. Developing knowledge of business processes, accounting for those business processes, and the internal controls surrounding such processes, both in a manual and computerized environment. Limited to students in the BSBA Online completer program. Credit will not be given for both ACCT 3310 and ACCT 3520.

ACCT 3810 PROFESSIONAL DEVELOPMENT IN ACCOUNTANCY (1) LEC. 1. SU. Pr. (P/C ACCT 3110 or P/C ACCT 3113 or P/C ACCT 5110) and P/C BUSI 2010. Career planning and preparation for transition from university student to accounting professional.

ACCT 4900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Advanced individual research and study in accounting under the direction of a faculty member. Course may be repeated for a maximum of 6 credit hours.

ACCT 4920 ACCOUNTING INTERNSHIP (1-6) DSL/LEC. SU. Internship opportunity with an accounting firm, corporation, or governmental entity. Course may be repeated for a maximum of 6 credit hours.

ACCT 5110 INTERMEDIATE ACCOUNTING I (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. Accounting principles and theory including accounting for current assets, liabilities, and investments. Junior standing applies to ACCT 5110. ACCT 5113 is limited to students accepted to online accounting program.

ACCT 5120 INTERMEDIATE ACCOUNTING II (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110. Grade of C or better. Continuation of ACCT 5110, with emphasis on fixed assets, capital structure, and cash flows. Junior standing applies to ACCT 5120. ACCT 5123 is limited to students accepted to online accounting program.

ACCT 5130 ADVANCED ACCOUNTING TOPICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. Emphasis on advanced accounting topics including business combinations, foreign currency transactions, derivatives, and other advanced financial topics.

ACCT 5140 SPECIAL TOPICS IN ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. A study of current issues in accounting theory and practice. Topics include regulations and economic and technological developments.

ACCT 5150 CURRENT ISSUES IN ACCOUNTING (3) LEC. 3. Pr. P/C ACCT 5110. Departmental approval. Examination of current issues in the accounting profession.

ACCT 5210 COST ACCOUNTING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making. Junior standing applies to ACCT 5210.

ACCT 5300 AUDITING & ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 3110 or ACCT 5110. Principles of auditing standards, ethics, controls, evidence, sampling, and audit reports.

ACCT 5410 INCOME TAX I (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110. Principles of federal taxation as it applies to individuals and property transactions.

ACCT 5420 INCOME TAX II (3) LEC. 3. Pr. ACCT 4410 or ACCT 4413 or ACCT 5410. Tax accounting for individuals, partnerships, corporations, estates, and trusts. Extensive use of a tax-service program. ACCT 5423 is limited to students accepted to online accounting program.

ACCT 5510 ACCOUNTING INFORMATION SYSTEMS (3) LEC. 3. Pr. P/C ACCT 3110 or P/C ACCT 3113 or P/C ACCT 5110. Developing knowledge of business processes, accounting for those business processes, and the internal controls surrounding such processes, both in a manual and computerized environment.

ACCT 5520 ACCOUNTING ANALYTICS (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110) and (CTCT 3250 or CTCT 3253) and (P/C ACCT 3520 or P/C ACCT 3523 or P/C ACCT 5510). Students will learn to analyze data and solve accounting based problems using advanced spreadsheet techniques, database management systems and other analysis tools.

ACCT 5610 GOVERNMENTAL AND NOT-FOR-PROFIT ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. Accounting for governmental and not-for-profit entities. Focus on effective use of resources.

ACCT 5620 ISSUES IN INTERNATIONAL ACCOUNTING (3) LEC. 3. Pr. P/C ACCT 5110. Departmental approval. Accounting issues concerning international business activity.

ACCT 5700 ADVANCED BUSINESS LAW (3) LEC. 3. Pr. ACCT 2700. Legal principles concerning secured transactions, bankruptcy, trusts and estates, partnership law, property, corporations, accountant's legal liability, and negotiable instruments. ACCT 5703 is limited to students accepted to online accounting program.

ACCT 5810 CORPORATE GOVERNANCE & ACCOUNTING ETHICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. Analyzing the impact of corporate governance and accounting ethics on business transactions.

ACCT 6110 INTERMEDIATE ACCOUNTING I (3) LEC. 3. Accounting principles and theory including accounting for current assets, liabilities, and investments.

ACCT 6120 INTERMEDIATE ACCOUNTING II (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110 or ACCT 6116. Continuation of ACCT 6110/6116, with emphasis on fixed assets, capital structure, and cash flows.

ACCT 6130 ADVANCED ACCOUNTING TOPICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120 or ACCT 6126. Emphasis on advanced accounting topics including business combinations, foreign currency transactions, derivatives, and other advanced financial topics.

ACCT 6150 CURRENT ISSUES IN ACCOUNTING (3) LEC. 3. Pr. ACCT 5110. Departmental approval. Examination of current issues in the accounting profession.

ACCT 6210 COST ACCOUNTING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making.

ACCT 6300 AUDITING & ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 3110 or ACCT 5110 or ACCT 6110. Principles of auditing standards, ethics, controls, evidence, sampling, and audit reports.

ACCT 6410 INCOME TAX I (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110 or ACCT 6116. Principles of federal taxation as it applies to individuals and property transactions.

ACCT 6420 INCOME TAX II (3) LEC. 3. Pr. ACCT 4410 or ACCT 4413 or ACCT 5410 or ACCT 6410 or ACCT 6416. Tax accounting for individuals, partnerships, corporations, estates and trusts. Extensive use of a tax-service program.

ACCT 6510 ACCOUNTING INFORMATION SYSTEMS (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110 or P/C ACCT 6110 or P/C ACCT 6116. Developing knowledge of business processes, accounting for those business processes, and the internal controls surrounding such processes, both in a manual and computerized environment.

ACCT 6520 ACCOUNTING ANALYTICS (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110 or ACCT 6116) and (ACCT 3520 or ACCT 3523 or ACCT 5510 or ACCT 5513 or ACCT 6510 or ACCT 6516). Students will learn to analyze data and solve accounting based problems using advanced spreadsheet techniques, database management systems and other analysis tools.

ACCT 6610 GOVERNMENTAL AND NOT-FOR-PROFIT ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120. Accounting for governmental and not-for-profit entities. Focus on effective use of resources.

ACCT 6620 ISSUES IN INTERNATIONAL ACCOUNTING (3) LEC. 3. Pr. ACCT 5110. Departmental approval. Accounting issues concerning international business activity.

ACCT 6700 ADVANCED BUSINESS LAW (3) LEC. 3. Pr. ACCT 2700. Legal principles concerning secured transactions, bankruptcy, trusts and estates, partnership law, property, corporations, accountant's legal liability, and negotiable instruments.

ACCT 6810 CORPORATE GOVERNANCE & ACCOUNTING ETHICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120 or ACCT 6126. Analyzing the impact of corporate governance and accounting ethics on business transactions.

ACCT 7110 RESEARCH IN ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120. Departmental approval. An evaluation, critique, and application of financial accounting theory to current reporting problems using current research tools and resources.

ACCT 7130 FINANCIAL ANALYSIS & VALUATION (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120. Financial analysis to support managerial, investor, and creditor decision-making, forecasting financial statements and earnings, and applying valuation models to accounting measurement and investment decisions.

ACCT 7210 ACCOUNTING FOR DECISION MAKING AND CONTROL (3) LEC. 3. Pr. ACCT 3210 or ACCT 3213 or ACCT 5210 or ACCT 5213 or ACCT 6210 or ACCT 6216. Departmental approval. Relationship between management accounting and information systems and analysis of costs.

ACCT 7300 ADVANCED AUDITING AND ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 4310 or ACCT 4313 or ACCT 5300 or ACCT 5303 or ACCT 6300 or ACCT 6306. Advanced topics in auditing and assurance services.

ACCT 7320 FRAUD EXAMINATION (3) LEC. 3. Pr. ACCT 4310 or ACCT 4313 or ACCT 5300 or ACCT 5303 or ACCT 6300 or ACCT 6306. Learning how and why occupational fraud is committed and how fraudulent conduct is deterred, investigated, and resolved.

ACCT 7410 FEDERAL TAX RESEARCH (3) LEC. 3. Pr. ACCT 5420 or ACCT 5423 or P/C ACCT 6420 or ACCT 6426. Departmental approval. Sources of authority used in federal tax research and survey of tax policy issues.

ACCT 7420 CORPORATE AND PARTNERSHIP TAXATION (3) LEC. 3. Pr. ACCT 5420 or ACCT 5423 or ACCT 6420 or ACCT 6426. Tax issues involving corporations and partnership.

ACCT 7510 INTEGRATED ACCOUNTING APPLICATIONS (3) LEC. 3. Pr. ACCT 3530 or ACCT 3533 or ACCT 5520 or ACCT 5523 or ACCT 6520 or ACCT 6526. Design and analysis of accounting information systems and relational databases.

ACCT 7520 ENTERPRISE ACCOUNTING SYSTEMS (3) LEC. 3. Departmental approval. Design, analysis and use of Enterprise accounting systems.

ACCT 7710 PROFESSIONAL DEVELOPMENT (0) IND. Professional development topics and events for Master of Accountancy students. Course may be repeated for a maximum of 10 credit hours.

ACCT 7970 ADVANCED SPECIAL TOPICS IN ACCOUNTING (3) LEC. 3. Departmental approval. Industry issues in accounting.

Business Admin Courses

BUSI 1010 PROFESSIONAL AND CAREER DEVELOPMENT IN BUSINESS I (1) LEC. 1. Introduction to career readiness including exploration and discovery of career interests and values, with an emphasis on personal and professional development opportunities that enhance career preparedness.

BUSI 1040 FINANCIAL WELLNESS (3) LEC. 3. This course gives students an understanding of relevant personal finance topics and the tools needed to plan and execute their financial goals. The course covers topics currently relevant to college students as well as those that will have long-term implications for careers and retirement. The course is designed to be accessible and relevant to all students regardless of major.

BUSI 2010 PROFESSIONAL AND CAREER DEVELOPMENT IN BUSINESS II (1) LEC. 1. Articulation and creation of personal branding through learning job search essentials including resumes, cover letters, social media, interviewing, networking, and internships.

BUSI 2100 ORAL COMMUNICATION FOR BUSINESS (1) LEC. 1. Theories and techniques of strong oral communication skills, with real-world applications for business.

BUSI 2900 DIRECTED STUDIES (1-3) AAB/IND. SU. Independent study option for freshmen and sophomores in the College of Business for students who seek general or free elective credit. Course may be repeated for a maximum of 3 credit hours.

BUSI 3010 PROFESSIONAL DEVELOPMENT IN BUSINESS III (1) LEC. 1. Pr. P/C BUSI 2010. Preparation for conducting an intern/career position job search. Develop career planning and job search skills.

BUSI 3250 INTERNATIONAL BUSINESS (3) LEC. 3. Beginning with a foundation in the movement of goods, services, people, money, technology, and information across borders students will learn how culture, social issues, economic, regulatory, legal and political factors impact businesses and consumers alike. A running theme will be the diversity of environments and people that impact international business.

BUSI 3257 INTERNATIONAL BUSINESS (3) DSL/LEC. Beginning with a foundation in the movement of goods, services, people, money, technology, and information across borders students will learn how culture, social issues, economic, regulatory, legal and political factors impact businesses and consumers alike. A running theme will be the diversity of environments and people that impact international business.

BUSI 3500 LEADERSHIP IN ENGINEERING & BUSINESS THEORY (4) LEC. 3. LAB. 3. This class investigates the challenges of integrating engineering design with business requirements as they related to product innovation. Specific focus is placed on strategic planning and leadership needs to successfully steer product ideas into business reality. Case study problems from business and engineering practice.

BUSI 3510 PRODUCT INNOVATION: FROM CONCEPT TO PRODUCTION (4) LEC. 3. LAB. 2.33. Pr. BUSI 3500 and BUSI 3520 and BUSI 3560. This course takes students on a journey from conceptualization (concept) to production to market (production). Students are introduced to the basics of modern computer-aided design (CAD), classic manufacturing processes, and design tools. They will learn how to use Fusion 360 to create 2D and 3D models, as well as how to use CAD to generate concepts, conduct market research, benchmark designs, and create prototypes. Students will also learn about classic manufacturing processes such as casting. Department approval.

BUSI 3560 LEADERSHIP FOR BUSINESS AND ENGINEERS (1) LEC. 1. Overview of leadership concepts and skills.

BUSI 4010 PROFESSIONAL AND CAREER DEVELOPMENT IN BUSINESS IV (1) LEC. 1. Execution of career readiness concepts, integrating ethical leadership and decision making in order to assist in the transition from the classroom to the workforce.

BUSI 4920 BUSINESS INTERNSHIP (1-3) AAB/INT. SU. Internship option for students to gain work experience who seek general or free elective credit. Approval of instructor prior to internship, and completion of or current enrollment in two or more of the following: ACCT 2110, ECON 2020, ECON 2030, FINC 3610, MNGT 3100, or MKTG 3310. Course may be repeated for a maximum of 3 credit hours.

BUSI 4970 SPECIAL TOPICS IN BUSINESS (3) LEC. 3. Coreq. BUSI 4540. A special topics course to encompass a variety of interdisciplinary business topics. Course may be repeated for a maximum of 6 credit hours.

BUSI 5500 ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Pr. (BUSI 3500 or BUSI 3520) and BUSI 3560 and BUSI 3510. Acceptance into the BET minor program. The course focuses on the entrepreneurial aspects in the strategic management of technology and innovation in new ventures, new products and processes that influence the competitiveness of the firm. Department approval.

BUSI 5510 BUSINESS ENGINEERING TECHNOLOGY MINOR-CAPSTONE (4) LEC. 1. LAB. 6. Pr. (BUSI 3500 or BUSI 3520) and BUSI 3560 and BUSI 3510 or BUSI 5500 or ENGR 6500. Department approval. Must be admitted to BET minor. You will be required to apply everything you've learned in the Business Engineering Technology minor to deliver a “fully realized” working product along with supporting project documentation.

BUSI 5550 PRODUCT/PROCESS DESIGN AND DEVELOPMENT I (2) LEC. 2. Must be enrolled in BET minor. Processes to develop and present design proposal for cooperating industry.

BUSI 5600 INTERNATIONAL ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Pr. BUSI 3500 or BUSI 3520 and BUSI 3560 and BUSI 3510. Department approval. The course focuses on the entrepreneurial aspects in the strategic management of technology and innovation in new ventures, new products, and processes that influence the firm's competitiveness. The main emphasis of this course will be on the process of commercializing an innovation - bringing the innovation to market via the creation of a company. Must be enrolled in the Business-Engineering-Technology minor and participating in the International BET.

BUSI 5610 INTERNATIONAL BUSINESS ENGINEERING TECHNOLOGY MINOR-CAPSTONE (4) LEC. 1. LAB. 4. Pr. (BUSI 3500 or BUSI 3520) and BUSI 3560 and BUSI 3510 and BUSI 5600 or ENGR 6600. Department approval. Must be admitted to International BET minor. This course is intended to immerse the student in the new product design and development experience. Students will work directly with international companies and fellow international students to generate working prototypes that offer solutions. Students are expected to develop a successful new product development plan and execute all necessary activities to bring a functional prototype to life by semester's end. Specific focus is placed on creative product ideas.

BUSI 7110 FINANCIAL ANALYSIS (3) LEC. 3. Departmental approval. Integrated course combining financial accounting and corporate finance for MBA students.

BUSI 7120 QUANTITATIVE ANALYSIS FOR BUSINESS DECISIONS (3) LEC. 3. Departmental approval. Integrated course in statistical methods and management science for MBA students.

BUSI 7130 STRATEGIC ANALYSIS AND THE COMPETITIVE ENVIRONMENT (3) LEC. 3. Departmental approval. Integrated course covering business strategy and the external environment in a global context.

BUSI 7140 ORGANIZATIONAL LEADERSHIP, ETHICS AND CHANGE (3) LEC. 3. Integrated course covering individual and group behavior in organizations, effective team building, motivation, and communications, ethical behavior, and leading organizations through change. May count either BUSI 7140 or BUSI 7146.

BUSI 7150 OPERATIONAL EXCELLENCE THROUGH SUPPLY CHAIN AND QUALITY MANAGEMENT (3) LEC. 3. An examination of the strategic roles of supply chain and quality management in the creation of outstanding product and service operations. Departmental approval. May count either BUSI 7150 or BUSI 7156.

BUSI 7160 ADVANCED PROFESSIONAL DEVELOPMENT (1) LEC. 1. This course prepares students for career success by focusing on self-assessment, industry/job/company research, personal brand identification, resumes and cover letters, interviewing, career and company research, presentation skills, and benefits and negotiation. Course may be repeated for a maximum of 3 credit hours.

BUSI 7210 STRATEGIC MARKETING MANAGEMENT (3) LEC. 3. Departmental approval. Covers key aspects of marketing, including product, pricing, distribution, and promotion strategies. Emphasis is placed on marketing analysis and strategy development.

BUSI 7220 INFORMATION TECHNOLOGY FOR COMPETITIVE ADVANTAGE (3) LEC. 3. Examines the strategic role information technology plays in influencing competitive advantage. Departmental approval. May count either BUSI 7220 or BUSI 7226.

BUSI 7230 COST ANALYSIS AND SYSTEMS (3) LEC. 3. Departmental approval. Integrates production and cost theory from economics with managerial and cost accounting theory and systems for MBA

BUSI 7250 INTERNATIONAL BUSINESS OPERATIONS (3) AAB. Departmental approval. Examines the economic, financial, legal, political, social, and cultural factors impacting international business operations. Participation in a specified global experience is a requirement of this course.

BUSI 7310 INTEGRATED BUSINESS PROJECT AND CASE ANALYSIS (3) LEC. 3. Integrates knowledge gained from MBA classes and applies that knowledge to address actual business problems. May count either BUSI 7310 or BUSI 7316.

BUSI 7920 MBA INTERNSHIP (0-6) DSL. SU. Departmental approval. Internship for MBA students in business organizations. Course may be repeated for a maximum of 6 credit hours.

BUSI 7970 SPECIAL TOPICS IN BUSINESS ADMINISTRATION (1-3) AAB. Departmental approval. Specialized topics in business administration not otherwise covered in existing courses. Course may be repeated for a maximum of 6 credit hours.

Business Analytics Courses

BUAL 2600 BUSINESS ANALYTICS I (3) LEC. 3. Pr. (MATH 1610 or MATH 1617 or MATH 1680 or MATH 1683). Introduction to analytics in business including use of data to make business decisions, basic predictive business modeling, and communication of analytical results.

BUAL 2650 BUSINESS ANALYTICS II (3) LEC. 3. Pr. BUAL 2600 or STAT 2610 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 3010 or STAT 2513. A second course in quantitative analysis in business including statistical inference, classification analysis, predictive modeling, forecasting, introduction to data mining.

BUAL 3010 PROFESSIONAL DEVELOPMENT IN BUSINESS ANALYTICS (1) LEC. 1. SU. Pr. P/C BUAL 2650. Career planning and preparation for employment as an analytics professional.

BUAL 3100 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3) LEC. 3. Pr. BUAL 2600. This course introduces business students to the foundational concepts of Artificial Intelligence (AI) and its applications in business environments. It focuses on how AI technologies like machine learning, natural language processing, and data analytics drive innovation and enhance decision-making. Students will explore real-world business applications of AI, covering topics such as automation, predictive analytics, customer service, and AI-driven strategy. The course is designed to

BUAL 4910 PRACTICUM (1-3) PRA. SU. Supervised practical application of business analytics theory and methods. Course may be repeated for a maximum of 3 credit hours.

BUAL 4920 BUSINESS ANALYTICS INTERNSHIP (1-3) INT. SU. Pr. BUAL 3010. The internship program represents an opportunity for students to be exposed to analytics environments first-hand and to integrate this experience with their formal education. The practical nature of the internship facilitates the educational process and provides valuable work experience. Departmental approval required. Course may be repeated for a maximum of 3 credit hours.

BUAL 5500 BUSINESS DATA MANAGEMENT AND ACQUISITION (3) LEC. 3. Pr. BUAL 2600 and P/C BUAL 3010. Management and governance of the big data environment that is necessary to support extracting, merging, and preparing large data sets for analysis.

BUAL 5600 PRINCIPLES OF PREDICTIVE MODELING (3) DSL/LEC. Pr. BUAL 2650. Introduction to linear models including multiple linear regression and model building in business decision making and applications. Credit will not be given for both BUAL 5600 and BUAL 6600/6606.

BUAL 5610 PREDICTIVE MODELING FOR BUSINESS DECISIONS (3) DSL/LEC. Pr. BUAL 2650 and (BUAL 5500 or BUAL 5650). Basic data mining techniques including neural networks, decision trees, clustering algorithms, linear programs, text and web mining in business setting. Credit will not be given for both BUAL 5610 and BUAL 6610/6616.

BUAL 5660 DESCRIPTIVE ANALYTICS FOR BUSINESS DECISIONS (3) LEC. 3. Pr. BUAL 5500 or BUAL 5650. Advanced topics in big data management, with emphasis on various technical environments used in the big data environment. Credit will not be given for both BUAL 5660 and BUAL 6660/6666.

BUAL 5700 BIG DATA INFRASTRUCTURE AND APPLICATIONS (3) LEC. 3. Pr. ISMN 5650. Advanced topics related to big data infrastructure and using these technologies to create data science applications. The course provides deep understanding of various state-of-art data science approaches using different distributed and (or) cloud computing environments. Credit will not be given for both BUAL 5700 and BUAL 6700/6706.

BUAL 5710 ADVANCED DATA AND TEXT ANALYTICS (3) LEC. 3. Pr. (BUAL 5700 or BUAL 6700 or BUAL 6706) and (P/C BUAL 5660 or P/C BUAL 6660 or P/C BUAL 6666). This course covers advanced approaches used for writing crawlers and spiders, text analytics, sentiment analysis, social media analytics, network analytics, and deep learning for solving business and organizational problems. The course provides conceptual and hand-on understanding of such state-of-art analytics approaches using various python libraries. Knowledge of python programming is necessary to do well in the course.

BUAL 5800 DATA VISUALIZATION (3) LEC. 3. Pr. BUAL 2650. The course will focus on learning the challenges of big data and how effectively utilizing data visualization techniques can help with decision-making. The course will cover the principles of effective visualization designs as well as get hands-on experience with developing dashboards and presenting analysis in other visual formats.

BUAL 5850 FOUNDATIONS OF SPORTS ANALYTICS (3) LEC. 3. Pr. BUAL 2650. This course provides an introduction to analyzing and representing sports data. Students will learn how to develop narratives about team and player performance. Students will also learn various techniques that are suitable for analyzing sports data. Examples will be used from various sports to generate results that can explain outcomes.

BUAL 5860 COMMUNICATING QUANTITATIVE RESULTS IN BUSINESS (3) LEC. 3. Pr. BUAL 5610 and BUAL 5660. A case-based, project-oriented approach to business decision making based on company's mission and strategic objectives. Credit will not be given for both BUAL 5860 and BUAL 6860/6866.

BUAL 5900 DIRECTED STUDIES (1-3) IND. SU. Faculty led individualized or group-oriented in-depth study of a topic in business analytics. May include literary research, algorithm development, programming, data analysis, or a combination of these. Course may be repeated for a maximum of 6 credit hours.

BUAL 5960 SPECIAL PROBLEMS (3) DSL. This course may be either a self-learning course or a lecture course designed to enhance the student's knowledge of a selected topic. If self-learning, the course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the course objectives. Course may be repeated for a maximum of 6 credit hours.

BUAL 6600 PRINCIPLES OF PREDICTIVE MODELING (3) DSL/LEC. Pr. BUAL 2650. Introduction to linear models including multiple linear regression and model building in business decision making and applications. Credit will not be given for both BUAL 5600 and BUAL 6600/6606.

BUAL 6610 PREDICTIVE MODELING FOR BUSINESS DECISIONS (3) DSL/LEC. Basic data mining techniques including neural networks, decision trees, clustering algorithms, linear programs, text and web mining in business setting. Credit will not be given for both BUAL 5610 and BUAL 6610/6616.

BUAL 6650 BUSINESS DATA MANAGEMENT AND ACQUISITION (3) LEC. 3. Managing, governing, extracting, merging, and preparing large data sets for analysis.

BUAL 6660 DESCRIPTIVE ANALYTICS FOR BUSINESS DECISIONS (3) LEC. 3. Advanced topics in big data management, with emphasis on loading and cleansing the data for analysis. May count either BUAL 5660 or BUAL 6660/6666.

BUAL 6700 BIG DATA INFRASTRUCTURE AND APPLICATIONS (3) LEC. 3. Pr. ISMN 5650 or ISMN 6650 or ISMN 6656. This course covers advanced topics related to big data infrastructure and using these technologies to create data science applications. The course provides deep understanding of various state-of-art data science approaches using different distributed and (or) cloud computing environments. Credit will not be given for both BUAL 5700 and BUAL 6700/6.

BUAL 6710 ADVANCED DATA AND TEXT ANALYTICS (3) LEC. 3. Pr. (BUAL 5700 or BUAL 6700 or BUAL 6706) and (P/C BUAL 5660 or P/C BUAL 6660 or P/C BUAL 6666). This course covers advanced approaches used for writing crawlers and spiders, text analytics, sentiment analysis, social media analytics, network analytics, and deep learning for solving business and organizational problems. The course provides conceptual and hand-on understanding of such state-of-art analytics approaches using various python libraries. Knowledge of python programming is necessary to do well in the course.

BUAL 6800 DATA VISUALIZATION (3) DSL. This course is designed as a graduate level class in which graduate students will learn the various elements and techniques of data visualization. The focus of the course will be to learn the challenges of big data and how effective utilization of data visualization techniques can help with decision making. Course will cover the principles of effective visualization designs as well as get hands on experience with developing dashboards and present analysis in other visual formats.

BUAL 6850 FOUNDATIONS OF SPORTS ANALYTICS (3) DSL/LEC. This course provides an introduction to analyzing and representing sports data. Students will learn how to develop narratives about team and player performance. Students will also learn various techniques that are suitable for analyzing sports data. Examples will be used from various sports to generate results that can explain outcomes.

BUAL 6860 COMMUNICATING QUANTITATIVE RESULTS IN BUSINESS (3) LEC. 3. Pr. BUAL 6610 or BUAL 6616. A case-based, project-oriented approach to business decision making based on company's mission and strategic objectives. Credit will not be given for both BUAL 5860 and BUAL 6860/6866.

BUAL 6900 DIRECTED STUDIES (3) IND. 3. SU. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

BUAL 6960 SPECIAL PROBLEMS (3) IND/LEC. 3. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

BUAL 7000 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3) DSL/LEC. This course introduces business students to the foundational concepts of Artificial Intelligence (AI) and its applications in business environments. It focuses on how AI technologies like machine learning, natural language processing, and data analytics drive innovation and enhance decision-making. Students will explore real-world business applications of AI, covering topics such as automation, predictive analytics, customer service, and AI-driven strategy. The course is designed to help students understand practical AI applications

Entrepreneurship Family Bus Courses

ENFB 3140 ESSENTIALS OF ENTREPRENEURSHIP (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2030 or ECON 2033 or ECON 2037. The application of basic business principles to the entrepreneurial environment.

ENFB 4160 FAMILY BUSINESS MANAGEMENT (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of aspects of managing an established family business, on a day-to-day basis, and of planning for succession to the next generation.

ENFB 4170 MANAGING ENTREPRENEURIAL START-UPS (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of aspects of managing and marketing concepts and processes that can be utilized to launch new ventures or a new division within an existing business.

ENFB 4180 GROWTH STRATEGIES FOR EMERGING COMPANIES (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of the important aspects of starting and managing a franchise business.

ENFB 4190 NEW VENTURE CREATION (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Analysis of industrial, competitive, market and financial aspects of starting a business.

ENFB 4200 BUSINESS PLAN FOR THE NEW VENTURE (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Application of business principles to a practical, hands-on project.

ENFB 4210 CORPORATE VENTURING-ENTREPRENEURS IN ORGANIZATIONS (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of the entrepreneurial process as it applies to the operations of a department or functional area within an established organization.

ENFB 4220 DIGITAL ENTREPRENEURSHIP AND EMERGING TECHNOLOGIES (3) LEC. 3. Pr. ENFB 3140. Examines how digitalization and emerging technologies impact entrepreneurship and innovation by changing the functional areas of business including marketing, management, finance, and supply chain management.

ENFB 4920 INTERNSHIP (1-6) INT. Pr. 2.50 GPA. Departmental approval. Approval by departmental internship program committee. Course may be repeated for a maximum of 6 credit hours.

ENFB 4950 SEMINAR IN ENTREPRENEURSHIP AND FAMILY BUSINESS (3) LEC. 3. This seminar covers emerging issues in entrepreneurship. Prequisite: ENFB 3140 or Departmental Approval. Course may be repeated for a maximum of 6 credit hours.

ENFB 4970 SPECIAL TOPICS IN ENTREPRENEURSHIP & FAMILY BUSINESS (3) LEC. 3. Pr. ENFB 3140 or Departmental approval. This course covers current topics in entrepreneurship and family business. Course may be repeated for a maximum of 6 credit hours.

ENFB 5900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 6 credit hours.

ENFB 5960 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Independent study investigating current literature in management. Course may be repeated for a maximum of 6 credit hours.

ENFB 6900 DIRECTED STUDIES (1-3) IND. SU. Independent study on current topics in management. Course may be repeated for a maximum of 3 credit hours.

ENFB 6960 SPECIAL PROBLEMS (3) DSL/IND. Departmental approval. General management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 6 credit hours.

Finance Courses

FINC 2400 PERSONAL FINANCE (3) LEC. 3. Plans for managing personal financing problems involving insurance, housing, household budgeting, investments, personal and bank loans, personal credit and time value of money.

FINC 3010 PROFESSIONAL DEVELOPMENT IN FINANCE (1) LEC. 1. SU. Pr. (P/C FINC 3610 or FINC 3613 or FINC 3617) and P/C BUSI 2010. Career planning and preparation for employment in the finance industry.

FINC 3100 FUNDAMENTALS OF GLOBAL TRADE (3) LEC. 3. COB academic standards. Export management skills, including basic global supply chain management and trade finance. Junior standing.

FINC 3200 RISK AND INSURANCE (3) LEC. 3. Essentials of risk management, with emphasis on the use of insurance, including the characteristics of property, liability, life and health insurance. Junior standing.

FINC 3250 PRINCIPLES OF REAL ESTATE (3) LEC. 3. Fundamental principles and practices as applied to the purchase, sale and lease and management of real estate. Junior standing.

FINC 3270 SUSTAINABLE REAL ESTATE (3) LEC. 3. Pr. FINC 3250. Everyone's story is rooted in real estate: the ways we fund, plan, build, use, and exchange real property have informed our past and will dictate our future. This course surveys the wide variety of topics that intersect to maximize sustainable development projects, including investment analysis, green building, and project certifications. Through lectures, case studies and simulations, you will learn how people, property and capital interact to help shape the evolving real estate industry.

FINC 3610 PRINCIPLES OF BUSINESS FINANCE (3) LEC. 3. Pr. ACCT 2110 or ACCT 2117 or ACCT 2810 or ACCT 3110 or ACCT 3113 or ACCT 2813. Corporate finance from the perspective of a financial manager. Topics include time value of money, valuation, and capital budgeting. May count either FINC 3610 or FINC 3810.

FINC 3617 HONORS PRINCIPLES OF BUSINESS FINANCE (3) LEC. 3. Pr. Honors College. ACCT 2117. Corporate finance from the perspective of a financial manager. Topics include financial planning and forecasting cash budgeting, capital budgeting, basic valuation, dividends. Fall, Spring. Junior standing.

FINC 3620 SMALL BUSINESS FINANCE (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Financial control, financial forecasting, working capital and sources of financing in a small and closely-held business environment.

FINC 3630 ADVANCED BUSINESS FINANCE (3) LEC. 3. Pr. (FINC 3610 or FINC 3613 or FINC 3617) and (BUAL 2600 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3610). C or better in FINC 3610. In-depth analysis of financial concepts including valuation capital budgeting, cost of capital, leasing, financial analysis, and capital structure.

FINC 3640 INVESTMENTS (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Types of investment security markets, investment instruments, concepts and strategies for institutional and individual investors.

FINC 3700 FINANCIAL MARKETS INSTITUTIONS (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Overview of the financial system, organization and regulation of financial markets and institutions, the behavior and structure of interest rates.

FINC 3750 FINANCIAL MODELING (3) LEC. 3. Pr. P/C FINC 3630 and P/C FINC 3640. Application of financial management and investments concepts through Excel modeling. Topics include capital budgeting, capital asset pricing, cost of capital, stock and bond valuation. Advanced topics include DCF modeling, portfolio optimization and VBA.

FINC 3810 FOUNDATIONS OF BUSINESS FINANCE (3) LEC. 3. Pr. ACCT 2810 or ACCT 2813 or ACCT 2110 or ACCT 2117. Foundations of Business Finance is a broad based introductory course that will focus on finance functions and applications of finance principles. This course is not open to undergraduates majoring in business. Junior standing. May count either FINC 3610 or FINC 3810.

FINC 4210 PROPERTY AND LIABILITY INSURANCE (3) LEC. 3. Pr. FINC 3200. Commercial risks and the insurance contracts used to address these risks.

FINC 4410 FIXED INCOME (3) LEC. 3. Pr. FINC 3640. Overview of fixed income characteristics, markets, and trading. Topics include Treasuries, yield curves, corporate bond analysis, asset-backed securities, municipal bonds, preferred stock, money market instruments, measuring interest rate risk with duration and convexity, and bond portfolio management.

FINC 4630 FINANCIAL STRATEGY (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110) and (FINC 3630 or FINC 3633). The advanced application of corporate finance through case analysis, company analysis, and current topics.

FINC 4650 FINANCIAL STATEMENT ANALYSIS (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Evaluation and assessment of financial condition, performance, and reporting strategies of firms using relevant financial and market information.

FINC 4660 SECURITY ANALYSIS (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110) and (FINC 3630 or FINC 3633) and FINC 3640. Analysis, techniques and selection of securities to meet specific investment objectives. Focus on individual security analysis and portfolio management.

FINC 4700 MANAGEMENT OF FINANCIAL INSTITUTIONS (3) LEC. 3. Pr. FINC 3700. Management strategies for firms including management of credit, liquidity, capital and interest rate risks in a regulated environment.

FINC 4720 FINANCIAL SECTOR REGULATION AND SUPERVISION (3) LEC. 3. Pr. FINC 3700. The course will facilitate understanding of regulatory and supervisory oversight tools used by financial sector regulators to control new and emerging issues/ risks facing financial institutions and markets, and how financial institutions and markets manage and operate to in light of these regulatory and supervisory requirements.

FINC 4750 ADVANCED FINANCIAL MODELING (3) LEC. 3. Pr. FINC 3750 and (FINC 4650 or FINC 4653). Departmental approval. The course teaches advanced financial modeling and valuation, including public and acquisition comparables, discounted cash flows, merger consequences and leveraged buyout analysis.

FINC 4760 ADVANCED SECURITY ANALYSIS (3) LEC. 3. Pr. FINC 4750 or Departmental approval. The course focuses on the comprehensive analysis of individual securities for potential inclusion in an actively managed investment portfolio. The course will cover the basics of traditional financial statement and valuation analysis in addition to macro-economic analysis, political analysis, technical analysis, derivatives, history of financial markets, commodities, competitive analysis, fixed income analysis, and trading.

FINC 4780 ADVANCED PORTFOLIO MANAGEMENT (3) LEC. 3. Pr. FINC 4760. Departmental approval. The course teaches students to analyze financial problems and develop sophisticated financial models for modern portfolio management.

FINC 4900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Advanced individual research and study in finance under the direction of a faculty member. Course may be repeated for a maximum of 6 credit hours.

FINC 4920 INTERNSHIP (1-6) AAB/INT. SU. Departmental approval. The internship program offers the opportunity to gain relevant and meaningful work experience. Course may be repeated for a maximum of 9 credit hours.

FINC 4970 SPECIAL TOPICS (1-3) AAB. Departmental approval. Specialized topics and current developments and innovations in finance. Course may be repeated for a maximum of 6 credit hours.

FINC 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

FINC 5250 REAL ESTATE FINANCE (3) LEC. 3. Pr. FINC 3250 and (FINC 3610 or FINC 3613 or FINC 3617 or FINC 3810). This class presents the fundamental concepts of real estate finance. Students will study the institutions and instruments of real estate finance, factors affecting the flow of funds into various real estate markets, and how lenders assess risks and price their loans. The ultimate investment outlets for many of the financing products studied in the course are also covered in some detail.

FINC 5260 REAL ESTATE INVESTMENT (3) LEC. 3. Pr. (FINC 3610 or FINC 3613 or FINC 3617 or FINC 3810) and FINC 3250. This class presents the fundamental concepts of real estate investment analysis. Students will study lease analysis to allow for cash flow projection based on those leases. Students will use those cash flow projections in property valuation to enable a discussion of deal structuring, ownership structures, and funding sources. Real estate as an asset class will be discussed in a broader portfolio context.

FINC 5510 MULTINATIONAL FINANCIAL MANAGEMENT (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Advantages and problems associated with the modern multinational corporation, including analysis of currency risk, hedging, and political risk.

FINC 5670 MERGERS, ACQUISITIONS, AND RESTRUCTURING (3) LEC. 3. Pr. FINC 3630 or FINC 3633. Strategic analysis of corporate restructuring including valuation methods, control issues, takeover defense measures, and diversification issues. May count either FINC 5670 or FINC 6670/FINC 6676.

FINC 5680 FINANCIAL ENGINEERING (3) LEC. 3. Pr. FINC 3630 or FINC 3633 or FINC 3640 or FINC 3700. Examination of derivative securities with emphasis on applying derivative securities to the management of corporate financial risk.

FINC 6250 REAL ESTATE FINANCE (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or BUSI 7110 or BUSI 7116. Departmental approval. This class presents the fundamental concepts of real estate finance. Students will study the institutions and instruments of real estate finance, factors affecting the flow of funds into various real estate markets, and how lenders assess risks and price their loans. The ultimate investment outlets for many of the financing products studied in the course are also covered in some detail.

FINC 6260 REAL ESTATE INVESTMENT (3) LEC. 3. Pr. BUSI 7110 or BUSI 7116. This class presents the fundamental concepts of real estate investment analysis. Students will study lease analysis to allow for cash flow projection based on those leases. Students will use those cash flow projections in property valuation to enable a discussion of deal structuring, ownership structures, and funding sources. Real estate as an asset class will be discussed in a broader portfolio context.

FINC 6510 MULTINATIONAL FINANCIAL MANAGEMENT (3) LEC. 3. Advantages and problems associated with the modern multinational corporation, including analysis of currency risk, hedging, and political risk.

FINC 6670 MERGERS, ACQUISITIONS AND RESTRUCTURING (3) LEC. 3. Pr. BUSI 7110 or BUSI 7116. Strategic analysis of corporate restructuring including valuation methods, control issues, takeover defense measures, and diversification issues. Departmental approval. May count either FINC 6670 or FINC 6676.

FINC 6680 FINANCIAL ENGINEERING (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or BUSI 7110 or BUSI 7116. Departmental approval. Theory and pricing of derivative securities with emphasis on applying derivative securities in corporate financial risk management.

FINC 7630 HEALTH CARE FINANCE (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or BUSI 7110 or BUSI 7116. Departmental approval. Techniques and analysis of financial management in a health care setting. Emphasis on financial planning and forecasting, budgeting, capital investment analysis in the regulated healthcare marketplace.

FINC 7640 ADVANCED INVESTMENTS (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or (BUSI 7110 or BUSI 7116). Departmental approval. Types of investment securities, regulation and operation of securities markets and the theory and practice of investments.

FINC 7650 APPLIED FINANCIAL MANAGEMENT (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or BUSI 7110. Departmental approval. The integration of financial theory with practice through spreadsheets, case analysis, company analysis, and current topics in finance.

FINC 7660 SECURITY ANALYSIS AND MANAGEMENT (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or (BUSI 7110 or BUSI 7116). Departmental approval. Advanced analytical methods for security valuation, managing investment portfolios, and developing appropriate investment strategies.

FINC 7690 GLOBAL FINANCIAL MARKETS (3) LEC. 3. Analysis and examination of financial institutions and markets in an evolving regulatory and global marketplace for financial services and products.

FINC 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. In-depth research and study under the direction of a faculty member. Topics are variable within finance and finance-related areas. Course may be repeated for a maximum of 6 credit hours.

FINC 7970 SPECIAL TOPICS (1-3) DSL. Departmental approval. Specialized topics in finance and finance-related areas not otherwise covered in existing courses. Course may be repeated for a maximum of 6 credit hours.

FINC 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

FINC 8620 THEORY OF FINANCE (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or FINC 7640 or FINC 7646. Choice under certainty and uncertainty, time-state preference models, stochastic dominance, the mean-variance criterion, and asset pricing models Miller-Modigliani propositions would be developed.

FINC 8640 INVESTMENTS (3) SEM. 3. Pr. FINC 8620. This course focuses on current literature in Investments. Students should develop the insights necessary to identify problems and conduct research in Investments.

FINC 8650 SEMINAR IN CORPORATE FINANCE (3) SEM. 3. Pr. FINC 86250. This course focuses on current literature in Corporate Finance. Students should develop the insights necessary to identify problems and conduct research in Corporate Finance.

FINC 8690 FINANCIAL MARKETS AND INTERMEDIATION (3) LEC. 3. Pr. FINC 8620. This course focuses on current literature in financial markets and intermediation. Students should develop the insights necessary to identify problems and conduct research in this area.

FINC 8700 SPECIAL TOPICS IN FINANCE (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or FINC 7640 or FINC 7646. Varies according to faculty and students interests. This could be a course like Options, Futures and Derivatives, or a course with several participating faculty members discussing their own research.

FINC 8800 SEMINAR ON FACULTY RESEARCH AND EXTENSIONS (1-3) LEC. 3. SU. Departmental approval. Rotating faculty members will present their current published and unpublished research. Readings will be assigned. Student/faculty discussions are expected to follow the usual seminar format.

FINC 8880 SEMINAR (1) SEM. SU. Admission to the Ph.D. in Business with a Concentration in Finance. Seminar presentations by visiting scholars, Finance Faculty and Ph.D. students.

FINC 8990 RESEARCH AND DISSERTATION (1-12) DSR. Course may be repeated for a maximum of 60 credit hours.

Human Resource Mngt Courses

HRMN 3420 HUMAN RESOURCE MANAGEMENT (3) LEC. 3. Pr. P/C MNGT 3100 or P/C MNGT 3103 or P/C MNGT 3107 or P/C MNGT 3810. Management of human resources dealing with selection, training, placement, appraisal, compensation, and employee representation.

HRMN 4920 INTERNSHIP (1-6) AAB/INT. SU. Pr. 2.50 GPA. Departmental approval. Approval by departmental intern program committee and minimum 2.50 GPA. Course may be repeated for a maximum of 6 credit hours.

HRMN 4970 SPECIAL TOPICS IN HUMAN RESOURCE MANAGEMENT (3) LEC. 3. Pr. MNGT 3100. This course covers current and emerging topics related to human resource management. Course may be repeated for a maximum of 6 credit hours.

HRMN 5430 LABOR RELATIONS (3) LEC. 3. General survey of the development of collective bargaining, major provisions of labor law, and bargaining issues of craft and industrial unions.

HRMN 5460 HUMAN RESOURCE LEGISLATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Legislation that impacts the management of human resources within the organization.

HRMN 5470 EMPLOYEE COMPENSATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Modern compensation systems, strategic planning, wage and salary management, benefits administration and pay incentive development.

HRMN 5510 HUMAN RESOURCE PLANNING, DEVELOPMENT, AND APPRAISAL (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Theory, practice and design of managerial systems in these functions.

HRMN 5540 HUMAN RESOURCES SELECTION AND PLACEMENT (3) LEC. 3. Pr. (HRMN 3420 or HRMN 3423) and (BUAL 2600 or BUAL 2603 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3600 or STAT 3610). A review of contemporary issues involved in administering a program for selecting employees.

HRMN 5900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 6 credit hours.

HRMN 5960 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Independent study investigating current literature in management. Course may be repeated for a maximum of 6 credit hours.

HRMN 6460 HUMAN RESOURCE LEGISLATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Legislation that impacts the management of human resources within the organization.

HRMN 6470 EMPLOYEE COMPENSATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Study of the theory, procedures, techniques, and practices used to administer modern organization compensation systems.

HRMN 6510 HR PLANNING DEV & APPRAISAL (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Theory, practice, and design of managerial systems and these functions.

HRMN 6540 HUMAN RESOURCES SELECTION AND PLACEMENT (3) LEC. 3. Pr. (HRMN 3420 or HRMN 3423) and (BUAL 2600 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010). A review of contemporary issues involved in administering a program for selecting employees.

HRMN 6900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 3 credit hours.

HRMN 6960 SPECIAL PROBLEMS (3) IND. Departmental approval. General management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 6 credit hours.

Information Systems Management Courses

ISMN 2140 INTRODUCTION TO MANAGEMENT INFORMATION SYSTEMS (2) LEC. 2. The fundamental principles of the structure and management of information systems. Credit will not be given for both ISMN 2140/2143 and ISMN 3140/3143.

ISMN 3010 PROFESSIONAL DEVELOPMENT IN INFORMATION SYSTEMS (1) LEC. 1. SU. Pr. P/C ISMN 2140. Career planning and preparation for employment as an information systems management professional.

ISMN 3040 BUSINESS TELECOM MANAGEMENT (3) LEC. 3. Pr. ISMN 3140 or ISMN 3143. Voice communications and technology and data communications (LAN, WAN, internet broadband), networks, protocols, standards, legislation and project development and management.

ISMN 3070 BUSINESS SYSTEM LOGIC AND MODELING (3) LEC. 3. Concepts, techniques, and tools for discovering, specifying, and modeling business logic are introduced, explored, and applied.

ISMN 3080 PROGRAMMING AND COMPUTER APPLICATIONS (3) LEC. 3. Visual and object-oriented business programming languages are introduced and explored.

ISMN 3140 INTRODUCTION TO MANAGEMENT INFORMATION SYSTEMS (2) LEC. 2. The fundamental principles of the structure and management of information systems. Credit will not be given for both ISMN 2140/2143 and ISMN 3140/3143.

ISMN 3830 DATABASE MANAGEMENT SYSTEMS (3) LEC. 3. Business applications software in a database environment, complex data, and file structures, systems design consideration of global and distributed databases.

ISMN 3840 ANALYSIS OF BUSINESS SYSTEMS (3) LEC. 3. The study and application of tools, techniques, and methodologies to analyze, understand, and model business systems.

ISMN 4090 DIGITAL BUSINESS DESIGN (3) LEC. 3. Pr. ISMN 3830 or MNGT 3830 or MNGT 3833. Students bring together knowledge of digital technologies and their skills in business design and development to create innovative, leading-edge processes, products, and services for today's modern organizations.

ISMN 4850 COMPETITIVE STRATEGIES THROUGH INFORMATION (3) LEC. 3. Emphasizes how competitive strategies for companies are formulated and implemented using a combination of information technologies.

ISMN 4920 INTERNSHIP (1-3) AAB/INT. SU. Pr. ISMN 3010. Approval by departmental internship program committee. Course may be repeated for a maximum of 3 credit hours.

ISMN 5040 TELECOMMUNICATIONS MANAGEMENT (3) LEC. 3. Pr. (ISMN 3140 or ISMN 3143) or ISMN 2140. Discussion of the importance of telecommunications to an organization, including technology required, use strategy, and management.

ISMN 5290 BUSINESS PROGRAMMING FOR ANALYTICS (3) LEC. 3. Programming languages and skills, with emphasis on designing and implementing computer-based business solutions. Credit will not be given for both ISMN 5290/5293 and ISMN 6290/6296.

ISMN 5360 APPLICATION OF GEOSPATIAL INFORMATION SYSTEMS FOR BUSINESS (3) LEC. 3. GIS involves the use of GIS and desktop mapping technology to aid in processes such as disaster recovery, facility planning and management, market segmentation, and community growth. The student will learn how to strategically use GIS to facilitate organizational performance. Credit will not be given for both ISMN 5360/5363 and ISMN 6360/6366.

ISMN 5370 PROJECT MANAGEMENT (3) LEC. 3. Tools and techniques of information technology project management including leading project management software. Credit will not be given for both ISMN 5370/5373 and ISMN 6370/6373.

ISMN 5620 BUSINESS APPLICATIONS WITH OPEN SOURCE SOFTWARE (3) LEC. 3. Overview of business solutions with open source software. Students will have a hands-on opportunity to learn to administer and manage open source software and to become comfortable deploying/employing popular OSS applications as business solutions.

ISMN 5630 CLOUD SERVICES (3) LEC. 3. This course is a comprehensive introduction to the world of cloud computing, covering its fundamental concepts, various service models, and practical applications. This course delves into key cloud services such as computing, storage, networking, databases, and security while also addressing topics like cloud architecture, management, and cost optimization. Credit will not be given for both ISMN 5630 and ISMN 6630/6636.

ISMN 5640 SERVERSIDE INTERNET PGM (3) DSL/LEC. Fundamentals of server-side Internet programming using technologies such as PHP, MySQL, and XML.

ISMN 5650 ADVANCED BUSINESS APPLICATION DEVELOPMENT (3) LEC. 3. Pr. ISMN 3080 and P/C ISMN 3830. Fundamentals of developing comprehensive, component-based local and Internet business applications. Grade of C or better in prerequisite course. Credit will not be given for both ISMN 5650 and ISMN 6650/6656.

ISMN 5680 ADVANCED DATA BASE ADMINISTRATION AND DEVELOPMENT (3) LEC. 3. Pr. ISMN 3830. Key tasks and functions required of a database administrator in a business environment. Credit will not be given for both ISMN 5680 and ISMN 6680/6686.

ISMN 5730 SECURITY AND INFORMATION ASSURANCE (3) LEC. 3. This course covers the fundamentals of computer security and information assurance from a management perspective. The student will be exposed to security and information assurance topics such as security policies, confidentiality, and ethics. Credit will not be given for both ISMN 5730/5733 and ISMN 6730/6736.

ISMN 5740 INFORMATION RISK ANALYSIS (3) LEC. 3. Indepth instruction on the range of skills required of persons engaged in the performance of risk analysis functions. Credit will not be given for both ISMN 5740/5743 and ISMN 6740/6746.

ISMN 5750 INFORMATION TECHNOLOGY AUDITING (3) LEC. 3. Pr. (ISMN 5730 or ISMN 5670). This course presents in-depth instruction on the range of skills required of persons engaged in the performance of IT audit. The skills include those required by but not limited to a technology analyst, data scientist, or CIO. Credit will not be given for both ISMN 5750/5753 and ISMN 6750/6756.

ISMN 5880 ADVANCED PRACTICAL EXPERIENCE (3) LEC. 3. Pr. ISMN 4090 and ISMN 5650. This course synthesizes theory and principles of management information systems (MIS) using real-life, hands-on projects through experiential learning. It's the capstone course for the major.

ISMN 5900 DIRECTED STUDIES (1-3) AAB/IND. SU. Independent study on current topics in information systems management. Course may be repeated for a maximum of 6 credit hours.

ISMN 5960 SPECIAL PROBLEMS (3) AAB/IND. 3. Independent study investigating current literature in information systems management. Course may be repeated for a maximum of 6 credit hours.

ISMN 6040 TELECOMMUNICATIONS MANAGEMENT (3) LEC. 3. Discussion of the importance of telecommunications to an organization, including technology required, use strategy, and management. Credit will not be given for both ISMN 5040 and ISMN 6040/6046.

ISMN 6270 CURRENT ISSUES IN INFORMATION SYSTEMS FOR ORGANIZATIONS (3) LEC. 3. This course covers current issues in Information Systems Management and Technology. As such, topics may differ from semester to semester. The objective of the course is to allow students to become familiar with issues such as emerging technologies, information systems and their role in vertical portals, and the role of information systems in industry. Course is designed to enable students to take it twice with subject change. Course may be repeated for a maximum of 6 credit hours.

ISMN 6290 BUSINESS PROGRAMMING FOR ANALYTICS (3) LEC. 3. Programming languages and skills, with emphasis on designing and implementing computer-based business solutions. Credit will not be given for both ISMN 5290 and ISMN 6290.

ISMN 6370 PROJECT MANAGEMENT (3) LEC. 3. Tools and techniques of information technology project management including leading project management software. Credit will not be given for both ISMN 5370/5373 and ISMN 6370/6376.

ISMN 6380 SOCIAL MEDIA AS A TOOL FOR BUSINESS STRATEGY (3) LEC. 3. Learn how to use social media as a tool to integrate business processes and enhance business performance. Credit will not be given for both ISMN 5380/5383 and ISMN 6380/6386.

ISMN 6620 BUSINESS APPLICATIONS WITH OPEN SOURCE SOFTWARE (3) LEC. 3. Evaluates business solutions with open source software. Students will have a hands-on opportunity to learn to administer and manage open source software and to become comfortable deploying/employing popular OSS applications as business solutions.

ISMN 6630 CLOUD SERVICES (3) LEC. 3. This course is a comprehensive introduction to the world of cloud computing, covering its fundamental concepts, various service models, and practical applications. This course delves into key cloud services such as computing, storage, networking, databases, and security while also addressing topics like cloud architecture, management, and cost optimization. Credit will not be given for both ISMN 5630 and ISMN 6630/6636.

ISMN 6640 SERVERSIDE INTERNET PGM (3) LEC. 3. Fundamentals of server-side Internet programming using technologies such as PHP, MySQL, and XML. Credit will not be given for both ISMN 5640 and ISMN 6640/6646.

ISMN 6650 ADVANCED BUSINESS APPLICATION DEVELOPMENT (3) LEC. 3. Fundamentals of developing comprehensive, component-based local and Internet business applications. Credit will not be given for both ISMN 5650 and ISMN 6650/6656.

ISMN 6670 SECURITY AND INFORMATION ASSURANCE (3) LEC. 3. This course covers the fundamentals of computer security and information assurance from a management perspective. The student will be exposed to security and information assurance topics such as security policies, confidentiality and ethics. Organizational issues of security and methodologies for information assurance will be discussed from a managerial perspective.

ISMN 6680 ADVANCED DATA BASE ADMINISTRATION AND DEVELOPMENT (3) LEC. 3. Pr. ISMN 3830 or ISMN 7830 or ISMN 7836. Key tasks and functions required of a database administrator in a business environment. Credit will not be given for both ISMN 5680 and ISMN 6680/6686.

ISMN 6690 KNOWLEDGE MANAGEMENT AND ORGANIZATIONAL LEARNING (3) LEC. 3. Introduction to knowledge management and its role in organizational decision-making and learning. Studies of issues related to management, creation, and use of knowledge as well as issues related to system design and implementation. Credit will not be given for both ISMN 5690 and ISMN 6690/6696.

ISMN 6710 INFORMATION RISK ANALYSIS (3) LEC. 3. Departmental approval. In-depth instruction on the range of skills required of persons engaged in the performance of risk analysis functions.

ISMN 6730 SECURITY AND INFORMATION ASSURANCE (3) LEC. 3. This course covers the fundamentals of computer security and information assurance from a management perspective. The student will be exposed to security and information assurance topics such as security policies, confidentiality and ethics. Credit will not be given for both ISMN 5730/5733 and ISMN 6730/6736.

ISMN 6740 INFORMATION RISK ANALYSIS (3) LEC. 3. In-depth instruction on the range of skills required of persons engaged in the performance of risk analysis functions. Credit will not be given for both ISMN 5740/5743 and ISMN 6740/6746.

ISMN 6750 INFORMATION TECHNOLOGY AUDITING (3) LEC. 3. This course presents in-depth instruction on the range of skills required of persons engaged in the performance of IT audit. The skills include those required by but not limited to a technology analyst, data scientist, or CIO. May count either ISMN 5750 or ISMN 6750.

ISMN 6870 BUSINESS INTELLIGENCE APPLICATIONS (3) LEC. 3. Pr. ISMN 3830 or BUAL 5650. Key tasks, tools, techniques and methodologies supporting the application of Business Intelligence Systems in organizations, and related management issues. Credit will not be given for both ISMN 5870 and ISMN 6870/6876.

ISMN 6880 MANAGEMENT INFORMATION SYSTEMS PROJECTS (3) DSL/LEC. Synthesizes theory and principles of management information systems (MIS) using real-life, hands-on-projects.

ISMN 6900 DIRECTED STUDIES (3) DSL/IND. 3. SU. Independent study on current topics in information systems management. Course may be repeated for a maximum of 9 credit hours.

ISMN 6960 SPECIAL PROBLEMS (3) DSL/IND. 3. General information systems management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 9 credit hours.

ISMN 7020 BUSINESS TELECOMMUNICATIONS AND NETWORKS (3) LEC. 3. Provides an understanding of voice and data communications, e.g., networks (LAN, internet), protocols standards, legislation and project development, so that managers, might utilize telecommunications effectively.

ISMN 7140 MANAGING END USER COMPUTING (3) LEC. 3. Studies MIS from user's perspective, and compares it with the roles of the professional department. Course covers support of desktop applications, data usage, and communications.

ISMN 7360 INTEGRATING THEORY AND PRACTICE FOR TECHNOLOGY MANAGERS (3) LEC. 3. A study of the technical and non-technical forces that influence the decision-making process in companies by the use of innovative instructional material.

ISMN 7380 INTEGRATING INFORMATION TECHNOLOGIES TO PROVIDE COMPETITIVE ADVANTAGE (3) LEC. 3. How to integrate effectively information technologies in formulating and implementing competitive strategies for companies.

ISMN 7660 INFORMATION SYSTEMS ANALYSIS AND DESIGN (3) LEC. 3. General systems theory, information systems logical and physical analysis, structured and object-oriented methodologies and prototyping, system documentation, general design and use of CASE tools.

ISMN 7730 MANAGEMENT OF INNOVATION (3) LEC. 3. Pr. BUSI 7220 or BUSI 7226. The process of product and service innovation on two levels: managing product design and general strategies for managing multiple innovation streams.

ISMN 7760 QUANT METHODS IN OPS MNGT (3) LEC. 3.

ISMN 7830 DATABASE DEVELOPMENT AND DESIGN (3) LEC. 3. Database management systems using database methodologies to support business applications, including requirements for distributed databases.

ISMN 7870 EXPERT SYSTEMS IN BUSINESS (3) LEC. 3. Pr. BUSI 7220 or BUSI 7226. Study of expert systems and other knowledge-based systems in the organization, including relevant concepts, methodologies, architectures, strategies, and issues.

ISMN 7880 ADV MNGT OF INFO SYS (3) LEC. 3. In-depth inquiry and analysis of advanced information technologies in organizations.

ISMN 7890 INFORMATION RESOURCE MANAGEMENT (3) LEC. 3. Pr. BUSI 7220 or BUSI 7226. Management of information systems resources, unique management problems in a computer information systems environment. Strategic and competitive analysis of information technology.

ISMN 7970 SPECIAL TOPICS IN INFORMATION SYSTEMS MANAGEMENT (1-3) LEC. 1-3. Specialized topics in information systems management not otherwise covered in existing courses. Course may be repeated for a maximum of 6 credit hours.

ISMN 7980 MSIS PROJECT (1-10) DSL/IND. 1-10. SU. Departmental approval. Independent exploration of an approved topic/problem that allows the student to demonstrate the application of knowledge and capabilities gained during the program. Approval of the project and assessment of its deliverables by the student's advisory committee is required. Course may be repeated for a maximum of 10 credit hours.

ISMN 8010 IS MANAGEMENT RESEARCH SEM. I (3) SEM. 3. Departmental approval. Preparation in conceptualization, conduct, and presentation MIS research.

ISMN 8020 IS MANAGEMENT RESEARCH SEMINAR II (3) SEM. 3. Departmental approval. Preparation in conceptualization, conduct, and presentation of applied and case studies research in MIS.

ISMN 8030 DOCTORAL SEMINAR IN INFORMATION SYSTEMS RESEARCH I (3) SEM. 3. Research methodologies used in conducting research with emphasis on empirical research methods.

ISMN 8040 DOCTORAL SEMINAR IN INFORMATION SYSTEMS RESEARCH II (3) SEM. 3. Research methodologies used in conducting research with emphasis on conceptual and empirical research methods.

ISMN 8500 ADVANCED IS MANAGEMENT RESEARCH SEMINAR I (3) SEM. 3. Departmental approval. Theoretical foundations and research directions in the management of technology and technological innovation, with the primary focus on information technology and research.

ISMN 8660 ADVANCED IS MANAGEMENT RESEARCH SEMINAR II (3) SEM. 3. Departmental approval. Theoretical foundations and research directions in the alignment of information technology strategy to business objectives and goals.

ISMN 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Must be degree seeking PhD student in the Business with concentration in IS program.

Management Courses

MNGT 3010 PROFESSIONAL DEVELOPMENT IN MANAGEMENT (1) LEC. 1. SU. Pr. (P/C MNGT 3100 or P/C MNGT 3103 or P/C MNGT 3107) and P/C BUSI 2010. Career planning and preparation for employment in a management position.

MNGT 3100 PRINCIPLES OF MANAGEMENT (3) LEC. 3. Management functions and the applications of management principles in organization. Junior standing. May count either MNGT 3100 or MNGT 3810.

MNGT 3107 HONORS PRINCIPLES OF MANAGEMENT (3) LEC. 3. Pr. Honors College. Management functions and the applications of management principles in organization. Fall, Spring. Junior standing.

MNGT 3460 ORGANIZATIONAL BEHAVIOR (3) LEC. 3. Pr. P/C MNGT 3100 or P/C MNGT 3103 or P/C MNGT 3107 or P/C MNGT 3810. Study, analysis and application of theories and techniques for understanding, predicting and managing human behavior in the organizational context.

MNGT 3810 MANAGEMENT FOUNDATIONS (3) LEC. 3. Management Foundations is a broad based introductory course that will focus on management functions and applications of management principles. This course is not open to undergraduates majoring in business. Junior standing. May count either MNGT 3100 or MNGT 3810.

MNGT 3970 GLOBAL PERSPECTIVES IN BUSINESS IN SPAIN (6) LEC. 6. The objective of the course is to learn about business in Spain by immersing the student totally into the Spain language and culture. Course may be repeated for a maximum of 12 credit hours.

MNGT 4100 MANAGEMENT IN GLOBAL BUSINESS ENVIRONMENT (3) LEC. 3. Pr. MNGT 3100 or MNGT 3103 or MNGT 3107. Issues unique to managing operations in the global business environment.

MNGT 4400 ORGANIZATIONAL CHANGE (3) LEC. 3. Pr. MNGT 3100 or MNGT 3103 or MNGT 3107. The complexities involved in implementing change in organizations.

MNGT 4610 INTERNATIONAL FIELD ANALYSIS PROJECT COURSE (3) LEC. 3. Field analysis team projects with local or multinational organizations in a foreign county. Course will be taught in conjunction with COB International Studies Programs.

MNGT 4690 ETHICAL ISSUES IN MANAGEMENT (3) LEC. 3. Pr. (MNGT 3100 or MNGT 3103 or MNGT 3107) and (FINC 3610 or FINC 3613 or FINC 3617). The course is designed to help students gain a better understanding of how ethical dilemmas can impact managerial decisions.

MNGT 4800 STRATEGIC MANAGEMENT (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317) and (MNGT 3100 or MNGT 3103 or MNGT 3107) and (FINC 3610 or FINC 3613 or FINC 3617). Objectives, strategy, and policies pertaining to a total organization. Problem-solving and the relationship between the functional areas of an organization. College of Business Information Technology requirement.

MNGT 4920 INTERNSHIP (1-6) AAB/INT. SU. Pr. 2.50 GPA. MNGT 3100 or MNGT 3103 or MNGT 3107. Departmental approval. Approval by departmental intern program committee. Course may be repeated for a maximum of 6 credit hours.

MNGT 4950 SEMINAR IN MANAGEMENT (1-10) AAB/SEM. Departmental approval. Course may be repeated for a maximum of 10 credit hours.

MNGT 4970 SPECIAL TOPICS IN MANAGEMENT (3) LEC. 3. Pr. MNGT 3100. This course covers current topics related to managing people and organizations. or Departmental Approval. Course may be repeated for a maximum of 6 credit hours.

MNGT 5560 LEADERSHIP (3) LEC. 3. Facilitates the understanding of leadership and allows student to examine their own leadership behaviors.

MNGT 5900 DIRECTED STUDIES (1-3) AAB/IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 6 credit hours.

MNGT 5960 SPECIAL PROBLEMS IN MANAGEMENT (1-3) AAB/IND. Departmental approval. Independent study investigating current literature in management. Course may be repeated for a maximum of 6 credit hours.

MNGT 6560 LEADERSHIP (3) LEC. 3. Facilitates the understanding of leadership and allows student to examine their own leadership behaviors.

MNGT 6900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 3 credit hours.

MNGT 6960 SPECIAL PROBLEMS (1-3) AAB/IND. Departmental approval. General management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 6 credit hours.

MNGT 6970 SPECIAL TOPICS IN MANAGEMENT (3) LEC. 3. This course covers emerging and current topics related to managing people and organizations that are not otherwise covered in existing courses.

MNGT 7970 SPECIAL TOPICS IN MANAGEMENT (3) LEC. 3. Departmental approval. Current topics in management.

MNGT 8030 RESEARCH METHODS IN MANAGEMENT I (3) LEC. 3. Pr. MNGT 8400. Research methodologies used in conducting research with emphasis on empirical organizational behavior research methods. A graduate-level course taken in major field, and working knowledge of SPSS or SAS.

MNGT 8310 SEMINAR IN ADVANCED ORGANIZATIONAL BEHAVIOR (3) LEC. 3. Departmental approval. Advanced study of theories and research in organizational behavior. Overarching organizational behavior paradigms and theoretical perspectives and research findings at the individual and group levels of analysis.

MNGT 8320 SEMINAR IN STRATEGY IMPLEMENTATION (3) LEC. 3. Departmental approval. Review of the major theoretical perspectives and the empirical literature supporting the research field of strategic management with an emphasis on strategy implementation.

MNGT 8330 SEMINAR IN STRATEGY FORMULATION (3) LEC. 3. Departmental approval. Review of the major theoretical perspectives and the empirical literature supporting the research field of strategic management with an emphasis on strategy formulation.

MNGT 8400 ADVANCED QUANTITATIVE METHODS FOR MANAGEMENT I (4) LEC. 3. LAB. 1. Pr. STAT 7000. Study of the application of linear regression analysis to business research. First advanced course in applied linear statistics models. STAT 7000 or approved equivalent.

MNGT 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Marketing Courses

MKTG 3010 PROFESSIONAL DEVELOPMENT IN MARKETING (1) LEC. 1. SU. Pr. (P/C MKTG 3310 or P/C MKTG 3313 or P/C MKTG 3317) and P/C BUSI 2010. Career planning and preparation for employment in the marketing industry.

MKTG 3310 PRINCIPLES OF MARKETING (3) LEC. 3. Study of functions, institutions, and basic problems in marketing of goods and services in a global economy. Credit will not be given for both MKTG 3310 and MKTG 3810. Junior standing.

MKTG 3317 HONORS PRINCIPLES OF MARKETING (3) LEC. 3. Pr. Honors College. Study of functions, institutions, and basic problems of marketing goods and services in a global economy. Junior standing.

MKTG 3810 FOUNDATIONS OF BUSINESS MARKETING (3) LEC. 3. Broad-based course for non-business majors that focuses on marketing functions and applications of marketing principles. Students enrolled in a business major or the Marketing minor may not enroll in this course. May count either MKTG 3310 or MKTG 3810; credit will not be awarded for both MKTG 3310 and MKTG 3810. Junior standing.

MKTG 4310 SPORTS AND ENTERTAINMENT MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Application of marketing theory and practice to the sports and entertainment business.

MKTG 4330 RETAIL MANAGEMENT (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Principles of retail operation: facility location, layout, purchasing, pricing and merchandise control.

MKTG 4340 MARKETING AND NEW PRODUCT DEVELOPMENT (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Marketing-based analysis of profitable new products and brand extensions involving the invention, development, and product launch plus sustaining market success.

MKTG 4390 PERSONAL SELLING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Selling strategy as an interdisciplinary business activity.

MKTG 4400 INTERNATIONAL MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Strategy, policy, and the variables affecting international marketing decisions.

MKTG 4410 CONSUMER BEHAVIOR (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Critical review and analysis of possible pragmatic applications of consumer behavior theories used for marketing decision making.

MKTG 4420 ADVANCED PERSONAL SELLING (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810) and (MKTG 4390 or MKTG 4393). Grade of C or better in prerequisite courses. Advanced personal selling skills, practices and programs are covered. Emphasis is placed on sales presentations, demonstrations, negotiations and relationship building skills.

MKTG 4430 BUSINESS TO BUSINESS MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Marketing strategy and applications for business-to-business companies and markets.

MKTG 4440 MARKETING ETHICS AND CORPORATE SOCIAL RESPONSIBILITY (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Explores marketing ethics and social responsibility from an organizational perspective.

MKTG 4450 CUSTOMER RELATIONSHIP MANAGEMENT (3) LEC. 3. Pr. MKTG 3310 or MKTG 3810 or MKTG 3317. This course is designed to compare and contrast the basic concepts of customer relationship management (CRM) as related to sales strategy. Grade of C or better in prerequisite course.

MKTG 4460 ADVERTISING STRATEGY (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. The course applies research in psychology and the behavioral sciences to advertising strategy, including the methodology for planning, execution, and evaluation of advertising campaigns.

MKTG 4470 PHARMACEUTICAL MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. This course will examine the current pharmaceutical marketing environment from a practical perspective. Grade of C or better in prerequisite course.

MKTG 4480 PRICING STRATEGY (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. The examination of pricing objectives, strategy, and tactics in marketing. Grade of C or better in prerequisite course.

MKTG 4490 NEGOTIATING AND CONFLICT RESOLUTION (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. The course integrates conceptual understanding with practical application of negotiation, with a particular emphasis on sales negotiations.

MKTG 4800 MARKETING STRATEGY (3) LEC. 3. Pr. MKTG 4360 or MKTG 5360 and Completed courses from MKTG 4050-5500 or BUSI 3250 or MKTG 4050-5500. and MKTG 3310 or MKTG 3313 or MKTG 3317. Strategic perspectives of market dynamics in different competitive environments across organizational levels. Pr MKTG 3310/3317 and Pr/Cr MKTG 4360/5360 and Pr 9 hours of Marketing electives between MKTG 4050 - 5500 or BUSI 3250. All Pr and Cr courses require a C or better. Credit will not be given for both MKTG 4800 and MKTG 4980.

MKTG 4900 DIRECTED STUDIES (1-3) AAB/IND. 3. SU. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317. Grade of C or better. Advanced research, reading and study in marketing. Department approval. Course may be repeated for a maximum of 6 credit hours.

MKTG 4920 MARKETING STUDENT INTERNSHIP PROGRAM (3) AAB/INT. 3. SU. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317. Departmental approval. Grade of C or better. Provides a relevant and meaningful work experience in a marketing or marketing-related business, industry or organization.

MKTG 4970 SPECIAL TOPICS IN MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317. Grade of C or better. Examination of current marketing topics. Course may be repeated for a maximum of 9 credit hours.

MKTG 5350 SERVICES MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Examination of marketing in service industries and implementation of service marketing strategies. Credit will not be given for both MKTG 4350 and MKTG 5350.

MKTG 5360 MARKETING RESEARCH AND ANALYTICS (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810) and (BUAL 2650 or BUAL 2653). Grade of C or better in prerequisite courses. Research methods in marketing and their application to marketing problems. Credit will not be given for both MKTG 4360 and MKTG 5360.

MKTG 5370 SALES MANAGEMENT (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810) and (P/C MKTG 4390 or P/C MKTG 4393). Grade of C or better in prerequisite courses. Principles and practices of organization and administration of sales organizations. Credit will not be given for both MKTG 4370 and MKTG 5370.

MKTG 5500 DIGITAL MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Use of electronic media and the Internet for marketing strategy. Credit will not be given for both MKTG 4500 and MKTG 5500.

MKTG 5507 HONORS DIGITAL MARKETING (3) LEC. 3. Pr. Honors College. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Use of electronic media and the Internet for marketing strategy. Credit will not be given for both MKTG 4500 and MKTG 5500 (5507).

MKTG 6350 SERVICES MARKETING (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Examination of marketing in service industries and implementation of service marketing strategies.

MKTG 6360 MARKETING RESEARCH AND ANALYTICS (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Research methods in marketing and their application to marketing problems.

MKTG 6370 SALES MANAGEMENT (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Principles and practices of organization and administration of sales organizations.

MKTG 6380 CUSTOMER INSIGHTS AND MARKETING SOLUTIONS (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Study of tools and strategies that businesses use to gather deep understanding about their customers' needs, behaviors, and preferences, then leverage that information to create targeted and effective marketing campaigns, ultimately leading to improved customer engagement and sales.

MKTG 6500 DIGITAL MARKETING (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Use of electronic media and the Internet for marketing strategy.

MKTG 7970 SPECIAL STUDIES IN MARKETING (3) LEC. 3. Pr. BUSI 7210. Departmental approval. Grade of C or better in prerequisite course. Variable content in the marketing area. Course may be repeated for a maximum of 6 credit hours.

Supply Chain Management Courses

SCMN 2150 PRINCIPLES OF SUPPLY CHAIN MANAGEMENT (2) LEC. 2. Fundamental concepts, activities, and tools of supply chain management.

SCMN 3100 FOUNDATIONS OF BUSINESS LOGISTICS (3) LEC. Pr. SCMN 2150. The course provides an introduction to logistics activities and processes from a supply chain perspective. Foundational concepts, current issues, and strategies used to obtain competitive advantage in a global business environment will be addressed. For Non-SCM Majors and Non-SCM Minors only. Credit will not be given for both SCMN 3710 and SCMN 3100.

SCMN 3710 LOGS: MNGT OF FULFILLMENT PROC (3) LEC. 3. Pr. SCMN 2150 or SCMN 2153 or SCMN 3150 or SCMN 3153. SCMN 2150/2153 requires a grade of 'C' or better. Management of logistics processes involved in meeting customer demand, including inventory, transportation, distribution, and related activities. Fall, Spring, Summer.

SCMN 3720 TRANSPORTATION AND ORDER FULFILLMENT (3) LEC. 3. Pr. SCMN 2150. Pre-requisite requires a grade of 'C' or better. Management of transportation and distribution activities involved in the order fulfillment process. Fall, Spring.

SCMN 3730 STRATEGIC SOURCING (3) LEC. 3. Pr. SCMN 2150. Pre-requisite requires a grade of 'C' or better. Addresses the scope of activities and various roles of the procurement function within the organization and between firms. Fall, Spring.

SCMN 3740 SUPPLY & DEMAND INTEGRATION (3) LEC. 3. Pr. SCMN 2150. Credit will not be given for both SCMN 3710 and SCMN 3740. SCMN 3740 is a foundational supply chain course that is focused on the key concepts and decisions needed to align supply with demand. This course is designed to provide an overview of supply chain planning to achieve integration in all time horizons-short, intermediate, and long term.

SCMN 3810 PROFESSIONAL DEVELOPMENT IN SUPPLY CHAIN MANAGEMENT (1) LEC. 1. SU. Pr. SCMN 2150 and P/C BUSI 2010. SCMN majors only. Career planning and preparation for supply chain internships and professional experience opportunities. Credit will not be given for both SCMN 3810 and BUSI 3010 or SCMN 4810. Fall, Spring.

SCMN 3910 PRACTICUM IN SUPPLY CHAIN MANAGEMENT (1-3) PRA. 1-3. SU. Pr. (SCMN 2150 or SCMN 2153 or SCMN 3150) and (CTCT 3250 or CTCT 3253). Departmental approval. CTCT 3250/3253 requires a grade of 'C' or better. SCMN majors only. Cooperatively selected field activity to gain practical SCM experience. Course may be repeated for a maximum of 6 credit hours.

SCMN 3920 INTERNSHIP IN SUPPLY CHAIN MANAGEMENT (0-6) INT. SU. Pr. (SCMN 3720 or SCMN 3730 or SCMN 3740) and (CTCT 3250 or CTCT 3253) and SCMN 3810. Departmental approval. Prerequisites require a grade of 'C' or better. SCMN majors only. Professional work experience in a supply chain focused position. Course may be repeated for a maximum of 6 credit hours.

SCMN 4620 SUSTAINABLE SUPPLY CHAIN MANAGEMENT (3) LEC. 3. Pr. SCMN 3730. Pressure from customers, policy makers and non-governmental organizations compels companies to address the environmental footprint of their operations and the social impact they have on local communities. This course focuses on the “triple bottom line,” which addresses how a company must strategically incorporate environmental, social and economic dimensions.

SCMN 4700 SUPPLY CHAIN PERFORMANCE MANAGEMENT (3) LEC. 3. Pr. (SCMN 3710 or SCMN 3740) and SCMN 3720 and SCMN 3730 and CTCT 3250. Pre-requisites require a grade of 'C' or better. Understanding and managing supply chain performance through the use of metrics, analysis, and improvement strategies. Fall, Spring.

SCMN 4730 SUPPLY CHAIN TOOLS AND TECH (3) LEC. 3. Pr. SCMN 3730 and SCMN 3720. Tools, techniques and technologies of various supply chain processes.

SCMN 4750 ENTERPRISE SYSTEMS IN SUPPLY CHAIN MANAGEMENT (3) LEC. 3. Pr. SCMN 4700 and SCMN 4730. This course provides detailed hands –on training on ERP systems using SAP. The course will cover end to end ERP operation, including procurement, manufacturing, sales & distribution, human resources, cost and management accounting, etc. At the end of this class, students who complete it with a B or above will automatically be eligible for their SAP Recognition Certificate provided they have also passed SCMN 4730 and SCMN 4700 with B or above.

SCMN 4770 SUPPLY CHAIN OPERATIONS MANAGEMENT (3) LEC. 3. Pr. SCMN 3730 and SCMN 3720. Review and application of current supply chain strategies processes and information technologies required to compete in today's global marketplace. The course will focus on presenting key manufacturing management techniques used to balance supply with demand to ensure customer satisfaction.

SCMN 4800 SUPPLY CHAIN STRATEGY: A GLOBAL PERSPECTIVE (3) LEC. 3. Pr. (SCMN 3710 or SCMN 3713 or SCMN 3740) and SCMN 3720 and SCMN 3730 and (CTCT 3250 or CTCT 3253). Pre-requisites require a grade of "C" or better. Capstone course providing an intensive study of strategies used to facilitate global flows of product, information, and payments. Fall, Spring, Summer

SCMN 4820 SUPPLY CHAIN CONSULTING (3) LEC. 3. Pr. (BUAL 2600 or BUAL 2603 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3600) and BUAL 2650 and SCMN 3920. This special topic course is intended to help develop essential skills in planning and executing a company-focused consulting project.

SCMN 4900 DIRECTED STUDIES IN SUPPLY CHAIN MANAGEMENT (1-3) LEC/SEM. Departmental approval. Advanced individual research of SCM topic under direction of a faculty member. Course may be repeated for a maximum of 3 credit hours.

SCMN 4970 SPEC TOPS IN SUPPLY CHAIN MGNT (3-6) LEC. 3-6. Pr. SCMN 3720 and SCMN 3730. Current topics and issues related to the field of supply chain management. Course may be repeated for a maximum of 6 credit hours.

SCMN 5390 INTEGRATING BUSINESS PROCESSES WITH ERP (3) LEC. 3. Pr. (SCMN 3710 or SCMN 3713) and SCMN 3720. Examination of how integrating business processes in ERP environment promotes strategic alignment and performance gains for an organization. May count either SCMN 5390 or SCMN 6390.

SCMN 5500 INVENTORY AND WAREHOUSE MANAGEMENT (3) LEC. 3. Pr. SCMN 3710 and SCMN 3720. Departmental approval. Course focuses on issues related to managing inventories in a supply chain. Topics include: role of inventory in supply chains, inventory-related policies and decisions, and dealing with supply and demand uncertainty. Issues related to safety stock and replenishment planning, impact of lead times, and management of multi-echelon supply chains are covered. Additional issues related to warehousing inventory, such as storage and slotting policies, receiving and put away, order picking strategies and warehouse management are covered.

SCMN 5600 SUPPLY CHAIN PLANNING (3) LEC. 3. Pr. SCMN 3710 and SCMN 3720. Departmental approval. This course focuses on long-term and short-term planning of supply chains to provide a strategic fit with business objectives. Topics include: framework for supply chain planning and decision-making, distribution network designs and managing uncertainty, demand forecasting and aggregate planning. Issues related to supply chain coordination and planning for product availability under service levels are also covered. Additional issues related to sales and operations planning, managing economies of scale and revenue management are also covered.

SCMN 5720 QUALITY & PROCESS IMPROVEMENT (3) LEC. 3. Pr. SCMN 2150 and (BUAL 2600 or BUAL 2603 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3600) and P/C BUAL 2650. Fundamentals of process improvement; techniques for performing quality control functions; quality management systems.

SCMN 6390 INTEGRATING BUSINESS PROCESSES WITH ERP (3) LEC. 3. LAB. 0. Examination of how integrating business processes in ERP environment promotes strategic alignment and performance gains for an organization. Credit will not be given for both SCMN 5390 and SCMN 6390.

SCMN 6500 INVENTORY AND WAREHOUSE MANAGEMENT (3) LEC. 3. This course focuses on issues related to managing inventories in a supply chain. Topics include: role of inventory in supply chains, inventory-related policies and decisions, and dealing with supply and demand uncertainty. Issues related to safety stock and replenishment planning, impact of lead times, and management of multi-echelon supply chains are covered. Additional issues related to warehousing inventory, such as storage and slotting policies, receiving and put away, order picking strategies and warehouse management are covered.

SCMN 6600 SUPPLY CHAIN PLANNING (3) LEC. 3. This course focuses on long-term and short-term planning of supply chains to provide a strategic fit with business objectives. Topics include: framework for supply chain planning and decision-making, distribution network designs and managing uncertainty, demand forecasting and aggregate planning. Issues related to supply chain coordination and planning for product availability under service levels are also covered. Additional issues related to sales and operations planning, managing economies of scale and revenue management are also covered.

SCMN 6720 QUALITY & PROCESS IMPROVEMENT (3) LEC. 3. Fundamentals of process improvement; techniques for performing quality control functions; quality management systems. Fall, Spring. Student should have completed a basic statistics course prior to enrolling in SCMN 6720.

SCMN 6900 DIRECTED STUDIES (3) IND. SU. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 6960 SPECIAL PROBLEMS (3) IND. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 7600 SUPPLY MNGT AND MANUFACTURING (3) LEC. 3. Pr. P/C BUSI 7150. The management of purchasing, supply and materials management, manufacturing processes related to the fulfillment of supply chain requirements. Spring.

SCMN 7700 DEMAND MNGT & FULFILLMENT (3) LEC. 3. Pr. P/C BUSI 7150. The management of logistical processes related to the fulfillment of supply chain requirements. Primary topics include tin integrated planning, operations, and performance analysis of demand, inventory, transportation, distribution, and customer relationships. Summer.

SCMN 7770 SUPPLY CHAIN MANAGEMENT (3) LEC. 3. Problems and analysis in the design and management of the retail, industrial and service supply chain.

SCMN 7800 SUPPLY CHAIN STRATEGY (3) LEC. 3. Pr. P/C BUSI 7150. Advanced study of integrated supply chain theory, strategy, and practice. Topics include network design, collaboration, inventory visibility, process synchronization, information management, and financial analysis. Fall.

SCMN 7900 DIRECTED STUDIES (3) IND. SU. Departmental approval. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 8150 DOCTORAL SEMINAR ON CURRENT TOPICS IN SCM RESEARCH (3) LEC. 3. LAB. 0, SEM. 0. The class is a rigorous, seminar style course on Current Topics in SCM Research. Each class will familiarize you with the key insights in a current research topic (i.e., the “hot topics”) in the SCM area. The instructor has chosen to cover a broad range of active research to give you an overview of topics that people are working on currently and are likely to work on in the future.

SCMN 8250 LSCM INTERORGANIZATIONAL THEORY SEMINAR (3) LEC. 3. LAB. 0, SEM. 0. This is an advanced theories seminar in logistics and supply chain management (LSCM). This seminar is designed to expose doctoral students to accepted research grounding in LSCM and train students to be successful researchers. Management history and ten core theories are covered. We will be discussing seminal articles in-depth with a connection to recent works. These articles are published in top journals in LSCM, Economics, International Business, Management, Marketing, and Sociology.

SCMN 8350 EMPIRICAL METHODS IN SUPPLY MANAGEMENT RESEARCH (3) LEC. 1.5. LAB. 1.5. This course provides students with an overview of quantitative empirical research in major supply chain journals. Students will read and synthesize articles in top SCM journals which employ a variety of quantitative, empirical strategies. They will be provided with instruction on the application of a variety of approaches in Stata to analyze data. Students will also perform their own quantitative analysis with data of their choice.

SCMN 8450 HISTORY OF SUPPLY CHAIN MANAGEMENT & OPERATIONS RESEARCH (3) LEC. 3. LAB. 0, SEM. 0. In this seminar, students should gain a broad understanding of SCM topics in which prior scholars have conducted academic research. A review of the key ideas and principles scholars have addressed is undertaken to critically assess how the primary research streams in SCM have developed. Understanding this development will require considerable reading and thoughtful analysis outside of class.

SCMN 8550 SEMINAR IN GLOBAL SUPPLY CHAIN MANAGEMENT (3) LEC. 3. LAB. 0, SEM. 0. In this seminar, students will gain a broad understanding of global topics connected with SCM. A review of the key ideas and principles in International Business, Cross Border Trade, and Customs Unions are discussed. The role of tariffs, import and export barriers, and free trade on local and global economies are discussed and debated in detail.

SCMN 8650 RESEARCH METHODS IN SUPPLY CHAIN MANAGEMENT - 2 (3) LEC. 0. LAB. 0, SEM. 0. In this seminar, students will gain a deep understanding of statistical and methodological issues in SCM scholarship (especially latent variables). A review of the advanced topics is offered including usage in STATA or SAS. Students may be expected to demonstrate hands on expertise in these topics including writing code, implementing the methods, interpreting results and understanding their implications.

SCMN 8750 EXPERIMENTAL METHODS IN SUPPLY CHAIN MANAGEMENT (3) LEC. 0. LAB. 0, SEM. 0. In this seminar, students will gain a deep understanding of statistical and methodological issues in SCM scholarship (with a focus on experiments). A review of the topics is offered including usage in STATA or SAS. Students may be expected to demonstrate hands on expertise in these topics including writing code, implementing the methods, interpreting results and understanding their implications.

SCMN 8900 DIRECTED STUDIES (3) IND. SU. Departmental approval. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 8990 RESEARCH AND DISSERTATION (1-10) DSR. Must be degree seeking PhD student in the Business with concentration in the Supply Chain Management program.

School of Accountancy

The School of Accountancy is dedicated to advancing the field of accounting and preparing tomorrow's accounting leaders. Throughout the undergraduate program, accounting majors experience numerous opportunities to network with prospective employers and gain insight on career opportunities within the accounting profession. During the senior year, students are strongly encouraged to intern for the firm or corporation where they desire to work full-time after completing their education. The majority of students receive full-time job offers at the conclusion of their accounting internships and before enrolling in the Master of Accountancy (MAcc) Program.

Students who desire careers in public accounting must obtain 27 additional hours beyond the 123 hours required for the undergraduate degree in order to academically qualify for certification as a CPA. Most students pursue those additional hours through the MAcc Program. The MAcc Program provides students additional technical skills, research and communication skills, as well as focused preparation on passing the CPA Exam on the first sitting.

Majors

- Accountancy — On-Campus Option for First Degree Candidates (p. 372)
- Accountancy — Online Option for Second Degree Candidates (p. 373)

Minors

- Accountancy (p. 373)

Undergraduate Certificates

- Accountancy (p. 374)

Courses

ACCT 2110 PRINCIPLES OF FINANCIAL ACCOUNTING (3) LEC. 3. Basic accounting principles with focus on preparation and use of financial statements. Credit will not be given for both ACCT 2110 and ACCT 2810. Sophomore standing.

ACCT 2117 HONORS PRINCIPLES OF FINANCIAL ACCOUNTING (3) LEC. 3. Pr. Honors College. Basic accounting principles with focus on preparation and use of financial statements. Sophomore standing.

ACCT 2210 PRINCIPLES OF MANAGERIAL ACCOUNTING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. Emphasis on cost accounting, budgeting, and decision making using managerial accounting information. Sophomore standing.

ACCT 2700 BUSINESS LAW (3) LEC. 3. Introduction to contracts, sales, torts, ethics and the judicial system. Focus is on the business environment.

ACCT 2707 HONORS BUSINESS LAW (3) LEC. 3. Pr. Honors College. Introduction to contracts, sales, torts, ethics and the judicial system. Focus is on the business environment.

ACCT 2810 FUNDAMENTALS OF ACCOUNTING (3) LEC. 3. Principles of financial and managerial accounting. Not open to undergraduates majoring in Business. Credit will not be given for both ACCT 2110 and ACCT 2810.

ACCT 2817 HONORS FUNDAMENTALS OF ACCOUNTING (3) LEC. 3. Pr. Honors College. Principles of financial and managerial accounting. Not open to undergraduates majoring in Business. Credit will not be given for both ACCT 2110 and ACCT 2810.

ACCT 3210 ACCOUNTING FOR DECISION MAKING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making. Junior standing applies to ACCT 3210. ACCT 3210 is limited to students in the BSBA Online completer program.

ACCT 3310 BUSINESS PROCESSES AND INTERNAL CONTROLS (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. Developing knowledge of business processes, accounting for those business processes, and the internal controls surrounding such processes, both in a manual and computerized environment. Limited to students in the BSBA Online completer program. Credit will not be given for both ACCT 3310 and ACCT 3520.

ACCT 3810 PROFESSIONAL DEVELOPMENT IN ACCOUNTANCY (1) LEC. 1. SU. Pr. (P/C ACCT 3110 or P/C ACCT 3113 or P/C ACCT 5110) and P/C BUSI 2010. Career planning and preparation for transition from university student to accounting professional.

ACCT 4900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Advanced individual research and study in accounting under the direction of a faculty member. Course may be repeated for a maximum of 6 credit hours.

ACCT 4920 ACCOUNTING INTERNSHIP (1-6) DSL/LEC. SU. Internship opportunity with an accounting firm, corporation, or governmental entity. Course may be repeated for a maximum of 6 credit hours.

ACCT 5110 INTERMEDIATE ACCOUNTING I (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. Accounting principles and theory including accounting for current assets, liabilities, and investments. Junior standing applies to ACCT 5110. ACCT 5113 is limited to students accepted to online accounting program.

ACCT 5120 INTERMEDIATE ACCOUNTING II (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110. Grade of C or better. Continuation of ACCT 5110, with emphasis on fixed assets, capital structure, and cash flows. Junior standing applies to ACCT 5120. ACCT 5123 is limited to students accepted to online accounting program.

ACCT 5130 ADVANCED ACCOUNTING TOPICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. Emphasis on advanced accounting topics including business combinations, foreign currency transactions, derivatives, and other advanced financial topics.

ACCT 5140 SPECIAL TOPICS IN ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. A study of current issues in accounting theory and practice. Topics include regulations and economic and technological developments.

ACCT 5150 CURRENT ISSUES IN ACCOUNTING (3) LEC. 3. Pr. P/C ACCT 5110. Departmental approval. Examination of current issues in the accounting profession.

ACCT 5210 COST ACCOUNTING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making. Junior standing applies to ACCT 5210.

ACCT 5300 AUDITING & ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 3110 or ACCT 5110. Principles of auditing standards, ethics, controls, evidence, sampling, and audit reports.

ACCT 5410 INCOME TAX I (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110. Principles of federal taxation as it applies to individuals and property transactions.

ACCT 5420 INCOME TAX II (3) LEC. 3. Pr. ACCT 4410 or ACCT 4413 or ACCT 5410. Tax accounting for individuals, partnerships, corporations, estates, and trusts. Extensive use of a tax-service program. ACCT 5423 is limited to students accepted to online accounting program.

ACCT 5510 ACCOUNTING INFORMATION SYSTEMS (3) LEC. 3. Pr. P/C ACCT 3110 or P/C ACCT 3113 or P/C ACCT 5110. Developing knowledge of business processes, accounting for those business processes, and the internal controls surrounding such processes, both in a manual and computerized environment.

ACCT 5520 ACCOUNTING ANALYTICS (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110) and (CTCT 3250 or CTCT 3253) and (P/C ACCT 3520 or P/C ACCT 3523 or P/C ACCT 5510). Students will learn to analyze data and solve accounting based problems using advanced spreadsheet techniques, database management systems and other analysis tools.

ACCT 5610 GOVERNMENTAL AND NOT-FOR-PROFIT ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. Accounting for governmental and not-for-profit entities. Focus on effective use of resources.

ACCT 5620 ISSUES IN INTERNATIONAL ACCOUNTING (3) LEC. 3. Pr. P/C ACCT 5110. Departmental approval. Accounting issues concerning international business activity.

ACCT 5700 ADVANCED BUSINESS LAW (3) LEC. 3. Pr. ACCT 2700. Legal principles concerning secured transactions, bankruptcy, trusts and estates, partnership law, property, corporations, accountant's legal liability, and negotiable instruments. ACCT 5703 is limited to students accepted to online accounting program.

ACCT 5810 CORPORATE GOVERNANCE & ACCOUNTING ETHICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120. Analyzing the impact of corporate governance and accounting ethics on business transactions.

ACCT 6110 INTERMEDIATE ACCOUNTING I (3) LEC. 3. Accounting principles and theory including accounting for current assets, liabilities, and investments.

ACCT 6120 INTERMEDIATE ACCOUNTING II (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110 or ACCT 6116. Continuation of ACCT 6110/6116, with emphasis on fixed assets, capital structure, and cash flows.

ACCT 6130 ADVANCED ACCOUNTING TOPICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120 or ACCT 6126. Emphasis on advanced accounting topics including business combinations, foreign currency transactions, derivatives, and other advanced financial topics.

ACCT 6150 CURRENT ISSUES IN ACCOUNTING (3) LEC. 3. Pr. ACCT 5110. Departmental approval. Examination of current issues in the accounting profession.

ACCT 6210 COST ACCOUNTING (3) LEC. 3. Pr. ACCT 2110 or ACCT 2113 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making.

ACCT 6300 AUDITING & ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 3110 or ACCT 5110 or ACCT 6110. Principles of auditing standards, ethics, controls, evidence, sampling, and audit reports.

ACCT 6410 INCOME TAX I (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110 or ACCT 6116. Principles of federal taxation as it applies to individuals and property transactions.

ACCT 6420 INCOME TAX II (3) LEC. 3. Pr. ACCT 4410 or ACCT 4413 or ACCT 5410 or ACCT 6410 or ACCT 6416. Tax accounting for individuals, partnerships, corporations, estates and trusts. Extensive use of a tax-service program.

ACCT 6510 ACCOUNTING INFORMATION SYSTEMS (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113 or ACCT 5110 or P/C ACCT 6110 or P/C ACCT 6116. Developing knowledge of business processes, accounting for those business processes, and the internal controls surrounding such processes, both in a manual and computerized environment.

ACCT 6520 ACCOUNTING ANALYTICS (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110 or ACCT 6116) and (ACCT 3520 or ACCT 3523 or ACCT 5510 or ACCT 5513 or ACCT 6510 or ACCT 6516). Students will learn to analyze data and solve accounting based problems using advanced spreadsheet techniques, database management systems and other analysis tools.

ACCT 6610 GOVERNMENTAL AND NOT-FOR-PROFIT ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120. Accounting for governmental and not-for-profit entities. Focus on effective use of resources.

ACCT 6620 ISSUES IN INTERNATIONAL ACCOUNTING (3) LEC. 3. Pr. ACCT 5110. Departmental approval. Accounting issues concerning international business activity.

ACCT 6700 ADVANCED BUSINESS LAW (3) LEC. 3. Pr. ACCT 2700. Legal principles concerning secured transactions, bankruptcy, trusts and estates, partnership law, property, corporations, accountant's legal liability, and negotiable instruments.

ACCT 6810 CORPORATE GOVERNANCE & ACCOUNTING ETHICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120 or ACCT 6126. Analyzing the impact of corporate governance and accounting ethics on business transactions.

ACCT 7110 RESEARCH IN ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120. Departmental approval. An evaluation, critique, and application of financial accounting theory to current reporting problems using current research tools and resources.

ACCT 7130 FINANCIAL ANALYSIS & VALUATION (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123 or ACCT 5120 or ACCT 6120. Financial analysis to support managerial, investor, and creditor decision-making, forecasting financial statements and earnings, and applying valuation models to accounting measurement and investment decisions.

ACCT 7210 ACCOUNTING FOR DECISION MAKING AND CONTROL (3) LEC. 3. Pr. ACCT 3210 or ACCT 3213 or ACCT 5210 or ACCT 5213 or ACCT 6210 or ACCT 6216. Departmental approval. Relationship between management accounting and information systems and analysis of costs.

ACCT 7300 ADVANCED AUDITING AND ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 4310 or ACCT 4313 or ACCT 5300 or ACCT 5303 or ACCT 6300 or ACCT 6306. Advanced topics in auditing and assurance services.

ACCT 7320 FRAUD EXAMINATION (3) LEC. 3. Pr. ACCT 4310 or ACCT 4313 or ACCT 5300 or ACCT 5303 or ACCT 6300 or ACCT 6306. Learning how and why occupational fraud is committed and how fraudulent conduct is deterred, investigated, and resolved.

ACCT 7410 FEDERAL TAX RESEARCH (3) LEC. 3. Pr. ACCT 5420 or ACCT 5423 or P/C ACCT 6420 or ACCT 6426. Departmental approval. Sources of authority used in federal tax research and survey of tax policy issues.

ACCT 7420 CORPORATE AND PARTNERSHIP TAXATION (3) LEC. 3. Pr. ACCT 5420 or ACCT 5423 or ACCT 6420 or ACCT 6426. Tax issues involving corporations and partnership.

ACCT 7510 INTEGRATED ACCOUNTING APPLICATIONS (3) LEC. 3. Pr. ACCT 3530 or ACCT 3533 or ACCT 5520 or ACCT 5523 or ACCT 6520 or ACCT 6526. Design and analysis of accounting information systems and relational databases.

ACCT 7520 ENTERPRISE ACCOUNTING SYSTEMS (3) LEC. 3. Departmental approval. Design, analysis and use of Enterprise accounting systems.

ACCT 7710 PROFESSIONAL DEVELOPMENT (0) IND. Professional development topics and events for Master of Accountancy students. Course may be repeated for a maximum of 10 credit hours.

ACCT 7970 ADVANCED SPECIAL TOPICS IN ACCOUNTING (3) LEC. 3. Departmental approval. Industry issues in accounting.

Accountancy — Online Option for Second Degree Candidates (ACCT)

The School of Accountancy offers an online Bachelor of Science in Business Administration (BSBA) in Accountancy for candidates seeking professional advancement or a change in their career paths to accounting. This unique program combines traditional campus instruction with modern technology providing the Auburn campus experience to online students.

Our traditional campus accounting classes are filmed in smart classrooms using state of the art technology. Online students view their lectures via streaming video either live or at a time convenient to their work schedules. Since students are receiving the same instruction and AACSB accredited degree as their campus peers, they are held to the same rigor and academic standards.

Admission to the online BSBA in Accountancy program is limited to **second degree seeking candidates only** who meet the following criteria:

- Completed either an AACSB-accredited bachelor's degree in business or an AACSB-accredited MBA from a U.S. institution. Students with MBAs who do not have a business undergraduate degree must have completed courses equivalent to the required business prerequisites.
- Must be a U.S. citizen and have either a USA or APO address.

Admitted students will receive a waiver of the university and college core classes and be required to complete only 30 semester hours in accounting. The admissions process and advising is administered by the Office of Graduate & Online Programs in the School of Accountancy. For more information, please contact Mrs. Andee Hodo, Director of Graduate & Online Programs, at andee.hodo@auburn.edu or (334) 844-6207. Completed applications will be considered on a competitive basis by the Committee on Undergraduate Study in Accountancy.

TOTAL HOURS		**30**

The student's plan of study must be approved by Mrs. Andee Hodo, Director of Graduate & Online Programs in the School of Accountancy, at andee.hodo@auburn.edu or (334) 844-6207. Students interested in meeting the educational requirements for the Uniform CPA Examination while pursuing the online BSBA in Accountancy will be advised by Mrs. Hodo to accomplish this goal.

Students who are working full-time may take six semester hours per semester and may complete the program in five semesters or two years. Students who are not working may complete the program more quickly. For more information, please visit https://harbert.auburn.edu/degrees-programs/undergraduate/online-programs/bsba-accountancy-online-second-degree/index.html (https://harbert.auburn.edu/degrees-programs/undergraduate/online-programs/bsba-accountancy-online-second-degree/).

Certificate in Accountancy

The School of Accountancy offers an Undergraduate Certificate in Accountancy Program for students who successfully complete 24 hours (eight three-semester hour courses) of upper-level (5000 level and above) undergraduate accounting courses at Auburn University. The program is designed for two types of candidates: 1) campus undergraduate business students who are not majoring in accounting but desire to pursue the educational requirements to sit for the Uniform CPA Exam and would like formal recognition of this professional competency or 2) online undergraduate students pursuing the educational requirements to sit for the Uniform CPA Exam. Campus undergraduate students may be first degree candidates; however, online candidates must hold at least a four-year undergraduate degree from a regionally accredited university and must have completed the required business foundation prerequisites. The course requirements for the certificate program are listed below:

Undergraduate Certificate in Accountancy Program

Requires 24 Semester Hours

Required Courses: (Six Hours)

Code	Title	Hours
ACCT 5110	Intermediate Accounting I	3
ACCT 5120	Intermediate Accounting II	3

The School of Accountancy does not allow Auburn University students to be concurrently enrolled in both online and campus sections. Campus students are not allowed to enroll in online sections.

All students are required to take Intermediate Accounting I and II. Campus students are required to complete all upper-level accounting courses at Auburn University-Main Campus. Online students that have completed Intermediate Accounting I and II at another regionally accredited institution and have earned a minimum grade of B or higher in each course may receive a waiver of these two courses by the Director of Graduate & Online Programs, and therefore, be required to take 24 hours from the courses listed below.

Additional Courses Offered:

Code	Title	Hours
ACCT 5130	Advanced Accounting Topics	3
ACCT 5210	Cost Accounting	3
ACCT 5300	Auditing & Assurance Services	3
ACCT 5410	Income Tax I	3
ACCT 5420	Income Tax II	3
ACCT 5510	Accounting Information Systems	3
ACCT 5520	Accounting Analytics	3
ACCT 5610	Governmental and Not-For-Profit Accounting	3
ACCT 5700	Advanced Business Law	3

PROGRAM REQUIREMENTS:

Campus Students: Undergraduate Certificate Program Requirements

1. Candidates must be enrolled in a non-accounting business degree program at Auburn University.
2. Candidates must meet and adhere to course prerequisites listed in the AU Bulletin.
3. Candidates must earn a minimum of a 2.0 overall GPA across the eight courses.
4. Candidates must adhere to Auburn University policies and guidelines as outlined in the AU Bulletin.
5. No transfer credit is permitted. All eight courses must be taken at Auburn University-Main Campus.
6. Candidates must adhere to School of Accountancy policies and guidelines.
7. The admissions process is administered by the Office of Undergraduate Admissions.

Online Students: Undergraduate Certificate Program Requirements

1. Candidates must hold a four-year undergraduate degree from a regionally accredited university and must have completed the 24 hours of business foundation prerequisites.
2. Candidates must meet and adhere to course prerequisites listed in the AU Bulletin.
3. Candidates must earn a minimum of a 2.0 overall GPA across the eight courses.
4. Candidates must adhere to Auburn University policies and guidelines as outlined in the AU Bulletin.
5. The Program is limited to students with USA or APO addresses only.
6. No transfer credit is permitted. All eight courses must be taken at Auburn University.
7. Candidates must adhere to School of Accountancy policies and guidelines.
8. The admissions process is administered by the Office of Graduate & Online Programs in the School of Accountancy.

Questions should be directed to Mrs. Andee Hodo, Director of Graduate & Online Programs in the School of Accountancy, at andee.hodo@auburn.edu or (334) 844-6207.

Department of Business Analytics and Information Systems

The Department of Business Analytics and Information Systems prepares students for careers involving the planning, analysis, and execution of processes related to the movement of passengers, product, and information. The professional programs within the

Department are designed to provide students with the technical skills and knowledge needed to be effective decision makers for their organizations. The professional programs available are Business Analytics (BUAL), and Information Systems Management (ISMN). Information regarding careers, internships, scholarships, and student organizations is available through the program coordinators. College of Business pre-requisites are strictly enforced. Junior standing and compliance with College of Business academic standards are required for all 3000 and above level courses.

Business Analytics

The Business Analytics program prepares students for careers that use data to support solve problems and exploit opportunities in a data-driven manner. Students learn skills in a natural progression that goes through formulating a problem, identifying and cleaning data, uncovering patterns in data, developing predictive models, using these models to make recommendations, and communicating the results in a manner appropriate to executives or clients. Business Analytics skills are in demand across a wide range of industries including healthcare, marketing, finance, consulting, transportation, and information technology. Students are encouraged to develop expertise in a functional business discipline such as marketing or finance using elective coursework.

Information Systems Management

The Information Systems Management program provides education and training so that students can help lead organizational change projects in transforming and improving business processes and in designing and creating new, innovative digital products and services. The program is designed to enable students to meet the challenges that are poised by information technology management in both public sector and for-profit organizations. Because information systems are critical to all aspects of every organization, Information System Management majors are in great demand in the marketplace. Information systems students can focus their study in the areas of business analytics, information security, and/or technology infrastructure.

Majors

- Business Analytics (p. 382)
- Information Systems Management (p. 384)

Minors

- Business Analytics (p. 383)
- Business-Engineering-Technology (p. 384)
- Information Assurance (p. 384)
- Information Systems Management (p. 385)

Business Analytics Courses

BUAL 2600 BUSINESS ANALYTICS I (3) LEC. 3. Pr. (MATH 1610 or MATH 1617 or MATH 1680 or MATH 1683). Introduction to analytics in business including use of data to make business decisions, basic predictive business modeling, and communication of analytical results.

BUAL 2650 BUSINESS ANALYTICS II (3) LEC. 3. Pr. BUAL 2600 or STAT 2610 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 3010 or STAT 2513. A second course in quantitative analysis in business including statistical inference, classification analysis, predictive modeling, forecasting, introduction to data mining.

BUAL 3010 PROFESSIONAL DEVELOPMENT IN BUSINESS ANALYTICS (1) LEC. 1. SU. Pr. P/C BUAL 2650. Career planning and preparation for employment as an analytics professional.

BUAL 3100 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3) LEC. 3. Pr. BUAL 2600. This course introduces business students to the foundational concepts of Artificial Intelligence (AI) and its applications in business environments. It focuses on how AI technologies like machine learning, natural language processing, and data analytics drive innovation and enhance decision-making. Students will explore real-world business applications of AI, covering topics such as automation, predictive analytics, customer service, and AI-driven strategy. The course is designed to

BUAL 4910 PRACTICUM (1-3) PRA. SU. Supervised practical application of business analytics theory and methods. Course may be repeated for a maximum of 3 credit hours.

BUAL 4920 BUSINESS ANALYTICS INTERNSHIP (1-3) INT. SU. Pr. BUAL 3010. The internship program represents an opportunity for students to be exposed to analytics environments first-hand and to integrate this experience with their formal education. The practical nature of the internship facilitates the educational process and provides valuable work experience. Departmental approval required. Course may be repeated for a maximum of 3 credit hours.

BUAL 5500 BUSINESS DATA MANAGEMENT AND ACQUISITION (3) LEC. 3. Pr. BUAL 2600 and P/C BUAL 3010. Management and governance of the big data environment that is necessary to support extracting, merging, and preparing large data sets for analysis.

BUAL 5600 PRINCIPLES OF PREDICTIVE MODELING (3) DSL/LEC. Pr. BUAL 2650. Introduction to linear models including multiple linear regression and model building in business decision making and applications. Credit will not be given for both BUAL 5600 and BUAL 6600/6606.

BUAL 5610 PREDICTIVE MODELING FOR BUSINESS DECISIONS (3) DSL/LEC. Pr. BUAL 2650 and (BUAL 5500 or BUAL 5650). Basic data mining techniques including neural networks, decision trees, clustering algorithms, linear programs, text and web mining in business setting. Credit will not be given for both BUAL 5610 and BUAL 6610/6616.

BUAL 5660 DESCRIPTIVE ANALYTICS FOR BUSINESS DECISIONS (3) LEC. 3. Pr. BUAL 5500 or BUAL 5650. Advanced topics in big data management, with emphasis on various technical environments used in the big data environment. Credit will not be given for both BUAL 5660 and BUAL 6660/6666.

BUAL 5700 BIG DATA INFRASTRUCTURE AND APPLICATIONS (3) LEC. 3. Pr. ISMN 5650. Advanced topics related to big data infrastructure and using these technologies to create data science applications. The course provides deep understanding of various state-of-art data science approaches using different distributed and (or) cloud computing environments. Credit will not be given for both BUAL 5700 and BUAL 6700/6706.

BUAL 5710 ADVANCED DATA AND TEXT ANALYTICS (3) LEC. 3. Pr. (BUAL 5700 or BUAL 6700 or BUAL 6706) and (P/C BUAL 5660 or P/C BUAL 6660 or P/C BUAL 6666). This course covers advanced approaches used for writing crawlers and spiders, text analytics, sentiment analysis, social media analytics, network analytics, and deep learning for solving business and organizational problems. The course provides conceptual and hand-on understanding of such state-of-art analytics approaches using various python libraries. Knowledge of python programming is necessary to do well in the course.

BUAL 5800 DATA VISUALIZATION (3) LEC. 3. Pr. BUAL 2650. The course will focus on learning the challenges of big data and how effectively utilizing data visualization techniques can help with decision-making. The course will cover the principles of effective visualization designs as well as get hands-on experience with developing dashboards and presenting analysis in other visual formats.

BUAL 5850 FOUNDATIONS OF SPORTS ANALYTICS (3) LEC. 3. Pr. BUAL 2650. This course provides an introduction to analyzing and representing sports data. Students will learn how to develop narratives about team and player performance. Students will also learn various techniques that are suitable for analyzing sports data. Examples will be used from various sports to generate results that can explain outcomes.

BUAL 5860 COMMUNICATING QUANTITATIVE RESULTS IN BUSINESS (3) LEC. 3. Pr. BUAL 5610 and BUAL 5660. A case-based, project-oriented approach to business decision making based on company's mission and strategic objectives. Credit will not be given for both BUAL 5860 and BUAL 6860/6866.

BUAL 5900 DIRECTED STUDIES (1-3) IND. SU. Faculty led individualized or group-oriented in-depth study of a topic in business analytics. May include literary research, algorithm development, programming, data analysis, or a combination of these. Course may be repeated for a maximum of 6 credit hours.

BUAL 5960 SPECIAL PROBLEMS (3) DSL. This course may be either a self-learning course or a lecture course designed to enhance the student's knowledge of a selected topic. If self-learning, the course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the course objectives. Course may be repeated for a maximum of 6 credit hours.

BUAL 6600 PRINCIPLES OF PREDICTIVE MODELING (3) DSL/LEC. Pr. BUAL 2650. Introduction to linear models including multiple linear regression and model building in business decision making and applications. Credit will not be given for both BUAL 5600 and BUAL 6600/6606.

BUAL 6610 PREDICTIVE MODELING FOR BUSINESS DECISIONS (3) DSL/LEC. Basic data mining techniques including neural networks, decision trees, clustering algorithms, linear programs, text and web mining in business setting. Credit will not be given for both BUAL 5610 and BUAL 6610/6616.

BUAL 6650 BUSINESS DATA MANAGEMENT AND ACQUISITION (3) LEC. 3. Managing, governing, extracting, merging, and preparing large data sets for analysis.

BUAL 6660 DESCRIPTIVE ANALYTICS FOR BUSINESS DECISIONS (3) LEC. 3. Advanced topics in big data management, with emphasis on loading and cleansing the data for analysis. May count either BUAL 5660 or BUAL 6660/6666.

BUAL 6700 BIG DATA INFRASTRUCTURE AND APPLICATIONS (3) LEC. 3. Pr. ISMN 5650 or ISMN 6650 or ISMN 6656. This course covers advanced topics related to big data infrastructure and using these technologies to create data science applications. The course provides deep understanding of various state-of-art data science approaches using different distributed and (or) cloud computing environments. Credit will not be given for both BUAL 5700 and BUAL 6700/6.

BUAL 6710 ADVANCED DATA AND TEXT ANALYTICS (3) LEC. 3. Pr. (BUAL 5700 or BUAL 6700 or BUAL 6706) and (P/C BUAL 5660 or P/C BUAL 6660 or P/C BUAL 6666). This course covers advanced approaches used for writing crawlers and spiders, text analytics, sentiment analysis, social media analytics, network analytics, and deep learning for solving business and organizational problems. The course provides conceptual and hand-on understanding of such state-of-art analytics approaches using various python libraries. Knowledge of python programming is necessary to do well in the course.

BUAL 6800 DATA VISUALIZATION (3) DSL. This course is designed as a graduate level class in which graduate students will learn the various elements and techniques of data visualization. The focus of the course will be to learn the challenges of big data and how effective utilization of data visualization techniques can help with decision making. Course will cover the principles of effective visualization designs as well as get hands on experience with developing dashboards and present analysis in other visual formats.

BUAL 6850 FOUNDATIONS OF SPORTS ANALYTICS (3) DSL/LEC. This course provides an introduction to analyzing and representing sports data. Students will learn how to develop narratives about team and player performance. Students will also learn various techniques that are suitable for analyzing sports data. Examples will be used from various sports to generate results that can explain outcomes.

BUAL 6860 COMMUNICATING QUANTITATIVE RESULTS IN BUSINESS (3) LEC. 3. Pr. BUAL 6610 or BUAL 6616. A case-based, project-oriented approach to business decision making based on company's mission and strategic objectives. Credit will not be given for both BUAL 5860 and BUAL 6860/6866.

BUAL 6900 DIRECTED STUDIES (3) IND. 3. SU. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

BUAL 6960 SPECIAL PROBLEMS (3) IND/LEC. 3. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

BUAL 7000 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3) DSL/LEC. This course introduces business students to the foundational concepts of Artificial Intelligence (AI) and its applications in business environments. It focuses on how AI technologies like machine learning, natural language processing, and data analytics drive innovation and enhance decision-making. Students will explore real-world business applications of AI, covering topics such as automation, predictive analytics, customer service, and AI-driven strategy. The course is designed to help students understand practical AI applications

Information Systems Management Courses

ISMN 2140 INTRODUCTION TO MANAGEMENT INFORMATION SYSTEMS (2) LEC. 2. The fundamental principles of the structure and management of information systems. Credit will not be given for both ISMN 2140/2143 and ISMN 3140/3143.

ISMN 3010 PROFESSIONAL DEVELOPMENT IN INFORMATION SYSTEMS (1) LEC. 1. SU. Pr. P/C ISMN 2140. Career planning and preparation for employment as an information systems management professional.

ISMN 3040 BUSINESS TELECOM MANAGEMENT (3) LEC. 3. Pr. ISMN 3140 or ISMN 3143. Voice communications and technology and data communications (LAN, WAN, internet broadband), networks, protocols, standards, legislation and project development and management.

ISMN 3070 BUSINESS SYSTEM LOGIC AND MODELING (3) LEC. 3. Concepts, techniques, and tools for discovering, specifying, and modeling business logic are introduced, explored, and applied.

ISMN 3080 PROGRAMMING AND COMPUTER APPLICATIONS (3) LEC. 3. Visual and object-oriented business programming languages are introduced and explored.

ISMN 3140 INTRODUCTION TO MANAGEMENT INFORMATION SYSTEMS (2) LEC. 2. The fundamental principles of the structure and management of information systems. Credit will not be given for both ISMN 2140/2143 and ISMN 3140/3143.

ISMN 3830 DATABASE MANAGEMENT SYSTEMS (3) LEC. 3. Business applications software in a database environment, complex data, and file structures, systems design consideration of global and distributed databases.

ISMN 3840 ANALYSIS OF BUSINESS SYSTEMS (3) LEC. 3. The study and application of tools, techniques, and methodologies to analyze, understand, and model business systems.

ISMN 4090 DIGITAL BUSINESS DESIGN (3) LEC. 3. Pr. ISMN 3830 or MNGT 3830 or MNGT 3833. Students bring together knowledge of digital technologies and their skills in business design and development to create innovative, leading-edge processes, products, and services for today's modern organizations.

ISMN 4850 COMPETITIVE STRATEGIES THROUGH INFORMATION (3) LEC. 3. Emphasizes how competitive strategies for companies are formulated and implemented using a combination of information technologies.

ISMN 4920 INTERNSHIP (1-3) AAB/INT. SU. Pr. ISMN 3010. Approval by departmental internship program committee. Course may be repeated for a maximum of 3 credit hours.

ISMN 5040 TELECOMMUNICATIONS MANAGEMENT (3) LEC. 3. Pr. (ISMN 3140 or ISMN 3143) or ISMN 2140. Discussion of the importance of telecommunications to an organization, including technology required, use strategy, and management.

ISMN 5290 BUSINESS PROGRAMMING FOR ANALYTICS (3) LEC. 3. Programming languages and skills, with emphasis on designing and implementing computer-based business solutions. Credit will not be given for both ISMN 5290/5293 and ISMN 6290/6296.

ISMN 5360 APPLICATION OF GEOSPATIAL INFORMATION SYSTEMS FOR BUSINESS (3) LEC. 3. GIS involves the use of GIS and desktop mapping technology to aid in processes such as disaster recovery, facility planning and management, market segmentation, and community growth. The student will learn how to strategically use GIS to facilitate organizational performance. Credit will not be given for both ISMN 5360/5363 and ISMN 6360/6366.

ISMN 5370 PROJECT MANAGEMENT (3) LEC. 3. Tools and techniques of information technology project management including leading project management software. Credit will not be given for both ISMN 5370/5373 and ISMN 6370/6373.

ISMN 5620 BUSINESS APPLICATIONS WITH OPEN SOURCE SOFTWARE (3) LEC. 3. Overview of business solutions with open source software. Students will have a hands-on opportunity to learn to administer and manage open source software and to become comfortable deploying/employing popular OSS applications as business solutions.

ISMN 5630 CLOUD SERVICES (3) LEC. 3. This course is a comprehensive introduction to the world of cloud computing, covering its fundamental concepts, various service models, and practical applications. This course delves into key cloud services such as computing, storage, networking, databases, and security while also addressing topics like cloud architecture, management, and cost optimization. Credit will not be given for both ISMN 5630 and ISMN 6630/6636.

ISMN 5640 SERVERSIDE INTERNET PGM (3) DSL/LEC. Fundamentals of server-side Internet programming using technologies such as PHP, MySQL, and XML.

ISMN 5650 ADVANCED BUSINESS APPLICATION DEVELOPMENT (3) LEC. 3. Pr. ISMN 3080 and P/C ISMN 3830. Fundamentals of developing comprehensive, component-based local and Internet business applications. Grade of C or better in prerequisite course. Credit will not be given for both ISMN 5650 and ISMN 6650/6656.

ISMN 5680 ADVANCED DATA BASE ADMINISTRATION AND DEVELOPMENT (3) LEC. 3. Pr. ISMN 3830. Key tasks and functions required of a database administrator in a business environment. Credit will not be given for both ISMN 5680 and ISMN 6680/6686.

ISMN 5730 SECURITY AND INFORMATION ASSURANCE (3) LEC. 3. This course covers the fundamentals of computer security and information assurance from a management perspective. The student will be exposed to security and information assurance topics such as security policies, confidentiality, and ethics. Credit will not be given for both ISMN 5730/5733 and ISMN 6730/6736.

ISMN 5740 INFORMATION RISK ANALYSIS (3) LEC. 3. Indepth instruction on the range of skills required of persons engaged in the performance of risk analysis functions. Credit will not be given for both ISMN 5740/5743 and ISMN 6740/6746.

ISMN 5750 INFORMATION TECHNOLOGY AUDITING (3) LEC. 3. Pr. (ISMN 5730 or ISMN 5670). This course presents in-depth instruction on the range of skills required of persons engaged in the performance of IT audit. The skills include those required by but not limited to a technology analyst, data scientist, or CIO. Credit will not be given for both ISMN 5750/5753 and ISMN 6750/6756.

ISMN 5880 ADVANCED PRACTICAL EXPERIENCE (3) LEC. 3. Pr. ISMN 4090 and ISMN 5650. This course synthesizes theory and principles of management information systems (MIS) using real-life, hands-on projects through experiential learning. It's the capstone course for the major.

ISMN 5900 DIRECTED STUDIES (1-3) AAB/IND. SU. Independent study on current topics in information systems management. Course may be repeated for a maximum of 6 credit hours.

ISMN 5960 SPECIAL PROBLEMS (3) AAB/IND. 3. Independent study investigating current literature in information systems management. Course may be repeated for a maximum of 6 credit hours.

ISMN 6040 TELECOMMUNICATIONS MANAGEMENT (3) LEC. 3. Discussion of the importance of telecommunications to an organization, including technology required, use strategy, and management. Credit will not be given for both ISMN 5040 and ISMN 6040/6046.

ISMN 6270 CURRENT ISSUES IN INFORMATION SYSTEMS FOR ORGANIZATIONS (3) LEC. 3. This course covers current issues in Information Systems Management and Technology. As such, topics may differ from semester to semester. The objective of the course is to allow students to become familiar with issues such as emerging technologies, information systems and their role in vertical portals, and the role of information systems in industry. Course is designed to enable students to take it twice with subject change. Course may be repeated for a maximum of 6 credit hours.

ISMN 6290 BUSINESS PROGRAMMING FOR ANALYTICS (3) LEC. 3. Programming languages and skills, with emphasis on designing and implementing computer-based business solutions. Credit will not be given for both ISMN 5290 and ISMN 6290.

ISMN 6370 PROJECT MANAGEMENT (3) LEC. 3. Tools and techniques of information technology project management including leading project management software. Credit will not be given for both ISMN 5370/5373 and ISMN 6370/6376.

ISMN 6380 SOCIAL MEDIA AS A TOOL FOR BUSINESS STRATEGY (3) LEC. 3. Learn how to use social media as a tool to integrate business processes and enhance business performance. Credit will not be given for both ISMN 5380/5383 and ISMN 6380/6386.

ISMN 6620 BUSINESS APPLICATIONS WITH OPEN SOURCE SOFTWARE (3) LEC. 3. Evaluates business solutions with open source software. Students will have a hands-on opportunity to learn to administer and manage open source software and to become comfortable deploying/employing popular OSS applications as business solutions.

ISMN 6630 CLOUD SERVICES (3) LEC. 3. This course is a comprehensive introduction to the world of cloud computing, covering its fundamental concepts, various service models, and practical applications. This course delves into key cloud services such as computing, storage, networking, databases, and security while also addressing topics like cloud architecture, management, and cost optimization. Credit will not be given for both ISMN 5630 and ISMN 6630/6636.

ISMN 6640 SERVERSIDE INTERNET PGM (3) LEC. 3. Fundamentals of server-side Internet programming using technologies such as PHP, MySQL, and XML. Credit will not be given for both ISMN 5640 and ISMN 6640/6646.

ISMN 6650 ADVANCED BUSINESS APPLICATION DEVELOPMENT (3) LEC. 3. Fundamentals of developing comprehensive, component-based local and Internet business applications. Credit will not be given for both ISMN 5650 and ISMN 6650/6656.

ISMN 6670 SECURITY AND INFORMATION ASSURANCE (3) LEC. 3. This course covers the fundamentals of computer security and information assurance from a management perspective. The student will be exposed to security and information assurance topics such as security policies, confidentiality and ethics. Organizational issues of security and methodologies for information assurance will be discussed from a managerial perspective.

ISMN 6680 ADVANCED DATA BASE ADMINISTRATION AND DEVELOPMENT (3) LEC. 3. Pr. ISMN 3830 or ISMN 7830 or ISMN 7836. Key tasks and functions required of a database administrator in a business environment. Credit will not be given for both ISMN 5680 and ISMN 6680/6686.

ISMN 6690 KNOWLEDGE MANAGEMENT AND ORGANIZATIONAL LEARNING (3) LEC. 3. Introduction to knowledge management and its role in organizational decision-making and learning. Studies of issues related to management, creation, and use of knowledge as well as issues related to system design and implementation. Credit will not be given for both ISMN 5690 and ISMN 6690/6696.

ISMN 6710 INFORMATION RISK ANALYSIS (3) LEC. 3. Departmental approval. In-depth instruction on the range of skills required of persons engaged in the performance of risk analysis functions.

ISMN 6730 SECURITY AND INFORMATION ASSURANCE (3) LEC. 3. This course covers the fundamentals of computer security and information assurance from a management perspective. The student will be exposed to security and information assurance topics such as security policies, confidentiality and ethics. Credit will not be given for both ISMN 5730/5733 and ISMN 6730/6736.

ISMN 6740 INFORMATION RISK ANALYSIS (3) LEC. 3. In-depth instruction on the range of skills required of persons engaged in the performance of risk analysis functions. Credit will not be given for both ISMN 5740/5743 and ISMN 6740/6746.

ISMN 6750 INFORMATION TECHNOLOGY AUDITING (3) LEC. 3. This course presents in-depth instruction on the range of skills required of persons engaged in the performance of IT audit. The skills include those required by but not limited to a technology analyst, data scientist, or CIO. May count either ISMN 5750 or ISMN 6750.

ISMN 6870 BUSINESS INTELLIGENCE APPLICATIONS (3) LEC. 3. Pr. ISMN 3830 or BUAL 5650. Key tasks, tools, techniques and methodologies supporting the application of Business Intelligence Systems in organizations, and related management issues. Credit will not be given for both ISMN 5870 and ISMN 6870/6876.

ISMN 6880 MANAGEMENT INFORMATION SYSTEMS PROJECTS (3) DSL/LEC. Synthesizes theory and principles of management information systems (MIS) using real-life, hands-on-projects.

ISMN 6900 DIRECTED STUDIES (3) DSL/IND. 3. SU. Independent study on current topics in information systems management. Course may be repeated for a maximum of 9 credit hours.

ISMN 6960 SPECIAL PROBLEMS (3) DSL/IND. 3. General information systems management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 9 credit hours.

ISMN 7020 BUSINESS TELECOMMUNICATIONS AND NETWORKS (3) LEC. 3. Provides an understanding of voice and data communications, e.g., networks (LAN, internet), protocols standards, legislation and project development, so that managers, might utilize telecommunications effectively.

ISMN 7140 MANAGING END USER COMPUTING (3) LEC. 3. Studies MIS from user's perspective, and compares it with the roles of the professional department. Course covers support of desktop applications, data usage, and communications.

ISMN 7360 INTEGRATING THEORY AND PRACTICE FOR TECHNOLOGY MANAGERS (3) LEC. 3. A study of the technical and non-technical forces that influence the decision-making process in companies by the use of innovative instructional material.

ISMN 7380 INTEGRATING INFORMATION TECHNOLOGIES TO PROVIDE COMPETITIVE ADVANTAGE (3) LEC. 3. How to integrate effectively information technologies in formulating and implementing competitive strategies for companies.

ISMN 7660 INFORMATION SYSTEMS ANALYSIS AND DESIGN (3) LEC. 3. General systems theory, information systems logical and physical analysis, structured and object-oriented methodologies and prototyping, system documentation, general design and use of CASE tools.

ISMN 7730 MANAGEMENT OF INNOVATION (3) LEC. 3. Pr. BUSI 7220 or BUSI 7226. The process of product and service innovation on two levels: managing product design and general strategies for managing multiple innovation streams.

ISMN 7760 QUANT METHODS IN OPS MNGT (3) LEC. 3.

ISMN 7830 DATABASE DEVELOPMENT AND DESIGN (3) LEC. 3. Database management systems using database methodologies to support business applications, including requirements for distributed databases.

ISMN 7870 EXPERT SYSTEMS IN BUSINESS (3) LEC. 3. Pr. BUSI 7220 or BUSI 7226. Study of expert systems and other knowledge-based systems in the organization, including relevant concepts, methodologies, architectures, strategies, and issues.

ISMN 7880 ADV MNGT OF INFO SYS (3) LEC. 3. In-depth inquiry and analysis of advanced information technologies in organizations.

ISMN 7890 INFORMATION RESOURCE MANAGEMENT (3) LEC. 3. Pr. BUSI 7220 or BUSI 7226. Management of information systems resources, unique management problems in a computer information systems environment. Strategic and competitive analysis of information technology.

ISMN 7970 SPECIAL TOPICS IN INFORMATION SYSTEMS MANAGEMENT (1-3) LEC. 1-3. Specialized topics in information systems management not otherwise covered in existing courses. Course may be repeated for a maximum of 6 credit hours.

ISMN 7980 MSIS PROJECT (1-10) DSL/IND. 1-10. SU. Departmental approval. Independent exploration of an approved topic/problem that allows the student to demonstrate the application of knowledge and capabilities gained during the program. Approval of the project and assessment of its deliverables by the student's advisory committee is required. Course may be repeated for a maximum of 10 credit hours.

ISMN 8010 IS MANAGEMENT RESEARCH SEM. I (3) SEM. 3. Departmental approval. Preparation in conceptualization, conduct, and presentation MIS research.

ISMN 8020 IS MANAGEMENT RESEARCH SEMINAR II (3) SEM. 3. Departmental approval. Preparation in conceptualization, conduct, and presentation of applied and case studies research in MIS.

ISMN 8030 DOCTORAL SEMINAR IN INFORMATION SYSTEMS RESEARCH I (3) SEM. 3. Research methodologies used in conducting research with emphasis on empirical research methods.

ISMN 8040 DOCTORAL SEMINAR IN INFORMATION SYSTEMS RESEARCH II (3) SEM. 3. Research methodologies used in conducting research with emphasis on conceptual and empirical research methods.

ISMN 8500 ADVANCED IS MANAGEMENT RESEARCH SEMINAR I (3) SEM. 3. Departmental approval. Theoretical foundations and research directions in the management of technology and technological innovation, with the primary focus on information technology and research.

ISMN 8660 ADVANCED IS MANAGEMENT RESEARCH SEMINAR II (3) SEM. 3. Departmental approval. Theoretical foundations and research directions in the alignment of information technology strategy to business objectives and goals.

ISMN 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Must be degree seeking PhD student in the Business with concentration in IS program.

Department of Finance

Finance

The objective of the finance curriculum is to develop the specialized finance knowledge, techniques, and skills necessary for successful placement in finance related positions. The program encompasses the major areas of finance including corporate finance, financial institutions and markets, and investments. In addition, the program offers elective work in the subareas of real estate and risk management and insurance. The program will allow students the opportunity to develop not only the specialized knowledge of finance, but also the professional presentation and use of such knowledge through oral and written communication. Students enrolled in the finance program also complete the College of Business core curriculum designed to provide the broader understanding of the entire

business organization including accounting, economics, management and marketing. College of Business pre-requisites are strictly enforced. Junior standing and compliance with Harbert College of Business academic standards are required for all 3000 and above level courses.

Majors

- Finance (p. 389)

Minors

- Finance (p. 390)
- International Business (p. 390)
- Real Estate Development (p. 390)

Courses

FINC 2400 PERSONAL FINANCE (3) LEC. 3. Plans for managing personal financing problems involving insurance, housing, household budgeting, investments, personal and bank loans, personal credit and time value of money.

FINC 3010 PROFESSIONAL DEVELOPMENT IN FINANCE (1) LEC. 1. SU. Pr. (P/C FINC 3610 or FINC 3613 or FINC 3617) and P/C BUSI 2010. Career planning and preparation for employment in the finance industry.

FINC 3100 FUNDAMENTALS OF GLOBAL TRADE (3) LEC. 3. COB academic standards. Export management skills, including basic global supply chain management and trade finance. Junior standing.

FINC 3200 RISK AND INSURANCE (3) LEC. 3. Essentials of risk management, with emphasis on the use of insurance, including the characteristics of property, liability, life and health insurance. Junior standing.

FINC 3250 PRINCIPLES OF REAL ESTATE (3) LEC. 3. Fundamental principles and practices as applied to the purchase, sale and lease and management of real estate. Junior standing.

FINC 3270 SUSTAINABLE REAL ESTATE (3) LEC. 3. Pr. FINC 3250. Everyone’s story is rooted in real estate: the ways we fund, plan, build, use, and exchange real property have informed our past and will dictate our future. This course surveys the wide variety of topics that intersect to maximize sustainable development projects, including investment analysis, green building, and project certifications. Through lectures, case studies and simulations, you will learn how people, property and capital interact to help shape the evolving real estate industry.

FINC 3610 PRINCIPLES OF BUSINESS FINANCE (3) LEC. 3. Pr. ACCT 2110 or ACCT 2117 or ACCT 2810 or ACCT 3110 or ACCT 3113 or ACCT 2813. Corporate finance from the perspective of a financial manager. Topics include time value of money, valuation, and capital budgeting. May count either FINC 3610 or FINC 3810.

FINC 3617 HONORS PRINCIPLES OF BUSINESS FINANCE (3) LEC. 3. Pr. Honors College. ACCT 2117. Corporate finance from the perspective of a financial manager. Topics include financial planning and forecasting cash budgeting, capital budgeting, basic valuation, dividends. Fall, Spring. Junior standing.

FINC 3620 SMALL BUSINESS FINANCE (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Financial control, financial forecasting, working capital and sources of financing in a small and closely-held business environment.

FINC 3630 ADVANCED BUSINESS FINANCE (3) LEC. 3. Pr. (FINC 3610 or FINC 3613 or FINC 3617) and (BUAL 2600 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3610). C or better in FINC 3610. In-depth analysis of financial concepts including valuation capital budgeting, cost of capital, leasing, financial analysis, and capital structure.

FINC 3640 INVESTMENTS (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Types of investment security markets, investment instruments, concepts and strategies for institutional and individual investors.

FINC 3700 FINANCIAL MARKETS INSTITUTIONS (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Overview of the financial system, organization and regulation of financial markets and institutions, the behavior and structure of interest rates.

FINC 3750 FINANCIAL MODELING (3) LEC. 3. Pr. P/C FINC 3630 and P/C FINC 3640. Application of financial management and investments concepts through Excel modeling. Topics include capital budgeting, capital asset pricing, cost of capital, stock and bond valuation. Advanced topics include DCF modeling, portfolio optimization and VBA.

FINC 3810 FOUNDATIONS OF BUSINESS FINANCE (3) LEC. 3. Pr. ACCT 2810 or ACCT 2813 or ACCT 2110 or ACCT 2117. Foundations of Business Finance is a broad based introductory course that will focus on finance functions and applications of finance principles. This course is not open to undergraduates majoring in business. Junior standing. May count either FINC 3610 or FINC 3810.

FINC 4210 PROPERTY AND LIABILITY INSURANCE (3) LEC. 3. Pr. FINC 3200. Commercial risks and the insurance contracts used to address these risks.

FINC 4410 FIXED INCOME (3) LEC. 3. Pr. FINC 3640. Overview of fixed income characteristics, markets, and trading. Topics include Treasuries, yield curves, corporate bond analysis, asset-backed securities, municipal bonds, preferred stock, money market instruments, measuring interest rate risk with duration and convexity, and bond portfolio management.

FINC 4630 FINANCIAL STRATEGY (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110) and (FINC 3630 or FINC 3633). The advanced application of corporate finance through case analysis, company analysis, and current topics.

FINC 4650 FINANCIAL STATEMENT ANALYSIS (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Evaluation and assessment of financial condition, performance, and reporting strategies of firms using relevant financial and market information.

FINC 4660 SECURITY ANALYSIS (3) LEC. 3. Pr. (ACCT 3110 or ACCT 3113 or ACCT 5110 or ACCT 6110) and (FINC 3630 or FINC 3633) and FINC 3640. Analysis, techniques and selection of securities to meet specific investment objectives. Focus on individual security analysis and portfolio management.

FINC 4700 MANAGEMENT OF FINANCIAL INSTITUTIONS (3) LEC. 3. Pr. FINC 3700. Management strategies for firms including management of credit, liquidity, capital and interest rate risks in a regulated environment.

FINC 4720 FINANCIAL SECTOR REGULATION AND SUPERVISION (3) LEC. 3. Pr. FINC 3700. The course will facilitate understanding of regulatory and supervisory oversight tools used by financial sector regulators to control new and emerging issues/ risks facing financial institutions and markets, and how financial institutions and markets manage and operate to in light of these regulatory and supervisory requirements.

FINC 4750 ADVANCED FINANCIAL MODELING (3) LEC. 3. Pr. FINC 3750 and (FINC 4650 or FINC 4653). Departmental approval. The course teaches advanced financial modeling and valuation, including public and acquisition comparables, discounted cash flows, merger consequences and leveraged buyout analysis.

FINC 4760 ADVANCED SECURITY ANALYSIS (3) LEC. 3. Pr. FINC 4750 or Departmental approval. The course focuses on the comprehensive analysis of individual securities for potential inclusion in an actively managed investment portfolio. The course will cover the basics of traditional financial statement and valuation analysis in addition to macro-economic analysis, political analysis, technical analysis, derivatives, history of financial markets, commodities, competitive analysis, fixed income analysis, and trading.

FINC 4780 ADVANCED PORTFOLIO MANAGEMENT (3) LEC. 3. Pr. FINC 4760. Departmental approval. The course teaches students to analyze financial problems and develop sophisticated financial models for modern portfolio management.

FINC 4900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Advanced individual research and study in finance under the direction of a faculty member. Course may be repeated for a maximum of 6 credit hours.

FINC 4920 INTERNSHIP (1-6) AAB/INT. SU. Departmental approval. The internship program offers the opportunity to gain relevant and meaningful work experience. Course may be repeated for a maximum of 9 credit hours.

FINC 4970 SPECIAL TOPICS (1-3) AAB. Departmental approval. Specialized topics and current developments and innovations in finance. Course may be repeated for a maximum of 6 credit hours.

FINC 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 6 credit hours.

FINC 5250 REAL ESTATE FINANCE (3) LEC. 3. Pr. FINC 3250 and (FINC 3610 or FINC 3613 or FINC 3617 or FINC 3810). This class presents the fundamental concepts of real estate finance. Students will study the institutions and instruments of real estate finance, factors affecting the flow of funds into various real estate markets, and how lenders assess risks and price their loans. The ultimate investment outlets for many of the financing products studied in the course are also covered in some detail.

FINC 5260 REAL ESTATE INVESTMENT (3) LEC. 3. Pr. (FINC 3610 or FINC 3613 or FINC 3617 or FINC 3810) and FINC 3250. This class presents the fundamental concepts of real estate investment analysis. Students will study lease analysis to allow for cash flow projection based on those leases. Students will use those cash flow projections in property valuation to enable a discussion of deal structuring, ownership structures, and funding sources. Real estate as an asset class will be discussed in a broader portfolio context.

FINC 5510 MULTINATIONAL FINANCIAL MANAGEMENT (3) LEC. 3. Pr. FINC 3610 or FINC 3613 or FINC 3617. Advantages and problems associated with the modern multinational corporation, including analysis of currency risk, hedging, and political risk.

FINC 5670 MERGERS, ACQUISITIONS, AND RESTRUCTURING (3) LEC. 3. Pr. FINC 3630 or FINC 3633. Strategic analysis of corporate restructuring including valuation methods, control issues, takeover defense measures, and diversification issues. May count either FINC 5670 or FINC 6670/FINC 6676.

FINC 5680 FINANCIAL ENGINEERING (3) LEC. 3. Pr. FINC 3630 or FINC 3633 or FINC 3640 or FINC 3700. Examination of derivative securities with emphasis on applying derivative securities to the management of corporate financial risk.

FINC 6250 REAL ESTATE FINANCE (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or BUSI 7110 or BUSI 7116. Departmental approval. This class presents the fundamental concepts of real estate finance. Students will study the institutions and instruments of real estate finance, factors affecting the flow of funds into various real estate markets, and how lenders assess risks and price their loans. The ultimate investment outlets for many of the financing products studied in the course are also covered in some detail.

FINC 6260 REAL ESTATE INVESTMENT (3) LEC. 3. Pr. BUSI 7110 or BUSI 7116. This class presents the fundamental concepts of real estate investment analysis. Students will study lease analysis to allow for cash flow projection based on those leases. Students will use those cash flow projections in property valuation to enable a discussion of deal structuring, ownership structures, and funding sources. Real estate as an asset class will be discussed in a broader portfolio context.

FINC 6510 MULTINATIONAL FINANCIAL MANAGEMENT (3) LEC. 3. Advantages and problems associated with the modern multinational corporation, including analysis of currency risk, hedging, and political risk.

FINC 6670 MERGERS, ACQUISITIONS AND RESTRUCTURING (3) LEC. 3. Pr. BUSI 7110 or BUSI 7116. Strategic analysis of corporate restructuring including valuation methods, control issues, takeover defense measures, and diversification issues. Departmental approval. May count either FINC 6670 or FINC 6676.

FINC 6680 FINANCIAL ENGINEERING (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or BUSI 7110 or BUSI 7116. Departmental approval. Theory and pricing of derivative securities with emphasis on applying derivative securities in corporate financial risk management.

FINC 7630 HEALTH CARE FINANCE (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or BUSI 7110 or BUSI 7116. Departmental approval. Techniques and analysis of financial management in a health care setting. Emphasis on financial planning and forecasting, budgeting, capital investment analysis in the regulated healthcare marketplace.

FINC 7640 ADVANCED INVESTMENTS (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or (BUSI 7110 or BUSI 7116). Departmental approval. Types of investment securities, regulation and operation of securities markets and the theory and practice of investments.

FINC 7650 APPLIED FINANCIAL MANAGEMENT (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or BUSI 7110. Departmental approval. The integration of financial theory with practice through spreadsheets, case analysis, company analysis, and current topics in finance.

FINC 7660 SECURITY ANALYSIS AND MANAGEMENT (3) LEC. 3. Pr. (FINC 7600 or FINC 7606) or (BUSI 7110 or BUSI 7116). Departmental approval. Advanced analytical methods for security valuation, managing investment portfolios, and developing appropriate investment strategies.

FINC 7690 GLOBAL FINANCIAL MARKETS (3) LEC. 3. Analysis and examination of financial institutions and markets in an evolving regulatory and global marketplace for financial services and products.

FINC 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. In-depth research and study under the direction of a faculty member. Topics are variable within finance and finance-related areas. Course may be repeated for a maximum of 6 credit hours.

FINC 7970 SPECIAL TOPICS (1-3) DSL. Departmental approval. Specialized topics in finance and finance-related areas not otherwise covered in existing courses. Course may be repeated for a maximum of 6 credit hours.

FINC 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

FINC 8620 THEORY OF FINANCE (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or FINC 7640 or FINC 7646. Choice under certainty and uncertainty, time-state preference models, stochastic dominance, the mean-variance criterion, and asset pricing models Miller-Modigliani propositions would be developed.

FINC 8640 INVESTMENTS (3) SEM. 3. Pr. FINC 8620. This course focuses on current literature in Investments. Students should develop the insights necessary to identify problems and conduct research in Investments.

FINC 8650 SEMINAR IN CORPORATE FINANCE (3) SEM. 3. Pr. FINC 86250. This course focuses on current literature in Corporate Finance. Students should develop the insights necessary to identify problems and conduct research in Corporate Finance.

FINC 8690 FINANCIAL MARKETS AND INTERMEDIATION (3) LEC. 3. Pr. FINC 8620. This course focuses on current literature in financial markets and intermediation. Students should develop the insights necessary to identify problems and conduct research in this area.

FINC 8700 SPECIAL TOPICS IN FINANCE (3) LEC. 3. Pr. FINC 7600 or FINC 7606 or FINC 7640 or FINC 7646. Varies according to faculty and students interests. This could be a course like Options, Futures and Derivatives, or a course with several participating faculty members discussing their own research.

FINC 8800 SEMINAR ON FACULTY RESEARCH AND EXTENSIONS (1-3) LEC. 3. SU. Departmental approval. Rotating faculty members will present their current published and unpublished research. Readings will be assigned. Student/faculty discussions are expected to follow the usual seminar format.

FINC 8880 SEMINAR (1) SEM. SU. Admission to the Ph.D. in Business with a Concentration in Finance. Seminar presentations by visiting scholars, Finance Faculty and Ph.D. students.

FINC 8990 RESEARCH AND DISSERTATION (1-12) DSR. Course may be repeated for a maximum of 60 credit hours.

Department of Management and Entrepreneurship

The Department of Management and Entrepreneurship prepares students in basic business functions as well as the process of management. The program imparts knowledge that will assist future managers to be good decision makers for their organizations.

Management

The Management program provides students a comprehensive overview of the skills necessary to compete in a managerial position in business. The program emphasizes such areas as behavioral dynamics, leadership skills, project management, business processes and logistics, international relations, as well as the management of information technology. It is designed to focus on those issues generic to both the manufacturing and service industries. These management skills, when complemented with the solid foundation provided by the business core courses, equip students with the necessary knowledge to become successful mangers. One unique aspect of the program is a community service project geared toward helping the students understand the importance of community service and philanthropy in today’s global economy.

Several complementary minors are offered for the management major: Human Resource Management, Entrepreneurship and Family Business, and Organizational Leadership.

College of Business pre-requisites are strictly enforced. Junior standing and compliance with College of Business academic standards are required for all 3000 and above level courses.

Business Administration

The Business Administration program is an interdepartmental degree designed to provide maximum course flexibility and a broad-based preparation for future career opportunities. Students are required to demonstrate basic oral and written communication skills, familiarity with technological tools, and an understanding of the interrelationship between the United States and foreign countries with a comprehensive education in business management. The Business Administration program prepares students for entry-level managerial and staff responsibilities in business, government, and non-profit organizations.

Majors

- Management (p. 398)
- Business Administration — On-Campus Option (p. 395)
- Business Administration — Online Degree Completer Program (p. 396)

Minors

- Entrepreneurship and Family Business (p. 397)
- Human Resource Management (p. 398)
- Organizational Leadership (p. 399)

Entrepreneurship Family Bus Courses

ENFB 3140 ESSENTIALS OF ENTREPRENEURSHIP (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2030 or ECON 2033 or ECON 2037. The application of basic business principles to the entrepreneurial environment.

ENFB 4160 FAMILY BUSINESS MANAGEMENT (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of aspects of managing an established family business, on a day-to-day basis, and of planning for succession to the next generation.

ENFB 4170 MANAGING ENTREPRENEURIAL START-UPS (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of aspects of managing and marketing concepts and processes that can be utilized to launch new ventures or a new division within an existing business.

ENFB 4180 GROWTH STRATEGIES FOR EMERGING COMPANIES (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of the important aspects of starting and managing a franchise business.

ENFB 4190 NEW VENTURE CREATION (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Analysis of industrial, competitive, market and financial aspects of starting a business.

ENFB 4200 BUSINESS PLAN FOR THE NEW VENTURE (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Application of business principles to a practical, hands-on project.

ENFB 4210 CORPORATE VENTURING-ENTREPRENEURS IN ORGANIZATIONS (3) LEC. 3. Pr. ENFB 3140 or ENFB 4140. Study of the entrepreneurial process as it applies to the operations of a department or functional area within an established organization.

ENFB 4220 DIGITAL ENTREPRENEURSHIP AND EMERGING TECHNOLOGIES (3) LEC. 3. Pr. ENFB 3140. Examines how digitalization and emerging technologies impact entrepreneurship and innovation by changing the functional areas of business including marketing, management, finance, and supply chain management.

ENFB 4920 INTERNSHIP (1-6) INT. Pr. 2.50 GPA. Departmental approval. Approval by departmental internship program committee. Course may be repeated for a maximum of 6 credit hours.

ENFB 4950 SEMINAR IN ENTREPRENEURSHIP AND FAMILY BUSINESS (3) LEC. 3. This seminar covers emerging issues in entrepreneurship. Prequisite: ENFB 3140 or Departmental Approval. Course may be repeated for a maximum of 6 credit hours.

ENFB 4970 SPECIAL TOPICS IN ENTREPRENEURSHIP & FAMILY BUSINESS (3) LEC. 3. Pr. ENFB 3140 or Departmental approval. This course covers current topics in entrepreneurship and family business. Course may be repeated for a maximum of 6 credit hours.

ENFB 5900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 6 credit hours.

ENFB 5960 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Independent study investigating current literature in management. Course may be repeated for a maximum of 6 credit hours.

ENFB 6900 DIRECTED STUDIES (1-3) IND. SU. Independent study on current topics in management. Course may be repeated for a maximum of 3 credit hours.

ENFB 6960 SPECIAL PROBLEMS (3) DSL/IND. Departmental approval. General management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 6 credit hours.

Human Resource Mngt Courses

HRMN 3420 HUMAN RESOURCE MANAGEMENT (3) LEC. 3. Pr. P/C MNGT 3100 or P/C MNGT 3103 or P/C MNGT 3107 or P/C MNGT 3810. Management of human resources dealing with selection, training, placement, appraisal, compensation, and employee representation.

HRMN 4920 INTERNSHIP (1-6) AAB/INT. SU. Pr. 2.50 GPA. Departmental approval. Approval by departmental intern program committee and minimum 2.50 GPA. Course may be repeated for a maximum of 6 credit hours.

HRMN 4970 SPECIAL TOPICS IN HUMAN RESOURCE MANAGEMENT (3) LEC. 3. Pr. MNGT 3100. This course covers current and emerging topics related to human resource management. Course may be repeated for a maximum of 6 credit hours.

HRMN 5430 LABOR RELATIONS (3) LEC. 3. General survey of the development of collective bargaining, major provisions of labor law, and bargaining issues of craft and industrial unions.

HRMN 5460 HUMAN RESOURCE LEGISLATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Legislation that impacts the management of human resources within the organization.

HRMN 5470 EMPLOYEE COMPENSATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Modern compensation systems, strategic planning, wage and salary management, benefits administration and pay incentive development.

HRMN 5510 HUMAN RESOURCE PLANNING, DEVELOPMENT, AND APPRAISAL (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Theory, practice and design of managerial systems in these functions.

HRMN 5540 HUMAN RESOURCES SELECTION AND PLACEMENT (3) LEC. 3. Pr. (HRMN 3420 or HRMN 3423) and (BUAL 2600 or BUAL 2603 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3600 or STAT 3610). A review of contemporary issues involved in administering a program for selecting employees.

HRMN 5900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 6 credit hours.

HRMN 5960 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Independent study investigating current literature in management. Course may be repeated for a maximum of 6 credit hours.

HRMN 6460 HUMAN RESOURCE LEGISLATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Legislation that impacts the management of human resources within the organization.

HRMN 6470 EMPLOYEE COMPENSATION (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Study of the theory, procedures, techniques, and practices used to administer modern organization compensation systems.

HRMN 6510 HR PLANNING DEV & APPRAISAL (3) LEC. 3. Pr. HRMN 3420 or HRMN 3423. Theory, practice, and design of managerial systems and these functions.

HRMN 6540 HUMAN RESOURCES SELECTION AND PLACEMENT (3) LEC. 3. Pr. (HRMN 3420 or HRMN 3423) and (BUAL 2600 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010). A review of contemporary issues involved in administering a program for selecting employees.

HRMN 6900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 3 credit hours.

HRMN 6960 SPECIAL PROBLEMS (3) IND. Departmental approval. General management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 6 credit hours.

Management Courses

MNGT 3010 PROFESSIONAL DEVELOPMENT IN MANAGEMENT (1) LEC. 1. SU. Pr. (P/C MNGT 3100 or P/C MNGT 3103 or P/C MNGT 3107) and P/C BUSI 2010. Career planning and preparation for employment in a management position.

MNGT 3100 PRINCIPLES OF MANAGEMENT (3) LEC. 3. Management functions and the applications of management principles in organization. Junior standing. May count either MNGT 3100 or MNGT 3810.

MNGT 3107 HONORS PRINCIPLES OF MANAGEMENT (3) LEC. 3. Pr. Honors College. Management functions and the applications of management principles in organization. Fall, Spring. Junior standing.

MNGT 3460 ORGANIZATIONAL BEHAVIOR (3) LEC. 3. Pr. P/C MNGT 3100 or P/C MNGT 3103 or P/C MNGT 3107 or P/C MNGT 3810. Study, analysis and application of theories and techniques for understanding, predicting and managing human behavior in the organizational context.

MNGT 3810 MANAGEMENT FOUNDATIONS (3) LEC. 3. Management Foundations is a broad based introductory course that will focus on management functions and applications of management principles. This course is not open to undergraduates majoring in business. Junior standing. May count either MNGT 3100 or MNGT 3810.

MNGT 3970 GLOBAL PERSPECTIVES IN BUSINESS IN SPAIN (6) LEC. 6. The objective of the course is to learn about business in Spain by immersing the student totally into the Spain language and culture. Course may be repeated for a maximum of 12 credit hours.

MNGT 4100 MANAGEMENT IN GLOBAL BUSINESS ENVIRONMENT (3) LEC. 3. Pr. MNGT 3100 or MNGT 3103 or MNGT 3107. Issues unique to managing operations in the global business environment.

MNGT 4400 ORGANIZATIONAL CHANGE (3) LEC. 3. Pr. MNGT 3100 or MNGT 3103 or MNGT 3107. The complexities involved in implementing change in organizations.

MNGT 4610 INTERNATIONAL FIELD ANALYSIS PROJECT COURSE (3) LEC. 3. Field analysis team projects with local or multinational organizations in a foreign county. Course will be taught in conjunction with COB International Studies Programs.

MNGT 4690 ETHICAL ISSUES IN MANAGEMENT (3) LEC. 3. Pr. (MNGT 3100 or MNGT 3103 or MNGT 3107) and (FINC 3610 or FINC 3613 or FINC 3617). The course is designed to help students gain a better understanding of how ethical dilemmas can impact managerial decisions.

MNGT 4800 STRATEGIC MANAGEMENT (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317) and (MNGT 3100 or MNGT 3103 or MNGT 3107) and (FINC 3610 or FINC 3613 or FINC 3617). Objectives, strategy, and policies pertaining to a total organization. Problem-solving and the relationship between the functional areas of an organization. College of Business Information Technology requirement.

MNGT 4920 INTERNSHIP (1-6) AAB/INT. SU. Pr. 2.50 GPA. MNGT 3100 or MNGT 3103 or MNGT 3107. Departmental approval. Approval by departmental intern program committee. Course may be repeated for a maximum of 6 credit hours.

MNGT 4950 SEMINAR IN MANAGEMENT (1-10) AAB/SEM. Departmental approval. Course may be repeated for a maximum of 10 credit hours.

MNGT 4970 SPECIAL TOPICS IN MANAGEMENT (3) LEC. 3. Pr. MNGT 3100. This course covers current topics related to managing people and organizations. or Departmental Approval. Course may be repeated for a maximum of 6 credit hours.

MNGT 5560 LEADERSHIP (3) LEC. 3. Facilitates the understanding of leadership and allows student to examine their own leadership behaviors.

MNGT 5900 DIRECTED STUDIES (1-3) AAB/IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 6 credit hours.

MNGT 5960 SPECIAL PROBLEMS IN MANAGEMENT (1-3) AAB/IND. Departmental approval. Independent study investigating current literature in management. Course may be repeated for a maximum of 6 credit hours.

MNGT 6560 LEADERSHIP (3) LEC. 3. Facilitates the understanding of leadership and allows student to examine their own leadership behaviors.

MNGT 6900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study on current topics in management. Course may be repeated for a maximum of 3 credit hours.

MNGT 6960 SPECIAL PROBLEMS (1-3) AAB/IND. Departmental approval. General management theories, practices, and functions in industry and business. Individual work with a designated faculty member. Course may be repeated for a maximum of 6 credit hours.

MNGT 6970 SPECIAL TOPICS IN MANAGEMENT (3) LEC. 3. This course covers emerging and current topics related to managing people and organizations that are not otherwise covered in existing courses.

MNGT 7970 SPECIAL TOPICS IN MANAGEMENT (3) LEC. 3. Departmental approval. Current topics in management.

MNGT 8030 RESEARCH METHODS IN MANAGEMENT I (3) LEC. 3. Pr. MNGT 8400. Research methodologies used in conducting research with emphasis on empirical organizational behavior research methods. A graduate-level course taken in major field, and working knowledge of SPSS or SAS.

MNGT 8310 SEMINAR IN ADVANCED ORGANIZATIONAL BEHAVIOR (3) LEC. 3. Departmental approval. Advanced study of theories and research in organizational behavior. Overarching organizational behavior paradigms and theoretical perspectives and research findings at the individual and group levels of analysis.

MNGT 8320 SEMINAR IN STRATEGY IMPLEMENTATION (3) LEC. 3. Departmental approval. Review of the major theoretical perspectives and the empirical literature supporting the research field of strategic management with an emphasis on strategy implementation.

MNGT 8330 SEMINAR IN STRATEGY FORMULATION (3) LEC. 3. Departmental approval. Review of the major theoretical perspectives and the empirical literature supporting the research field of strategic management with an emphasis on strategy formulation.

MNGT 8400 ADVANCED QUANTITATIVE METHODS FOR MANAGEMENT I (4) LEC. 3. LAB. 1. Pr. STAT 7000. Study of the application of linear regression analysis to business research. First advanced course in applied linear statistics models. STAT 7000 or approved equivalent.

MNGT 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Entrepreneurship and Family Business Minor

The Entrepreneurship and Family Business Minor is a 15-hour program designed around the creation and management of an individual's own business as well as the fostering of an entrepreneurial mindset within a larger organization. The minor is open to business and non-business majors.

The minor consists of two required courses (6 semester hours) and 9 semester hours of approved electives.

Code	Title	Hours
ENFB 3140	Essentials of Entrepreneurship	3
ENFB course 4000 level or higher		3

Approved Electives	9
Total Hours	**15**

See the College of Business website for the list of approved electives.

Courses taken to fulfill the University Core Curriculum requirements or other major/minor program requirements may not be used to fulfill the minor. See course descriptions for appropriate prerequisites. Non-business majors who are seeking this minor should declare the minor at https://www.aub.ie/NBdeclareminor. Students must earn an overall GPA of at least 2.0 in all minor courses.

Human Resource Management Minor

This minor is available only to Management majors.

Department of Marketing

Marketing majors discover the interrelationship of marketing with other functional areas of business. Marketing is the fundamental revenue driver within the organization. The interface with consumers helps to inform the directions companies and organizations can take to better anticipate and solve consumer needs. Marketing majors have rich and robust careers through business to business engagement that involves partnerships through professional selling and sales management. Our students have opportunities to conduct

internships and work for advertising agencies and digital marketing firms. Some of our students find ways to take strategic marketing into aspects of supply chain management careers. Also, retail offers opportunities for marketing majors as well as entrepreneurial ventures.

Majors

- Marketing (p. 402)

Minors

- Marketing (p. 403)
- Professional Sales (p. 403)

Courses

MKTG 3010 PROFESSIONAL DEVELOPMENT IN MARKETING (1) LEC. 1. SU. Pr. (P/C MKTG 3310 or P/C MKTG 3313 or P/C MKTG 3317) and P/C BUSI 2010. Career planning and preparation for employment in the marketing industry.

MKTG 3310 PRINCIPLES OF MARKETING (3) LEC. 3. Study of functions, institutions, and basic problems in marketing of goods and services in a global economy. Credit will not be given for both MKTG 3310 and MKTG 3810. Junior standing.

MKTG 3317 HONORS PRINCIPLES OF MARKETING (3) LEC. 3. Pr. Honors College. Study of functions, institutions, and basic problems of marketing goods and services in a global economy. Junior standing.

MKTG 3810 FOUNDATIONS OF BUSINESS MARKETING (3) LEC. 3. Broad-based course for non-business majors that focuses on marketing functions and applications of marketing principles. Students enrolled in a business major or the Marketing minor may not enroll in this course. May count either MKTG 3310 or MKTG 3810; credit will not be awarded for both MKTG 3310 and MKTG 3810. Junior standing.

MKTG 4310 SPORTS AND ENTERTAINMENT MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Application of marketing theory and practice to the sports and entertainment business.

MKTG 4330 RETAIL MANAGEMENT (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Principles of retail operation: facility location, layout, purchasing, pricing and merchandise control.

MKTG 4340 MARKETING AND NEW PRODUCT DEVELOPMENT (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Marketing-based analysis of profitable new products and brand extensions involving the invention, development, and product launch plus sustaining market success.

MKTG 4390 PERSONAL SELLING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Selling strategy as an interdisciplinary business activity.

MKTG 4400 INTERNATIONAL MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Strategy, policy, and the variables affecting international marketing decisions.

MKTG 4410 CONSUMER BEHAVIOR (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Critical review and analysis of possible pragmatic applications of consumer behavior theories used for marketing decision making.

MKTG 4420 ADVANCED PERSONAL SELLING (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810) and (MKTG 4390 or MKTG 4393). Grade of C or better in prerequisite courses. Advanced personal selling skills, practices and programs are covered. Emphasis is placed on sales presentations, demonstrations, negotiations and relationship building skills.

MKTG 4430 BUSINESS TO BUSINESS MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Marketing strategy and applications for business-to-business companies and markets.

MKTG 4440 MARKETING ETHICS AND CORPORATE SOCIAL RESPONSIBILITY (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Explores marketing ethics and social responsibility from an organizational perspective.

MKTG 4450 CUSTOMER RELATIONSHIP MANAGEMENT (3) LEC. 3. Pr. MKTG 3310 or MKTG 3810 or MKTG 3317. This course is designed to compare and contrast the basic concepts of customer relationship management (CRM) as related to sales strategy. Grade of C or better in prerequisite course.

MKTG 4460 ADVERTISING STRATEGY (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. The course applies research in psychology and the behavioral sciences to advertising strategy, including the methodology for planning, execution, and evaluation of advertising campaigns.

MKTG 4470 PHARMACEUTICAL MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. This course will examine the current pharmaceutical marketing environment from a practical perspective. Grade of C or better in prerequisite course.

MKTG 4480 PRICING STRATEGY (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. The examination of pricing objectives, strategy, and tactics in marketing. Grade of C or better in prerequisite course.

MKTG 4490 NEGOTIATING AND CONFLICT RESOLUTION (3) LEC. 3. Pr. MKTG 3310 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. The course integrates conceptual understanding with practical application of negotiation, with a particular emphasis on sales negotiations.

MKTG 4800 MARKETING STRATEGY (3) LEC. 3. Pr. MKTG 4360 or MKTG 5360 and Completed courses from MKTG 4050-5500 or BUSI 3250 or MKTG 4050-5500. and MKTG 3310 or MKTG 3313 or MKTG 3317. Strategic perspectives of market dynamics in different competitive environments across organizational levels. Pr MKTG 3310/3317 and Pr/Cr MKTG 4360/5360 and Pr 9 hours of Marketing electives between MKTG 4050 - 5500 or BUSI 3250. All Pr and Cr courses require a C or better. Credit will not be given for both MKTG 4800 and MKTG 4980.

MKTG 4900 DIRECTED STUDIES (1-3) AAB/IND. 3. SU. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317. Grade of C or better. Advanced research, reading and study in marketing. Department approval. Course may be repeated for a maximum of 6 credit hours.

MKTG 4920 MARKETING STUDENT INTERNSHIP PROGRAM (3) AAB/INT. 3. SU. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317. Departmental approval. Grade of C or better. Provides a relevant and meaningful work experience in a marketing or marketing-related business, industry or organization.

MKTG 4970 SPECIAL TOPICS IN MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317. Grade of C or better. Examination of current marketing topics. Course may be repeated for a maximum of 9 credit hours.

MKTG 5350 SERVICES MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Examination of marketing in service industries and implementation of service marketing strategies. Credit will not be given for both MKTG 4350 and MKTG 5350.

MKTG 5360 MARKETING RESEARCH AND ANALYTICS (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810) and (BUAL 2650 or BUAL 2653). Grade of C or better in prerequisite courses. Research methods in marketing and their application to marketing problems. Credit will not be given for both MKTG 4360 and MKTG 5360.

MKTG 5370 SALES MANAGEMENT (3) LEC. 3. Pr. (MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810) and (P/C MKTG 4390 or P/C MKTG 4393). Grade of C or better in prerequisite courses. Principles and practices of organization and administration of sales organizations. Credit will not be given for both MKTG 4370 and MKTG 5370.

MKTG 5500 DIGITAL MARKETING (3) LEC. 3. Pr. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Use of electronic media and the Internet for marketing strategy. Credit will not be given for both MKTG 4500 and MKTG 5500.

MKTG 5507 HONORS DIGITAL MARKETING (3) LEC. 3. Pr. Honors College. MKTG 3310 or MKTG 3313 or MKTG 3317 or MKTG 3810. Grade of C or better in prerequisite course. Use of electronic media and the Internet for marketing strategy. Credit will not be given for both MKTG 4500 and MKTG 5500 (5507).

MKTG 6350 SERVICES MARKETING (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Examination of marketing in service industries and implementation of service marketing strategies.

MKTG 6360 MARKETING RESEARCH AND ANALYTICS (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Research methods in marketing and their application to marketing problems.

MKTG 6370 SALES MANAGEMENT (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Principles and practices of organization and administration of sales organizations.

MKTG 6380 CUSTOMER INSIGHTS AND MARKETING SOLUTIONS (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Study of tools and strategies that businesses use to gather deep understanding about their customers' needs, behaviors, and preferences, then leverage that information to create targeted and effective marketing campaigns, ultimately leading to improved customer engagement and sales.

MKTG 6500 DIGITAL MARKETING (3) LEC. 3. Pr. BUSI 7210. Grade of C or better in prerequisite course. Use of electronic media and the Internet for marketing strategy.

MKTG 7970 SPECIAL STUDIES IN MARKETING (3) LEC. 3. Pr. BUSI 7210. Departmental approval. Grade of C or better in prerequisite course. Variable content in the marketing area. Course may be repeated for a maximum of 6 credit hours.

Department of Supply Chain Management

The Supply Chain Management program combines logistics and operations management knowledge to provide a comprehensive education for students interested in careers with manufacturers, retailers, consultancies, and logistics services providers. The primary goal of the program is to provide a practical understanding of procurement, operations, logistics, and transportation so that graduates will excel in entry-level management positions, graduate school, and future opportunities.

Information regarding careers, internships, scholarships, and student organizations is available through the program coordinators. College of Business pre-requisites are strictly enforced. Junior standing and compliance with College of Business academic standards are required for all 3000 and above level courses.

Majors

- Supply Chain Management (p. 407)

Minors

- Supply Chain Management (p. 408)

Courses

SCMN 2150 PRINCIPLES OF SUPPLY CHAIN MANAGEMENT (2) LEC. 2. Fundamental concepts, activities, and tools of supply chain management.

SCMN 3100 FOUNDATIONS OF BUSINESS LOGISTICS (3) LEC. Pr. SCMN 2150. The course provides an introduction to logistics activities and processes from a supply chain perspective. Foundational concepts, current issues, and strategies used to obtain competitive advantage in a global business environment will be addressed. For Non-SCM Majors and Non-SCM Minors only. Credit will not be given for both SCMN 3710 and SCMN 3100.

SCMN 3710 LOGS: MNGT OF FULFILLMENT PROC (3) LEC. 3. Pr. SCMN 2150 or SCMN 2153 or SCMN 3150 or SCMN 3153. SCMN 2150/2153 requires a grade of 'C' or better. Management of logistics processes involved in meeting customer demand, including inventory, transportation, distribution, and related activities. Fall, Spring, Summer.

SCMN 3720 TRANSPORTATION AND ORDER FULFILLMENT (3) LEC. 3. Pr. SCMN 2150. Pre-requisite requires a grade of 'C' or better. Management of transportation and distribution activities involved in the order fulfillment process. Fall, Spring.

SCMN 3730 STRATEGIC SOURCING (3) LEC. 3. Pr. SCMN 2150. Pre-requisite requires a grade of 'C' or better. Addresses the scope of activities and various roles of the procurement function within the organization and between firms. Fall, Spring.

SCMN 3740 SUPPLY & DEMAND INTEGRATION (3) LEC. 3. Pr. SCMN 2150. Credit will not be given for both SCMN 3710 and SCMN 3740. SCMN 3740 is a foundational supply chain course that is focused on the key concepts and decisions needed to align supply with demand. This course is designed to provide an overview of supply chain planning to achieve integration in all time horizons-short, intermediate, and long term.

SCMN 3810 PROFESSIONAL DEVELOPMENT IN SUPPLY CHAIN MANAGEMENT (1) LEC. 1. SU. Pr. SCMN 2150 and P/C BUSI 2010. SCMN majors only. Career planning and preparation for supply chain internships and professional experience opportunities. Credit will not be given for both SCMN 3810 and BUSI 3010 or SCMN 4810. Fall, Spring.

SCMN 3910 PRACTICUM IN SUPPLY CHAIN MANAGEMENT (1-3) PRA. 1-3. SU. Pr. (SCMN 2150 or SCMN 2153 or SCMN 3150) and (CTCT 3250 or CTCT 3253). Departmental approval. CTCT 3250/3253 requires a grade of 'C' or better. SCMN majors only. Cooperatively selected field activity to gain practical SCM experience. Course may be repeated for a maximum of 6 credit hours.

SCMN 3920 INTERNSHIP IN SUPPLY CHAIN MANAGEMENT (0-6) INT. SU. Pr. (SCMN 3720 or SCMN 3730 or SCMN 3740) and (CTCT 3250 or CTCT 3253) and SCMN 3810. Departmental approval. Prerequisites require a grade of 'C' or better. SCMN majors only. Professional work experience in a supply chain focused position. Course may be repeated for a maximum of 6 credit hours.

SCMN 4620 SUSTAINABLE SUPPLY CHAIN MANAGEMENT (3) LEC. 3. Pr. SCMN 3730. Pressure from customers, policy makers and non-governmental organizations compels companies to address the environmental footprint of their operations and the social impact they have on local communities. This course focuses on the “triple bottom line,” which addresses how a company must strategically incorporate environmental, social and economic dimensions.

SCMN 4700 SUPPLY CHAIN PERFORMANCE MANAGEMENT (3) LEC. 3. Pr. (SCMN 3710 or SCMN 3740) and SCMN 3720 and SCMN 3730 and CTCT 3250. Pre-requisites require a grade of 'C' or better. Understanding and managing supply chain performance through the use of metrics, analysis, and improvement strategies. Fall, Spring.

SCMN 4730 SUPPLY CHAIN TOOLS AND TECH (3) LEC. 3. Pr. SCMN 3730 and SCMN 3720. Tools, techniques and technologies of various supply chain processes.

SCMN 4750 ENTERPRISE SYSTEMS IN SUPPLY CHAIN MANAGEMENT (3) LEC. 3. Pr. SCMN 4700 and SCMN 4730. This course provides detailed hands –on training on ERP systems using SAP. The course will cover end to end ERP operation, including procurement, manufacturing, sales & distribution, human resources, cost and management accounting, etc. At the end of this class, students who complete it with a B or above will automatically be eligible for their SAP Recognition Certificate provided they have also passed SCMN 4730 and SCMN 4700 with B or above.

SCMN 4770 SUPPLY CHAIN OPERATIONS MANAGEMENT (3) LEC. 3. Pr. SCMN 3730 and SCMN 3720. Review and application of current supply chain strategies processes and information technologies required to compete in today's global marketplace. The course will focus on presenting key manufacturing management techniques used to balance supply with demand to ensure customer satisfaction.

SCMN 4800 SUPPLY CHAIN STRATEGY: A GLOBAL PERSPECTIVE (3) LEC. 3. Pr. (SCMN 3710 or SCMN 3713 or SCMN 3740) and SCMN 3720 and SCMN 3730 and (CTCT 3250 or CTCT 3253). Pre-requisites require a grade of "C" or better. Capstone course providing an intensive study of strategies used to facilitate global flows of product, information, and payments. Fall, Spring, Summer

SCMN 4820 SUPPLY CHAIN CONSULTING (3) LEC. 3. Pr. (BUAL 2600 or BUAL 2603 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3600) and BUAL 2650 and SCMN 3920. This special topic course is intended to help develop essential skills in planning and executing a company-focused consulting project.

SCMN 4900 DIRECTED STUDIES IN SUPPLY CHAIN MANAGEMENT (1-3) LEC/SEM. Departmental approval. Advanced individual research of SCM topic under direction of a faculty member. Course may be repeated for a maximum of 3 credit hours.

SCMN 4970 SPEC TOPS IN SUPPLY CHAIN MGNT (3-6) LEC. 3-6. Pr. SCMN 3720 and SCMN 3730. Current topics and issues related to the field of supply chain management. Course may be repeated for a maximum of 6 credit hours.

SCMN 5390 INTEGRATING BUSINESS PROCESSES WITH ERP (3) LEC. 3. Pr. (SCMN 3710 or SCMN 3713) and SCMN 3720. Examination of how integrating business processes in ERP environment promotes strategic alignment and performance gains for an organization. May count either SCMN 5390 or SCMN 6390.

SCMN 5500 INVENTORY AND WAREHOUSE MANAGEMENT (3) LEC. 3. Pr. SCMN 3710 and SCMN 3720. Departmental approval. Course focuses on issues related to managing inventories in a supply chain. Topics include: role of inventory in supply chains, inventory-related policies and decisions, and dealing with supply and demand uncertainty. Issues related to safety stock and replenishment planning, impact of lead times, and management of multi-echelon supply chains are covered. Additional issues related to warehousing inventory, such as storage and slotting policies, receiving and put away, order picking strategies and warehouse management are covered.

SCMN 5600 SUPPLY CHAIN PLANNING (3) LEC. 3. Pr. SCMN 3710 and SCMN 3720. Departmental approval. This course focuses on long-term and short-term planning of supply chains to provide a strategic fit with business objectives. Topics include: framework for supply chain planning and decision-making, distribution network designs and managing uncertainty, demand forecasting and aggregate planning. Issues related to supply chain coordination and planning for product availability under service levels are also covered. Additional issues related to sales and operations planning, managing economies of scale and revenue management are also covered.

SCMN 5720 QUALITY & PROCESS IMPROVEMENT (3) LEC. 3. Pr. SCMN 2150 and (BUAL 2600 or BUAL 2603 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or STAT 3600) and P/C BUAL 2650. Fundamentals of process improvement; techniques for performing quality control functions; quality management systems.

SCMN 6390 INTEGRATING BUSINESS PROCESSES WITH ERP (3) LEC. 3. LAB. 0. Examination of how integrating business processes in ERP environment promotes strategic alignment and performance gains for an organization. Credit will not be given for both SCMN 5390 and SCMN 6390.

SCMN 6500 INVENTORY AND WAREHOUSE MANAGEMENT (3) LEC. 3. This course focuses on issues related to managing inventories in a supply chain. Topics include: role of inventory in supply chains, inventory-related policies and decisions, and dealing with supply and demand uncertainty. Issues related to safety stock and replenishment planning, impact of lead times, and management of multi-echelon supply chains are covered. Additional issues related to warehousing inventory, such as storage and slotting policies, receiving and put away, order picking strategies and warehouse management are covered.

SCMN 6600 SUPPLY CHAIN PLANNING (3) LEC. 3. This course focuses on long-term and short-term planning of supply chains to provide a strategic fit with business objectives. Topics include: framework for supply chain planning and decision-making, distribution network designs and managing uncertainty, demand forecasting and aggregate planning. Issues related to supply chain coordination and planning for product availability under service levels are also covered. Additional issues related to sales and operations planning, managing economies of scale and revenue management are also covered.

SCMN 6720 QUALITY & PROCESS IMPROVEMENT (3) LEC. 3. Fundamentals of process improvement; techniques for performing quality control functions; quality management systems. Fall, Spring. Student should have completed a basic statistics course prior to enrolling in SCMN 6720.

SCMN 6900 DIRECTED STUDIES (3) IND. SU. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 6960 SPECIAL PROBLEMS (3) IND. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 7600 SUPPLY MNGT AND MANUFACTURING (3) LEC. 3. Pr. P/C BUSI 7150. The management of purchasing, supply and materials management, manufacturing processes related to the fulfillment of supply chain requirements. Spring.

SCMN 7700 DEMAND MNGT & FULFILLMENT (3) LEC. 3. Pr. P/C BUSI 7150. The management of logistical processes related to the fulfillment of supply chain requirements. Primary topics include tin integrated planning, operations, and performance analysis of demand, inventory, transportation, distribution, and customer relationships. Summer.

SCMN 7770 SUPPLY CHAIN MANAGEMENT (3) LEC. 3. Problems and analysis in the design and management of the retail, industrial and service supply chain.

SCMN 7800 SUPPLY CHAIN STRATEGY (3) LEC. 3. Pr. P/C BUSI 7150. Advanced study of integrated supply chain theory, strategy, and practice. Topics include network design, collaboration, inventory visibility, process synchronization, information management, and financial analysis. Fall.

SCMN 7900 DIRECTED STUDIES (3) IND. SU. Departmental approval. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 8150 DOCTORAL SEMINAR ON CURRENT TOPICS IN SCM RESEARCH (3) LEC. 3. LAB. 0, SEM. 0. The class is a rigorous, seminar style course on Current Topics in SCM Research. Each class will familiarize you with the key insights in a current research topic (i.e., the “hot topics”) in the SCM area. The instructor has chosen to cover a broad range of active research to give you an overview of topics that people are working on currently and are likely to work on in the future.

SCMN 8250 LSCM INTERORGANIZATIONAL THEORY SEMINAR (3) LEC. 3. LAB. 0, SEM. 0. This is an advanced theories seminar in logistics and supply chain management (LSCM). This seminar is designed to expose doctoral students to accepted research grounding in LSCM and train students to be successful researchers. Management history and ten core theories are covered. We will be discussing seminal articles in-depth with a connection to recent works. These articles are published in top journals in LSCM, Economics, International Business, Management, Marketing, and Sociology.

SCMN 8350 EMPIRICAL METHODS IN SUPPLY MANAGEMENT RESEARCH (3) LEC. 1.5. LAB. 1.5. This course provides students with an overview of quantitative empirical research in major supply chain journals. Students will read and synthesize articles in top SCM journals which employ a variety of quantitative, empirical strategies. They will be provided with instruction on the application of a variety of approaches in Stata to analyze data. Students will also perform their own quantitative analysis with data of their choice.

SCMN 8450 HISTORY OF SUPPLY CHAIN MANAGEMENT & OPERATIONS RESEARCH (3) LEC. 3. LAB. 0, SEM. 0. In this seminar, students should gain a broad understanding of SCM topics in which prior scholars have conducted academic research. A review of the key ideas and principles scholars have addressed is undertaken to critically assess how the primary research streams in SCM have developed. Understanding this development will require considerable reading and thoughtful analysis outside of class.

SCMN 8550 SEMINAR IN GLOBAL SUPPLY CHAIN MANAGEMENT (3) LEC. 3. LAB. 0, SEM. 0. In this seminar, students will gain a broad understanding of global topics connected with SCM. A review of the key ideas and principles in International Business, Cross Border Trade, and Customs Unions are discussed. The role of tariffs, import and export barriers, and free trade on local and global economies are discussed and debated in detail.

SCMN 8650 RESEARCH METHODS IN SUPPLY CHAIN MANAGEMENT - 2 (3) LEC. 0. LAB. 0, SEM. 0. In this seminar, students will gain a deep understanding of statistical and methodological issues in SCM scholarship (especially latent variables). A review of the advanced topics is offered including usage in STATA or SAS. Students may be expected to demonstrate hands on expertise in these topics including writing code, implementing the methods, interpreting results and understanding their implications.

SCMN 8750 EXPERIMENTAL METHODS IN SUPPLY CHAIN MANAGEMENT (3) LEC. 0. LAB. 0, SEM. 0. In this seminar, students will gain a deep understanding of statistical and methodological issues in SCM scholarship (with a focus on experiments). A review of the topics is offered including usage in STATA or SAS. Students may be expected to demonstrate hands on expertise in these topics including writing code, implementing the methods, interpreting results and understanding their implications.

SCMN 8900 DIRECTED STUDIES (3) IND. SU. Departmental approval. This course is a self-learning course designed to enhance the student's knowledge of a selected topic. The course will be designed individually for each student with agreement between the student and the professor. Coursework may include traditional exams, readings, papers, or more specific projects and tasks depending on the material and the goal of the student. Course may be repeated for a maximum of 9 credit hours.

SCMN 8990 RESEARCH AND DISSERTATION (1-10) DSR. Must be degree seeking PhD student in the Business with concentration in the Supply Chain Management program.

Supply Chain Management (SCMN)

Supply Chain Management Minor

Requirements

The minor is 15-17 semester hours (3000-level or above), depending on whether you are a business major.

You must meet all prerequisites for the required courses and chosen electives. Prerequisites will not be waived. Visit the AU Bulletin to see course descriptions and their respective prerequisites (abbreviated as “Pr”).

Courses completed to satisfy the school/college core curriculum or a major requirement (e.g. counting toward the GPA "in the major") may not be used to fulfill a minor. Supporting coursework may be used in satisfying the requirements for a minor if a minor is not required by the student's academic major.

Code	Title	Hours
Required courses (9 - 11 hours):		
SCMN 2150	Principles of Supply Chain Management**	2
SCMN 3720	Transportation and Order Fulfillment	3
SCMN 3730	Strategic Sourcing	3
SCMN 3740	Supply & Demand Integration	3

Elective courses (6 hours):	
Choose two 3-hour electives from the list of approved elective courses provided on the Harbert College of Business website.	6
Total Hours	**17**

**Business majors who pursue this minor will exclude the SCMN 2150 requirement resulting in a 15-hour minor. SCMN 2150 was formerly 3150.

Majors

- Accountancy — On-Campus Option for First Degree Candidates (p. 372)
- Accountancy — Online Option for Second Degree Candidates (p. 373)
- Business Administration — On-Campus Option (p. 395)
- Business Administration — Online Degree Completer Program (p. 396)
- Business Analytics (p. 382)
- Finance (p. 389)
- Information Systems Management (p. 384)
- Management (p. 398)
- Marketing (p. 402)
- Supply Chain Management (p. 407)

Minors

Business Minor

A business minor is available within the College of Business for non-business majors. The minor includes four required courses and one elective course. Courses correspond with the common body of knowledge as specified by AACSB International. Completion of these courses provides a basic understanding of the foundations of business administration and facilitates progress toward graduate work in business.

Required Courses:

Code	Title	Hours
ACCT 2810	Fundamentals Of Accounting	3
or ACCT 2110	Principles of Financial Accounting	
FINC 3810	Foundations of Business Finance	3
or FINC 3610	Principles of Business Finance	
MKTG 3810	Foundations of Business Marketing	3
or MKTG 3310	Principles of Marketing	
MNGT 3810	Management Foundations	3
or MNGT 3100	Principles of Management	

Elective Courses (choose one):

Code	Title	Hours
BUSI 3250	International Business	3
or ECON 2030	Principles of Macroeconomics	

The Foundations courses (ACCT 2810, FINC 3810, MKTG 3810, MNGT 3810) are designed for non-business majors and are highly recommended for students pursuing the business minor. While the Principles courses are options for students pursuing the minor, students should be aware that those course options are designed for business majors.

If any of these courses are taken to fulfill a University Core Curriculum requirement or a requirement in the major/professional option, alternative courses may be substituted with departmental approval. See course descriptions for appropriate prerequisites. Non-business majors who are seeking a business minor should declare the minor at https://www.aub.ie/NBdeclareminor. Students seeking a business minor must earn an overall GPA of at least 2.0 in all courses required for the minor.

Honors Business Minor

The Honors Business minor is 15 hours consisting of five 3-hour courses: four required courses (12 hours) and one elective course (3 hours). Four of the five courses must be taken at the honors level to successfully complete the minor. The minor is limited to students in the Honors College.

Code	Title	Hours
Required Courses:		
ACCT 2110/2117	Principles of Financial Accounting *	3
FINC 3610/3617	Principles of Business Finance	3
MNGT 3100/3107	Principles of Management	3
MKTG 3310/3317	Principles of Marketing	3
Elective Courses (choose one):		
BUSI 3250/3257	International Business	3
ECON 2030/2037	Principles of Macroeconomics	3

* Students completing this minor in the College of Business summer abroad program will satisfy the Accounting requirement with ACCT 2817: Honors Fundamentals of Accounting.

College of Education

JEFFREY T. FAIRBROTHER, *Dean and Wayne T. Smith Distinguished Professor*
JARED RUSSELL, *Associate Dean for Academic and Faculty Affairs*
DAVID CROWE, *Assistant Dean for Assessment and Certification Officer*
RODNEY GREER, *Assistant Dean for Research*

THE COLLEGE OF EDUCATION is home to innovative thinkers and doers, working together to meet society's education and health challenges, building better futures for all. College of Education graduates are equipped for a variety of career options as educators, administrators, health professionals, counselors, rehabilitation specialists, and more, transforming their communities, our nation, and the world. Through our shared commitment to service and equity, undergraduate and graduate students have unique opportunities for hands-on, experiential learning, real-world research, and compelling outreach.

The College of Education prepares students to excel as education, health, and rehabilitation leaders through several distinct academic areas represented by:

- Department of Curriculum and Teaching (p. 471)
- Department of Educational Foundations, Leadership, and Technology (p. 510)
- Department of Special Education, Rehabilitation, and Counseling (p. 539)
- School of Kinesiology (p. 521)

Admission to the College

Review Auburn University admission requirements (p. 134) for general admission guidelines and specific degree or program sections for any additional requirements. On-campus students may request a transfer into the College of Education by contacting their current academic advisor for their program area. Although currently enrolled students may transfer into any of the college's undergraduate majors, students transferring into the Teacher Education Majors should review GPA restrictions and other admission requirements. Please discuss progression and completion requirements with an academic advisor in the College of Education (https://education.auburn.edu/about/student-services/current-students.php).

Additionally, College of Education students are charged a fee for professional liability insurance.

Accreditation and Approvals

Auburn University's College of Education is accredited by the Council for the Accreditation of Educator Preparation (CAEP). All programs preparing teachers and other professional school personnel are approved by the Alabama State Board of Education (ALSBE). In addition, the state of Alabama signs the National Association of State Directors of Education and Certification (NASDTEC) Interstate Agreement which facilitates the applications of AU's graduates who have met all Alabama State Department of Education

(ALSDE) certification requirements when they apply for certification in other states. Students planning to teach in a state other than Alabama, should contact that state's certification agency to ensure compliance with any additional state requirements.

Undergraduate Degrees (p. 412)

The College of Education offers many undergraduate degree options, including several minors, with a focus on teacher preparation, health, and rehabilitation studies.

Teacher Education Majors

The college's teacher education majors are designed to ensure that program graduates have the knowledge, skills, and dispositions to help all students learn. These programs maintain selective admission, retention, and graduation requirements and are in compliance with the Alabama State Board of Education's (ALSBE) rules for educator preparation. Therefore, it is critical that students meet with their academic advisor for guidance throughout the program to ensure state guidelines are followed to meet certification requirements. All transfer courses must have been completed at a regionally accredited institution. Detailed information on the specific requirements for teacher education admission, clinical experiences, clinical residency, graduation, certification, and assurance of competence is available in the Teacher Education Majors Section (p. 468) or on the College of Education (https://education.auburn.edu/) website.

AUTeach

AUTeach is a teacher preparation program designed for undergraduate science students in the College of Sciences and Mathematics (COSAM). Students completing the AUTeach program along with their COSAM degree will explore the profession of science teaching through a hands-on approach, graduate with a double major, and will be certified to teach secondary science in Alabama public schools. Currently, students majoring in Chemistry, Physics, or the Interdisciplinary Health Sciences Concentration of Biomedical Sciences can complete the double-major in four years. Other programs might require additional time. Please visit https://auburn.edu/auteach (https://nam11.safelinks.protection.outlook.com/?url=https%3A%2F%2Fauburn.edu%2Fauteach&data=05%7C02%7Cckc0023%40auburn.edu%7C37b0e6f00efb41d1222308dc79ce1d67%7Cccb6deedbd294b388979d72780f62d3b%7C0%7C0%7C638519173363226223%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C0%7C%7C%7C&sdata=WmHHajSy246Av755yoKjJXzxJdeHl4kCqspP99ZNbVs%3D&reserved=0) for details on the program and to request additional information.

Health and Rehabilitation-related Majors

Exercise science and exercise, performance, and health optimization programs are offered in the School of Kinesiology (https://education.auburn.edu/kinesiology/). These programs promote knowledge about physical activity and performance. They prepare students for careers in physical therapy, occupational therapy, medicine, corporate wellness or cardiac rehabilitation, coaching, strength and conditioning, or personal training. The Department of Special Education, Rehabilitation, and Counseling offers one program in rehabilitation and disability studies (https://education.auburn.edu/serc/academic-programs/rehab-disability-studies/). This program prepares undergraduates to work in the professional positions that assist individuals with disabilities in achieving maximum independence through expanding knowledge of the complexities of disability within the context of society. Students are prepared to become professionals in the fields of disability studies and services that include counseling, allied health fields (occupational therapy/physical therapy), case management, human services, and supported employment.

Graduate Degrees (p. 412)

The College of Education offers graduate programs that prepare professionals in the fields of education, kinesiology, counseling, and rehabilitation. Offerings include M.Ed., M.S., Ed.S., D.PT., and Ph.D. degree programs, graduate minors, and graduate certificates.

Non-degree Programs

The Physical Activity and Wellness program is a non-degree program that requires 8 hours (4 courses), including KINE 1100 (https://bulletin.auburn.edu/search/?P=KINE%201100), Wellness, and 3 courses (each one from a different category of physical activity). Categories include cardio-respiratory fitness (PHED 1200s), fitness and conditioning (PHED 1300s), team sports (PHED 1400s), individual sports (PHED 1500s), performance activities (PHED 1600s), and aquatic skills (PHED 1700s). Students who complete the 8-hour program may apply for a Physical Activity and Wellness Certificate, issued by the School of Kinesiology. Students may also elect to take individual courses, without completing the 8-hour program. Of course, students may elect to take more than four courses if they desire to use the program to ensure a regular physical activity program.

The Education to Accomplish Growth in Life Experiences for Success, or EAGLES (https://education.auburn.edu/serc/academic-programs/eagles/) program is a comprehensive transition program (CTP) for students with intellectual disabilities. EAGLES provides

a post-secondary education opportunity for students with intellectual disabilities to engage in a two or four-year campus experience to help students achieve their employment and independent living goals upon successful completion of the program. The EAGLES program is a non-degree program focusing on (1) academic enrichment, (2) personal and social skills, (3) independent living skills, (4) health and wellness, and (5) integrated work experiences. Students in the program receive an inclusive post-secondary education providing them with an enriching and rewarding Auburn experience as they prepare to transition to gainful employment, that aligns with the student's strengths and interests and independent living. The EAGLES program curricula are structured to help students become contributing members of society through their career interests both now and in the future.

Minors (p. 40)

The College of Education offers five undergraduate minors, including community music, counseling, office systems management, sport coaching, and training and workforce development.

Additionally, graduate minors include critical studies in education, psychology of learning, and sport management.

Minors

- Community Music (p. 493)
- Counseling (p. 553)
- Office Systems Management (p. 507)
- Special Education for Health and Related Service Professionals (p. 510)
- Sport Coaching (p. 538)
- Training and Workforce Development (p. 521)

Graduate Programs

The College of Education offers graduate programs that prepare professionals in the fields of education, kinesiology, counseling, and rehabilitation. Offerings include M.Ed., M.S., Ed.S., D.PT., and Ph.D. degree programs, graduate minors, and graduate certificates.

Departments

- Curriculum and Teaching — Graduate Certificate, MEd, MS, EdS, PhD (p. 1586)
- Educational Foundations, Leadership and Technology — Graduate Certificate, MEd, MS, EdS, PhD, Minor (p. 1641)
- School of Kinesiology — Graduate Certificate, MS, PhD, DPT, Minor (p. 1693)
- Special Education, Rehabilitation, and Counseling — Graduate Certificate, MA, MEd, MS, EdS, PhD (p. 1766)

Curriculum and Teaching — Graduate Certificate, MEd, MS, EdS, PhD

Degree Programs

- Agriscience Education — MS, MEd, EdS (p. 1588)
- Business and Marketing Education — MS, MEd, EdS (p. 1591)
- Career and Technical Education — PhD (p. 1594)
- Early Childhood Education — MS, MEd, EdS, PhD (p. 1595)
- Elementary Education — MS, MEd, EdS, PhD (p. 1602)
- English for Speakers of Other Languages — MEd (p. 1608)
- English Language Arts Education — MS, MEd, EdS, PhD (p. 1605)
- French Education — MS, MEd, EdS (p. 1597)
- Mathematics Education — MEd, EdS, PhD (p. 1609)
- Music Education: Instrumental — MS, MEd, EdS, PhD (p. 1612)
- Music Education: Vocal — MS, MEd, EdS, PhD (p. 1612)
- Reading Education — MS, MEd, PhD (p. 1616)
- Science Education: General Science — MS, MEd, EdS, PhD (p. 1617)
- Science Education: Biology — MS, MEd, EdS, PhD (p. 1617)

- Science Education: Chemistry — MS, MEd, EdS, PhD (p. 1617)
- Science Education: Physics — MS, MEd, EdS, PhD (p. 1617)
- Social Science Education: General Social Science — MEd, EdS, PhD (p. 1627)
- Social Science Education: History — MEd, EdS, PhD (p. 1627)
- Spanish Education: Spanish — MS, MEd, EdS (p. 1597)
- Teaching English for Specific Purposes — MS (Non-Certification) (p. 1632)

Graduate Certificates

- Community Music (p. 1632)
- Reading Instruction (p. 1633)
- Teaching English as a Second Language (TESL)/Teaching English as a Foreign Language (TEFL) (p. 1633)

Educational Foundations, Leadership and Technology — Graduate Certificate, MEd, MS, EdS, PhD, Minor

Degree Programs

- Administration of Elementary and Secondary Education — MEd, PhD (p. 1643)
- Administration of Higher Education — MEd, PhD (p. 1645)
- Administration of Supervision and Curriculum — MEd, PhD, EdS (p. 1647)
- Adult Education — MS, MEd, PhD, EdS (p. 1648)
- Educational Psychology — PhD (p. 1651)
- Educational Research, Measurement, and Evaluation — MS (p. 1651)

Graduate Certificates

- Adult Education and English Language Teaching (p. 1649)
- College/University Teaching (p. 1649)
- Educational Leadership (p. 1650)
- Extension Educator (p. 1650)
- Instructional Leadership (p. 1652)
- Instructional Technology for Distance Education (p. 1652)
- Program Evaluation (p. 1653)
- Technology Educator (p. 1653)
- Workforce Education, Training, and Development (p. 1654)

Minors

- Critical Studies in Education (p. 1650)
- Psychology of Learning (p. 1800)
- Sport Management (p. 1699)

School of Kinesiology — Graduate Certificate, MS, DPT, PhD, Minor

Degree Programs

- Exercise, Performance and Health Optimization — MS (p. 1695)
- Exercise Science — MS (p. 1695)
- Kinesiology — PhD (p. 1696)
- Physical Therapy — DPT (p. 1698)
- Physical Education/Teacher Education — MS (p. 1696)

Graduate Certificate

- Movement Skill Analysis (p. 1696)

Graduate Minor

- Sport Management (p. 1699)

Special Education, Rehabilitation, and Counseling — Graduate Certificate, MA, MEd, MS, EdS, PhD

Degree Programs

- Clinical Mental Health Counseling (Option within Counselor Education program) — MEd (p. 553)
- Clinical Rehabilitation Counseling — MEd (p. 1771)
- Collaborative Teacher Special Education: K–12 — MS, MEd, EdS (p. 1772)
- Counseling Psychology — MA, PhD (p. 554)
- Counselor Education — PhD (p. 555)
- Early Childhood/Elementary Special Education: P–6 — MS, MEd (p. 1778)
- Rehabilitation and Special Education — PhD (p. 1780)
- School Counseling (Option within Counselor Education program, Certification) — MEd (p. 561)

Graduate Certificates

- Inclusive Elementary Education Practices (p. 561)
- Intervention for Students with Autism and Developmental Disabilities (p. 1781)
- Transition Specialist (p. 1781)
- Vocational Evaluation Forensic (p. 1781)
- Vocational Evaluation Forensic DE (p. 1782)

Special Requirements for Graduate Programs that Lead to Educator Certification

Each academic department in the College of Education offers one or more degree programs that prepare educator professionals. These program offerings include the Master's of Education (M.Ed.), Master's of Science (M.S.), and Education Specialist (Ed.S.).

Master's Degrees (MEd or MS)

The college offers two options for master's degrees that lead to certification. Most traditional M.Ed./M.S. programs are designed for individuals to further develop knowledge and skills within the same subject area as their initial certification. However, there are special cases for individuals pursuing a traditional M.Ed./M.S. for the following fields: English for speakers of other languages, reading specialists, special education, school counseling, and instructional leadership. The Alternative M.Ed./M.S. option is designed for individuals who have a baccalaureate degree in another field and want to earn their first teaching certificate.

Traditional Master's Option

Admission Requirements to the Traditional Master's Option

- An ALSDE approved criminal history background check
- A valid bachelor's-level certificate in the same teaching field for which the master's level certification is sought (except for special education, English for speakers of other languages [ESOL], reading specialists, school counseling, and instructional leadership)**
- Special Cases**
  - English for speakers of other languages requires a valid bachelor's level certificate in any teaching field
  - Special Education requires a valid bachelor's level certificate in any teaching field
  - Reading Specialists requires either:
    - A valid bachelor's level professional educator certificate in early childhood education, elementary education, or collaborative special education (K-6), and two full years of full-time classroom teaching experience OR
    - A valid bachelor's level professional educator certificate in any area of education, two full years of full-time classroom teaching experience, and a passing score on the Praxis Teaching Reading test validated for use in Alabama
  - School Counseling has two options that vary depending on a valid bachelor's level certificate as well as two years of full-time classroom teaching experience; or a bachelor's degree from an accredited institution in a related field with no experience requirement
  - Instructional Leadership requires three full years of full-time professional educational work experience in a P-12 setting, which must include teaching experience, and the submission of an admission portfolio before an interview

Program Progression and Retention Requirements

- Program specific requirements are outlined in the COE Graduate Student Handbook

Program Completion

- Successful completion of a survey of special education course unless that course was taken for prior level certification (An individual who completed a survey of special education course prior to meeting requirements for unconditional admission to the M.Ed. [Class A] program July 1, 2017, and thereafter, must take an ALSDE approved diversity course from the college that focuses on one of the following categories: methods of accommodating instruction to meet the needs of students with exceptionalities in inclusive settings, multicultural education, teaching English language learners, rural education, or urban education)
- Satisfactory completion of the program checklist meeting the minimum ALSDE GPA requirements
  - Unconditional Admissions prior to July 1, 2017, individuals must have a GPA of 3.0 on the program check sheet
  - Unconditional Admissions on or following July 1, 2017, individuals must have a GPA of 3.25 on the program check sheet
- Special Cases**
  - Successful completion of all internship requirements for ESOL, Reading Specialists, and School Counseling programs
  - All programs (special education, English for speakers of other languages [ESOL], reading specialists, school counseling, and instructional leadership) are required to pass the appropriate content assessment(s) in the area of specialization as required by the Alabama State Department of Education

Certification

- At least a valid Class B Professional Educator Certificate (If an individual is unconditionally admitted to a Class A program based on a valid bachelor's-level certification from another state, completes the M.Ed. [Class A] program and subsequently applies for Alabama certification at the Class A level, then the individual must hold a valid Alabama Class B certificate before applying for Class A certification.)
- The graduate's Auburn University transcript documenting an earned Master's degree
- A completed certification application submitted to the Office of Student Services

Alternative Master's (MEd or MS)

Admission Requirements

- An ALSDE approved criminal history background check
- An official transcript from an accredited institution documenting either:
  - An earned bachelor's degree with the following minimum GPA's OR
    - For Unconditional Admissions prior to July 1, 2017, individuals must have a GPA of 2.50 on the degree granting transcript
    - Unconditional Admissions on or following July 1, 2017, individuals must have a GPA of 2.75 on the degree granting transcript
    - For Unconditional Admissions on or following February 25, 2022, individuals must have a GPA of 2.50 on the degree granting transcript
  - An earned Master's degree with at least a 3.0 GPA on the degree granting transcript
- Documentation of the Teaching Field requirement
  - Programs in Early Childhood Special Education and Collaborative Special Education (K-6 or 6-12)
    - Shall have earned at least 12 semester hours of acceptable credit, as verified on the official transcripts, in each of the following areas: English language arts, mathematics, science and social studies OR
    - Shall have earned a current passing score on the prescribed Praxis subject assessment
  - Programs in the Secondary Teaching Fields
    - Shall have earned at least 30 semester hours of credit appropriate to the field including at least 18 semester hours of upper division credit OR
      - For English language arts, coursework must include courses in literature, grammar, reading skills, writing, speech, theatre, and print or broadcast journalism
      - For general science, coursework must include courses in biology, chemistry, Earth or space science, and physics
      - For social science, coursework must include courses in economics, geography, history, and political science
    - Shall have earned a current passing score on the prescribed Praxis subject assessment required for the area of specialization
  - Programs in Career and Technical Education and P-12 Programs (e.g., Physical Ed.)
    - Shall have earned at least 30 semester hours appropriate to the teaching field including at least 18 semester hours of upper-division credit

Admission to Clinical Residency (Internship)

- Completion and submission of the Clinical Residency (Internship) Application one year in advance
- Unconditional Admission to Educator Preparation Program
- Satisfactory completion of all courses on the program checklist designated as prerequisites for clinical residency
- Meeting current ALSDE GPA requirements based on the date of Unconditional Admissions
  - For students admitted to educator preparation program prior to July 1, 2017 - Minimum 2.50 grade-point average on all college coursework counting towards the program checklist
  - For students admitted to teacher education July 1, 2017, and thereafter - Minimum 2.75 grade-point average on all college coursework counting towards the program checklist
- Passing score(s) on the appropriate content assessment(s) required for the area of specialization
- Demonstrated potential for teaching with program approval

Students who fail to meet these criteria may submit new evidence in an effort to satisfy admission to clinical residency/internship requirements. Specific programs may have additional requirements for this transition point. Students should meet with their academic advisor to discuss any additional program specific requirements.

Exit from Clinical Residency (Internship)

- Satisfactory completion of all key assessments including submission of edTPA portfolio for official scoring
- Satisfactory completion of teaching requirements (20 full days of teaching, including 10 consecutive days)
- Satisfactory completion of attendance requirements (full-time, full semester)
- Satisfactory compliance with all rules and regulations outlined in the Clinical Residency Handbook

Specific programs may have additional requirements for this transition point. Students should meet with their academic advisor to discuss any additional program specific requirements.

Graduation

- Completion of all courses on the program checklist (Note: Approvals of Course Substitution Requests must be on file in the Office of Student Services, 3464 Haley)
- Meeting the minimum GPA requirements:
  - For students admitted to the educator preparation program prior to July 1, 2017 - Minimum 2.50 grade-point average all coursework counting towards the program check sheet
  - For students admitted to teacher education July 1, 2017, and thereafter - Minimum 3.25 grade-point average on all college coursework counting towards the program check sheet
- Satisfactory grade in clinical residency/internship including completion of all requirements

Specific programs may have additional requirements for this transition point. Students should meet with their academic advisor to discuss any additional program specific requirements.

Education Specialist (EdS)

The Ed.S. (Class AA) program prepares educators to expand their knowledge, teaching abilities, and leadership potential. Persons who complete Class AA programs shall have acquired knowledge and skill above the level required for completion of a M.Ed. (Class A) program.

Admission Requirements to the Education Specialist (Ed.S.)

- An ALSDE approved criminal history background check
- A valid Master's level professional educator certificate in the same field for which the Ed.S. (Class AA) is sought
- Special cases:
  - A teacher with a valid bachelor's level certificate in early childhood education, elementary education, or English language arts and a valid master's level certificate in reading specialists may be unconditionally admitted to the Ed.S. (Class AA) program in the subject field of the bachelor's level certificate (i.e., early childhood education or elementary education)
  - A teacher with a valid bachelor's level certificate in any teaching field and a valid master's level certificate in English for speakers of other language (ESOL) may be unconditionally admitted to the Ed.S. (Class AA) program in the same teaching field for which the teacher holds a valid bachelor's level certificate

- While the ALSDE allows, “A teacher with a valid bachelor’s level certificate in a teaching field may be unconditionally admitted to an Ed.S. (Class AA) program in special education or English for speakers of other languages”; Auburn University does not offer these options.

Program Progression and Retention Requirements

- Program specific requirements are outlined in the COE Graduate Student Handbook

Program Completion

- Successful completion of a survey of special education course unless that course was taken for prior level certification (An individual who completed a survey of special education course prior to meeting requirements for unconditional admission to the Ed.S. [Class AA] program July 1, 2017, and thereafter, must take an ALSDE approved diversity course from the college that focuses on one of the following categories: methods of accommodating instruction to meet the needs of students with exceptionalities in inclusive settings, multicultural education, teaching English language learners, rural education, or urban education)
- Satisfactory completion of the Program checklist meeting the minimum ALSDE GPA requirements
  - Unconditional Admissions prior to July 1, 2017, individuals must have a GPA of 3.25 on the program check sheet
  - Unconditional Admissions on or following July 1, 2017, individuals must have a GPA of 3.50 on the program check sheet
- Successful completion of any testing requirement(s)
  - At the present time, there is no testing requirement for Class AA certificate for teachers except for teachers who earn initial Class AA certification in a special education teaching field. While the ALSDE allows for initial Class AA certification in special education, Auburn University does not allow for students to be admitted to the Class AA program in special education without prior level certification. Such teachers must meet the Praxis requirements of the Alabama Educator Certification Assessment program as a precondition for graduation and certification.
- Special Cases:
  - Successful completion of a practicum shall be required for initial certification in special education teaching field. For programs that meet rules for Grades K-6 and 6-12 or Grades P-12, the practicum must include both elementary and secondary placements.

Certification

- At least a valid Class A Professional Educator Certificate (If an individual is unconditionally admitted to a Class AA program based on a valid bachelor’s-level certification from another state, completes the Ed.S. (Class AA) program and subsequently applies for Alabama certification at the Class AA level, then the individual must hold a valid Alabama Class A certificate before applying for Class AA certification.
- The graduate’s Auburn University transcript documenting an earned Master’s degree
- A completed certification application submitted to the Office of Student Services

Adult Education Courses

ADED 4010 LEARNING RESOURCES IN AREA OF SPECIALIZATION (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching.

ADED 4050 METHODS OF TEACHING IN ORGANIZATIONS (3) LEC. 2. LAB. 2. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within adult education.

ADED 4600 NATURE OF ADULT EDUCATION (3) LEC. 3. History and principles of adult education applied to the development and implementation of programs in remedial, occupational, continuing, and life-long learning.

ADED 4610 DIRECTED WORK EXPERIENCE (3) LEC. 3. SU. In-service, supervised work experience individually designated for part-time or summer work experience.

ADED 4620 COMMUNITY CONCEPTS, PROGRAMS, AND RESOURCES IN ADULT EDUCATION (3) LEC. 3. Processes by which adult education is merged with community organizations to maximize the effective use of physical and human resources.

ADED 4650 TEACHING THE DISADVANTAGED ADULT (3) LEC. 3. Problems of the disadvantaged adult with emphasis on the unique sociological, psychological, and physiological factors that influence learning and participation in remedial learning activities.

ADED 4660 TEACHING IN THE NON-SCHOOL SETTING (3) LEC. 3. Planning, conducting, and supervising instruction for adults in varied non-school settings.

ADED 4900 INDEPENDENT STUDY (1-6) IND. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

ADED 4910 PRACTICUM (1-6) PRA. SU. Departmental Approval. Experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

ADED 4920 PROFESSIONAL INTERNSHIP IN ADULT EDUCATION (9) INT. 9. SU. Supervised internship experiences in a school or other appropriate setting. Evaluation and analysis of the internship experience. Or Minor.

ADED 4970 SPECIAL TOPICS (1-6) LEC. Current or special topics within adult education. Course may be repeated for a maximum of 6 credit hours.

ADED 7010 LEARNING RESOURCES (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching. May count either ADED 7010 or ADED 7016.

ADED 7050 METHODS OF TEACHING IN ADULT EDUCATION (3) LEC. 3. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within adult education. May count either ADED 7050 or ADED 7056.

ADED 7060 CURRICULUM AND PROGRAM PLANNING IN ADULT EDUCATION (3) LEC. 3. Introduction to principles and practices involved in designing education programs in the area of specialization. May count either ADED 7060 or ADED 7066.

ADED 7600 NATURE OF ADULT EDUCATION (3) LEC. 3. History and principles of adult education applied to the development and implementation of programs in remedial, occupational, continuing and life-long learning. May count either ADED 7600 or ADED 7606.

ADED 7620 CONCEPTS, PROGRAMS, AND RESOURCES IN ADULT EDUCATION (3) LEC. 3. Processes by which adult education is merged with community organizations to maximize the effective use of physical and human resources. May count either ADED 7620 or ADED 7626.

ADED 7640 WORKFORCE EDUCATION (3) LEC. 3. Identification and evaluation of basic skills problems in the workplace. Strategies for addressing workplace education issues. May count either ADED 7640 or ADED 7646.

ADED 7650 TEACHING DIVERSE POPULATIONS IN ADULT EDUCATION (3) LEC. 3. This course is designed to define, analyze, and understand diverse populations of adult learners with emphasis on the unique sociological, psychological, and physiological factors that influence learning and participation in workforce education, community agencies, higher education, or other educational roles.

ADED 7670 ADULT EDUCATION IN COOPERATIVE EXTENSION (3) LEC. 3. Exploration of the unique relationship between adult education and the Cooperative Extension System. May count either ADED 7670 or ADED 7676.

ADED 7680 EXPERIENTIAL LEARNING IN ADULT EDUCATION (3) LEC. 3. This course is designed to introduce the key theories of teaching and learning related to experiential learning in adult education and training.

ADED 7690 MEETING DIVERSE NEEDS IN ADULT EDUCATION SETTINGS (3) LEC. 3. This course provides an innovative look at disability services in post-secondary institutions. Learners will study the history of disability services, legislation, campus accessibility, assessment of the accessibility of adult education settings and other topics of interest.

ADED 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 3 credit hours.

ADED 7910 PRACTICUM (1-3) DSL/PRA. SU. Departmental approval. Experiences closely relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 3 credit hours.

ADED 7920 INTERNSHIP (1-10) DSL/INT. SU. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. May count either ADED 7920 or ADED 7926. Course may be repeated for a maximum of 10 credit hours.

ADED 7950 SEMINAR (1-3) DSL/SEM. SU. Presentation of research projects, analysis of procedures, and findings. Course may be repeated for a maximum of 3 credit hours.

ADED 7960 READINGS (1-3) DSL/IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 6 credit hours.

ADED 7970 SPECIAL TOPICS (1-6) LEC. 1-6. Departmental approval. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

ADED 7990 RESEARCH AND THESIS (1-10) DSL/MST. Departmental approval. Individualized support and direction for students writing their thesis. Course may be repeated with change in topics.

ADED 8900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

ADED 8910 PRACTICUM (1-6) DSL/PRA. SU. Departmental approval. Experiences closely relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

ADED 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised internship experiences in a school, college, or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 10 credit hours.

ADED 8950 SEMINAR (1-6) DSL/SEM. SU. Presentation by graduate students of research projects and/or analysis of procedures and findings. Course may be repeated for a maximum of 6 credit hours.

ADED 8960 SPECIAL PROBLEMS (1-6) IND. Departmental approval. Critical analysis of current and classical research writings. Course may be repeated for a maximum of 6 credit hours.

ADED 8970 SPECIAL TOPICS (1-6) DSL. Departmental approval. Current or advanced topics within adult education. Course may be repeated for a maximum of 6 credit hours.

ADED 8980 FIELD PROJECT (1-10) DSL/FLD. SU. Field project formulated, planned, conducted, evaluated, and reported in appropriate written form and oral formats under the direction of the student's major professor. Course may be repeated for a maximum of 10 credit hours.

ADED 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Departmental approval. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 hours

Middle School Education Courses

CTMD 4190 CURRICULUM AND TEACHING IN THE MIDDLE SCHOOL (3) LEC. 2. LAB. 2. Admission to Teacher Education. To introduce and prepare undergraduate education students for the middle school student, middle school teaching, and middle level philosophy while incorporating reflective decision making.

CTMD 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent study directed at desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTMD 4910 PRACTICUM IN MIDDLE SCHOOL EDUCATION (1-6) PRA. SU. Departmental approval. Provides experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

CTMD 4920 CLINICAL RESIDENCY (11) AAB. 40. SU. Pr. P/C CTSE 4200 or P/C CTSE 4203. Admission to Clinical Residency. Supervised teaching in a public middle or secondary school, abroad, accompanied by scheduled discussions to analyze and evaluate the intern's experience. May count either CTMD 4920 or CTMD 4923.

CTMD 4970 SPECIAL TOPICS (1-4) LEC. Course may be repeated for a maximum of 4 credit hours.

CTMD 5010 TEACHING MATHEMATICS: MIDDLE SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. The prospective middle school or junior high school mathematics teacher must examine the characteristics of students this age. Teaching strategies must be developed which lead not only to the learning of correct mathematics but also address the needs of a wide variety of learners. May count either CTMD 5010 or CTMD 6010.

CTMD 5011 PRACTICUM IN MIDDLE SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTMD 5010. Admission to Teacher Education. This course is designed to provide 21 clock hours of teaching and experience in Middle School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTMD 6010 TEACHING MATHEMATICS: MIDDLE SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. The prospective middle school or junior high school mathematics teacher must examine the characteristics of students this age. Teaching strategies must be developed which lead not only to the learning of correct mathematics but also address the needs of a wide variety of learners. May count either CTMD 5010 or CTMD 6010.

CTMD 6011 PRACTICUM IN MIDDLE SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTMD 6010. This course is designed to provide 21 clock hours of teaching and experience in Middle School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTMD 7900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent study directed toward desired objectives related to the respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTMD 7970 SPECIAL TOPICS (1-6) LEC. Course may be repeated for a maximum of 6 credit hours.

Career and Technical Courses

CTCT 2100 POWER EQUIPMENT TECHNOLOGY (3) LEC. 2. LAB. 3. Repair and maintenance of small air-cooled engines and power equipment in Agriculture. May count either CTCT 2100 or CTCT 3100.

CTCT 2200 COMPUTER LITERACY IN BUSINESS EDUCATION (3) LEC. 1. LAB. 4. Advanced formatting, processing, and evaluation of business correspondence, as well as administrative and employment documents. Includes basic computer literacy skills. May count either CTCT 2200 or CTCT 2203.

CTCT 3000 LEADERSHIP SKILLS FOR PERSONAL AND ORGANIZATIONAL DEVELOPMENT (3) LEC. 3. Organizational and leadership skills needed to become successful professionals in work or community activities; skills and strategies for conducting efficient meetings.

CTCT 3250 INFORMATION ANALYSIS (3) LEC. 3. Decision-making and business problem solving using microcomputer software applications including spreadsheets, database management programs, and operating systems. May count either CTCT 3250 or CTCT 3253.

CTCT 4000 CLASSROOM/LABORATORY MANAGEMENT, ORGANIZATION AND EVALUATION IN CAREER AND TECHNICAL EDUCATION (2) LEC. 2. Admission to Teacher Education. Organization, objectives, principles, management, and evaluation of career and technical education classrooms, laboratories, and programs. May count either CTCT 4000 or CTCT 4003.

CTCT 4030 CAREER AND TECHNICAL STUDENT ORGANIZATIONS (3) LEC. 3. Survey of career and technical student organizations; procedures involved in developing and implementing informal and co-curricular educational programs for students and preparing students for state and national competitions.

CTCT 4140 AGRICULTURAL STRUCTURE AND METAL FABRICATION TECHNOLOGY (3) LEC. 2. LAB. 3. Materials selection and construction procedures for carpentry, concrete, masonry, electricity, plumbing, and metal fabrication.

CTCT 4160 SUPERVISED AGRICULTURAL EXPERIENCE PROGRAMS (2) LEC. 2. Responsibility for SAEP planning, supervision, and evaluation of entrepreneurship, placement, exploratory, analytical, and experimental SAEPs and record books; completing award applications.

CTCT 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. The student's learning efforts are guided toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTCT 4910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Departmental approval. Provides experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

CTCT 4920 CLINICAL RESIDENCY (12) AAB/DSL. 40. SU. Admission to Clinical Residency. Supervised clinical residency experiences abroad in a school or other appropriate setting. Evaluation and analysis of the clinical residency experience. May count either CTCT 4920 or CTCT 4923.

CTCT 4940 DIRECTED FIELD EXPERIENCE IN AREA OF SPECIALIZATION (1-3) DAG/FLD. SU. Supervised occupational work experience in an approved specialization-related occupation. Departmental approval. May count either CTCT 4940 or CTCT 4943. Course may be repeated for a maximum of 3 credit hours.

CTCT 4970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) DSL. Departmental approval. Current or special topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 5050 METHODS OF TEACHING IN AREA OF SPECIALIZATION (3) LEC. 2. LAB. 2. Admission to Teacher Education. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within career and technical education. May count CTCT 5050, CTCT 5053, CTCT 6050, or CTCT 6056.

CTCT 5060 PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Admission to Teacher Education. Introduction to principles and practices involved in designing education programs in the area of specialization. May count CTCT 5060, CTCT 5063, CTCT 6060, or CTCT 6066.

CTCT 5080 PRINCIPLES OF COORDINATION (3) LEC. 3. Admission to Teacher Education. Coordination, placement, and supervision of students in work-based programs; development of employability skills. May count CTCT 5080 or 6080.

CTCT 5200 RECORDS MANAGEMENT SYSTEMS (3) LEC. 3. Study of integrated records management systems, functions, systems, and careers; including decision making and problem solving using software applications. May count either CTCT 5200/CTCT 6200 or CTCT 6200/CTCT 6206.

CTCT 5240 MULTIMEDIA DESIGN (3) LEC. 3. Focus on presentation, desktop publishing, multimedia production, web page design, and digital graphics. May count either CTCT 5240/CTCT 5243 or CTCT 6240/CTCT 6246.

CTCT 5250 INFORMATION DESIGN & ANALYSIS (3) LEC. 3. Decision making, problem solving, and presentation using business software applications. May Count Either CTCT 3250/CTCT 3253 or CTCT 5250/CTCT 5253 CTCT 6250/CTCT 6256.

CTCT 5260 APPLIED COMPUTER TECHNOLOGY (3) LEC. 3. Capstone course with emphasis on integration of business software for decision making, processing, collaboration and management functions, including accounting and financial management. May count either CTCT 5260/CTCT 5263 or CTCT 6260/CTCT 6266.

CTCT 5940 WORK EXPERIENCE IN INFORMATION TECHNOLOGY (3) LEC. 3. SU. Supervised occupational work experience in a Commerce and Information Technology environment. May count either CTCT 4940/CTCT 4943 or CTCT 5940/CTCT 5943 or CTCT 6940/CTCT 6946.

CTCT 6050 METHODS OF TEACHING IN AREA OF SPECIALIZATION (3) LEC. 2. LAB. 2. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within the area of specialization. Admission to alternative master's program. May count CTCT 5050, CTCT 5053, CTCT 6050, or CTCT 6056.

CTCT 6060 PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Introduction to principles and practices involved in designing educational programs in the area of specialization. Admission to alternative master's program. May count CTCT 5060, CTCT 6060, or CTCT 6066.

CTCT 6080 PRINCIPLES OF COORDINATION (3) LEC. 3. Coordination, placement, and supervision of students in work-based programs; development of employability skills. May count CTCT 5080, CTCT 5083, CTCT 6080, or CTCT 6086.

CTCT 6200 RECORDS MANAGEMENT SYSTEMS (3) LEC. 3. Study of integrated records management systems, functions, and careers; including decision making and problem solving using software applications. May count either CTCT 5200/CTCT 5203 or CTCT 6200/CTCT 6206.

CTCT 6240 MULTIMEDIA DESIGN (3) LEC. 3. Focus on presentation, desktop publishing, multimedia production, web page design, and digital graphics. May count either CTCT 6240/CTCT 62406 or CTCT 5240/5243.

CTCT 6250 INFORMATION DESIGN & ANALYSIS (3) LEC. 3. Decision making, problem solving, and presentation using business software applications. May count either CTCT 6250/CTCT 6256 or CTCT 5250/5253.

CTCT 6260 APPLIED COMPUTER TECHNOLOGY (3) LEC. 3. Capstone course with emphasis on integration of business software for decision making, processing, collaboration and management functions, including accounting and financial management. May count either CTCT 5260/CTCT 5263 or CTCT 6260/6266.

CTCT 6940 WORK EXPERIENCE IN INFORMATION TECHNOLOGY (3) LEC. 3. SU. Supervised occupational work experience and software application in a Commerce and Information Technology environment. May count either CTCT 6940/CTCT 6946 or CTCT 5940/5943.

CTCT 7000 FOUNDATIONS OF CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Philosophical, historical, economic, and sociological perspectives of vocational education in relation to the organization of vocational education programs. May count either CTCT 7000 or CTCT 7006.

CTCT 7010 YOUTH PROGRAM DEVELOPMENT (3) LEC. 3. Developing, managing, and evaluating formal and informal youth education programs; training volunteers for youth development programs; securing and developing supporting resources. Departmental approval. May count either CTCT 7010 or CTCT 7016.

CTCT 7100 TEACHING MECHANICAL TECHNOLOGY (3) LEC. 2. LAB. 2. Theory and practice of managing agricultural mechanics laboratories, theories of machine operation, and maintaining laboratory equipment. May count either CTCT 7100 or CTCT 7106.

CTCT 7120 COURSES OF STUDY IN AGRISCIENCE EDUCATION (3) LEC. 3. Departmental approval. Emerging technologies in agriscience education; principles and procedures of curriculum construction applied to courses of study in agriscience education.

CTCT 7200 CAREER AND OCCUPATIONAL INFORMATION (3) LEC. 3. Trends and issues in occupational structure, job qualifications and requirements, and sources of occupational information for new and emerging occupations; analysis of career education models for students.

CTCT 7240 ADMINISTRATIVE MANAGEMENT (3) LEC. 3. Management of office systems, information and personnel. Managing and controlling administrative services.

CTCT 7300 INTEGRATING TECHNOLOGY IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching.

CTCT 7400 AGRICULTURAL LITERACY EDUCATION (3) LEC. 3. Theories and application of agricultural literacy related scientific and technologically based concepts and processes required for personal decision making, participating in civic and cultural affairs, and economic productivity.

CTCT 7710 ADVANCED TEACHING METHODS (3) LEC. 3. Analysis of research in theories of teaching and learning, effective teacher characteristics, learning styles, teaching methodologies, and diversity in teaching.

CTCT 7720 ADVANCED PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Issues affecting the development and management of educational programs; strategies for improving educational programs.

CTCT 7730 PROGRAM EVALUATION (3) LEC. 3. Principles and procedures used in evaluating academic- related programs. Alternative approaches to evaluation and practical guidelines for conducting evaluations.

CTCT 7750 ADMINISTRATION OF CAREER AND TECHNICAL EDUCATION (3) DAG. Introduction to concepts, theories and practices related to administration, organizational behavior, and leadership in secondary and post-secondary vocational education programs.

CTCT 7760 COMPREHENSIVE PLANNING IN CAREER AND TECHNICAL EDUCATION (3) LLB. Processes of comprehensive planning for vocational education programs at high school and secondary school levels using local, state, and regional data.

CTCT 7770 CLINICAL SUPERVISION (3) LEC. 3. Theories, concepts, models, and techniques of student teacher and beginning teacher supervision by administrators, school district personnel, and university supervisors. Recommended for individuals who supervise or plan to supervise student teachers.

CTCT 7780 RESEARCH IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Review, analysis and interpretation of research procedures and data with emphasis on designing new research in vocational and adult education.

CTCT 7810 SUPERVISED COLLEGE TEACHING (1) LEC. 1. SU. Departmental approval. Practical experience in the classroom under the supervision of a faculty mentor. Course may be repeated for a maximum of 2 credit hours.

CTCT 7900 DIRECTED STUDIES (1-3) DAG. SU. Departmental approval. Independent learning effort directed toward desired objectives. Includes evaluation at regular intervals by student and professor. Course may be repeated for a maximum of 3 credit hours.

CTCT 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-3) DAG. SU. Departmental approval. Experiences closely relating theory and practice. Course may be repeated for a maximum of 3 credit hours.

CTCT 7920 CLINICAL RESIDENCY (9-12) AAB. 40. SU. Admission to Clinical Residency. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Departmental approval. May count either CTCT 7920 or CTCT 7926. Course may be repeated for a maximum of 12 credit hours.

CTCT 7950 SEMINAR IN AREA OF SPECIALIZATION (1-3) DBU/SEM. SU. Presentation by graduate students of research projects and/or findings. Analysis of procedures and findings. Course may be repeated for a maximum of 3 credit hours.

CTCT 7960 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 3 credit hours.

CTCT 7970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) DAG. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated for a maximum of 10 credit hours.

CTCT 8730 CURRICULUM DEVELOPMENT IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Principles of career and technical education curriculum planning, identification of educational needs of students, selecting technical content, and evaluating materials.

CTCT 8770 SUPERVISION OF INSTRUCTION (3) LEC. 3. Theories and models to become effective supervisors of vocational and adult education programs; philosophies and styles of supervision used to improve schools, instruction, curriculum and personnel.

CTCT 8800 TEACHER EDUCATION (3) LEC. 3. Emphasis on beliefs, philosophy, issues, research, roles, student selection, curriculum, methodology, internships, organization, and administration of teacher education programs.

CTCT 8810 SUPERVISED COLLEGE TEACHING (1-10) LEC. 3. SU. Practical experience in the classroom under the supervision of a faculty mentor. Course may be repeated for a maximum of 10 credit hours.

CTCT 8900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent learning efforts at desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTCT 8910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Departmental approval. Experiences closely relating theory and practice. Course may be repeated for a maximum of 6 credit hours.

CTCT 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 10 credit hours.

CTCT 8950 SEMINAR IN AREA OF SPECIALIZATION (1-6) DSL/SEM. Departmental approval. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 6 credit hours.

CTCT 8960 SPECIAL PROBLEMS (1-6) DSL/IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 6 credit hours.

CTCT 8970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) DSL. Departmental approval. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 8980 FIELD PROJECT (1-10) DAG. 1. SU. Departmental approval. Field project. Course may be repeated for a maximum of 10 credit hours.

CTCT 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated for a maximum of 20 credit hours.

Counselor Ed, Counseling Psych Courses

COUN 1000 CAREER ORIENTATION EXPLORATION (2) LEC. 1. LAB. 2. The process of career decision-making through hands- on activities, in-class exercises, and job shadowing.

COUN 2000 LIVING AND COMMUNICATING IN A DIVERSE SOCIETY (3) LEC. 3. The class developing cultural competence in context of relationships, issues, and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, and mental and physical abilities/disabilities.

COUN 2007 HONORS LIVING AND COMMUNICATING IN A DIVERSE SOCIETY (3) LEC. Pr. Honors College. The class developing cultural competence in context of relationships, issues, and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, and mental and physical abilities/disabilities.

COUN 2020 INTRODUCTION TO LGBTQ STUDIES (3) LEC. 3. The class focuses on content addressing and introduces lesbian, gay, bisexual, and transgender studies. The course will examine the historical, scientific, psychological, and cultural contexts of relationships, issues and trends in a diverse society related to sexual orientation.

COUN 2300 MENTAL HEALTH DISPARITIES (3) LEC. 3. This course will introduce students to mental health disparities and strategies for addressing the social factors of mental health.

COUN 2900 DIRECTED STUDIES (1-3) IND. SU. Reading, research, or other work undertaken by a student focused on an area of special interest. Directed by faculty member. Course may be repeated for a maximum of 9 credit hours.

COUN 2940 DIRECTED FIELD EXPERIENCE (1-3) DSL/FLD. Course may be repeated for a maximum of 9 credit hours.

COUN 2950 THRIVING THROUGH TRANSITIONS (1) SEM. 1. This course requires participation in activities that support healthy living and assignments that facilitate understanding of mechanisms that promote well-being. Course content reviews the process of recovery from addiction and mechanisms used to support long-term recovery. Course may be repeated for a maximum of 12 credit hours.

COUN 2970 SPECIAL TOPICS IN COLLEGE STUDENT DEVELOPMENT (1-3) DSL. Selected topics in college student development. Fall, Spring. Course may be repeated for a maximum of 12 credit hours.

COUN 3000 CAREER SUCCESS (2) LEC. 2. Developing a career plan via instruction on researching careers, writing resumes, developing portfolios, interviewing, net working and other career development practices. May count either COUN 3000 or COUN 3003.

COUN 3100 COUNSELING AND HUMAN SERVICES (3) LEC. 3. Counseling concepts and skills appropriate in the helping professions. Not open to graduate students in counseling education.

COUN 3980 SUPERVISED RESEARCH EXPERIENCE IN COUNSELING (3) LAB. 3. SU. This course provides students with the opportunity to gain supervised research experience in counselor education, counseling psychology, and special education programs. Students will work with the faculty instructor to gain experience in a range of research activities. Course may be repeated for a maximum of 12 credit hours.

COUN 4000 INTRODUCTION TO COUNSELING AND PSYCHOTHERAPY (3) LEC. 3. Pr. COUN 2000 or COUN 2007. Current theory, research, and practice regarding counseling and psychotherapy. We will cover several current issues related relevant to counseling and psychotherapy, including the process of change, theoretical perspectives, ethical issues.

COUN 4010 INTRODUCTION TO PREVENTION AND MENTAL HEALTH PROMOTION (3) LEC. 3. Pr. COUN 2000 or COUN 2007. Addressing the ideas of prevention and health promotion in counseling psychology. We will address such concepts as positive psychology, mindfulness, stress, health promotion, body image, social justice theory, social advocacy, and prevention theory.

COUN 4910 PRACTICUM (1-3) PRA. SU. This course provides students with the opportunity to be actively involved in social justice efforts that affect the region and nation through gaining hands-on experience in a social justice agency. Course may be repeated for a maximum of 6 credit hours.

COUN 4970 SPECIAL TOPICS IN COUNSELING (3) DSL/ST1. Introduction to selected topic in counseling. Course will provide a semester-long introduction and introduction into research in the topic of interest using a seminar style of instruction. Course may be repeated for a maximum of 9 credit hours.

COUN 7010 MEDICAL VOC & PSYCHOSOCIAL ASPECTS OF DISABILITY (3) LEC. 3. An introduction to medical terminology, body systems, common physical and cognitive conditions therapeutic/restorative services, and psychosocial & vocational considerations of various disabilities. May count COUN 7010 or RSED 6010.

COUN 7110 OCCUPATIONAL, CAREER AND PLACEMENT SERVICES (3) DSL/LEC. The course is designed to familiarize students with career theory and methods used by rehabilitation practitioners to analyze and apply vocational techniques to place individuals with disabilities. May count COUN 7110 or RSED 6220.

COUN 7130 VOCATIONAL EVALUATION (3) LEC. 3. Principles, process and techniques used to diagnose vocationally-related assets and liabilities of the individual with disabilities. May count either RSED 7130, COUN 7130.

COUN 7200 INTRODUCTION TO MEASUREMENT AND ASSESSMENT (3) LEC. 3. Pr. COUN 7100 or COUN 7400. Introduction to the history and theory of measurement and assessment as it applies to counselors and psychologists.

COUN 7220 INTELLECTUAL ASSESSMENT OF CHILDREN AND ADOLESCENTS (3) LEC. 3. Pr. COUN 7200. Theory and measurement of children's intelligence. Administration and interpretation of selected tests.

COUN 7230 CAREER DEVELOPMENT AND VOCATIONAL APPRAISAL (3) LEC. 3. Career development theories appraising vocationally related interests, aptitudes, and personal characteristics. Laboratory practice in test procedures.

COUN 7240 COUNSELING CHILDREN AND ADOLESCENTS (3) LEC. 3. Course provides awareness, knowledge, and skills for counseling children and adolescents using effective theoretical approaches, counseling modalities, and specific techniques.

COUN 7250 ADVANCED ASSESSMENT AND DIAGNOSIS IN COUNSELING (3) LEC. 3. Assessment/diagnostic skills related to counseling: intake, assessment, diagnostic criteria, treatment planning, counseling interventions.

COUN 7310 COUNSELING APPLICATIONS OF LIFESPAN DEVELOPMENT (3) LEC. 3. Theories and current research in development across the lifespan with emphasis on applications to counseling.

COUN 7320 COUNSELING THEORIES (3) LEC. 3. Study of major counseling theories.

COUN 7330 COUNSELING DIVERSE POPULATIONS (3) LEC. 3. Departmental approval. Special counseling and advocacy issues. Needs of diverse populations are considered.

COUN 7340 GROUP COUNSELING (3) LEC. 3. Leading, developing, evaluating a counseling group; including group proposal, session development, group dynamics, group leadership and evaluation, treatment planning; group intervention, counseling skills.

COUN 7350 INTRODUCTION TO COUNSELING PRACTICE (3) LEC. 3. Pr. COUN 7320 or COUN 7400 or COUN 8530. Methods, interventions, and skills essential to counseling.

COUN 7360 ADVANCED COUNSELING PRACTICE: FAMILY SYSTEMS (3) LEC. 3. This course will introduce students to Marriage/ Couple and Family Counseling theories. Using a learning-centered educational approach, students will be introduced to systemic, cognitive-behavioral, and postmodern family therapy theories using clinical case documentation. Diversity, evidence-based therapies, and the research foundations will also be covered.

COUN 7370 FOUNDATIONS OF SUBSTANCE USE COUNSELING (3) LEC. 3. Provides knowledge of the nature of substance abuse, drug classification, models of addiction, assessment and diagnosis, treatment, and related issues. May count as COUN 7370 or RSED 6340.

COUN 7400 ORIENTATION TO PROFESSIONAL COUNSELING (3) LEC. 3. Orientation to the counseling field with emphasis on philosophical, historical, psychological, and organizational foundations of professional practice.

COUN 7410 ORIENTATION TO CLINICAL MENTAL HEALTH COUNSELING (3) LEC. 3. Orientation to clinical mental health counseling to include roles, responsibilities, systems, theories, professional issues, and history.

COUN 7420 ORIENTATION TO SCHOOL COUNSEL (3) LEC. 3. Orientation to the role and activities of the K-12 school counselor. Emphasis on the components of a developmentally-oriented school counseling program.

COUN 7450 FOUNDATIONS OF SCHOOL COUNSELING (3) LEC. 3. This course is designed to extend beyond the orientation to counseling course and expand the practical knowledge of school counselors-in-training to prepare students to work as effective school counselors based on current research and practical experiences. Restricted to students in Master's Program in School Counseling.

COUN 7460 LEADERSHIP AND ADVOCACY FOR SCHOOL COUNSELORS (3) LEC. 3. This course is designed to provide an overview of school counseling leadership and advocacy. School counselors in training will develop a deeper knowledge of their role of educational leaders while serving as school counselors. Restricted to students in Counselor Education.

COUN 7500 CRISIS INTERVENTION IN COUNSELING (3) LEC. 3. Development of skills and knowledge for crisis intervention and management in counseling, including prevention planning, intervention strategies and evaluation.

COUN 7510 ADVANCED CLINICAL MENTAL HEALTH COUNSELING INTERVENTIONS (3) LEC. 3. Pr. COUN 7320. Advanced counseling interventions, practices, techniques and methods for mental health counselors, including treatment planning, counseling processes, and evaluation.

COUN 7520 INTRODUCTION TO REHABILITATION AND CASE MANAGEMENT IN REHABILITATION COUNSELING (3) LEC. 3. Program organization and development of materials for curriculum improvement and teaching practices in a disability specialization area. COUN 7520 may be repeated for a maximum combined total of 9 credits with a change in disability specialization.

COUN 7900 DIRECTED STUDIES (1-3) IND. SU. Independent learning effort directed at desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

COUN 7910 PRACTICUM (3) LEC. 3. SU. Supervised experiences appropriate to student's program emphasis area. Course may be repeated for a maximum of 9 credit hours.

COUN 7920 INTERNSHIP (1-9) INT. SU. Pr. COUN 7910 or COUN 7916. Supervised on-the-job experiences. Course may be repeated for a maximum of 9 credit hours.

COUN 7930 ADVANCED THEORIES IN COUNSELING PRACTICE (3) LEC. 3. Intensive study of advanced theories within rehabilitation counseling, as well as an examination of outcome research relating to the use and application of these theories and techniques. May count COUN 7930 or RSED 7940.

COUN 7950 EMERGING ADULTHOOD AND TRANSITION IN REHABILITATION (3) LEC. Introduction to the transition process of youth with disabilities from school to adulthood and employment with emphasis on the developmental stage emerging adulthood. May count COUN 7950 or RSED 7950.

COUN 7960 SPECIAL PROBLEMS (1-10) IND. SU. May be repeated. Course may be repeated for a maximum of 10 credit hours.

COUN 7970 SPECIAL TOPICS (1-3) AAB. An in-depth study of a current topic(s) impacting the professions related to departmental programs. Course may be repeated for a maximum of 9 credit hours.

COUN 8110 COUNSELING ASSESSMENT ACROSS THE LIFESPAN (3) LEC. 3. Development, administration, scoring and interpretation of personality, interest, aptitude, achievement, and attitude tests across the lifespan.

COUN 8120 APPRAISAL IN COUNSELING AND PSYCHOLOGY (3) LEC. 3. Development, administration, scoring and interpretation of personality, interest, aptitude, achievement, attitude tests. Includes assessment interview, behavioral observation.

COUN 8200 INTELLECTUAL ASSESSMENT OF ADULTS (3) LEC. 2. LAB. 3. Pr. COUN 8120. Theory and measurement of adult intelligence. Administration and interpretation of selected tests.

COUN 8210 TEST ADMINISTRATION AND PROFESSIONAL PRACTICE (3) LEC. 3. Pr. COUN 8530. Administration and scoring of selected tests, primarily WAIS-IV, to familiarize students with measurements for assessment of adult intelligence.

COUN 8220 PSYCHOLOGICAL SCIENCE AND HEALTH (3) LEC. 3. Pr. PSYC 7150 and PSYC 7180 and COUN 7330 and COUN 7310. In this course, fundamental science relating to health and psychology will be reviewed, focusing on major theoretical foundations, research findings, and empirically supported interventions. Students will be expected to integrate foundational knowledge in psychological science with particular emphasis on biological.

COUN 8230 COLLOQUIUM IN COUNSELING PSYCHOLOGY I (1) SEM. 1. SU. This course provides pre-practicum students with training in the conduct of counseling psychology research to provide foundational skills in research design and implementation.

COUN 8240 COLLOQUIUM IN COUNSELING PSYCHOLOGY II (2) LAB. 1, LAB/SEM. 1. SU. This course provides continued education and training in counseling psychology research and provides opportunities to demonstrate an ability to evaluate psychotherapy research in order to achieve readiness for practicum in research skills.

COUN 8250 COLLOQUIUM IN COUNSELING PSYCHOLOGY III (3) LAB. 1, LAB/SEM. 2. Pr. COUN 8240. This course provides advanced education and training in the development, conduct, and dissemination of counseling psychology research and provides opportunities to demonstrate an ability to contribute to meaningful scholarship in Counseling Psychology.

COUN 8260 COLLOQUIUM IN COUNSELING PSYCHOLOGY IV (3) LAB. 1, SEM. 2. Pr. COUN 8250. This course provides advanced education and training in the development, conduct, and dissemination of counseling psychology research and provides opportunities to demonstrate an ability to integrate concepts of equity and justice in the contribution to meaningful scholarship in Counseling Psychology.

COUN 8300 RESEARCH DESIGN IN COUNSELING AND EVALUATION (3) LEC. 3. Departmental approval. Methods for counseling research design . Studies, experimental, quasi-experimental, non-experimental, survey, between subjects and within subjects.

COUN 8310 COGNITION AND EMOTION (3) LEC. 3. Theory and empirical evidence on the cognitive and affective bases of human behavior. Integration of scientific knowledge regarding cognition and emotion.

COUN 8320 GREAT IDEAS IN PSYCHOLOGY (3) LEC. 3. Orientation to the individuals and ideas that shaped psychology using a history and systems perspective.

COUN 8400 PROFESSIONAL SEMINAR COUNSELING PSYCHOLOGY (1-3) LEC. Scientific foundations of the counseling psychology profession and application of that foundational knowledge in counseling interventions. Course may be repeated for a maximum of 9 credit hours.

COUN 8510 CONTEMPORARY ISSUES IN COUNSELOR EDUCATION (3) LEC. 3. Departmental approval. History, development, current issues. Philosophical assumptions, legal and ethical considerations, new research service initiatives.

COUN 8530 CONTEMPORARY ISSUES IN COUNSELING PSYCHOLOGY (3) LEC. 3. History, development, and current professional issues. Philosophical and cultural assumptions, legal and ethical considerations, and current research topics.

COUN 8540 COUN SUPERVISION-THEORY & PRAC (3) LEC. 3. Advanced theories, skills, models and methods used in counseling supervision including counselor development, supervisory processes and evaluation.

COUN 8550 COUNSELOR EDUCATION PEDAGOGY (3) LEC. 3. Counselor Education pedagogical skills and knowledge including; theories, course and curriculum development methods, and professional responsibilities.

COUN 8610 ADVANCED THEORIES: EXISTENTIAL/HUMANISTIC (3) LEC. 3. Theory and practice of humanistic/existential approaches to individual and group therapy.

COUN 8620 ADVANCED COUNSELING THEORIES AND PRACTICE (3) LEC. 3. Advanced study of counseling theories. Includes research relating to application of theories and techniques. Course will emphasize integration, evidence-based approaches, case conceptualization and models for evaluation.

COUN 8630 ADVANCED THEORIES: PSYCHODYNAMIC THEORIES (3) LEC. 3. Departmental approval. The origins, current status, and emerging applications of psychodynamic approaches to counseling.

COUN 8700 DIVERSITY AND SOCIAL JUSTICE IN COUNSELOR EDUCATION (3) LEC. 3. Must be admitted to the Counselor Education Doctoral Program. This advanced course provides students with information about issues of diversity and social justice. Students apply this information to their roles in the counseling profession, specifically as future counselor educators, leaders of the profession, and advocates.

COUN 8800 PROFESSIONAL DEVELOPMENT INTERNSHIP SKILLS (3) LEC. 3. This three-hour required course is designed to help students solidify their professional identity and effectively apply for their one-year Counseling Psychology internship.

COUN 8910 PRACTICUM (1-3) LEC. 1-3. SU. Advanced supervised experiences appropriate to student's program emphasis. Course may be repeated for a maximum of 15 credit hours.

COUN 8920 INTERNSHIP (1-9) INT. SU. Advanced supervised on-the-job experiences appropriate to doctoral-level study. Course may be repeated for a maximum of 9 credit hours.

COUN 8930 INTERNSHIP IN COUNSELING PSYCHOLOGY (0) INT. SU. Departmental approval. Supervised, full-time experience in Counseling Psychology at the doctoral level. May be repeated to satisfy 2000 clock hour accreditation requirement.

COUN 8970 SPECIAL TOPICS (1-3) SEM. An in-depth study of the current educational, sociological, psychological, economic, health, legal, technological, and professional issues impacting the professions related to departmental programs. Course may be repeated for a maximum of 9 credit hours.

COUN 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated. Course may be repeated with change in topics.

EAGLES Program Courses

EAGL 0100 POSITIVE CHOICES (0) SEM. 3. Departmental approval. In this course, students explore positive choices on healthy relationships, sexuality, and safe boundaries. The course is designed to increase critical thinking about relationships.

EAGL 0110 TRANSITION TO POSTSECONDARY EDUCATION (0) SEM. 3. Departmental approval. This course introduces life as a student on a college campus. It includes an overview of skills needed to manage daily life, support health, and wellness goals, and engage in social interactions on a college campus.

EAGL 0130 TRANSITION TO INDEPENDENT LIVING: ON-CAMPUS LIVING (0) SEM. 3. Departmental approval. This course prepares students for living independently in that of maintaining a clean-living space. This includes but is not limited to, educating on the proper cleaning tools for different tasks, following a chore list and or chart, and the aspect of courtesy of keeping shared spaces clean, especially when living with others.

EAGL 0140 FINANCIAL LITERACY (0) DSL/SEM. 3. Departmental approval. In this course, students build their knowledge of financial literacy as it relates to all settings (school, work, community, and home). Students demonstrate an understanding of counting money, managing their finances, budgeting, and relating their financial security to their chosen career area.

EAGL 0150 EMPLOYMENT EXPLORATION (0) SEM. 3. Departmental approval. In this course, EAGLES students explore career paths related to their personal interests and goals. Students identify occupational areas of interest using assessment results that they might prepare for and pursue while in the program and beyond.

EAGL 0200 EMPLOYMENT PREPARATION (0) SEM. 3. Departmental approval. This course focuses on strengthening skills learned and acquired as a first-year college student. This course also focuses on developing healthy habits for employment through the creation of a detailed habit plan and incorporates application-based activities, and real-world practice in the students' everyday lives. Students identify healthy habits and how they will personally incorporate them into all domains of their lives: Academics, Employment, Independent Living, Personal/Social, and Health and Wellness.

EAGL 0210 TRANSITION TO INDEPENDENT LIVING - MEAL PREP GROCERY SHOPPING (0) SEM. Departmental approval. The purpose of this course is to provide the EAGLES students with independent skills involving meal preparation and grocery shopping. These skills help the students transition to an independent lifestyle by learning how to prepare, shop, and cook meals while developing healthy eating habits.

EAGL 0220 LIVING IN THE MODERN WORLD (0) SEM. Departmental approval. This course prepares students to live independently and in the modern world by learning about challenges and pressures, self-determination, and resilience. Students will learn different strategies for self-care and develop an individualized plan for their personal self-care needs. Students will learn about community resources and community safety through outdoor exploration and guest speakers.

EAGL 0230 LIVING ARRANGEMENTS 101 (0) SEM. 3. Department approval required. Students have access to almost all their basic needs on a college campus; however, to successfully transition, students need to learn how to access these supports in their community and how to access them independently. The goal of this course is to teach second-year EAGLES students how to create a Housing Plan according to their independent living goals, financial means, and supports required to be successful at living on their own. This course is meant to introduce students to the real world of living independently through application-based lessons in the community.

EAGL 0310 EMPLOYMENT IMPLEMENTATION (0) LEC. 0. The goal of this course is to teach third year EAGLES students how to generalize skills they have learned into a community setting. Students are taught how to access all supports, like going to the post office, the eye doctor, and taking their animal to the vet, in their community independently. This course is meant to introduce students to the Auburn community so they can be engaged citizens through application-based lessons. Departmental Approval.

EAGL 0320 TRANSITION TO INDEPENDENT LIVING- OFF-CAMPUS LIVING (0) SEM. Departmental approval. The goal of this course is to teach third and fourth year EAGLES students how to generalize skills they have learned into a community setting. Students have access to almost all their basic needs on a college campus, however, to successfully transition, students need to learn how to access these supports in their community and how to access them independently.

EAGL 0330 HOT TOPICS IN TRANSITION (0) SEM. 3. Departmental approval required. In this course, students build upon their knowledge from the first financial literacy class and create a personal budget and finance portfolio to plan their future expenses across all domains for living based on their income, family support, SSI benefits, and a nest egg to support the student while living on their own. Additionally, this course reviews how to protect oneself from fraud.

EAGL 0340 MEDICAL ASPECTS (0) SEM. 3. Assist students in developing working knowledge of medical aspects of their disability and the routine medical needed to live a healthy life. This course helps students develop a medical binder to help them be autonomous when answering questions at routine medical appointments. Additionally, this course explains the process of how insurance works, medical services needed, like routine physicals, dental health, and women’s health and how to address acute issues like the common cold, headaches, etc. Departmental approval required.

EAGL 0410 EAGLES CAPSTONE PREPARATION (0) SEM. Departmental approval. Students will create an online portfolio including sections reflecting the five pillars of the EAGLES Program: academic enrichment, personal and social skills, independent living skills, health and wellness, and integrated work experiences. Students will explore areas of interest and set goals when it comes to career-making decisions and obtaining meaningful employment. Students will identify and learn to navigate resources available to them both while they are in the program and once they are alumni of the program, such as Auburn Career Services, LinkedIn, Indeed, and more. Students will hear from guest speakers focused on presenting valuable information regarding each area of the EAGLES Program’s five pillars and how students can sustain their focus on these areas after completion of the advanced program.

EAGL 0420 WORK READY, WORLD READY (0) SEM. Departmental approval. In this course, students identify, explore, and interact with agencies that will benefit them post-program. Students learn resources available to individuals with intellectual disabilities and how to access and utilize the agencies. Students learn the benefits of each agency related to employment, independent living, and community living upon completion of the program.

EAGL 0430 BECOMING AN EAGLES ALUMNI (0) SEM. 3. The purpose of this course is to assist students in developing S.O.A.R. Planning documents in preparation for life after the EAGLES Program. The course helps students work through the 5 domains of the EAGLES Program to identify accommodations needed, personal goals, supports to achieve goals and action steps. Additionally, this course will assist EAGLES students in developing and updating important documents needed post-program. Departmental approval required.

Early Childhood Education Courses

CTEC 3020 PRIMARY MATH AND SCIENCE (3) LEC. 3. Exploration of learning and pedagogy for the development of math and science concepts appropriate for children in Kindergarten through Grade 3.

CTEC 3030 INTEGRATED CURRICULUM IN PRESCHOOL: EARLY LITERACY (3) LEC. 3. Coreq. CTEC 4911. This course focuses on the foundations of literacy learning including play, developmentally appropriate practices, and integration within and across disciplines through multisensory, multimodal means, connecting to the Alabama Developmental Standards. Admission to Teacher Education.

CTEC 3200 A WORKING THEORY FOR THE CONSTRUCTIVIST EDUCATOR (3) LEC. 3. Constructivist theory for pre-service teachers preparing to teach at the early childhood level.

CTEC 4200 THE CONSTRUCTIVIST TEACHER: STRATEGIES AND TECHNIQUES (3) LEC. 3. Construction of an operational knowledge of established constructive curriculum strategies and techniques.

CTEC 4210 THE CONSTRUCTIVIST TEACHER: GROWING PROFESSIONALLY (1) AAB/DSL. 1. Pr. P/C CTEC 4920 or P/C CTEC 4923. Admission to Clinical Residency. The roles and responsibilities of being an early childhood professional. May count either CTEC 4210 or CTEC 4213.

CTEC 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Reading, research or other work undertaken independently by a student focused on a content area of special interest. Course may be repeated for a maximum of 6 credit hours.

CTEC 4910 PRACTICUM (1-6) PRA. SU. Departmental approval. Students and faculty cooperatively select and execute an appropriate field experience. Course may be repeated for a maximum of 6 credit hours.

CTEC 4911 PRACTICUM IN THE PRESCHOOL (1-2) LEC. 1-2. SU. Laboratory experiences with children from birth to five years of age designed to help students relate theory to practice. Course may be repeated for a maximum of 2 credit hours.

CTEC 4912 PRACTICUM IN PRIMARY GRADES (3) LEC. 0. LAB. 3, AAB/PRA. 0. SU. Laboratory experiences with children 5 through 9 years of age help students relate theory to practice.

CTEC 4920 CLINICAL RESIDENCY (1-12) AAB/DSL. 1-12. SU. Pr. P/C CTEC 4210 or P/C CTEC 4213. Admission to Clinical Residency. Experience in a setting serving pre-primary or primary-school children with varying abilities. Admission to internship. May count either CTEC 4920 or CTEC 4923. Course may be repeated for a maximum of 12 credit hours.

CTEC 7200 EARLY CHILDHOOD EDUCATION PERSPECTIVE (3) LEC. 3. Historical overview of current issues, trends, and programs in early childhood education. May count either CTEC 7200 or CTEC 7206.

CTEC 7210 ORIGINS OF THOUGHT (3) LEC. 3. Piaget's theories of how thought develops in young children. Comparison of the social and biological roots of thought. May not count either CTEC 7210 or CTEC 7216.

CTEC 7260 PLAY AND EARLY CHILDHOOD EDUCATION (3) LEC. 3. Examination of children's play from a constructivist theoretical perspective and translation of theory into early childhood educational practice. May count either CTEC 7260 or CTEC 7266.

CTEC 7270 THEORY-BASED PROBLEMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. In-depth exploration of a problem related to the thought, writing and research that form the theoretical foundations of constructivist approaches in early childhood education. May count either CTEC 7270 or CTEC 7276. Course may be repeated for a maximum of 9 credit hours.

CTEC 7510 RESEARCH STUDIES IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. How to read, review, analyze and interpret significant research studies in early childhood education. May count either CTEC 7510 or CTEC 7516.

CTEC 7520 CURRICULUM AND TEACHING IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Reappraisal of experiences and content for children by focusing on the nature of the learner and the nature of the knowledge to be learned. May count either CTEC 7520 or CTEC 7526.

CTEC 7530 ORGANIZATION OF PROGRAM IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Organization, administration, and supervision of early childhood programs. May count either CTEC 7530 or CTEC 7536.

CTEC 7540 EVALUATION OF PROGRAMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Assessment and evaluation of all program components from a constructivist perspective. May count either CTEC 7540 or CTEC 7546.

CTEC 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent learning objectives related to the student's area of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTEC 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Experience relating theory and practice, usually in a school setting. Departmental approval. May count either CTEC 7910 or CTEC 7916. Course may be repeated for a maximum of 6 credit hours.

CTEC 7970 SPECIAL TOPICS (3-9) AAB. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. Course may be repeated for a maximum of 9 credit hours.

CTEC 7990 RESEARCH AND THESIS (1-10) DSL/MST. Course may be repeated with change in topics.

CTEC 8240 RESEARCH IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Review, analysis and interpretation of available research with emphasis on designing new research to meet the needs of young children. May count either CTEC 8240 or CTEC 8246.

CTEC 8270 THEORY-BASED PROBLEMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. In-depth exploration of problems related to the thought, writings, and research that form the theoretical foundations of constructivist approaches to early childhood education. Master's Degree. May count either CTEC 8270 or CTEC 8276. Course may be repeated for a maximum of 6 credit hours.

CTEC 8720 DESIGNING EARLY CHILDHOOD CURRICULUM (3) LEC. 3. Application of early childhood history, philosophy, program analysis and constructivist theory to the design of early childhood curriculum. Master's Degree. May count either CTEC 8720 or CTEC 8726.

CTEC 8850 CONSTRUCTIVIST INVESTIGATIONS IN EARLY CHILDHOOD SETTINGS (3) LEC. 3. Analysis and interpretation of the design of constructivist investigation. Master's Degree.

CTEC 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTEC 8970 SPECIAL TOPICS (3-9) DSL. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. Course may be repeated for a maximum of 9 credit hours.

CTEC 8980 FIELD PROJECT (1-3) DSL/FLD. SU. Students conduct research on an educational problem and defend a field project report. Departmental approval. May not count either CTEC 8980 or CTEC 8986. Course may be repeated for a maximum of 3 credit hours.

CTEC 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with a change in topic. Course may be repeated with change in topics.

Ed Resrch, Methods, Analysis Courses

ERMA 2400 APPLIED QUANTITATIVE DATA ANALYSIS IN EDUCATION AND HEALTH PROFESSIONS (3) LEC. 3. This course provides undergraduate students who are interested in education, counseling, school psychology, or health professions with data management, data analysis reasoning, and data-based decision-making skills.

ERMA 4330 INTRODUCTION TO SPORTS ANALYTICS (3) LEC. 3. Pr. MATH 1100 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617 or MATH 1680 or MATH 1683. This course provides an introduction to the field of sports analytics, which is the use of scientific techniques to model sports performance. This course will introduce students to individual and team performance measures, their interpretation and basic analyses using those measures.

ERMA 7100 ADVANCED STUDY OF EDUCATIONAL MEASUREMENT AND EVALUATION (3) LEC. 3. Educational measurement and evaluation with special emphasis on uses of measurement data such as standardized testing and emerging evaluation models such as alternative and authentic assessment.

ERMA 7110 EDUCATIONAL PSYCHOLOGY AND ASSESSMENT (3) LEC. 3. Study of educational psychology as it applies to understanding the teaching-learning process. Measurement and evaluation skills will also be covered.

ERMA 7200 BASIC METHODS IN EDUCATION RESEARCH (3) LEC. 3. Major modes of inquiry in contemporary educational research including experimental, casual comparative, descriptive, qualitative inquiry, and action research models.

ERMA 7210 THEORY AND METHODOLOGY OF QUALITATIVE RESEARCH (3) LEC. 3. Major modes of qualitative research, their underlying philosophical assumptions about knowledge, and the major strategies for collecting and analyzing relevant data.

ERMA 7220 APPLIED QUALITATIVE RESEARCH (3) LEC. 3. Pr. ERMA 7210 or ERMA 7216 or FOUN 7210. Study of detailed strategies of data collection, principles of observation, interviewing, focus groups, recording and coding data, triangulation, strategies for analyzing coded data, and writing up of one's findings.

ERMA 7230 WRITING AS INQUIRY IN QUALITATIVE RESEARCH (3) LEC. 3. Pr. ERMA 7210 or ERMA 7216. This course is based on the assumption that qualitative researchers learn their trade through both scholarship (i.e., deskwork) and firsthand experience (i.e., fieldwork). We take away lessons from doing our own research and from the research experiences of others. For this reason, the course has three aims: to hone your skills reading methodological and empirical literature; to experiment with analysis via writing, including crafting reports of findings and other pieces of writing; and to reflect meaningfully on these processes, including their theoretical, methodological, and ethical dimensions.

ERMA 7240 THINKING WITH THEORY IN QUALITATIVE RESEARCH (3) LEC. 3. Pr. ERMA 7210 or ERMA 7216. This course is designed to give an overview and introduction to a variety of theorists and theoretical approaches that are often used in qualitative inquiry. We will compare and contrast the assumptions, design, and methods of different philosophies and theories in qualitative research.

ERMA 7300 DESIGN AND ANALYSIS IN EDUCATION I (3) LEC. 3. Departmental approval. Basic methods of inferential analysis including t-tests, between and within subjects ANOVA, mixed ANOVAs and hierarchical designs as they are utilized in educational research.

ERMA 7310 DESIGN AND ANALYSIS IN EDUCATION II (3) LEC. 3. Pr. (FOUN 7300 or ERMA 7300) or (FOUN 7306 or ERMA 7306). Bivariate and multiple correlation and regression analysis, trend analysis, analysis of covariance, and logistic regression, as they are utilized in educational research. Departmental approval. May count either ERMA 7310 or ERMA 7316.

ERMA 7320 APPLIED QUANTITATIVE RESEARCH (3) LEC. 3. Pr. (ERMA 7200 or ERMA 7206 or FOUN 7200 or FOUN 7206) and (ERMA 7300 or ERMA 7306 or FOUN 7300 or FOUN 7306). The study and application of detailed strategies of research study designs, data collection, analysis, and reporting of quantitative data. Course may be repeated for a maximum of 6 credit hours.

ERMA 7400 MIXED METHODS RESEARCH (3) LEC. 3. Pr. ERMA 7200 or ERMA 7206 or ERMA 7210 or ERMA 7216 or ERMA 7300 or ERMA 7306. Overview and introduction to the use of mixed methods research in the social and behavioral sciences.

ERMA 7410 RESEARCH METHODS FOR SOCIAL JUSTICE AND EQUITY (3) LEC. 3. Pr. ERMA 7300 or ERMA 7306 or ERMA 7210 or ERMA 7216 or ERMA 7400. This course focuses on critical educational research in the scholar-activist model. Through engaging with critical theoretical frameworks, critical empirical research, and research methods, this course prepares students to produce research and scholarship for social justice and equity in education.

ERMA 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

ERMA 7910 PRACTICUM IN EDUCATIONAL RESEARCH, MEASUREMENT, AND EVALUATION (1-3) LEC. 1-3. SU. Pr. (ERMA 7210 or ERMA 7216) and (ERMA 7300 or ERMA 7306). Supervised experience related to area of specialization within educational research, measurement, and evaluation. Course may be repeated for a maximum of 6 credit hours.

ERMA 7970 SPECIAL TOPICS IN EDUCATION RESEARCH METHODS & ASSESSMENT (1-6) DSL/LEC. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be with a change in topic. Course may be repeated with change in topics.

ERMA 8100 PROGRAM EVALUATION (3) LEC. 3. Study of various theories and models of curriculum evaluation, methodological issues regarding planning and conducting evaluation studies, reporting and using information from evaluation.

ERMA 8120 TEACHER EVALUATION (3) LEC. 3. Analysis of research on teaching, classroom observation methods, teaching portfolios, supervision of teachers, license and certification assessment, ethical and legal consideration, and using information to improve teaching.

ERMA 8200 SURVEY RESEARCH METHODS (3) LEC. 3. Overview of survey research, sampling issues, selection and construction of survey instruments, response effects, issues influencing response rate, reliability and validity of survey data, and analysis of survey data.

ERMA 8210 PREP RESEARCH FOR PUBLICATION (3) LEC. 3. SU. Pr. (ERMA 7300 or ERMA 7306) and (ERMA 7310 or ERMA 7316) and (ERMA 7210 or FOUN 7210 or FOUN 7300 or FOUN 7306 or FOUN 7310 or FOUN 7316). Preparation of graduate student research for publication or presentation at professional conference through practice, group discussions, peer review and feedback from experienced editorial board members. May count either ERMA 8210 or ERMA 8216.

ERMA 8320 DESIGN AND ANALYSIS IN EDUCATION III (3) LEC. 3. Pr. (FOUN 7310 or ERMA 7310) or (ERMA 7316 or FOUN 7316). Departmental approval. Discriminate analysis, MANOVA, canonical correlation, path analysis, exploratory and confirmatory factor analysis, and hierarchical linear modeling as they are utilized in educational research.

ERMA 8330 NON-PARAMETRIC DATA ANALYSIS IN EDUCATION RESEARCH (3) LEC. 3. Pr. FOUN 7300 or FOUN 7306 or ERMA 7300 or ERMA 7306. Departmental approval. Common non-parametric statistical tests appropriate for use with nominal and ordinal data in educational applications. These include rank-order correlation, sign tests, median tests, analysis of variance of ranks and log-linear analysis.

ERMA 8340 A PRACTICAL INTRODUCTION TO STRUCTURAL EQUATION MODELING (3) LEC. 3. Pr. (FOUN 8320 or ERMA 8320 or ERMA 8326). Departmental approval. Theory and practice of structural equation modeling techniques as they are utilized in educational research will be developed by expanding concepts of multiple linear regression and exploratory factor analysis to allow for correlation and causally related latent constructs.

ERMA 8350 ADVANCED MEASUREMENT THEORY (3) LEC. 3. Pr. (FOUN 7300 or ERMA 7300 or ERMA 7306 or FOUN 7306) and (FOUN 7310 or ERMA 7310 or FOUN 7316 or ERMA 7316). Introduction to classical and modern (IRT) test theory, measurement properties, differential item functioning, standard and adaptive testing.

ERMA 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individualized support and direction for students writing their dissertations. Course may be repeated with change in topics.

Educational Leadership Courses

EDLD 7200 SUPERVISION AND PERSONNEL MANAGEMENT (3) LEC. 3. Supervision theory and practice with responsibility for leadership in the recruitment, evaluation and staff development of employees. May count either EDLD 7200 or EDLD 7206.

EDLD 7210 MULTIPROFESSIONAL LEADERSHIP FOR EQUITY (3) LEC. 3. National, state, and local evidence will inform students' understanding of diversity issues in schools. Theories, concepts and principles of leadership from a multidisciplinary, multiprofessional perspective, will be applied to addressing issues of equity in schools. May count either EDLD 7210 or EDLD 7216.

EDLD 7220 ORGANIZATIONAL AND SCHOOL MANAGEMENT (3) LEC. 3. This course will prepare students in understanding legal and ethical responsibilities of school leaders, fiscal revenues and expenditures of Alabama public schools, using action research and components of a comprehensive, ongoing, planning and budgeting program. May count either EDLD 7220 or EDLD 7226.

EDLD 7330 INTRODUCTION TO CURRICULUM AND INSTRUCTIONAL LEADERSHIP (3) LEC. 3. Principles of curriculum development and the leadership skills required to enact it with emphasis on school settings.

EDLD 7340 OVERVIEW OF CURRICULUM PROCESSES (3) LEC. 3. Curriculum as a field of study; the first course required for the ASC concentration in curriculum; an overview of curriculum history, processes, models, and designs.

EDLD 7500 PRINCIPAL LEADERSHIP (3) LEC. 3. Designed to serve instructional leaders in K-12 settings concerning leadership dispositions and leadership theory important to promoting student success and achievement. May count either EDLD 7500 or EDLD 7506.

EDLD 7510 ACTION RESEARCH AND DATA ANALYSIS (3) LEC. 3. Research methodologies to improve instructional and school-based decision-making action, qualitative, and case study techniques applied to school, classroom, or school-community observation. May count either EDLD 7510 or EDLD 7516.

EDLD 7520 LEADERSHIP AND THE LEARNING ORGANIZATION (3) LEC. 3. Management of schools as learning organizations; issues related to student learning and achievement through attention to organizational components. May count either EDLD 7520 or EDLD 7526.

EDLD 7530 PLANNING AND CONTINUOUS IMPROVEMENT (3) LEC. 3. Development of frameworks for collection, analysis, and use of school data for the improvement of instruction, the learning environment, and student achievement. May count either EDLD 7530 or EDLD 7536.

EDLD 7540 INSTRUCTIONAL AND CURRICULAR LEADERSHIP (3) LEC. 3. Curriculum design and development; areas of study include student needs, organizational mission and goals, data driven improvement, change process, diverse faculty, curriculum alignment tools. May count either EDLD 7540 or EDLD 7546.

EDLD 7550 EDUCATIONAL FINANCE AND RESOURCE MANAGEMENT (3) LEC. 3. Preparation of pro-active leaders in school business affairs; use of action research and components of a comprehensive, ongoing, planning and budgeting program; facilities management. May count either EDLD 7550 or EDLD 7556.

EDLD 7560 EDUCATIONAL SYSTEMS AND COMMUNITIES (3) LEC. 3. Change theory, forecasting, trend analysis and application of these concepts to student achievement and school improvement efforts.

EDLD 7570 LEGAL AND ETHICAL ISSUES (3) LEC. 3. Ethical and legal provisions for education communities: emphasis on the support of and belief in the cultural value of a diverse and educated democratic society. May count either EDLD 7570 or EDLD 7576.

EDLD 7580 SUPERVISION AND PERSONNEL ISSUES IN EDUCATION (3) LEC. 3. Policies and practices related to teacher recruitment, selection, evaluation, and professional development; faculty/staff developmental processes that impact student achievement and school improvement efforts. May count either EDLD 7580 or EDLD 7586.

EDLD 7900 DIRECTED STUDIES (1-9) IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

EDLD 7910 PRACTICUM (1-6) PRA. Experience closely relating theory and practice, usually conducted in realistic settings. May count either EDLD 7910 or EDLD 7916. Course may be repeated for a maximum of 6 credit hours.

EDLD 7920 ADMINISTRATIVE INTERNSHIP (1-6) AAB/INT. Departmental approval. Opportunities for interns to internalize and employ administrative skills learned during graduate coursework. Course may be repeated for a maximum of 6 credit hours.

EDLD 7930 ADMINISTRATIVE INTERNSHIP/RESIDENCY (1-3) INT. Ongoing field-based experiences in educational administration; observation, participation, and leading with practicing administrators in school systems. Course may be repeated for a maximum of 3 credit hours.

EDLD 7970 SPECIAL TOPICS (1-9) LEC. Variable content for advanced studies in the area of educational leadership. Course may be repeated for a maximum of 9 credit hours.

EDLD 8200 ASSESSMENT AND EVALUATION IN LEARNING ORGANIZATIONS (3) LEC. 3. Study of assessment and evaluation practices that enable learning organizations to use data for decision-making purposes. May count either EDLD 8200 or EDLD 8206.

EDLD 8210 EDUCATIONAL LEADERSHIP: THEORY AND PRACTICE (3) LEC. 3. Educational leadership theory and applications for K-12 settings. May count either EDLD 8210 or EDLD 8216.

EDLD 8220 PERSONAL AND PROFESSIONAL DEVELOPMENT (3) LEC. 3. Includes theoretical frameworks and applications for successful and systematic mentoring of professionals in organizations. May count either EDLD 8220 or EDLD 8226.

EDLD 8230 SYSTEMIC PLANNING AND BUDGETING (3) LEC. 3. Covers the components and implementation of a comprehensive ongoing planning and budgeting program for learning organizations.

EDLD 8240 TRENDS AND ISSUES IN EDUCATIONAL ADMINISTRATION (3) LEC. 3. Trends and issues affecting educational institutions with particular attention to development of administrative procedures to cope with educational changes. May count either EDLD 8240 or EDLD 8246.

EDLD 8250 ORGANIZATIONAL POWER, POLITICS AND POLICY FORMATION (3) LEC. 3. Analysis of social forces, antecedent movements, and political actions affecting organizations. The study of policy development and practice. May count either EDLD 8250 or EDLD 8256.

EDLD 8260 THEORY AND DEVELOPMENT OF ORGANIZATIONS (3) LEC. 3. Theoretical frameworks of educational organizations. May count either EDLD 8260 or EDLD 8266.

EDLD 8270 LEADERSHIP IN FINANCE AND MANAGEMENT (3) LEC. 3. Theory and practice of instructional leadership related to personnel and fiscal management of a school or school district. May count either EDLD 8270 or EDLD 8276.

EDLD 8280 THE SUPERINTENDENCY IN EDUCATION (3) LEC. 3. Theoretical frameworks of educational organizations.

EDLD 8300 CURRICULUM THEORY AND PRACTICE (3) LEC. 3. Advanced course dealing with application of curriculum theories with an emphasis on the impact of philosophical and theoretical beliefs on practice.

EDLD 8310 LEADERSHIP IN THE DEVELOPMENT AND APPLICATION OF CURRICULUM AND THEORY DESIGN (3) LEC. 3. Application of transformative leadership in the design, delivery, and evaluation of curriculum in a wide variety of organizational settings. May count either EDLD 8310 or EDLD 8316.

EDLD 8320 CURRICULUM LEADERSHIP FOR ORGANIZATIONS (3) LEC. 3. Pr. EDLD 7340 and EDLD 8300 and EDLD 8310 or EDLD 8316. Departmental approval. For those considering a career in upper level management. Focuses on context, societal, and political influences related to curriculum processes and organizational change. May count either EDLD 8320 or EDLD 8326.

EDLD 8340 TRANSFORMATIONAL PROCESSES AND ORGANIZATIONAL CHANGE (3) LEC. 3. Organizational and transformational change at personal, interpersonal, and institutional levels. May count either EDLD 8340 or EDLD 8346.

EDLD 8400 ETHICS FOR LEADERS (3) LEC. 3. Theory and practice of ethics and the role of ethical and personal integrity for leaders in the context of educational organizations and the communities they serve. May count either EDLD 8400 or EDLD 8406.

EDLD 8480 INSTITUTIONAL RESEARCH AND DECISION SUPPORT (3) LEC. 3. Components of institutional research and assessment programs that can support the comprehensive planning, decision support, and management needs of the institution.

EDLD 8600 MENTORING FOR CAREER DEVELOPMENT (3) LEC. 3. Assist graduate students in discovering how mentioning can enhance their career/professional development and benefit their organizations. May count either EDLD 8600 or EDLD 8606.

EDLD 8940 DIRECTED FIELD EXPERIENCE IN EDUCATIONAL LEADERSHIP (1-6) FLD. Field-based experience in diverse settings to develop knowledge, skills, and abilities in an area of special interest. Course may be repeated for a maximum of 6 credit hours.

EDLD 8950 SEMINAR (3) DSL/SEM. 3. Professional and social integration into doctoral program; enhancement of professional knowledge through structured inquiry, professional dialogue, and reflective thinking. May count either EDLD 8950 or EDLD 8956. Course may be repeated for a maximum of 6 credit hours.

EDLD 8980 PROJECT ANALYSIS (3) LEC. 3. Problem solving, reflective practice and action research and used for continuous school improvement. Provides opportunities to engage in diverse field based research projects. May count either EDLD 8980 or EDLD 8986.

EDLD 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 hours. Course may be repeated with change in topics.

Educational Media Courses

EDMD 2000 DIGITAL LITERACY AND COMPUTER SCIENCE IN EDUCATION (4) LEC. 3. LAB. 1. Introduction of foundational computer science concepts and practices relevant to K-6 teachers. Emphasis on the application of computational thinking skills to the development of a block-based programing as well as digital literacy skill development. Limited to majors requiring teaching certification.

EDMD 2100 CONTEMPORARY LITERATURE FOR CHILDREN, YOUTH, & ADOLESCENTS (3) LEC. 3. Reading, discussion, analysis, and reflection on contemporary literature in print and other formats for an audience of ages birth-18 yrs. Applying critical skills in the evaluation and selection of titles from a range of genres & formats, including picture books, chapter books, graphic novels, e-books, audio-books, audio-visual formats, fiction, and non-fiction in its various forms. Particular emphasis on American Library Association award-winning titles.

EDMD 3300 UTILIZATION OF INSTRUCTIONAL TECHNOLOGY FOR EDUCATORS (2) LEC. 1. LAB. 2. Basics of current and emerging instructional & communication technologies with primary emphasis on curricular integration. Location, selection, and application of technology resources (WWW, commercially authored software, etc.) for curricular needs with emphasis on developmental stages, learning styles and learning technologies. Limited to majors requiring teaching certification.

EDMD 5000 INSTRUCTIONAL TECHNOLOGY FOR TEACHING AND LEARNING (3) LEC. 3. Introduction to the systematic application of instructional technologies in teaching and learning environments.

EDMD 6000 INSTRUCTIONAL TECHNOLOGY FOR TEACHING AND LEARNING (3) LEC. 3. Introduction to the systematic application of instructional technologies in teaching and learning environments. May count either EDMD 6000 or EDMD 6006.

EDMD 6100 MEDIA FOR CHILDREN (3) LEC. 3. Examination and evaluation of current literature in print and other formats, including oral literature. Focuses on literary and instructional criteria for selecting and utilizing media.

EDMD 7000 INSTRUCTIONAL DESIGN AND DEVELOPMENT (3) LEC. 3. Theory, problems, procedures, and standards in the utilization of technology in instructional design and development. May count either EDMD 7000 or EDMD 7006.

EDMD 7010 INSTRUCTIONAL AND INFORMATION TECHNOLOGIES (3) LEC. 3. Evaluation, selection, and use of traditional and current technologies for instruction, information, and administration in learning environments. May count either EDMD 7010 and EDMD 7016.

EDMD 7020 PRINCIPLES OF GRAPHIC DESIGN FOR INSTRUCTION (3) LEC. 3. Principles of graphic design and visual literacy to facilitate the presentation of information. Criteria for graphics utilization examined. May count either EDMD 7020 or EDMD 7026.

EDMD 7030 DIVERSE CHILDREN'S AND YOUNG ADULT LITERATURE: ISSUES, TRENDS, & CONTROVERSIES (3) LEC. 3. Examination of current issues, trends, and controversies in diverse children's and young adult literature. Particular focus is given to literature by and about people from population groups traditionally defined by race, class, ethnicity, religion, ability, gender and sexuality. Course participants will investigate theoretical perspectives, scholarly discussions, and methodological implications for these texts.

EDMD 7100 SELECTION AND USE OF MEDIA FOR YOUTH (3) LEC. 3. Pr. EDMD 7030 or EDMD 7036. Evaluation, selection, and use of print and non-print media for youth, including materials for multi-cultural, special and gifted education. May count either EDMD 7100 or EDMD 7106.

EDMD 7110 BIBLIOGRAPHIC DESCRIPTION, ORGANIZATION AND CONTROL (3) LEC. 3. Principles and procedures of describing, classifying and organizing resources with applications using new technologies. May count either EDMD 7110 or EDMD 7116.

EDMD 7120 INFORMATION SOURCES, SERVICES AND INSTRUCTION (3) LEC. 3. An overview of information needs, services, and print and electronic resources; ways to teach information literacy skills. May count either EDMD 7120 or EDMD 7126.

EDMD 7130 ADMINISTRATION OF MEDIA AND TECHNOLOGY SERVICES (3) LEC. 3. Functions of and planning for media and technology services. Budget, evaluation, facilities, guidelines, legal issues, personnel and policies. May count either EDMD 7130 or EDMD 7136.

EDMD 7200 APPLIED INSTRUCTIONAL DESIGN (3) LEC. 3. Pr. EDMD 7000 or EDMD 7006. Applying instructional design skills, students will plan, develop, implement and assess instructional products using appropriate technologies. May count either EDMD 7200 or EDMD 7206.

EDMD 7210 INTEGRATION OF TECHNOLOGY INTO CURRICULUM (3) LEC. 3. Learner competence in integration of technology into curriculum, including designing and writing software and plans for using computers in instruction. May count either EDMD 7210 or EDMD 7216.

EDMD 7230 THEORY AND PRACTICE OF DISTANCE EDUCATION (3) LEC. 3. Theories, concepts, and tools that support distance education, with emphasis on application in design, development, and implementation of distance education instruction. May count either EDMD 7230 or EDMD 7236.

EDMD 7300 RESEARCH IN INSTRUCTIONAL TECHNOLOGY (3) LEC. 3. Pr. ERMA 7200 or FOUN 7200 or ERMA 7206 or FOUN 7206. A forum for sharing research perspectives, exploring processes involved in defining research problems and analyzing research theories, problems, and methods in instructional technology. May count either EDMD 7300 or EDMD 7306.

EDMD 7310 EVALUATION OF MEDIA AND TECHNOLOGY PROGRAMS (3) LEC. 3. Factors contributing to effective media and technology programs. Understanding of research process and experience with media and technology services assumed. May count either EDMD 7310 or EDMD 7316.

EDMD 7320 ADVANCED INFORMATION SOURCES AND SERVICES (3) LEC. 3. Electronic databases, advanced searching techniques, information representation, and the role of the media specialist in networking and creating electronic information sources. May count either EDMD 7320 or EDMD 7326.

EDMD 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor of student's work accomplished at regular intervals.

EDMD 7910 PRACTICUM (1-6) PRA. SU. Experiences closely relating theory and practice, usually conducted in realistic settings. Course may be repeated for a maximum of 6 credit hours.

EDMD 7920 CLINICAL RESIDENCY (1-6) DSL/INT. SU. Pr. (P/C EDMD 7120 or P/C EDMD 7126) and (P/C EDMD 7130 or P/C EDMD 7136). Supervised experience in a school media center or other appropriate setting. These experiences, accompanied by regularly scheduled meetings with the university supervisor, provide evaluation and analysis of the intern experience. May count either EDMD 7920 or EDMD 7926. Course may be repeated for a maximum of 6 credit hours.

EDMD 7930 TEACHING APPRENTICESHIP (3) SEM. 3. Departmental approval. A structured opportunity for students to apply educational media concepts and theories in the college classroom. Course may be repeated for a maximum of 6 credit hours.

EDMD 7940 DIRECTED FIELD EXPERIENCE (3-6) FLD. SU. Pr. FOUN 7200 or ERMA 7200 or ERMA 7206 or FOUN 7206. Field-based study in the area of media and technology. Addresses a scholarly concern of the student and is conducted using valid research techniques. Course may be repeated for a maximum of 6 credit hours.

EDMD 7970 SPECIAL TOPICS IN INSTRUCTIONAL TECHNOLOGY (3-9) LEC. 3. Opportunity for study of current topics related to the field of instructional technology. Course may be repeated for a maximum of 9 credit hours.

EDMD 7980 FIELD PROJECT (3-6) INT. SU. Pr. ERMA 7200 or ERMA 7206 or FOUN 7200 or FOUN 7206. Field-based study in the area of media and technology. Addresses a scholarly concern of the student and is conducted using valid research techniques.

Educational Psychology Courses

EPSY 4100 LEARNING & WELLNESS IN LATER LIFE (3) LEC. 3. Relevant settings, processes, and purposes of learning for older adults. Learner characteristics will also be examined including motivations and needs. Examples of curricula and programs will be explored in-depth such as learning for family harmony, life transitions and adjustment, community involvement, recreation, reciprocity, wellness, and health.

EPSY 7100 LEARNING & WELLNESS IN LATER LIFE (3) LEC. 3. Relevant settings, processes, and purposes of learning for older adults. Learner characteristics will also be examined including motivations and needs. Examples of curricula and programs will be explored in-depth such as learning for family harmony, life transitions and adjustment, community involvement, recreation, reciprocity, wellness, and health.

EPSY 7400 ED PSYCH & EDUCATIONAL IMPLICA (3) LEC. 3. Educational psychology theory and research addressing critical problems, challenges, and opportunities in education or other growth-oriented settings. Content ranges from the study of learning to educational evaluation and authentic assessment.

EPSY 7410 THE INDIVIDUAL IN THE TEACHING-LEARNING PROCESS (3) LEC. 3. The study of human growth, development, and motivation theory and research, including culture, socio-economic status, language, gender and race as a base for understanding individual differences and their sources.

EPSY 7420 LEARNING THEORY AND EDUCATIONAL PRACTICE (3) LEC. 3. Advanced study of learning theory and research with an emphasis on application to effective design, implementation, and evaluation of instruction.

EPSY 7430 MOTIVATION AND ACHIEVEMENT (3) LEC. 3. Social, cultural, and psychological antecedents of achievement motivation are examined. This process requires reviewing theories and research, and emphasis is placed on discerning implications for practice and policy.

EPSY 7440 CLASSROOM MANAGEMENT: SKILLS AND REFLECTION (3) LEC. 3. Advanced study and analysis of existing classroom management discipline models including observation research activity.

EPSY 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

EPSY 7970 SPECIAL TOPICS IN FOUNDATION OF EDUCATION (3-6) LEC. 3-6. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be repeated for a maximum of 6 credit hours.

EPSY 8410 LEARNING IN THE SOCIAL CONTEXT (3) LEC. 3. Examination of the complex nature of learning as a socially-shared and individualized process. Topics may include the social construction of knowledge, scaffolded instruction, cognitive apprenticeships, and problem based learning.

EPSY 8430 TOPICAL SEMINAR IN LEARNING, COGNITION, AND INSTRUCTION (3) LEC. 3. An intensive and advanced study of research and theory on selected topics. Examples include folk theories of mind and alternative methods of studying thinking.

EPSY 8440 ED PSYCH APPRENT SEMINAR (3) LEC. 3. Focuses on the historical foundations of educational psychology as well as possibilities for future disciplinary development.

EPSY 8540 EDUCATIONAL PSYCHOLOGY RESEARCH APPRENTICESHIP SEMINAR (3) LEC. 3. A structured context for students to begin applying what they have learned from their research methods and statistic courses. Students will design and conduct research that contributes to the educational psychological knowledge base.

EPSY 8640 EDUCATIONAL PSYCHOLOGY LEARNING AND INSTRUCTION APPRENTICESHIP SEMINAR (3) LEC. 3. A structured opportunity for students to begin applying educational psychological concepts and theories in the classroom. Students will study theories of learning and instruction and begin to translate and implement these theories into practice.

EPSY 8990 RESEARCH AND DISSERTATION (1-10) DSR. Individualized support and direction for students writing their dissertations. Course may be repeated with changes in topic.

Elementary Education Courses

CTEE 3040 PRIMARY CURRICULUM IN MATHEMATICS (3) LEC. 3, LEC. 0. Admission to Teacher Education. This course introduces primary mathematics content, pedagogy, and pedagogical content knowledge for prospective elementary school teachers. Students are provided the opportunity to explore the content and pedagogical content knowledge in the areas of: a) Foundations of Counting, b) Operations with Numbers: Base 10, and c) Operations and Algebraic Thinking. Participants will have the opportunity to delve into state and national standards, Mathematics Teaching Practices, learning trajectories, assessment and student thinking from a teaching perspective.

CTEE 3041 PRACTICUM IN ELEMENTARY EDUCATION: PRIMARY MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTEE 3040. Admission to Teacher Education. Practicum in Elementary Education: Primary Mathematics 1 credit course. This course is designed to provide 15 clock hours of teaching and experience in Primary Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTEE 3100 INTRODUCTION TO ELEMENTARY EDUCATION (3) LEC. 3. Knowledge, skills, and dispositions necessary for elementary education, with emphasis on professional expectations and school structure.

CTEE 4000 FORMATIVE ASSESSMENT AND INSTRUCTION IN INTERMEDIATE MATHEMATICS (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. This course examines mathematics content, pedagogy, and pedagogical content knowledge for prospective elementary school teachers within the intermediate grades. Students explore the areas of: a) Operations with Numbers: Base 10, c) Operations with Numbers: Fractions and c) Operations and Algebraic Thinking. Participants will have the opportunity to delve into state and national standards, Mathematics Teaching Practices, learning trajectories, assessment and student thinking from a teaching perspective.

CTEE 4010 CURRICULUM: SOCIAL SCIENCE (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. Pedagogical content knowledge in the major concepts and modes of inquiry for integrated study of social sciences for elementary learners.

CTEE 4011 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE SOCIAL SCIENCE (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4010. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Social Science Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4020 CURRICULUM: LANGUAGE ARTS (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. CTEE 4020, the final course in reading and writing instruction, deepens students' understanding of English language arts through current research in the science of reading and writing. Emphasizing expressive and receptive language in K–6 classrooms, the course highlights high-leverage teaching practices, assessment strategies, and effective feedback. Students apply learning through practicum experiences, supporting diverse learners including those with dyslexia, dysgraphia, and multilingual backgrounds, while refining their instructional approaches through lectures, readings, and guided practice.

CTEE 4021 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE LANGUAGE ARTS (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4020. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Language Arts Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4030 CURRICULUM: NATURAL SCIENCE (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. Pedagogical content knowledge, principles, and standards in the major concepts and modes of inquiry for integrated study of science for elementary learners.

CTEE 4031 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE NATURAL SCIENCE (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4030. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Natural Science Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4040 CURRICULUM: MATHEMATICS (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. This course examines the principles, current research, and approaches to the teaching and learning of elementary school mathematics with specific focus on geometry, measurement and data analysis. It also investigates the relationship between pedagogy and mathematical understanding appropriate for the instruction of children in kindergarten through sixth grade. Through this course, candidates explore and use major concepts and procedures in relation to geometry, measurement, probability, and data analysis.

CTEE 4041 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE MATHEMATICS (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4040. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Mathematics Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4190 EFFECTIVE CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. Through exploration, discussion, reflection, and analysis students will study issues pertaining to inclusive/multicultural K-6 classrooms. Issues related to classroom management (e.g. behavior and time management), students with special needs, parent/community relations, legal mandates, technology, planning, and professionalism.

CTEE 4191 PRACTICUM IN EFFECTIVE CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4190. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Effective Classroom Management in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Reading, research, or other work undertaken by a student focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTEE 4910 PRACTICUM (1-6) AAB/PRA. SU. Departmental approval. Students and faculty cooperatively select an appropriate field experience. Course may be repeated for a maximum of 6 credit hours.

CTEE 4920 CLINICAL RESIDENCY (11) AAB. 11. SU. Pr. P/C CTEE 4950 or P/C CTEE 4953. Admission to Teacher Education. Supervised teaching in a public elementary school accompanied by scheduled discussions to analyze and evaluate the intern's experience. Admission to internship. May count either CTEE 4920 or CTEE 4923.

CTEE 4950 PROFESSIONAL DEVELOPMENT SEMINAR (1-4) AAB. 1. SU. Pr. P/C CTEE 4920 or P/C CTEE 4923. Admission to Teacher Education. Reflection, exploration, and study of elementary education practices in kindergarten through grade six. May count either CTEE 4950 or CTEE 4953. Course may be repeated for a maximum of 4 credit hours.

CTEE 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Individual readings program. Course may be repeated for a maximum of 3 credit hours.

CTEE 4970 SPECIAL TOPICS (1-6) AAB/LEC. Departmental approval. Cooperatively selected concepts and theories pursued, normally in small groups. Course may be repeated for a maximum of 6 credit hours.

CTEE 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. The student thesis is finalized in this course. Course may be repeated for a maximum of 3 credit hours.

CTEE 7010 APPROACHES TO TEACHING (3) LEC. 3. Organizational patterns, planning and approaches to instruction in the elementary school.

CTEE 7410 CURRICULUM AND TEACHING IN SOCIAL SCIENCE (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) social science education. May count either CTEE 7410 or CTEE 7416.

CTEE 7420 CURRICULUM AND TEACHING IN LANGUAGE ARTS (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) language arts education. May count either CTEE 7420 or CTEE 7426.

CTEE 7430 CURRICULUM AND TEACHING IN NATURAL SCIENCE (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) natural science education. May count either CTEE 7430 or CTEE 7436.

CTEE 7440 CURRICULUM AND TEACHING IN MATHEMATICS (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) mathematics education. May count either CTEE 7440 or CTEE 7446.

CTEE 7490 THE ELEMENTARY SCHOOL PROGRAM (3) LEC. 3. Major curriculum areas and teaching practices in the modern elementary school. Implications of research and theory for the total elementary school program.

CTEE 7510 RESEARCH STUDIES IN EDUCATION IN AREAS OF SPECIALIZATION (3) LEC. 3. Pr. CTEE 7420 or CTEE 7426. A review, analysis and interpretation of data with emphasis on designing research to meet the changing needs of the school. May count either CTEE 7510 or CTEE 7516.

CTEE 7530 ORGANIZATION OF PROGRAMS IN ELEMENTARY EDUCATION (3) LEC. 3. Organization and development of basic and supplementary materials for guiding teachers and school systems in improvement of curriculum and teaching practices. May count either CTEE 7530 or CTEE 7536.

CTEE 7540 EVALUATION OF PROGRAMS IN AREAS OF SPECIALIZATION (3) LEC. 3. Evaluation methods and exploration of evaluation literature in areas of specialization. May count either CTEE 7540 or CTEE 7546.

CTEE 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study related to student's respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTEE 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) AAB. SU. Departmental approval. Provides individual students with experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTEE 7970 SPECIAL TOPICS (1-6) AAB. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. May count either CTEE 7970 or CTEE 7979. Course may be repeated for a maximum of 6 credit hours.

CTEE 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated for a maximum of 10 credit hours.

CTEE 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTEE 8970 SPECIAL TOPICS (1-6) LEC. Course may be repeated for a maximum of 6 credit hours.

CTEE 8980 FIELD PROJECT (1-10) DSL/FLD. SU. Students conduct research on an educational problem and defend a field project report. Departmental approval. May count either CTEE 8980 or CTEE 8986. Course may be repeated for a maximum of 10 credit hours.

CTEE 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated for a maximum of 20 credit hours.

English for Spkrs Other Lang Courses

CTES 5410 FOUNDATIONS OF MULTILINGUAL LEARNER INSTRUCTION (3) LEC. 3. Non-major course to introduce students to the essential components of effective instruction of multilingual students in a variety of contexts. Topics include instructional models for teaching multilingual students, linguistically and culturally responsive pedagogy, second language acquisition, formative and summative assessment.

CTES 7400 TECHNOLOGY AND MEDIA IN ENGLISH FOR SPEAKERS OF OTHER LANGUAGES EDUCATION (ESOL) (3) LEC. 3. Application of instructional technology in second language instruction, authentic materials in the ESL classroom. May count either CTES 7400 or CTES 7406.

CTES 7410 CURRICULUM DEVELOPMENT IN ESOL EDUCATION (3) LEC. 3. LAB. 0, DSL/LEC. 0. This class will explore how to teach English for specific purposes by explaining how to create a curriculum in English for a particular context. The course will describe how to conduct a needs analysis and then create a curriculum based on the needs of the students.

CTES 7420 APPLIED LINGUISTICS IN SECOND LANGUAGE ACQUISITION (3) LEC. 3. Provides basic knowledge of phonetics, morphology, syntax, semantics, pragmatics, psycholinguistics, sociolinguistics and language variation to teach English language learners. May count either CTES 7420 or CTES 7426.

CTES 7430 TEACHING ESL LISTENING AND SPEAKING (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course will prepare ESL/EFL teachers to develop engaging and effective listening and speaking lessons in a variety of contexts. Students will design and implement effective listening and speaking lessons for a variety of proficiency levels.

CTES 7440 TEACHING ESL READING AND WRITING (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course will increase understanding of the theory and practices of reading and writing skills that actively engage English learners.

CTES 7460 TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES IN P-12 (3) LEC. 3. Teaching practices and curriculum selection in P-12 ESOL. May count either CTES 7460 or CTES 7466.

CTES 7470 ISSUES IN ENGLISH FOR SPEAKERS OF OTHER LANGUAGES EDUCATION (ESOL) (3) LEC. 3. Examination of central issues in the teaching and learning of ESOL including language policy, language diversity and multiculturalism. May count either CTES 7470 or CTES 7476.

CTES 7480 ASSESSMENT IN ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL) (3) LEC. 3. Theoretical perspectives on assessment of English Language Learners. Developing, administering and analyzing assessment instruments. May count either CTES 7480 or CTES 7486.

CTES 7490 METHODS IN ESL GRAMMAR (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course will explore the English language beyond the prescriptive rules commonly taught and to develop an in-depth understanding of the challenges English language learners have with grammar. It will explore ways grammar impacts writing and speaking, best practices for grammar instruction, and considerations in error correction. Key grammar lessons will be developed and practiced.

CTES 7920 CLINICAL RESIDENCY (1-9) AAB. SU. Supervised teaching in a K-12 public school accompanied by scheduled discussions to analyze and evaluate the intern's experience. Course may be repeated for a maximum of 9 credit hours.

Foundations of Education Courses

FOUN 3000 DIVERSITY OF LEARNERS AND SETTINGS (3) LEC. 2. LAB. 3. Pr. EDUC 1010 or EDUC 1013. Exploration of how sociopolitical factors and students' diverse identities shape their experiences and opportunities in educational settings and society, with a focus on the interaction between schooling and inequity. Includes a service-learning requirement.

FOUN 3100 CHILD DEVELOPMENT, LEARNING, MOTIVATION AND ASSESSMENT (6) LEC. 5. LAB. 3. Pr. EDUC 3000 or (FOUN 3000 and RSED 3000) or (FOUN 3000 and RSED 3003). With grades of "C" or better. Cognitive, psychosocial, and moral aspects of child development; integration of development, learning, motivation, assessment, and evaluation in context of instructional planning. May count either FOUN 3100 or FOUN 3103.

FOUN 3110 ADOLESCENT DEVELOPMENT, LEARNING, MOTIVATION AND ASSESSMENT I (3) LEC. 2. LAB. 3. Pr. EDUC 3000 or (FOUN 3000 and RSED 3000) or (FOUN 3000 and RSED 3003). An integrated approach to the effective instruction of the adolescent learner in context.

FOUN 3120 ADOLESCENT DEVELOPMENT, LEARNING, MOTIVATION AND ASSESSMENT II (3) LEC. 3. Pr. (FOUN 3110-3113 or CTSE 4070-4073 or CTSE 4090) and (EDUC 3000 or (FOUN 3000 and RSED 3000-3003)). Study of the adolescent development, learning, motivation, evaluation, and assessment concepts central to effective instruction. May count either FOUN 3120 or FOUN 3123.

FOUN 3500 DEVELOPMENT, LEARNING AND MOTIVATION (3) LEC. 3. LAB. 0, LEC. 0. The course will cover physical, cognitive, psychosocial and moral aspects of development. Next, the course will cover behavioral, cognitive, learner-centered constructivist and more contemporary theories of learning with emphasis on applications to classroom instruction. Finally, the course will cover various theories of motivation with educational applications.

FOUN 7000 CULTURAL FOUNDATIONS OF EDUCATION (3) LEC. 3. Advanced study of culture and its impact on the development and structure of education and schooling. Utilizing historical, philosophical, anthropological, and sociological perspectives, contemporary issues regarding the nature and practice of schooling will be examined. May count either FOUN 7000 or FOUN 7006.

FOUN 7010 HISTORY OF AMERICAN EDUCATION (3) LEC. 3. Examination of ideas, actors, and events which influenced the emergence of the formal school system, beginning with early American forms of education. May count either FOUN 7010 or FOUN 7016.

FOUN 7020 SOCIAL AND CULTURAL DIVERSITY IN AMERICAN EDUCATION (3) LEC. 3. Advanced study of education's response to cultural pluralism. The impact of religious, ethnic, social, and racial diversity on the structure of the American public school will be examined. May count either FOUN 7020 or FOUN 7026.

FOUN 7030 PHILOSOPHY AND EDUCATION (3) LEC. 3. Advanced study of philosophical questions and concepts as well as their application in education. May count either FOUN 7030 or FOUN 7036.

FOUN 7040 PHILOSOPHY AND EDUCATIONAL RESEARCH (3) LEC. 3. Advanced philosophical study of educational research within the context of education's professional culture.

FOUN 7050 GLOBAL PERSPECTIVES ON EDUCATION (3) LEC. 3. Exploration of global transformations in education and their implications for equity, diversity, and justice through the lens of comparative and international research.

FOUN 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

FOUN 7930 TEACHING APPRENTICESHIP (3) IND. 3. Departmental approval. A structured opportunity for students to explore social foundations of education concepts and pedagogies in the college classroom. Course may be repeated for a maximum of 6 credit hours.

FOUN 7970 SPECIAL TOPICS IN FOUNDATIONS OF EDUCATION (3-6) LEC. 3-6. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be repeated for a maximum of 6 credit hours.

FOUN 8010 MODERN EDUCATION AND COMPARATIVE PERSPECTIVES (3) LEC. 3. Advanced comparative study of selected contemporary educational issues within the American and international urban context.

FOUN 8990 RESEARCH AND DISSERTATION (1-10) DSR. Individualized support and direction for students writing their dissertations. Courses may be repeated for a maximum for 10 hours. Course may be repeated with change in topics.

Higher Ed Administration Courses

HIED 7200 ORGANIZATIONAL ISSUES IN HIGHER EDUCATION (3) LEC. 3. Theory and practice of higher education organizations with emphasis on supervision and management of personnel.

HIED 7210 LEADERSHIP IN HIGHER EDUCATION (3) LEC. 3. Exploration, discussion and application of theories, concepts and principles of leadership applied to higher education organizations. May count either EDLD 7210 or HIED 7210.

HIED 7220 HIGHER EDUCATION MANAGEMENT (3) LEC. 3. Procedures and practices in school educational management.

HIED 7230 STUDENT SERVICES ADMINISTRATION POSTSECONDARY EDUCATION (3) LEC. 3. Organization, administration and evaluation of student personnel services in postsecondary education.

HIED 7240 LEGAL ISSUES IN HIGHER EDUCATION (3) LEC. 3. Constitutional and statutory provisions for education and an analysis of judicial decisions affecting higher education.

HIED 7250 COLLEGE STUDENT DEVELOPMENT (3) LEC. 3. Overview of major developmental theories affecting college students.

HIED 7260 COUNSELING AND ADVISING IN HIGHER EDUCATION (3) LEC. 3. Introduces counseling and advising theory and application for student services professionals in higher education.

HIED 7270 OVERVIEW OF POSTSECONDARY EDUCATION (3) LEC. 3. Overview of the history and evolution of postsecondary education in North America. May count either HIED 7270 or HIED 7276.

HIED 7400 SPORT MARKETING AND PUBLIC RELATIONS (3) LEC. 3. Marketing and public relations of sport organizations as associated with higher education institutions.

HIED 7410 SPORT ETHICS (3) LEC. 3. Covers ethical issues in sport organizations as associated with higher education institutions.

HIED 7900 DIRECTED STUDIES (1-6) IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

HIED 7910 PRACTICUM (3) PRA. 3. Departmental approval. Experience in the management of specific administrative offices. Course may be repeated for a maximum of 6 credit hours.

HIED 7920 INTERNSHIP (1-6) INT. SU. Departmental approval. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 6 credit hours.

HIED 7970 SPECIAL TOPICS (1-6) LEC. 1-6. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

HIED 8200 ASSESSMENT AND EVALUATION IN HIGHER EDUCATION (3) LEC. 3. Study of assessment and evaluation practices that enable learning organizations to use data for decision-making.

HIED 8230 PLANNING AND BUDGETING IN HIGHER EDUCATION (3) LEC. 3. Components and implementation of a comprehensive, ongoing planning and budgeting program in higher education.

HIED 8270 FINANCIAL MANAGEMENT IN HIGHER EDUCATION (3) LEC. 3. Educational finance including revenues, expenditures, cost, budgeting and accounting, and the local, state and federal role in supporting education.

HIED 8480 INSTITUTIONAL RESEARCH IN HIGHER EDUCATION (3) LEC. 3. Components of institutional research and assessment that support comprehensive planning, analysis, decision support and management needs of the higher educational institution May count either EDLD 8480 or HIED 8480.

HIED 8500 THE PROFESSORIATE (3) LEC. 3. Study of differences and similarities in faculty roles, work, and career paths using various disciplinary and institutional lenses.

HIED 8510 SEMINAR IN COLLEGE TEACHING (3) LEC/SEM. 3. Overview of major issues in higher education and methods of instruction in college teaching. Involves use of experiential learning, group and collaborative activities.

HIED 8950 SEMINAR (3) LEC. 3. Presentation by graduate students of research projects and/or analysis of procedures and finding. Course may be repeated for a maximum of 6 credit hours.

HIED 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 credit hours.

Interdepartmental Education Courses

EDUC 1010 ORIENTATION TO TEACHER EDUCATION (0) LEC. 0. SU. Orientation to the teaching profession.

EDUC 5970 SPECIAL TOPICS (1-9) LEC. Opportunity for study of current topics related to the field of education in general. Course may be repeated for a maximum of 9 credit hours.

EDUC 6970 SPECIAL TOPICS (1-9) LEC. Opportunity for study of current topics related to the field of education in general. Course may be repeated for a maximum of 9 credit hours.

Kinesiology Courses

KINE 1100 WELLNESS & PUBLIC HEALTH (3) LEC. 3. Review content and theory associated with basic health information, critical health issues, economic, political, and cultural influences on health and wellness; concepts related to improving and maintaining optimal health and wellness, and basic concepts and principles of wellness for the self-appraisal of health-related physical fitness. May count either KINE 1100 or KINE 1103.

KINE 2000 PILLARS OF HEALTH: A JOURNEY TO OPTIMAL HEALTH & WELLBEING (3) LAB. 4. Students will learn and apply Mindfulness-Based Stress Reduction (MBSR) techniques and practices that have been shown, scientifically, to reduce stress and act as an aid to many health conditions that arise or are exacerbated by stress. On-campus labs are required.

KINE 2250 MOTOR DEVELOPMENT ACROSS THE LIFESPAN (2) LEC. 2. Develops understanding and skills concerning the broad concept of motor development across the lifespan. May count either KINE 2250 or KINE 2253.

KINE 2251 MOTOR DEVELOPMENT ACROSS THE LIFESPAN LABORATORY (1) LAB. 1. SU. Pr. (P/C KINE 2250 or P/C KINE 2257 or P/C KINE 2253). Develops understanding and skills concerning the broad concept of motor development across the lifespan.

KINE 2257 HONORS MOTOR DEVELOPMENT ACROSS THE LIFESPAN (2) LEC. 2. Pr. Honors College. Develops understanding and skills concerning the broad concept of motor development across the lifespan. May count either KINE 2250 or KINE 2253.

KINE 2500 SPORT OPTIMIZATION I (3) LEC. 2. LAB. 2. Basic concepts associated with the assessment of sport performance for the purpose of optimization.

KINE 2510 SPORT OPTIMIZATION II (3) LEC. 2. LAB. 2. Pr. KINE 2500 or KINE 2503 or HLHP 2500 or HLHP 2503. Concepts associated with the assessment and interpretation of sport performance for the purpose of optimization.

KINE 2800 INTRODUCTION TO KINESIOLOGY (3) LEC. 3. People, history and programs that have led to the current status of physical education, exercise science and health promotion.

KINE 3000 MEDICAL TERMINOLOGY FOR ALLIED HEALTH PROFESSIONS (3) LEC. 3. Focus on medical terminology/ abbreviations used in allied health care and application to health care documentation. Web-based delivery.

KINE 3010 INSTRUCTION AND TECHNOLOGY IN KINESIOLOGY (2) LEC. 1. LAB. 2. Communication skills, instructional strategies and technological competencies related to conveying information in the Kinesiology disciplines. May count either KINE 3010 or KINE 3013.

KINE 3030 INTRODUCTION TO PERSONAL TRAINING (3) LEC. 3. Theoretical knowledge and skills in preparation of national certification in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming.

KINE 3031 INTRODUCTION TO PERSONAL TRAINING LABORATORY (3) LAB. 3. Pr. P/C KINE 3030. Theoretical knowledge and skills in preparation of national certification in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming.

KINE 3040 HISTORY OF AMERICAN PHYSICAL CULTURE (3) LEC. 3. Appreciation of the historical and cultural aspects of health, exercise, fitness and sports activities in modern American society.

KINE 3050 CARE AND PREVENTION OF INJURIES (3) LEC. 3. Students will understand how to implement proper procedures in sports medicine care, create/lead emergency action plans, prevent injury/illness occurrence, care for basic injuries/illnesses, and analyze environmental conditions for safety, and provide important information to sports medicine health professionals. May count either KINE 3050 or KINE 3053.

KINE 3100 ADAPTIVE SPORTS (3) LEC. 3. An introduction to various competitive and recreational activities for persons with disabilities. May count either KINE 3100 or KINE 3103.

KINE 3110 PARALYMPIC SPORT (3) LEC. 3. An introduction to the Paralympic Games including the Games development, rules, and current issues related to media, marketing, and social rights.

KINE 3200 SKILLS AND CONCEPTS OF RHYTHMIC ACTIVITIES (3) LEC. 2. LAB. 2. Skillful performance in gymnastics and other rhythmic activities and an understanding of the basic movement concepts in those activities.

KINE 3210 SKILLS AND CONCEPTS OF SPORT (3) LEC. 2. LAB. 2. Skillful performance in games and sports and an understanding of the tactics in those activities. Admission to Teacher Education.

KINE 3230 TEACHING MOTOR SKILLS (3) LEC. 2. LAB. 2. Introduction to motor skills that students learn during their elementary school years in physical education.

KINE 3260 PHYSICAL EDUCATION FOR INDIVIDUALS WITH DISABILITIES (3) LEC. 2. LAB. 2. Pr. (KINE 2250 and KINE 2251 or KINE 2253) or (HLHP 2250 or HLHP 2251 or HLHP 2253). Program needs of individuals with disabilities in physical education and physical activity settings.

KINE 3300 INSTRUCTIONAL STRATEGIES IN PHYSICAL EDUCATION (3) LEC. 2. LAB. 2. Instructional and class management strategies appropriate to teach quality elementary and secondary physical education Admission to Teacher Education.

KINE 3400 HEALTH PROMOTION IN THE WORKPLACE (3) LEC. 3. Planning, implementation, evaluation and marketing of health promotion programs.

KINE 3410 REGISTERED YOGA TEACHER LEVEL I (3) LEC. 2. LAB. 2. Basic principles of teaching yoga. Concepts include the poses, breathing, relaxation, meditation and other yoga techniques. Completion of KINE 3410 & KINE 3420 completes a Yoga Teacher Certification.

KINE 3420 REGISTERED YOGA TEACHER LEVEL II (3) LEC. 2. LAB. 2. Pr. KINE 3413 or KINE 3410 or HLHP 3410 or HLHP 3413. Advanced principles of teaching yoga. Focus on poses, breathing, relaxation, meditation and other yoga techniques. Completion of KINE 3410 and KINE 3420 completes a Yoga Teacher Certification.

KINE 3620 BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT (3) LEC. 3. Coreq. KINE 3621. Understanding of anatomical, neuromuscular, and biomechanical principles of human movement. Application of these concepts, as well as methods of motion analysis, will enable the student to evaluate human movement in greater detail. Departmental approval is needed for non-majors to enroll.

KINE 3621 BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT LABORATORY (1) LAB. 1. Pr. P/C KINE 3620 or P/C KINE 3623 or P/C KINE 3627. Laboratory experience focuses on application of knowledge of anatomical, neuromuscular, and biomechanical principles of human movement. Content emphasizes understanding the science of exercise, how to apply and interpret common mechanical measures, and writing about findings using basic scientific writing techniques.

KINE 3627 HONORS BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT (3) LEC. 3. Pr. Honors College. Coreq. KINE 3621. Understanding of anatomical, neuromuscular, and biomechanical principles of human movement. Application of these concepts, as well as methods of motion analysis, will enable the student to evaluate human movement in greater detail. Departmental approval is needed for non-majors to enroll.

KINE 3650 MOTOR LEARNING AND PERFORMANCE (3) LEC. 3. Understanding of the basic psychological and physiological involved in the learning and control of skillful human movement.

KINE 3651 MOTOR LEARNING AND PERFORMANCE LABORATORY (1) LAB. 2. Pr. P/C KINE 3650 or P/C KINE 3653 or P/C KINE 3657. Lab experience will allow students to gain first-hand experience with modern experimental methods, data collection, and basic analysis tools in motor learning research and develop an understanding of the experience of human research participants in kinesiology research.

KINE 3657 HONORS MOTOR LEARNING AND PERFORMANCE (3) LEC. 3. Pr. Honors College. Understanding of the basic psychological and physiological involved in the learning and control of skillful human movement.

KINE 3680 PHYSIOLOGY OF EXERCISE (3) LEC. 3. Energetics of exercise and physiological responses and adaptions of various organ systems (muscular, circulatory, respiratory, etc.) to acute and chronic exercise in different environments.

KINE 3681 PHYSIOLOGY OF EXERCISE LAB (1) LAB. 2. Coreq. KINE 3680. Applying knowledge of basic energy, musculoskeletal, nervous, and cardiovascular systems using various testing procedures. Focus on understanding the science of exercise, interpreting common physiological fitness tests, and how to write about findings using basic scientific writing techniques.

KINE 3687 HONORS PHYSIOLOGY OF EXERCISE (3) LEC. 3. Pr. Honors College. Energetics of exercise and physiological responses and adaptions of various organ systems (muscular, circulatory, respiratory, etc.) to acute and chronic exercise in different environments.

KINE 3820 PRINCIPLES OF SPORT COACHING (3) LEC. 3. Basic principles of sport pedagogy and the conduct of sport training programs. Departmental approval. May count either KINE 3820 or KINE 3823.

KINE 3830 THEORY AND PRACTICE OF SPORTS OFFICIATING (3) LEC. 3. Instruction and practice of officiating a variety of sport activities.

KINE 3840 COACHING THE MENTAL SIDE OF SPORTS (3) LEC. 3. Understand athletes' psychology and how to provide them wit mental skills to enhance their performance in athletics, academics, and life.

KINE 3870 LEGAL AND ILLEGAL SPORTS SUPPLEMENTS (3) LEC. 3. Introductory approach to the safety, efficacy, and legality of popular legal and illegal sports supplements.

KINE 4130 THE NEUROBIOLOGY OF PLAY (3) LEC. 3. This course is an introduction to psychological and neuroscientific research on play and games. We will focus on play behavior in human beings, but will incorporate comparative evidence from play in other animals. Using an interdisciplinary approach, we will draw.

KINE 4200 PHYSICAL EDUCATION IN ELEMENTARY SCHOOLS (4) LEC. 2. LAB. 4. Pr. HLHP 3300. Understanding of the skill theme approach based on skill themes, movement concepts and levels of skill proficiency. Credit will not be given for both KINE 4200 and KINE 4360. Admission to Teacher Education.

KINE 4300 PHYSICAL EDUCATION IN SECONDARY SCHOOLS (4) LEC. 2. LAB. 4. Pr. (KINE 3300 or HLHP 3300). Constructing and implementing appropriate lifetime sports and fitness programs for middle and secondary school students. Admission to Teacher Education.

KINE 4360 HEALTH EDUCATION AND PHYSICAL EDUCATION IN ELEMENTARY SCHOOLS (2) LEC. 1. LAB. 2. Critical topics in health education and physical education for prospective elementary education teachers. Credit will not be given for both KINE 4360 and KINE 4200.

KINE 4400 APPLIED ANATOMY FOR THE ALLIED HEALTH PROFESSIONAL (3) LEC. 3. Study of skeletal anatomy with an applied approach. May count either KINE 4400 or KINE 4403.

KINE 4450 PHYSICAL ACTIVITY AND PUBLIC HEALTH (3) LEC. 3. Departmental approval. Basic principles of epidemiology; health benefits of physical activity; strategies to promote physical activity at the individual and community levels.

KINE 4500 INDIVIDUAL AND GROUP FITNESS INSTRUCTION (3) LEC. 3. Principles of exercise prescription and field assessment techniques to develop, implement and evaluate individual and group exercise programs.

KINE 4560 SPORT TECHNIQUE AND MOVEMENT ANALYSIS (3) LEC. 3. Skills and knowledge for observing, evaluating, and correcting movement patterns. May count either KINE 4560 or KINE 4563.

KINE 4600 STRENGTH AND CONDITIONING DEVELOPMENT (3) LEC. 3. Basic concepts and principles of strength, endurance and speed development.

KINE 4620 EXERCISE AND SPORT PSYCHOLOGY (3) LEC. 3. Role of psychological factors in sport, exercise and physical activity.

KINE 4627 HONORS EXERCISE AND SPORT PSYCHOLOGY (3) LEC. 3. Pr. Honors College. Role of psychological factors in sport, exercise and physical activity.

KINE 4630 STRENGTH AND CONDITIONING PREPARATION (3) LEC. 3. Pr. (KINE 4600 or KINE 4603) and (KINE 3680 or KINE 3683 or KINE 3687). Preparation as a Certified Strength and Conditioning Specialist.

KINE 4640 PHYSICAL CONDITIONING AND SPEED (3) LEC. 3. Basic concepts and principles of physical conditioning and speed.

KINE 4690 CORRECTIVE EXERCISE SPECIALIST PREPARATION (3) LEC. 3. Pr. KINE 3620 and P/C KINE 3621 or P/C KINE 3627. Preparation for the National Academy of Sports Medicine corrective exercise specialist examination. May count either KINE 4690 or KINE 4693.

KINE 4760 INTRODUCTION TO EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. (KINE 3620 or KINE 3627) and (KINE 3650 or KINE 3657) and (KINE 3680 or KINE 3687). Research literature, experimental design and research interpretation in exercise science.

KINE 4767 HONORS INTRO TO EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. Honors College. Research literature, experimental design and research interpretation in exercise science.

KINE 4780 EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. (KINE 4760 or KINE 4763 or KINE 4767) and (KINE 3620 or KINE 3623 or KINE 3627) and (KINE 3650 or KINE 3653 or KINE 3657) and (KINE 3680 or KINE 3683 or KINE 3687). Development of a research proposal including the introduction, review of literature, methods, experimental design and statistics.

KINE 4787 HONORS EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. Honors College. KINE 3620 or KINE 3623 and KINE 3650 or KINE 3653. and KINE 4760 or KINE 4763. and KINE 3680 or KINE 3683. Development of a research proposal including the introduction, review of literature, methods, experimental design and statistics.

KINE 4860 EXERCISE PROGRAMMING FOR SPECIAL POPULATIONS (3) LEC. 3. Principles of exercise prescription, programming and field assessment techniques to develop, implement and evaluate exercise programs for special populations. May count either KINE 4860 or KINE 4863.

KINE 4880 TRAINING AND CONDITIONING PROGRAMMING (3) LEC. 3. Pr. (KINE 4600 or HLHP 4600 or HLHP 4640) and KINE 4640. Skills and knowledge related to sport specific annual training regimens.

KINE 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. In-depth study of specific topics. Course may be repeated for a maximum of 6 credit hours.

KINE 4910 PRACTICUM (1-6) AAB/PRA. SU. Departmental approval. Application of basic concepts to specific work environment. Course may be repeated for a maximum of 6 credit hours.

KINE 4920 CLINICAL RESIDENCY (12) LEC. 12. SU. Pr. KINE 4200 and KINE 4300. Culminating supervised work experience in school settings for K-12 Physical Education. Students must be cleared and approved for Clinical Residency by College of Education criteria.

KINE 4930 PHYSICAL ACTIVITY AND HEALTH INTERNSHIP (1-12) LEC. 1-12. SU. Pr. KINE 5400 or KINE 5403. Opportunity to explore a particular job or career path within the field, allowing students to apply theory and methodology learned in their undergraduate studies in a work environment under qualified supervision. May count either KINE 4930 or KINE 4933. Course may be repeated for a maximum of 12 credit hours.

KINE 4940 FITNESS, CONDITIONING AND PERFORMANCE INTERNSHIP (1-12) DSL/INT. SU. Pr. (KINE 4690 or KINE 4693) and (KINE 4880 or KINE 4883). Opportunity to explore a particular job or career path within the field, allowing students to apply theory and methodology learned in their undergraduate studies in a work environment under qualified supervision. Site must be approved by internship coordinator. May count either KINE 4940 or KINE 4943. Course may be repeated for a maximum of 12 credit hours.

KINE 4970 SPECIAL TOPICS (1-3) AAB. Advanced presentation of critical issues in physical education, health promotion or exercise science. Course may be repeated with change in topic. Course may be repeated for a maximum of 12 credit hours.

KINE 4980 UNDERGRADUATE RESEARCH (1-3) IND. Departmental Approval. Directed research within the area of specialty within the School. Course may be repeated for a maximum of 6 credit hours.

KINE 4997 HONORS THESIS (1-3) LEC. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

KINE 5400 EXERCISE ASSESSMENT, PRESCRIPTION, & PROGRAMMING (3) LEC. 3. Pr. (KINE 3620 or KINE 3623 or KINE 3627) and (KINE 3680 or KINE 3683 or KINE 3687). This course is designed to develop the knowledge, skills, and abilities necessary to work with clients, performing exercise testing for health and fitness and developing exercise programs following American College of Sports Medicine (ACSM) and National Strength and Conditioning Association (NSCA) guidelines. The course will focus on the principles and guidelines for exercise testing and programming.

KINE 5500 EXERCISE ASSESSMENT AND TESTING (3) LEC. 1. LAB. 4. Pr. (KINE 3620 or KINE 3627) and (KINE 3680 or KINE 3687) and KINE 3681. Familiarization with exercise testing, exercise testing instrumentation, and application of concepts in physiological testing, test selection, and interpretation of assessments in normal populations. May count KINE 6500.

KINE 5501 CLINICAL EXERCISE TESTING LABORATORY (2) LAB. 2. Pr. KINE 3680 and (KINE 3681 or KINE 3687) and (KINE 5500 or KINE 5503). Application of concepts in physiological testing, test selection and interpretation of assessments in normal and special populations for the purpose of exercise prescription and chronic disease risk reduction.

KINE 5820 SPORT MANAGEMENT (3) LEC. 3. This course is designed to give students critical skills in understanding and analyzing a number of social issues as they relate to sport. May count either KINE 5820 or KINE 6820.

KINE 5920 INTERNSHIP (1-12) INT. SU. Pr. (KINE 4630 or KINE 4633) and (KINE 5400 or KINE 5403). Supervised work experiences in schools, fitness or rehabilitation settings. Two hours of work experience per week for each hour course credit. Course may be repeated for a maximum of 12 credit hours.

KINE 6200 RESEARCH PROJECT IN PHYSICAL EDUCATION (3) LEC. 3. Focus on action research in teaching and learning in physical education in schools. May count either KINE 5200 or KINE 6200.

KINE 6250 INSTRUCTIONAL SUPERVISION FOR PHYSICAL EDUCATION (2) LEC. 2. Development of systematic observation systems for providing feedback to teachers and strategies for monitoring progress. May count either KINE 5250 or KINE 6250.

KINE 6300 ADVOCACY IN PHYSICAL EDUCATION (2) LEC. 2. Strategies for development of advocacy programs in physical education. May count either KINE 5300 or KINE 6300.

KINE 6350 ASSESSMENT IN PHYSICAL EDUCATION (3) LEC. 3. Pr. P/C KINE 7920 or P/C HLHP 7920 or P/C HLHP 7926.

KINE 6400 EXERCISE ASSESSMENT, PRESCRIPTION, & PROGRAMMING (3) LEC. 3. Pr. KINE 3680 or KINE 3687. This course is designed to develop the knowledge, skills, and abilities necessary to work with clients, performing exercise testing for health and fitness and developing exercise programs following American College of Sports Medicine (ACSM) and National Strength and Conditioning Association (NSCA) guidelines. The course will focus on the principles and guidelines for exercise testing and programming.

KINE 6500 EXERCISE ASSESSMENT AND TESTING (3) LEC. 1. LAB. 4. Pr. KINE 3680 or KINE 3687. Familiarization with concepts in exercise testing, testing instrumentation, test selection & application, and interpretation of assessments in normal populations for the purpose of exercise prescription. May count either KINE 5500 or KINE 6500.

KINE 6501 CLINICAL EXERCISE TESTING LABORATORY (2) LAB. 2. Pr. KINE 3680 or KINE 3687. Coreq. KINE 6500. Learn and practice the skills to perform clinical exercise testing for health and fitness in accordance with American College of Sports Medicine (ACSM).

KINE 6600 PHYSIOLOGICAL BASIS OF TRAINING AND CONDITIONING (3) LEC. 2. LAB. 2. Pr. KINE 3680 or KINE 3687. Physiological adaptations to training and conditioning for sport performance. May count either KINE 5600 or KINE 6600.

KINE 6820 SPORT MANAGEMENT (3) LEC. 3. This course is designed to give students critical skills in understanding and analyzing a number of social issues as they relate to sport. May count either KINE 5820 or KINE 6820.

KINE 6920 INTERNSHIP (1-12) INT. SU. Pr. (KINE 7630 and KINE 6400) or KINE 6406. Departmental approval. Supervised work experiences in schools, fitness or rehabilitation settings. Course may be repeated for a maximum of 12 credit hours.

KINE 7010 RESEARCH METHODS IN PHYSICAL ACTIVITY (3) LEC. 3. Study of research methods and analysis of current research in physical education, health promotion, and exercise science.

KINE 7180 APPLIED SOCIOLOGICAL ASPECTS OF SPORT AND EXERCISE (3) LEC. 3. Critical examination and application of sociological aspects of sport and exercise in a variety of settings. May count either KINE 7180 or KINE 7186.

KINE 7200 CURRICULUM AND TEACHING IN PHYSICAL EDUCATION (3) LEC. 3. Issues in developing and critiquing curricula in physical education.

KINE 7250 EVALUATION OF PROGRAMS IN PHYSICAL EDUCATION (3) LEC. 3. Development of tools for assessment of student learning and evaluation of physical education programs.

KINE 7260 INDIVIDUALS WITH DISABILITIES IN PHYSICAL EDUCATION (3) LEC. 3. Developing inclusive physical activity programs for children and adolescents with disabilities in physical education.

KINE 7280 NATURALISTIC INQUIRY IN PHYSICAL ACTIVITY SETTINGS (3) LEC. 3. Exploration of naturalistic inquiry in physical activity and educational settings.

KINE 7300 CONTENT AND PEDAGOGY IN PHYSICAL EDUCATION (3) LEC. 3. Instructional strategies and content for elementary and secondary physical education.

KINE 7350 ORGANIZATION AND ANALYSIS OF INSTRUCTION IN PHYSICAL EDUCATION (3) LEC. 3. Focus on the teaching-learning process in physical education.

KINE 7380 INTEGRATING CLASSROOM CONCEPTS (3) LEC. 3. Relationship of developmental foundations of young children and programming of physical activities.

KINE 7400 ADVANCED ANATOMICAL PRINCIPLES (3) LEC. 3. Clinically oriented human anatomy experience, designed to provide the student with an applied methodology to interact and utilize anatomical knowledge. May count either KINE 7400 or KINE 7406.

KINE 7420 BIOMECHANICS OF SKILL ANALYSIS: DARTFISH I (3) LEC. 3. Introductory approach to skill analysis as well as the use of the software program Dartifish. May count either KINE 7420 or KINE 7426.

KINE 7430 BIOMECHANICS OF SKILL ANALYSIS: DARTFISH II (3) LEC. 3. Pr. KINE 7420 or HLHP 7420 or HLHP 7426 or KINE 7426. Advanced approach to skill analysis as well as the use of the software program Dartifish. May count either KINE 7430 or KINE 7436.

KINE 7550 EFFICIENT MOVEMENT STRATEGIES (3) DSL. 3. A review of the material and tools necessary to become a National Academy of Sports Medicine Corrective Exercise Specialist.

KINE 7570 EXERCISE ELECTROCARDIOGRAPHY (3) LEC. 3. Pr. KINE 3680 or KINE 3687. Electrocardiography from a exercise scientist's perspective; recognition of normal and abnormal electrocardiographic patterns at rest and during exercise.

KINE 7620 PRINCIPLES OF BIOMECHANICS IN HUMAN MOVEMENT (3) LEC. 3. Pr. KINE 3620 or KINE 3627. Biomechanical principles and laws with applications to human movement in sport, exercise and daily activities. Departmental approval. May count either KINE 7620 or KINE 7626.

KINE 7630 STRENGTH & CONDITIONING PREPARATION (3) LEC. Preparation as a Certified Strength and Conditioning Specialist.

KINE 7650 ADVANCED MOTOR LEARNING AND PERFORMANCE (3) LEC. 3. Pr. KINE 3650 or KINE 3657. Departmental approval. Theories, experimental studies, and current issues in the acquisition, performance, and retention of motor skills.

KINE 7660 BIOMECHANICS OF SPORT INJURY AND REHABILITATION (3) LEC. 3. Pr. (HLHP 7620 or HLHP 7626 or KINE 7620 or HLHP 7626). Biomechanical properties of the human body as related to injuries and rehabilitation in sport and daily activities.

KINE 7670 LAB TECHNIQUES IN BIOMECHANICS (3) LEC. 1. LAB. 2. Pr. (HLHP 7620 or HLHP 7626 or KINE 7620 or KINE 7626). Study of equipment and standing practices utilized by a biomechanist in measuring and analyzing motion.

KINE 7680 ADVANCED PHYSIOLOGY OF EXERCISE I (3) LEC. 3. Pr. KINE 3680 or KINE 3687. Departmental approval. Physiological responses to exercise and control of metabolism, the cardiovascular system, and the respiratory system during acute exercise and training.

KINE 7700 ADVANCED PHYSIOLOGY OF EXERCISE II (3) LEC. 3. Pr. KINE 3680 or KINE 3687. Temperature regulation and endocrine response to exercise; physiological responses and adaptations to aerobic training, strength training, and environmental extremes; limiting factors and fatigue in exercise.

KINE 7710 LAB TECHNIQUES IN EXERCISE PHYSIOLOGY (3) LEC. 1. LAB. 4. Pr. (HLHP 7680 or HLHP 7686 or KINE 7680). Techniques for measuring and evaluating physical performance.

KINE 7730 NEUROMOTOR CONTROL (3) LEC. 3. Pr. KINE 3650 or KINE 3657. Departmental approval. Structure and function of the central and peripheral systems underlying human motor control.

KINE 7740 ADVANCED MOTOR DEVELOPMENT (3) LEC. 3. Departmental approval. Examination of theoretical and empirical issues in motor development across the life span.

KINE 7750 ADVANCED SPORT PSYCHOLOGY (3) LEC. 3. Pr. KINE 4620 or KINE 4627 or departmental approval. Examination of psychological factors that influence althletic performance. Or equivalent,

KINE 7780 EXERCISE MOTIVATION AND ADHERENCE (3) LEC. 3. Pr. KINE 4620 or KINE 4627. Theoretical foundations and recent research in exercise motivation and adherence. Or equivalent.

KINE 7790 MOTOR BEHAVIOR OF INDIVIDUALS WITH DISABILITIES (3) LEC. 3. Pr. (HLHP 7650 or HLHP 7656 or KINE 7650). Examination of motor behavior characteristics of individuals with disabilities.

KINE 7820 CLINICAL/NON-CLINICAL INTERNSHIP IN KINESIOLOGY (1-10) DSL/INT. SU. Supervised work experience in physical activity, health, fitness, conditioning, performance and rehabilitation settings. This course is for non-teacher education students. May count either KINE 7820 or KINE 7826. Course may be repeated for a maximum of 10 credit hours.

KINE 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. In-depth study of specific topics. Course may be repeated for a maximum of 9 credit hours.

KINE 7910 PRACTICUM (1-3) PRA. Departmental approval. Application of concepts to specific work environment. Course may be repeated for a maximum of 6 credit hours.

KINE 7920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised work experiences in schools, fitness or rehabilitation settings. Course may be repeated for a maximum of 10 credit hours.

KINE 7930 NON-THESIS RESEARCH PROJECT (1-6) IND. SU. Pr. KINE 7010 or HLHP 7010 or HLHP 7016. Departmental approval. Continuation/completion of a scientific research project that culminates into a written and oral presentation. Course may be repeated for a maximum of 6 credit hours.

KINE 7950 SEMINAR (1-3) SEM. SU. Course may be repeated for a maximum of 3 credit hours.

KINE 7960 SPECIAL PROBLEMS (1-3) IND. SU. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 3 credit hours.

KINE 7970 SPECIAL TOPICS (1-3) LEC. Advanced presentation of critical issues in physical education, health promotion, or exercise science. Course may be repeated with change in topic.

KINE 7980 RESEARCH PROJECT IN KINESIOLOGY (1-6) IND. SU. Pr. KINE 7010 or HLHP 7010 or HLHP 7016. Departmental approval. Completion of a scientific research project in Kinesiology that culminates into a written and oral presentation. Course may be repeated for a maximum of 6 credit hours.

KINE 7990 RESEARCH AND THESIS (1-10) IND. Course may be repeated with change in topics.

KINE 8270 EXERCISE GENETICS (3) LEC. 3. This course will describe advanced concepts related to exercise genetics. Examples include how skeletal muscle responds to exercise at the epigenetic, transcriptomic, and proteomic level. Additionally, cutting-edge research topics (e.g., miRNA and retrotransposons) will be discussed in the context of exercise science.

KINE 8300 RESEARCH IN KINESIOLOGY (3) LEC. 3. Examination and evaluation of current research trends within the field of kinesiology.

KINE 8310 SUPERVISION/ADMINISTRATION OF LABS IN KINESIOLOGY (3) LEC. 3. Skills and techniques of the daily management of kinesiology labs. Topics include budgeting, outreach, entrepreneurship, grants, and personnel management.

KINE 8320 RESEARCH MENTORSHIP (3) LEC. 3. Skills and experience in the mentorship of novice researches in the field of Kinesiology.

KINE 8710 SCIENTIFIC COMMUNICATION IN EXERCISE SCIENCE (3) LEC. 3. In-depth analysis of the major formats for scientific communication and the peer-review process in exercise science. Or equivalent.

KINE 8730 NUTRIENT TIMING FOR PERFORMANCE OPTIMIZATION (3) LEC. 3. This course will discuss how Nutrient Timing is important for optimizing endurance- or resistance training adaptations in athletes.

KINE 8750 THREE-DIMENSIONAL ANALYSIS OF HUMAN MOVEMENT (3) LEC. 3. Pr. (HLHP 7620 or HLHP 7620) or KINE 7620 or KINE 7620. Three-dimensional nature of body segments in human movement, with emphasis on data processing and modeling techniques.

KINE 8770 NEUROMUSCULAR ASPECTS OF EXERCISE AND TRAINING (3) LEC. 3. Pr. KINE 7680 or HLHP 7680 or HLHP 7686 or departmental approval. Examination of neuromuscular mechanisms that allow humans to perform work, including energy output, neural integration, energy metabolism and adaptations to training.

KINE 8780 BIOCHEMISTRY OF EXERCISE (3) LEC. 3. Pr. (HLHP 7680 or KINE 7680) or HLHP 7686 or departmental approval. Regulation of the metabolic pathways of energy metabolism with emphasis on the energetic response to acute exercise and exercise training.

KINE 8900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. In-depth study of specific topics. Course may be repeated for a maximum of 9 credit hours.

KINE 8910 PRACTICUM (1-3) PRA. SU. Departmental approval. Application of basic concepts to specific work environments. Course may be repeated for a maximum of 9 credit hours.

KINE 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised work experiences in schools, fitness and rehabilitation settings. Course may be repeated for a maximum of 10 credit hours.

KINE 8930 DIRECTED FIELD EXPERIENCES (1-10) FLD. SU. Departmental approval. Field studies away from campus. Course may be repeated for a maximum of 10 credit hours.

KINE 8950 SEMINAR (1-3) SEM. SU. Course may be repeated for a maximum of 3 credit hours.

KINE 8960 SPECIAL PROBLEMS (1-3) IND. SU. Course may be repeated for a maximum of 3 credit hours.

KINE 8970 SPECIAL TOPICS (1-3) LEC. Advanced presentation of critical issues in physical education. health promotion, or exercise science. Course be repeated with change in topic. Course may be repeated with change in topics.

KINE 8980 FIELD PROJECT (1-6) FLD.

KINE 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Field project away from campus. Course may be repeated for a maximum of 9 credit hours. Course may be repeated with change in topics.

Music Education Courses

CTMU 1010 INTRODUCTION TO MUSIC EDUCATION (0) LAB. 1. Introduction to teaching music.

CTMU 1020 MUSIC EDUCATION LAB I (1) LAB. 3. Development and documentation of general music instructional abilities and dispositions for school and community music educators. Clear background check required.

CTMU 2010 MUSIC EDUCATION LAB II (1) LAB. 3. Development and documentation of vocal or instrumental music instructional abilities and dispositions for school and community music educators. Clear background check required.

CTMU 3040 MUSIC AND RELATED ARTS (3) LEC. 2. LAB. 1, LLB. 0. Interdisciplinary instruction appropriate for students' developmental characteristics which synthesize the content, professional resources, curriculum goals and instructional strategies of music.

CTMU 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent reading, research or other work focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTMU 4910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. Admission to Teacher Education. Cooperatively selected field experience. May count either CTMU 4910 or CTMU 4913. Course may be repeated for a maximum of 6 credit hours.

CTMU 4920 CLINICAL RESIDENCY (12) AAB/DSL. 40. SU. Admission to Clinical Residency. Supervised on-the-job experience in a school or other appropriate setting abroad with regularly scheduled discussions with supervising faculty provide evaluation and analysis of the intern. May count either CTMU 4920 or CTMU 4923.

CTMU 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Individual readings program. Course may be repeated for a maximum of 3 credit hours.

CTMU 4970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) LEC. Departmental approval. Cooperatively selected concepts and theories pursued, normally in small groups. Course may be repeated for a maximum of 6 credit hours.

CTMU 4997 HONORS THESIS (1-3) IND. Pr. Honors College. The student's thesis is finalized in this course. Course may be repeated for a maximum of 3 credit hours.

CTMU 5110 CHILDREN'S MUSIC LEARNING (4) LEC. 3. LAB. 3. Musical development and learning, birth-childhood. Curriculum, methods, and assessment for community and school children's music. Clear background check required. May count either CTMU 5110 or CTMU 6110.

CTMU 5120 SCHOOL AND COMMUNITY GENERAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, adolescence-adulthood. Curriculum, methods, and assessment for community and school general music. Clear background check required. May count either CTMU 5120 or CTMU 6120.

CTMU 5130 SCHOOL AND COMMUNITY INSTRUMENTAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, instrumentalists. Curriculum, methods, and assessment for community and school instrumental music. Clear background check required. May count either CTMU 5130 or CTMU 6130.

CTMU 5140 SCHOOL AND COMMUNITY VOCAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Admission to Teacher Education. Musical development and learning of vocalists. Curriculum, methods, and assessment for community and school vocal music. Clear background check required. May count either CTMU 5140 or CTMU 6140.

CTMU 6110 CHILDREN'S MUSIC LEARNING (4) LEC. 3. LAB. 3. Musical development and learning, birth-childhood. Curriculum, methods, and assessment for community and school children's music. Clear background check required. May count either CTMU 5110, CTMU 6110 or CTMU 6116.

CTMU 6120 SCHOOL AND COMMUNITY GENERAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, adolescence-adulthood. Curriculum, methods, and assessment for community and school general music. Clear background check required. May count either CTMU 5120 or CTMU 6120/CTMU 6126.

CTMU 6130 SCHOOL AND COMMUNITY INSTRUMENTAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, instrumentalists. Curriculum, methods, and assessment for community and school instrumental music. Clear background check required. May count either CTMU 5130, CTMU 6130 or CTMU 6136.

CTMU 6140 SCHOOL AND COMMUNITY VOCAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning of vocalists. Curriculum, methods, and assessment for community and school vocal music. Clear background check required. May count either CTMU 5140, CTMU 6140 or CTMU 6146.

CTMU 6940 ELEMENTARY/MIDDLE SCHOOL MUSIC METHODS (3) LEC. 3. Methodology, materials, organization and activities for elementary and middle school music programs. Includes professional field experiences in public school music programs. Admission to Alternative Master's Certification Program.

CTMU 6960 SECONDARY MUSIC METHODS (3) LEC. 3. Methodology, materials, organization and activities for secondary music programs. Includes professional field experiences in public school music programs. Admission to Alternative Master's Certification Program

CTMU 7000 SCHOOL AND COMMUNITY MUSIC (1) LEC. 1. Developing skills, disposition, community, and research planning for graduate students in school and community music. May count either CTMU 7000 or CTMU 7006. Course may be repeated for a maximum of 2 credit hours.

CTMU 7510 RESEARCH STUDIES IN MUSIC EDUCATION (3) RES. 3. Review, analysis and interpretation of available research with emphasis on designing new research to meet the changing needs of school musicians. May count either CTMU 7510 or CTMU 7516.

CTMU 7520 CURRICULUM AND TEACHING IN MUSIC EDUCATION (3) LEC. 3. Teaching practices and evaluation of experiences and content for curriculum improvements. Students develop recommendations for music curriculum. May count either CTMU 7520 or CTMU 7526.

CTMU 7530 ORGANIZATION OF PROGRAM IN MUSIC EDUCATION (3) LEC. 3. Program, organization and development of basic and supplementary materials for guiding teachers, facilities and school systems in continuous improvement of curriculum and teaching practices in music education. May count either CTMU 7530 or CTMU 7536.

CTMU 7540 EVALUATION OF PROGRAM IN MUSIC EDUCATION (3) LEC. 3. Evaluation and investigation of teaching effectiveness including the utilization of human and material resources and the coordination of areas of specialization and issues in evaluation which are unique to music education settings. May count either CTMU 7540 or CTMU 7546.

CTMU 7550 APPLICATIONS OF TECHNOLOGY IN MUSIC EDUCATION (3) LEC. 3. An overview of applications of current technology in music classroom, studios, and offices. May count either CTMU 7550 or CTMU 7556.

CTMU 7560 DIGITAL MEDIA PRODUCTION FOR MUSIC EDUCATION (3) LEC. 3. Current tools, skills, and concepts for creating aural and visual interactive applications. May count either CTMU 7560 or CTMU 7566.

CTMU 7570 MUSIC INSTRUCTION MULTIMEDIA RESEARCH AND DEVELOPMENT (3) LEC. 3. Pr. CTMU 7550 or CTMU 7556. Departmental approval. Current research music instructional technology, design of interactive applications.

CTMU 7580 PSYCHOLOGY OF MUSIC (3) LEC. 3. This course will focus on exploring the musical experience psychological, psycho-acoustic, emotional, anthropological, sociological, and assistance perspectives to better understand how philosophical and practical approaches work in music teaching, learning, and in community settings. May count either CTMU 7580 or CTMU 7586.

CTMU 7590 WEB DESIGN AND MEDIA FOR MUSIC EDUCATORS (3) LEC. 3. Exploration and creation of media for music-focused curriculum and curriulcum support focused on competent implementation and delivery via web sites and web-based platforms.

CTMU 7900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent study directed toward desired objectives related to student's respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTMU 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DMU/PRA. SU. Departmental approval. Experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTMU 7970 SPECIAL TOPICS (1-9) DMU. Departmental approval. Provides an opportunity for graduate students and professors to pursue cooperatively selected topics. Course may be repeated for a maximum of 9 credit hours.

CTMU 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

CTMU 8950 SEMINAR (1-3) DMU. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTMU 8980 FIELD PROJECT (1-6) DMU. SU. Course may be repeated for a maximum of 6 credit hours.

CTMU 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with change in topics.

Physical Education Courses

PHED 1000 ACTIVE AUBURN (2) LEC. 2. Basic concepts associated with physical activity and the opportunities on campus to engage in health-promoting and wellness activities. Course may be repeated for a maximum of 4 credit hours.

PHED 1200 CARDIO RESPIRATORY: FITNESS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning. Activities may include, but are not limited to running (jogging) swimming, cycling and aerobic dance. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1210 CARDIO RESPIRATORY: AEROBIC DANCE (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in aerobic dance.

PHED 1220 CARDIO RESPIRATORY: CIRCUIT TRAINING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in circuit training.

PHED 1230 CARDIO RESPIRATORY: JOGGING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in jogging.

PHED 1240 CARDIO RESPIRATORY: SWIM FOR FITNESS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in swim for fitness.

PHED 1250 CARDIO RESPIRATORY: WATER AEROBICS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in water aerobics.

PHED 1260 MILITARY FITNESS FOR EVERYONE (2) LEC. 2. Basics of military-type physical activity training, goal-setting, and fitness principles.

PHED 1300 FITNESS AND CONDITIONING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness. Activities may include, but are not limited to calisthenics and weight training. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1310 FITNESS: BODYBUILDING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in bodybuilding.

PHED 1320 FITNESS: LIFETIME ACTIVITY (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in lifetime activity.

PHED 1330 FITNESS: WEIGHT CONTROL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in weight control.

PHED 1340 FITNESS: WEIGHT TRAINING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in weight training.

PHED 1350 FITNESS WEIGHT TRAINING WOMEN (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness for weight training for women.

PHED 1360 FITNESS: WEIGHT TRAINING II (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in weight training II.

PHED 1380 KETTLEBELL TRAINING (2) LEC. 1. LAB. 1. Introductory approach to kettlebell techniques and kettlebell program development.

PHED 1390 WEIGHT MANAGEMENT (2) LAB. 2. Nutrition and exercise concepts associated with maintaining healthy weight.

PHED 1400 TEAM SPORTS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport. Team sports may include, but are not limited to, volleyball, basketball and softball. Course may be repeated with change in topic.

PHED 1410 TEAM SPORTS: BASKETBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1420 TEAM SPORTS: FLAG FOOTBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1430 TEAM SPORTS: SOCCER (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1440 TEAM SPORTS: SOFTBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1450 TEAM SPORTS: VOLLEYBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1500 INDIVIDUAL SPORTS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport. Sports may include, but are not limited to tennis, golf and racquetball. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1510 INDIVIDUAL SPORTS: BOWLING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1520 INDIVIDUAL SPORTS: GOLF (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1530 INDIVIDUAL SPORTS: GOLF II (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1550 INDIVIDUAL SPORTS: TENNIS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1600 PERFORMANCE ACTIVITIES (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity. Activities may include, but are not limited to, dance and gymnastics. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1610 PERFORM ACTIVITY - PILATES (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity.

PHED 1620 PERFORMANCE ACTIVITY: KARATE (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity. Course may be repeated for a maximum of 6 credit hours.

PHED 1630 PERFORMANCE ACTIVITY: TAE KWON DO (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity.

PHED 1640 PERFORMANCE ACTIVITY: YOGA (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity.

PHED 1700 AQUATICS: OTHER (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills. Activities may include, but are not limited to, swimming skills instruction, lifeguard training, and scuba diving. When appropriate, successful completion of the course will lead to Red Cross certification or certification by other agencies. Course may be repeated for a maximum of 4 credit hours.

PHED 1710 AQUATICS: WHITEWATER KAYAKING I (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1720 AQUATICS: WHITEWATER KAYAKING II (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1740 AQUATICS: LIFEGUARD TRAINING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1750 AQUATICS: BEGINNING SWIMMING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1760 AQUATICS: SCUBA (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1800 VARSITY SPORTS: STRENGTH AND CONDITION (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topic.

PHED 1810 VARSITY MEN'S SPORTS: FOOTBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1820 VARSITY MEN'S SPORTS: BASKETBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1830 VARSITY MEN'S SPORTS: TRACK (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1840 VARSITY MEN'S SPORTS: CROSS COUNTRY (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1850 VARSITY MEN'S SPORTS: SWIMMING AND DIVING (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1860 VARSITY MEN'S SPORTS: GOLF (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1870 VARSITY MEN'S SPORTS: TENNIS (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1880 VARSITY MEN'S SPORTS: BASEBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1900 VARSITY WOMEN'S SPORTS: SOCCER (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1910 VARSITY WOMEN'S SPORTS: GYMNASTICS (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1920 VARSITY WOMEN'S SPORTS: BASKETBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1930 VARSITY WOMEN'S SPORTS: TRACK (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1940 VARSITY WOMEN'S SPORTS: CROSS COUNTRY (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1950 VARSITY WOMEN'S SPORTS: SWIMMING AND DIVING (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1960 VARSITY WOMEN'S SPORTS: GOLF (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1970 VARSITY WOMEN'S SPORTS: TENNIS (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1980 VARSITY WOMEN'S SPORTS: SOFTBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1990 VARSITY WOMEN'S SPORTS: VOLLEYBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 2100 WHEELCHAIR SPORTS FOR EVERYONE (2) LEC. 2. LAB. 1. A physical education class which introduces students to various wheelchair sports.

PHED 2200 SELF DEFENSE FOR WOMEN (1) LEC. 1. The Rape Aggression Defense (RAD) System is a comprehensive program of realistic self-defense tactics and techniques for women that promotes awareness, prevention, risk reduction and risk avoidance with a progression to hands-on training and simulation exercises.

Reading Education Courses

CTRD 3000 FOUNDATIONS OF LANGUAGE AND LITERACY INSTRUCTION I (3) LEC. 3. LAB. 0, LEC. 0. Research-based theory and teaching strategies to meet the language and literacy needs of all children, especially those at risk of reading difficulties. Includes a practicum teaching experience.

CTRD 3001 PRACTICUM IN FOUND OF LANG LITERACY INSTRUCTION I (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTRD 3000. Admission to Teacher Education. This course is designed to provide 15 clock hours of teaching and experiences in Literacy Instruction in K-3 It is an intensive, interactive experience at a strategically selected school site.

CTRD 3010 FOUNDATIONS OF LANGUAGE AND LITERACY INSTRUCTION II (3) LEC. 3. LAB. 0, LEC. 0. Provides a scientifically based reading research foundation essential for understanding student reading development and informing explicit, systematic instruction in the core aspects of reading. Topics include understanding reading research, cognitive processes involved in reading, language development, and effective reading instruction and assessment for students in PK-6. Additionally, the course emphasizes the theoretical foundations of literacy development in children and its implications for teaching. Includes a practicum teaching experience.

CTRD 3011 PRACTICUM IN FOUND OF LANG LITERACY INSTRUCTION II (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTRD 3010. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Language and Literacy Instruction II in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTRD 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent reading, research, or other work focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTRD 5000 LANGUAGE AND LITERACY IN THE CONTENT AREAS (3) LEC. 3. LAB. 0. Strategies to help fluent readers and English language learners learn content in the disciplines by strategic reading of texts. May count either CTRD 5000, CTRD 5003, CTRD 6000, or CTRD 6006.

CTRD 5030 THE READING OF ADOLESCENTS (3) LEC. 3. Admission to Teacher Education. Reading patterns of adolescents and uses of young adult literature in reading and English language arts programs, grades 6-12.

CTRD 5700 DEVELOPMENTAL READING K-12 (3) LEC. 3. Admission to Teacher Education. Theoretical and research foundations for a balanced approach to reading assessment and instruction, K-12. May count CTRD 5700, CTRD 6700, or CTRD 6706.

CTRD 6000 LANGUAGE AND LITERACY IN THE CONTENT AREAS (3) LEC. 3. Strategies to help fluent readers and English language learners learn content in the disciplines by strategic reading of texts. May count either CTRD 5000, CTRD 5003, CTRD 6000, or CTRD 6006.

CTRD 6030 THE READING OF ADOLESCENTS (3) LEC. 3. Reading patterns of adolescents and uses of young adult literature in reading and English language arts programs, grades 6-12.

CTRD 6700 DEVELOPMENTAL READING K-12 (3) LEC. 3. Theoretical and research foundations for a balanced approach to reading assessment and instruction, K-12. May count CTRD 5700, CTRD 6700, or CTRD 6706.

CTRD 6710 LITERACY AND INQUIRY IN THE CONTENT AREAS: GRADES 6-12 (3) LEC. 3. Strategies to enhance literacy and inquiry for students' content-area learning in the middle and secondary school. May count CTRD 5710, CTRD 6710, or CTRD 6716.

CTRD 7400 ASSESSMENT AND INSTRUCTION FOR READING INTERVENTION (3) LEC. 3. Research-based analysis of causal factors in reading difficulties, assessment strategies, and effective teaching with delayed readers. Includes practicum.

CTRD 7510 RESEARCH STUDIES IN READING EDUCATION (3) DSL/RES. 3. Review, analysis, and interpretation of available research with emphasis on designing new research to meet the changing needs of the school.

CTRD 7520 CURRICULUM AND TEACHING IN READING EDUCATION (3) LEC. 3. Teaching practices and reappraisal of selected experiences and content for curriculum improvement.

CTRD 7530 ORGANIZATION OF PROGRAM IN READING EDUCATION (3) LEC. 3. Program, organization, and development of basic and supplementary materials for guiding teachers, faculties, and school systems in the continuous improvement of curriculum and teaching practices.

CTRD 7540 EVALUATION OF PROGRAM IN READING EDUCATION (3) LEC. 3. Evaluation and investigation of teaching effectiveness with attention to the utilization of human and material resources and the coordination of areas of specialization.

CTRD 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study directed toward desired objectives related to respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTRD 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Departmental approval. Experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTRD 7920 CLINICAL RESIDENCY (1-9) DRD. SU. Supervised on-the-job experiences in a school, college or other appropriate setting, accompanied by regularly scheduled, on-campus discussion periods. Departmental approval. May count either CTRD 7920 or CTRD 7926. Course may be repeated for a maximum of 9 credit hours.

CTRD 7970 SPECIAL TOPICS (1-6) LEC. Departmental approval. Provides an opportunity for graduate students and professors to pursue cooperatively selected topics. Course may be repeated for a maximum of 6 credit hours.

CTRD 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topic.

CTRD 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTRD 8980 FIELD PROJECT (1-10) FLD. SU. Course may be repeated for a maximum of 10 credit hours.

CTRD 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with change in topics.

Rehabilitation Special Ed Courses

RSED 2000 DISABILITY AWARENESS AND MENTORSHIP (3) LEC. 3. LAB. 3. Overview of disabilities and strategies to address disparities in society through awareness, advocacy, and international PEER certified educator/mentorship. EAGLES counselors and WINGS peer mentor requirement.

RSED 3000 DIVERSITY AND EXCEPTIONALITY OF LEARNERS (3) LEC. 3. Exploration of philosophical, social, cultural, and legal factors, and individual characteristics shaping education for individuals with disabilities; and roles/responsibilities of educators in inclusive settings. May count either RSED 3000 or RSED 3003.

RSED 3010 INTRODUCTION TO SPECIAL EDUCATION (3) LEC. 3. Orientation to special education profession including history, philosophy, federal legislation, contemporary issues and national organizations. Only CMDS Majors may take this course. Departmental approval for all other majors.

RSED 3020 INTRODUCTION TO REHABILITATION (3) LEC. 3. Orientation to the profession including history, philosophy, federal legislation, contemporary issues and national organizations.

RSED 3110 ASSESSMENT: ELIGIBILITY FOR SPECIAL EDUCATION (3) LEC. 3. Selection, administration, scoring and interpretation of standardized aptitude and educational tests used in the field of special education. May count either RSED 3110 or RSED 3113.

RSED 3120 ASSESSMENT IN REHABILITATION (3) LEC. 3. Selection, administration, scoring and interpretation of work sample systems and standardized tests of intelligence, aptitude, achievement, interest, and dexterity used in the field of rehabilitation.

RSED 4010 BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION (3) LEC. 3. Skills to manage the behavior of special education students including behavioral assessment, selection criteria for appropriate intervention strategies and evaluation of intervention effectiveness.

RSED 4100 PROFESSIONAL COMMUNICATION IN REHABILITATION (3) LEC. 3. Theoretical and practical aspects of written and oral communication with rehabilitation and other professionals, clients, and family members.

RSED 4120 INDEPENDENT LIVING SERVICES IN REHABILITATION (3) LEC. 3. The history, legislation and philosophy of the independent living movement and its impact on the quality of life for people with severe disabilities.

RSED 4130 ETHICAL PRACTICES IN REHABILITATION (3) LEC. 3. Departmental approval. Ethical dilemmas that are routinely faced by practitioners in human service occupations.

RSED 4140 ASSESSMENT: PROGRAM PLANNING IN SPECIAL EDUCATION (3) LEC. 3. Pr. P/C RSED 4920 or P/C RSED 4923. A framework for understanding the purposes and processes that underlie various forms of educational assessments, with emphasis on application assessment of students with disabilities, and how to use assessment data to inform instructional planning and IEP goal development.

RSED 4900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Content focus of study area will be translated into specific objectives with student learning guided by the instructor. Emphasis on exceptional learners. Course may be repeated for a maximum of 3 credit hours.

RSED 4910 PRACTICUM (1-6) DSL. SU. Departmental approval. Practice in educational or community service setting aligned with degree program option. Course may be repeated for a maximum of 6 credit hours.

RSED 4911 PRACTICUM ELEMENTARY I LITERACY & NUMERACY (1-3) LEC. 2. LAB. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4920 CLINICAL RESIDENCY (9) AAB. 9. SU. Comprehensive supervised on-the job experience in a school, college or community-based setting serving individuals with disabilities. Departmental approval or admission to internship.

RSED 4931 PRACTICUM ELEMENTARY II LITERACY & NUMERACY (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4941 PRACTICUM SECONDARY I (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4951 PRACTICUM PRE-K – SECONDARY II (1-3) LEC. 2. LAB. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4970 SPECIAL TOPICS (1-3) DR4/ST1. Seminar in which upper-level students and professors engage in critical thinking regarding selected concepts, theories, research, and issues germane to the field of disabilities. Course may be repeated for a maximum of 9 credit hours.

RSED 5000 ADVANCED SURVEY OF EXCEPTIONALITY (3) LEC. 3. This course is an advanced study of exceptionality with emphasis upon the educational implications of disability and current issues in special education and rehabilitation. May count RSED 5000, RSED 6000, or RSED 6006.

RSED 5010 MEDICAL ASPECTS OF DISABILITY (3) LEC. 3. Medical terminology, basic body systems, common malfunctions, therapeutic services, restorative techniques, and disability evaluation for different disability groups and the vocational implications of each. May count RSED 5010, RSED 5013, RSED 6010, or RSED 6016.

RSED 5020 PSYCHOSOCIAL ASPECTS OF DISABILITY (3) LEC. 3. Theoretical constructs and practical issues for various types of physical, mental, psychiatric, and social disabilities with implications for personal, vocational, social and community adjustment. May count RSED 5020, RSED 5023, RSED 6020, or RSED 6026.

RSED 5070 MILD DISABILITIES (3) LEC. 3. The purpose of this course is to present the major concepts and issues related to mild disabilities. A variety of topics, ranging from the historical developments in the field to proposed teaching procedures for students, will be discussed. In-depth analysis of selected topics will be accomplished with student presentations and assignments. May count either RSED 5070 or RSED 6070.

RSED 5100 INFANTS AND TODDLERS WITH DISABILITIES (3) LEC. 3. Pr. RSED 3010. Historical, legislative, and philosophical basis of early intervention for young children, birth through age two, with special needs and their families. May count RSED 5100, RSED 6100, or RSED 6106.

RSED 5110 CURRICULUM IN EARLY CHILDHOOD SPECIAL EDUCATION: LITERACY AND DEVELOPMENTAL DOMAINS (3) LEC. 3. Procedures for developing, implementing, and monitoring individualized educational programs in natural settings. Admission to Teacher Education. May count RSED 5110, RSED 6110, or RSED 6116.

RSED 5120 CURRICULUM IN ELEMENTARY: LITERACY AND MATHEMATICS IN SPECIAL EDUCATION (3) LEC. 3. Pr. RSED 3010. Admission to Teacher Education. Functional/developmental approach to the selection, development, implementation, and evaluation of curriculum activities for the collaborative instruction of elementary children with disabilities. May count RSED 5120, RSED 6120, or RSED 6126.

RSED 5130 CURRICULUM IN LITERACY FOR STUDENTS WITH DISABILITIES (3) LEC. This course is designed to provide students with the understanding of language development, development of early literacy, and screening for early literacy deficits. This class will introduce language systems (orthography, phonetics, phonology, morphology, syntax, and semantics) and their role in the development of literacy. The course will provide opportunities for implementation of assessment and explicit system instruction in oral language, phonemic awareness, letter/sound correspondence, and basic reading. May count RSED 5130 or RSED 6130.

RSED 5140 CURRICULUM IN SEVERE DISABILITIES (3) LEC. 3. Pr. RSED 3010. Understanding a functional/developmental approach to selecting, developing, implementing, and evaluating appropriate curriculum activities for instructing students with severe disabilities. May count RSED 5140, RSED 6140, or RSED 6146.

RSED 5150 LITERACY METHODS IN SPECIAL EDUCATION (3) LEC. 3. Instructional strategies in reading for students with disabilities. May count RSED 5150 or RSED 6150.

RSED 5160 FRAMEWORK FOR COLLABORATION IN K-12 (3) LEC. 3. Admission to Teacher Education. Collaborative teaching, consultation, and teaming as a critical best practice in serving students with disabilities. May count RSED 5160, RSED 5163, RSED 6160, or RSED 6166.

RSED 5170 TRANSITION AND SECONDARY METHODS (3) LEC. 3. History, philosophy, models, and definitions of transition with emphasis on best practices, secondary methods, programs, and services. May count RSED 5170 or RSED 6170.

RSED 5180 LITERACY AND INSTRUCTIONAL CLASSROOM MANAGEMENT (3) LEC. 3. This course is designed to provide students with the understanding of literacy development and the practical application and management of interventions to support written language, vocabulary, and reading comprehension. The focus of this class will be to discuss proactive approaches to supporting students' literacy development. Students will be introduced to applied and research readings related to instructional management. These research findings will be integrated into discussions on the practical aspects of developing effective programs. After completing this class, students will be able to design and implement effective literacy and instructional strategies. May count RSED 5180 or RSED 6180.

RSED 5190 FUNCTIONAL CURRICULUM AND TRANSITION (3) LEC. 3. This course prepares teachers to support students who follow an alternative curriculum in elementary and secondary settings. This includes teaching functional skills, community-based instruction and supports for transition to post-secondary settings. May count either RSED 5190 or RSED 6190.

RSED 5200 VOCATIONAL EVALUATION IN REHABILITATION (3) LEC. 3. Vocational evaluation and work adjustment techniques and strategies used within the rehabilitation process. May count RSED 5200, RSED 5203, RSED 6200, or RSED 6206.

RSED 5210 OCCUPATIONAL INFORMATION (3) LEC. 3. Identification, location, and use of data resources for job accommodation and modification strategies, labor market surveys, and job placement of persons with disabilities. May count RSED 5210, RSED 6210, or RSED 6216.

RSED 5220 PLACEMENT SERVICES IN REHABILITATION (3) LEC. 3. Theories, strategies, and techniques for job development, accommodation, modification, and placement of people with disabilities with application skills needed to facilitate employment. May count RSED 5220, RSED 5223, RSED 6220, or RSED 6226.

RSED 5230 REHABILITATION ASSISTIVE TECHNOLOGY (3) LEC. 3. Basic computer literacy; use of commercially available software, and assistive technology for use by persons with disabilities. May count RSED 5230, RSED 6230, or RSED 6236.

RSED 5300 TRANSITION AND EMERGING ADULTHOOD IN REHABILITATION SERVICES (3) LEC. 3. This course is an introduction to the transition process of youth with disabilities from school to adulthood and employment with an emphasis on the developmental stages of emerging adulthood and the services surrounding this specialized area for rehabilitation professionals.

RSED 5330 ASSESSMENT FOR ELIGIBILITY (3) LEC. 3. This course provides students with a framework for understanding the purposes and processes that underlie various forms of educational assessments, with emphasis on standardized assessments for evaluating students with disabilities. This course will include assessment processes for eligibility for each category of special education eligibility. The course provides opportunities for application of concepts in assessment in special education as well as administration, review, and interpretation of standardized assessment data. The course covers historical, ethical, practical, and theoretical perspectives on identifying disabilities and planning individualized instructional programs for students with special needs. May receive credit for RSED 5330 or RSED 6330.

RSED 5340 FOUNDATIONS OF SUBSTANCE USE COUNSELING (3) LEC. 3. Provides knowledge of the nature of substance abuse, drug classification, models of addiction, assessment and diagnosis, treatment, and related issues. May count RSED 5340, RSED 6340, or RSED 6346.

RSED 5420 SPECIALIZED CURRICULUM IN MATHEMATICS (3) LEC. 3. This course will provide learners with understanding of a functional/developmental approach to the selection, development, implementation, and evaluation of appropriate mathematics curriculum and activities for the instruction of students with high incidence disabilities in grades 3-5. Content includes extensive exploration of various curricular theories focusing on individual and group approaches in mathematics concepts. May count for RSED 5420 or RSED 6420.

RSED 6000 ADVANCED SURVEY OF EXCEPTIONALITY (3) LEC. 3. This course is an advanced study of exceptionality with emphasis upon the educational implications of disability and current issues in special education and rehabilitation. May count RSED 5000, RSED 6000, or RSED 6006.

RSED 6010 MEDICAL VOC & PSYCHOSOCIAL ASPECTS OF DISABILITY (3) LEC. 3. An introduction to medical terminology, body systems, common physical and cognitive conditions therapeutic/restorative services, and psychosocial & vocational considerations of various disabilities. May count RSED 6010 or RSED 6016.

RSED 6040 LEARNING DISABILITIES (3) LEC. 3. Historical perspective, theoretical concepts, etiology, diagnosis, definition, and classification of individuals with learning disabilities. Educational and rehabilitative approaches and contemporary issues are emphasized. May count RSED 5040, RSED 6040, or RSED 6046.

RSED 6100 INFANTS AND TODDLERS WITH DISABILITIES (3) LEC. 3. Historical, legislative, and philosophical basis of early intervention for young children, birth through age two, with special needs and their families. May count RSED 5100, RSED 6100, or RSED 6106.

RSED 6110 CURRICULUM IN EARLY CHILDHOOD SPECIAL EDUCATION: LITERACY AND DEVELOPMENTAL DOMAINS (3) LEC. 3. Procedures for developing, implementing, and monitoring individualized educational programs in natural settings. May count RSED 5110, RSED 6110, or RSED 6116.

RSED 6120 CURRICULUM IN ELEMENTARY: LITERACY AND MATHEMATICS IN SPECIAL EDUCATION (3) LEC. 3. Functional/developmental approach to the selection, development, implementation, and evaluation of curriculum for the collaborative instruction of elementary children with disabilities. May count RSED 5120, RSED 6120, or RSED 6126.

RSED 6130 CURRICULUM IN LITERACY FOR STUDENTS WITH DISABILITIES (3) LEC. 3. This course is designed to provide students with the understanding of language development, development of early literacy, and screening for early literacy deficits. This class will introduce language systems (orthography, phonetics, phonology, morphology, syntax, and semantics) and their role in the development of literacy. The course will provide opportunities for implementation of assessment and explicit system instruction in oral language, phonemic awareness, letter/sound correspondence, and basic reading. May count RSED 5130 or RSED 6130.

RSED 6140 CURRICULUM IN SEVERE DISABILITIES (3) LEC. 3. Understanding a functional/developmental approach to selecting, developing, implementing, and evaluating appropriate curriculum activities for instructing students with severe disabilities. May count RSED 5140, RSED 6140, or RSED 6146.

RSED 6150 LITERACY METHODS IN SPECIAL EDUCATION (3) LEC. 3. Instructional strategies in reading for students who have disabilities. May count RSED 5150 or RSED 6150.

RSED 6160 FRAMEWORK FOR COLLABORATION IN K-12 (3) LEC. 3. Collaborative teaching, consultation, and teaming as a critical best practice in serving students with disabilities. May count RSED 5160, RSED 5163, RSED 6160, or RSED 6166.

RSED 6170 TRANSITION AND SECONDARY METHODS (3) LEC. 3. History, philosophy, models, and definitions of transition with emphasis on best practices, secondary methods, programs, and services. May count RSED 5170 or RSED 6170.

RSED 6180 LITERACY AND INSTRUCTIONAL CLASSROOM MANAGEMENT (3) LEC. 3. This course is designed to provide students with the understanding of literacy development and the practical application and management of interventions to support written language, vocabulary, and reading comprehension. The focus of this class will be to discuss proactive approaches to supporting children's literacy development. Students will be introduced to applied and research readings related to instructional management. These research findings will be integrated into discussions on the practical aspects of developing effective programs. After completing this class, students will be able to design and implement effective literacy and instructional strategies. May count RSED 5180, RSED 6180.

RSED 6190 FUNCTIONAL CURRICULUM AND TRANSITION (3) LEC. 3. This course prepares teachers to support students who follow an alternative curriculum in elementary and secondary settings. This includes teaching functional skills, community-based instruction and supports for transition to post-secondary settings. May count either as RSED 5190 or RSED 6190.

RSED 6220 PLACEMENT SERVICES IN REHABILITATION (3) LEC. 3. The course is designed to familiarize students with career theory and methods used by rehabilitation practitioners to analyze and apply vocational techniques to place individuals with disabilities. May count RSED 6220 or RSED 6226.

RSED 6230 REHABILITATION ASSISTIVE TECHNOLOGY (3) LEC. 3. Basic computer literacy; use of commercially available software, and assistive technology for use by persons with disabilities. May count RSED 5230, RSED 6230, or RSED 6236.

RSED 6330 ASSESSMENT FOR ELIGIBILITY (3) LEC. 3. This course provides students with a framework for understanding the purposes and processes that underlie various forms of educational assessments, with emphasis on standardized assessments for evaluating students with disabilities. This course will include assessment processes for eligibility for each category of special education eligibility. The course provides opportunities for application of concepts in assessment in special education as well as administration, review, and interpretation of standardized assessment data. The course covers historical, ethical, practical, and theoretical perspectives on identifying disabilities and planning individualized instructional programs for students with special needs. May receive credit for RSED 5330 or RSED 6330.

RSED 6340 FOUNDATIONS OF SUBSTANCE USE COUNSELING (3) LEC. 3. Provides knowledge of the nature of substance abuse, drug classification, models of addiction, assessment and diagnosis, treatment, and related issues. May count RSED 5340, RSED 6340, or RSED 6346.

RSED 6420 SPECIALIZED CURRICULUM IN MATHEMATICS (3) LEC. 3. This course will provide learners with understanding of a functional/developmental approach to the selection, development, implementation, and evaluation of appropriate mathematics curriculum and activities for the instruction of students with high incidence disabilities in grades 3-5. Content includes extensive exploration of various curricular theories focusing on individual and group approaches in mathematics concepts. May count for RSED 5420 or RSED 6420.

RSED 7010 REHABILITATION PROFESSIONS, PROGRAMS AND ETHICS (3) LEC. 3. This course exposes students to the ethics, history and development of the rehabilitation counseling movement inclusive of its legal base, philosophies, concepts, and current socio-political trends. May count either RSED 7010 or RSED 7016.

RSED 7110 ADVANCED ASSESSMENT AND INTERVENTION EARLY CHILDHOOD SPECIAL EDUCATION (3) LEC. 3. Assessment and intervention strategies for special needs children, pre-k through 3rd grade. Departmental approval. May count either RSED 7110 or RSED 7116.

RSED 7120 ADVANCED ASSESSMENT IN SPECIAL EDUCATION (3) LEC. 3. Advanced study of educational tests and procedures for diagnosing special training problems. Departmental approval. May count either RSED 7120 or RSED 7126.

RSED 7130 ADVANCED ASSESSMENT I IN REHABILITATION (3) LEC. 3. Principles, process and techniques used to diagnose vocationally-related assets and liabilities of the individual with disabilities. May count either RSED 7130 or RSED 7136.

RSED 7150 MULTICULTURAL ASPECTS OF DISABILITIES (3) LEC. 3. Study of three main areas relevant to multicultural competencies and standards for rehabilitation professionals: (a) acquisition of communication skills; (b) attitudes towards ethnic minorities, and (c) knowledge about minority populations. May count either RSED 7150 or RSED 7156.

RSED 7200 ADVANCED INTERVENTION WITH INFANTS AND TODDLERS WITH DISABILITIES (3) LEC. 3. Pr. RSED 7100 or RSED 7106. Administration and on-going management of early intervention programs and service coordination of individualized family service plans and family support. Departmental approval. May count either RSED 7200 or RSED 7206.

RSED 7210 ADVANCED INTERVENTION IN EARLY CHILDHOOD SPECIAL EDUCATION (3) LEC. 3. Pr. RSED 7110 or RSED 7116. Curriculum methods, intervention plans, intervention methods, physical and medical management, environmental and behavioral management, and evaluation of child and family outcomes. Departmental approval. May count either RSED 7210 or RSED 7216.

RSED 7220 ADVANCED TEACHING METHODS IN SPECIAL EDUCATION (3) LEC. 3. This course presents principles and procedures associated with content enhancement, strategy instruction and universal design for learning. This course will emphasize research-supported strategies for individuals with high incidence disabilities. Students will engage in hands-on experiences and practice implementing instructional interventions appropriate for students with disabilities who participate in the general education curriculum.

RSED 7230 ADVANCED BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION (3) LEC. 3. Provides skills necessary to direct academic and social performance and appropriately manage the behavior of students with special needs. Departmental approval. May count either RSED 7230 or RSED 7236.

RSED 7240 SENINAR IN REHABILITATION RESEARCH AND DESIGN (3) LEC. 3. Research in rehabilitation counseling, with focus on acquisition of knowledge about traditional and recent developments in research methods, and skill application. May count either RSED 7240 or RSED 7246.

RSED 7310 PROPRIETARY REHABILITATION (3) LEC. 3. Vocational rehabilitation in private sector including case management and expert witness for workers compensation, personal injury litigation, and social security.

RSED 7320 INDIVIDUAL COUNSELING APPROACHES IN REHABILITATION COUNSELING (3) LEC. 3. Survey of theoretical approaches involved in individual counseling with an emphasis on persons with disabilities using an eclectic point of view and psycho-educational approach. May count either RSED 7320 or RSED 7326.

RSED 7400 CURRICULUM AND TEACHING IN SPECIALIZATION (3) LEC. 3. Curriculum design, content, and materials selection related to teaching practices in areas of specialization (intellectual disability, learning disabilities, behavioral disorders, etc.). RSED 7400 and RSED 7406 may be repeated for a maximum combined total of 6 credit hours.

RSED 7410 PROGRAM IMPLEMENTATION IN SPECIALIZATION AUTISM (3) LEC. 3. This course presents principles and procedures for implementing educational programs for children and youth with autism spectrum disorders. Students will apply their knowledge of evidence-based practices for children and youth with ASD by planning and implementing accommodations, instructional methods, and behavioral supports.

RSED 7420 RESEARCH IN SPECIALIZATION (3) LEC. 3. Examination and interpretation of applied research in specialization area (intellectual disabilities, learning disabilities, behavioral disorders, etc.). Course may be repeated with a change in research area. May count either RSED 7420 or RSED 7426. Course may be repeated for a maximum of 6 credit hours.

RSED 7430 RESEARCH INTO PRACTICE (3) LEC. 3. Applied opportunities for translating instructional and behavioral research into practice. The course may be repeated with a change in research topic. Departmental approval. May count either RSED 7430 or RSED 7436. Course may be repeated for a maximum of 6 credit hours.

RSED 7440 SEMINAR IN SPECIALIZATION (3) DSL/SEM. 3. Departmental approval. Advanced students and professor(s) engage in critical thinking regarding selected concepts, theories, research and issues germane to the field of disabilities. Course may be repeated with change in topics.

RSED 7460 POSITIVE BEHAVIOR SUPPORTS (3) LEC. 3. Evaluating and implementing Positive Behavior Interventions and Supports (PBIS) for students grades PK through 12 in traditional and alternative educational settings. May count either RSED 7460 or RSED 7466.

RSED 7470 LEADERSHIP IN SPECIAL EDUCATION (3) LEC. 3. The goal of competent teacher leadership in special education is to provide the supports necessary to ensure effective instruction for all students in a variety of contexts. This course is designed to develop the knowledge, skills, understanding, and attitudes necessary to support special education leadership across an educational service delivery continuum.

RSED 7480 PROGRAM IMPLEMENTATION BIRTH TO AGE 5 (3) LEC. 3. This course provides advanced understanding of a family and child centered practices which include the development, implementation, and evaluation of appropriate routine based and curriculum activities for children ages birth to age 6 with mild learning/behavior disabilities and their families. Content also includes extensive exploration of various curricular and development theories, transition, assistive technology, assessment, and program planning.

RSED 7511 PRACTICUM PRE-K TRADITIONAL (1-3) LEC. 14. LAB. 2. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7531 PRACTICUM TRADITIONAL ELEMENTARY I (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7541 PRACTICUM ELEMENTARY II TRADITIONAL (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Departmental approval required. Course may be repeated for a maximum of 3 credit hours.

RSED 7551 PRACTICUM (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Content focus of study area will be translated into specific objectives with advanced student learning guided by the instructor. The department's policy is to restrict independent study only for content not covered in RSED's course listing. Course may be repeated for a maximum of 3 credit hours.

RSED 7911 PRACTICUM ELEMENTARY I LITERACY & NUMERACY (1-3) LEC. 2. LAB. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7920 CLINICAL RESIDENCY (1-9) DSL. SU. Comprehensive supervised on-the-job experience in a school, college or community-based setting serving individuals with disabilities. Course may be repeated for a maximum of 12 credit hours.

RSED 7931 PRACTICUM ELEMENTARY II LITERACY & NUMERACY (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7940 ADVANCED THEORIES IN REHABILITATION COUNSELING (3) LEC. 3. Intensive study of advanced theories within rehabilitation counseling, as well as an examination of outcome research relating to the use and application of these theories and techniques. May count either RSED 7940 or RSED 7946.

RSED 7941 PRACTICUM SECONDARY I LITERACY & MATH (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7950 EMERGING ADULTHOOD AND TRANSITION IN REHABILITATION (3) LEC. 3. Introduction to the transition process of youth with disabilities from school to adulthood and employment with emphasis on the developmental stage emerging adulthood. May count either RSED 7950 or RSED 7956.

RSED 7951 PRACTICUM PRE-K – SECONDARY II (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7980 NON-THESIS PROJECT (1-3) DSL. SU. Course may be repeated for a maximum of 10 credit hours.

RSED 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. The content focus of the study area will be translated into specific objectives with the student learning toward that end, guided by the instructor. In addition to regular meetings with the instructor, the student will be evaluated and graded according to learning performance. The department's policy is to restrict independent study only for content not covered in RSED's course listing. Course may be repeated for a maximum of 10 credit hours.

RSED 8010 DISABILITIES AND RESEARCH METHODS (3) LEC. 3. Departmental approval. History, principles, and methodology of single subject research with emphasis on the various types of research designs applied in rehabilitation and special education.

RSED 8020 DISABILITIES AND APPLIED RESEARCH IN MEASUREMENT (3) LEC. 3. Departmental approval. Classical measurement theory, individual differences determination, constructs related to diagnostic labels, measurement bias and fairness, nature-nurture controversy, and clinical versus statistical inference.

RSED 8030 DISABILITIES AND PROFESSIONAL ISSUES (3) LEC. 3. Critical and contemporary issues regarding disability and its relationship to the leadership roles of professionals in special education and rehabilitation. May count either RSED 8030 or RSED 8036.

RSED 8040 DISABILITIES AND ASSISTIVE TECHNOLOGY (3) LEC. 3. Departmental approval. Adaptive technology for use by persons with disabilities and proficiency in the use of computers and the World Wide Web as they relate to disabilities.

RSED 8050 DISABILITIES AND THE LAW (3) LEC. 3. Departmental approval. Development of rehabilitation and special education laws from a historical, policy, leadership, and advocacy. perspective.

RSED 8060 DISABILITIES AND LIFE SPAN TRANSITIONS (3) LEC. 3. Departmental approval. Advanced study of historical, legal, legislative, philosophical, and service delivery issues and trends with emphasis on research studies and programs.

RSED 8070 PROFESSIONAL SEMINAR (3) LEC. 3. SU. Departmental approval. A series of doctoral seminars devoted to professional technical writing, grant writing, management, and research. Course may be repeated with change in topics.

RSED 8230 EXAMINING DISABILITY DATABASES (3) LEC. 3. Conducting descriptive and correlational research by using existing publicly available databases in the field of disabilities.

RSED 8900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Content focus of study area will be translated into specific objectives with student learning guided by the instructor. Course may be repeated with change in topics.

RSED 8950 SEMINAR (1-3) DSL/SEM. Departmental approval. Provides an opportunity for advanced graduate students and professors to pursue cooperatively selected concepts and theoretical formulations. Course may be repeated for a maximum of 9 credit hours.

RSED 8980 NON-THESIS PROJECT (1-10) DSL/IND. SU. Departmental approval. May be repeated with change in topic. Provides an opportunity for advanced graduate students to pursue a project of interest. Course may be repeated with change in topics.

RSED 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated. Course may be repeated with change in topics.

Secondary Education Courses

CTSE 1000 INQUIRY APPROACHES TO SCIENCE TEACHING: STEP 1 (1) LEC. 1. LAB. 2. This course allows students to explore teaching as a career. Following an introduction to the theory and practice behind excellent inquiry-based science instruction, candidates teach lessons in elementary classrooms to obtain firsthand experience in planning and implementation. An elementary school placement is chosen to help the AUTeach student connect with youth who are moving into the targeted grade band. Master teachers in AUTeach are instructors and are chosen for their experience and success in secondary classrooms. They provide candidates direct exposure to people who love teaching and view it as a rewarding career choice. Mentor teachers at the schools where candidates teach their prepared lessons demonstrate effective teaching techniques and classroom management skills, giving the future teachers a true taste of working in a supportive, diverse educational setting. The course emphasizes using the 5E Learning Cycle instructional model.

CTSE 2000 INQUIRY APPROACHES TO SCIENCE TEACHING: STEP 2 (1) LEC. 1. LAB. 2. This course allows students to continue developing the lesson planning and teaching skills explored in CTSE 1000 (Step 1). After observing a lesson being taught in a local school district classroom, students (in pairs) plan and teach two inquiry-based lessons to sixth, seventh, or eighth graders. Middle school science classrooms are selected both for the diversity of the student body and the quality of the classroom teachers, who serve as mentors for the Step 2 students assigned to them. For their final product, Step 2 students analyze and modify one of the lessons they taught, taking into account the results of the assessments, their reflection on how successful the lesson was, and feedback from observers (Mentor Teacher, Instructor, or Teaching Assistant). By the end of Step 2, students are usually able to make a decision about whether to pursue teacher certification through the AUTeach program. In addition to the unique Core Components and Course Objectives listed below, all AUTeach courses are designed in accordance with the AUTeach Course Design Principles. The course emphasizes using the 5E Learning Cycle instructional model.

CTSE 2500 INQUIRY APPROACHES TO SCIENCE TEACHING: COMBINED STEP 1 AND 2 (2) LEC. 2. LAB. 4. This course allows students to explore teaching as a career, learn the theory and practice behind excellent inquiry-based science instruction, and teach lessons in elementary and middle school classrooms in order to plan and implement lessons. This course replaces CTSE 1000 and CTSE 2000. It's a combined course. After observing lessons being taught in local school districts, students work in pairs to plan and teach two lessons in elementary classrooms, and two inquiry-based lessons to sixth, seventh, or eighth graders. Elementary and middle school science classrooms are selected both for the diversity of the student body and the quality of the classroom teachers, who serve as mentors for the students assigned to them. For their final product, Step 1/2 students analyze and modify one of the lessons they taught, taking into account the results of the assessments, their reflection on how successful the lesson was, and feedback from observers (Mentor Teacher, Instructor, or Teaching Assistant). By the end of this class, students are usually able to make a decision about whether to pursue teacher certification through the AUTeach program.

CTSE 4050 CURRICULUM AND TEACHING I: SOCIAL SCIENCE (4) LEC. 2. LAB. 4. Pr. CTSE 4210. Admission to Teacher Education. Application of current educational research and instructional strategies to the design of meaningful social studies instruction and assessment.

CTSE 4060 CURRICULUM AND TEACHING II: SOCIAL SCIENCE (4) LEC. 2. LAB. 4. Pr. CTSE 4050 and CTSE 4210. Admission to Teacher Education. Curriculum decision making and planning for instruction, evaluation, and classroom management.

CTSE 4070 CURRICULUM AND TEACHING I: FOREIGN LANGUAGE (4) LEC. 2. LAB. 4. Admission to Teacher Education. Strategies for teaching foreign language students with a special emphasis on developing good instruction for comprehensible input and emerging speech tasks. May count either CTSE 4070 or CTSE 4073.

CTSE 4080 CURRICULUM AND TEACHING II: FOREIGN LANGUAGE (4) LEC. 2. LAB. 4. Pr. CTSE 4070 or CTSE 4073. Admission to Teacher Education. Teaching strategies based on language acquisition theories that are appropriate for teaching foreign language students. May count either CTSE 4080 or CTSE 4083.

CTSE 4150 CURRICULUM AND TEACHING I: ENGLISH LANGUAGE ARTS (4) LEC. 2. LAB. 4. Pr. CTSE 5010 and CTSE 5020. Admission to Teacher Education. Teaching the expressive English language arts, writing and speaking, in middle and high school classrooms.

CTSE 4160 CURRICULUM AND TEACHING II: ENGLISH LANGUAGE ARTS (4) LEC. 2. LAB. 4. Pr. CTSE 4150. Admission to Teacher Education. Teaching the receptive English language arts; reading, listening, and viewing; in middle and high school classrooms. Admission to Teacher Education required.

CTSE 4210 SOCIAL SCIENCE CONCEPTS AND METHODS (3) LEC. 3. For pre-service teachers. Organizing social science disciplinary knowledge into an integrated framework that is meaningful, useful, and relevant to high school students. 15 hours in social sciences (2000 level or above).

CTSE 4900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent reading, research, or other work focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTSE 4910 PRACTICUM (1-6) DSL/PRA. SU. Departmental approval. Admission to Teacher Education. Cooperatively selected field experience. Course may be repeated for a maximum of 6 credit hours.

CTSE 4920 CLINICAL RESIDENCY (11) AAB/DSL. 40. SU. Pr. P/C CTSE 5210 or P/C CTSE 5213 or P/C CTSE 5220 or P/C CTSE 5223 or P/C CTSE 5230 or P/C CTSE 5233 or P/C CTSE 5240 or P/C CTSE 5243 or P/C CTSE 5250 or P/C CTSE 5253 or P/C CTSE 5410. Admission to Clinical Residency. Supervised teaching in a public secondary school abroad accompanied by scheduled discussions to analyze and evaluate the intern's experience. May count either CTSE 4920 or CTSE 4923.

CTSE 4930 AUTEACH CLINICAL RESIDENCY (8) DSL/FLD. 30. SU. Pr. P/C CTSE 5240 or P/C CTSE 5243. Departmental approval. Supervised science teaching in a public secondary school accompanied by scheduled discussions to analyze and evaluate the clinical resident's experience.

CTSE 4970 SPECIAL TOPICS (1-4) DSL. Departmental approval. Cooperatively selected concepts and theories pursued, normally in small groups. Course may be repeated for a maximum of 4 credit hours.

CTSE 5000 TECHNOLOGY IN SCIENCE EDUCATION (2) LEC. 2. Introduction and application of current and emerging instructional and communication technologies for integration in the secondary science program. May count either CTSE 5000, CTSE 5003, CTSE 6000 or CTSE 6006.

CTSE 5010 LANGUAGE STUDY FOR TEACHERS (3) LEC. 3. Theories of language development and language study applicable to middle and high school classrooms; implications for teaching grammar, usage, dialects, and semantics. Departmental approval. Junior standing. May count either CTSE 5010, CTSE 6010 or CTSE 6016.

CTSE 5020 RHETORIC AND COMPOSITION FOR TEACHERS (3) LEC. 3. Theories of rhetoric and composition applicable to middle and high school classrooms; implications for planning writing curricula, instruction, and assessment/evaluation. May count either CTSE 5020 or CTSE 6020.

CTSE 5030 TEACHING MATHEMATICS: HIGH SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Strategies for teaching and evaluating high school mathematics to promote the learning of all students.

CTSE 5031 PRACTICUM IN HIGH SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 5030. Admission to Teacher Education. This course is designed to provide 36 clock hours of teaching and experience in High School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTSE 5040 TECHNOLOGY AND APPLICATIONS IN SECONDARY MATHEMATICS EDUCATION (3) LEC. 3. LAB. 0, LEC/LLB. 0. Pr. MATH 2660. Admission to Teacher Education. Use of technological tools to enhance mathematics teaching and learning. May count either CTSE 5040 or CTSE 6040.

CTSE 5041 PRACTICUM IN SECONDARY MATHEMATICS TECHNOLOGY (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 5040. Admission to Teacher Education. This course is designed to provide 18 clock hours of teaching and experience in Secondary Mathematics Technology. It is an intensive, interactive experience at a strategically selected school site.

CTSE 5050 ANALYZING PERSISTENT ISSUES IN HISTORY AND GEOGRAPHY (3) LEC. 3. This course will engage students in inquiry-based and Persistent Issues in History units of content instruction with selected topics that integrate history and geography content and then deconstruct those units to examine the research-based learning and assessment principles that underlie their design.

CTSE 5060 ANALYZING PERSISTENT ISSUES IN POLITICAL ECONOMY (3) LEC. 3. This course integrates moral philosophy, political science, and economics into an exploration of persistent issues in political economy. Students will metacognitively analyze their own learning as they investigate and propose a policy solution to a political economy problem.

CTSE 5090 CURRICULUM AND TEACHING I: SCIENCE (4) LEC. 2. LAB. 4. Planning, teaching strategies, evaluation techniques and classroom management procedures needed to be a successful science teacher.

CTSE 5100 CURRICULUM AND TEACHING II: SCIENCE (4) LEC. 2. LAB. 4. Pr. CTSE 4090. Admission to Teacher Education. Higher-order reasoning and process skills using state and national standards as guides. Theoretical and applied approaches. May count either CTSE 5100 or CTSE 6100.

CTSE 5110 PERSPECTIVES IN SCIENCE (3) LEC. 3. Perspectives on Science is an overview and introduction to the scholarly field of science history with applications for embedding historical stories and discoveries into today's secondary science classrooms.

CTSE 5210 TEACHER INQUIRY WORKSHOP: PROBLEMS AND POSSIBILITIES (1) LEC. 1. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. Community of practice for English Language Arts clinical residents to support professional practice through teacher inquiry. May count either CTSE 5210, CTSE 5213, CTSE 6210, or CTSE 6216.

CTSE 5220 CLASS MANAGEMENT AND DISCIPLINE IN FOREIGN LANGUAGE CLASSROOM (1-2) AAB. Admission to Clinical Residency. Seminar for clinical residents on classroom management in Foreign Language Education. May count either CTSE 5220 or CTSE 6220. Course may be repeated for a maximum of 2 credit hours.

CTSE 5230 MANAGING MIDDLE AND HIGH SCHOOL CLASSROOM (MATH EDUCATION) (1) AAB/DSL. 15. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. The role of the teacher in mathematics classroom management. Methods for developing a positive learning environment. May count either CTSE 5230, CTSE 5233, CTSE 6230 or CTSE 6236.

CTSE 5240 CLINICAL RESIDENCY SEMINAR IN SCIENCE TEACHING (1) AAB/DSL. 15. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. Seminar for Science Education clinical residents in classroom management, professional development, diversity and equity issues, theory and practice. May count either CTSE 5240, CTSE 5243, CTSE 6240 or CTSE 6246.

CTSE 5250 SEMINAR IN SOCIAL SCIENCE EDUCATION (1) AAB. 15. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. Best practices for managing secondary social science classrooms and ethically resolving students discipline issues for a positive learning climate for all students. May count either CTSE 5250, CTSE 5253, CTSE 6250 or CTSE 6256.

CTSE 5830 STATISTICS AND PROBABILITY FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. STAT 2010 or STAT 3010. Admission to Teacher Education. Connections of college-level mathematics with the secondary mathematics curriculum, focusing on statistics and probability, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving.

CTSE 5840 NUMBER SYSTEMS AND ALGEBRA FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MATH 1620. Admission to Teacher Education. Connections of college-level mathematics with the secondary mathematics curriculum, focusing on number systems, algebra, and functions, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving.

CTSE 5850 FUNCTIONS AND MATHEMATICAL MODELING FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MATH 2630. Admission to Teacher Education. Connections of advanced college-level mathematics with the secondary mathematics curriculum, focusing on functions and mathematical modeling, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving.

CTSE 5860 GEOMETRY FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MATH 1610. Admission to Teacher Education. Connections of college-level mathematics with the secondary mathematics curriculum, focusing on geometry, to develop mathematical knowledge relevant to teaching. The contents include axiomatic development of geometry, transformational geometry, and similarity. Appropriate technology and mathematics problem solving skills will be introduced.

CTSE 6000 TECHNOLOGY IN SCIENCE EDUCATION (2) LEC. 2. Introduction and application of current and emerging instructional and communication technologies for integration in the secondary science program. May count either CTSE 5000, CTSE 5003, CTSE 6000 or CTSE 6006.

CTSE 6010 LANGUAGE STUDY FOR TEACHERS (3) LEC. 3. Theories of language development and language study applicable to middle and high school classrooms; implications for teaching grammar, usage, dialects, and semantics. Departmental approval. May count either CTSE 5010, CTSE 6010 or CTSE 6016.

CTSE 6020 RHETORIC AND COMPOSITION FOR TEACHERS (3) LEC. 3. Theories of rhetoric and composition applicable to middle and high school classrooms; implications for planning writing curricula, instruction, and assessment/evaluation. May count either CTSE 5020, CTSE 6020 or CTSE 6026.

CTSE 6030 TEACHING MATHEMATICS: HIGH SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Strategies for teaching and evaluating high school mathematics to promote the learning of all students.

CTSE 6031 PRACTICUM IN HIGH SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 6030. This course is designed to provide 36 clock hours of teaching and experience in High School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTSE 6040 TECHNOLOGY AND APPLICATIONS IN SECONDARY MATHEMATICS EDUCATION (3) LEC. 3. LAB. 0, LEC. 0. Use of technological tools to enhance mathematics teaching and learning. May count either CTSE 5040 or CTSE 6040.

CTSE 6041 PRACTICUM IN SECONDARY MATHEMATICS TECHNOLOGY (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 6040. This course is designed to provide 18 clock hours of teaching and experience in Secondary Mathematics Technology. It is an intensive, interactive experience at a strategically selected school site.

CTSE 6050 ANALYZING PERSISTENT ISSUES IN HISTORY AND GEOGRAPHY (3) LEC. 3. This course will engage students in inquiry-based and Persistent Issues of History units of content instruction with selected topics that integrate history and geography content and then deconstruct those units to examine the research-based learning and assessment principles that underlie their design.

CTSE 6060 ANALYZING PERSISTENT ISSUES IN POLITICAL ECONOMY (3) LEC. 3. This course integrates moral philosophy, political science, and economics into an exploration of persistent issues in political economy. Students will metacognitively analyze their own learning as they investigate and propose a policy solution to a political economy problem.

CTSE 6090 CURRICULUM AND TEACHING I: SCIENCE (4) LEC. 2. LAB. 4. Planning, teaching strategies, evaluation techniques and classroom management procedures needed to be a successful science teacher.

CTSE 6100 CURRICULUM AND TEACHING II: SCIENCE (4) LEC/LLB. 6. Pr. CTSE 4090. Higher-order reasoning and process skills using state and national standards as guides. Theoretical and applied approches. May count either CTSE 5100 or CTSE 6100.

CTSE 6210 TEACHER INQUIRY WORKSHOP: PROBLEMS AND POSSIBILITIES (1) AAB. 1. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Community of practice for English Language Arts clinical residents to support professional practice through teacher inquiry. May count either CTSE 5210, CTSE 5213, CTSE 6210, or CTSE 6216.

CTSE 6220 CLASS MANAGEMENT AND DISCIPLINE IN FOREIGN LANGUAGE CLASSROOM (1) AAB. 15. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Seminar for clinical residents on classroom management in Foreign Language Education. May count either CTSE 5220, CTSE 5223, CTSE 6220 or CTSE 6226.

CTSE 6230 MANAGING MIDDLE AND HIGH SCHOOL CLASSROOM (MATH EDUCATION) (1) AAB. 15. Pr. (P/C CTSE 7920 or P/C CTSE 7926). Admission to Clinical Residency. The role of the teacher in mathematics classroom management. Methods for developing a positive learning environment. May count either CTSE 5230, CTSE 5233, CTSE 6230 or CTSE 6236.

CTSE 6240 CLINICAL RESIDENCY SEMINAR IN SCIENCE TEACHING (1) AAB. 15. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Seminar for Science Education clinical residents in classroom management, professional development, diversity and equity issues, theory and practice. May count either CTSE 5240, CTSE 5243, CTSE 6240 or CTSE 6246.

CTSE 6250 SEMINAR IN SOCIAL SCIENCE EDUCATION (1) AAB. 15. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Best practices for managing secondary social science classrooms and ethically resolving students discipline issues for a positive learning climate for all students. May count either CTSE 5250, CTSE 5253, CTSE 6250 or CTSE 6256.

CTSE 6710 LANGUAGE STUDY FOR TEACHERS (3) LEC. 3. Theories of language development and language study applicable to middle and high school classrooms; implications for teaching grammar, usage, dialects, and semantics. May count either CTSE 5710, CTSE 6710, or CTSE 6716.

CTSE 7000 ORIENTATION TO TEACHING AND LEARNING (1) LEC. 1. Skills, dispositions, community, and research planning for graduate students including preparation of a research proposal. May count either CTSE 7000 or CTSE 7006.

CTSE 7490 THE SECONDARY SCHOOL PROGRAM (3) LEC. 3. Departmental approval. Implications of research and theory for the total secondary school program.

CTSE 7510 RESEARCH STUDIES IN AREA OF SPECIALIZATION (3) LEC. 3. Research methodology, landmark studies, critique and application of research in the area of specialization.

CTSE 7520 CURRICULUM AND TEACHING IN AREA OF SPECIALIZATION (3) LEC. 3. Nature of learners and of knowledge and implications for for building curricula and planning instruction in the area of specialization. May count either CTSE 7520 or CTSE 7526.

CTSE 7530 ORGANIZATION OF PROGRAM IN AREA OF SPECIALIZATION (3) LEC. 3. Program models, components, and standards in the area of specialization. May count either CTSE 7530 or CTSE 7536.

CTSE 7540 EVALUATION OF PROGRAM IN AREA OF SPECIALIZATION (3) LEC. 3. Theoretical perspectives of evaluation and methods of evaluating learners, teachers, and curricula. May count either CTSE 7540 or CTSE 7546.

CTSE 7560 EQUITY ISSUES IN MATHEMATICS EDUCATION (3) LEC. 3. Theories, issues, and pedagogy related to achieving equity in mathematics education.

CTSE 7800 CAPSTONE IN TEACHING AND LEARNING (2) LEC. 2. Development of a unique portfolio based on professional interest and demonstration the ability to foster student achievement through the design, implementation, and assessment of learning activities. May count either CTSE 7800 or CTSE 7806.

CTSE 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study directed toward desired objectives related to their respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTSE 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) AAB. SU. Departmental approval. Experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTSE 7920 CLINICAL RESIDENCY (8-11) AAB. 40. SU. Pr. P/C CTSE 6210 or P/C CTSE 6216 or P/C CTSE 6220 or P/C CTSE 6226 or P/C CTSE 6230 or P/C CTSE 6236 or P/C CTSE 6240 or P/C CTSE 6246 or P/C CTSE 6250 or P/C CTSE 6256. Admission to Clinical Residency. Supervised clinical residency experiences in a school, college or other appropriate setting. Evaluation and analysis of the clinical residency experinece. Departmental approval. May count either CTSE 7920 or CTSE 7926. Course may be repeated for a maximum of 11 credit hours.

CTSE 7970 SPECIAL TOPICS (1-6) DFL. Departmental approval. Provides an opportunity for the graduate student and professor to pursue selected topics in depth. Course may be repeated for a maximum of 6 credit hours.

CTSE 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

CTSE 8950 SEMINAR (1-3) DSL/SEM. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTSE 8980 FIELD PROJECT (1-3) DSL/FLD. SU. Departmental approval. Students review literature pertaining to a problem they have identified in their own practice, form hypotheses, plan intervention, collect data, analyze and interpret results, write summary of the project following approved guidelines, and orally defend the results of their project. Course may be repeated for a maximum of 3 credit hours.

CTSE 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with change in topics.

Teacher Education Information

Clinical Experiences

Auburn University's College of Education is committed to co-constructed and mutually beneficial clinical-based experiences for all candidates in educator preparation programs. A commitment from P-12 school partners and university faculty is central to ensuring all candidates develop the knowledge, skills, and professional dispositions necessary to demonstrate a positive impact on all P-12 students' learning and development. It is within varied and diverse clinical experiences that candidates have multiple opportunities to observe, reflect upon, and adjust their methods of practice. Effective clinical experiences provide a bridge between the knowledge candidates acquire in their educator preparation programs to real-world classroom practices.

The pre-teaching experience is a prerequisite for admission to educator preparation. This five-day experience is intended to provide the opportunity for students to observe the school as a total organization and increase their awareness of the teaching profession. The primary focus is observation and reflection. Students should consult with their advisor as to the specific requirements for their program.

Additional clinical experiences are conducted concurrently with enrollment in professional education courses. These experiences occur prior to clinical residency/internship and provide students with multiple opportunities to work with diverse learners in schools and communities.

Clinical residency/internship is the culminating field-based experience and spans a full semester. This experience immerses clinical residents in the learning community and provides them with intensive and extensive opportunities to develop and demonstrate competence in the professional roles for which they are preparing.

Admission to Educator Preparation Programs

The first transition point in education educator preparation programs is admission. Criteria are noted below:

- Completion and submission of the Admission to Educator Preparation Program Application
- Completion of 45 semester hours in the program
- Satisfactory completion or current enrollment in the orientation course
- Successfully meet current grade point average requirements:
  - Students admitted prior to July 1, 2017 — a minimum 2.50 grade-point average on all college coursework attempted at Auburn, in professional studies, and in the teaching field
  - Students admitted on July 1, 2017–Feb. 24, 2022 — a minimum 2.75 grade-point average on all college coursework attempted at Auburn, in professional studies, and in the teaching field
  - Students admitted on Feb. 25, 2022, and thereafter — a minimum 2.50 grade-point average on all college coursework attempted at Auburn, in professional studies, and in the teaching field
- Satisfactory performance in the pre-teaching experience
- Documentation of clear background check
- Satisfactory completion of a professional interview

Students who fail to meet these criteria upon initial application may submit new evidence in an effort to satisfy admission to educator preparation requirements. Meeting the above criteria at a minimum level does not guarantee admission into educator preparation. Specific programs may have additional requirements for admissions. Therefore, students should meet with their academic advisor to discuss any additional program specific requirements.

Admission to Clinical Residency (Internship)

The second transition point in educator preparation programs is admission to clinical residency (internship). Criteria are noted below:

- Completion and submission of the Clinical Residency (Internship) Application one year in advance
- Admission to Educator Preparation
- Satisfactory completion of all courses on the program checklist designated as prerequisites for clinical residency
- Successfully meet current grade point average requirements:
  - Students admitted prior to July 1, 2017 — a minimum 2.50 grade-point average on all college coursework attempted at Auburn, in professional studies, and in the teaching field
  - Students admitted on July 1, 2017–Feb. 24, 2022 — a minimum 2.75 grade-point average on all college coursework attempted at Auburn, in professional studies, and in the teaching field
  - Students admitted on Feb. 25, 2022, and thereafter — a minimum 2.50 grade-point average on all college coursework attempted at Auburn, in professional studies, and in the teaching field
- No grade below a C in professional studies courses
- Passing score(s) on the appropriate content assessment(s) required for the area of specialization
- Demonstrated potential for teaching with program approval

Students who fail to meet these criteria may submit new evidence in an effort to satisfy admission to clinical residency/internship requirements. Specific programs may have additional requirements for this transition point. Therefore, students should meet with their academic advisor to discuss any additional program specific requirements.

Exit from Clinical Residency (Internship)

The third transition point in educator preparation programs is successful completion of clinical residency (internship). Criteria are noted below:

- Satisfactory completion of all key assessments including submission of edTPA portfolio for official scoring
- Satisfactory completion of teaching requirements (20 full days of teaching, including 10 consecutive days)
- Satisfactory completion of attendance requirements (full-time, full semester)
- Satisfactory compliance with all rules and regulations outlined in the Clinical Residency Handbook

Specific programs may have additional requirements for this transition point. Therefore, students should meet with their academic advisor to discuss any additional program specific requirements.

Graduation

The final transition point in educator preparation programs is graduation. Criteria are noted below:

- Registration for UNIV 4AA0 (graduation check)
- Completion of all courses on the program checklist (Note: Approvals of Course Substitution Requests must be on file in the Office of Student Services, 3464 Haley.)
- Successfully meet current grade point average requirements:
  - Students admitted prior to July 1, 2017 — a minimum 2.50 grade-point average on all college coursework attempted at Auburn, in professional studies, and in the teaching field
  - Students admitted on July 1, 2017–Feb. 24, 2022 — a minimum 2.75 grade-point average on all college coursework attempted at Auburn, in professional studies, and in the teaching field
  - Students admitted on Feb. 25, 2022, and thereafter — a minimum 2.50 grade-point average on all college coursework attempted at Auburn, in professional studies, and in the teaching field
- No grade below a C in professional studies courses
- Satisfactory grade in clinical residency/internship including completion of all requirements

Specific programs may have additional requirements for this transition point. Therefore, students should meet with their academic advisor to discuss any additional program specific requirements.

Certification

The Assistant Dean for Assessment has been designated as the educator certification officer for Auburn University. Applying for certification with the Alabama State Department of Education (ALSDE) is a separate process from applying for graduation. It is critical that educator preparation students meet with their academic advisor in the Office of Student Services (Haley 3464) routinely to ensure they meet the most current ALSDE requirements for certification. To obtain certification in the state of Alabama, program graduates must submit a completed certification application with required processing fee to the Office of Student Services in order to begin the process of certification with the ALSDE. Instructions for completing the certification packet are provided to the student during their clinical residency or final semester via AU email. Program graduates who delay obtaining Alabama certification may be subject to changes made in teacher educator certification requirements between the time of graduation and the time of the certification request. Students seeking certification in other states should contact those state certification offices to obtain their application forms and requirements.

The following list shows undergraduate educator preparation programs by department and by grade levels of certification. Music Education (P-12) and secondary education programs in English language arts, agriscience, business and marketing, foreign language, mathematics, science, and social science meet the university requirements for a second major in the teaching field.

A candidate cannot be recommended for certification based on completion of a program for which state approval expired more than seven years prior to the date prior to the dates of program completion.

Programs (Grade Levels)

- Agriscience Education (6-12)
- Business and Marketing Education (6-12)
- Chemistry Education (6-12)
- Early Childhood Education (P-3)
- Elementary Education (K-6)
- English Language Arts Education (6-12)
- French Education (6-12)
- General Science Education (6-12)
- German Education (6-12)
- Mathematics Education (6-12)
- Music Education, Instrumental and Vocal (P-12)
- Physical Education (P-12)
- Physics Education (6-12)
- Spanish Education (6-12)
- Special Education

- Collaborative Teacher Special Education (K-6 & 6-12)
- Early Childhood Special Education/Collaborative Teacher (P-3 & K-6)

Assurance of Competence

The College of Education guarantees the success of graduates who receive initial professional certification through the college and who are employed within their area(s) of specialization. The college will provide remediation at no cost to an individual who was recommended for certification by the College of Education and whose job performance within two years after program completion is deemed unsatisfactory by a local education agency based on performance evaluations established by the Alabama State Board of Education.

Department of Curriculum and Teaching

The Department of Curriculum and Teaching prepares teachers in content-specific, research-based pedagogy. Departmental faculty and school professionals partner to provide rich clinical experiences in diverse settings. All educator preparation programs are approved by the Alabama State Board of Education. Auburn University's College of Education is accredited through the Council for Accreditation of Educator Preparation (CAEP). Music education programs are also accredited by the National Association of Schools of Music (NASM).

Elementary education is a high demand major. Due to limited enrollment, all students who meet minimum criteria may not be admitted. See program major page in AU Bulletin (p. 494) for additional information.

In addition to undergraduate teacher education majors, the department offers undergraduate minors in community music and office systems management.

A list of course offerings is available on the Auburn University website.

Information about graduate programs is available at Curriculum and Teaching - MEd, MS, EdS, PhD, Graduate Certificate (p. 1586).

The Department of Curriculum and Teaching offers the following undergraduate majors.

Majors

- Agriscience Education (p. 489)
- Business and Marketing Education (p. 490)
- Chemistry Education (p. 492)
- Early Childhood Education (p. 493)
- Elementary Education (p. 494)
- English Language Arts Education/English (p. 496)
- French Education (p. 498)
- General Science Education (p. 499)
- General Social Science Education/History (p. 501)
- German Education (p. 502)
- Mathematics Education (p. 503)
- Music Education: Instrumental and Vocal (p. 505)
- Physics Education (p. 507)
- Science Teaching (p. 508)
- Spanish Education (p. 509)

Minors

- Community Music (p. 493)
- Office Systems Management (p. 507)

Middle School Education Courses

CTMD 4190 CURRICULUM AND TEACHING IN THE MIDDLE SCHOOL (3) LEC. 2. LAB. 2. Admission to Teacher Education. To introduce and prepare undergraduate education students for the middle school student, middle school teaching, and middle level philosophy while incorporating reflective decision making.

CTMD 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent study directed at desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTMD 4910 PRACTICUM IN MIDDLE SCHOOL EDUCATION (1-6) PRA. SU. Departmental approval. Provides experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

CTMD 4920 CLINICAL RESIDENCY (11) AAB. 40. SU. Pr. P/C CTSE 4200 or P/C CTSE 4203. Admission to Clinical Residency. Supervised teaching in a public middle or secondary school, abroad, accompanied by scheduled discussions to analyze and evaluate the intern's experience. May count either CTMD 4920 or CTMD 4923.

CTMD 4970 SPECIAL TOPICS (1-4) LEC. Course may be repeated for a maximum of 4 credit hours.

CTMD 5010 TEACHING MATHEMATICS: MIDDLE SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. The prospective middle school or junior high school mathematics teacher must examine the characteristics of students this age. Teaching strategies must be developed which lead not only to the learning of correct mathematics but also address the needs of a wide variety of learners. May count either CTMD 5010 or CTMD 6010.

CTMD 5011 PRACTICUM IN MIDDLE SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTMD 5010. Admission to Teacher Education. This course is designed to provide 21 clock hours of teaching and experience in Middle School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTMD 6010 TEACHING MATHEMATICS: MIDDLE SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. The prospective middle school or junior high school mathematics teacher must examine the characteristics of students this age. Teaching strategies must be developed which lead not only to the learning of correct mathematics but also address the needs of a wide variety of learners. May count either CTMD 5010 or CTMD 6010.

CTMD 6011 PRACTICUM IN MIDDLE SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTMD 6010. This course is designed to provide 21 clock hours of teaching and experience in Middle School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTMD 7900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent study directed toward desired objectives related to the respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTMD 7970 SPECIAL TOPICS (1-6) LEC. Course may be repeated for a maximum of 6 credit hours.

Career and Technical Courses

CTCT 2100 POWER EQUIPMENT TECHNOLOGY (3) LEC. 2. LAB. 3. Repair and maintenance of small air-cooled engines and power equipment in Agriculture. May count either CTCT 2100 or CTCT 3100.

CTCT 2200 COMPUTER LITERACY IN BUSINESS EDUCATION (3) LEC. 1. LAB. 4. Advanced formatting, processing, and evaluation of business correspondence, as well as administrative and employment documents. Includes basic computer literacy skills. May count either CTCT 2200 or CTCT 2203.

CTCT 3000 LEADERSHIP SKILLS FOR PERSONAL AND ORGANIZATIONAL DEVELOPMENT (3) LEC. 3. Organizational and leadership skills needed to become successful professionals in work or community activities; skills and strategies for conducting efficient meetings.

CTCT 3250 INFORMATION ANALYSIS (3) LEC. 3. Decision-making and business problem solving using microcomputer software applications including spreadsheets, database management programs, and operating systems. May count either CTCT 3250 or CTCT 3253.

CTCT 4000 CLASSROOM/LABORATORY MANAGEMENT, ORGANIZATION AND EVALUATION IN CAREER AND TECHNICAL EDUCATION (2) LEC. 2. Admission to Teacher Education. Organization, objectives, principles, management, and evaluation of career and technical education classrooms, laboratories, and programs. May count either CTCT 4000 or CTCT 4003.

CTCT 4030 CAREER AND TECHNICAL STUDENT ORGANIZATIONS (3) LEC. 3. Survey of career and technical student organizations; procedures involved in developing and implementing informal and co-curricular educational programs for students and preparing students for state and national competitions.

CTCT 4140 AGRICULTURAL STRUCTURE AND METAL FABRICATION TECHNOLOGY (3) LEC. 2. LAB. 3. Materials selection and construction procedures for carpentry, concrete, masonry, electricity, plumbing, and metal fabrication.

CTCT 4160 SUPERVISED AGRICULTURAL EXPERIENCE PROGRAMS (2) LEC. 2. Responsibility for SAEP planning, supervision, and evaluation of entrepreneurship, placement, exploratory, analytical, and experimental SAEPs and record books; completing award applications.

CTCT 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. The student's learning efforts are guided toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTCT 4910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Departmental approval. Provides experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

CTCT 4920 CLINICAL RESIDENCY (12) AAB/DSL. 40. SU. Admission to Clinical Residency. Supervised clinical residency experiences abroad in a school or other appropriate setting. Evaluation and analysis of the clinical residency experience. May count either CTCT 4920 or CTCT 4923.

CTCT 4940 DIRECTED FIELD EXPERIENCE IN AREA OF SPECIALIZATION (1-3) DAG/FLD. SU. Supervised occupational work experience in an approved specialization-related occupation. Departmental approval. May count either CTCT 4940 or CTCT 4943. Course may be repeated for a maximum of 3 credit hours.

CTCT 4970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) DSL. Departmental approval. Current or special topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 5050 METHODS OF TEACHING IN AREA OF SPECIALIZATION (3) LEC. 2. LAB. 2. Admission to Teacher Education. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within career and technical education. May count CTCT 5050, CTCT 5053, CTCT 6050, or CTCT 6056.

CTCT 5060 PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Admission to Teacher Education. Introduction to principles and practices involved in designing education programs in the area of specialization. May count CTCT 5060, CTCT 5063, CTCT 6060, or CTCT 6066.

CTCT 5080 PRINCIPLES OF COORDINATION (3) LEC. 3. Admission to Teacher Education. Coordination, placement, and supervision of students in work-based programs; development of employability skills. May count CTCT 5080 or 6080.

CTCT 5200 RECORDS MANAGEMENT SYSTEMS (3) LEC. 3. Study of integrated records management systems, functions, systems, and careers; including decision making and problem solving using software applications. May count either CTCT 5200/CTCT 6200 or CTCT 6200/CTCT 6206.

CTCT 5240 MULTIMEDIA DESIGN (3) LEC. 3. Focus on presentation, desktop publishing, multimedia production, web page design, and digital graphics. May count either CTCT 5240/CTCT 5243 or CTCT 6240/CTCT 6246.

CTCT 5250 INFORMATION DESIGN & ANALYSIS (3) LEC. 3. Decision making, problem solving, and presentation using business software applications. May Count Either CTCT 3250/CTCT 3253 or CTCT 5250/CTCT 5253 CTCT 6250/CTCT 6256.

CTCT 5260 APPLIED COMPUTER TECHNOLOGY (3) LEC. 3. Capstone course with emphasis on integration of business software for decision making, processing, collaboration and management functions, including accounting and financial management. May count either CTCT 5260/CTCT 5263 or CTCT 6260/CTCT 6266.

CTCT 5940 WORK EXPERIENCE IN INFORMATION TECHNOLOGY (3) LEC. 3. SU. Supervised occupational work experience in a Commerce and Information Technology environment. May count either CTCT 4940/CTCT 4943 or CTCT 5940/CTCT 5943 or CTCT 6940/CTCT 6946.

CTCT 6050 METHODS OF TEACHING IN AREA OF SPECIALIZATION (3) LEC. 2. LAB. 2. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within the area of specialization. Admission to alternative master's program. May count CTCT 5050, CTCT 5053, CTCT 6050, or CTCT 6056.

CTCT 6060 PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Introduction to principles and practices involved in designing educational programs in the area of specialization. Admission to alternative master's program. May count CTCT 5060, CTCT 6060, or CTCT 6066.

CTCT 6080 PRINCIPLES OF COORDINATION (3) LEC. 3. Coordination, placement, and supervision of students in work-based programs; development of employability skills. May count CTCT 5080, CTCT 5083, CTCT 6080, or CTCT 6086.

CTCT 6200 RECORDS MANAGEMENT SYSTEMS (3) LEC. 3. Study of integrated records management systems, functions, and careers; including decision making and problem solving using software applications. May count either CTCT 5200/CTCT 5203 or CTCT 6200/CTCT 6206.

CTCT 6240 MULTIMEDIA DESIGN (3) LEC. 3. Focus on presentation, desktop publishing, multimedia production, web page design, and digital graphics. May count either CTCT 6240/CTCT 62406 or CTCT 5240/5243.

CTCT 6250 INFORMATION DESIGN & ANALYSIS (3) LEC. 3. Decision making, problem solving, and presentation using business software applications. May count either CTCT 6250/CTCT 6256 or CTCT 5250/5253.

CTCT 6260 APPLIED COMPUTER TECHNOLOGY (3) LEC. 3. Capstone course with emphasis on integration of business software for decision making, processing, collaboration and management functions, including accounting and financial management. May count either CTCT 5260/CTCT 5263 or CTCT 6260/6266.

CTCT 6940 WORK EXPERIENCE IN INFORMATION TECHNOLOGY (3) LEC. 3. SU. Supervised occupational work experience and software application in a Commerce and Information Technology environment. May count either CTCT 6940/CTCT 6946 or CTCT 5940/5943.

CTCT 7000 FOUNDATIONS OF CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Philosophical, historical, economic, and sociological perspectives of vocational education in relation to the organization of vocational education programs. May count either CTCT 7000 or CTCT 7006.

CTCT 7010 YOUTH PROGRAM DEVELOPMENT (3) LEC. 3. Developing, managing, and evaluating formal and informal youth education programs; training volunteers for youth development programs; securing and developing supporting resources. Departmental approval. May count either CTCT 7010 or CTCT 7016.

CTCT 7100 TEACHING MECHANICAL TECHNOLOGY (3) LEC. 2. LAB. 2. Theory and practice of managing agricultural mechanics laboratories, theories of machine operation, and maintaining laboratory equipment. May count either CTCT 7100 or CTCT 7106.

CTCT 7120 COURSES OF STUDY IN AGRISCIENCE EDUCATION (3) LEC. 3. Departmental approval. Emerging technologies in agriscience education; principles and procedures of curriculum construction applied to courses of study in agriscience education.

CTCT 7200 CAREER AND OCCUPATIONAL INFORMATION (3) LEC. 3. Trends and issues in occupational structure, job qualifications and requirements, and sources of occupational information for new and emerging occupations; analysis of career education models for students.

CTCT 7240 ADMINISTRATIVE MANAGEMENT (3) LEC. 3. Management of office systems, information and personnel. Managing and controlling administrative services.

CTCT 7300 INTEGRATING TECHNOLOGY IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching.

CTCT 7400 AGRICULTURAL LITERACY EDUCATION (3) LEC. 3. Theories and application of agricultural literacy related scientific and technologically based concepts and processes required for personal decision making, participating in civic and cultural affairs, and economic productivity.

CTCT 7710 ADVANCED TEACHING METHODS (3) LEC. 3. Analysis of research in theories of teaching and learning, effective teacher characteristics, learning styles, teaching methodologies, and diversity in teaching.

CTCT 7720 ADVANCED PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Issues affecting the development and management of educational programs; strategies for improving educational programs.

CTCT 7730 PROGRAM EVALUATION (3) LEC. 3. Principles and procedures used in evaluating academic- related programs. Alternative approaches to evaluation and practical guidelines for conducting evaluations.

CTCT 7750 ADMINISTRATION OF CAREER AND TECHNICAL EDUCATION (3) DAG. Introduction to concepts, theories and practices related to administration, organizational behavior, and leadership in secondary and post-secondary vocational education programs.

CTCT 7760 COMPREHENSIVE PLANNING IN CAREER AND TECHNICAL EDUCATION (3) LLB. Processes of comprehensive planning for vocational education programs at high school and secondary school levels using local, state, and regional data.

CTCT 7770 CLINICAL SUPERVISION (3) LEC. 3. Theories, concepts, models, and techniques of student teacher and beginning teacher supervision by administrators, school district personnel, and university supervisors. Recommended for individuals who supervise or plan to supervise student teachers.

CTCT 7780 RESEARCH IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Review, analysis and interpretation of research procedures and data with emphasis on designing new research in vocational and adult education.

CTCT 7810 SUPERVISED COLLEGE TEACHING (1) LEC. 1. SU. Departmental approval. Practical experience in the classroom under the supervision of a faculty mentor. Course may be repeated for a maximum of 2 credit hours.

CTCT 7900 DIRECTED STUDIES (1-3) DAG. SU. Departmental approval. Independent learning effort directed toward desired objectives. Includes evaluation at regular intervals by student and professor. Course may be repeated for a maximum of 3 credit hours.

CTCT 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-3) DAG. SU. Departmental approval. Experiences closely relating theory and practice. Course may be repeated for a maximum of 3 credit hours.

CTCT 7920 CLINICAL RESIDENCY (9-12) AAB. 40. SU. Admission to Clinical Residency. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Departmental approval. May count either CTCT 7920 or CTCT 7926. Course may be repeated for a maximum of 12 credit hours.

CTCT 7950 SEMINAR IN AREA OF SPECIALIZATION (1-3) DBU/SEM. SU. Presentation by graduate students of research projects and/or findings. Analysis of procedures and findings. Course may be repeated for a maximum of 3 credit hours.

CTCT 7960 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 3 credit hours.

CTCT 7970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) DAG. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated for a maximum of 10 credit hours.

CTCT 8730 CURRICULUM DEVELOPMENT IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Principles of career and technical education curriculum planning, identification of educational needs of students, selecting technical content, and evaluating materials.

CTCT 8770 SUPERVISION OF INSTRUCTION (3) LEC. 3. Theories and models to become effective supervisors of vocational and adult education programs; philosophies and styles of supervision used to improve schools, instruction, curriculum and personnel.

CTCT 8800 TEACHER EDUCATION (3) LEC. 3. Emphasis on beliefs, philosophy, issues, research, roles, student selection, curriculum, methodology, internships, organization, and administration of teacher education programs.

CTCT 8810 SUPERVISED COLLEGE TEACHING (1-10) LEC. 3. SU. Practical experience in the classroom under the supervision of a faculty mentor. Course may be repeated for a maximum of 10 credit hours.

CTCT 8900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent learning efforts at desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTCT 8910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Departmental approval. Experiences closely relating theory and practice. Course may be repeated for a maximum of 6 credit hours.

CTCT 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 10 credit hours.

CTCT 8950 SEMINAR IN AREA OF SPECIALIZATION (1-6) DSL/SEM. Departmental approval. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 6 credit hours.

CTCT 8960 SPECIAL PROBLEMS (1-6) DSL/IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 6 credit hours.

CTCT 8970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) DSL. Departmental approval. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 8980 FIELD PROJECT (1-10) DAG. 1. SU. Departmental approval. Field project. Course may be repeated for a maximum of 10 credit hours.

CTCT 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated for a maximum of 20 credit hours.

Early Childhood Education Courses

CTEC 3020 PRIMARY MATH AND SCIENCE (3) LEC. 3. Exploration of learning and pedagogy for the development of math and science concepts appropriate for children in Kindergarten through Grade 3.

CTEC 3030 INTEGRATED CURRICULUM IN PRESCHOOL: EARLY LITERACY (3) LEC. 3. Coreq. CTEC 4911. This course focuses on the foundations of literacy learning including play, developmentally appropriate practices, and integration within and across disciplines through multisensory, multimodal means, connecting to the Alabama Developmental Standards. Admission to Teacher Education.

CTEC 3200 A WORKING THEORY FOR THE CONSTRUCTIVIST EDUCATOR (3) LEC. 3. Constructivist theory for pre-service teachers preparing to teach at the early childhood level.

CTEC 4200 THE CONSTRUCTIVIST TEACHER: STRATEGIES AND TECHNIQUES (3) LEC. 3. Construction of an operational knowledge of established constructive curriculum strategies and techniques.

CTEC 4210 THE CONSTRUCTIVIST TEACHER: GROWING PROFESSIONALLY (1) AAB/DSL. 1. Pr. P/C CTEC 4920 or P/C CTEC 4923. Admission to Clinical Residency. The roles and responsibilities of being an early childhood professional. May count either CTEC 4210 or CTEC 4213.

CTEC 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Reading, research or other work undertaken independently by a student focused on a content area of special interest. Course may be repeated for a maximum of 6 credit hours.

CTEC 4910 PRACTICUM (1-6) PRA. SU. Departmental approval. Students and faculty cooperatively select and execute an appropriate field experience. Course may be repeated for a maximum of 6 credit hours.

CTEC 4911 PRACTICUM IN THE PRESCHOOL (1-2) LEC. 1-2. SU. Laboratory experiences with children from birth to five years of age designed to help students relate theory to practice. Course may be repeated for a maximum of 2 credit hours.

CTEC 4912 PRACTICUM IN PRIMARY GRADES (3) LEC. 0. LAB. 3, AAB/PRA. 0. SU. Laboratory experiences with children 5 through 9 years of age help students relate theory to practice.

CTEC 4920 CLINICAL RESIDENCY (1-12) AAB/DSL. 1-12. SU. Pr. P/C CTEC 4210 or P/C CTEC 4213. Admission to Clinical Residency. Experience in a setting serving pre-primary or primary-school children with varying abilities. Admission to internship. May count either CTEC 4920 or CTEC 4923. Course may be repeated for a maximum of 12 credit hours.

CTEC 7200 EARLY CHILDHOOD EDUCATION PERSPECTIVE (3) LEC. 3. Historical overview of current issues, trends, and programs in early childhood education. May count either CTEC 7200 or CTEC 7206.

CTEC 7210 ORIGINS OF THOUGHT (3) LEC. 3. Piaget's theories of how thought develops in young children. Comparison of the social and biological roots of thought. May not count either CTEC 7210 or CTEC 7216.

CTEC 7260 PLAY AND EARLY CHILDHOOD EDUCATION (3) LEC. 3. Examination of children's play from a constructivist theoretical perspective and translation of theory into early childhood educational practice. May count either CTEC 7260 or CTEC 7266.

CTEC 7270 THEORY-BASED PROBLEMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. In-depth exploration of a problem related to the thought, writing and research that form the theoretical foundations of constructivist approaches in early childhood education. May count either CTEC 7270 or CTEC 7276. Course may be repeated for a maximum of 9 credit hours.

CTEC 7510 RESEARCH STUDIES IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. How to read, review, analyze and interpret significant research studies in early childhood education. May count either CTEC 7510 or CTEC 7516.

CTEC 7520 CURRICULUM AND TEACHING IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Reappraisal of experiences and content for children by focusing on the nature of the learner and the nature of the knowledge to be learned. May count either CTEC 7520 or CTEC 7526.

CTEC 7530 ORGANIZATION OF PROGRAM IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Organization, administration, and supervision of early childhood programs. May count either CTEC 7530 or CTEC 7536.

CTEC 7540 EVALUATION OF PROGRAMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Assessment and evaluation of all program components from a constructivist perspective. May count either CTEC 7540 or CTEC 7546.

CTEC 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent learning objectives related to the student's area of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTEC 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Experience relating theory and practice, usually in a school setting. Departmental approval. May count either CTEC 7910 or CTEC 7916. Course may be repeated for a maximum of 6 credit hours.

CTEC 7970 SPECIAL TOPICS (3-9) AAB. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. Course may be repeated for a maximum of 9 credit hours.

CTEC 7990 RESEARCH AND THESIS (1-10) DSL/MST. Course may be repeated with change in topics.

CTEC 8240 RESEARCH IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Review, analysis and interpretation of available research with emphasis on designing new research to meet the needs of young children. May count either CTEC 8240 or CTEC 8246.

CTEC 8270 THEORY-BASED PROBLEMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. In-depth exploration of problems related to the thought, writings, and research that form the theoretical foundations of constructivist approaches to early childhood education. Master's Degree. May count either CTEC 8270 or CTEC 8276. Course may be repeated for a maximum of 6 credit hours.

CTEC 8720 DESIGNING EARLY CHILDHOOD CURRICULUM (3) LEC. 3. Application of early childhood history, philosophy, program analysis and constructivist theory to the design of early childhood curriculum. Master's Degree. May count either CTEC 8720 or CTEC 8726.

CTEC 8850 CONSTRUCTIVIST INVESTIGATIONS IN EARLY CHILDHOOD SETTINGS (3) LEC. 3. Analysis and interpretation of the design of constructivist investigation. Master's Degree.

CTEC 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTEC 8970 SPECIAL TOPICS (3-9) DSL. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. Course may be repeated for a maximum of 9 credit hours.

CTEC 8980 FIELD PROJECT (1-3) DSL/FLD. SU. Students conduct research on an educational problem and defend a field project report. Departmental approval. May not count either CTEC 8980 or CTEC 8986. Course may be repeated for a maximum of 3 credit hours.

CTEC 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with a change in topic. Course may be repeated with change in topics.

Elementary Education Courses

CTEE 3040 PRIMARY CURRICULUM IN MATHEMATICS (3) LEC. 3, LEC. 0. Admission to Teacher Education. This course introduces primary mathematics content, pedagogy, and pedagogical content knowledge for prospective elementary school teachers. Students are provided the opportunity to explore the content and pedagogical content knowledge in the areas of: a) Foundations of Counting, b) Operations with Numbers: Base 10, and c) Operations and Algebraic Thinking. Participants will have the opportunity to delve into state and national standards, Mathematics Teaching Practices, learning trajectories, assessment and student thinking from a teaching perspective.

CTEE 3041 PRACTICUM IN ELEMENTARY EDUCATION: PRIMARY MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTEE 3040. Admission to Teacher Education. Practicum in Elementary Education: Primary Mathematics 1 credit course. This course is designed to provide 15 clock hours of teaching and experience in Primary Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTEE 3100 INTRODUCTION TO ELEMENTARY EDUCATION (3) LEC. 3. Knowledge, skills, and dispositions necessary for elementary education, with emphasis on professional expectations and school structure.

CTEE 4000 FORMATIVE ASSESSMENT AND INSTRUCTION IN INTERMEDIATE MATHEMATICS (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. This course examines mathematics content, pedagogy, and pedagogical content knowledge for prospective elementary school teachers within the intermediate grades. Students explore the areas of: a) Operations with Numbers: Base 10, c) Operations with Numbers: Fractions and c) Operations and Algebraic Thinking. Participants will have the opportunity to delve into state and national standards, Mathematics Teaching Practices, learning trajectories, assessment and student thinking from a teaching perspective.

CTEE 4010 CURRICULUM: SOCIAL SCIENCE (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. Pedagogical content knowledge in the major concepts and modes of inquiry for integrated study of social sciences for elementary learners.

CTEE 4011 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE SOCIAL SCIENCE (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4010. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Social Science Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4020 CURRICULUM: LANGUAGE ARTS (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. CTEE 4020, the final course in reading and writing instruction, deepens students' understanding of English language arts through current research in the science of reading and writing. Emphasizing expressive and receptive language in K–6 classrooms, the course highlights high-leverage teaching practices, assessment strategies, and effective feedback. Students apply learning through practicum experiences, supporting diverse learners including those with dyslexia, dysgraphia, and multilingual backgrounds, while refining their instructional approaches through lectures, readings, and guided practice.

CTEE 4021 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE LANGUAGE ARTS (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4020. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Language Arts Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4030 CURRICULUM: NATURAL SCIENCE (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. Pedagogical content knowledge, principles, and standards in the major concepts and modes of inquiry for integrated study of science for elementary learners.

CTEE 4031 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE NATURAL SCIENCE (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4030. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Natural Science Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4040 CURRICULUM: MATHEMATICS (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. This course examines the principles, current research, and approaches to the teaching and learning of elementary school mathematics with specific focus on geometry, measurement and data analysis. It also investigates the relationship between pedagogy and mathematical understanding appropriate for the instruction of children in kindergarten through sixth grade. Through this course, candidates explore and use major concepts and procedures in relation to geometry, measurement, probability, and data analysis.

CTEE 4041 PRACTICUM IN ELEMENTARY EDUCATION: INTERMEDIATE MATHEMATICS (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4040. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Mathematics Instruction in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4190 EFFECTIVE CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Admission to Teacher Education. Through exploration, discussion, reflection, and analysis students will study issues pertaining to inclusive/multicultural K-6 classrooms. Issues related to classroom management (e.g. behavior and time management), students with special needs, parent/community relations, legal mandates, technology, planning, and professionalism.

CTEE 4191 PRACTICUM IN EFFECTIVE CLASSROOM MANAGEMENT IN THE ELEMENTARY SCHOOL (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTEE 4190. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Effective Classroom Management in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTEE 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Reading, research, or other work undertaken by a student focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTEE 4910 PRACTICUM (1-6) AAB/PRA. SU. Departmental approval. Students and faculty cooperatively select an appropriate field experience. Course may be repeated for a maximum of 6 credit hours.

CTEE 4920 CLINICAL RESIDENCY (11) AAB. 11. SU. Pr. P/C CTEE 4950 or P/C CTEE 4953. Admission to Teacher Education. Supervised teaching in a public elementary school accompanied by scheduled discussions to analyze and evaluate the intern's experience. Admission to internship. May count either CTEE 4920 or CTEE 4923.

CTEE 4950 PROFESSIONAL DEVELOPMENT SEMINAR (1-4) AAB. 1. SU. Pr. P/C CTEE 4920 or P/C CTEE 4923. Admission to Teacher Education. Reflection, exploration, and study of elementary education practices in kindergarten through grade six. May count either CTEE 4950 or CTEE 4953. Course may be repeated for a maximum of 4 credit hours.

CTEE 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Individual readings program. Course may be repeated for a maximum of 3 credit hours.

CTEE 4970 SPECIAL TOPICS (1-6) AAB/LEC. Departmental approval. Cooperatively selected concepts and theories pursued, normally in small groups. Course may be repeated for a maximum of 6 credit hours.

CTEE 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. The student thesis is finalized in this course. Course may be repeated for a maximum of 3 credit hours.

CTEE 7010 APPROACHES TO TEACHING (3) LEC. 3. Organizational patterns, planning and approaches to instruction in the elementary school.

CTEE 7410 CURRICULUM AND TEACHING IN SOCIAL SCIENCE (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) social science education. May count either CTEE 7410 or CTEE 7416.

CTEE 7420 CURRICULUM AND TEACHING IN LANGUAGE ARTS (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) language arts education. May count either CTEE 7420 or CTEE 7426.

CTEE 7430 CURRICULUM AND TEACHING IN NATURAL SCIENCE (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) natural science education. May count either CTEE 7430 or CTEE 7436.

CTEE 7440 CURRICULUM AND TEACHING IN MATHEMATICS (GRADES K-6) (3) LEC. 3. Teaching practices and re-appraisal of selecting experiences and content for curriculum improvement in (K-6) mathematics education. May count either CTEE 7440 or CTEE 7446.

CTEE 7490 THE ELEMENTARY SCHOOL PROGRAM (3) LEC. 3. Major curriculum areas and teaching practices in the modern elementary school. Implications of research and theory for the total elementary school program.

CTEE 7510 RESEARCH STUDIES IN EDUCATION IN AREAS OF SPECIALIZATION (3) LEC. 3. Pr. CTEE 7420 or CTEE 7426. A review, analysis and interpretation of data with emphasis on designing research to meet the changing needs of the school. May count either CTEE 7510 or CTEE 7516.

CTEE 7530 ORGANIZATION OF PROGRAMS IN ELEMENTARY EDUCATION (3) LEC. 3. Organization and development of basic and supplementary materials for guiding teachers and school systems in improvement of curriculum and teaching practices. May count either CTEE 7530 or CTEE 7536.

CTEE 7540 EVALUATION OF PROGRAMS IN AREAS OF SPECIALIZATION (3) LEC. 3. Evaluation methods and exploration of evaluation literature in areas of specialization. May count either CTEE 7540 or CTEE 7546.

CTEE 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study related to student's respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTEE 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) AAB. SU. Departmental approval. Provides individual students with experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTEE 7970 SPECIAL TOPICS (1-6) AAB. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. May count either CTEE 7970 or CTEE 7979. Course may be repeated for a maximum of 6 credit hours.

CTEE 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated for a maximum of 10 credit hours.

CTEE 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTEE 8970 SPECIAL TOPICS (1-6) LEC. Course may be repeated for a maximum of 6 credit hours.

CTEE 8980 FIELD PROJECT (1-10) DSL/FLD. SU. Students conduct research on an educational problem and defend a field project report. Departmental approval. May count either CTEE 8980 or CTEE 8986. Course may be repeated for a maximum of 10 credit hours.

CTEE 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated for a maximum of 20 credit hours.

English for Spkrs Other Lang Courses

CTES 5410 FOUNDATIONS OF MULTILINGUAL LEARNER INSTRUCTION (3) LEC. 3. Non-major course to introduce students to the essential components of effective instruction of multilingual students in a variety of contexts. Topics include instructional models for teaching multilingual students, linguistically and culturally responsive pedagogy, second language acquisition, formative and summative assessment.

CTES 7400 TECHNOLOGY AND MEDIA IN ENGLISH FOR SPEAKERS OF OTHER LANGUAGES EDUCATION (ESOL) (3) LEC. 3. Application of instructional technology in second language instruction, authentic materials in the ESL classroom. May count either CTES 7400 or CTES 7406.

CTES 7410 CURRICULUM DEVELOPMENT IN ESOL EDUCATION (3) LEC. 3. LAB. 0, DSL/LEC. 0. This class will explore how to teach English for specific purposes by explaining how to create a curriculum in English for a particular context. The course will describe how to conduct a needs analysis and then create a curriculum based on the needs of the students.

CTES 7420 APPLIED LINGUISTICS IN SECOND LANGUAGE ACQUISITION (3) LEC. 3. Provides basic knowledge of phonetics, morphology, syntax, semantics, pragmatics, psycholinguistics, sociolinguistics and language variation to teach English language learners. May count either CTES 7420 or CTES 7426.

CTES 7430 TEACHING ESL LISTENING AND SPEAKING (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course will prepare ESL/EFL teachers to develop engaging and effective listening and speaking lessons in a variety of contexts. Students will design and implement effective listening and speaking lessons for a variety of proficiency levels.

CTES 7440 TEACHING ESL READING AND WRITING (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course will increase understanding of the theory and practices of reading and writing skills that actively engage English learners.

CTES 7460 TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES IN P-12 (3) LEC. 3. Teaching practices and curriculum selection in P-12 ESOL. May count either CTES 7460 or CTES 7466.

CTES 7470 ISSUES IN ENGLISH FOR SPEAKERS OF OTHER LANGUAGES EDUCATION (ESOL) (3) LEC. 3. Examination of central issues in the teaching and learning of ESOL including language policy, language diversity and multiculturalism. May count either CTES 7470 or CTES 7476.

CTES 7480 ASSESSMENT IN ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL) (3) LEC. 3. Theoretical perspectives on assessment of English Language Learners. Developing, administering and analyzing assessment instruments. May count either CTES 7480 or CTES 7486.

CTES 7490 METHODS IN ESL GRAMMAR (3) LEC. 3. LAB. 0, DSL/LEC. 0. This course will explore the English language beyond the prescriptive rules commonly taught and to develop an in-depth understanding of the challenges English language learners have with grammar. It will explore ways grammar impacts writing and speaking, best practices for grammar instruction, and considerations in error correction. Key grammar lessons will be developed and practiced.

CTES 7920 CLINICAL RESIDENCY (1-9) AAB. SU. Supervised teaching in a K-12 public school accompanied by scheduled discussions to analyze and evaluate the intern's experience. Course may be repeated for a maximum of 9 credit hours.

Music Education Courses

CTMU 1010 INTRODUCTION TO MUSIC EDUCATION (0) LAB. 1. Introduction to teaching music.

CTMU 1020 MUSIC EDUCATION LAB I (1) LAB. 3. Development and documentation of general music instructional abilities and dispositions for school and community music educators. Clear background check required.

CTMU 2010 MUSIC EDUCATION LAB II (1) LAB. 3. Development and documentation of vocal or instrumental music instructional abilities and dispositions for school and community music educators. Clear background check required.

CTMU 3040 MUSIC AND RELATED ARTS (3) LEC. 2. LAB. 1, LLB. 0. Interdisciplinary instruction appropriate for students' developmental characteristics which synthesize the content, professional resources, curriculum goals and instructional strategies of music.

CTMU 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent reading, research or other work focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTMU 4910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. Admission to Teacher Education. Cooperatively selected field experience. May count either CTMU 4910 or CTMU 4913. Course may be repeated for a maximum of 6 credit hours.

CTMU 4920 CLINICAL RESIDENCY (12) AAB/DSL. 40. SU. Admission to Clinical Residency. Supervised on-the-job experience in a school or other appropriate setting abroad with regularly scheduled discussions with supervising faculty provide evaluation and analysis of the intern. May count either CTMU 4920 or CTMU 4923.

CTMU 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Individual readings program. Course may be repeated for a maximum of 3 credit hours.

CTMU 4970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) LEC. Departmental approval. Cooperatively selected concepts and theories pursued, normally in small groups. Course may be repeated for a maximum of 6 credit hours.

CTMU 4997 HONORS THESIS (1-3) IND. Pr. Honors College. The student's thesis is finalized in this course. Course may be repeated for a maximum of 3 credit hours.

CTMU 5110 CHILDREN'S MUSIC LEARNING (4) LEC. 3. LAB. 3. Musical development and learning, birth-childhood. Curriculum, methods, and assessment for community and school children's music. Clear background check required. May count either CTMU 5110 or CTMU 6110.

CTMU 5120 SCHOOL AND COMMUNITY GENERAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, adolescence-adulthood. Curriculum, methods, and assessment for community and school general music. Clear background check required. May count either CTMU 5120 or CTMU 6120.

CTMU 5130 SCHOOL AND COMMUNITY INSTRUMENTAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, instrumentalists. Curriculum, methods, and assessment for community and school instrumental music. Clear background check required. May count either CTMU 5130 or CTMU 6130.

CTMU 5140 SCHOOL AND COMMUNITY VOCAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Admission to Teacher Education. Musical development and learning of vocalists. Curriculum, methods, and assessment for community and school vocal music. Clear background check required. May count either CTMU 5140 or CTMU 6140.

CTMU 6110 CHILDREN'S MUSIC LEARNING (4) LEC. 3. LAB. 3. Musical development and learning, birth-childhood. Curriculum, methods, and assessment for community and school children's music. Clear background check required. May count either CTMU 5110, CTMU 6110 or CTMU 6116.

CTMU 6120 SCHOOL AND COMMUNITY GENERAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, adolescence-adulthood. Curriculum, methods, and assessment for community and school general music. Clear background check required. May count either CTMU 5120 or CTMU 6120/CTMU 6126.

CTMU 6130 SCHOOL AND COMMUNITY INSTRUMENTAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning, instrumentalists. Curriculum, methods, and assessment for community and school instrumental music. Clear background check required. May count either CTMU 5130, CTMU 6130 or CTMU 6136.

CTMU 6140 SCHOOL AND COMMUNITY VOCAL MUSIC EDUCATION (4) LEC. 3. LAB. 3. Musical development and learning of vocalists. Curriculum, methods, and assessment for community and school vocal music. Clear background check required. May count either CTMU 5140, CTMU 6140 or CTMU 6146.

CTMU 6940 ELEMENTARY/MIDDLE SCHOOL MUSIC METHODS (3) LEC. 3. Methodology, materials, organization and activities for elementary and middle school music programs. Includes professional field experiences in public school music programs. Admission to Alternative Master's Certification Program.

CTMU 6960 SECONDARY MUSIC METHODS (3) LEC. 3. Methodology, materials, organization and activities for secondary music programs. Includes professional field experiences in public school music programs. Admission to Alternative Master's Certification Program

CTMU 7000 SCHOOL AND COMMUNITY MUSIC (1) LEC. 1. Developing skills, disposition, community, and research planning for graduate students in school and community music. May count either CTMU 7000 or CTMU 7006. Course may be repeated for a maximum of 2 credit hours.

CTMU 7510 RESEARCH STUDIES IN MUSIC EDUCATION (3) RES. 3. Review, analysis and interpretation of available research with emphasis on designing new research to meet the changing needs of school musicians. May count either CTMU 7510 or CTMU 7516.

CTMU 7520 CURRICULUM AND TEACHING IN MUSIC EDUCATION (3) LEC. 3. Teaching practices and evaluation of experiences and content for curriculum improvements. Students develop recommendations for music curriculum. May count either CTMU 7520 or CTMU 7526.

CTMU 7530 ORGANIZATION OF PROGRAM IN MUSIC EDUCATION (3) LEC. 3. Program, organization and development of basic and supplementary materials for guiding teachers, facilities and school systems in continuous improvement of curriculum and teaching practices in music education. May count either CTMU 7530 or CTMU 7536.

CTMU 7540 EVALUATION OF PROGRAM IN MUSIC EDUCATION (3) LEC. 3. Evaluation and investigation of teaching effectiveness including the utilization of human and material resources and the coordination of areas of specialization and issues in evaluation which are unique to music education settings. May count either CTMU 7540 or CTMU 7546.

CTMU 7550 APPLICATIONS OF TECHNOLOGY IN MUSIC EDUCATION (3) LEC. 3. An overview of applications of current technology in music classroom, studios, and offices. May count either CTMU 7550 or CTMU 7556.

CTMU 7560 DIGITAL MEDIA PRODUCTION FOR MUSIC EDUCATION (3) LEC. 3. Current tools, skills, and concepts for creating aural and visual interactive applications. May count either CTMU 7560 or CTMU 7566.

CTMU 7570 MUSIC INSTRUCTION MULTIMEDIA RESEARCH AND DEVELOPMENT (3) LEC. 3. Pr. CTMU 7550 or CTMU 7556. Departmental approval. Current research music instructional technology, design of interactive applications.

CTMU 7580 PSYCHOLOGY OF MUSIC (3) LEC. 3. This course will focus on exploring the musical experience psychological, psycho-acoustic, emotional, anthropological, sociological, and assistance perspectives to better understand how philosophical and practical approaches work in music teaching, learning, and in community settings. May count either CTMU 7580 or CTMU 7586.

CTMU 7590 WEB DESIGN AND MEDIA FOR MUSIC EDUCATORS (3) LEC. 3. Exploration and creation of media for music-focused curriculum and curriulcum support focused on competent implementation and delivery via web sites and web-based platforms.

CTMU 7900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent study directed toward desired objectives related to student's respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTMU 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DMU/PRA. SU. Departmental approval. Experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTMU 7970 SPECIAL TOPICS (1-9) DMU. Departmental approval. Provides an opportunity for graduate students and professors to pursue cooperatively selected topics. Course may be repeated for a maximum of 9 credit hours.

CTMU 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

CTMU 8950 SEMINAR (1-3) DMU. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTMU 8980 FIELD PROJECT (1-6) DMU. SU. Course may be repeated for a maximum of 6 credit hours.

CTMU 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with change in topics.

Reading Education Courses

CTRD 3000 FOUNDATIONS OF LANGUAGE AND LITERACY INSTRUCTION I (3) LEC. 3. LAB. 0, LEC. 0. Research-based theory and teaching strategies to meet the language and literacy needs of all children, especially those at risk of reading difficulties. Includes a practicum teaching experience.

CTRD 3001 PRACTICUM IN FOUND OF LANG LITERACY INSTRUCTION I (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTRD 3000. Admission to Teacher Education. This course is designed to provide 15 clock hours of teaching and experiences in Literacy Instruction in K-3 It is an intensive, interactive experience at a strategically selected school site.

CTRD 3010 FOUNDATIONS OF LANGUAGE AND LITERACY INSTRUCTION II (3) LEC. 3. LAB. 0, LEC. 0. Provides a scientifically based reading research foundation essential for understanding student reading development and informing explicit, systematic instruction in the core aspects of reading. Topics include understanding reading research, cognitive processes involved in reading, language development, and effective reading instruction and assessment for students in PK-6. Additionally, the course emphasizes the theoretical foundations of literacy development in children and its implications for teaching. Includes a practicum teaching experience.

CTRD 3011 PRACTICUM IN FOUND OF LANG LITERACY INSTRUCTION II (1) LEC. 0. LAB. 2, PRA. 0. SU. Pr. P/C CTRD 3010. Admission to Teacher Education. This course is designed to provide 30 clock hours of teaching and experiences in Language and Literacy Instruction II in intermediate grades. It is an intensive, interactive experience at a strategically selected school site.

CTRD 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent reading, research, or other work focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTRD 5000 LANGUAGE AND LITERACY IN THE CONTENT AREAS (3) LEC. 3. LAB. 0. Strategies to help fluent readers and English language learners learn content in the disciplines by strategic reading of texts. May count either CTRD 5000, CTRD 5003, CTRD 6000, or CTRD 6006.

CTRD 5030 THE READING OF ADOLESCENTS (3) LEC. 3. Admission to Teacher Education. Reading patterns of adolescents and uses of young adult literature in reading and English language arts programs, grades 6-12.

CTRD 5700 DEVELOPMENTAL READING K-12 (3) LEC. 3. Admission to Teacher Education. Theoretical and research foundations for a balanced approach to reading assessment and instruction, K-12. May count CTRD 5700, CTRD 6700, or CTRD 6706.

CTRD 6000 LANGUAGE AND LITERACY IN THE CONTENT AREAS (3) LEC. 3. Strategies to help fluent readers and English language learners learn content in the disciplines by strategic reading of texts. May count either CTRD 5000, CTRD 5003, CTRD 6000, or CTRD 6006.

CTRD 6030 THE READING OF ADOLESCENTS (3) LEC. 3. Reading patterns of adolescents and uses of young adult literature in reading and English language arts programs, grades 6-12.

CTRD 6700 DEVELOPMENTAL READING K-12 (3) LEC. 3. Theoretical and research foundations for a balanced approach to reading assessment and instruction, K-12. May count CTRD 5700, CTRD 6700, or CTRD 6706.

CTRD 6710 LITERACY AND INQUIRY IN THE CONTENT AREAS: GRADES 6-12 (3) LEC. 3. Strategies to enhance literacy and inquiry for students' content-area learning in the middle and secondary school. May count CTRD 5710, CTRD 6710, or CTRD 6716.

CTRD 7400 ASSESSMENT AND INSTRUCTION FOR READING INTERVENTION (3) LEC. 3. Research-based analysis of causal factors in reading difficulties, assessment strategies, and effective teaching with delayed readers. Includes practicum.

CTRD 7510 RESEARCH STUDIES IN READING EDUCATION (3) DSL/RES. 3. Review, analysis, and interpretation of available research with emphasis on designing new research to meet the changing needs of the school.

CTRD 7520 CURRICULUM AND TEACHING IN READING EDUCATION (3) LEC. 3. Teaching practices and reappraisal of selected experiences and content for curriculum improvement.

CTRD 7530 ORGANIZATION OF PROGRAM IN READING EDUCATION (3) LEC. 3. Program, organization, and development of basic and supplementary materials for guiding teachers, faculties, and school systems in the continuous improvement of curriculum and teaching practices.

CTRD 7540 EVALUATION OF PROGRAM IN READING EDUCATION (3) LEC. 3. Evaluation and investigation of teaching effectiveness with attention to the utilization of human and material resources and the coordination of areas of specialization.

CTRD 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study directed toward desired objectives related to respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTRD 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) DSL/PRA. SU. Departmental approval. Experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTRD 7920 CLINICAL RESIDENCY (1-9) DRD. SU. Supervised on-the-job experiences in a school, college or other appropriate setting, accompanied by regularly scheduled, on-campus discussion periods. Departmental approval. May count either CTRD 7920 or CTRD 7926. Course may be repeated for a maximum of 9 credit hours.

CTRD 7970 SPECIAL TOPICS (1-6) LEC. Departmental approval. Provides an opportunity for graduate students and professors to pursue cooperatively selected topics. Course may be repeated for a maximum of 6 credit hours.

CTRD 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topic.

CTRD 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTRD 8980 FIELD PROJECT (1-10) FLD. SU. Course may be repeated for a maximum of 10 credit hours.

CTRD 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with change in topics.

Secondary Education Courses

CTSE 1000 INQUIRY APPROACHES TO SCIENCE TEACHING: STEP 1 (1) LEC. 1. LAB. 2. This course allows students to explore teaching as a career. Following an introduction to the theory and practice behind excellent inquiry-based science instruction, candidates teach lessons in elementary classrooms to obtain firsthand experience in planning and implementation. An elementary school placement is chosen to help the AUTeach student connect with youth who are moving into the targeted grade band. Master teachers in AUTeach are instructors and are chosen for their experience and success in secondary classrooms. They provide candidates direct exposure to people who love teaching and view it as a rewarding career choice. Mentor teachers at the schools where candidates teach their prepared lessons demonstrate effective teaching techniques and classroom management skills, giving the future teachers a true taste of working in a supportive, diverse educational setting. The course emphasizes using the 5E Learning Cycle instructional model.

CTSE 2000 INQUIRY APPROACHES TO SCIENCE TEACHING: STEP 2 (1) LEC. 1. LAB. 2. This course allows students to continue developing the lesson planning and teaching skills explored in CTSE 1000 (Step 1). After observing a lesson being taught in a local school district classroom, students (in pairs) plan and teach two inquiry-based lessons to sixth, seventh, or eighth graders. Middle school science classrooms are selected both for the diversity of the student body and the quality of the classroom teachers, who serve as mentors for the Step 2 students assigned to them. For their final product, Step 2 students analyze and modify one of the lessons they taught, taking into account the results of the assessments, their reflection on how successful the lesson was, and feedback from observers (Mentor Teacher, Instructor, or Teaching Assistant). By the end of Step 2, students are usually able to make a decision about whether to pursue teacher certification through the AUTeach program. In addition to the unique Core Components and Course Objectives listed below, all AUTeach courses are designed in accordance with the AUTeach Course Design Principles. The course emphasizes using the 5E Learning Cycle instructional model.

CTSE 2500 INQUIRY APPROACHES TO SCIENCE TEACHING: COMBINED STEP 1 AND 2 (2) LEC. 2. LAB. 4. This course allows students to explore teaching as a career, learn the theory and practice behind excellent inquiry-based science instruction, and teach lessons in elementary and middle school classrooms in order to plan and implement lessons. This course replaces CTSE 1000 and CTSE 2000. It's a combined course. After observing lessons being taught in local school districts, students work in pairs to plan and teach two lessons in elementary classrooms, and two inquiry-based lessons to sixth, seventh, or eighth graders. Elementary and middle school science classrooms are selected both for the diversity of the student body and the quality of the classroom teachers, who serve as mentors for the students assigned to them. For their final product, Step 1/2 students analyze and modify one of the lessons they taught, taking into account the results of the assessments, their reflection on how successful the lesson was, and feedback from observers (Mentor Teacher, Instructor, or Teaching Assistant). By the end of this class, students are usually able to make a decision about whether to pursue teacher certification through the AUTeach program.

CTSE 4050 CURRICULUM AND TEACHING I: SOCIAL SCIENCE (4) LEC. 2. LAB. 4. Pr. CTSE 4210. Admission to Teacher Education. Application of current educational research and instructional strategies to the design of meaningful social studies instruction and assessment.

CTSE 4060 CURRICULUM AND TEACHING II: SOCIAL SCIENCE (4) LEC. 2. LAB. 4. Pr. CTSE 4050 and CTSE 4210. Admission to Teacher Education. Curriculum decision making and planning for instruction, evaluation, and classroom management.

CTSE 4070 CURRICULUM AND TEACHING I: FOREIGN LANGUAGE (4) LEC. 2. LAB. 4. Admission to Teacher Education. Strategies for teaching foreign language students with a special emphasis on developing good instruction for comprehensible input and emerging speech tasks. May count either CTSE 4070 or CTSE 4073.

CTSE 4080 CURRICULUM AND TEACHING II: FOREIGN LANGUAGE (4) LEC. 2. LAB. 4. Pr. CTSE 4070 or CTSE 4073. Admission to Teacher Education. Teaching strategies based on language acquisition theories that are appropriate for teaching foreign language students. May count either CTSE 4080 or CTSE 4083.

CTSE 4150 CURRICULUM AND TEACHING I: ENGLISH LANGUAGE ARTS (4) LEC. 2. LAB. 4. Pr. CTSE 5010 and CTSE 5020. Admission to Teacher Education. Teaching the expressive English language arts, writing and speaking, in middle and high school classrooms.

CTSE 4160 CURRICULUM AND TEACHING II: ENGLISH LANGUAGE ARTS (4) LEC. 2. LAB. 4. Pr. CTSE 4150. Admission to Teacher Education. Teaching the receptive English language arts; reading, listening, and viewing; in middle and high school classrooms. Admission to Teacher Education required.

CTSE 4210 SOCIAL SCIENCE CONCEPTS AND METHODS (3) LEC. 3. For pre-service teachers. Organizing social science disciplinary knowledge into an integrated framework that is meaningful, useful, and relevant to high school students. 15 hours in social sciences (2000 level or above).

CTSE 4900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent reading, research, or other work focused on a content area of special interest. The student is directed by a faculty member. Course may be repeated for a maximum of 6 credit hours.

CTSE 4910 PRACTICUM (1-6) DSL/PRA. SU. Departmental approval. Admission to Teacher Education. Cooperatively selected field experience. Course may be repeated for a maximum of 6 credit hours.

CTSE 4920 CLINICAL RESIDENCY (11) AAB/DSL. 40. SU. Pr. P/C CTSE 5210 or P/C CTSE 5213 or P/C CTSE 5220 or P/C CTSE 5223 or P/C CTSE 5230 or P/C CTSE 5233 or P/C CTSE 5240 or P/C CTSE 5243 or P/C CTSE 5250 or P/C CTSE 5253 or P/C CTSE 5410. Admission to Clinical Residency. Supervised teaching in a public secondary school abroad accompanied by scheduled discussions to analyze and evaluate the intern's experience. May count either CTSE 4920 or CTSE 4923.

CTSE 4930 AUTEACH CLINICAL RESIDENCY (8) DSL/FLD. 30. SU. Pr. P/C CTSE 5240 or P/C CTSE 5243. Departmental approval. Supervised science teaching in a public secondary school accompanied by scheduled discussions to analyze and evaluate the clinical resident's experience.

CTSE 4970 SPECIAL TOPICS (1-4) DSL. Departmental approval. Cooperatively selected concepts and theories pursued, normally in small groups. Course may be repeated for a maximum of 4 credit hours.

CTSE 5000 TECHNOLOGY IN SCIENCE EDUCATION (2) LEC. 2. Introduction and application of current and emerging instructional and communication technologies for integration in the secondary science program. May count either CTSE 5000, CTSE 5003, CTSE 6000 or CTSE 6006.

CTSE 5010 LANGUAGE STUDY FOR TEACHERS (3) LEC. 3. Theories of language development and language study applicable to middle and high school classrooms; implications for teaching grammar, usage, dialects, and semantics. Departmental approval. Junior standing. May count either CTSE 5010, CTSE 6010 or CTSE 6016.

CTSE 5020 RHETORIC AND COMPOSITION FOR TEACHERS (3) LEC. 3. Theories of rhetoric and composition applicable to middle and high school classrooms; implications for planning writing curricula, instruction, and assessment/evaluation. May count either CTSE 5020 or CTSE 6020.

CTSE 5030 TEACHING MATHEMATICS: HIGH SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Strategies for teaching and evaluating high school mathematics to promote the learning of all students.

CTSE 5031 PRACTICUM IN HIGH SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 5030. Admission to Teacher Education. This course is designed to provide 36 clock hours of teaching and experience in High School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTSE 5040 TECHNOLOGY AND APPLICATIONS IN SECONDARY MATHEMATICS EDUCATION (3) LEC. 3. LAB. 0, LEC/LLB. 0. Pr. MATH 2660. Admission to Teacher Education. Use of technological tools to enhance mathematics teaching and learning. May count either CTSE 5040 or CTSE 6040.

CTSE 5041 PRACTICUM IN SECONDARY MATHEMATICS TECHNOLOGY (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 5040. Admission to Teacher Education. This course is designed to provide 18 clock hours of teaching and experience in Secondary Mathematics Technology. It is an intensive, interactive experience at a strategically selected school site.

CTSE 5050 ANALYZING PERSISTENT ISSUES IN HISTORY AND GEOGRAPHY (3) LEC. 3. This course will engage students in inquiry-based and Persistent Issues in History units of content instruction with selected topics that integrate history and geography content and then deconstruct those units to examine the research-based learning and assessment principles that underlie their design.

CTSE 5060 ANALYZING PERSISTENT ISSUES IN POLITICAL ECONOMY (3) LEC. 3. This course integrates moral philosophy, political science, and economics into an exploration of persistent issues in political economy. Students will metacognitively analyze their own learning as they investigate and propose a policy solution to a political economy problem.

CTSE 5090 CURRICULUM AND TEACHING I: SCIENCE (4) LEC. 2. LAB. 4. Planning, teaching strategies, evaluation techniques and classroom management procedures needed to be a successful science teacher.

CTSE 5100 CURRICULUM AND TEACHING II: SCIENCE (4) LEC. 2. LAB. 4. Pr. CTSE 4090. Admission to Teacher Education. Higher-order reasoning and process skills using state and national standards as guides. Theoretical and applied approaches. May count either CTSE 5100 or CTSE 6100.

CTSE 5110 PERSPECTIVES IN SCIENCE (3) LEC. 3. Perspectives on Science is an overview and introduction to the scholarly field of science history with applications for embedding historical stories and discoveries into today’s secondary science classrooms.

CTSE 5210 TEACHER INQUIRY WORKSHOP: PROBLEMS AND POSSIBILITIES (1) LEC. 1. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. Community of practice for English Language Arts clinical residents to support professional practice through teacher inquiry. May count either CTSE 5210, CTSE 5213, CTSE 6210, or CTSE 6216.

CTSE 5220 CLASS MANAGEMENT AND DISCIPLINE IN FOREIGN LANGUAGE CLASSROOM (1-2) AAB. Admission to Clinical Residency. Seminar for clinical residents on classroom management in Foreign Language Education. May count either CTSE 5220 or CTSE 6220. Course may be repeated for a maximum of 2 credit hours.

CTSE 5230 MANAGING MIDDLE AND HIGH SCHOOL CLASSROOM (MATH EDUCATION) (1) AAB/DSL. 15. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. The role of the teacher in mathematics classroom management. Methods for developing a positive learning environment. May count either CTSE 5230, CTSE 5233, CTSE 6230 or CTSE 6236.

CTSE 5240 CLINICAL RESIDENCY SEMINAR IN SCIENCE TEACHING (1) AAB/DSL. 15. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. Seminar for Science Education clinical residents in classroom management, professional development, diversity and equity issues, theory and practice. May count either CTSE 5240, CTSE 5243, CTSE 6240 or CTSE 6246.

CTSE 5250 SEMINAR IN SOCIAL SCIENCE EDUCATION (1) AAB. 15. Pr. P/C CTSE 4920 or P/C CTSE 4923. Admission to Clinical Residency. Best practices for managing secondary social science classrooms and ethically resolving students discipline issues for a positive learning climate for all students. May count either CTSE 5250, CTSE 5253, CTSE 6250 or CTSE 6256.

CTSE 5830 STATISTICS AND PROBABILITY FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. STAT 2010 or STAT 3010. Admission to Teacher Education. Connections of college-level mathematics with the secondary mathematics curriculum, focusing on statistics and probability, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving.

CTSE 5840 NUMBER SYSTEMS AND ALGEBRA FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MATH 1620. Admission to Teacher Education. Connections of college-level mathematics with the secondary mathematics curriculum, focusing on number systems, algebra, and functions, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving.

CTSE 5850 FUNCTIONS AND MATHEMATICAL MODELING FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MATH 2630. Admission to Teacher Education. Connections of advanced college-level mathematics with the secondary mathematics curriculum, focusing on functions and mathematical modeling, to develop mathematical knowledge relevant to teaching. Includes appropriate uses of technology and non-routine mathematics problem solving.

CTSE 5860 GEOMETRY FOR SECONDARY MATHEMATICS TEACHERS (3) LEC. 3. LAB. 0, LEC. 0. Pr. MATH 1610. Admission to Teacher Education. Connections of college-level mathematics with the secondary mathematics curriculum, focusing on geometry, to develop mathematical knowledge relevant to teaching. The contents include axiomatic development of geometry, transformational geometry, and similarity. Appropriate technology and mathematics problem solving skills will be introduced.

CTSE 6000 TECHNOLOGY IN SCIENCE EDUCATION (2) LEC. 2. Introduction and application of current and emerging instructional and communication technologies for integration in the secondary science program. May count either CTSE 5000, CTSE 5003, CTSE 6000 or CTSE 6006.

CTSE 6010 LANGUAGE STUDY FOR TEACHERS (3) LEC. 3. Theories of language development and language study applicable to middle and high school classrooms; implications for teaching grammar, usage, dialects, and semantics. Departmental approval. May count either CTSE 5010, CTSE 6010 or CTSE 6016.

CTSE 6020 RHETORIC AND COMPOSITION FOR TEACHERS (3) LEC. 3. Theories of rhetoric and composition applicable to middle and high school classrooms; implications for planning writing curricula, instruction, and assessment/evaluation. May count either CTSE 5020, CTSE 6020 or CTSE 6026.

CTSE 6030 TEACHING MATHEMATICS: HIGH SCHOOL (3) LEC. 3. LAB. 0, LEC. 0. Strategies for teaching and evaluating high school mathematics to promote the learning of all students.

CTSE 6031 PRACTICUM IN HIGH SCHOOL MATHEMATICS (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 6030. This course is designed to provide 36 clock hours of teaching and experience in High School Mathematics. It is an intensive, interactive experience at a strategically selected school site.

CTSE 6040 TECHNOLOGY AND APPLICATIONS IN SECONDARY MATHEMATICS EDUCATION (3) LEC. 3. LAB. 0, LEC. 0. Use of technological tools to enhance mathematics teaching and learning. May count either CTSE 5040 or CTSE 6040.

CTSE 6041 PRACTICUM IN SECONDARY MATHEMATICS TECHNOLOGY (1) LEC. 0. LAB. 1, PRA. 0. SU. Pr. P/C CTSE 6040. This course is designed to provide 18 clock hours of teaching and experience in Secondary Mathematics Technology. It is an intensive, interactive experience at a strategically selected school site.

CTSE 6050 ANALYZING PERSISTENT ISSUES IN HISTORY AND GEOGRAPHY (3) LEC. 3. This course will engage students in inquiry-based and Persistent Issues of History units of content instruction with selected topics that integrate history and geography content and then deconstruct those units to examine the research-based learning and assessment principles that underlie their design.

CTSE 6060 ANALYZING PERSISTENT ISSUES IN POLITICAL ECONOMY (3) LEC. 3. This course integrates moral philosophy, political science, and economics into an exploration of persistent issues in political economy. Students will metacognitively analyze their own learning as they investigate and propose a policy solution to a political economy problem.

CTSE 6090 CURRICULUM AND TEACHING I: SCIENCE (4) LEC. 2. LAB. 4. Planning, teaching strategies, evaluation techniques and classroom management procedures needed to be a successful science teacher.

CTSE 6100 CURRICULUM AND TEACHING II: SCIENCE (4) LEC/LLB. 6. Pr. CTSE 4090. Higher-order reasoning and process skills using state and national standards as guides. Theoretical and applied approches. May count either CTSE 5100 or CTSE 6100.

CTSE 6210 TEACHER INQUIRY WORKSHOP: PROBLEMS AND POSSIBILITIES (1) AAB. 1. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Community of practice for English Language Arts clinical residents to support professional practice through teacher inquiry. May count either CTSE 5210, CTSE 5213, CTSE 6210, or CTSE 6216.

CTSE 6220 CLASS MANAGEMENT AND DISCIPLINE IN FOREIGN LANGUAGE CLASSROOM (1) AAB. 15. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Seminar for clinical residents on classroom management in Foreign Language Education. May count either CTSE 5220, CTSE 5223, CTSE 6220 or CTSE 6226.

CTSE 6230 MANAGING MIDDLE AND HIGH SCHOOL CLASSROOM (MATH EDUCATION) (1) AAB. 15. Pr. (P/C CTSE 7920 or P/C CTSE 7926). Admission to Clinical Residency. The role of the teacher in mathematics classroom management. Methods for developing a positive learning environment. May count either CTSE 5230, CTSE 5233, CTSE 6230 or CTSE 6236.

CTSE 6240 CLINICAL RESIDENCY SEMINAR IN SCIENCE TEACHING (1) AAB. 15. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Seminar for Science Education clinical residents in classroom management, professional development, diversity and equity issues, theory and practice. May count either CTSE 5240, CTSE 5243, CTSE 6240 or CTSE 6246.

CTSE 6250 SEMINAR IN SOCIAL SCIENCE EDUCATION (1) AAB. 15. Pr. P/C CTSE 7920 or P/C CTSE 7926. Admission to Clinical Residency. Best practices for managing secondary social science classrooms and ethically resolving students discipline issues for a positive learning climate for all students. May count either CTSE 5250, CTSE 5253, CTSE 6250 or CTSE 6256.

CTSE 6710 LANGUAGE STUDY FOR TEACHERS (3) LEC. 3. Theories of language development and language study applicable to middle and high school classrooms; implications for teaching grammar, usage, dialects, and semantics. May count either CTSE 5710, CTSE 6710, or CTSE 6716.

CTSE 7000 ORIENTATION TO TEACHING AND LEARNING (1) LEC. 1. Skills, dispositions, community, and research planning for graduate students including preparation of a research proposal. May count either CTSE 7000 or CTSE 7006.

CTSE 7490 THE SECONDARY SCHOOL PROGRAM (3) LEC. 3. Departmental approval. Implications of research and theory for the total secondary school program.

CTSE 7510 RESEARCH STUDIES IN AREA OF SPECIALIZATION (3) LEC. 3. Research methodology, landmark studies, critique and application of research in the area of specialization.

CTSE 7520 CURRICULUM AND TEACHING IN AREA OF SPECIALIZATION (3) LEC. 3. Nature of learners and of knowledge and implications for for building curricula and planning instruction in the area of specialization. May count either CTSE 7520 or CTSE 7526.

CTSE 7530 ORGANIZATION OF PROGRAM IN AREA OF SPECIALIZATION (3) LEC. 3. Program models, components, and standards in the area of specialization. May count either CTSE 7530 or CTSE 7536.

CTSE 7540 EVALUATION OF PROGRAM IN AREA OF SPECIALIZATION (3) LEC. 3. Theoretical perspectives of evaluation and methods of evaluating learners, teachers, and curricula. May count either CTSE 7540 or CTSE 7546.

CTSE 7560 EQUITY ISSUES IN MATHEMATICS EDUCATION (3) LEC. 3. Theories, issues, and pedagogy related to achieving equity in mathematics education.

CTSE 7800 CAPSTONE IN TEACHING AND LEARNING (2) LEC. 2. Development of a unique portfolio based on professional interest and demonstration the ability to foster student achievement through the design, implementation, and assessment of learning activities. May count either CTSE 7800 or CTSE 7806.

CTSE 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study directed toward desired objectives related to their respective areas of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTSE 7910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) AAB. SU. Departmental approval. Experience relating theory and practice, usually in a school setting. Course may be repeated for a maximum of 6 credit hours.

CTSE 7920 CLINICAL RESIDENCY (8-11) AAB. 40. SU. Pr. P/C CTSE 6210 or P/C CTSE 6216 or P/C CTSE 6220 or P/C CTSE 6226 or P/C CTSE 6230 or P/C CTSE 6236 or P/C CTSE 6240 or P/C CTSE 6246 or P/C CTSE 6250 or P/C CTSE 6256. Admission to Clinical Residency. Supervised clinical residency experiences in a school, college or other appropriate setting. Evaluation and analysis of the clinical residency experinece. Departmental approval. May count either CTSE 7920 or CTSE 7926. Course may be repeated for a maximum of 11 credit hours.

CTSE 7970 SPECIAL TOPICS (1-6) DFL. Departmental approval. Provides an opportunity for the graduate student and professor to pursue selected topics in depth. Course may be repeated for a maximum of 6 credit hours.

CTSE 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

CTSE 8950 SEMINAR (1-3) DSL/SEM. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTSE 8980 FIELD PROJECT (1-3) DSL/FLD. SU. Departmental approval. Students review literature pertaining to a problem they have identified in their own practice, form hypotheses, plan intervention, collect data, analyze and interpret results, write summary of the project following approved guidelines, and orally defend the results of their project. Course may be repeated for a maximum of 3 credit hours.

CTSE 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated with change in topics.

3 Prerequisite: Admission to Teacher Education.
4 Co-requisite with Clinical Residency.
5 Prerequisite: Admission to Clinical Residency (application for Clinical Residency is one year in advance).

Elementary Education (CEEB)

Due to high demand, the elementary education major has a restricted enrollment. A total of 90 elementary education applicants are admitted each year with admission decisions occurring in fall and spring. Applications are considered only if students have met all criteria noted in the Admission to Teacher Education. Fall semester 30 applicants are accepted and begin a cohort sequence the following spring semester; spring semester 60 applicants are accepted and begin a cohort sequence the following fall semester. Rankings for elementary education applicants are determined by the AU Core GPA and a professional interview which includes a review of a resume, a writing sample, and an interview. In addition to meeting all Auburn University GPA graduation requirements, candidates must also meet all ALSDE GPA requirements.

Science Teaching Double Major

AUTeach is a teacher preparation program designed for undergraduate science students in the College of Sciences and Mathematics (COSAM). The program consists of a 30-hour science teaching major that is available only as a second major added to a COSAM degree. Students who complete the science teaching requirements along with the requirements of their COSAM degree will earn a double-major in science teaching and will be certified to teach secondary science in Alabama public schools. Currently, students majoring in chemistry, physics, or the interdisciplinary health sciences concentration of biomedical sciences can complete the double-major in 4–4.5 years. Other programs might require additional time. Please visit https://auburn.edu/auteach (https://nam11.safelinks.protection.outlook.com/?url=https%3A%2F%2Fauburn.edu%2Fauteach&data=05%7C02%7Cgodwinh%40auburn.edu%7C061eb187447340a2bde008dc790d904b%7Cccb6deedbd294b388979d72780f62d3b%7C0%7C0%7C638518346387064904%7CUnknown%7CTWFpbGZsb3d8eyJWIjoiMC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6Ik1haWwiLCJXVCI6Mn0%3D%7C0%7C%7C%7C&sdata=HMK%2F2WYCso1N2Mb6OXHk257IiEM5oiW%2BrYB9fchUFDI%3D&reserved=0) for details on the program and to request additional information.

Special Education for Health and Related Service Professionals Minor

The special education for health and related service professionals minor will provide students interested in careers associated with children in schools or childcare settings with a foundational understanding of educational supports for learning and social development (e.g., doctors, nurses, dentists, speech/language pathologists, audiologists, physical & occupational therapists, counselors, service providers, child development professionals, general education teachers, early intervention professionals, etc.). Completion of this minor in no way leads to teacher certification or fulfills other requirements. The minor is not an option for students enrolled in collaborative special education, early childhood special education or any other special education certification requirements.

15 semester hours in minor

Code	Title	Hours
COUN 2000	Living and Communicating in a Diverse Society (any semester)	3

Department of Educational Foundations, Leadership and Technology

The Department of Educational Foundations, Leadership and Technology prepares exemplary educational practitioners and develops cooperative partnerships with university departments, schools, community agencies, business and industry to provide outstanding educators, trainers and leaders. This department ensures that students will participate in theoretical, applied and practitioner-based research enhancing the fields of adult education, higher education, educational leadership, educational media and educational psychology.

The department offers one undergraduate minor in training and workforce development as well as a graduate minor in critical studies in education and a graduate minor in the psychology of learning. All other programs are at the graduate level; however, the department provides service courses for undergraduate teacher education majors in the areas of educational foundations and educational media.

Information about graduate programs is available at: Educational Foundations, Leadership and Technology — MEd, MS, EdS, PhD, Graduate Certificate, Minor.

- Training and Workforce Development (p. 521)

Adult Education Courses

ADED 4010 LEARNING RESOURCES IN AREA OF SPECIALIZATION (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching.

ADED 4050 METHODS OF TEACHING IN ORGANIZATIONS (3) LEC. 2. LAB. 2. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within adult education.

ADED 4600 NATURE OF ADULT EDUCATION (3) LEC. 3. History and principles of adult education applied to the development and implementation of programs in remedial, occupational, continuing, and life-long learning.

ADED 4610 DIRECTED WORK EXPERIENCE (3) LEC. 3. SU. In-service, supervised work experience individually designated for part-time or summer work experience.

ADED 4620 COMMUNITY CONCEPTS, PROGRAMS, AND RESOURCES IN ADULT EDUCATION (3) LEC. 3. Processes by which adult education is merged with community organizations to maximize the effective use of physical and human resources.

ADED 4650 TEACHING THE DISADVANTAGED ADULT (3) LEC. 3. Problems of the disadvantaged adult with emphasis on the unique sociological, psychological, and physiological factors that influence learning and participation in remedial learning activities.

ADED 4660 TEACHING IN THE NON-SCHOOL SETTING (3) LEC. 3. Planning, conducting, and supervising instruction for adults in varied non-school settings.

ADED 4900 INDEPENDENT STUDY (1-6) IND. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

ADED 4910 PRACTICUM (1-6) PRA. SU. Departmental Approval. Experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

ADED 4920 PROFESSIONAL INTERNSHIP IN ADULT EDUCATION (9) INT. 9. SU. Supervised internship experiences in a school or other appropriate setting. Evaluation and analysis of the internship experience. Or Minor.

ADED 4970 SPECIAL TOPICS (1-6) LEC. Current or special topics within adult education. Course may be repeated for a maximum of 6 credit hours.

ADED 7010 LEARNING RESOURCES (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching. May count either ADED 7010 or ADED 7016.

ADED 7050 METHODS OF TEACHING IN ADULT EDUCATION (3) LEC. 3. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within adult education. May count either ADED 7050 or ADED 7056.

ADED 7060 CURRICULUM AND PROGRAM PLANNING IN ADULT EDUCATION (3) LEC. 3. Introduction to principles and practices involved in designing education programs in the area of specialization. May count either ADED 7060 or ADED 7066.

ADED 7600 NATURE OF ADULT EDUCATION (3) LEC. 3. History and principles of adult education applied to the development and implementation of programs in remedial, occupational, continuing and life-long learning. May count either ADED 7600 or ADED 7606.

ADED 7620 CONCEPTS, PROGRAMS, AND RESOURCES IN ADULT EDUCATION (3) LEC. 3. Processes by which adult education is merged with community organizations to maximize the effective use of physical and human resources. May count either ADED 7620 or ADED 7626.

ADED 7640 WORKFORCE EDUCATION (3) LEC. 3. Identification and evaluation of basic skills problems in the workplace. Strategies for addressing workplace education issues. May count either ADED 7640 or ADED 7646.

ADED 7650 TEACHING DIVERSE POPULATIONS IN ADULT EDUCATION (3) LEC. 3. This course is designed to define, analyze, and understand diverse populations of adult learners with emphasis on the unique sociological, psychological, and physiological factors that influence learning and participation in workforce education, community agencies, higher education, or other educational roles.

ADED 7670 ADULT EDUCATION IN COOPERATIVE EXTENSION (3) LEC. 3. Exploration of the unique relationship between adult education and the Cooperative Extension System. May count either ADED 7670 or ADED 7676.

ADED 7680 EXPERIENTIAL LEARNING IN ADULT EDUCATION (3) LEC. 3. This course is designed to introduce the key theories of teaching and learning related to experiential learning in adult education and training.

ADED 7690 MEETING DIVERSE NEEDS IN ADULT EDUCATION SETTINGS (3) LEC. 3. This course provides an innovative look at disability services in post-secondary institutions. Learners will study the history of disability services, legislation, campus accessibility, assessment of the accessibility of adult education settings and other topics of interest.

ADED 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 3 credit hours.

ADED 7910 PRACTICUM (1-3) DSL/PRA. SU. Departmental approval. Experiences closely relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 3 credit hours.

ADED 7920 INTERNSHIP (1-10) DSL/INT. SU. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. May count either ADED 7920 or ADED 7926. Course may be repeated for a maximum of 10 credit hours.

ADED 7950 SEMINAR (1-3) DSL/SEM. SU. Presentation of research projects, analysis of procedures, and findings. Course may be repeated for a maximum of 3 credit hours.

ADED 7960 READINGS (1-3) DSL/IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 6 credit hours.

ADED 7970 SPECIAL TOPICS (1-6) LEC. 1-6. Departmental approval. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

ADED 7990 RESEARCH AND THESIS (1-10) DSL/MST. Departmental approval. Individualized support and direction for students writing their thesis. Course may be repeated with change in topics.

ADED 8900 DIRECTED STUDIES (1-6) DSL/IND. SU. Departmental approval. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

ADED 8910 PRACTICUM (1-6) DSL/PRA. SU. Departmental approval. Experiences closely relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

ADED 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised internship experiences in a school, college, or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 10 credit hours.

ADED 8950 SEMINAR (1-6) DSL/SEM. SU. Presentation by graduate students of research projects and/or analysis of procedures and findings. Course may be repeated for a maximum of 6 credit hours.

ADED 8960 SPECIAL PROBLEMS (1-6) IND. Departmental approval. Critical analysis of current and classical research writings. Course may be repeated for a maximum of 6 credit hours.

ADED 8970 SPECIAL TOPICS (1-6) DSL. Departmental approval. Current or advanced topics within adult education. Course may be repeated for a maximum of 6 credit hours.

ADED 8980 FIELD PROJECT (1-10) DSL/FLD. SU. Field project formulated, planned, conducted, evaluated, and reported in appropriate written form and oral formats under the direction of the student's major professor. Course may be repeated for a maximum of 10 credit hours.

ADED 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Departmental approval. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 hours

Ed Resrch, Methods, Analysis Courses

ERMA 2400 APPLIED QUANTITATIVE DATA ANALYSIS IN EDUCATION AND HEALTH PROFESSIONS (3) LEC. 3. This course provides undergraduate students who are interested in education, counseling, school psychology, or health professions with data management, data analysis reasoning, and data-based decision-making skills.

ERMA 4330 INTRODUCTION TO SPORTS ANALYTICS (3) LEC. 3. Pr. MATH 1100 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617 or MATH 1680 or MATH 1683. This course provides an introduction to the field of sports analytics, which is the use of scientific techniques to model sports performance. This course will introduce students to individual and team performance measures, their interpretation and basic analyses using those measures.

ERMA 7100 ADVANCED STUDY OF EDUCATIONAL MEASUREMENT AND EVALUATION (3) LEC. 3. Educational measurement and evaluation with special emphasis on uses of measurement data such as standardized testing and emerging evaluation models such as alternative and authentic assessment.

ERMA 7110 EDUCATIONAL PSYCHOLOGY AND ASSESSMENT (3) LEC. 3. Study of educational psychology as it applies to understanding the teaching-learning process. Measurement and evaluation skills will also be covered.

ERMA 7200 BASIC METHODS IN EDUCATION RESEARCH (3) LEC. 3. Major modes of inquiry in contemporary educational research including experimental, casual comparative, descriptive, qualitative inquiry, and action research models.

ERMA 7210 THEORY AND METHODOLOGY OF QUALITATIVE RESEARCH (3) LEC. 3. Major modes of qualitative research, their underlying philosophical assumptions about knowledge, and the major strategies for collecting and analyzing relevant data.

ERMA 7220 APPLIED QUALITATIVE RESEARCH (3) LEC. 3. Pr. ERMA 7210 or ERMA 7216 or FOUN 7210. Study of detailed strategies of data collection, principles of observation, interviewing, focus groups, recording and coding data, triangulation, strategies for analyzing coded data, and writing up of one's findings.

ERMA 7230 WRITING AS INQUIRY IN QUALITATIVE RESEARCH (3) LEC. 3. Pr. ERMA 7210 or ERMA 7216. This course is based on the assumption that qualitative researchers learn their trade through both scholarship (i.e., deskwork) and firsthand experience (i.e., fieldwork). We take away lessons from doing our own research and from the research experiences of others. For this reason, the course has three aims: to hone your skills reading methodological and empirical literature; to experiment with analysis via writing, including crafting reports of findings and other pieces of writing; and to reflect meaningfully on these processes, including their theoretical, methodological, and ethical dimensions.

ERMA 7240 THINKING WITH THEORY IN QUALITATIVE RESEARCH (3) LEC. 3. Pr. ERMA 7210 or ERMA 7216. This course is designed to give an overview and introduction to a variety of theorists and theoretical approaches that are often used in qualitative inquiry. We will compare and contrast the assumptions, design, and methods of different philosophies and theories in qualitative research.

ERMA 7300 DESIGN AND ANALYSIS IN EDUCATION I (3) LEC. 3. Departmental approval. Basic methods of inferential analysis including t-tests, between and within subjects ANOVA, mixed ANOVAs and hierarchical designs as they are utilized in educational research.

ERMA 7310 DESIGN AND ANALYSIS IN EDUCATION II (3) LEC. 3. Pr. (FOUN 7300 or ERMA 7300) or (FOUN 7306 or ERMA 7306). Bivariate and multiple correlation and regression analysis, trend analysis, analysis of covariance, and logistic regression, as they are utilized in educational research. Departmental approval. May count either ERMA 7310 or ERMA 7316.

ERMA 7320 APPLIED QUANTITATIVE RESEARCH (3) LEC. 3. Pr. (ERMA 7200 or ERMA 7206 or FOUN 7200 or FOUN 7206) and (ERMA 7300 or ERMA 7306 or FOUN 7300 or FOUN 7306). The study and application of detailed strategies of research study designs, data collection, analysis, and reporting of quantitative data. Course may be repeated for a maximum of 6 credit hours.

ERMA 7400 MIXED METHODS RESEARCH (3) LEC. 3. Pr. ERMA 7200 or ERMA 7206 or ERMA 7210 or ERMA 7216 or ERMA 7300 or ERMA 7306. Overview and introduction to the use of mixed methods research in the social and behavioral sciences.

ERMA 7410 RESEARCH METHODS FOR SOCIAL JUSTICE AND EQUITY (3) LEC. 3. Pr. ERMA 7300 or ERMA 7306 or ERMA 7210 or ERMA 7216 or ERMA 7400. This course focuses on critical educational research in the scholar-activist model. Through engaging with critical theoretical frameworks, critical empirical research, and research methods, this course prepares students to produce research and scholarship for social justice and equity in education.

ERMA 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

ERMA 7910 PRACTICUM IN EDUCATIONAL RESEARCH, MEASUREMENT, AND EVALUATION (1-3) LEC. 1-3. SU. Pr. (ERMA 7210 or ERMA 7216) and (ERMA 7300 or ERMA 7306). Supervised experience related to area of specialization within educational research, measurement, and evaluation. Course may be repeated for a maximum of 6 credit hours.

ERMA 7970 SPECIAL TOPICS IN EDUCATION RESEARCH METHODS & ASSESSMENT (1-6) DSL/LEC. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be with a change in topic. Course may be repeated with change in topics.

ERMA 8100 PROGRAM EVALUATION (3) LEC. 3. Study of various theories and models of curriculum evaluation, methodological issues regarding planning and conducting evaluation studies, reporting and using information from evaluation.

ERMA 8120 TEACHER EVALUATION (3) LEC. 3. Analysis of research on teaching, classroom observation methods, teaching portfolios, supervision of teachers, license and certification assessment, ethical and legal consideration, and using information to improve teaching.

ERMA 8200 SURVEY RESEARCH METHODS (3) LEC. 3. Overview of survey research, sampling issues, selection and construction of survey instruments, response effects, issues influencing response rate, reliability and validity of survey data, and analysis of survey data.

ERMA 8210 PREP RESEARCH FOR PUBLICATION (3) LEC. 3. SU. Pr. (ERMA 7300 or ERMA 7306) and (ERMA 7310 or ERMA 7316) and (ERMA 7210 or FOUN 7210 or FOUN 7300 or FOUN 7306 or FOUN 7310 or FOUN 7316). Preparation of graduate student research for publication or presentation at professional conference through practice, group discussions, peer review and feedback from experienced editorial board members. May count either ERMA 8210 or ERMA 8216.

ERMA 8320 DESIGN AND ANALYSIS IN EDUCATION III (3) LEC. 3. Pr. (FOUN 7310 or ERMA 7310) or (ERMA 7316 or FOUN 7316). Departmental approval. Discriminate analysis, MANOVA, canonical correlation, path analysis, exploratory and confirmatory factor analysis, and hierarchical linear modeling as they are utilized in educational research.

ERMA 8330 NON-PARAMETRIC DATA ANALYSIS IN EDUCATION RESEARCH (3) LEC. 3. Pr. FOUN 7300 or FOUN 7306 or ERMA 7300 or ERMA 7306. Departmental approval. Common non-parametric statistical tests appropriate for use with nominal and ordinal data in educational applications. These include rank-order correlation, sign tests, median tests, analysis of variance of ranks and log-linear analysis.

ERMA 8340 A PRACTICAL INTRODUCTION TO STRUCTURAL EQUATION MODELING (3) LEC. 3. Pr. (FOUN 8320 or ERMA 8320 or ERMA 8326). Departmental approval. Theory and practice of structural equation modeling techniques as they are utilized in educational research will be developed by expanding concepts of multiple linear regression and exploratory factor analysis to allow for correlation and causally related latent constructs.

ERMA 8350 ADVANCED MEASUREMENT THEORY (3) LEC. 3. Pr. (FOUN 7300 or ERMA 7300 or ERMA 7306 or FOUN 7306) and (FOUN 7310 or ERMA 7310 or FOUN 7316 or ERMA 7316). Introduction to classical and modern (IRT) test theory, measurement properties, differential item functioning, standard and adaptive testing.

ERMA 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individualized support and direction for students writing their dissertations. Course may be repeated with change in topics.

Educational Leadership Courses

EDLD 7200 SUPERVISION AND PERSONNEL MANAGEMENT (3) LEC. 3. Supervision theory and practice with responsibility for leadership in the recruitment, evaluation and staff development of employees. May count either EDLD 7200 or EDLD 7206.

EDLD 7210 MULTIPROFESSIONAL LEADERSHIP FOR EQUITY (3) LEC. 3. National, state, and local evidence will inform students' understanding of diversity issues in schools. Theories, concepts and principles of leadership from a multidisciplinary, multiprofessional perspective, will be applied to addressing issues of equity in schools. May count either EDLD 7210 or EDLD 7216.

EDLD 7220 ORGANIZATIONAL AND SCHOOL MANAGEMENT (3) LEC. 3. This course will prepare students in understanding legal and ethical responsibilities of school leaders, fiscal revenues and expenditures of Alabama public schools, using action research and components of a comprehensive, ongoing, planning and budgeting program. May count either EDLD 7220 or EDLD 7226.

EDLD 7330 INTRODUCTION TO CURRICULUM AND INSTRUCTIONAL LEADERSHIP (3) LEC. 3. Principles of curriculum development and the leadership skills required to enact it with emphasis on school settings.

EDLD 7340 OVERVIEW OF CURRICULUM PROCESSES (3) LEC. 3. Curriculum as a field of study; the first course required for the ASC concentration in curriculum; an overview of curriculum history, processes, models, and designs.

EDLD 7500 PRINCIPAL LEADERSHIP (3) LEC. 3. Designed to serve instructional leaders in K-12 settings concerning leadership dispositions and leadership theory important to promoting student success and achievement. May count either EDLD 7500 or EDLD 7506.

EDLD 7510 ACTION RESEARCH AND DATA ANALYSIS (3) LEC. 3. Research methodologies to improve instructional and school-based decision-making action, qualitative, and case study techniques applied to school, classroom, or school-community observation. May count either EDLD 7510 or EDLD 7516.

EDLD 7520 LEADERSHIP AND THE LEARNING ORGANIZATION (3) LEC. 3. Management of schools as learning organizations; issues related to student learning and achievement through attention to organizational components. May count either EDLD 7520 or EDLD 7526.

EDLD 7530 PLANNING AND CONTINUOUS IMPROVEMENT (3) LEC. 3. Development of frameworks for collection, analysis, and use of school data for the improvement of instruction, the learning environment, and student achievement. May count either EDLD 7530 or EDLD 7536.

EDLD 7540 INSTRUCTIONAL AND CURRICULAR LEADERSHIP (3) LEC. 3. Curriculum design and development; areas of study include student needs, organizational mission and goals, data driven improvement, change process, diverse faculty, curriculum alignment tools. May count either EDLD 7540 or EDLD 7546.

EDLD 7550 EDUCATIONAL FINANCE AND RESOURCE MANAGEMENT (3) LEC. 3. Preparation of pro-active leaders in school business affairs; use of action research and components of a comprehensive, ongoing, planning and budgeting program; facilities management. May count either EDLD 7550 or EDLD 7556.

EDLD 7560 EDUCATIONAL SYSTEMS AND COMMUNITIES (3) LEC. 3. Change theory, forecasting, trend analysis and application of these concepts to student achievement and school improvement efforts.

EDLD 7570 LEGAL AND ETHICAL ISSUES (3) LEC. 3. Ethical and legal provisions for education communities: emphasis on the support of and belief in the cultural value of a diverse and educated democratic society. May count either EDLD 7570 or EDLD 7576.

EDLD 7580 SUPERVISION AND PERSONNEL ISSUES IN EDUCATION (3) LEC. 3. Policies and practices related to teacher recruitment, selection, evaluation, and professional development; faculty/staff developmental processes that impact student achievement and school improvement efforts. May count either EDLD 7580 or EDLD 7586.

EDLD 7900 DIRECTED STUDIES (1-9) IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

EDLD 7910 PRACTICUM (1-6) PRA. Experience closely relating theory and practice, usually conducted in realistic settings. May count either EDLD 7910 or EDLD 7916. Course may be repeated for a maximum of 6 credit hours.

EDLD 7920 ADMINISTRATIVE INTERNSHIP (1-6) AAB/INT. Departmental approval. Opportunities for interns to internalize and employ administrative skills learned during graduate coursework. Course may be repeated for a maximum of 6 credit hours.

EDLD 7930 ADMINISTRATIVE INTERNSHIP/RESIDENCY (1-3) INT. Ongoing field-based experiences in educational administration; observation, participation, and leading with practicing administrators in school systems. Course may be repeated for a maximum of 3 credit hours.

EDLD 7970 SPECIAL TOPICS (1-9) LEC. Variable content for advanced studies in the area of educational leadership. Course may be repeated for a maximum of 9 credit hours.

EDLD 8200 ASSESSMENT AND EVALUATION IN LEARNING ORGANIZATIONS (3) LEC. 3. Study of assessment and evaluation practices that enable learning organizations to use data for decision-making purposes. May count either EDLD 8200 or EDLD 8206.

EDLD 8210 EDUCATIONAL LEADERSHIP: THEORY AND PRACTICE (3) LEC. 3. Educational leadership theory and applications for K-12 settings. May count either EDLD 8210 or EDLD 8216.

EDLD 8220 PERSONAL AND PROFESSIONAL DEVELOPMENT (3) LEC. 3. Includes theoretical frameworks and applications for successful and systematic mentoring of professionals in organizations. May count either EDLD 8220 or EDLD 8226.

EDLD 8230 SYSTEMIC PLANNING AND BUDGETING (3) LEC. 3. Covers the components and implementation of a comprehensive ongoing planning and budgeting program for learning organizations.

EDLD 8240 TRENDS AND ISSUES IN EDUCATIONAL ADMINISTRATION (3) LEC. 3. Trends and issues affecting educational institutions with particular attention to development of administrative procedures to cope with educational changes. May count either EDLD 8240 or EDLD 8246.

EDLD 8250 ORGANIZATIONAL POWER, POLITICS AND POLICY FORMATION (3) LEC. 3. Analysis of social forces, antecedent movements, and political actions affecting organizations. The study of policy development and practice. May count either EDLD 8250 or EDLD 8256.

EDLD 8260 THEORY AND DEVELOPMENT OF ORGANIZATIONS (3) LEC. 3. Theoretical frameworks of educational organizations. May count either EDLD 8260 or EDLD 8266.

EDLD 8270 LEADERSHIP IN FINANCE AND MANAGEMENT (3) LEC. 3. Theory and practice of instructional leadership related to personnel and fiscal management of a school or school district. May count either EDLD 8270 or EDLD 8276.

EDLD 8280 THE SUPERINTENDENCY IN EDUCATION (3) LEC. 3. Theoretical frameworks of educational organizations.

EDLD 8300 CURRICULUM THEORY AND PRACTICE (3) LEC. 3. Advanced course dealing with application of curriculum theories with an emphasis on the impact of philosophical and theoretical beliefs on practice.

EDLD 8310 LEADERSHIP IN THE DEVELOPMENT AND APPLICATION OF CURRICULUM AND THEORY DESIGN (3) LEC. 3. Application of transformative leadership in the design, delivery, and evaluation of curriculum in a wide variety of organizational settings. May count either EDLD 8310 or EDLD 8316.

EDLD 8320 CURRICULUM LEADERSHIP FOR ORGANIZATIONS (3) LEC. 3. Pr. EDLD 7340 and EDLD 8300 and EDLD 8310 or EDLD 8316. Departmental approval. For those considering a career in upper level management. Focuses on context, societal, and political influences related to curriculum processes and organizational change. May count either EDLD 8320 or EDLD 8326.

EDLD 8340 TRANSFORMATIONAL PROCESSES AND ORGANIZATIONAL CHANGE (3) LEC. 3. Organizational and transformational change at personal, interpersonal, and institutional levels. May count either EDLD 8340 or EDLD 8346.

EDLD 8400 ETHICS FOR LEADERS (3) LEC. 3. Theory and practice of ethics and the role of ethical and personal integrity for leaders in the context of educational organizations and the communities they serve. May count either EDLD 8400 or EDLD 8406.

EDLD 8480 INSTITUTIONAL RESEARCH AND DECISION SUPPORT (3) LEC. 3. Components of institutional research and assessment programs that can support the comprehensive planning, decision support, and management needs of the institution.

EDLD 8600 MENTORING FOR CAREER DEVELOPMENT (3) LEC. 3. Assist graduate students in discovering how mentioning can enhance their career/professional development and benefit their organizations. May count either EDLD 8600 or EDLD 8606.

EDLD 8940 DIRECTED FIELD EXPERIENCE IN EDUCATIONAL LEADERSHIP (1-6) FLD. Field-based experience in diverse settings to develop knowledge, skills, and abilities in an area of special interest. Course may be repeated for a maximum of 6 credit hours.

EDLD 8950 SEMINAR (3) DSL/SEM. 3. Professional and social integration into doctoral program; enhancement of professional knowledge through structured inquiry, professional dialogue, and reflective thinking. May count either EDLD 8950 or EDLD 8956. Course may be repeated for a maximum of 6 credit hours.

EDLD 8980 PROJECT ANALYSIS (3) LEC. 3. Problem solving, reflective practice and action research and used for continuous school improvement. Provides opportunities to engage in diverse field based research projects. May count either EDLD 8980 or EDLD 8986.

EDLD 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 hours. Course may be repeated with change in topics.

Educational Media Courses

EDMD 2000 DIGITAL LITERACY AND COMPUTER SCIENCE IN EDUCATION (4) LEC. 3. LAB. 1. Introduction of foundational computer science concepts and practices relevant to K-6 teachers. Emphasis on the application of computational thinking skills to the development of a block-based programing as well as digital literacy skill development. Limited to majors requiring teaching certification.

EDMD 2100 CONTEMPORARY LITERATURE FOR CHILDREN, YOUTH, & ADOLESCENTS (3) LEC. 3. Reading, discussion, analysis, and reflection on contemporary literature in print and other formats for an audience of ages birth-18 yrs. Applying critical skills in the evaluation and selection of titles from a range of genres & formats, including picture books, chapter books, graphic novels, e-books, audio-books, audio-visual formats, fiction, and non-fiction in its various forms. Particular emphasis on American Library Association award-winning titles.

EDMD 3300 UTILIZATION OF INSTRUCTIONAL TECHNOLOGY FOR EDUCATORS (2) LEC. 1. LAB. 2. Basics of current and emerging instructional & communication technologies with primary emphasis on curricular integration. Location, selection, and application of technology resources (WWW, commercially authored software, etc.) for curricular needs with emphasis on developmental stages, learning styles and learning technologies. Limited to majors requiring teaching certification.

EDMD 5000 INSTRUCTIONAL TECHNOLOGY FOR TEACHING AND LEARNING (3) LEC. 3. Introduction to the systematic application of instructional technologies in teaching and learning environments.

EDMD 6000 INSTRUCTIONAL TECHNOLOGY FOR TEACHING AND LEARNING (3) LEC. 3. Introduction to the systematic application of instructional technologies in teaching and learning environments. May count either EDMD 6000 or EDMD 6006.

EDMD 6100 MEDIA FOR CHILDREN (3) LEC. 3. Examination and evaluation of current literature in print and other formats, including oral literature. Focuses on literary and instructional criteria for selecting and utilizing media.

EDMD 7000 INSTRUCTIONAL DESIGN AND DEVELOPMENT (3) LEC. 3. Theory, problems, procedures, and standards in the utilization of technology in instructional design and development. May count either EDMD 7000 or EDMD 7006.

EDMD 7010 INSTRUCTIONAL AND INFORMATION TECHNOLOGIES (3) LEC. 3. Evaluation, selection, and use of traditional and current technologies for instruction, information, and administration in learning environments. May count either EDMD 7010 and EDMD 7016.

EDMD 7020 PRINCIPLES OF GRAPHIC DESIGN FOR INSTRUCTION (3) LEC. 3. Principles of graphic design and visual literacy to facilitate the presentation of information. Criteria for graphics utilization examined. May count either EDMD 7020 or EDMD 7026.

EDMD 7030 DIVERSE CHILDREN'S AND YOUNG ADULT LITERATURE: ISSUES, TRENDS, & CONTROVERSIES (3) LEC. 3. Examination of current issues, trends, and controversies in diverse children's and young adult literature. Particular focus is given to literature by and about people from population groups traditionally defined by race, class, ethnicity, religion, ability, gender and sexuality. Course participants will investigate theoretical perspectives, scholarly discussions, and methodological implications for these texts.

EDMD 7100 SELECTION AND USE OF MEDIA FOR YOUTH (3) LEC. 3. Pr. EDMD 7030 or EDMD 7036. Evaluation, selection, and use of print and non-print media for youth, including materials for multi-cultural, special and gifted education. May count either EDMD 7100 or EDMD 7106.

EDMD 7110 BIBLIOGRAPHIC DESCRIPTION, ORGANIZATION AND CONTROL (3) LEC. 3. Principles and procedures of describing, classifying and organizing resources with applications using new technologies. May count either EDMD 7110 or EDMD 7116.

EDMD 7120 INFORMATION SOURCES, SERVICES AND INSTRUCTION (3) LEC. 3. An overview of information needs, services, and print and electronic resources; ways to teach information literacy skills. May count either EDMD 7120 or EDMD 7126.

EDMD 7130 ADMINISTRATION OF MEDIA AND TECHNOLOGY SERVICES (3) LEC. 3. Functions of and planning for media and technology services. Budget, evaluation, facilities, guidelines, legal issues, personnel and policies. May count either EDMD 7130 or EDMD 7136.

EDMD 7200 APPLIED INSTRUCTIONAL DESIGN (3) LEC. 3. Pr. EDMD 7000 or EDMD 7006. Applying instructional design skills, students will plan, develop, implement and assess instructional products using appropriate technologies. May count either EDMD 7200 or EDMD 7206.

EDMD 7210 INTEGRATION OF TECHNOLOGY INTO CURRICULUM (3) LEC. 3. Learner competence in integration of technology into curriculum, including designing and writing software and plans for using computers in instruction. May count either EDMD 7210 or EDMD 7216.

EDMD 7230 THEORY AND PRACTICE OF DISTANCE EDUCATION (3) LEC. 3. Theories, concepts, and tools that support distance education, with emphasis on application in design, development, and implementation of distance education instruction. May count either EDMD 7230 or EDMD 7236.

EDMD 7300 RESEARCH IN INSTRUCTIONAL TECHNOLOGY (3) LEC. 3. Pr. ERMA 7200 or FOUN 7200 or ERMA 7206 or FOUN 7206. A forum for sharing research perspectives, exploring processes involved in defining research problems and analyzing research theories, problems, and methods in instructional technology. May count either EDMD 7300 or EDMD 7306.

EDMD 7310 EVALUATION OF MEDIA AND TECHNOLOGY PROGRAMS (3) LEC. 3. Factors contributing to effective media and technology programs. Understanding of research process and experience with media and technology services assumed. May count either EDMD 7310 or EDMD 7316.

EDMD 7320 ADVANCED INFORMATION SOURCES AND SERVICES (3) LEC. 3. Electronic databases, advanced searching techniques, information representation, and the role of the media specialist in networking and creating electronic information sources. May count either EDMD 7320 or EDMD 7326.

EDMD 7900 DIRECTED STUDIES (1-6) DSL/IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor of student's work accomplished at regular intervals.

EDMD 7910 PRACTICUM (1-6) PRA. SU. Experiences closely relating theory and practice, usually conducted in realistic settings. Course may be repeated for a maximum of 6 credit hours.

EDMD 7920 CLINICAL RESIDENCY (1-6) DSL/INT. SU. Pr. (P/C EDMD 7120 or P/C EDMD 7126) and (P/C EDMD 7130 or P/C EDMD 7136). Supervised experience in a school media center or other appropriate setting. These experiences, accompanied by regularly scheduled meetings with the university supervisor, provide evaluation and analysis of the intern experience. May count either EDMD 7920 or EDMD 7926. Course may be repeated for a maximum of 6 credit hours.

EDMD 7930 TEACHING APPRENTICESHIP (3) SEM. 3. Departmental approval. A structured opportunity for students to apply educational media concepts and theories in the college classroom. Course may be repeated for a maximum of 6 credit hours.

EDMD 7940 DIRECTED FIELD EXPERIENCE (3-6) FLD. SU. Pr. FOUN 7200 or ERMA 7200 or ERMA 7206 or FOUN 7206. Field-based study in the area of media and technology. Addresses a scholarly concern of the student and is conducted using valid research techniques. Course may be repeated for a maximum of 6 credit hours.

EDMD 7970 SPECIAL TOPICS IN INSTRUCTIONAL TECHNOLOGY (3-9) LEC. 3. Opportunity for study of current topics related to the field of instructional technology. Course may be repeated for a maximum of 9 credit hours.

EDMD 7980 FIELD PROJECT (3-6) INT. SU. Pr. ERMA 7200 or ERMA 7206 or FOUN 7200 or FOUN 7206. Field-based study in the area of media and technology. Addresses a scholarly concern of the student and is conducted using valid research techniques.

Educational Psychology Courses

EPSY 4100 LEARNING & WELLNESS IN LATER LIFE (3) LEC. 3. Relevant settings, processes, and purposes of learning for older adults. Learner characteristics will also be examined including motivations and needs. Examples of curricula and programs will be explored in-depth such as learning for family harmony, life transitions and adjustment, community involvement, recreation, reciprocity, wellness, and health.

EPSY 7100 LEARNING & WELLNESS IN LATER LIFE (3) LEC. 3. Relevant settings, processes, and purposes of learning for older adults. Learner characteristics will also be examined including motivations and needs. Examples of curricula and programs will be explored in-depth such as learning for family harmony, life transitions and adjustment, community involvement, recreation, reciprocity, wellness, and health.

EPSY 7400 ED PSYCH & EDUCATIONAL IMPLICA (3) LEC. 3. Educational psychology theory and research addressing critical problems, challenges, and opportunities in education or other growth-oriented settings. Content ranges from the study of learning to educational evaluation and authentic assessment.

EPSY 7410 THE INDIVIDUAL IN THE TEACHING-LEARNING PROCESS (3) LEC. 3. The study of human growth, development, and motivation theory and research, including culture, socio-economic status, language, gender and race as a base for understanding individual differences and their sources.

EPSY 7420 LEARNING THEORY AND EDUCATIONAL PRACTICE (3) LEC. 3. Advanced study of learning theory and research with an emphasis on application to effective design, implementation, and evaluation of instruction.

EPSY 7430 MOTIVATION AND ACHIEVEMENT (3) LEC. 3. Social, cultural, and psychological antecedents of achievement motivation are examined. This process requires reviewing theories and research, and emphasis is placed on discerning implications for practice and policy.

EPSY 7440 CLASSROOM MANAGEMENT: SKILLS AND REFLECTION (3) LEC. 3. Advanced study and analysis of existing classroom management discipline models including observation research activity.

EPSY 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

EPSY 7970 SPECIAL TOPICS IN FOUNDATION OF EDUCATION (3-6) LEC. 3-6. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be repeated for a maximum of 6 credit hours.

EPSY 8410 LEARNING IN THE SOCIAL CONTEXT (3) LEC. 3. Examination of the complex nature of learning as a socially-shared and individualized process. Topics may include the social construction of knowledge, scaffolded instruction, cognitive apprenticeships, and problem based learning.

EPSY 8430 TOPICAL SEMINAR IN LEARNING, COGNITION, AND INSTRUCTION (3) LEC. 3. An intensive and advanced study of research and theory on selected topics. Examples include folk theories of mind and alternative methods of studying thinking.

EPSY 8440 ED PSYCH APPRENT SEMINAR (3) LEC. 3. Focuses on the historical foundations of educational psychology as well as possibilities for future disciplinary development.

EPSY 8540 EDUCATIONAL PSYCHOLOGY RESEARCH APPRENTICESHIP SEMINAR (3) LEC. 3. A structured context for students to begin applying what they have learned from their research methods and statistic courses. Students will design and conduct research that contributes to the educational psychological knowledge base.

EPSY 8640 EDUCATIONAL PSYCHOLOGY LEARNING AND INSTRUCTION APPRENTICESHIP SEMINAR (3) LEC. 3. A structured opportunity for students to begin applying educational psychological concepts and theories in the classroom. Students will study theories of learning and instruction and begin to translate and implement these theories into practice.

EPSY 8990 RESEARCH AND DISSERTATION (1-10) DSR. Individualized support and direction for students writing their dissertations. Course may be repeated with changes in topic.

Foundations of Education Courses

FOUN 3000 DIVERSITY OF LEARNERS AND SETTINGS (3) LEC. 2. LAB. 3. Pr. EDUC 1010 or EDUC 1013. Exploration of how sociopolitical factors and students’ diverse identities shape their experiences and opportunities in educational settings and society, with a focus on the interaction between schooling and inequity. Includes a service-learning requirement.

FOUN 3100 CHILD DEVELOPMENT, LEARNING, MOTIVATION AND ASSESSMENT (6) LEC. 5. LAB. 3. Pr. EDUC 3000 or (FOUN 3000 and RSED 3000) or (FOUN 3000 and RSED 3003). With grades of "C" or better. Cognitive, psychosocial, and moral aspects of child development; integration of development, learning, motivation, assessment, and evaluation in context of instructional planning. May count either FOUN 3100 or FOUN 3103.

FOUN 3110 ADOLESCENT DEVELOPMENT, LEARNING, MOTIVATION AND ASSESSMENT I (3) LEC. 2. LAB. 3. Pr. EDUC 3000 or (FOUN 3000 and RSED 3000) or (FOUN 3000 and RSED 3003). An integrated approach to the effective instruction of the adolescent learner in context.

FOUN 3120 ADOLESCENT DEVELOPMENT, LEARNING, MOTIVATION AND ASSESSMENT II (3) LEC. 3. Pr. (FOUN 3110-3113 or CTSE 4070-4073 or CTSE 4090) and (EDUC 3000 or (FOUN 3000 and RSED 3000-3003)). Study of the adolescent development, learning, motivation, evaluation, and assessment concepts central to effective instruction. May count either FOUN 3120 or FOUN 3123.

FOUN 3500 DEVELOPMENT, LEARNING AND MOTIVATION (3) LEC. 3. LAB. 0, LEC. 0. The course will cover physical, cognitive, psychosocial and moral aspects of development. Next, the course will cover behavioral, cognitive, learner-centered constructivist and more contemporary theories of learning with emphasis on applications to classroom instruction. Finally, the course will cover various theories of motivation with educational applications.

FOUN 7000 CULTURAL FOUNDATIONS OF EDUCATION (3) LEC. 3. Advanced study of culture and its impact on the development and structure of education and schooling. Utilizing historical, philosophical, anthropological, and sociological perspectives, contemporary issues regarding the nature and practice of schooling will be examined. May count either FOUN 7000 or FOUN 7006.

FOUN 7010 HISTORY OF AMERICAN EDUCATION (3) LEC. 3. Examination of ideas, actors, and events which influenced the emergence of the formal school system, beginning with early American forms of education. May count either FOUN 7010 or FOUN 7016.

FOUN 7020 SOCIAL AND CULTURAL DIVERSITY IN AMERICAN EDUCATION (3) LEC. 3. Advanced study of education's response to cultural pluralism. The impact of religious, ethnic, social, and racial diversity on the structure of the American public school will be examined. May count either FOUN 7020 or FOUN 7026.

FOUN 7030 PHILOSOPHY AND EDUCATION (3) LEC. 3. Advanced study of philosophical questions and concepts as well as their application in education. May count either FOUN 7030 or FOUN 7036.

FOUN 7040 PHILOSOPHY AND EDUCATIONAL RESEARCH (3) LEC. 3. Advanced philosophical study of educational research within the context of education's professional culture.

FOUN 7050 GLOBAL PERSPECTIVES ON EDUCATION (3) LEC. 3. Exploration of global transformations in education and their implications for equity, diversity, and justice through the lens of comparative and international research.

FOUN 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

FOUN 7930 TEACHING APPRENTICESHIP (3) IND. 3. Departmental approval. A structured opportunity for students to explore social foundations of education concepts and pedagogies in the college classroom. Course may be repeated for a maximum of 6 credit hours.

FOUN 7970 SPECIAL TOPICS IN FOUNDATIONS OF EDUCATION (3-6) LEC. 3-6. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be repeated for a maximum of 6 credit hours.

FOUN 8010 MODERN EDUCATION AND COMPARATIVE PERSPECTIVES (3) LEC. 3. Advanced comparative study of selected contemporary educational issues within the American and international urban context.

FOUN 8990 RESEARCH AND DISSERTATION (1-10) DSR. Individualized support and direction for students writing their dissertations. Courses may be repeated for a maximum for 10 hours. Course may be repeated with change in topics.

Higher Ed Administration Courses

HIED 7200 ORGANIZATIONAL ISSUES IN HIGHER EDUCATION (3) LEC. 3. Theory and practice of higher education organizations with emphasis on supervision and management of personnel.

HIED 7210 LEADERSHIP IN HIGHER EDUCATION (3) LEC. 3. Exploration, discussion and application of theories, concepts and principles of leadership applied to higher education organizations. May count either EDLD 7210 or HIED 7210.

HIED 7220 HIGHER EDUCATION MANAGEMENT (3) LEC. 3. Procedures and practices in school educational management.

HIED 7230 STUDENT SERVICES ADMINISTRATION POSTSECONDARY EDUCATION (3) LEC. 3. Organization, administration and evaluation of student personnel services in postsecondary education.

HIED 7240 LEGAL ISSUES IN HIGHER EDUCATION (3) LEC. 3. Constitutional and statutory provisions for education and an analysis of judicial decisions affecting higher education.

HIED 7250 COLLEGE STUDENT DEVELOPMENT (3) LEC. 3. Overview of major developmental theories affecting college students.

HIED 7260 COUNSELING AND ADVISING IN HIGHER EDUCATION (3) LEC. 3. Introduces counseling and advising theory and application for student services professionals in higher education.

HIED 7270 OVERVIEW OF POSTSECONDARY EDUCATION (3) LEC. 3. Overview of the history and evolution of postsecondary education in North America. May count either HIED 7270 or HIED 7276.

HIED 7400 SPORT MARKETING AND PUBLIC RELATIONS (3) LEC. 3. Marketing and public relations of sport organizations as associated with higher education institutions.

HIED 7410 SPORT ETHICS (3) LEC. 3. Covers ethical issues in sport organizations as associated with higher education institutions.

HIED 7900 DIRECTED STUDIES (1-6) IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

HIED 7910 PRACTICUM (3) PRA. 3. Departmental approval. Experience in the management of specific administrative offices. Course may be repeated for a maximum of 6 credit hours.

HIED 7920 INTERNSHIP (1-6) INT. SU. Departmental approval. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 6 credit hours.

HIED 7970 SPECIAL TOPICS (1-6) LEC. 1-6. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

HIED 8200 ASSESSMENT AND EVALUATION IN HIGHER EDUCATION (3) LEC. 3. Study of assessment and evaluation practices that enable learning organizations to use data for decision-making.

HIED 8230 PLANNING AND BUDGETING IN HIGHER EDUCATION (3) LEC. 3. Components and implementation of a comprehensive, ongoing planning and budgeting program in higher education.

HIED 8270 FINANCIAL MANAGEMENT IN HIGHER EDUCATION (3) LEC. 3. Educational finance including revenues, expenditures, cost, budgeting and accounting, and the local, state and federal role in supporting education.

HIED 8480 INSTITUTIONAL RESEARCH IN HIGHER EDUCATION (3) LEC. 3. Components of institutional research and assessment that support comprehensive planning, analysis, decision support and management needs of the higher educational institution May count either EDLD 8480 or HIED 8480.

HIED 8500 THE PROFESSORIATE (3) LEC. 3. Study of differences and similarities in faculty roles, work, and career paths using various disciplinary and institutional lenses.

HIED 8510 SEMINAR IN COLLEGE TEACHING (3) LEC/SEM. 3. Overview of major issues in higher education and methods of instruction in college teaching. Involves use of experiential learning, group and collaborative activities.

HIED 8950 SEMINAR (3) LEC. 3. Presentation by graduate students of research projects and/or analysis of procedures and finding. Course may be repeated for a maximum of 6 credit hours.

HIED 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 credit hours.

School of Kinesiology

The School of Kinesiology prepares students in the following areas: exercise science and exercise, performance and health optimization/teacher education. The mission of the Kinesiology programs at Auburn University is to promote the creation and application of knowledge about physical activity and performance, create and implement an invigorating learning environment for undergraduate and graduate students, and improve the health and wellness of society through research, outreach, and teaching. Students learn how to improve the health or performance of individuals using an intervention model and how to intervene in the lives of those who wish to become healthier or want to improve their athletic performance. Experiences run the gamut from trying to

help an elderly person be well and fit to motivating the young child to be more physically active to assisting the elite athlete in optimizing sport performance.

Exercise Science

The study of Exercise Science focuses on the effects physical activity has on the human body in addition to the body's response to exercise. The undergraduate major in exercise science prepares students for graduate study in the exercise science sub-disciplines (biomechanics, exercise physiology, and motor behavior) while providing students with a foundational knowledge of research in the field. Students in Exercise Science are preparing for entry into professional programs such as physical therapy, occupational therapy, medicine or other competitive graduate programs. Advisors may make recommendations of alternative programs based on academic performance.

Exercise, Performance & Health Optimization

The undergraduate major in exercise, performance and health optimization prepares students to work in community or corporate based health and fitness programs. Students attain the knowledge, skills, and abilities to conduct exercise testing, interpret results and develop individualized exercise programs for healthy individuals and those with chronic diseases.

Information about Graduate programs is available at: Kinesiology - MS, PhD, Graduate Certificate, Minor.

Sport Coaching Minor

The sport coaching minor is a 15 semester hour commitment and is open to all students across campus. This minor is particularly attractive to students interested in the field of sport coaching.

Physical Activity and Wellness (Non-degree Program)

The physical activity and wellness non-degree program is an 8 semester hour commitment and is available to all students across campus. Particularly attractive to those students who enjoy physical activity, the program combines study of the basic principles of wellness with participation in a broad range of physical activity categories. The specific course of study is shown below.

- KINE 1100: Wellness (2 credit hours)
- 3 PHED courses from 3 different categories, e.g., fitness, team sports, aquatics (6 hours)

While completion of this program does not appear on transcripts or diplomas, students may request a certificate upon completion.

Majors

- Exercise Science (p. 536)
- Exercise, Performance & Health Optimization (p. 537)
-

Minors

- Sport Coaching (p. 538)

Kinesiology Courses

KINE 1100 WELLNESS & PUBLIC HEALTH (3) LEC. 3. Review content and theory associated with basic health information, critical health issues, economic, political, and cultural influences on health and wellness; concepts related to improving and maintaining optimal health and wellness, and basic concepts and principles of wellness for the self-appraisal of health-related physical fitness. May count either KINE 1100 or KINE 1103.

KINE 2000 PILLARS OF HEALTH: A JOURNEY TO OPTIMAL HEALTH & WELLBEING (3) LAB. 4. Students will learn and apply Mindfulness-Based Stress Reduction (MBSR) techniques and practices that have been shown, scientifically, to reduce stress and act as an aid to many health conditions that arise or are exacerbated by stress. On-campus labs are required.

KINE 2250 MOTOR DEVELOPMENT ACROSS THE LIFESPAN (2) LEC. 2. Develops understanding and skills concerning the broad concept of motor development across the lifespan. May count either KINE 2250 or KINE 2253.

KINE 2251 MOTOR DEVELOPMENT ACROSS THE LIFESPAN LABORATORY (1) LAB. 1. SU. Pr. (P/C KINE 2250 or P/C KINE 2257 or P/C KINE 2253). Develops understanding and skills concerning the broad concept of motor development across the lifespan.

KINE 2257 HONORS MOTOR DEVELOPMENT ACROSS THE LIFESPAN (2) LEC. 2. Pr. Honors College. Develops understanding and skills concerning the broad concept of motor development across the lifespan. May count either KINE 2250 or KINE 2253.

KINE 2500 SPORT OPTIMIZATION I (3) LEC. 2. LAB. 2. Basic concepts associated with the assessment of sport performance for the purpose of optimization.

KINE 2510 SPORT OPTIMIZATION II (3) LEC. 2. LAB. 2. Pr. KINE 2500 or KINE 2503 or HLHP 2500 or HLHP 2503. Concepts associated with the assessment and interpretation of sport performance for the purpose of optimization.

KINE 2800 INTRODUCTION TO KINESIOLOGY (3) LEC. 3. People, history and programs that have led to the current status of physical education, exercise science and health promotion.

KINE 3000 MEDICAL TERMINOLOGY FOR ALLIED HEALTH PROFESSIONS (3) LEC. 3. Focus on medical terminology/ abbreviations used in allied health care and application to health care documentation. Web-based delivery.

KINE 3010 INSTRUCTION AND TECHNOLOGY IN KINESIOLOGY (2) LEC. 1. LAB. 2. Communication skills, instructional strategies and technological competencies related to conveying information in the Kinesiology disciplines. May count either KINE 3010 or KINE 3013.

KINE 3030 INTRODUCTION TO PERSONAL TRAINING (3) LEC. 3. Theoretical knowledge and skills in preparation of national certification in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming.

KINE 3031 INTRODUCTION TO PERSONAL TRAINING LABORATORY (3) LAB. 3. Pr. P/C KINE 3030. Theoretical knowledge and skills in preparation of national certification in personal training. Topics include guidelines for instructing safe, effective, and purposeful exercise, essentials of the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming.

KINE 3040 HISTORY OF AMERICAN PHYSICAL CULTURE (3) LEC. 3. Appreciation of the historical and cultural aspects of health, exercise, fitness and sports activities in modern American society.

KINE 3050 CARE AND PREVENTION OF INJURIES (3) LEC. 3. Students will understand how to implement proper procedures in sports medicine care, create/lead emergency action plans, prevent injury/illness occurrence, care for basic injuries/illnesses, and analyze environmental conditions for safety, and provide important information to sports medicine health professionals. May count either KINE 3050 or KINE 3053.

KINE 3100 ADAPTIVE SPORTS (3) LEC. 3. An introduction to various competitive and recreational activities for persons with disabilities. May count either KINE 3100 or KINE 3103.

KINE 3110 PARALYMPIC SPORT (3) LEC. 3. An introduction to the Paralympic Games including the Games development, rules, and current issues related to media, marketing, and social rights.

KINE 3200 SKILLS AND CONCEPTS OF RHYTHMIC ACTIVITIES (3) LEC. 2. LAB. 2. Skillful performance in gymnastics and other rhythmic activities and an understanding of the basic movement concepts in those activities.

KINE 3210 SKILLS AND CONCEPTS OF SPORT (3) LEC. 2. LAB. 2. Skillful performance in games and sports and an understanding of the tactics in those activities. Admission to Teacher Education.

KINE 3230 TEACHING MOTOR SKILLS (3) LEC. 2. LAB. 2. Introduction to motor skills that students learn during their elementary school years in physical education.

KINE 3260 PHYSICAL EDUCATION FOR INDIVIDUALS WITH DISABILITIES (3) LEC. 2. LAB. 2. Pr. (KINE 2250 and KINE 2251 or KINE 2253) or (HLHP 2250 or HLHP 2251 or HLHP 2253). Program needs of individuals with disabilities in physical education and physical activity settings.

KINE 3300 INSTRUCTIONAL STRATEGIES IN PHYSICAL EDUCATION (3) LEC. 2. LAB. 2. Instructional and class management strategies appropriate to teach quality elementary and secondary physical education Admission to Teacher Education.

KINE 3400 HEALTH PROMOTION IN THE WORKPLACE (3) LEC. 3. Planning, implementation, evaluation and marketing of health promotion programs.

KINE 3410 REGISTERED YOGA TEACHER LEVEL I (3) LEC. 2. LAB. 2. Basic principles of teaching yoga. Concepts include the poses, breathing, relaxation, meditation and other yoga techniques. Completion of KINE 3410 & KINE 3420 completes a Yoga Teacher Certification.

KINE 3420 REGISTERED YOGA TEACHER LEVEL II (3) LEC. 2. LAB. 2. Pr. KINE 3413 or KINE 3410 or HLHP 3410 or HLHP 3413. Advanced principles of teaching yoga. Focus on poses, breathing, relaxation, meditation and other yoga techniques. Completion of KINE 3410 and KINE 3420 completes a Yoga Teacher Certification.

KINE 3620 BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT (3) LEC. 3. Coreq. KINE 3621. Understanding of anatomical, neuromuscular, and biomechanical principles of human movement. Application of these concepts, as well as methods of motion analysis, will enable the student to evaluate human movement in greater detail. Departmental approval is needed for non-majors to enroll.

KINE 3621 BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT LABORATORY (1) LAB. 1. Pr. P/C KINE 3620 or P/C KINE 3623 or P/C KINE 3627. Laboratory experience focuses on application of knowledge of anatomical, neuromuscular, and biomechanical principles of human movement. Content emphasizes understanding the science of exercise, how to apply and interpret common mechanical measures, and writing about findings using basic scientific writing techniques.

KINE 3627 HONORS BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT (3) LEC. 3. Pr. Honors College. Coreq. KINE 3621. Understanding of anatomical, neuromuscular, and biomechanical principles of human movement. Application of these concepts, as well as methods of motion analysis, will enable the student to evaluate human movement in greater detail. Departmental approval is needed for non-majors to enroll.

KINE 3650 MOTOR LEARNING AND PERFORMANCE (3) LEC. 3. Understanding of the basic psychological and physiological involved in the learning and control of skillful human movement.

KINE 3651 MOTOR LEARNING AND PERFORMANCE LABORATORY (1) LAB. 2. Pr. P/C KINE 3650 or P/C KINE 3653 or P/C KINE 3657. Lab experience will allow students to gain first-hand experience with modern experimental methods, data collection, and basic analysis tools in motor learning research and develop an understanding of the experience of human research participants in kinesiology research.

KINE 3657 HONORS MOTOR LEARNING AND PERFORMANCE (3) LEC. 3. Pr. Honors College. Understanding of the basic psychological and physiological involved in the learning and control of skillful human movement.

KINE 3680 PHYSIOLOGY OF EXERCISE (3) LEC. 3. Energetics of exercise and physiological responses and adaptions of various organ systems (muscular, circulatory, respiratory, etc.) to acute and chronic exercise in different environments.

KINE 3681 PHYSIOLOGY OF EXERCISE LAB (1) LAB. 2. Coreq. KINE 3680. Applying knowledge of basic energy, musculoskeletal, nervous, and cardiovascular systems using various testing procedures. Focus on understanding the science of exercise, interpreting common physiological fitness tests, and how to write about findings using basic scientific writing techniques.

KINE 3687 HONORS PHYSIOLOGY OF EXERCISE (3) LEC. 3. Pr. Honors College. Energetics of exercise and physiological responses and adaptions of various organ systems (muscular, circulatory, respiratory, etc.) to acute and chronic exercise in different environments.

KINE 3820 PRINCIPLES OF SPORT COACHING (3) LEC. 3. Basic principles of sport pedagogy and the conduct of sport training programs. Departmental approval. May count either KINE 3820 or KINE 3823.

KINE 3830 THEORY AND PRACTICE OF SPORTS OFFICIATING (3) LEC. 3. Instruction and practice of officiating a variety of sport activities.

KINE 3840 COACHING THE MENTAL SIDE OF SPORTS (3) LEC. 3. Understand athletes' psychology and how to provide them wit mental skills to enhance their performance in athletics, academics, and life.

KINE 3870 LEGAL AND ILLEGAL SPORTS SUPPLEMENTS (3) LEC. 3. Introductory approach to the safety, efficacy, and legality of popular legal and illegal sports supplements.

KINE 4130 THE NEUROBIOLOGY OF PLAY (3) LEC. 3. This course is an introduction to psychological and neuroscientific research on play and games. We will focus on play behavior in human beings, but will incorporate comparative evidence from play in other animals. Using an interdisciplinary approach, we will draw.

KINE 4200 PHYSICAL EDUCATION IN ELEMENTARY SCHOOLS (4) LEC. 2. LAB. 4. Pr. HLHP 3300. Understanding of the skill theme approach based on skill themes, movement concepts and levels of skill proficiency. Credit will not be given for both KINE 4200 and KINE 4360. Admission to Teacher Education.

KINE 4300 PHYSICAL EDUCATION IN SECONDARY SCHOOLS (4) LEC. 2. LAB. 4. Pr. (KINE 3300 or HLHP 3300). Constructing and implementing appropriate lifetime sports and fitness programs for middle and secondary school students. Admission to Teacher Education.

KINE 4360 HEALTH EDUCATION AND PHYSICAL EDUCATION IN ELEMENTARY SCHOOLS (2) LEC. 1. LAB. 2. Critical topics in health education and physical education for prospective elementary education teachers. Credit will not be given for both KINE 4360 and KINE 4200.

KINE 4400 APPLIED ANATOMY FOR THE ALLIED HEALTH PROFESSIONAL (3) LEC. 3. Study of skeletal anatomy with an applied approach. May count either KINE 4400 or KINE 4403.

KINE 4450 PHYSICAL ACTIVITY AND PUBLIC HEALTH (3) LEC. 3. Departmental approval. Basic principles of epidemiology; health benefits of physical activity; strategies to promote physical activity at the individual and community levels.

KINE 4500 INDIVIDUAL AND GROUP FITNESS INSTRUCTION (3) LEC. 3. Principles of exercise prescription and field assessment techniques to develop, implement and evaluate individual and group exercise programs.

KINE 4560 SPORT TECHNIQUE AND MOVEMENT ANALYSIS (3) LEC. 3. Skills and knowledge for observing, evaluating, and correcting movement patterns. May count either KINE 4560 or KINE 4563.

KINE 4600 STRENGTH AND CONDITIONING DEVELOPMENT (3) LEC. 3. Basic concepts and principles of strength, endurance and speed development.

KINE 4620 EXERCISE AND SPORT PSYCHOLOGY (3) LEC. 3. Role of psychological factors in sport, exercise and physical activity.

KINE 4627 HONORS EXERCISE AND SPORT PSYCHOLOGY (3) LEC. 3. Pr. Honors College. Role of psychological factors in sport, exercise and physical activity.

KINE 4630 STRENGTH AND CONDITIONING PREPARATION (3) LEC. 3. Pr. (KINE 4600 or KINE 4603) and (KINE 3680 or KINE 3683 or KINE 3687). Preparation as a Certified Strength and Conditioning Specialist.

KINE 4640 PHYSICAL CONDITIONING AND SPEED (3) LEC. 3. Basic concepts and principles of physical conditioning and speed.

KINE 4690 CORRECTIVE EXERCISE SPECIALIST PREPARATION (3) LEC. 3. Pr. KINE 3620 and P/C KINE 3621 or P/C KINE 3627. Preparation for the National Academy of Sports Medicine corrective exercise specialist examination. May count either KINE 4690 or KINE 4693.

KINE 4760 INTRODUCTION TO EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. (KINE 3620 or KINE 3627) and (KINE 3650 or KINE 3657) and (KINE 3680 or KINE 3687). Research literature, experimental design and research interpretation in exercise science.

KINE 4767 HONORS INTRO TO EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. Honors College. Research literature, experimental design and research interpretation in exercise science.

KINE 4780 EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. (KINE 4760 or KINE 4763 or KINE 4767) and (KINE 3620 or KINE 3623 or KINE 3627) and (KINE 3650 or KINE 3653 or KINE 3657) and (KINE 3680 or KINE 3683 or KINE 3687). Development of a research proposal including the introduction, review of literature, methods, experimental design and statistics.

KINE 4787 HONORS EXERCISE SCIENCE RESEARCH (3) LEC. 3. Pr. Honors College. KINE 3620 or KINE 3623 and KINE 3650 or KINE 3653. and KINE 4760 or KINE 4763. and KINE 3680 or KINE 3683. Development of a research proposal including the introduction, review of literature, methods, experimental design and statistics.

KINE 4860 EXERCISE PROGRAMMING FOR SPECIAL POPULATIONS (3) LEC. 3. Principles of exercise prescription, programming and field assessment techniques to develop, implement and evaluate exercise programs for special populations. May count either KINE 4860 or KINE 4863.

KINE 4880 TRAINING AND CONDITIONING PROGRAMMING (3) LEC. 3. Pr. (KINE 4600 or HLHP 4600 or HLHP 4640) and KINE 4640. Skills and knowledge related to sport specific annual training regimens.

KINE 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. In-depth study of specific topics. Course may be repeated for a maximum of 6 credit hours.

KINE 4910 PRACTICUM (1-6) AAB/PRA. SU. Departmental approval. Application of basic concepts to specific work environment. Course may be repeated for a maximum of 6 credit hours.

KINE 4920 CLINICAL RESIDENCY (12) LEC. 12. SU. Pr. KINE 4200 and KINE 4300. Culminating supervised work experience in school settings for K-12 Physical Education. Students must be cleared and approved for Clinical Residency by College of Education criteria.

KINE 4930 PHYSICAL ACTIVITY AND HEALTH INTERNSHIP (1-12) LEC. 1-12. SU. Pr. KINE 5400 or KINE 5403. Opportunity to explore a particular job or career path within the field, allowing students to apply theory and methodology learned in their undergraduate studies in a work environment under qualified supervision. May count either KINE 4930 or KINE 4933. Course may be repeated for a maximum of 12 credit hours.

KINE 4940 FITNESS, CONDITIONING AND PERFORMANCE INTERNSHIP (1-12) DSL/INT. SU. Pr. (KINE 4690 or KINE 4693) and (KINE 4880 or KINE 4883). Opportunity to explore a particular job or career path within the field, allowing students to apply theory and methodology learned in their undergraduate studies in a work environment under qualified supervision. Site must be approved by internship coordinator. May count either KINE 4940 or KINE 4943. Course may be repeated for a maximum of 12 credit hours.

KINE 4970 SPECIAL TOPICS (1-3) AAB. Advanced presentation of critical issues in physical education, health promotion or exercise science. Course may be repeated with change in topic. Course may be repeated for a maximum of 12 credit hours.

KINE 4980 UNDERGRADUATE RESEARCH (1-3) IND. Departmental Approval. Directed research within the area of specialty within the School. Course may be repeated for a maximum of 6 credit hours.

KINE 4997 HONORS THESIS (1-3) LEC. Pr. Honors College. Departmental approval.. Course may be repeated for a maximum of 3 credit hours.

KINE 5400 EXERCISE ASSESSMENT, PRESCRIPTION, & PROGRAMMING (3) LEC. 3. Pr. (KINE 3620 or KINE 3623 or KINE 3627) and (KINE 3680 or KINE 3683 or KINE 3687). This course is designed to develop the knowledge, skills, and abilities necessary to work with clients, performing exercise testing for health and fitness and developing exercise programs following American College of Sports Medicine (ACSM) and National Strength and Conditioning Association (NSCA) guidelines. The course will focus on the principles and guidelines for exercise testing and programming.

KINE 5500 EXERCISE ASSESSMENT AND TESTING (3) LEC. 1. LAB. 4. Pr. (KINE 3620 or KINE 3627) and (KINE 3680 or KINE 3687) and KINE 3681. Familiarization with exercise testing, exercise testing instrumentation, and application of concepts in physiological testing, test selection, and interpretation of assessments in normal populations. May count KINE 6500.

KINE 5501 CLINICAL EXERCISE TESTING LABORATORY (2) LAB. 2. Pr. KINE 3680 and (KINE 3681 or KINE 3687) and (KINE 5500 or KINE 5503). Application of concepts in physiological testing, test selection and interpretation of assessments in normal and special populations for the purpose of exercise prescription and chronic disease risk reduction.

KINE 5820 SPORT MANAGEMENT (3) LEC. 3. This course is designed to give students critical skills in understanding and analyzing a number of social issues as they relate to sport. May count either KINE 5820 or KINE 6820.

KINE 5920 INTERNSHIP (1-12) INT. SU. Pr. (KINE 4630 or KINE 4633) and (KINE 5400 or KINE 5403). Supervised work experiences in schools, fitness or rehabilitation settings. Two hours of work experience per week for each hour course credit. Course may be repeated for a maximum of 12 credit hours.

KINE 6200 RESEARCH PROJECT IN PHYSICAL EDUCATION (3) LEC. 3. Focus on action research in teaching and learning in physical education in schools. May count either KINE 5200 or KINE 6200.

KINE 6250 INSTRUCTIONAL SUPERVISION FOR PHYSICAL EDUCATION (2) LEC. 2. Development of systematic observation systems for providing feedback to teachers and strategies for monitoring progress. May count either KINE 5250 or KINE 6250.

KINE 6300 ADVOCACY IN PHYSICAL EDUCATION (2) LEC. 2. Strategies for development of advocacy programs in physical education. May count either KINE 5300 or KINE 6300.

KINE 6350 ASSESSMENT IN PHYSICAL EDUCATION (3) LEC. 3. Pr. P/C KINE 7920 or P/C HLHP 7920 or P/C HLHP 7926.

KINE 6400 EXERCISE ASSESSMENT, PRESCRIPTION, & PROGRAMMING (3) LEC. 3. Pr. KINE 3680 or KINE 3687. This course is designed to develop the knowledge, skills, and abilities necessary to work with clients, performing exercise testing for health and fitness and developing exercise programs following American College of Sports Medicine (ACSM) and National Strength and Conditioning Association (NSCA) guidelines. The course will focus on the principles and guidelines for exercise testing and programming.

KINE 6500 EXERCISE ASSESSMENT AND TESTING (3) LEC. 1. LAB. 4. Pr. KINE 3680 or KINE 3687. Familiarization with concepts in exercise testing, testing instrumentation, test selection & application, and interpretation of assessments in normal populations for the purpose of exercise prescription. May count either KINE 5500 or KINE 6500.

KINE 6501 CLINICAL EXERCISE TESTING LABORATORY (2) LAB. 2. Pr. KINE 3680 or KINE 3687. Coreq. KINE 6500. Learn and practice the skills to perform clinical exercise testing for health and fitness in accordance with American College of Sports Medicine (ACSM).

KINE 6600 PHYSIOLOGICAL BASIS OF TRAINING AND CONDITIONING (3) LEC. 2. LAB. 2. Pr. KINE 3680 or KINE 3687. Physiological adaptations to training and conditioning for sport performance. May count either KINE 5600 or KINE 6600.

KINE 6820 SPORT MANAGEMENT (3) LEC. 3. This course is designed to give students critical skills in understanding and analyzing a number of social issues as they relate to sport. May count either KINE 5820 or KINE 6820.

KINE 6920 INTERNSHIP (1-12) INT. SU. Pr. (KINE 7630 and KINE 6400) or KINE 6406. Departmental approval. Supervised work experiences in schools, fitness or rehabilitation settings. Course may be repeated for a maximum of 12 credit hours.

KINE 7010 RESEARCH METHODS IN PHYSICAL ACTIVITY (3) LEC. 3. Study of research methods and analysis of current research in physical education, health promotion, and exercise science.

KINE 7180 APPLIED SOCIOLOGICAL ASPECTS OF SPORT AND EXERCISE (3) LEC. 3. Critical examination and application of sociological aspects of sport and exercise in a variety of settings. May count either KINE 7180 or KINE 7186.

KINE 7200 CURRICULUM AND TEACHING IN PHYSICAL EDUCATION (3) LEC. 3. Issues in developing and critiquing curricula in physical education.

KINE 7250 EVALUATION OF PROGRAMS IN PHYSICAL EDUCATION (3) LEC. 3. Development of tools for assessment of student learning and evaluation of physical education programs.

KINE 7260 INDIVIDUALS WITH DISABILITIES IN PHYSICAL EDUCATION (3) LEC. 3. Developing inclusive physical activity programs for children and adolescents with disabilities in physical education.

KINE 7280 NATURALISTIC INQUIRY IN PHYSICAL ACTIVITY SETTINGS (3) LEC. 3. Exploration of naturalistic inquiry in physical activity and educational settings.

KINE 7300 CONTENT AND PEDAGOGY IN PHYSICAL EDUCATION (3) LEC. 3. Instructional strategies and content for elementary and secondary physical education.

KINE 7350 ORGANIZATION AND ANALYSIS OF INSTRUCTION IN PHYSICAL EDUCATION (3) LEC. 3. Focus on the teaching-learning process in physical education.

KINE 7380 INTEGRATING CLASSROOM CONCEPTS (3) LEC. 3. Relationship of developmental foundations of young children and programming of physical activities.

KINE 7400 ADVANCED ANATOMICAL PRINCIPLES (3) LEC. 3. Clinically oriented human anatomy experience, designed to provide the student with an applied methodology to interact and utilize anatomical knowledge. May count either KINE 7400 or KINE 7406.

KINE 7420 BIOMECHANICS OF SKILL ANALYSIS: DARTFISH I (3) LEC. 3. Introductory approach to skill analysis as well as the use of the software program Dartifish. May count either KINE 7420 or KINE 7426.

KINE 7430 BIOMECHANICS OF SKILL ANALYSIS: DARTFISH II (3) LEC. 3. Pr. KINE 7420 or HLHP 7420 or HLHP 7426 or KINE 7426. Advanced approach to skill analysis as well as the use of the software program Dartifish. May count either KINE 7430 or KINE 7436.

KINE 7550 EFFICIENT MOVEMENT STRATEGIES (3) DSL. 3. A review of the material and tools necessary to become a National Academy of Sports Medicine Corrective Exercise Specialist.

KINE 7570 EXERCISE ELECTROCARDIOGRAPHY (3) LEC. 3. Pr. KINE 3680 or KINE 3687. Electrocardiography from a exercise scientist's perspective; recognition of normal and abnormal electrocardiographic patterns at rest and during exercise.

KINE 7620 PRINCIPLES OF BIOMECHANICS IN HUMAN MOVEMENT (3) LEC. 3. Pr. KINE 3620 or KINE 3627. Biomechanical principles and laws with applications to human movement in sport, exercise and daily activities. Departmental approval. May count either KINE 7620 or KINE 7626.

KINE 7630 STRENGTH & CONDITIONING PREPARATION (3) LEC. Preparation as a Certified Strength and Conditioning Specialist.

KINE 7650 ADVANCED MOTOR LEARNING AND PERFORMANCE (3) LEC. 3. Pr. KINE 3650 or KINE 3657. Departmental approval. Theories, experimental studies, and current issues in the acquisition, performance, and retention of motor skills.

KINE 7660 BIOMECHANICS OF SPORT INJURY AND REHABILITATION (3) LEC. 3. Pr. (HLHP 7620 or HLHP 7626 or KINE 7620 or HLHP 7626). Biomechanical properties of the human body as related to injuries and rehabilitation in sport and daily activities.

KINE 7670 LAB TECHNIQUES IN BIOMECHANICS (3) LEC. 1. LAB. 2. Pr. (HLHP 7620 or HLHP 7626 or KINE 7620 or KINE 7626). Study of equipment and standing practices utilized by a biomechanist in measuring and analyzing motion.

KINE 7680 ADVANCED PHYSIOLOGY OF EXERCISE I (3) LEC. 3. Pr. KINE 3680 or KINE 3687. Departmental approval. Physiological responses to exercise and control of metabolism, the cardiovascular system, and the respiratory system during acute exercise and training.

KINE 7700 ADVANCED PHYSIOLOGY OF EXERCISE II (3) LEC. 3. Pr. KINE 3680 or KINE 3687. Temperature regulation and endocrine response to exercise; physiological responses and adaptations to aerobic training, strength training, and environmental extremes; limiting factors and fatigue in exercise.

KINE 7710 LAB TECHNIQUES IN EXERCISE PHYSIOLOGY (3) LEC. 1. LAB. 4. Pr. (HLHP 7680 or HLHP 7686 or KINE 7680). Techniques for measuring and evaluating physical performance.

KINE 7730 NEUROMOTOR CONTROL (3) LEC. 3. Pr. KINE 3650 or KINE 3657. Departmental approval. Structure and function of the central and peripheral systems underlying human motor control.

KINE 7740 ADVANCED MOTOR DEVELOPMENT (3) LEC. 3. Departmental approval. Examination of theoretical and empirical issues in motor development across the life span.

KINE 7750 ADVANCED SPORT PSYCHOLOGY (3) LEC. 3. Pr. KINE 4620 or KINE 4627 or departmental approval. Examination of psychological factors that influence althletic performance. Or equivalent,

KINE 7780 EXERCISE MOTIVATION AND ADHERENCE (3) LEC. 3. Pr. KINE 4620 or KINE 4627. Theoretical foundations and recent research in exercise motivation and adherence. Or equivalent.

KINE 7790 MOTOR BEHAVIOR OF INDIVIDUALS WITH DISABILITIES (3) LEC. 3. Pr. (HLHP 7650 or HLHP 7656 or KINE 7650). Examination of motor behavior characteristics of individuals with disabilities.

KINE 7820 CLINICAL/NON-CLINICAL INTERNSHIP IN KINESIOLOGY (1-10) DSL/INT. SU. Supervised work experience in physical activity, health, fitness, conditioning, performance and rehabilitation settings. This course is for non-teacher education students. May count either KINE 7820 or KINE 7826. Course may be repeated for a maximum of 10 credit hours.

KINE 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. In-depth study of specific topics. Course may be repeated for a maximum of 9 credit hours.

KINE 7910 PRACTICUM (1-3) PRA. Departmental approval. Application of concepts to specific work environment. Course may be repeated for a maximum of 6 credit hours.

KINE 7920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised work experiences in schools, fitness or rehabilitation settings. Course may be repeated for a maximum of 10 credit hours.

KINE 7930 NON-THESIS RESEARCH PROJECT (1-6) IND. SU. Pr. KINE 7010 or HLHP 7010 or HLHP 7016. Departmental approval. Continuation/completion of a scientific research project that culminates into a written and oral presentation. Course may be repeated for a maximum of 6 credit hours.

KINE 7950 SEMINAR (1-3) SEM. SU. Course may be repeated for a maximum of 3 credit hours.

KINE 7960 SPECIAL PROBLEMS (1-3) IND. SU. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 3 credit hours.

KINE 7970 SPECIAL TOPICS (1-3) LEC. Advanced presentation of critical issues in physical education, health promotion, or exercise science. Course may be repeated with change in topic.

KINE 7980 RESEARCH PROJECT IN KINESIOLOGY (1-6) IND. SU. Pr. KINE 7010 or HLHP 7010 or HLHP 7016. Departmental approval. Completion of a scientific research project in Kinesiology that culminates into a written and oral presentation. Course may be repeated for a maximum of 6 credit hours.

KINE 7990 RESEARCH AND THESIS (1-10) IND. Course may be repeated with change in topics.

KINE 8270 EXERCISE GENETICS (3) LEC. 3. This course will describe advanced concepts related to exercise genetics. Examples include how skeletal muscle responds to exercise at the epigenetic, transcriptomic, and proteomic level. Additionally, cutting-edge research topics (e.g., miRNA and retrotransposons) will be discussed in the context of exercise science.

KINE 8300 RESEARCH IN KINESIOLOGY (3) LEC. 3. Examination and evaluation of current research trends within the field of kinesiology.

KINE 8310 SUPERVISION/ADMINISTRATION OF LABS IN KINESIOLOGY (3) LEC. 3. Skills and techniques of the daily management of kinesiology labs. Topics include budgeting, outreach, entrepreneurship, grants, and personnel management.

KINE 8320 RESEARCH MENTORSHIP (3) LEC. 3. Skills and experience in the mentorship of novice researches in the field of Kinesiology.

KINE 8710 SCIENTIFIC COMMUNICATION IN EXERCISE SCIENCE (3) LEC. 3. In-depth analysis of the major formats for scientific communication and the peer-review process in exercise science. Or equivalent.

KINE 8730 NUTRIENT TIMING FOR PERFORMANCE OPTIMIZATION (3) LEC. 3. This course will discuss how Nutrient Timing is important for optimizing endurance- or resistance training adaptations in athletes.

KINE 8750 THREE-DIMENSIONAL ANALYSIS OF HUMAN MOVEMENT (3) LEC. 3. Pr. (HLHP 7620 or HLHP 7620) or KINE 7620 or KINE 7620. Three-dimensional nature of body segments in human movement, with emphasis on data processing and modeling techniques.

KINE 8770 NEUROMUSCULAR ASPECTS OF EXERCISE AND TRAINING (3) LEC. 3. Pr. KINE 7680 or HLHP 7680 or HLHP 7686 or departmental approval. Examination of neuromuscular mechanisms that allow humans to perform work, including energy output, neural integration, energy metabolism and adaptations to training.

KINE 8780 BIOCHEMISTRY OF EXERCISE (3) LEC. 3. Pr. (HLHP 7680 or KINE 7680) or HLHP 7686 or departmental approval. Regulation of the metabolic pathways of energy metabolism with emphasis on the energetic response to acute exercise and exercise training.

KINE 8900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. In-depth study of specific topics. Course may be repeated for a maximum of 9 credit hours.

KINE 8910 PRACTICUM (1-3) PRA. SU. Departmental approval. Application of basic concepts to specific work environments. Course may be repeated for a maximum of 9 credit hours.

KINE 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised work experiences in schools, fitness and rehabilitation settings. Course may be repeated for a maximum of 10 credit hours.

KINE 8930 DIRECTED FIELD EXPERIENCES (1-10) FLD. SU. Departmental approval. Field studies away from campus. Course may be repeated for a maximum of 10 credit hours.

KINE 8950 SEMINAR (1-3) SEM. SU. Course may be repeated for a maximum of 3 credit hours.

KINE 8960 SPECIAL PROBLEMS (1-3) IND. SU. Course may be repeated for a maximum of 3 credit hours.

KINE 8970 SPECIAL TOPICS (1-3) LEC. Advanced presentation of critical issues in physical education. health promotion, or exercise science. Course be repeated with change in topic. Course may be repeated with change in topics.

KINE 8980 FIELD PROJECT (1-6) FLD.

KINE 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Field project away from campus. Course may be repeated for a maximum of 9 credit hours. Course may be repeated with change in topics.

Physical Education Courses

PHED 1000 ACTIVE AUBURN (2) LEC. 2. Basic concepts associated with physical activity and the opportunities on campus to engage in health-promoting and wellness activities. Course may be repeated for a maximum of 4 credit hours.

PHED 1200 CARDIO RESPIRATORY: FITNESS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning. Activities may include, but are not limited to running (jogging) swimming, cycling and aerobic dance. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1210 CARDIO RESPIRATORY: AEROBIC DANCE (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in aerobic dance.

PHED 1220 CARDIO RESPIRATORY: CIRCUIT TRAINING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in circuit training.

PHED 1230 CARDIO RESPIRATORY: JOGGING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in jogging.

PHED 1240 CARDIO RESPIRATORY: SWIM FOR FITNESS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in swim for fitness.

PHED 1250 CARDIO RESPIRATORY: WATER AEROBICS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of cardio-respiratory functioning in water aerobics.

PHED 1260 MILITARY FITNESS FOR EVERYONE (2) LEC. 2. Basics of military-type physical activity training, goal-setting, and fitness principles.

PHED 1300 FITNESS AND CONDITIONING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness. Activities may include, but are not limited to calisthenics and weight training. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1310 FITNESS: BODYBUILDING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in bodybuilding.

PHED 1320 FITNESS: LIFETIME ACTIVITY (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in lifetime activity.

PHED 1330 FITNESS: WEIGHT CONTROL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in weight control.

PHED 1340 FITNESS: WEIGHT TRAINING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in weight training.

PHED 1350 FITNESS WEIGHT TRAINING WOMEN (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness for weight training for women.

PHED 1360 FITNESS: WEIGHT TRAINING II (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with the development and maintenance of general physical fitness in weight training II.

PHED 1380 KETTLEBELL TRAINING (2) LEC. 1. LAB. 1. Introductory approach to kettlebell techniques and kettlebell program development.

PHED 1390 WEIGHT MANAGEMENT (2) LAB. 2. Nutrition and exercise concepts associated with maintaining healthy weight.

PHED 1400 TEAM SPORTS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport. Team sports may include, but are not limited to, volleyball, basketball and softball. Course may be repeated with change in topic.

PHED 1410 TEAM SPORTS: BASKETBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1420 TEAM SPORTS: FLAG FOOTBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1430 TEAM SPORTS: SOCCER (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1440 TEAM SPORTS: SOFTBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1450 TEAM SPORTS: VOLLEYBALL (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific team sport.

PHED 1500 INDIVIDUAL SPORTS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport. Sports may include, but are not limited to tennis, golf and racquetball. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1510 INDIVIDUAL SPORTS: BOWLING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1520 INDIVIDUAL SPORTS: GOLF (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1530 INDIVIDUAL SPORTS: GOLF II (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1550 INDIVIDUAL SPORTS: TENNIS (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific individual sport.

PHED 1600 PERFORMANCE ACTIVITIES (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity. Activities may include, but are not limited to, dance and gymnastics. Course may be repeated with a change in topic. Course may be repeated with change in topics.

PHED 1610 PERFORM ACTIVITY - PILATES (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity.

PHED 1620 PERFORMANCE ACTIVITY: KARATE (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity. Course may be repeated for a maximum of 6 credit hours.

PHED 1630 PERFORMANCE ACTIVITY: TAE KWON DO (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity.

PHED 1640 PERFORMANCE ACTIVITY: YOGA (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with a specific performance activity.

PHED 1700 AQUATICS: OTHER (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills. Activities may include, but are not limited to, swimming skills instruction, lifeguard training, and scuba diving. When appropriate, successful completion of the course will lead to Red Cross certification or certification by other agencies. Course may be repeated for a maximum of 4 credit hours.

PHED 1710 AQUATICS: WHITEWATER KAYAKING I (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1720 AQUATICS: WHITEWATER KAYAKING II (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1740 AQUATICS: LIFEGUARD TRAINING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1750 AQUATICS: BEGINNING SWIMMING (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1760 AQUATICS: SCUBA (2) LEC. 1. LAB. 2. Basic concepts and physical activities associated with specific aquatic skills.

PHED 1800 VARSITY SPORTS: STRENGTH AND CONDITION (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topic.

PHED 1810 VARSITY MEN'S SPORTS: FOOTBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1820 VARSITY MEN'S SPORTS: BASKETBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1830 VARSITY MEN'S SPORTS: TRACK (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1840 VARSITY MEN'S SPORTS: CROSS COUNTRY (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1850 VARSITY MEN'S SPORTS: SWIMMING AND DIVING (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1860 VARSITY MEN'S SPORTS: GOLF (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1870 VARSITY MEN'S SPORTS: TENNIS (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1880 VARSITY MEN'S SPORTS: BASEBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1900 VARSITY WOMEN'S SPORTS: SOCCER (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1910 VARSITY WOMEN'S SPORTS: GYMNASTICS (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1920 VARSITY WOMEN'S SPORTS: BASKETBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1930 VARSITY WOMEN'S SPORTS: TRACK (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1940 VARSITY WOMEN'S SPORTS: CROSS COUNTRY (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1950 VARSITY WOMEN'S SPORTS: SWIMMING AND DIVING (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1960 VARSITY WOMEN'S SPORTS: GOLF (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1970 VARSITY WOMEN'S SPORTS: TENNIS (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1980 VARSITY WOMEN'S SPORTS: SOFTBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 1990 VARSITY WOMEN'S SPORTS: VOLLEYBALL (1) LEC. 1. SU. Skills and training associated with participation in varsity sports. Course may be repeated with change in topics.

PHED 2100 WHEELCHAIR SPORTS FOR EVERYONE (2) LEC. 2. LAB. 1. A physical education class which introduces students to various wheelchair sports.

PHED 2200 SELF DEFENSE FOR WOMEN (1) LEC. 1. The Rape Aggression Defense (RAD) System is a comprehensive program of realistic self-defense tactics and techniques for women that promotes awareness, prevention, risk reduction and risk avoidance with a progression to hands-on training and simulation exercises.

Physical Therapy Courses

KNPT 9000 ANATOMY FOR PHYSICAL THERAPY I (4) LEC. 3. LAB. 2. The study of the structure and function of the neuromusculoskeletal system: muscles, nerves and joints of the lower extremity and spine. Develop an understanding of structure, function, and biomechanics of gait as well as clinical neurodynamics. Lecture and laboratory experiences will be utilized. Laboratory will include the use of virtual and/or cadaver dissection. Goal is to provide the student with a three-dimensional understanding of the function of the lower quarter and spine.

KNPT 9010 ANATOMY FOR PHYSICAL THERAPY II (4) LEC. 3. LAB. 2. This course studies the structure and function of the neuromusculoskeletal system: muscles, nerves and joints of the upper extremity and spine. Develop an understanding of clinical neurodynamics. Lecture and laboratory experiences will be utilized. Laboratory will include the use of cadaver dissection and/or virtual lab. Goal of the course is to provide the student with a three-dimensional understanding of the function of the upper quarter and spine.

KNPT 9020 PHYSICAL THERAPY BIOMECHANICS I (3) LEC. 2. LAB. 2. Structures of the musculoskeletal system and individual functional regions. Forces sustained in normal and pathological conditions. Application of mechanical/physiological principles to the human movement system. Mechanical properties of biological tissue, kinematics, kinetics, muscle actions, and joint structure and function are examined. Detailed analyses of normal and abnormal movement and alignment of the spine and extremities. Gait and postural analyses, with emphasis on individual joint motion and muscle activity during swing and stance phases of gait.

KNPT 9030 PHYSICAL THERAPY BIOMECHANICS II (3) LEC. 2. LAB. 2. Structures of the musculoskeletal system and individual functional regions. Forces sustained in normal and pathological conditions. Kinesiology emphasizes the application of mechanical and physiological principles to the human movement system. Mechanical properties of biological tissue, kinematics, kinetics, muscle actions, and joint structure and function are examined. Students will perform detailed analyses of normal and abnormal movement and alignment of the spine and extremities.

KNPT 9040 PHYSICAL THERAPY NEUROSCIENCE (4) LEC. 4. This course focuses on the anatomy and physiology of the central nervous system, with emphasis on the substrates and processes involved in movement. The course will provide the student physical therapist with a framework for developing knowledge of the normal structure and function of the human central nervous system; an understanding of various pathological conditions and their clinical manifestations; the skills necessary to perform and interpret a clinical neurological assessment.

KNPT 9050 PHYSICAL THERAPY FOUNDATIONS, THERAPEUTIC EXERCISE I (3) LEC. 2. LAB. 2. Introduction to general physical therapy evaluation including communication skills, and documentation. Understanding of the fundamentals and principles of movement observation and analysis. Concepts, procedures, and techniques required to provide safe and effective patient care. Psychomotor skills including assessment of bony and soft tissue structures (palpation), whole body movement, posture, gait, vital signs. Patient care skills including infection control, patient positioning and draping, transfer activities. Emphasis is placed on appropriate body mechanics for therapist and patient.

KNPT 9060 PHYSICAL THERAPY FOUNDATIONS, THERAPEUTIC EXERCISE II (3) LEC. 2. LAB. 2. Foundations and principles of Therapeutic Exercise for clinical practice of PT. Discuss theories on how variety of therapeutic exercises produce beneficial physiological outcomes. Outline the process clinicians utilize to design appropriate therapeutic exercise programs. Interpret findings of a PT examination, identify impairments, functional limitations and/or disabilities. Methods to efficiently prescribe therapeutic exercise based on the exam findings will be addressed. Apply knowledge of various systems (musculoskeletal, cardiopulmonary, neurological) and discuss their relationship to these interventions.

KNPT 9100 PHYSIOLOGY, PATHOPHYSIOLOGY, & PHARMACOLOGY (3) LEC. 3. Pathophysiology is the study of the biological and physical manifestations of disease as they correlate with the underlying abnormalities and physiological disturbances. It explains the processes within the body that result in the signs and symptoms of a disease. A review of the normal physiology of each system will occur to allow students to compare and contrast “diseased” vs. normal functioning. Lastly, pharmacological interventions commonly used to treat diseases will be discussed.

KNPT 9110 MUSCULOSKELETAL PHYSICAL THERAPY I (3) LEC. 2. LAB. 2. Common disorders of the musculoskeletal system emphasizing the five steps of patient management: examination, evaluation, diagnosis, prognosis, selection and application of interventions, and outcomes measurement for nonsurgical and surgical orthopedic conditions. Utilization of clinical reasoning during comprehensive examination, interpretation, development and implementation of plan of care, and communicating findings with interdisciplinary health care team will be practiced. Emphasis on progression of patient evaluation and management skills.

KNPT 9120 MUSCULOSKELETAL PHYSICAL THERAPY II (3) LEC. 2. LAB. 2. Clinical principles and concepts for management of more complex orthopedic, sports, and industrial injuries. Emphasis on the progression of skills of joint and soft tissue mobilization. Skills that will be added to the student's foundational knowledge will include high velocity low amplitude thrust techniques, movement assessment techniques, advanced therapeutic exercise implementation and progression, and post-operative rehabilitation following common orthopedic surgery procedures.

KNPT 9130 MUSCULOSKELETAL PHYSICAL THERAPY III (2) LEC. 1. LAB. 2. Analysis of interventions used to treat musculoskeletal system dysfunctions. Present assessment and management/intervention principles to various musculoskeletal-related areas typically seen in outpatient orthopedic/sports population. Review McKenzie method for assessment and treatment of lumbar and cervical spine disorders; running biomechanics and analysis, and treatment of common running injuries including use of pre-fabricated or custom foot orthoses; sports massage; treatment techniques for Anterior Cruciate Ligament injury and concussion; women's health issues, including a pilates pre-partum program.

KNPT 9140 NEUROLOGICAL PHYSICAL THERAPY I (3) LEC. 2. LAB. 2. This course addresses the physical therapy examination, evaluation, diagnosis, prognosis and plan of care (including introduction to interventions) for adults with movement problems stemming from dysfunction of the central nervous system (supraspinal and spinal structures), presenting with common neurologic impairments and including altered consciousness or cognitive function as well as vestibular involvement. Emphasis will be on diagnoses such as stroke, Parkinson's disease, multiple sclerosis, amyotrophic lateral sclerosis, post-polio, brain injury, and spinal cord injury.

KNPT 9150 NEUROLOGICAL PHYSICAL THERAPY II (3) LEC. 2. LAB. 2. Build upon evaluative skills to include designing and implementing comprehensive plans of care and specific interventions pertaining to impairments in adults with neuromuscular disorders. Emphasis will be placed on specific diagnoses such as stroke, spinal cord injury, traumatic brain injury; neuromuscular diseases such as multiple sclerosis, Guillain-Barr# Syndrome, chronic inflammatory demyelinating polyneuropathy, amyotrophic lateral sclerosis, polio/post-polio syndrome, and vestibular involvement. Emphasis will be placed on handling skills, concepts of PNF, NDT, and motor learning/control.

KNPT 9160 CARDIOPULMONARY PHYSICAL THERAPY (4) LEC. 3. LAB. 2. Fundamental principles of patient/client screening, evaluation/examination, exercise testing (including resting and exercise electrocardiography [EKG]), and exercise prescription for patient/client populations suffering from acute or chronic cardiovascular, pulmonary illness, and other related conditions are covered. Knowledge and skills of patient screening/evaluation/examination, assessment, and the role of exercise interventions across a wide spectrum of clinical cardiopulmonary conditions are developed. These topics are discussed in conjunction with case studies, problem solving approaches, and current research.

KNPT 9170 ACUTE CARE PHYSICAL THERAPY (3) LEC. 2. LAB. 2. Familiarize the student with several areas in physical therapy assessment and interventions, including wound care and practice in acute care setting. In wound care section, the student will be introduced to the appropriate use of topical agents and dressings as well as sharp debridement. The physical therapist's role in acute care will cover the physical therapy management of the medically complex patient, as well as general physical therapy assessment and management in acute care setting.

KNPT 9200 LIFESPAN PHYSICAL THERAPY I- GERIATRICS (3) LEC. 3. This course is designed to afford the learner an introduction to aging, unique aspects of individuals at later stages in the life span, specifically those which have an impact on physical therapy management. Explore concepts surrounding aging: personal/societal attitudes, misconceptions/myths, physical/psychosocial aspects, demographics, medically complex patients, community resources, caregiver concerns and family involvement, balance screening and fall prevention. Students build upon and apply skills already acquired in other courses while considering geriatric population.

KNPT 9210 LIFESPAN PHYSICAL THERAPY II - PEDIATRICS (3) LEC. 2. LAB. 2. This course addresses normal and delayed maturation processes from conception through adulthood; nervous, cardiovascular and musculoskeletal systems. Typical human motor development from conception through adolescence. Discuss common pathologies seen and role of the physical therapist in pediatric populations. Didactic information is reinforced with observational experiences within the community and application of general physical therapy evaluation and problem-solving skills with mock patients. Introduce and explore useful treatment strategies and equipment used in multiple pediatric settings.

KNPT 9220 PSYCHOSOCIAL ASPECTS IN PHYSICAL THERAPY (3) LEC. 3. This course examines adjustment to physical disability, terminal illness, and ethical decision making. Students will discuss multiple psychosocial aspects of patient care, including the delivery of physical therapy services for patients with chronic health conditions and psychological comorbidities; adjustment to chronic illness and disability; communication strategies to facilitate a positive therapeutic alliance and health behavior change; delivery of psychologically informed and culturally competent care for diverse populations; and abuse and neglect of vulnerable populations.

KNPT 9310 THERAPEUTIC MODALITIES (3) LEC. 2. LAB. 2. Theory and practice of treating injury and pathology of various tissues of human body. Explore tissues that make integument: skin, muscle, bone, cartilage, tendon, ligament, nerve, and joint capsule. Understand how they can be influenced by pathology and therapeutic modes. Introduce physiology of pain and explore treatments for pain. Explore physical agents (heat, cold, sound and electricity) and their adjunctive application, mechanism of action. Explore therapeutic modes of soft-tissue mobilization, neural tension, and other techniques.

KNPT 9320 DIFFERENTIAL DIAGNOSIS (3) LEC. 3. Differentiate: 1) Less common musculoskeletal pathology that might require referral to a physician. These musculoskeletal conditions may be disorders of acquired, genetic, developmental, metabolic, infectious and neoplastic nature; 2) Systemic medical conditions that can mimic and /or complicate common musculoskeletal conditions. How to screen for and differentially diagnose overlaps between common musculoskeletal conditions and other medical problems and/or co-morbidities that can affect clinical decision-making. Basic interpretation of imaging studies, electroneuromyography and selected laboratory test results.

KNPT 9340 ORTHOTICS & PROSTHETICS (3) LEC. 2. LAB. 2. Introduce the entry-level doctor of physical therapy student to the theory, design, function, and application of prosthetic and orthotic devices for the extremities and spine. Discuss evolution of prosthetics and orthotics, with exposure to recent advancements including state-of-the-art devices, which allow optimal function for patients. Discuss indications for devices, a physical therapist's role in management and inter-professional collaboration, and applicable interventions. Information regarding the education and responsibilities of a certified prosthetist/orthotist will be presented.

KNPT 9500 PROFESSIONAL DEVELOPMENT IN PHYSICAL THERAPY (2) LEC. 2. Critical examination of responsibilities, challenges, and opportunities inherent in physical therapy practice. Develop practitioners engaged in professionalism, commitment to the demonstration of attributes to enhance practice of physical therapy at individual and societal levels. Develop expert reasoning and psychomotor skills to allow highest quality of patient care. Understand ramifications and influence of cost-related factors in current healthcare system. Students must be willing to assume an active role in identifying emerging problems and seek appropriate solutions.

KNPT 9510 PHYSICAL THERAPY ADMINISTRATION, SUPERVISION & MANAGEMENT (3) LEC. 3. This course intends to introduce students to managerial and organizational skills, practice settings, and business models as they relate to the physical therapy profession. Review federal and Alabama rules on physical therapy assistant supervision. Students will also explore the various ethical and legal factors which impact patient care in the current physical therapy environment. Additionally, students will have the opportunity to practice these skills through group work and the development of group business plan.

KNPT 9600 EVIDENCE BASED PRACTICE FOR PHYSICAL THERAPY I (4) LEC. 4. This course introduces students to evidence-based practice and prepares the students to be consumers of professional literature in physical therapy. Students will identify, interpret, and distinguish between a wide variety of research relevant to the practice of physical therapy while also considering the roles of clinical expertise and patient values in applying the evidence, clinically. Course participation exposes the student to various research methodological principles and analytical concepts in preparation for their grand rounds.

KNPT 9610 EVIDENCE BASED PRACTICE FOR PHYSICAL THERAPY II (3) LEC. 3. Students will develop and demonstrate skills of evidence-based practice and patient/client management through completion of a written case study and oral presentation based on their clinical experience. This project includes a written summation of a patient's case, analyzing evidence and addressing clinical questions which arose during student's interactions. Students must develop and deliver an oral presentation and provide critical feedback on peer presentations.

KNPT 9620 EVIDENCE BASED PRACTICE FOR PHYSICAL THERAPY III (3) LEC. 3. Integrate evidence, patient values, and clinical expertise to critically analyze clinical decision making for complex cases across a range of practice settings. Identify and answer questions regarding physical therapy examination, prognosis, and intervention through empirical evidence. Use International Classification of Functioning, Disability, and Health (ICF) model of clinical reasoning to synthesize evidence, patient values and clinical expertise to make patient-centered decisions. Collaborative problem solving and professional communication skills are developed through group interactions with peers.

KNPT 9800 CLINICAL PLACEMENT I (4) FLD. 35. SU. This six-week clinical placement course is designed to introduce the physical therapy student to the clinical environment and to apply knowledge and basic skills developed up to this point in the curriculum in a real-world clinical setting.

KNPT 9810 CLINICAL PLACEMENT II (14) FLD. 40. SU. Pr. KNPT 9800. This course is designed to incorporate knowledge and skills obtained during the first short term placement, and synthesize information and skills developed in the final didactic portion of the curriculum, and apply them in real-world physical therapy practice setting that they are assigned to, under direct supervision of the clinical instructor (licensed physical therapist at the assigned placement site).

KNPT 9820 CLINICAL PLACEMENT III (14) FLD. 40. SU. Pr. KNPT 9800 and KNPT 9810. This course is designed to incorporate knowledge and skills obtained during the first short term placement as well as the intermediate placement, and synthesize information and skills developed in the final didactic portion of the curriculum, and apply them in real-life physical therapy practice setting that the student is assigned to, under direct supervision of the clinical instructor (licensed physical therapist at the assigned clinical site).

KNPT 9900 GRAND ROUNDS I (1) LEC. 1. SU. Grand Rounds I serves as a platform where students, faculty, and guest speakers converge to elevate their diagnostic, clinical, and treatment proficiencies through case presentations and discussions. Clinicians and faculty specializing in physical therapy and related health professions are welcomed as presenters. Beyond the dissemination of physical therapy best practices, the overarching objective is to foster an interactive dialogue involving diverse healthcare professions, thus enriching the discourse on optimal patient care. Course may be repeated for a maximum of 2 credit hours.

KNPT 9910 GRAND ROUNDS II (1) LEC. 1. SU. Students will demonstrate advanced skills such as deductive reasoning, clinical decision-making, formulation of evidence-based interventional strategies, professional presentation proficiency, and independent critical thinking, all rooted in their own clinical experiences, through interactive case presentations and discussions. Beyond the transmission of physical therapy best practices, the primary aim is to foster a robust and participatory dialogue that actively engage participants in shaping optimal approaches to patient care. Course may be repeated for a maximum of 3 credit hours.

Department of Special Education, Rehabilitation, and Counseling

Undergraduate Degree Programs

- Collaborative Teacher Education (BS) (p. 556)
- Early Childhood/Elementary Special Education (BS) (p. 557)
- Rehabilitation and Disability Studies (BS) (p. 559)

Undergraduate Minor Programs

- Counseling (p. 553)

Non-Degree Programs

- EAGLES Program (p. 540)

Undergraduate Degree Programs (BS)

The Department of Special Education, Rehabilitation and Counseling prepares students in the following areas: collaborative teacher education, early childhood/elementary special education, and rehabilitation and disability studies.

Collaborative Teacher Education — BS

This Bachelor of Science in Collaborative Teacher Education program prepares students to be teachers who serve students with disabilities in grades K-12. The program includes coursework that covers most disabilities with the exception of sensory impairments and certain severe disabilities. Graduates are prepared to implement evidence-based practices in inclusive general education settings as well as develop programs that meet students' unique educational needs in different school-based and community-based settings. Collaborative teacher education meets the criteria for ALSDE Class B certification in K-12 grade levels.

Early Childhood/Elementary Special Education — BS

This Bachelor of Science in Early Childhood/Elementary Special Education prepares teachers and early interventionists to serve children with a variety of disabilities from birth to age 9 in a range of settings from home to elementary school. Graduates are prepared to implement evidence-based practices that support families and the development of young children who have or are at-risk for developmental delays and disabilities, as well as elementary-age students with disabilities. Early childhood/elementary special education meets the criteria for ALSDE Class B certification in birth through 6th grade and includes Infants and toddlers (birth to 2 years of age); preschoolers (3 to 4 years of age); and K-6 grade levels.

Rehabilitation and Disability Studies — BS

This Bachelor of Science program is a 120-credit hour program that prepares students to become professionals in the fields of disability studies and services which include counseling, allied health fields (occupational therapy/physical therapy), case management, human services, orthotics and prosthetics, and other related fields. Coursework covers the foundation and history of the disability movement. The program has a large component of field experience which allows students experience working with consumers in different areas of rehabilitation services. The focus is on current research in rehabilitation strategies and processes.

Minor

The department offers a minor in counseling. The counseling minor provides students interested in careers in the helping professions with a foundational understanding of the roles and activities of counselors and facilitates the development of the core professional values of the counseling and related fields.

Information about the Counseling minor can be found at: Counseling Minor Curriculum.

Non-Degree Programs

EAGLES

The Education to Accomplish Growth in Life Experiences for Success, or EAGLES, is a comprehensive transition program (CTP) for students with intellectual disabilities. The program provides a post-secondary education opportunity for students with intellectual disabilities to engage in a two or four-year campus experience to help students achieve their employment and independent living goals upon successful completion of the program. The EAGLES program is a non-degreed program focusing on (1) academic enrichment, (2) personal and social skills, (3) independent living skills, (4) health and wellness, and (5) integrated work experiences. Students in the program receive an inclusive post-secondary education providing them with an enriching and rewarding Auburn experience as they prepare to transition to gainful employment, that aligns with the student's strengths and interests and independent living goals. The EAGLES program curriculum is structured to help students become contributing members of society through their career interests both now and in the future.

Information about graduate programs is available at: Special Education, Rehabilitation, and Counseling - MA, MEd, MS, EdS, PhD, Graduate Certificates.

Majors

- Early Childhood/Elementary Special Education: P–6 (p. 557)
- Collaborative Teacher Special Education: K–12 (p. 556)
- Rehabilitation and Disability Studies (p. 559)

Minors

- Counseling (p. 553)

Counselor Ed, Counseling Psych Courses

COUN 1000 CAREER ORIENTATION EXPLORATION (2) LEC. 1. LAB. 2. The process of career decision-making through hands- on activities, in-class exercises, and job shadowing.

COUN 2000 LIVING AND COMMUNICATING IN A DIVERSE SOCIETY (3) LEC. 3. The class developing cultural competence in context of relationships, issues, and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, and mental and physical abilities/disabilities.

COUN 2007 HONORS LIVING AND COMMUNICATING IN A DIVERSE SOCIETY (3) LEC. Pr. Honors College. The class developing cultural competence in context of relationships, issues, and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, and mental and physical abilities/disabilities.

COUN 2020 INTRODUCTION TO LGBTQ STUDIES (3) LEC. 3. The class focuses on content addressing and introduces lesbian, gay, bisexual, and transgender studies. The course will examine the historical, scientific, psychological, and cultural contexts of relationships, issues and trends in a diverse society related to sexual orientation.

COUN 2300 MENTAL HEALTH DISPARITIES (3) LEC. 3. This course will introduce students to mental health disparities and strategies for addressing the social factors of mental health.

COUN 2900 DIRECTED STUDIES (1-3) IND. SU. Reading, research, or other work undertaken by a student focused on an area of special interest. Directed by faculty member. Course may be repeated for a maximum of 9 credit hours.

COUN 2940 DIRECTED FIELD EXPERIENCE (1-3) DSL/FLD. Course may be repeated for a maximum of 9 credit hours.

COUN 2950 THRIVING THROUGH TRANSITIONS (1) SEM. 1. This course requires participation in activities that support healthy living and assignments that facilitate understanding of mechanisms that promote well-being. Course content reviews the process of recovery from addiction and mechanisms used to support long-term recovery. Course may be repeated for a maximum of 12 credit hours.

COUN 2970 SPECIAL TOPICS IN COLLEGE STUDENT DEVELOPMENT (1-3) DSL. Selected topics in college student development. Fall, Spring. Course may be repeated for a maximum of 12 credit hours.

COUN 3000 CAREER SUCCESS (2) LEC. 2. Developing a career plan via instruction on researching careers, writing resumes, developing portfolios, interviewing, net working and other career development practices. May count either COUN 3000 or COUN 3003.

COUN 3100 COUNSELING AND HUMAN SERVICES (3) LEC. 3. Counseling concepts and skills appropriate in the helping professions. Not open to graduate students in counseling education.

COUN 3980 SUPERVISED RESEARCH EXPERIENCE IN COUNSELING (3) LAB. 3. SU. This course provides students with the opportunity to gain supervised research experience in counselor education, counseling psychology, and special education programs. Students will work with the faculty instructor to gain experience in a range of research activities. Course may be repeated for a maximum of 12 credit hours.

COUN 4000 INTRODUCTION TO COUNSELING AND PSYCHOTHERAPY (3) LEC. 3. Pr. COUN 2000 or COUN 2007. Current theory, research, and practice regarding counseling and psychotherapy. We will cover several current issues related relevant to counseling and psychotherapy, including the process of change, theoretical perspectives, ethical issues.

COUN 4010 INTRODUCTION TO PREVENTION AND MENTAL HEALTH PROMOTION (3) LEC. 3. Pr. COUN 2000 or COUN 2007. Addressing the ideas of prevention and health promotion in counseling psychology. We will address such concepts as positive psychology, mindfulness, stress, health promotion, body image, social justice theory, social advocacy, and prevention theory.

COUN 4910 PRACTICUM (1-3) PRA. SU. This course provides students with the opportunity to be actively involved in social justice efforts that affect the region and nation through gaining hands-on experience in a social justice agency. Course may be repeated for a maximum of 6 credit hours.

COUN 4970 SPECIAL TOPICS IN COUNSELING (3) DSL/ST1. Introduction to selected topic in counseling. Course will provide a semester-long introduction and introduction into research in the topic of interest using a seminar style of instruction. Course may be repeated for a maximum of 9 credit hours.

COUN 7010 MEDICAL VOC & PSYCHOSOCIAL ASPECTS OF DISABILITY (3) LEC. 3. An introduction to medical terminology, body systems, common physical and cognitive conditions therapeutic/restorative services, and psychosocial & vocational considerations of various disabilities. May count COUN 7010 or RSED 6010.

COUN 7110 OCCUPATIONAL, CAREER AND PLACEMENT SERVICES (3) DSL/LEC. The course is designed to familiarize students with career theory and methods used by rehabilitation practitioners to analyze and apply vocational techniques to place individuals with disabilities. May count COUN 7110 or RSED 6220.

COUN 7130 VOCATIONAL EVALUATION (3) LEC. 3. Principles, process and techniques used to diagnose vocationally-related assets and liabilities of the individual with disabilities. May count either RSED 7130, COUN 7130.

COUN 7200 INTRODUCTION TO MEASUREMENT AND ASSESSMENT (3) LEC. 3. Pr. COUN 7100 or COUN 7400. Introduction to the history and theory of measurement and assessment as it applies to counselors and psychologists.

COUN 7220 INTELLECTUAL ASSESSMENT OF CHILDREN AND ADOLESCENTS (3) LEC. 3. Pr. COUN 7200. Theory and measurement of children's intelligence. Administration and interpretation of selected tests.

COUN 7230 CAREER DEVELOPMENT AND VOCATIONAL APPRAISAL (3) LEC. 3. Career development theories appraising vocationally related interests, aptitudes, and personal characteristics. Laboratory practice in test procedures.

COUN 7240 COUNSELING CHILDREN AND ADOLESCENTS (3) LEC. 3. Course provides awareness, knowledge, and skills for counseling children and adolescents using effective theoretical approaches, counseling modalities, and specific techniques.

COUN 7250 ADVANCED ASSESSMENT AND DIAGNOSIS IN COUNSELING (3) LEC. 3. Assessment/diagnostic skills related to counseling: intake, assessment, diagnostic criteria, treatment planning, counseling interventions.

COUN 7310 COUNSELING APPLICATIONS OF LIFESPAN DEVELOPMENT (3) LEC. 3. Theories and current research in development across the lifespan with emphasis on applications to counseling.

COUN 7320 COUNSELING THEORIES (3) LEC. 3. Study of major counseling theories.

COUN 7330 COUNSELING DIVERSE POPULATIONS (3) LEC. 3. Departmental approval. Special counseling and advocacy issues. Needs of diverse populations are considered.

COUN 7340 GROUP COUNSELING (3) LEC. 3. Leading, developing, evaluating a counseling group; including group proposal, session development, group dynamics, group leadership and evaluation, treatment planning; group intervention, counseling skills.

COUN 7350 INTRODUCTION TO COUNSELING PRACTICE (3) LEC. 3. Pr. COUN 7320 or COUN 7400 or COUN 8530. Methods, interventions, and skills essential to counseling.

COUN 7360 ADVANCED COUNSELING PRACTICE: FAMILY SYSTEMS (3) LEC. 3. This course will introduce students to Marriage/ Couple and Family Counseling theories. Using a learning-centered educational approach, students will be introduced to systemic, cognitive-behavioral, and postmodern family therapy theories using clinical case documentation. Diversity, evidence-based therapies, and the research foundations will also be covered.

COUN 7370 FOUNDATIONS OF SUBSTANCE USE COUNSELING (3) LEC. 3. Provides knowledge of the nature of substance abuse, drug classification, models of addiction, assessment and diagnosis, treatment, and related issues. May count as COUN 7370 or RSED 6340.

COUN 7400 ORIENTATION TO PROFESSIONAL COUNSELING (3) LEC. 3. Orientation to the counseling field with emphasis on philosophical, historical, psychological, and organizational foundations of professional practice.

COUN 7410 ORIENTATION TO CLINICAL MENTAL HEALTH COUNSELING (3) LEC. 3. Orientation to clinical mental health counseling to include roles, responsibilities, systems, theories, professional issues, and history.

COUN 7420 ORIENTATION TO SCHOOL COUNSEL (3) LEC. 3. Orientation to the role and activities of the K-12 school counselor. Emphasis on the components of a developmentally-oriented school counseling program.

COUN 7450 FOUNDATIONS OF SCHOOL COUNSELING (3) LEC. 3. This course is designed to extend beyond the orientation to counseling course and expand the practical knowledge of school counselors-in-training to prepare students to work as effective school counselors based on current research and practical experiences. Restricted to students in Master's Program in School Counseling.

COUN 7460 LEADERSHIP AND ADVOCACY FOR SCHOOL COUNSELORS (3) LEC. 3. This course is designed to provide an overview of school counseling leadership and advocacy. School counselors in training will develop a deeper knowledge of their role of educational leaders while serving as school counselors. Restricted to students in Counselor Education.

COUN 7500 CRISIS INTERVENTION IN COUNSELING (3) LEC. 3. Development of skills and knowledge for crisis intervention and management in counseling, including prevention planning, intervention strategies and evaluation.

COUN 7510 ADVANCED CLINICAL MENTAL HEALTH COUNSELING INTERVENTIONS (3) LEC. 3. Pr. COUN 7320. Advanced counseling interventions, practices, techniques and methods for mental health counselors, including treatment planning, counseling processes, and evaluation.

COUN 7520 INTRODUCTION TO REHABILITATION AND CASE MANAGEMENT IN REHABILITATION COUNSELING (3) LEC. 3. Program organization and development of materials for curriculum improvement and teaching practices in a disability specialization area. COUN 7520 may be repeated for a maximum combined total of 9 credits with a change in disability specialization.

COUN 7900 DIRECTED STUDIES (1-3) IND. SU. Independent learning effort directed at desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

COUN 7910 PRACTICUM (3) LEC. 3. SU. Supervised experiences appropriate to student's program emphasis area. Course may be repeated for a maximum of 9 credit hours.

COUN 7920 INTERNSHIP (1-9) INT. SU. Pr. COUN 7910 or COUN 7916. Supervised on-the-job experiences. Course may be repeated for a maximum of 9 credit hours.

COUN 7930 ADVANCED THEORIES IN COUNSELING PRACTICE (3) LEC. 3. Intensive study of advanced theories within rehabilitation counseling, as well as an examination of outcome research relating to the use and application of these theories and techniques. May count COUN 7930 or RSED 7940.

COUN 7950 EMERGING ADULTHOOD AND TRANSITION IN REHABILITATION (3) LEC. Introduction to the transition process of youth with disabilities from school to adulthood and employment with emphasis on the developmental stage emerging adulthood. May count COUN 7950 or RSED 7950.

COUN 7960 SPECIAL PROBLEMS (1-10) IND. SU. May be repeated. Course may be repeated for a maximum of 10 credit hours.

COUN 7970 SPECIAL TOPICS (1-3) AAB. An in-depth study of a current topic(s) impacting the professions related to departmental programs. Course may be repeated for a maximum of 9 credit hours.

COUN 8110 COUNSELING ASSESSMENT ACROSS THE LIFESPAN (3) LEC. 3. Development, administration, scoring and interpretation of personality, interest, aptitude, achievement, and attitude tests across the lifespan.

COUN 8120 APPRAISAL IN COUNSELING AND PSYCHOLOGY (3) LEC. 3. Development, administration, scoring and interpretation of personality, interest, aptitude, achievement, attitude tests. Includes assessment interview, behavioral observation.

COUN 8200 INTELLECTUAL ASSESSMENT OF ADULTS (3) LEC. 2. LAB. 3. Pr. COUN 8120. Theory and measurement of adult intelligence. Administration and interpretation of selected tests.

COUN 8210 TEST ADMINISTRATION AND PROFESSIONAL PRACTICE (3) LEC. 3. Pr. COUN 8530. Administration and scoring of selected tests, primarily WAIS-IV, to familiarize students with measurements for assessment of adult intelligence.

COUN 8220 PSYCHOLOGICAL SCIENCE AND HEALTH (3) LEC. 3. Pr. PSYC 7150 and PSYC 7180 and COUN 7330 and COUN 7310. In this course, fundamental science relating to health and psychology will be reviewed, focusing on major theoretical foundations, research findings, and empirically supported interventions. Students will be expected to integrate foundational knowledge in psychological science with particular emphasis on biological.

COUN 8230 COLLOQUIUM IN COUNSELING PSYCHOLOGY I (1) SEM. 1. SU. This course provides pre-practicum students with training in the conduct of counseling psychology research to provide foundational skills in research design and implementation.

COUN 8240 COLLOQUIUM IN COUNSELING PSYCHOLOGY II (2) LAB. 1, LAB/SEM. 1. SU. This course provides continued education and training in counseling psychology research and provides opportunities to demonstrate an ability to evaluate psychotherapy research in order to achieve readiness for practicum in research skills.

COUN 8250 COLLOQUIUM IN COUNSELING PSYCHOLOGY III (3) LAB. 1, LAB/SEM. 2. Pr. COUN 8240. This course provides advanced education and training in the development, conduct, and dissemination of counseling psychology research and provides opportunities to demonstrate an ability to contribute to meaningful scholarship in Counseling Psychology.

COUN 8260 COLLOQUIUM IN COUNSELING PSYCHOLOGY IV (3) LAB. 1, SEM. 2. Pr. COUN 8250. This course provides advanced education and training in the development, conduct, and dissemination of counseling psychology research and provides opportunities to demonstrate an ability to integrate concepts of equity and justice in the contribution to meaningful scholarship in Counseling Psychology.

COUN 8300 RESEARCH DESIGN IN COUNSELING AND EVALUATION (3) LEC. 3. Departmental approval. Methods for counseling research design . Studies, experimental, quasi-experimental, non-experimental, survey, between subjects and within subjects.

COUN 8310 COGNITION AND EMOTION (3) LEC. 3. Theory and empirical evidence on the cognitive and affective bases of human behavior. Integration of scientific knowledge regarding cognition and emotion.

COUN 8320 GREAT IDEAS IN PSYCHOLOGY (3) LEC. 3. Orientation to the individuals and ideas that shaped psychology using a history and systems perspective.

COUN 8400 PROFESSIONAL SEMINAR COUNSELING PSYCHOLOGY (1-3) LEC. Scientific foundations of the counseling psychology profession and application of that foundational knowledge in counseling interventions. Course may be repeated for a maximum of 9 credit hours.

COUN 8510 CONTEMPORARY ISSUES IN COUNSELOR EDUCATION (3) LEC. 3. Departmental approval. History, development, current issues. Philosophical assumptions, legal and ethical considerations, new research service initiatives.

COUN 8530 CONTEMPORARY ISSUES IN COUNSELING PSYCHOLOGY (3) LEC. 3. History, development, and current professional issues. Philosophical and cultural assumptions, legal and ethical considerations, and current research topics.

COUN 8540 COUN SUPERVISION-THEORY & PRAC (3) LEC. 3. Advanced theories, skills, models and methods used in counseling supervision including counselor development, supervisory processes and evaluation.

COUN 8550 COUNSELOR EDUCATION PEDAGOGY (3) LEC. 3. Counselor Education pedagogical skills and knowledge including; theories, course and curriculum development methods, and professional responsibilities.

COUN 8610 ADVANCED THEORIES: EXISTENTIAL/HUMANISTIC (3) LEC. 3. Theory and practice of humanistic/existential approaches to individual and group therapy.

COUN 8620 ADVANCED COUNSELING THEORIES AND PRACTICE (3) LEC. 3. Advanced study of counseling theories. Includes research relating to application of theories and techniques. Course will emphasize integration, evidence-based approaches, case conceptualization and models for evaluation.

COUN 8630 ADVANCED THEORIES: PSYCHODYNAMIC THEORIES (3) LEC. 3. Departmental approval. The origins, current status, and emerging applications of psychodynamic approaches to counseling.

COUN 8700 DIVERSITY AND SOCIAL JUSTICE IN COUNSELOR EDUCATION (3) LEC. 3. Must be admitted to the Counselor Education Doctoral Program. This advanced course provides students with information about issues of diversity and social justice. Students apply this information to their roles in the counseling profession, specifically as future counselor educators, leaders of the profession, and advocates.

COUN 8800 PROFESSIONAL DEVELOPMENT INTERNSHIP SKILLS (3) LEC. 3. This three-hour required course is designed to help students solidify their professional identity and effectively apply for their one-year Counseling Psychology internship.

COUN 8910 PRACTICUM (1-3) LEC. 1-3. SU. Advanced supervised experiences appropriate to student's program emphasis. Course may be repeated for a maximum of 15 credit hours.

COUN 8920 INTERNSHIP (1-9) INT. SU. Advanced supervised on-the-job experiences appropriate to doctoral-level study. Course may be repeated for a maximum of 9 credit hours.

COUN 8930 INTERNSHIP IN COUNSELING PSYCHOLOGY (0) INT. SU. Departmental approval. Supervised, full-time experience in Counseling Psychology at the doctoral level. May be repeated to satisfy 2000 clock hour accreditation requirement.

COUN 8970 SPECIAL TOPICS (1-3) SEM. An in-depth study of the current educational, sociological, psychological, economic, health, legal, technological, and professional issues impacting the professions related to departmental programs. Course may be repeated for a maximum of 9 credit hours.

COUN 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated. Course may be repeated with change in topics.

EAGLES Program Courses

EAGL 0100 POSITIVE CHOICES (0) SEM. 3. Departmental approval. In this course, students explore positive choices on healthy relationships, sexuality, and safe boundaries. The course is designed to increase critical thinking about relationships.

EAGL 0110 TRANSITION TO POSTSECONDARY EDUCATION (0) SEM. 3. Departmental approval. This course introduces life as a student on a college campus. It includes an overview of skills needed to manage daily life, support health, and wellness goals, and engage in social interactions on a college campus.

EAGL 0130 TRANSITION TO INDEPENDENT LIVING: ON-CAMPUS LIVING (0) SEM. 3. Departmental approval. This course prepares students for living independently in that of maintaining a clean-living space. This includes but is not limited to, educating on the proper cleaning tools for different tasks, following a chore list and or chart, and the aspect of courtesy of keeping shared spaces clean, especially when living with others.

EAGL 0140 FINANCIAL LITERACY (0) DSL/SEM. 3. Departmental approval. In this course, students build their knowledge of financial literacy as it relates to all settings (school, work, community, and home). Students demonstrate an understanding of counting money, managing their finances, budgeting, and relating their financial security to their chosen career area.

EAGL 0150 EMPLOYMENT EXPLORATION (0) SEM. 3. Departmental approval. In this course, EAGLES students explore career paths related to their personal interests and goals. Students identify occupational areas of interest using assessment results that they might prepare for and pursue while in the program and beyond.

EAGL 0200 EMPLOYMENT PREPARATION (0) SEM. 3. Departmental approval. This course focuses on strengthening skills learned and acquired as a first-year college student. This course also focuses on developing healthy habits for employment through the creation of a detailed habit plan and incorporates application-based activities, and real-world practice in the students' everyday lives. Students identify healthy habits and how they will personally incorporate them into all domains of their lives: Academics, Employment, Independent Living, Personal/Social, and Health and Wellness.

EAGL 0210 TRANSITION TO INDEPENDENT LIVING - MEAL PREP GROCERY SHOPPING (0) SEM. Departmental approval. The purpose of this course is to provide the EAGLES students with independent skills involving meal preparation and grocery shopping. These skills help the students transition to an independent lifestyle by learning how to prepare, shop, and cook meals while developing healthy eating habits.

EAGL 0220 LIVING IN THE MODERN WORLD (0) SEM. Departmental approval. This course prepares students to live independently and in the modern world by learning about challenges and pressures, self-determination, and resilience. Students will learn different strategies for self-care and develop an individualized plan for their personal self-care needs. Students will learn about community resources and community safety through outdoor exploration and guest speakers.

EAGL 0230 LIVING ARRANGEMENTS 101 (0) SEM. 3. Department approval required. Students have access to almost all their basic needs on a college campus; however, to successfully transition, students need to learn how to access these supports in their community and how to access them independently. The goal of this course is to teach second-year EAGLES students how to create a Housing Plan according to their independent living goals, financial means, and supports required to be successful at living on their own. This course is meant to introduce students to the real world of living independently through application-based lessons in the community.

EAGL 0310 EMPLOYMENT IMPLEMENTATION (0) LEC. 0. The goal of this course is to teach third year EAGLES students how to generalize skills they have learned into a community setting. Students are taught how to access all supports, like going to the post office, the eye doctor, and taking their animal to the vet, in their community independently. This course is meant to introduce students to the Auburn community so they can be engaged citizens through application-based lessons. Departmental Approval.

EAGL 0320 TRANSITION TO INDEPENDENT LIVING- OFF-CAMPUS LIVING (0) SEM. Departmental approval. The goal of this course is to teach third and fourth year EAGLES students how to generalize skills they have learned into a community setting. Students have access to almost all their basic needs on a college campus, however, to successfully transition, students need to learn how to access these supports in their community and how to access them independently.

EAGL 0330 HOT TOPICS IN TRANSITION (0) SEM. 3. Departmental approval required. In this course, students build upon their knowledge from the first financial literacy class and create a personal budget and finance portfolio to plan their future expenses across all domains for living based on their income, family support, SSI benefits, and a nest egg to support the student while living on their own. Additionally, this course reviews how to protect oneself from fraud.

EAGL 0340 MEDICAL ASPECTS (0) SEM. 3. Assist students in developing working knowledge of medical aspects of their disability and the routine medical needed to live a healthy life. This course helps students develop a medical binder to help them be autonomous when answering questions at routine medical appointments. Additionally, this course explains the process of how insurance works, medical services needed, like routine physicals, dental health, and women’s health and how to address acute issues like the common cold, headaches, etc. Departmental approval required.

EAGL 0410 EAGLES CAPSTONE PREPARATION (0) SEM. Departmental approval. Students will create an online portfolio including sections reflecting the five pillars of the EAGLES Program: academic enrichment, personal and social skills, independent living skills, health and wellness, and integrated work experiences. Students will explore areas of interest and set goals when it comes to career-making decisions and obtaining meaningful employment. Students will identify and learn to navigate resources available to them both while they are in the program and once they are alumni of the program, such as Auburn Career Services, LinkedIn, Indeed, and more. Students will hear from guest speakers focused on presenting valuable information regarding each area of the EAGLES Program’s five pillars and how students can sustain their focus on these areas after completion of the advanced program.

EAGL 0420 WORK READY, WORLD READY (0) SEM. Departmental approval. In this course, students identify, explore, and interact with agencies that will benefit them post-program. Students learn resources available to individuals with intellectual disabilities and how to access and utilize the agencies. Students learn the benefits of each agency related to employment, independent living, and community living upon completion of the program.

EAGL 0430 BECOMING AN EAGLES ALUMNI (0) SEM. 3. The purpose of this course is to assist students in developing S.O.A.R. Planning documents in preparation for life after the EAGLES Program. The course helps students work through the 5 domains of the EAGLES Program to identify accommodations needed, personal goals, supports to achieve goals and action steps. Additionally, this course will assist EAGLES students in developing and updating important documents needed post-program. Departmental approval required.

Rehabilitation Special Ed Courses

RSED 2000 DISABILITY AWARENESS AND MENTORSHIP (3) LEC. 3. LAB. 3. Overview of disabilities and strategies to address disparities in society through awareness, advocacy, and international PEER certified educator/mentorship. EAGLES counselors and WINGS peer mentor requirement.

RSED 3000 DIVERSITY AND EXCEPTIONALITY OF LEARNERS (3) LEC. 3. Exploration of philosophical, social, cultural, and legal factors, and individual characteristics shaping education for individuals with disabilities; and roles/responsibilities of educators in inclusive settings. May count either RSED 3000 or RSED 3003.

RSED 3010 INTRODUCTION TO SPECIAL EDUCATION (3) LEC. 3. Orientation to special education profession including history, philosophy, federal legislation, contemporary issues and national organizations. Only CMDS Majors may take this course. Departmental approval for all other majors.

RSED 3020 INTRODUCTION TO REHABILITATION (3) LEC. 3. Orientation to the profession including history, philosophy, federal legislation, contemporary issues and national organizations.

RSED 3110 ASSESSMENT: ELIGIBILITY FOR SPECIAL EDUCATION (3) LEC. 3. Selection, administration, scoring and interpretation of standardized aptitude and educational tests used in the field of special education. May count either RSED 3110 or RSED 3113.

RSED 3120 ASSESSMENT IN REHABILITATION (3) LEC. 3. Selection, administration, scoring and interpretation of work sample systems and standardized tests of intelligence, aptitude, achievement, interest, and dexterity used in the field of rehabilitation.

RSED 4010 BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION (3) LEC. 3. Skills to manage the behavior of special education students including behavioral assessment, selection criteria for appropriate intervention strategies and evaluation of intervention effectiveness.

RSED 4100 PROFESSIONAL COMMUNICATION IN REHABILITATION (3) LEC. 3. Theoretical and practical aspects of written and oral communication with rehabilitation and other professionals, clients, and family members.

RSED 4120 INDEPENDENT LIVING SERVICES IN REHABILITATION (3) LEC. 3. The history, legislation and philosophy of the independent living movement and its impact on the quality of life for people with severe disabilities.

RSED 4130 ETHICAL PRACTICES IN REHABILITATION (3) LEC. 3. Departmental approval. Ethical dilemmas that are routinely faced by practitioners in human service occupations.

RSED 4140 ASSESSMENT: PROGRAM PLANNING IN SPECIAL EDUCATION (3) LEC. 3. Pr. P/C RSED 4920 or P/C RSED 4923. A framework for understanding the purposes and processes that underlie various forms of educational assessments, with emphasis on application assessment of students with disabilities, and how to use assessment data to inform instructional planning and IEP goal development.

RSED 4900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Content focus of study area will be translated into specific objectives with student learning guided by the instructor. Emphasis on exceptional learners. Course may be repeated for a maximum of 3 credit hours.

RSED 4910 PRACTICUM (1-6) DSL. SU. Departmental approval. Practice in educational or community service setting aligned with degree program option. Course may be repeated for a maximum of 6 credit hours.

RSED 4911 PRACTICUM ELEMENTARY I LITERACY & NUMERACY (1-3) LEC. 2. LAB. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4920 CLINICAL RESIDENCY (9) AAB. 9. SU. Comprehensive supervised on-the job experience in a school, college or community-based setting serving individuals with disabilities. Departmental approval or admission to internship.

RSED 4931 PRACTICUM ELEMENTARY II LITERACY & NUMERACY (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4941 PRACTICUM SECONDARY I (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4951 PRACTICUM PRE-K – SECONDARY II (1-3) LEC. 2. LAB. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 4970 SPECIAL TOPICS (1-3) DR4/ST1. Seminar in which upper-level students and professors engage in critical thinking regarding selected concepts, theories, research, and issues germane to the field of disabilities. Course may be repeated for a maximum of 9 credit hours.

RSED 5000 ADVANCED SURVEY OF EXCEPTIONALITY (3) LEC. 3. This course is an advanced study of exceptionality with emphasis upon the educational implications of disability and current issues in special education and rehabilitation. May count RSED 5000, RSED 6000, or RSED 6006.

RSED 5010 MEDICAL ASPECTS OF DISABILITY (3) LEC. 3. Medical terminology, basic body systems, common malfunctions, therapeutic services, restorative techniques, and disability evaluation for different disability groups and the vocational implications of each. May count RSED 5010, RSED 5013, RSED 6010, or RSED 6016.

RSED 5020 PSYCHOSOCIAL ASPECTS OF DISABILITY (3) LEC. 3. Theoretical constructs and practical issues for various types of physical, mental, psychiatric, and social disabilities with implications for personal, vocational, social and community adjustment. May count RSED 5020, RSED 5023, RSED 6020, or RSED 6026.

RSED 5070 MILD DISABILITIES (3) LEC. 3. The purpose of this course is to present the major concepts and issues related to mild disabilities. A variety of topics, ranging from the historical developments in the field to proposed teaching procedures for students, will be discussed. In-depth analysis of selected topics will be accomplished with student presentations and assignments. May count either RSED 5070 or RSED 6070.

RSED 5100 INFANTS AND TODDLERS WITH DISABILITIES (3) LEC. 3. Pr. RSED 3010. Historical, legislative, and philosophical basis of early intervention for young children, birth through age two, with special needs and their families. May count RSED 5100, RSED 6100, or RSED 6106.

RSED 5110 CURRICULUM IN EARLY CHILDHOOD SPECIAL EDUCATION: LITERACY AND DEVELOPMENTAL DOMAINS (3) LEC. 3. Procedures for developing, implementing, and monitoring individualized educational programs in natural settings. Admission to Teacher Education. May count RSED 5110, RSED 6110, or RSED 6116.

RSED 5120 CURRICULUM IN ELEMENTARY: LITERACY AND MATHEMATICS IN SPECIAL EDUCATION (3) LEC. 3. Pr. RSED 3010. Admission to Teacher Education. Functional/developmental approach to the selection, development, implementation, and evaluation of curriculum activities for the collaborative instruction of elementary children with disabilities. May count RSED 5120, RSED 6120, or RSED 6126.

RSED 5130 CURRICULUM IN LITERACY FOR STUDENTS WITH DISABILITIES (3) LEC. This course is designed to provide students with the understanding of language development, development of early literacy, and screening for early literacy deficits. This class will introduce language systems (orthography, phonetics, phonology, morphology, syntax, and semantics) and their role in the development of literacy. The course will provide opportunities for implementation of assessment and explicit system instruction in oral language, phonemic awareness, letter/sound correspondence, and basic reading. May count RSED 5130 or RSED 6130.

RSED 5140 CURRICULUM IN SEVERE DISABILITIES (3) LEC. 3. Pr. RSED 3010. Understanding a functional/developmental approach to selecting, developing, implementing, and evaluating appropriate curriculum activities for instructing students with severe disabilities. May count RSED 5140, RSED 6140, or RSED 6146.

RSED 5150 LITERACY METHODS IN SPECIAL EDUCATION (3) LEC. 3. Instructional strategies in reading for students with disabilities. May count RSED 5150 or RSED 6150.

RSED 5160 FRAMEWORK FOR COLLABORATION IN K-12 (3) LEC. 3. Admission to Teacher Education. Collaborative teaching, consultation, and teaming as a critical best practice in serving students with disabilities. May count RSED 5160, RSED 5163, RSED 6160, or RSED 6166.

RSED 5170 TRANSITION AND SECONDARY METHODS (3) LEC. 3. History, philosophy, models, and definitions of transition with emphasis on best practices, secondary methods, programs, and services. May count RSED 5170 or RSED 6170.

RSED 5180 LITERACY AND INSTRUCTIONAL CLASSROOM MANAGEMENT (3) LEC. 3. This course is designed to provide students with the understanding of literacy development and the practical application and management of interventions to support written language, vocabulary, and reading comprehension. The focus of this class will be to discuss proactive approaches to supporting students' literacy development. Students will be introduced to applied and research readings related to instructional management. These research findings will be integrated into discussions on the practical aspects of developing effective programs. After completing this class, students will be able to design and implement effective literacy and instructional strategies. May count RSED 5180 or RSED 6180.

RSED 5190 FUNCTIONAL CURRICULUM AND TRANSITION (3) LEC. 3. This course prepares teachers to support students who follow an alternative curriculum in elementary and secondary settings. This includes teaching functional skills, community-based instruction and supports for transition to post-secondary settings. May count either RSED 5190 or RSED 6190.

RSED 5200 VOCATIONAL EVALUATION IN REHABILITATION (3) LEC. 3. Vocational evaluation and work adjustment techniques and strategies used within the rehabilitation process. May count RSED 5200, RSED 5203, RSED 6200, or RSED 6206.

RSED 5210 OCCUPATIONAL INFORMATION (3) LEC. 3. Identification, location, and use of data resources for job accommodation and modification strategies, labor market surveys, and job placement of persons with disabilities. May count RSED 5210, RSED 6210, or RSED 6216.

RSED 5220 PLACEMENT SERVICES IN REHABILITATION (3) LEC. 3. Theories, strategies, and techniques for job development, accommodation, modification, and placement of people with disabilities with application skills needed to facilitate employment. May count RSED 5220, RSED 5223, RSED 6220, or RSED 6226.

RSED 5230 REHABILITATION ASSISTIVE TECHNOLOGY (3) LEC. 3. Basic computer literacy; use of commercially available software, and assistive technology for use by persons with disabilities. May count RSED 5230, RSED 6230, or RSED 6236.

RSED 5300 TRANSITION AND EMERGING ADULTHOOD IN REHABILITATION SERVICES (3) LEC. 3. This course is an introduction to the transition process of youth with disabilities from school to adulthood and employment with an emphasis on the developmental stages of emerging adulthood and the services surrounding this specialized area for rehabilitation professionals.

RSED 5330 ASSESSMENT FOR ELIGIBILITY (3) LEC. 3. This course provides students with a framework for understanding the purposes and processes that underlie various forms of educational assessments, with emphasis on standardized assessments for evaluating students with disabilities. This course will include assessment processes for eligibility for each category of special education eligibility. The course provides opportunities for application of concepts in assessment in special education as well as administration, review, and interpretation of standardized assessment data. The course covers historical, ethical, practical, and theoretical perspectives on identifying disabilities and planning individualized instructional programs for students with special needs. May receive credit for RSED 5330 or RSED 6330.

RSED 5340 FOUNDATIONS OF SUBSTANCE USE COUNSELING (3) LEC. 3. Provides knowledge of the nature of substance abuse, drug classification, models of addiction, assessment and diagnosis, treatment, and related issues. May count RSED 5340, RSED 6340, or RSED 6346.

RSED 5420 SPECIALIZED CURRICULUM IN MATHEMATICS (3) LEC. 3. This course will provide learners with understanding of a functional/developmental approach to the selection, development, implementation, and evaluation of appropriate mathematics curriculum and activities for the instruction of students with high incidence disabilities in grades 3-5. Content includes extensive exploration of various curricular theories focusing on individual and group approaches in mathematics concepts. May count for RSED 5420 or RSED 6420.

RSED 6000 ADVANCED SURVEY OF EXCEPTIONALITY (3) LEC. 3. This course is an advanced study of exceptionality with emphasis upon the educational implications of disability and current issues in special education and rehabilitation. May count RSED 5000, RSED 6000, or RSED 6006.

RSED 6010 MEDICAL VOC & PSYCHOSOCIAL ASPECTS OF DISABILITY (3) LEC. 3. An introduction to medical terminology, body systems, common physical and cognitive conditions therapeutic/restorative services, and psychosocial & vocational considerations of various disabilities. May count RSED 6010 or RSED 6016.

RSED 6040 LEARNING DISABILITIES (3) LEC. 3. Historical perspective, theoretical concepts, etiology, diagnosis, definition, and classification of individuals with learning disabilities. Educational and rehabilitative approaches and contemporary issues are emphasized. May count RSED 5040, RSED 6040, or RSED 6046.

RSED 6100 INFANTS AND TODDLERS WITH DISABILITIES (3) LEC. 3. Historical, legislative, and philosophical basis of early intervention for young children, birth through age two, with special needs and their families. May count RSED 5100, RSED 6100, or RSED 6106.

RSED 6110 CURRICULUM IN EARLY CHILDHOOD SPECIAL EDUCATION: LITERACY AND DEVELOPMENTAL DOMAINS (3) LEC. 3. Procedures for developing, implementing, and monitoring individualized educational programs in natural settings. May count RSED 5110, RSED 6110, or RSED 6116.

RSED 6120 CURRICULUM IN ELEMENTARY: LITERACY AND MATHEMATICS IN SPECIAL EDUCATION (3) LEC. 3. Functional/developmental approach to the selection, development, implementation, and evaluation of curriculum for the collaborative instruction of elementary children with disabilities. May count RSED 5120, RSED 6120, or RSED 6126.

RSED 6130 CURRICULUM IN LITERACY FOR STUDENTS WITH DISABILITIES (3) LEC. 3. This course is designed to provide students with the understanding of language development, development of early literacy, and screening for early literacy deficits. This class will introduce language systems (orthography, phonetics, phonology, morphology, syntax, and semantics) and their role in the development of literacy. The course will provide opportunities for implementation of assessment and explicit system instruction in oral language, phonemic awareness, letter/sound correspondence, and basic reading. May count RSED 5130 or RSED 6130.

RSED 6140 CURRICULUM IN SEVERE DISABILITIES (3) LEC. 3. Understanding a functional/developmental approach to selecting, developing, implementing, and evaluating appropriate curriculum activities for instructing students with severe disabilities. May count RSED 5140, RSED 6140, or RSED 6146.

RSED 6150 LITERACY METHODS IN SPECIAL EDUCATION (3) LEC. 3. Instructional strategies in reading for students who have disabilities. May count RSED 5150 or RSED 6150.

RSED 6160 FRAMEWORK FOR COLLABORATION IN K-12 (3) LEC. 3. Collaborative teaching, consultation, and teaming as a critical best practice in serving students with disabilities. May count RSED 5160, RSED 5163, RSED 6160, or RSED 6166.

RSED 6170 TRANSITION AND SECONDARY METHODS (3) LEC. 3. History, philosophy, models, and definitions of transition with emphasis on best practices, secondary methods, programs, and services. May count RSED 5170 or RSED 6170.

RSED 6180 LITERACY AND INSTRUCTIONAL CLASSROOM MANAGEMENT (3) LEC. 3. This course is designed to provide students with the understanding of literacy development and the practical application and management of interventions to support written language, vocabulary, and reading comprehension. The focus of this class will be to discuss proactive approaches to supporting children's literacy development. Students will be introduced to applied and research readings related to instructional management. These research findings will be integrated into discussions on the practical aspects of developing effective programs. After completing this class, students will be able to design and implement effective literacy and instructional strategies. May count RSED 5180, RSED 6180.

RSED 6190 FUNCTIONAL CURRICULUM AND TRANSITION (3) LEC. 3. This course prepares teachers to support students who follow an alternative curriculum in elementary and secondary settings. This includes teaching functional skills, community-based instruction and supports for transition to post-secondary settings. May count either as RSED 5190 or RSED 6190.

RSED 6220 PLACEMENT SERVICES IN REHABILITATION (3) LEC. 3. The course is designed to familiarize students with career theory and methods used by rehabilitation practitioners to analyze and apply vocational techniques to place individuals with disabilities. May count RSED 6220 or RSED 6226.

RSED 6230 REHABILITATION ASSISTIVE TECHNOLOGY (3) LEC. 3. Basic computer literacy; use of commercially available software, and assistive technology for use by persons with disabilities. May count RSED 5230, RSED 6230, or RSED 6236.

RSED 6330 ASSESSMENT FOR ELIGIBILITY (3) LEC. 3. This course provides students with a framework for understanding the purposes and processes that underlie various forms of educational assessments, with emphasis on standardized assessments for evaluating students with disabilities. This course will include assessment processes for eligibility for each category of special education eligibility. The course provides opportunities for application of concepts in assessment in special education as well as administration, review, and interpretation of standardized assessment data. The course covers historical, ethical, practical, and theoretical perspectives on identifying disabilities and planning individualized instructional programs for students with special needs. May receive credit for RSED 5330 or RSED 6330.

RSED 6340 FOUNDATIONS OF SUBSTANCE USE COUNSELING (3) LEC. 3. Provides knowledge of the nature of substance abuse, drug classification, models of addiction, assessment and diagnosis, treatment, and related issues. May count RSED 5340, RSED 6340, or RSED 6346.

RSED 6420 SPECIALIZED CURRICULUM IN MATHEMATICS (3) LEC. 3. This course will provide learners with understanding of a functional/developmental approach to the selection, development, implementation, and evaluation of appropriate mathematics curriculum and activities for the instruction of students with high incidence disabilities in grades 3-5. Content includes extensive exploration of various curricular theories focusing on individual and group approaches in mathematics concepts. May count for RSED 5420 or RSED 6420.

RSED 7010 REHABILITATION PROFESSIONS, PROGRAMS AND ETHICS (3) LEC. 3. This course exposes students to the ethics, history and development of the rehabilitation counseling movement inclusive of its legal base, philosophies, concepts, and current socio-political trends. May count either RSED 7010 or RSED 7016.

RSED 7110 ADVANCED ASSESSMENT AND INTERVENTION EARLY CHILDHOOD SPECIAL EDUCATION (3) LEC. 3. Assessment and intervention strategies for special needs children, pre-k through 3rd grade. Departmental approval. May count either RSED 7110 or RSED 7116.

RSED 7120 ADVANCED ASSESSMENT IN SPECIAL EDUCATION (3) LEC. 3. Advanced study of educational tests and procedures for diagnosing special training problems. Departmental approval. May count either RSED 7120 or RSED 7126.

RSED 7130 ADVANCED ASSESSMENT I IN REHABILITATION (3) LEC. 3. Principles, process and techniques used to diagnose vocationally-related assets and liabilities of the individual with disabilities. May count either RSED 7130 or RSED 7136.

RSED 7150 MULTICULTURAL ASPECTS OF DISABILITIES (3) LEC. 3. Study of three main areas relevant to multicultural competencies and standards for rehabilitation professionals: (a) acquisition of communication skills; (b) attitudes towards ethnic minorities, and (c) knowledge about minority populations. May count either RSED 7150 or RSED 7156.

RSED 7200 ADVANCED INTERVENTION WITH INFANTS AND TODDLERS WITH DISABILITIES (3) LEC. 3. Pr. RSED 7100 or RSED 7106. Administration and on-going management of early intervention programs and service coordination of individualized family service plans and family support. Departmental approval. May count either RSED 7200 or RSED 7206.

RSED 7210 ADVANCED INTERVENTION IN EARLY CHILDHOOD SPECIAL EDUCATION (3) LEC. 3. Pr. RSED 7110 or RSED 7116. Curriculum methods, intervention plans, intervention methods, physical and medical management, environmental and behavioral management, and evaluation of child and family outcomes. Departmental approval. May count either RSED 7210 or RSED 7216.

RSED 7220 ADVANCED TEACHING METHODS IN SPECIAL EDUCATION (3) LEC. 3. This course presents principles and procedures associated with content enhancement, strategy instruction and universal design for learning. This course will emphasize research-supported strategies for individuals with high incidence disabilities. Students will engage in hands-on experiences and practice implementing instructional interventions appropriate for students with disabilities who participate in the general education curriculum.

RSED 7230 ADVANCED BEHAVIOR MANAGEMENT IN SPECIAL EDUCATION (3) LEC. 3. Provides skills necessary to direct academic and social performance and appropriately manage the behavior of students with special needs. Departmental approval. May count either RSED 7230 or RSED 7236.

RSED 7240 SENINAR IN REHABILITATION RESEARCH AND DESIGN (3) LEC. 3. Research in rehabilitation counseling, with focus on acquisition of knowledge about traditional and recent developments in research methods, and skill application. May count either RSED 7240 or RSED 7246.

RSED 7310 PROPRIETARY REHABILITATION (3) LEC. 3. Vocational rehabilitation in private sector including case management and expert witness for workers compensation, personal injury litigation, and social security.

RSED 7320 INDIVIDUAL COUNSELING APPROACHES IN REHABILITATION COUNSELING (3) LEC. 3. Survey of theoretical approaches involved in individual counseling with an emphasis on persons with disabilities using an eclectic point of view and psycho-educational approach. May count either RSED 7320 or RSED 7326.

RSED 7400 CURRICULUM AND TEACHING IN SPECIALIZATION (3) LEC. 3. Curriculum design, content, and materials selection related to teaching practices in areas of specialization (intellectual disability, learning disabilities, behavioral disorders, etc.). RSED 7400 and RSED 7406 may be repeated for a maximum combined total of 6 credit hours.

RSED 7410 PROGRAM IMPLEMENTATION IN SPECIALIZATION AUTISM (3) LEC. 3. This course presents principles and procedures for implementing educational programs for children and youth with autism spectrum disorders. Students will apply their knowledge of evidence-based practices for children and youth with ASD by planning and implementing accommodations, instructional methods, and behavioral supports.

RSED 7420 RESEARCH IN SPECIALIZATION (3) LEC. 3. Examination and interpretation of applied research in specialization area (intellectual disabilities, learning disabilities, behavioral disorders, etc.). Course may be repeated with a change in research area. May count either RSED 7420 or RSED 7426. Course may be repeated for a maximum of 6 credit hours.

RSED 7430 RESEARCH INTO PRACTICE (3) LEC. 3. Applied opportunities for translating instructional and behavioral research into practice. The course may be repeated with a change in research topic. Departmental approval. May count either RSED 7430 or RSED 7436. Course may be repeated for a maximum of 6 credit hours.

RSED 7440 SEMINAR IN SPECIALIZATION (3) DSL/SEM. 3. Departmental approval. Advanced students and professor(s) engage in critical thinking regarding selected concepts, theories, research and issues germane to the field of disabilities. Course may be repeated with change in topics.

RSED 7460 POSITIVE BEHAVIOR SUPPORTS (3) LEC. 3. Evaluating and implementing Positive Behavior Interventions and Supports (PBIS) for students grades PK through 12 in traditional and alternative educational settings. May count either RSED 7460 or RSED 7466.

RSED 7470 LEADERSHIP IN SPECIAL EDUCATION (3) LEC. 3. The goal of competent teacher leadership in special education is to provide the supports necessary to ensure effective instruction for all students in a variety of contexts. This course is designed to develop the knowledge, skills, understanding, and attitudes necessary to support special education leadership across an educational service delivery continuum.

RSED 7480 PROGRAM IMPLEMENTATION BIRTH TO AGE 5 (3) LEC. 3. This course provides advanced understanding of a family and child centered practices which include the development, implementation, and evaluation of appropriate routine based and curriculum activities for children ages birth to age 6 with mild learning/behavior disabilities and their families. Content also includes extensive exploration of various curricular and development theories, transition, assistive technology, assessment, and program planning.

RSED 7511 PRACTICUM PRE-K TRADITIONAL (1-3) LEC. 14. LAB. 2. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7531 PRACTICUM TRADITIONAL ELEMENTARY I (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7541 PRACTICUM ELEMENTARY II TRADITIONAL (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Departmental approval required. Course may be repeated for a maximum of 3 credit hours.

RSED 7551 PRACTICUM (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Content focus of study area will be translated into specific objectives with advanced student learning guided by the instructor. The department's policy is to restrict independent study only for content not covered in RSED's course listing. Course may be repeated for a maximum of 3 credit hours.

RSED 7911 PRACTICUM ELEMENTARY I LITERACY & NUMERACY (1-3) LEC. 2. LAB. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7920 CLINICAL RESIDENCY (1-9) DSL. SU. Comprehensive supervised on-the-job experience in a school, college or community-based setting serving individuals with disabilities. Course may be repeated for a maximum of 12 credit hours.

RSED 7931 PRACTICUM ELEMENTARY II LITERACY & NUMERACY (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7940 ADVANCED THEORIES IN REHABILITATION COUNSELING (3) LEC. 3. Intensive study of advanced theories within rehabilitation counseling, as well as an examination of outcome research relating to the use and application of these theories and techniques. May count either RSED 7940 or RSED 7946.

RSED 7941 PRACTICUM SECONDARY I LITERACY & MATH (1-3) LEC. 2, FLD. 14. SU. The practicum provides the candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7950 EMERGING ADULTHOOD AND TRANSITION IN REHABILITATION (3) LEC. 3. Introduction to the transition process of youth with disabilities from school to adulthood and employment with emphasis on the developmental stage emerging adulthood. May count either RSED 7950 or RSED 7956.

RSED 7951 PRACTICUM PRE-K – SECONDARY II (1-3) LEC. 2. LAB. 14. SU. The practicum provides the advanced candidate the opportunity during his or her career preparation to translate theory and research into practice in an educational or community service delivery setting aligned with degree program option. Department approval. Course may be repeated for a maximum of 3 credit hours.

RSED 7980 NON-THESIS PROJECT (1-3) DSL. SU. Course may be repeated for a maximum of 10 credit hours.

RSED 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. The content focus of the study area will be translated into specific objectives with the student learning toward that end, guided by the instructor. In addition to regular meetings with the instructor, the student will be evaluated and graded according to learning performance. The department's policy is to restrict independent study only for content not covered in RSED's course listing. Course may be repeated for a maximum of 10 credit hours.

RSED 8010 DISABILITIES AND RESEARCH METHODS (3) LEC. 3. Departmental approval. History, principles, and methodology of single subject research with emphasis on the various types of research designs applied in rehabilitation and special education.

RSED 8020 DISABILITIES AND APPLIED RESEARCH IN MEASUREMENT (3) LEC. 3. Departmental approval. Classical measurement theory, individual differences determination, constructs related to diagnostic labels, measurement bias and fairness, nature-nurture controversy, and clinical versus statistical inference.

RSED 8030 DISABILITIES AND PROFESSIONAL ISSUES (3) LEC. 3. Critical and contemporary issues regarding disability and its relationship to the leadership roles of professionals in special education and rehabilitation. May count either RSED 8030 or RSED 8036.

RSED 8040 DISABILITIES AND ASSISTIVE TECHNOLOGY (3) LEC. 3. Departmental approval. Adaptive technology for use by persons with disabilities and proficiency in the use of computers and the World Wide Web as they relate to disabilities.

RSED 8050 DISABILITIES AND THE LAW (3) LEC. 3. Departmental approval. Development of rehabilitation and special education laws from a historical, policy, leadership, and advocacy. perspective.

RSED 8060 DISABILITIES AND LIFE SPAN TRANSITIONS (3) LEC. 3. Departmental approval. Advanced study of historical, legal, legislative, philosophical, and service delivery issues and trends with emphasis on research studies and programs.

RSED 8070 PROFESSIONAL SEMINAR (3) LEC. 3. SU. Departmental approval. A series of doctoral seminars devoted to professional technical writing, grant writing, management, and research. Course may be repeated with change in topics.

RSED 8230 EXAMINING DISABILITY DATABASES (3) LEC. 3. Conducting descriptive and correlational research by using existing publicly available databases in the field of disabilities.

RSED 8900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Content focus of study area will be translated into specific objectives with student learning guided by the instructor. Course may be repeated with change in topics.

RSED 8950 SEMINAR (1-3) DSL/SEM. Departmental approval. Provides an opportunity for advanced graduate students and professors to pursue cooperatively selected concepts and theoretical formulations. Course may be repeated for a maximum of 9 credit hours.

RSED 8980 NON-THESIS PROJECT (1-10) DSL/IND. SU. Departmental approval. May be repeated with change in topic. Provides an opportunity for advanced graduate students to pursue a project of interest. Course may be repeated with change in topics.

RSED 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Course may be repeated. Course may be repeated with change in topics.

Stats courses approved by program		6
Total Hours		**33**

COUN 8910: Advanced Practicum can substitute for COUN 7910 (the student must still complete 6 credits total from COUN 7910 or COUN 8910).

In addition to the above stated requirements, students must submit documentation of their clinical hours (including hours of direct provision of psychotherapy services to clients), evaluation forms completing by external supervisors for the two semesters of COUN 7910 (COUN 8910, if used to substitute for COUN 7910), and annual self-evaluations required by the program using the program form.

The student must meet the following additional outcomes beyond completion of courses with grades of Satisfactory (for S/U) courses and a GPA of 3.0 or better for traditionally graded courses: (A) accumulate 100 hours of direct provision of psychotherapy services to clients; (B) receive ratings of "consistent with beginning practicum student" or better in two semesters of practicum (COUN 7910 or COUN 8910) for the following items on the student evaluation form completed by external supervisors: (1) ability to form good relationships with clients, (2) ability to work with diverse clients (a rating of "cannot judge" is acceptable for one of the two semesters of this particular outcome but no ratings of "below expectations" or worse are acceptable for the two semesters used to meet this required outcome for the MA degree), and (3) ability to handle cases more effectively as a result of supervision; (C) two semesters of practicum ratings in which they did not receive a rating suggesting that the supervisor believes the student violated ethical principles of psychologists (this criterion requires that, for two semesters of practicum, a supervisor not indicate "yes" in response to the question, "Do you have any reason to believe that the student has violated ethical principles of psychologists?" found on the rating form that is completed by external supervisors); (D) successful completion of an outcome assessment assignment used in COUN 7910 (successful completion is defined as "acceptable/meets expectations/satisfactory" or better); and (E) receive a rating of satisfactory on making progress in research from program faculty during annual faculty evaluations of students.

Doctor of Philosophy

The American Psychological Association (APA) is the accrediting body for this program. The APA implemented new standards (called the Standards of Accreditation) with corresponding Implementing Regulations (which specify how standards are to be met and can be modified more frequently) that became effective January 1, 2017. This curriculum is designed to meet those standards.

Collaborative Teacher Education (RSCB)

The **Bachelor of Science in Collaborative Teacher Education** program prepares students to be teachers who serve students with disabilities in grades K-12. The program includes coursework that covers most disabilities with the exception of sensory impairments and certain severe disabilities. Graduates are prepared to implement evidence-based practices in inclusive general education settings as well as develop programs that meet students' unique educational needs in different school-based and community-based settings. Collaborative Teacher Education (RSCB) meets the criteria for ALSDE Level B certification in K-12 grade levels.

Early Childhood/Elementary Special Education: P–6 (RSDB)

The **Bachelor of Science in Early Childhood/Elementary Special Education** prepares teachers and early interventionists to serve children with a variety of disabilities from birth to age 9 in a range of settings from home to elementary school. Graduates are prepared to implement evidence-based practices that support families and the development of young children who have or are at risk for developmental delays and disabilities, as well as elementary-age students with disabilities. Early childhood/elementary special

education (RSDB) meets the criteria for ALSDE Level B certification in birth through 6th grade. RSDB includes infants and toddlers (birth to 2 years of age); preschoolers (3 to 4 years of age); and K-6 grade levels.

1 Prerequisite: Admission to Teacher Education
2 Prerequisite to RSED 4920
3 Corequisite with RSED 4920

Rehabilitation and Disability Studies (RSRB)

Our 120-credit hour Rehabilitation and Disability Studies Bachelor of Science program prepares students to become professionals in the fields of disability studies and services which include counseling, allied health fields (Occupational Therapy/Physical Therapy), case management, human services, orthotics and prosthetics, and other related fields. Coursework covers the foundation and history of the disability movement. The program has a large field experience component that allows students to gain experience working with consumers in different areas of rehabilitation services. We focus on current research in rehabilitation strategies and processes.

Total Hours: 120

1 Students must complete a history sequence or a literature sequence.
2 Students are required to complete four hours of practicum, which may be taken over 2-4 semesters.

EAGLES Program

The Education to Accomplish Growth in Life Experiences for Success, or EAGLES, is a comprehensive transition program (CTP) for students with intellectual disabilities. The program provides a post-secondary education opportunity for students with intellectual disabilities to engage in a two or four-year campus experience to help students achieve their employment and independent living goals upon successful completion of the program.

The EAGLES program is a non-degreed program focusing on (1) academic enrichment, (2) personal and social skills, (3) independent living skills, (4) health and wellness, and (5) integrated work experiences. Students in the program receive an inclusive post-secondary education providing them with an enriching and rewarding Auburn experience as they prepare to transition to gainful employment, that aligns with the student's strengths and interests and independent living. The EAGLES program curricula are structured to help students become contributing members of society through their career interests both now and in the future.

Inclusive Elementary Education Practices — Graduate Certificate

This graduate certificate provides opportunities for elementary teachers in general education or special education to learn about curricula design, specialized teaching techniques, program implementation, current research directions and findings, and translating research into elementary inclusive teaching practices.

The program requires 15 hours of coursework. Everyone in the program will complete six hours of required coursework. Key assessments will be included in these classes which will be used for program evaluation. Students will select nine additional hours of coursework from a given list.

Code	Title	Hours
Required Courses (6 hours)		
CTEE 7010	Approaches to Teaching (Required) Fall	3
RSED 7220	Advanced Teaching Methods in Special Education (Required) Summer	3
Choose 9 hours from options below		
RSED 7460	Positive Behavior Supports (Optional) Fall	3
CTEE 7420	Curriculum and Teaching in Language Arts (Grades K-6) (Optional) Fall	3
CTEE 7440	Curriculum and Teaching in Mathematics (Grades K-6) (Optional) Summer	3
RSED 6160	Framework for Collaboration in K-12 (Optional) Fall	3

Counselor Education – School Counseling Option (Certification) — MEd

Code	Title	Hours
Class A Program Checklist for School Counseling (On Campus or Online)		
Instructional Support Area: 33 hours		
At least 1/3 of the program shall be teaching field courses		
COUN 7200	Introduction to Measurement and Assessment	3
COUN 7230	Career Development and Vocational Appraisal	3
COUN 7240	Counseling Children and Adolescents	3
COUN 7310	Counseling Applications of Lifespan Development	3
COUN 7320	Counseling Theories	3
COUN 7330	Counseling Diverse Populations [1]	3
COUN 7340	Group Counseling	3
COUN 7350	Introduction to Counseling Practice	3
COUN 7400	Orientation to Professional Counseling	3
COUN 7420	Orientation to School Counsel	3
COUN 7500	Crisis Intervention in Counseling	3
Internship: 9 hours		
COUN 7920	Internship	9
Practicum: 3 hours		
COUN 7910	Practicum	3
Survey of Special Education/Diversity Course		
See RSED 6000 in Additional Courses AND COUN 7330 in Instructional Support Area [1]		
Additional Courses: 15 hours		
Required: 6 hours		

COUN 7450	Foundations of School Counseling	3
COUN 7460	Leadership and Advocacy for School Counselors	3
Select 9 hours from the following:		9
RSED 6000	Advanced Survey of Exceptionality [1]	
COUN 7250	Advanced Assessment and Diagnosis in Counseling	
ERMA 7200	Basic Methods in Education Research	
Other advisor-approved supporting courses 6000 level and above [2]		
Total Hours		**60**

1 RSED 6000 Advanced Survey of Exceptionality must be completed if survey of special education course was not completed for prior level certification. If a survey of special education course was completed for prior level certification, the state diversity course requirement is fulfilled with COUN 7330 Counseling Diverse Populations.

2 Supporting courses must be applicable to the area of certification (e.g., research, assessment/evaluation, classroom management, pedagogy, human behavior/development, foundations, technology).
In addition to the Graduate School requirement of a cumulative 3.0 GPA on all AU courses carrying graduate credit, a minimum cumulative GPA of 3.25 is required on all courses used to meet program requirements.
Coursework used to meet Class B certification requirements may not be used to meet requirements for Class A certification.
All substitutions for required courses must be approved using the Course Substitution Form, including transfer work.

ALLAN DAVID, *Associate Dean for Research*
JANET MOORE, *Assistant Dean for Student Services*

ENGINEERS ARE FACED with worldwide problems and expectations awesome in responsibility, yet exciting as professional challenges. These range from the extremes of interplanetary exploration through earth orbiting systems to the problems arising from our population explosion: energy, better productivity, housing, transportation and environmental issues.

As a renewed appreciation develops for the contributions of science and technology, engineering leaders are calling for engineers who are better equipped to tackle the specific, technical problems of the future. They also are calling for engineers who by breadth of education and understanding of other disciplines can convince others of the role of engineers not only in technical matters but in policy decisions to ensure the use of technology to benefit mankind.

Engineering education at Auburn provides in a four-year curriculum both the technical knowledge and the broad general education necessary to equip engineers for their problem-solving challenges. Centered on mathematics and the physical sciences, the curricula also stress the importance of social sciences, humanities and communication skills. Auburn’s engineering programs enable individuals to develop their natural talents and provide knowledge, skills and understanding that will help them to find their places in society as well as in their vocations.

Admission

Freshmen eligibility is determined by the Office of Enrollment Services. However, since the requirements for engineering education necessitate high school preparatory work of high intellectual quality and of considerable breadth, the following program is recommended as minimum preparation: English, four units; mathematics (including algebra, geometry, and trigonometry), four units; chemistry, one unit; history, literature, social science, two or three units. Calculus, physics and foreign languages are recommended but not required.

Transfers from other institutions must apply through the Office of Enrollment Services. The exact placement in courses can be determined only upon review of the student's transcript by the Samuel Ginn College of Engineering. See Admission of Transfer Students for complete requirements.

The college allows credit for courses completed with satisfactory grades provided the courses correspond in time and content to courses offered at Auburn. Courses that are taught at the 3000-level or higher at Auburn are generally not transferable from junior colleges.

Many courses required by the Samuel Ginn College of Engineering are highly specialized in their content and potential transfer students need to select courses with care. Therefore, to ensure maximum transferability of credits, students are encouraged to contact the College as soon as possible about acceptable credits.

Transfers from on-campus must be approved by the Samuel Ginn College of Engineering. The requirements for a student to advance from the pre-engineering program into an engineering curriculum are subsequently described in the “Scholastic Requirements” section.

Programs

Pre-Engineering

The Pre-Engineering Program consists of a freshman program of studies to prepare students for curricula in the Samuel Ginn College of Engineering. Students are provided with academic guidance and support to assist students in determining the curriculum that best fulfills their personal and educational objectives.

Pre-engineering students are eligible to move into a major upon successful completion of the academic requirements specified for each degree program. These minimum academic requirements must be completed within four resident semesters, not including the summer term between the freshman and sophomore years.

Aerospace, Biosystems*, Materials, & Mechanical Engineering

Unadjusted Cumulative Auburn GPA of 2.0

Complete the following pre-engineering courses with a grade of “C” or better:
Calculus I (MATH 1610), Calculus II (MATH 1620), Chemistry (CHEM 1030 or CHEM 1110), Engineering Physics (PHYS 1600), Intro to Engineering (ENGR 1110), Engineering Orientation (ENGR 1100), Introduction to Computing: MATLAB (COMP 1230)

*includes Bioprocess, Ecological, and Forest Engineering options

Civil, Industrial & Systems, & Electrical Engineering

Unadjusted Cumulative Auburn GPA of 2.0

Complete the following pre-engineering courses with a grade of “C” or better:
Calculus I (MATH 1610), Calculus II (MATH 1620), Chemistry (CHEM 1030 or CHEM 1110), Engineering Physics (PHYS 1600), Intro to Engineering (ENGR 1110), Engineering Orientation (ENGR 1100), Introduction to Computing: PYTHON (COMP 1220)

Chemical Engineering

Unadjusted Cumulative Auburn GPA of 2.0

Complete the following pre-engineering courses with a grade of “C” or better:
Calculus I (MATH 1610), Calculus II (MATH 1620), Chemistry I (CHEM 1110/CHEM 1111 or CHEM 1030/CHEM 1031) Chemistry II (CHEM 1120/CHEM 1121 or CHEM 1040/CHEM 1041), Intro to Engineering (ENGR 1110), Engineering Orientation (ENGR 1100)

Computer Engineering

Unadjusted Cumulative Auburn GPA of 2.0

Complete the following pre-engineering courses with a grade of “C” or better:
Calculus I (MATH 1610), Calculus II (MATH 1620), Chemistry (CHEM 1030 or CHEM 1110), Engineering Physics (PHYS 1600), Intro to Engineering (ENGR 1110), Engineering Orientation (ENGR 1100), Introduction to Computing: JAVA (COMP 1210)

Computer Science, Software Engineering

Unadjusted Cumulative Auburn GPA of 2.0

Complete the following pre-engineering courses with a grade of “C” or better:

Calculus I (MATH 1610), Discrete Structures (COMP 2240), Approved Degree-Applicable Lab Science* Engineering Orientation (ENGR 1100), Intro to Engineering (ENGR 1110), and Introduction to Computing: JAVA (COMP 1210)

*BIOL 1020/BIOL 1021 or CHEM 1030/CHEM 1031 or PHYS 1600

Professional Programs

The following undergraduate engineering programs are accredited by the Engineering Accreditation Commission of ABET (https://www.abet.org/): Aerospace Engineering, Biosystems Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial and Systems Engineering, Materials Engineering, Mechanical Engineering, Polymer and Fiber Engineering, and Software Engineering.

The undergraduate Computer Science program is accredited by the Computing Accreditation Commission of ABET (https://www.abet.org/).

These curricula are designed to meet the educational requirements of the engineering professions. The program in the fundamental sciences of mathematics, chemistry and physics is followed by a study of basic engineering sciences. Specialized or departmental courses are taken in the third and fourth years. Flexibility is provided in all degree programs through electives so that the individual may emphasize areas of personal interest.

A bioprocess engineering option, an ecological engineering option and a forest engineering option are available under the biosystems engineering program. The forest engineering option is offered jointly by the Department of Biosystems Engineering and the College of Forestry, Wildlife and Environment.

Cooperative Education

The Cooperative Education Program is offered in all curricula of the Samuel Ginn College of Engineering. Refer to the program information in the Special Academic Opportunities section of the Bulletin. For additional information, contact: Cooperative Education (Co-op) Program, 1333 Brown Kopel Student Achievement Center, Auburn, AL, 36849. Telephone: (334) 844-2250. Website: eng.auburn.edu/cdcr/co-op/index (https://www.eng.auburn.edu/cdcr/co-op/index/).

Graduate

The Samuel Ginn College of Engineering offers masters (thesis and non-thesis) and PhD degrees in aerospace engineering, biosystems engineering, chemical engineering, civil engineering, computer science and software engineering, electrical and computer engineering, industrial and systems engineering, materials engineering, mechanical engineering, and polymer and fiber engineering. The college offers additional masters degrees including the master of engineering management, master of engineering (interdisciplinary), MS in artificial intelligence engineering, MS in cybersecurity engineering, and MS in data science and engineering (joint with the College of Sciences and Mathematics). The college also offers a dual-degree master of science in industrial and systems engineering and master of business administration.

Continuing Education

The Engineering Online and Continuing Education Office extends the resources of the Samuel Ginn College of Engineering to the people, businesses and industries of the state. Programs in this service are technical assistance, short courses, conferences, workshops and seminars. For more information, contact: Director, Engineering Online and Continuing Education Programs, 217 Ramsay Hall, Auburn, AL 36849.

Online Courses

The college offers graduate-level courses for credit and non-credit to off-campus students through its Graduate Outreach Program. Graduate-level courses are recorded in the classroom on the Auburn campus and delivered to off-campus students via streaming video. Students enrolled in the program are required to do the same homework assignments and take the same exams as the on-campus students enrolled in the course. For information on admission to the program, fees, course offerings and other particulars, write to Engineering Online and Continuing Education Programs, 217 Ramsay Hall, Auburn, AL 36849 or call (334) 844-5807.

Degree Requirements

To earn the bachelor's degree in the Samuel Ginn College of Engineering, students must complete the subjects in the curriculum, have a minimum grade-point average of 2.0 in all work attempted at Auburn University and have a cumulative grade-point average of 2.0 on courses passed in the major at Auburn. The major is defined as all course work shown in bold print on the relevant curriculum model. It is the student's responsibility to keep informed of course requirements and scheduling. Failure to do so may jeopardize graduation.

Military Science

All curricula in the Samuel Ginn College of Engineering permit the use of six hours of basic or advanced ROTC courses passed at Auburn University. For the options, see the specific curriculum. For programs that do not have sufficient electives, credit will be determined on an individual basis. ROTC courses cannot be substituted for university core courses or courses required by the major except as specified in the curriculum model.

Majors

- Aerospace Engineering (p. 630)
- Biosystems Engineering (p. 640)
- Biosystems Engineering — Bioprocess Engineering Option (p. 637)
- Biosystems Engineering — Ecological Engineering Option (p. 642)
- Biosystems Engineering — Forest Engineering Option (p. 639)
- Chemical Engineering (p. 649)
- Civil Engineering (p. 665)
- Computer Engineering (p. 688)
- Computer Science (p. 677)
- Computer Science — Online Degree Completer Program (p. 675)
- Electrical Engineering (p. 690)
- Industrial and Systems Engineering (p. 702)
- Materials Engineering (p. 716)
- Mechanical Engineering (p. 717)
- Software Engineering (p. 679)

Minors

- Advanced Manufacturing Processes (p. 700)
- Business Engineering Technology (p. 700)
- Computer Science (p. 678)
- Information Technology (p. 679)
- International Business Engineering Technology (p. 703)
- Materials Engineering (p. 715)
- Material Science (p. 715)
- Nuclear Power Generation Systems (p. 718)
- Tribology (p. 718)

Undergraduate Certificates

- Applied Safety and Ergonomics
- Artificial Intelligence Engineering (p. 676)
- Cyber Defense (p. 677)
- Manufacturing Systems (p. 701)
- Pulp, Paper, and Bio-Resources Engineering (p. 649)

Graduate Programs

- Aerospace Engineering — MS, PhD (p. 1545)
- Artificial Intelligence Engineering — MS (p. 1579)
- Artificial Intelligence Engineering — Graduate Certificate (p. 1579)
- Automotive Manufacturing Systems — Graduate Certificate (p. 1689)
- Bioproducts and Bioprocessing — Graduate Certificate (p. 1557)
- Biosystems Engineering — MS, PhD (p. 1558)
- Chemical Engineering — MS, PhD (p. 1568)

- Civil Engineering — MCE, MS, PhD (p. 1571)
- Computer Science and Software Engineering — Graduate Certificate, MS, PhD (p. 1579)
- Cybersecurity Engineering — Graduate Certificate, MS (p. 1581)
- Data Engineering — Graduate Certificate (p. 1582)
- Data Science — Graduate Certificate (p. 1706)
- Data Science and Engineering — MS (p. 1582)
- Earth System Science — Interdisciplinary PhD Program (p. 1635)
- Ecosystems Engineering — Graduate Certificate (p. 1641)
- Electrical Engineering — MS, PhD (p. 1654)

- Polymer Engineering — Graduate Certificate (p. 1750)
- Power Engineering — Graduate Certificate (p. 1752)
- Pulp and Paper Engineering — Graduate Certificate (p. 1757)
- Structural Analysis in Structural Engineering — Graduate Certificate (p. 1786)
- Structural Design in Structural Engineering — Graduate Certificate (p. 1786)
- Tribology — Graduate Certificate (p. 1792)
- Water Environmental Modeling — Graduate Certificate (p. 1795)
- Water Resources Engineering — Graduate Certificate (p. 1795)
- Wireless Engineering — Graduate Certificate (p. 1797)

Aerospace Engineering Courses

AERO 2200 AEROSPACE FUNDAMENTALS (2) LEC. 1. LAB. 3. Pr. ENGR 1110 and (PHYS 1600 or PHYS 1607). C or better in PHYS 1600 and ENGR 1110. Introduction to the fundamental physical concepts required for the successful design of aircraft and spacecraft.

AERO 3110 AERODYNAMICS I (3) LEC. 3. Pr. MATH 2650 and AERO 2200. C or better in AERO 2200 and MATH 2650. Properties of fluids, fluid statics, conservation of mass and momentum, atmospheric properties, two dimensional airfoils, three dimensional wings, drag, and flight performance.

AERO 3120 AERODYNAMICS II (3) LEC. 3. Pr. ENGR 2010 and MATH 2650 and AERO 2200. C or better in AERO 2200, MATH 2650, and ENGR 2010. Principles of compressible flow including flows with area changes, friction and heat transfer. Fundamental analysis of aerodynamics and potential flow theory. Correlation of potential flow theory with experimental data.

AERO 3130 AERODYNAMICS LABORATORY (2) LEC. 1. LAB. 3. Pr. P/C AERO 2200. C or better in AERO 2200. Application of fundamental aerodynamic principles to subsonic and supersonic wind tunnel experiments.

AERO 3220 AEROSPACE SYSTEM DYNAMICS AND CONTROLS (3) LEC. 3. Pr. ENGR 2350 and MATH 2650 and (MATH 2660 or MATH 2667). C or better in ENGR 2350, MATH 2650, and MATH 2660. Modeling of system elements, classical feedback control techniques used in the analysis of linear systems, analysis of systems undergoing various motions connected with flight.

AERO 3230 FLIGHT DYNAMICS (4) LEC. 3. LAB. 2. Pr. AERO 3110 and ENGR 2350 and MATH 2650 and AERO 3220. C or better in MATH 2650 and ENGR 2350. Airplane performance and stability and control including analytical prediction of performance characteristics, experimental determination of static stability parameters, and analytical prediction of dynamic stability characteristics.

AERO 3310 ORBITAL MECHANICS (3) LEC. 3. Pr. ENGR 2350 and MATH 2650. C or better in ENGR 2350 and MATH 2650. Geometry of the solar system and orbital motion, mathematical integrals of motion, detailed analysis of two-body dynamics and introduction to artificial satellite orbits; Hohmann transfer and patched conics for lunar and interplanetary trajectories.

AERO 3610 AEROSPACE STRUCTURES I (2) LEC. 1. LAB. 3. Pr. ENGR 2070 or ENGR 2077. C or better in ENGR 2070. Fundamental concepts employed in the mechanical testing of engineering materials and structures. Load, stress, and strain measurement techniques are utilized to determine material properties and structural response.

AERO 3970 SPECIAL TOPICS (1-3) AAB. SU. Departmental approval. Investigation of various topics in Aerospace Engineering. Course may be repeated for a maximum of 6 credit hours.

AERO 4140 AERODYNAMICS III (3) LEC. 3. Pr. AERO 3110. Theoretical background essential to a fundamental understanding of laminar and turbulent boundary layers and their relations to skin friction and heat transfer.

AERO 4510 AEROSPACE PROPULSION (4) LEC. 3. LAB. 3. Pr. AERO 3120. Fundamental analysis of airbreathing jet propulsion. Introduction to chemical rocket propulsion.

AERO 4620 AEROSPACE STRUCTURES II (4) LEC. 3. LAB. 3. Pr. AERO 3610 and (MATH 2660 or MATH 2667). C or better in MATH 2660. Aircraft and space vehicle structures. An introduction to the finite element method and its application to structural analysis. The laboratory will utilize state-of-the-art software numerical solution of aerospace structural systems.

AERO 4630 AEROSPACE STRUCTURAL DYNAMICS (4) LEC. 3. LAB. 3. Pr. AERO 4620 and MATH 2650. C or better in MATH 2650. Free, forced and damped vibration of single and multiple degree-of-freedom systems. The laboratory will utilize state-of-the-art software for the analysis of the vibration and dynamic response of structural systems.

AERO 4710 AEROSPACE DESIGN I: AIRCRAFT DESIGN (3) LEC. 2. LAB. 3. Pr. AERO 3120 and AERO 3110 and AERO 3610 and P/C AERO 3230. Introduction to the principles required to design aerospace vehicles.

AERO 4720 AEROSPACE DESIGN II: AIRCRAFT DESIGN (3) LEC. 2. LAB. 3. Pr. AERO 4710. This course is continuation of AERO 4710.

AERO 4730 AEROSPACE DESIGN I: SPACE MISSION (3) LEC. 2. LAB. 3. Pr. AERO 3120 and AERO 3610 and P/C AERO 3310. Introduction to the design of space systems including the identification of launch requirements, spacecraft system components, satellite tracking and orbital analysis to achieve a stated scientific objective.

AERO 4740 AEROSPACE DESIGN II: SPACE MISSION (3) LEC. 2. LAB. 3. Pr. AERO 4730. A continuation of AERO 4730, Space Mission Design I.

AERO 4750 AEROSPACE DESIGN I: LAUNCH VEHICLE (3) LEC. 2. LAB. 3. Pr. AERO 3120 and AERO 3610 and AERO 3310. Introduction to the principles required to design aerospace vehicles.

AERO 4760 AEROSPACE DESIGN II: LAUNCH VEHICLE (3) LEC. 2. LAB. 3. Pr. AERO 4750. This course is continuation of AERO 4750.

AERO 4970 SPECIAL TOPICS IN AEROSPACE ENGINEERING (1-3) AAB. Departmental approval. Investigation of current state-of-the-art technologies in aerospace engineering. Course may be repeated for a maximum of 9 credit hours.

AERO 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. Membership in the Honors College and departmental approval required; Directed research and writing of an honors thesis. Course may be repeated for a maximum of 3 credit hours.

AERO 4AA0 PROGRAM ASSESSMENT (0) LAB. SU. Pr. P/C AERO 4710 or P/C AERO 4730 or P/C AERO 4750. Academic program assessment covering the areas of aerodynamics, aerospace structures, orbital mechanics, propulsion and vehicle design.

AERO 5110 MISSILE AERODYNAMICS (3) LEC. 3. Pr. AERO 3120. Coreq. AERO 4140. Aerodynamics of slender wing-body combinations, interference effects, linear and non-linear effects, applications to missile design and performance.

AERO 5120 ROTARY WING AERODYNAMICS (3) LEC. 3. Pr. AERO 3110. Aerodynamics and flight characteristics of rotary-wing aircraft.

AERO 5140 COMPUTATIONAL FLUID DYNAMICS (3) LEC. 3. Pr. AERO 3110. An introduction to finite-difference and finite-volume methods for solving partial differential equations of interest in fluid dynamics.

AERO 5210 FLIGHT SIMULATION (3) LEC. 3. Pr. AERO 3230. Time domain simulation of nonlinear, six-degree-of-freedom motion of flight vehicles. Development of modular digital simulations including vehicle models for aerodynamics and propulsion, control, guidance subsystems.

AERO 5330 APPLIED ORBITAL MECHANICS (3) LEC. 3. Pr. AERO 3310. Introduction to general and special perturbations; N-body and restricted three-body problems; C-W equations, targeting and rendezvous; satellite constellations.

AERO 5410 AEROACOUSTICS (3) LEC. 3. Pr. AERO 3120 or Departmental approval. Fundamental concepts in acoustics: decibel scales, sound propagation and measurement, plane and spherical waves, room acoustics, transmission and reflection, reverberant fields and noise assessment. May count either AERO 5410 or AERO 6410.

AERO 5460 PERTURBATION METHODS (3) LEC. 3. Pr. MATH 2650. Analytical solutions of nonlinear problems, ODEs, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods. May count either AERO/MATH 5460 or AERO/MATH 6460.

AERO 5520 ROCKET PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of the thermodynamics, gas dynamics and design of liquid and solid propellant rocket engines.

AERO 5530 SPACE PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of space propulsion systems. Dynamics of electromagnetic systems, ion engines, photon drives, laser propulsion.

AERO 5630 AEROSPACE APPLICATIONS OF COMPOSITE MATERIALS (4) LEC. 3. LAB. 3. Pr. AERO 3610. Basic material and manufacturing information for laminated composite structures. Computational structural analysis of typical aerospace composite structures coupled with experimental verification of the structural response.

AERO 6110 MISSILE AERODYNAMICS (3) LEC. 3. Coreq. AERO 4140. Aerodynamics of slender wing-body combinations, interference effects, linear and non-linear effects, applications to missile design and performance.

AERO 6120 ROTARY WING AERODYNAMICS (3) LEC. 3. Aerodynamics and flight characteristics of rotary-wing aircraft.

AERO 6140 COMPUTATIONAL FLUID DYNAMICS (3) LEC. 3. An introduction to finite-difference and finite-volume methods for solving partial differential equations of interest in fluid dynamics.

AERO 6210 FLIGHT SIMULATION (3) LEC. 3. Time domain simulation of nonlinear, six-degree-of-freedom motion of flight vehicles. Development of modular digital simulations including vehicle models for aerodynamics and propulsion, control, guidance subsystems.

AERO 6330 APPLIED ORBITAL MECHANICS (3) LEC. 3. Special perturbation techniques: N-body perturbations; general and restricted three-body problems; preliminary orbit determination; C-W equations, targeting and rendezvous; constellation design; mission planning.

AERO 6410 AEROACOUSTICS (3) LEC. 3. Pr. AERO 4140 or Departmental approval. Fundamental concepts in acoustics: decibel scales, sound propagation and measurement, plane and spherical waves, room acoustics, transmission and reflection, reverberant fields and noise assessment. May count either AERO 5410/5413 or AERO 6410/6416.

AERO 6460 PERTURBATION METHODS (3) LEC. 3. Pr. MATH 2650. Departmental approval. Analytical solutions of nonlinear problems, ODES, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods. May count either AERO/MATH 5460 or AERO/MATH 6460.

AERO 6520 ROCKET PROPULSION (3) LEC. 3. Analysis of the thermodynamics, gas dynamics and design of liquid and solid propellant rocket engines.

AERO 6530 SPACE PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of space propulsion systems. Dynamics of electromagnetic systems, ion engines, photon drives, laser propulsion.

AERO 6630 AEROSPACE APPLICATIONS OF COMPOSITE MATERIALS (4) LEC. 3. LAB. 3. Pr. AERO 3610. Basic material and manufacturing information for laminated composite structures. Computational structural analysis of typical aerospace composite structures coupled with experimental verification of the structural response.

AERO 6640 ADVANCED VISCOELASTICITY (3) DSL/LEC. An introduction to polymers and the theory of viscoelasticity. Topics include (1) a review of stress and strain analysis and measurement; (2) characteristics, applications, and properties of polymers; (3) polymerization and classification; (4) differential constitutive equations; (5) time and temperature behavior of polymers; (6) viscoelastic stress analysis; and (7) rate and time-dependent failure.

AERO 7100 ADVANCED SUPERSONIC AERODYNAMICS (3) LEC. 3. Pr. AERO 4140. A rigorous development of linearized and nonlinear fluid flow theories and application. Lifting surfaces, lifting bodies, duct flow, boundary layer effects, shock and expansion waves and method of characteristics.

AERO 7120 DYNAMICS OF VISCOUS FLUIDS I (3) LEC. 3. Pr. AERO 7100 or AERO 7106. Exact solutions to the Navier Stokes equations. Exact and approximate solutions of the laminar boundary layer equations. Incompressible and compressible boundary layers in theory and experiment.

AERO 7130 DYNAMICS OF VISCOUS FLUIDS II (3) LEC. 3. Pr. AERO 7120 or AERO 7126. Turbulent flows, the Reynolds stresses and turbulence modeling. Computation of incompressible and compressible turbulent boundary layers. Stability theory and transition.

AERO 7140 ADVANCED COMPUTATIONAL FLUID DYNAMICS (3) LEC. 3. Pr. AERO 5140 or AERO 6140. Advanced methods for solving problems in computational fluid dynamics. Topics include: discretization approaches, implicit solution techniques, curvilinear coordinate systems, and upwind schemes.

AERO 7150 COMPRESSIBLE FLUID DYNAMICS (3) LEC. 3. Pr. AERO 4140. Departmental approval. An introduction to the fundamental of compressible fluid dynamics. Application of conservation of mass, momentum and energy for compressible flows. May count either AERO 7150 or AERO 7156.

AERO 7160 PHYSICAL FOUNDATIONS OF TURBULENCE (3) LEC. 3. Pr. AERO 7120 or AERO 7126. Departmental approval. An introduction to turbulence using classical descriptions with a focus on the physics of turbulence phenomena. May count either AERO 7160 or AERO 7166.

AERO 7170 FUNDAMENTALS OF FLUIDS (3) LEC. 3. Introduction to principal concepts and methods of fluid dynamics; similarity and dimensional analysis; conservation of mass, momentum, and energy for flows in continuum; circulation and vorticity theorems; potential flow theory; introduction to some exact solutions based on simplifying assumptions for inviscid, viscous, unsteady, and compressible flow problems.

AERO 7200 DYNAMICS OF FLIGHT (3) LEC. 3. Departmental approval. Development of specialized concepts and methods in dynamics applicable to the modeling of flight vehicle motion. Stability concepts and analysis of the stability of flight vehicle motions. Effects of variable mass and flexibility.

AERO 7210 FLIGHT DYNAMICS OF HYPERVELOCITY VEHICLES (3) LEC. 3. Pr. AERO 7200 or AERO 7206. Departmental approval. Development of specialized concepts and methods in dynamics applicable to the modeling of hypersonic flight vehicle motion. Stability concepts and analysis of the stability of steady-state motions of very high speed flight vehicles.

AERO 7220 SPACECRAFT ATTITUDE DYNAMICS AND CONTROL (3) LEC. 3. Pr. AERO 7200 or AERO 7206. Development of specialized concepts and methods in dynamics applicable to the modeling of spacecraft rotational motion. Methods for controlling spacecraft attitude. Analysis of the attitude stability and controllability of spacecraft attitude motion. Department approval.

AERO 7330 ORBIT DETERMINATION (3) LEC. 3. Pr. AERO 6330 or AERO 6336 or AERO 6230 or AERO 6236. Elements of orbit determination; least squares, minimum norm, minimum variance solutions; batch, sequential and extended sequential filters.

AERO 7340 ADVANCED ORBITAL MECHANICS (3) LEC. 3. Pr. AERO 6330 or AERO 6336 or AERO 6230 or AERO 6236. Elements of time measurements, earth orientation/coordinate system; f and g series; Lambert's Problem; linear orbit theory and circumlunar trajectories.

AERO 7350 OPTIMAL CONTROL OF AEROSPACE VEHICLES (3) LEC. 3. Principles of optimization; Pontryagin's principle; Linear quadratic regulator; Observers, state estimation, LQG problem. Optimal output feedback; Synthesis of flight control systems. AERO 3220 or equivalent.

AERO 7360 ADVANCED TRAJECTORY OPTIMIZATION (3) LEC. 3. Departmental approval. This course reviews single- and multi-variable optimization techniques of deterministic continuous systems. A review of the necessary (KKT) and sufficient conditions for optimality is given. We will review principles of dynamic programming and the Hamilton-Jacobi-Bellman (HJB) equation. We will also review Linear Programming (LP) problems and Quadratic Programming (QP) problems. Application of the QP problems for minimum-snap trajectory optimization for path planning of quad-rotors is demonstrated. We will also introduce basic concepts of convex optimization, which uses many of the concepts introduced in the LP and QP problems. The final project is to solve a trajectory optimization problem using successive linearization, which is a widely used technique for converting non-convex problems to convex ones.

AERO 7410 LIGHT-FIELD IMAGING (3) LEC. 3. Pr. AERO 7160 or AERO 7166. Departmental approval. An introduction to light-field imaging. Topics include light parameterization, light field cameras, computational photography and Fourier slice photography theorem. May count either AERO 7410 or AERO 7416.

AERO 7420 PARTICE IMAGE VELOCIMETRY (3) LEC. 3. Pr. AERO 7120 or AERO 7126. Departmental approval. An introduction to particle image velocimetry and it variations including conventional planar PIV, stereo PIV, stereo-PIV and torno-PIV. May count either AERO 7420 or AERO 7426.

AERO 7450 AEROSPACE ENGINEERING ANALYSIS (3) LEC. 3. Analysis and techniques for solving ordinary and partial differential equations common in Aerospace applications.

AERO 7460 ADVANCED PERTURBATION METHODS (3) LEC. 3. Departmental approval. Solutions of nonlinear problems and integrals using WKB, Rayleigh-Janzen, Generalized Scales, Latta, van der Pol, Watson, Laplace, Adomian, homotopy, Pade, Liouville-Green and Burmann transformations. May count either AERO 7460/7466 or MATH 7460/7466.

AERO 7510 THRUST GENERATION (3) LEC. 3. Pr. AERO 4510. Aerothermodynamics of propulsion. Selected topics in gas dynamics, thermodynamics, and heat transfer as applied to airbreathing and space propulsion.

AERO 7520 ADVANCED AIR-BREATHING PROPULSION (3) LEC. 3. Topics emphasizing interaction between external aerodynamics and performance of airbreathing jet engines. Performance optimization of ramjet, turbojet, and turbofan engines. Component matching.

AERO 7530 AEROTHERMCHEM OF PROPULSION (3) LEC. 3. Aerothermodynamics of compressible flow, chemical propellant characteristics, heat transfer in fluid flow, statistical gas dynamics, kinetic theory of gases.

AERO 7600 AEROSPACE SOLID MECHANICS (3) LEC. 3. An introduction to solid mechanics concepts with aerospace engineering applications. The course develops equations of motions from conservation laws and introduces constitutive equations from linearized continuum mechanics perspective for aerospace related applications. Topics include elastostatic solutions, elastodynamic solutions and plasticity.

AERO 7620 AEROSPACE COMPUTATIONAL STRUCTURAL ANALYSIS: STATIC STRUCTURES (3) LEC. 3. Pr. AERO 4620. Departmental approval. Advanced techniques for the numerical solution of static elastic and plastic problems, including two and three dimensional solutions.

AERO 7630 AEROSPACE COMPUTATIONAL STRUCTURAL ANALYSIS: STRUCTURAL DYNAMICS (3) LEC. 3. Pr. AERO 4630. Departmental approval. Advanced techniques for the numerical solution to problems in structural dynamics, including steady state and transient response of two-and three-dimensional structures.

AERO 7950 SEMINAR (0) SEM. 0. SU. Weekly lectures on current developments in aerospace sciences by staff members, graduate students, and visiting scientists and engineers. Course may be repeated for a maximum of 1 credit hours.

AERO 7970 SPECIAL TOPICS IN AEROSPACE ENGINEERING (1-3) DSL. Course may be repeated for a maximum of 9 credit hours.

AERO 7980 AEROSPACE ENGINEERING PROJECT (3) LEC. 3. SU. Departmental approval. Intended for students in the MAE program. On or off-campus project. The nature of the project is to be determined by the student's major professor. Approval of the project and its final written report by the student's advisory committee is required. Course may be repeated with change in topic.

AERO 7990 RESEARCH AND THESIS (1-10) DSL/MST. Credit hours to be arranged. Course may be repeated with change in topics.

AERO 8990 RESEARCH AND DISSERTATION (1-10) DSL/DSR. Individual doctoral dissertation research. May be repeated for credit. Course may be repeated with change in topics.

Biosystems Engineering Courses

BSEN 2210 ENGINEERING METHODS FOR BIOLOGICAL SYSTEMS (2) LEC. 1. LAB. 3. Pr. (ENGR 1110 or ENGR 1113) and (PHYS 1600 or PHYS 1607) or Departmental approval. Introduction to experimental design methodology, basic engineering design and problem solving methodology for Biological Engineering. Visualization skills, computer-aided 3-D solid modeling of parts, 3-D assembly of solid part geometries, computation of mass properties, 2-D engineering drawings, engineering design process, safety, tools and fabrication processes and design, and hands-on shop fabrication of semester project.

BSEN 2240 BIOLOGICAL AND BIOENVIRONMENTAL HEAT AND MASS TRANSFER (3) LEC. 3. Pr. (MATH 2630 or MATH 2637) and (PHYS 1600 or PHYS 1607) and P/C ENGR 2010. Basic principles of heat and mass transfer with special applications to biological and environmental systems. Introduction to steady state and transient heat conduction. Convection, radiation, diffusion, simultaneous heat and mass transfer, and generation and depletion of heat and mass in biological systems.

BSEN 3210 MECHANICAL POWER FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. ENGR 2010 and MATH 2650 and P/C ENGR 2350. Basic engineering analysis, synthesis, and design concepts applied to power sources, mobile equipment, and machinery applications for agricultural, forestry, and natural resource systems.

BSEN 3230 NATURAL RESOURCE CONSERVATION ENGINEERING (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Departmental approval. Engineering analysis applied to natural resource systems. Design principles and practices in rainfall-runoff relationships, soil erosion and its prediction and control, hydraulic structures, and open channel hydraulics.

BSEN 3240 PROCESS ENGINEERING IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. BSEN 2240. Departmental approval. Theory and application of process operations in biological, food and agricultural systems. Heat transfer, fluid flow, thermal processing, evaporation, psychrometrics, refrigeration, drying freezing.

BSEN 3260 ENGINEERING FOR PRECISION AGRICULTURE AND FORESTRY (3) LEC. 2. LAB. 3. Pr. BSEN 3610 and MATH 2650. Departmental approval. Engineering aspects of spatial technologies applied to agricultural and forest production. Data collection in the field using GPS and use of field data in site specific applications. Fall.

BSEN 3310 HYDRAULIC TRANSPORT IN BIOLOGICAL SYSTEMS (4) LEC. 3. LAB. 3. Pr. (ENGR 2050 or ENGR 2053) and MATH 2650 or Departmental approval. Fluid properties, Non-Newtonian fluids and biological systems, Fluid statics, Energy equation, mass and momentum balance, pipe flow for Newtonian and Non-Newtonian fluids, dimensional analysis, compressible flows.

BSEN 3610 INSTRUMENTATION AND CONTROLS FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Pr. MATH 2650 and BSEN 2210. Departmental approval. Understanding of fundamentals of electrical circuits, sensing and sensors, simple digital electronics, analog measurement circuits, introductory digital signal processing, computer data acquisition.

BSEN 4200 POLYMERS FROM RENEWABLE RESOURCES (2) LEC. 2. Fundamental aspects of natural, biodegradable polymers, including fibers, adhesives, films and coatings, their synthesis, their structure/properties relationships, and the microbiology of their degradation.

BSEN 4210 IRRIGATION SYSTEM DESIGN (3) LEC. 2. LAB. 3. Pr. BSEN 3230. Departmental approval. Theory and design of irrigation systems for the application of water and wastewater including surveying techniques for system design. Systems include solid-set, traveler, center-pivot, and trickle. Fall.

BSEN 4250 HYDRAULIC CONTROL SYSTEMS DESIGN (3) LEC. 2. LAB. 3. Pr. BSEN 3310 or Departmental approval. Principles of energy transfer by means of fluid power. Design of hydraulic control systems using prime movers, valves, actuators, and accessories. Spring.

BSEN 4300 PROFESSIONAL PRACTICE IN BIOSYSTEMS ENGINEERING (2) LEC. 1. LAB. 3. Pr. ENGR 2070 and (BSEN 4240 or BSEN 3230). This course focuses on issues related to the professional practice of biological engineering including preparing students for transition to careers as professional engineers.

BSEN 4310 ENGINEERING DESIGN FOR BIOSYSTEMS (3) LEC. 1. LAB. 6. Pr. BSEN 4300. Departmental approval. Capstone design course in biosystems engineering emphasizing teamwork, communication, safety engineering, and economic analysis to complete an engineering design project. Spring.

BSEN 4960 SPECIAL PROBLEMS IN BIOSYSTEMS ENGINEERING (1-4) AAB/IND. Departmental approval. Faculty supervision of individual student investigations of specialized problems in biosystems engineering. May be repeated with change in problem. Course may be repeated with change in topics.

BSEN 4970 SPECIAL TOPICS IN BIOSYSTEMS ENGINEERING (1-4) DSL. Departmental approval. Individual or small group study of a specialized area in biosystems engineering. Course may be repeated for a maximum of 12 credit hours.

BSEN 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

BSEN 5220 GEOSPATIAL TECHNOLOGIES IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or Departmental approval. Geospatial technologies including GPS, GIS, and remote sensing systems applied to biosystems. Collecting, managing, and analyzing spatial data for agricultural and forest systems. Spring.

BSEN 5230 WASTE MANAGEMENT AND UTILIZATION FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. (CHEM 1040 or CHEM 1120) and BIOL 3200 and (BSEN 3230 or BSEN 4240). Introduction to animal waste management problems of confined production systems, and characterization of animal waste types. Design of biological treatment and processing systems. Departmental approval. May count either BSEN 5230 or BSEN 6230.

BSEN 5240 BULK BIOLOGICAL SOLIDS BEHAVIOR, HANDLING AND PROCESSING (3) LEC. 3. Pr. BSEN 3310 or CIVL 3310. Understanding of the properties of bulk solids and how these properties influence the behavior, handling and processability of biological solids.

BSEN 5250 DETERMINISTIC MODELING FOR BIOSYSTEMS (3) LEC. 3. LAB. 2. Pr. MATH 2650. Modeling of biosystems, methods to deal with complexity, and validation tools.

BSEN 5260 RENEWABLE ENERGY IN BIOSYSTEMS PROCESS OPERATIONS (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Application and use of renewable energy in biological, food, forest and agricultural systems including bioenergy, solar energy, wind power and geothermal. Departmental approval. May count either BSEN 5260 or BSEN 6260.

BSEN 5270 METABOLIC ENGINEERING FOR BIOPROCESS (3) LEC. 3. Pr. BIOL 3200 and (CHEM 1040 or CHEM 1120). Or with the consent of the instructor. Introduction of basic principles of bioprocess engineering and metabolic engineering, to prepare engineers and scientists for biotechnology and bioeconomy industries.

BSEN 5280 LIFE-CYCLE ASSESSMENT FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 1. Pr. BSEN 2240 and BSEN 3310. Introduces the concept of life cycle assessment (LCA) in in the context of biological engineering. Examples will include LCA applications to engineered biological systems and other engineering processes and products.

BSEN 5510 ECOLOGICAL ENGINEERING (3) LEC. 3. Pr. BSEN 3230. Ecological engineering non-point source transport of nutrients, sediment, pesticides, pathogens, and chemicals from agricultural, forestry, and urban activities. Departmental approval. May count either BSEN 5510 or BSEN 6510.

BSEN 5520 WATERSHED MODELING (3) LEC. 3. Pr. BSEN 3230. Modeling of non-point source pollution at watershed scale using Soil and Water Assessment Tool model including underlying processes that control movement of pollutants. Departmental approval. May count either BSEN 5520 or BSEN 6520.

BSEN 5540 BIOMASS AND BIOFUELS ENGINEERING (3) LEC. 2. LAB. 3. Pr. (CHEM 1040 or CHEM 1120) and MATH 2650 and BSEN 3310. This course introduces the various processes and engineering principles in converting biomass into biofuels and chemicals. The focus will be on thermochemical and biochemical conversion platforms. May count either BSEN 5540 or BSEN 6540.

BSEN 5560 SITE DESIGN FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. BSEN 3230 or (CIVL 3110 and CIVL 3010). Development of student skills in computer-aided site design and restoration by using rural and urban best management practices to reduce environmental impacts. Departmental approval. May count either BSEN 5560 or BSEN 6560.

BSEN 5570 COASTAL ECOLOGICAL ENGINEERING (3) LEC. 1. LAB. 4. Pr. BSEN 3310. Fundamentals of coastal processes and engineering and also provide an introduction to modeling the flow of water in coastal systems

BSEN 6220 GEOSPATIAL TECHNOLOGIES IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Geospatial technologies including GPS, GIS, and remote sensing systems applied to biosystems. Collecting, managing, and analyzing spatial data for agricultural and forest systems. Spring.

BSEN 6230 WASTE MANAGEMENT AND UTILIZATION FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Coreq. BSEN 3230. Introduction to the animal waste management problems of confined production systems and characterization of animal waste types. Design of biological treatment and processing systems.

BSEN 6240 BULK BIOLOGICAL SOLIDS BEHAVIOR, HANDLING AND PROCESSING (3) LEC. 3. Understanding of the properties of bulk solids and how these properties influence the behavior, handling and processing ability of biological bulk solids.

BSEN 6250 DETERMINISTIC MODELING FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Modeling of biosystems, methods to deal with complexity, and validation tools.

BSEN 6260 RENEWABLE ENERGY IN BIOSYSTEMS PROCESS OPERATIONS (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Departmental approval. Application and use of renewable energy in biological, food forest and agricultural systems including biomass and bioenergy, solar energy, wind power and geothermal.

BSEN 6270 METABOLIC ENGINEERING FOR BIOPROCESS (3) LEC. 3. Department/instructor approval. An introduction of basic principles of bioprocess engineering and metabolic engineering, to prepare engineers and scientists for biotechnology and bioeconomy industries. May count either BSEN 5270 or BSE 6270.

BSEN 6280 LIFE-CYCLE ASSESSMENT FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. This course introduces the concept of life cycle assessment (LCA) in in the context of biological engineering. Examples will include LCA applications to engineered biological systems and other engineering processes and products.
